Some time past, we sold a new Studebaker to a friend of ours. During the transaction he mentioned he was to have dinner (for the first time) with a certain family we knew fairly well. Now this family was deeply religious by nature and we knew their soonto-be guest was anything but, so we sort of wondered how the meal went.

Come the other day and in drives this Studebaker for its thousand mile check-up, so naturally we ask the man at the wheel, did he enjoy the dinner? "It was okay," says the lug. "There was a bit of strained silence when we first sat down to the table, but I told a funny story that broke

Well it's easy to break the ice when it comes to the '51 Studebaker Commander, with its wonderfully powerful V-8 engine. All you have to do is drive it a couple of blocks and you're a cuspie of blocks and you're a customer. Its power, its ease of handling, its quick, ready response and its superbly comfortable ride. make you a Studebaker fan, right then and there. The car's amazingly economical too, which is quite a trick in these days of over-inflated dollar bills.

Now, when we sell a Studebaker, the people who buy them are most efficient in making all payments, whe-ther it's for cash or 18 easy months. They like the car and such a thing as money isn't going to prevent them from keeping it. Not so, however, with a fellow we know, who sells furniture. Sold from set, some time back and two months later the payments stopped. After several form let.ers, this furniture man wrote a personal note in an effort to shame the customer into making a payment.
"What," he wrote, "would your neighbors think if I were to send my truck to take back your bedroom set," Three days later, he received a letter which read in part, "me and my neighbors have discussed this whole thing and they think it would be a duty trick."

Are you driving your car with last summer's grease and engine oil still attempting to do a full protection job? It's about time your protection in the state of t do a full protection job? It's about time you provided some relief in the form of a complete lubrication, that your car will appreciate very much. Drive in today and have it done. L. VanAttas Take Southern Trip

St. Paul's Lutheran church of Northville was the scene of the wedding of Alice Scheunemann of South Lyon and LeRoy Van Atta, Jr. of Salem. The ceremony took place Saturday evening, October 6 with Rev. E. E. Rossow officiating.

Alice is the daughter of Mr and Mrs. Albert Scheunemann and the bridegroom's parents are the L W. Van Atta, Srs Only the immediate families

and friends of the couple witnessed the wedding which was performed before an altar decorated with shaded bronze mums and lighted candelabra Given in marriage by her fa-

ther, the bride chose a street length dress of off-white moire taffeta for her wedding gown It was fashioned with a full skirt three-quarter length sleeves with a peplum at the back of the jacket. With this she wore an offwhite hat and carried a corsage

of white glamelias edged in color The new Mrs. van Atta asked her cousin, Mrs. Ray Manzel of Ann Arbor to serve as matron of honor. Her two-piece street length gown was made of deep green taffeta fashioned with a full skirt. With this she wore a deep green hat and a corsage of bronze mums.

John Currie of Berkley served as the bridegroom's best man.

Mrs. Scheunemann chose a teal blue gown for her daughter's wedding and, Mrs. Van Atta wore a deep beige dress. Both wore corsages of pink carnations.

A dinner reception was held following the ceremony at the Hotel Mayflower in Plymouth.

When the new Mr. and Mrs. Van Atta return from their trip through the southern states, they will make their home at 126 River street, South Lyon.

it's A Touchdown!

Here is a football you won't want to kick around; but every time you serve it your reputation as a hostess will land right between the goal posts for a touchdown. What could be more original and imaginative for your after-the-game party than this fluffy-textured, mouth-watering chocolate-coconut combination. New and different, it is watering enocolate-coconut combination. New and different, it is versatile, too, for it can be served in countless ways. Try, for example, piling the mixture into sherbet glasses lined with lady fingers, for a wonderful Charlotte Russe. Or use it as filling for a refrigerator cake, or in a graham cracker shell for a delectable pie.

Whether you serve this Chocolate-Coconut Sponge Mold in the novel way pictured—a football on a field of green-tinted coconut—or in some other form, this is a dessert to cheer about.

Mothers To Hear Wayne Dramatist

The Northville Mothers club will meet Monday evening, October 22 at 8:00 p.m. at the home of Mrs. Rano Papini of Wing Court. She will be assisted by Mrs. Charles Mummery and Mrs. Paul Terry.

The evening program will consist of a dramatic reading by Earl Baggett. Mr. Baggett is a senior in the Wayne university College of Education where he is completing the degree requirements for an instructor of high school speech and English. As well as attending Wayne, Mr. Baggett has studied at Michigan State Normal college in Ypsilanti and at the University of Michigan.

During his high school days in Trenton, he was active in the lo-cal F. M. station and has partcipated in radio and drama act vities throughout his college ca reer. Baggett, who is one of Wayne's outstanding readers, still finds time to maintain a B average in his classwork and for his practice teaching this semester at Western High school.

Baggett's program, "The Male Protests," is a humorous exammation of woman's folly from the ever critical man's eye-view. It is particularly popular with women audiences.

20,000 Korea Vets **Training Soldiers** At 20 Busy Posts

WASHINGTON, D. C.—More than 20,000 veterans of combat in Korea are helping train fighting men of the Army at 20 camps throughout the country.

Under the Aimy's rotation system, soldiers from the U. S. Eighth Army-after enjoying a 30-day leave—have been reassigned to units in this country where men in training will have the benefit of their experience under fire.
While these veterans were fight.

ing the Communist armies in Korea, the Army was more than doubling its strength. It now stands at approximately 1,500,000 (M). vaded, today there are 20-and at each training center combat readiness is emphasized. At present there are ten training

divisions primarily for combat training, and ten training centers primarily for technical training However, inductees assigned for technical training also receive eight weeks of combat training to prepare them for possible combat In this way, the program is kept as flexible as possible to allow the maximum amount of available combat manpower. Prior to the Communist invasion of South Korea, there were only

four training divisions at-Ft. Dix, N. J.; Ft. Knox, Ky.; Ft. Riley. Kans.; and Ft. Ord, Calif. There also was the Women's Army Training Center at Ft. Lee, Va. Today training divisions and

training centers are in operation for Infantry, Armor, Field Artillery, Anti-aircraft, Artillery, Engineers, Medical, Signal, Military Police, Ordnance, Quartermaster Chemical Warfare, Transportation and Women's Army Corps. All training divisions are assign-

ed division numbers-in each case that of a World War II division with a gallant combat history. The chief purpose in assigning these division numbers was to help an esprit de corps among new arrivals in the Army by having them belong to established units with fine military records.

Grandmother Loses Life Trying to Stop Automobile

REVERE, Mass -A 53-yearold grandmother was crushed to death here recently in a valuant effort to save two grandsons in a driverless auto Mrs. Teresa Sterita attempted to stop the moving vehicle by throwing herself in front of it.

The car carried the woman a distance of 30 feet before swerying into her front yard where she was crushed against the concrete rim of a small bathing pool

Hobby Show To End BOWLING SCORES 250th Celebration

Hitting the close of Michigan's 250th anniversary celebration in Detroit will be the Greater Southern Michigan Hobby and Gift He show to be staged at the State Fairgrounds from November 10-

Happiness and hobbies are-synonomous according to the exhibitors that will display their wares at the Hobby and Gift show. The Michigan Lapidary Society is sponsoring the event and among the interesting hobbies that will be shown are collections of ceramics, precious and semi-precious stones, wood carving, paintings, unique old fashion and modern pepper mills, hooked rugs, delicate work by silversmiths, dainty and intricate work of model boat builders, coin colections, foreign articles from the international group and many others from throughout the state.

A matinee will be staged for the little tots, so that their collection of pennies can be turned in for the shortage of copper that is needed by the government. Miss America will open the show with her first appearance

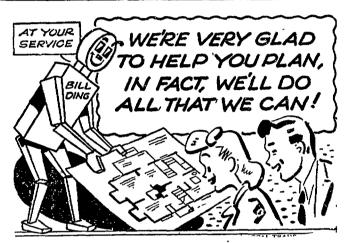

When in a foreign country and listening to the chatter of the natives I often wonder if what they are saying is as inane as what most of us say who speak English.

There are many examples of successful settling of differences by peaceful means by the UN.

In Palestine mediation and conciliation stopped a war and Israel was born. The dispute between the Netherlands and Indonesia was peaceably settled. Indonesia and Israel are now members of the UN.

The problem of India as to vhether Kashmir should be a part of India proper or of Pakistan has been referred to a plebescite by which the wishes of the Kashmiri people themselves will decide the issue

Other political problems solved without resort to aims were hose of Iran in 1946, Syria and Lebanon in 1946, and Berlin,

Chemistry and Saccharin Offer 'Heavies' Sweetness

ST. LOUIS-Now you can have your diet and eat your dessert, too. Modern chemistry has taken the sting out of the "no sweets" instruction on the diet's list of "don'ts."

Tiny pellets of saccharin turn the chemical trick to provide sweetness in desserts without including the high calories of sugar.

The synthetic sweetener, actually a condiment or flavoring agent, like salt and pepper, contains no food value, yet is so sweet that a pound of saccharin is equal in sweetening power to about 400 pounds of sugar.

Long used by diabetics and in the commercial manufacture of cereals, canned fruit and confections, its use in the home for weight control diets is now made possible by Monsanto Chemical Company of St. Louis, leading manufacturer of saccharin.

Spanish-American War Vets To Receive Higher Checks

WASHINGTON, D. C.—Over 1,000 offerans and 200 dependants of deceased veterans of the Spanish-American War will receive an increase in monthly payments start-ing in November, the Veterans Administration has announced.

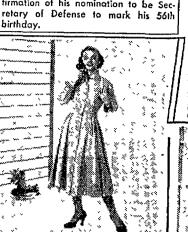

Four basic new rates are pro-vided—\$60, \$78, \$90, and \$120 under a new law to replace 15 former different rates ranging from \$15 to \$120 a month.

The V. A. said its pension rolls carry 85,246 veterans and 83,302 dependents of deceased veterans of the Spanish-American War.

Strongest Football Sector

OVER 300 N.C.A.A. colleges, embracing some 15,000 football players, have started the big joltng act. They have opened schedule that runs from September 15 to December 21, not including the various Bowls of New Year's day. This means about as much foot-

pall as even a football-minded nation can absorb without gagging. The big gap will come from the absent stars of what would have been a magnificent Army team,

now scattered to the winds. The scramble for sectional supremacy will be as keen this season as it always is. What sector will take over the lead? East, South,

Midwest, Southwest or Far West? The complete wreckage of a powrful Army squad, the most drastic

Tornado Land

The Southwest is football's torado land. The far-spreading state of Texas furnishes most of the dynamite, but not all of it.

From the Southwest we get Oklahoma, Texas A. and M., Texas, Baylor, S.M.U., Rice, T.C.U. and

A Southwestern championship is usually a carnival of form slaughter where everything can happen.

Texas A. and M. will be high. So will Baylor and Oklahoma. We like Texas A. and M., plus Baylor. This sector may produce five teams to match any other five. I doubt that any other section will have four teams better than Texas A. and M., Baylor, Texas and Oklahoma. Not even the Midwest.

What about the Far West? So far the early autumn dope doesn't indicate too much strength. But the The new laboratory is located at in Washington, with strong teams ern California.

Washington can be quite tough ind so can U.C.L.A., where Red Sanders has done an exceptional job of coaching. The sectional struggle should rest with the South, the Midwest and the Southwest.

This time I like the South or the Southwest over the Midwest. Notre Dame and Michigan are not quite what they used to be.

The Autumn Stretch

NEW YORK-Saratoga is closed after a record month and the general excitement moves back to the Big Stem.

In the last month it seems that Princeton contributed another big winner to the new list. His name is John Gaver, trainer for the Whitney's Greentree stable, who is returning to New York tracks with a brace of thoroughbreds known as Hall of Fame and Tom Fool, two of the shining lights in the two- and three-year-old divisions.

The 1952 Kentucky Derby is now over eight months away. But there are more than a few sharp observers who have already moved Tom Fool into the front spot.

Mr. John B. Campbell will have to inspect Tom Fool, Cousin, Jet Master and also a couple of Calumet entries before, he passes on his rating for the two-year-olds of 1951. You may recall that last winter Mr. Campbell named Uncle Miltie

Accidents Listed As Greatest Hazard Of New Generation

NEW YORK, N. Y.—The chances that a child born today will eventually die as the result of an accident are greater than the com-bined risk of death from pneumonia, influenza, and tuberculosis, according to statisticians. This was not the case under the mortality conditions existing as recently as 10 years ago.

"Largely because of the progress in controlling the infectious diseases, in part through the so-called 'miracle drugs,' the chances of dy ing from pneumonia or from tuberculosis have decreased rapidly," the experts report, "whereas for fatal accidents there has been but little change."

The chances at birth of eventual death from the diseases of the heart and circulatory system overshadow all other causes combined --56 chances per 100 for males, and 58 chances per 100 for females. For the next leading cause of deathcancer the comparable figures are | Dile of money, without sweat.

14 chances per 100 for males and It

For accidents, the figures are 7 per 100 for males and 5 per 100 for females, and for pneumonia, and tuberculosis combined the chances are 6 per 100 for males and 5 per

100 for females. For both the heart and other circulatory ailments and for cancer there has been a marked upward trend in mathematical probability over the decade, interpreted by the statisticians as the natural result of increased survival into midlife and old age when these conditions are most prevalent.

"It is possible to achieve improvements even in this situation by postponing the onset of these conditions, and by prolonging the lives of those already afflicted," the statisticians comment. "Such, the statisticians comment. indeed, is the purpose of present research into the health problems arising from the aging process."
