City Vote Is Set For April 6

Instructions have been received from the Secretary of State's office by Mary Alexander, Northville village clerk, and by Fred Lyke and Earl Banks, clerks of Northville and Novi townships respectively, that petitions calling for a vote on incorporation of Northville as a city have been certified and that the matter is to go on the ballot at the spring primary election April 6.

They also have received notification from county clerks that nominating petitions calling for an election of nine members of a new charter commission have been approved, and that an election to determine who shall serve on this commission is to be held at the same time. Twelve persons filed petitions for the nine available posts.

Community Bldg. Need Is Studied by New Committee

Legal Dispute Possible

Whether opponents of the city incorporation movement will endeavor to have the election invalidated or postponed on legal grounds has not been disclosed. Such a move has been talked from time to time since the city incorporation group was organized a year ago. In the present situation, where there is no legal precedent for incorporating a city lying in two counties, there admittedly are ambiguities in the law which may be subject to dispute. Consensus of informed opinion, however, is that if any legal action is undertaken by those opposed to the city, the court would move quickly to hand down a decision in time so the vote might still be taken if all legal requirements have been met.

'Town Hall' Meeting Planned

Also in prospect prior to the election is a "town hall" meeting open to the public, at which proponents and opponents of city government will have a chance to air their views. This meeting is to be sponsored by the Northville Retail Merchant's Association, under the chairmanship of Nelson C. Schrader, Jr. The date and place (probably the High School auditorium) will be set as soon as all legal technicalities concerning the election have been settled.

The tentative plan is for a three hour meeting, with each side having one hour for its chosen spokesmen to present their arguments. The final hour would be divided equally to afford each side an opportunity for rebuttal of the opposition's claims. Provision will be made for those in the audience to submit written questions to be answered.

Candidates for Election to Charter Commission

The law governing city incorporation provides that a new charter must be submitted to qualified voters for approval before the vote in favor of city government becomes effective. Should the vote in Northville be favorable, a charter commission to be elected simultaneously, would have to write a charter and submit it to a vote for acceptance or rejection. In the event that it were rejected, the charter commission would have to revise it and resubmit it at a later date. In the meantime, the present status quo would be maintained until a charter has been approved.

Those who have filed nominating petitions for membership on the Northville charter commission are:

John S. Canterbury
Patricia L. Junod
Dr. L. W. Snow
Averell Green
George L. Clark
Philip R. Ogilvie
Sl. Frid
Thomas R. Carrington
George Zerbel
H. Fray Croll
John F. Stubenvoll
Harry Richardson

Active consideration of the kind of Community Building that would be best suited to the needs of the Northville area, and of the feasibility of tying the construction of such a building into a larger over-all school enlargement program, or handling it entirely apart from the school system, probably will take place at meetings of the new Community Building Committee headed by Wilson Funk as chairman.

This committee, which was appointed last week by the Village Commission, held its first meeting Sunday afternoon, Feb. 22. No definite decisions were reached, except that committee members plan to visit various community buildings constructed in this vicinity during the past year to study what other villages and cities have done along this line.

Ask Facts From Schools

The committee also has asked the Northville school system for an analysis of its need for additional classroom and gymnasium space in the near future, its tentative building plans, if any, and the extent to which "tuition students" from outside the school district are contributing to the need for more school facilities.

Prior to the Community Building Committee's meeting, the Northville Coordinating Council on Thursday, Feb. 19 gave informal consideration to the need for a community building that would relieve the varied needs of village organizations as well as ease the pressure of crowded conditions in the Northville High School. While no definite conclusions were reached at this meeting, discussion centered to a considerable extent on what was termed a definite need for meeting space for local organizations and groups.

Will Report to Commission

Mr. Funk told the Record this week that Mr. Walter Anick, Ann Arbor architect, will report to the Village Commission at its meeting next Monday evening on the approximate cost of constructing a building according to the "minimum plans" drawn up several years ago. Mr. Funk hopes his committee will be in a position to give the Village Commission a complete report and recommendations for a Northville community building at its first meeting in April.

Miller, assisted by member Rotarians will have a bee-hive of activity in the next week when they tackle the big task of stuffing, addressing and sealing 3,000 envelopes in preparation for the month-long Easter Seal drive.

Mrs. Ida B. Cook, Northville, will again conduct an Easter Seal sale on the busy street areas either Palm or Easter Sunday.

Re-elected to the board of directors for another two year term was M. Russell Amerman, of Northville, at the annual chapter meeting, Feb. 16.

Funds raised by the local Easter Seal campaign will be used to support the services of the Wayne Out-County Chapter for crippled children and adults living in the Northville communities.

Mr. Percy Angove executive director and secretary for the Michigan Society for Crippled Children and Adults, attended the Wayne Out-County Chapter banquet, in Taylor Township.

O.E.S. Ball to be Held Friday Night

The annual ball sponsored by the Orient Chapter No. 77, Order of the Eastern Star and Northville Lodge No. 186 will be held tomorrow night, Friday, in the gymnasium of Northville High School.

Motorists Reminded to Buy 1953 Plates

Motorists are reminded that Sunday, Feb. 28 is the last day they may drive their vehicles with 1952 license plates and that new plates must be purchased by Saturday, Feb. 27.

To accommodate the last minute rush of buyers, Thomas Carrington, local agent for the Michigan Department of State, has announced that his office, the Carrington Agency, 126 North Center St., will be open Thursday, Friday and Saturday evenings.

Peter Wall Leaving to Identify Bandits

Peter Wall, victim of a merciless beating and stabbing by two Detroit thugs this week, was accompanied by Chief Joe Denton on a visit to the Wayne County Jail Wednesday to identify two suspects held there. Wall has lived in his Griswold St. home since 1908.

Netherlands Flood Relief Netted \$200 in Northville

Receipt of more than \$200 by the Netherlands Flood Relief Fund from the bake sale held at the Northville Record office Friday, Feb. 20 is announced by Mrs. Pieter Schipper, local chairman in charge of the event. This bake sale was the most successful of any ever held in Northville, Mrs. Schipper stated in expressing her thanks for the cooperation of those who provided the baked goods to be sold and those who purchased them.

A letter written by Mrs. Schipper in appreciation of local contributions follows: "As local chairman of the Netherlands Flood Relief Fund, I would like to express my appreciation to all those in Northville who made our bake sale such a wonderful success. A little over \$200 was netted. Certainly the Record office was a very busy place on Friday and I want especially to thank the management of the Northville Record for being so generous as to let us use their new office and for giving us such wonderful publicity in the paper.

"Rather than have the money added to the general fund, we have obtained permission to contact the mayor of the village of Kappelle, on the island of Zuid Beveland. Through the Netherlands Relief Fund, our money will be allotted to this village where Mr. Schipper's father was born.

"Nothing could express our appreciation better than the words of the following resolution adopted by the Netherlands Second Chamber (House of Representatives): "Deeply moved by the great current of neighborly love and solidarity of which not only the Netherlands people itself have given proof, but which also came to us from abroad as a true revelation of the fellowship of the peoples, the Chamber expresses to all friendly governments and nations the deep thanks of the Netherlands for the fortifying help received of which it hopes to prove itself worthy to the benefit of the world."

Neline M. Schipper
Local Chairman.

Bake Sale to be Held at Record Office Saturday Will Aid Jr. Police Activities

More than a hundred Northville Junior Police will benefit from proceeds of a bake sale to be held throughout the day Saturday, Feb. 28 at the Record office. The sale is the first of a series of projects planned by the recently organized finance committee composed of five Northville women to raise funds for activities of the boys which require small cash outlays.

The organization for the past six years has been maintained by private financing. Because Junior Police activity has a direct appeal to boys, there has been a growing demand for membership in the club. With this in mind, the finance committee headed by Mrs. Howard Meyer, is hoping to establish a fund designated for the boys' use to cover the increased volume of expenditures. Northville Downs Plans Improvements in Race Set-up

Major improvements are to be made in the track, grandstands and barns at Northville Downs to more adequately handle the crowds of race fans who patronize the local track and provide better accommodations for horses and owners.

This became apparent last week when State Racing Commissioner James Inglis handed Northville Downs the fattest share of the coming season's racing dates, but with the admonition that he will require the grounds and buildings to be brought up to the standard of other Detroit tracks.

Northville Downs was given 48 days for this summer, from June 15 to Aug. 8. This was a loss of only one week.

Wolverine Raceway lost three weeks in comparison with last summer's season, being allotted the 36 days from Aug. 10 to Sept. 19. The new Hazel Park Harness Raceway got 33 days, from May 7 to June 13. Jackson Raceway gets 36 days, from Sept. 21 to Oct. 31.

Expansion Started Last Summer

As early as last summer, Northville Downs had foreseen the need for more adequate racing facilities. Since then it has doubled the size of its parking lot by leasing the Harley Cole property on Center St. and the Jim Green property on Cady St. According to John J. Carlo, general manager of the Downs, two new barns also have been completed and preparations are being made to start on a third. It also is planned to build a new double barn in place of the only old one that is left, with sewers through the barn area.

Carlo announced last week that in a future season the Downs expects to extend its grandstand space to seat an additional three or four thousand spectators, and to install new lights. He plans to submit the program to Racing Commissioner Inglis by mid-March.

Driving Club Expenditures

Ownership of Northville Downs lies in the Northville Driving Club Corporation, which leases the property to a group headed by Carlo. This lease still has six years to run and has a renewal option for an additional 10 years. Although it provides that Northville Downs must make all improvements to the property, the Driving Club has spent approximately \$40,000 of its own funds during the past three years for the acquisition of property adjoining the track so the Downs management could have space for the erection of needed buildings.

The Northville Driving Club Corporation is an outgrowth of the old Wayne County Fair Association which operated fairs in Northville for 35 years prior to the start of harness racing here. The Fair Association had about 150 stockholders and, according to present Driving Club officials had difficulty making ends meet financially over most of this period. Since its reorganization as the Northville Driving Club Corporation several years ago, its stockholder list has grown to approximately 200.

Peter Wall Saved by Two Women

Peter Wall, 94-year old Northville resident, probably owes his life to two Redford Township women whose visit to his home to buy eggs Monday interrupted two Detroit bandits who were torturing him in an effort to learn where he kept his money.

It was the alertness of the women in discerning that something was wrong when a strange man answered their knock on Mr. Wall's door that caused the men to flee after severely beating the old man and slashing his throat in several places. The women, Mrs. Lou Heward, 38, of 20427 Delaware, and her sister, Mrs. Zell Rice, 28, of 20090 Delaware, both in Redford Township, ran from the house and jumped into their car to drive away. In doing so, however, they noted the license number of a strange car parked nearby and notified the Northville Police Department, which broadcast the number by radio.

Men Quickly Caught

Within a matter of minutes the sheriff's road patrol apprehended two men driving a car with the license number reported by the women, at a gas station at the corner of Five Mile and Northville-Plymouth roads. They were Marvin Norton, 38, of 3636 Bagley and Albert Rolin, 24, of 1494 Twentieth, both of Detroit. Detective Harry Cummings, of the sheriff's road patrol said Norton was carrying a pocket knife when arrested and also a change purse identified as Wall's. Both are in Wayne County Jail as this is written on a charge of robbery armed.

Northville Police Chief Joe Denton took Mr. Wall to Detroit Wednesday morning to endeavor to identify the men being held.

Mr. Wall told a Record reporter that he first became acquainted with one of the men who held him up when the man bought a chicken from him last summer and fished from his property adjoining the Ford mill pond on Griswold St.

Asked For Chicken

"When the men came Tuesday evening they asked for a chicken, but, hearing a voice of a man visiting me in the house, they said the price was too high, and left. After the visitor left they returned and told me they wanted the chicken after all.

"When I went to the coop to get the bird they followed me inside and knocked me down. Then they dragged me inside the house and threw me on the bed and started beating me and stabbing my throat."

Mute evidence of the unmerciful beating which Mr. Wall underwent was to be seen in his battered face and the broken crystal of an old fashioned pocket watch which he carried in his breast pocket. When asked why they didn't take the watch, Wall said: "Too drunk, I guess. One had a jackknife and kept stabbing at my throat to get me to tell where I hid my money. I remembered I still had \$1.50 in my other pocket, and gave them that, but they still demanded more. I couldn't make them realize I didn't have any more.

"Don't Beat Me"

"When the women came to the door I cried out to the men 'Don't beat me any more! I guess it was this that warned them to run away and call the police."

Apparently frightened away by the appearance of the women, the thugs left immediately. "After they left, I struggled over to Mrs. Catton's home to call the police, but the women had already notified them." He added gratefully, "I know they would have killed me if the ladies had not come when they did."

Mr. Wall, sprightly for his 94 years, bought his present home on Griswold street in 1909 and has lived there alone since. The sale of eggs and chickens supplement his only income, an old age pension.

Rolling Down

The River

by the PETZ BROS.

We wouldn't know, but a reader reports you can't get away with anything these days as far as Uncle Sam is concerned. Seems he mailed in a sizable income tax check, along with his report, and the post office people brought it back. If he wanted to have it delivered, they said, he'd have to come up with an extra 3c.

We do know, however, that the most beautiful car on wheels is now on display in our showroom. It's the NEW 1953 STUDEBAKER and it is class plus! Low, streamlined, continental in appearance, its beauty is breath-taking. Combined with sturdy workmanship and a powerful rugged, economical engine, it's the car you've hoped a manufacturer would build to suit your own individual needs. Come in today, come in tomorrow, it's the car you most want to see, the car that will be the most "copied" car in America tomorrow.

Getting back to taxes, as who doesn't these days, we've been informed as to why the government puts such massive doors in its Federal buildings. It's the only way they know to tax your strength.

Incidentally, we're personally inviting you to bring around your car for either an appraisal or a complete motor tune-up, plus a bit of lubrication and an oil change. If you plan to get a new car right now, or soon, we'd like the opportunity of telling you how much we'll allow. If you're not ready, the car no doubt is ready for a bit of service, which these expert mechanics in our shop will be pleased to give. Whichever you choose, bring the car around... you'll be glad you did.

That's that, but we hear the best way to discover how much value a person places on himself is to wait until he files suit after an accident.

Novi Residents Mark Completion of Community Bldg.

The largest dinner gathering ever held in the Township of Novi took place at the Novi Township Community Building Saturday, Feb. 21. The Novi Board of Commerce, in addition to holding annual ladies night supper, celebrated the completion of the new community building.

The Novi Rebekah Lodge served a turkey dinner to 210 individuals. The dinner was followed by a program with Bill Morris acting as master of ceremonies and Harold Miller, president of the Novi Board of Commerce, gave a report of the accomplishments of the past year.

Rev. J. M. McClucas, pastor of the Novi Methodist Church, complimented the gathering on their cooperation in achieving the new building and he also related the advantages of the building to the

community. The program was followed by a dance with music furnished by Harold Grimoldby's orchestra of Plymouth.

The construction of the Novi Township Community Building was originally sponsored by the Novi Board of Commerce and has been finally completed through the cooperation of the Township Board, the Board of Education and the efforts and hard work of all organizations and individuals living in the community. The building is available to the township, school and all community organizations residing within the township.

Colts Trip Trojans, 50 to 45

The Northville Colts salvaged their game against the Clarenceville reserve basketball team Friday night, but only after a 19-point lead all but disappeared. The Colts emerged with a 50 to 45 victory.

The Colts had a comfortable margin going into the final period—41 to 22—and Coach Stan Johnston emptied the bench to give his substitutes a chance to play the last six minutes. It was a move which almost led to disaster.

TROJANS SURGE

The new team, coming cold off the bench into a heated contest couldn't hold Clarenceville down. The Trojans poured in 23 points in the final quarter, more than they had accumulated in the first three periods. Coach Johnston finally sent in his regulars to put out the fire.

And therein, in this reporter's opinion, lies an obvious moral. The crowd, the spectators who support the team, cheer it on, groan with it in its defeats, exult with it in its victories, sometimes criticize too freely. This is their right, paid for with loyalty and enthusiasm, with the anguish of defeat and the willingness to string along with the team despite defeats.

But sometimes the criticisms come too easy, are too hard on the coach. And sometimes they're unjust.

COACH KNOWS BEST

Nobody is more interested in a basketball team than the coach. And nobody knows the players better. The sport is both his vocation and his hobby. He spends a large portion of his waking hours thinking about the team, and probably a good many of his sleeping hours dreaming about it, or having nightmares about it.

The coach knows very well that his team must have depth to give the regulars rest, and that depth is only acquired by letting substitutes play to gain floor experience. The team can lose players through injury, through illness and ineptitude. It must have dependable reserves. Furthermore, there's next year's team to think about.

The coach wants to play as square as he can with his players, because it's the fair thing to do, and because it develops team harmony.

EXPECTED TO WIN

But regardless of everything, the coach is expected to produce a winning team. The crowd expects this. The crowd paid admission to see a winning team. It won't support a team which constantly loses.

Handling of the team, then, should be in the coach's hands, since he is closest to it. Whether or not to use substitutes should be a matter of the coach's judgment. Nothing else will work.

The fact that the subs had a hard time Friday night is no criticism of them at all. They're younger and have had less experience than the regulars. They went into the game cold—right off the bench against a team which was limbered by action, a team which had learned the

Mustangs Salvage Trojan Game, 44-42

Northville secured its hold on second place in the Wayne-Oakland County basketball league Friday night by turning back the Clarenceville Trojans 44 to 42, while fourth-place Clarkston was upsetting Milford 52 to 42, dumping the Indians out of a tie for second into third place.

Brighton managed a 58 to 55 squeeze over the cellar-hugging Holly Bronchos to take a firmer hold on the league lead.

Northville's hopes for a share of the league title now depend on a Milford defeat of Brighton in the last game, Friday, Feb. 27. A Brighton win will give the Bulldogs undisputed claim to the title.

Even if Brighton is defeated Friday, Northville must turn back Clarkston for a title share. A Northville defeat will keep the Mustangs in second, perhaps tied with Milford.

League standings as of Feb. 20:

	W	L
Brighton	7	2
Northville	6	3
Milford	5	4
Clarkston	5	4
Clarenceville	3	6
Holly	1	8

2nd QUARTER VITAL

A well-played second quarter contributed most to Northville's victory over Clarenceville Friday night. Without it, the Mustangs would have been in serious trouble. They led 13 to 11 at the finish of the first period, then outscored the Trojans 14 to 4 in the second quarter to post a 27 to 15 halftime lead.

They maintained the lead almost intact in the third quarter, coming out 36 to 26, but the Trojans kept edging up closer and closer in the final stanza, until, with 17 seconds left in the contest, they were only two points away from a tie.

Ed Nash picked off a rebound of a Clarenceville free throw in the closing seconds, dribbled into a corner and froze the ball to the final buzzer.

SAVE A SECOND — SAVE A LIFE

Cleveland, O., —Brake lights should be in good working order, warns the National Street and Traffic Safety Lighting Bureau. Tests run with cars going 20 miles per hour show that a driver alerted by a tail light ahead braked his car in 0.98 seconds, while when there was no tail light it took him 1.96 seconds. That one second is very important particularly at night when perceptibility with respect to the lead car is very difficult. Because so many of our streets are poorly lighted—this perceptibility is many times impossible as evidenced by 1950 records which show 130 people killed and 2000 injured in accidents where tail lights were out or obscured.

Planning A Lawn? Right Seed Helps

The secret of seeding a good lawn this spring lies, among other things, in the type of seed that is planted, says Michigan State College scientists.

Suited to Michigan climate are Kentucky bluegrass, red fescue or rough bluegrass, point out James Tyson, soil scientist, and Buford Grigsby, botanist and plant pathologist. These varieties can be planted without a nurse grass such as redtop or domestic fescue, but the average lawngrower will get better results with a nurse grass. A white clover mixture is also good.

CHRISTIAN SCIENCE

That Christ Jesus came to show his true relationship to God as Father, is brought out in this Lesson-Sermon entitled "Christ Jesus to be read in all Christian Science churches on Sunday March 1. The Golden Text is from John (3:17): "God has sent his Son into the world to condemn the world; but that the world through him might be saved." Among the Bible citations is this passage, (John 5:19): Verily verily, I say unto you the Son can do nothing of himself, but what he seeth his Father do: for what things soever he doeth, these also doeth the Son likewise." Correlative passages from "Science and Health with key to the Scriptures" by Mary Baker Eddy include: "Christ expresses God's spiritual, eternal nature. The name is synonymous with Messiah and alludes to the spirituality which is taught, illustrated and demonstrated in the life of which Christ Jesus was the embodiment."

Ione Holmes is in charge of refreshments and Bill Sullivan will supervise the cleaning up. Ellen Stark heads the committee which will engage the band and Garry Hix is in charge of getting the necessary furniture. The committee which will obtain the chaperones is headed by Janie Beckel.

The teams are now at the half way mark of the season, with Team "B" holding down the first place spot with a record of three victories and no defeats; Team "C", composed chiefly of members of the faculty, is in second place with two wins and one loss. Team "D", in third place, has won one game while losing two, and Team "A" rounds out the schedule with three defeats and have yet to win a game.

The members of the teams are as follows:

Team A: Lapham, Sullivan, Johnson, Matzen, Nuottilla, Newton, Humphries, Allen and Patterson.

Team B: Scheffer, Lovett, Raskov, Wendt, Clarke, Rambeau, Lovewell, Burton and Cockin.

Team C: Jones, Schipper, Johnson, Kay, Rogers, Heslip, Page and Bonnet.

Team D: Russell, St. Lawrence, Grissom, Kearney, Bennett, Burgess and G. Rambeau.

The schedule is so arranged that each team plays all others twice. The competition is keen and each team is divided so that one team is capable of beating another on any given night.

Fourth Grade Sees Slides of Jamaica

The Rev. Dr. Harold F. Fredsell, pastor of the First Presbyterian Church, showed his film slides of Jamaica to all fourth graders Tuesday, Feb. 10, in the lunch room of the Grade School.

The slides were of special interest to Mrs. Connor's room because pupils there have been studying "Different Kinds of Sugar" and some of the slides showed the huge sugar plantations of Jamaica.

G.A.L. Plays 2nd Game in Tourney

by Carolyn Miller

Every Tuesday afternoon from 3:45 to 5:45, the N.H.S. gym resounds with the crash of pounding feet, girlish screams, and the hoarse cry of the buzzer. Last week marked the second in a series of basketball tournaments. Barbara Prunty's team beat that of Barbara Springer 29-24; Eva White's team beat Jenny Laney's 40-19; and Sharon Teshka's team beat that of Shirley Adcox 18-12.

The season's winning team will have its name inscribed on a plaque in the trophy case.

Miss Martineau Is New Correctionist in Speech Dept.

by Carolyn Miller

The Northville Schools have acquired a new speech correction teacher to replace Mrs. Rosemary Bergin, who resigned in January after two years with us. Miss Joan Martineau, the new teacher, is a former resident of Petoskey. She has attended the University of Wisconsin and is a January graduate of the University of Michigan where she majored in corrective speech and minored in social studies.

Miss Martineau will divide her time between Northville and Plymouth because there are not enough students with speech difficulties in either school to support a full time teacher. She will spend Monday, Wednesday and Friday afternoons with the 41 Northville grade and high school children bothered by difficulties of speech such as articulation, stuttering, cleft palate, deafness and lisping. Miss Martineau's work will make happier, more normal children of our students with speech problems.

3rd and 4th Grades Begin Spelling Bee

Spelling lists are popular items in the Northville Grade School this time of year. Not to be outdone by the older grades, the spelling bee contest series was begun by three grade rooms last Thursday morning.

Room winners were Stevie Slater, Tommy Long and Sharon Beshear, who took honors as finalist winners.

Fourth grader Carolyn Langtry of Mr. Mardigan's room outspelled other participants on "bought", Corrine Springer and Judith Stannam were runners-up.

In order to terminate the contest, it was necessary to go into second semester spelling words which had not been studied. In observing Detroit News Spelling Bee rulings, the youngsters had a preview of the annual contests they will participate in beginning next year, grades five through eight.

Band Participates in Three Concerts

by Barbara Couse

If band directors Leslie Lee and Gene Page appear slightly harried these days, it's quite understandable!

Northville's School and Community Band has been rehearsing for three different concerts. Each of these required the preparation of a different set of music. Some thirty members are rehearsing numbers for the Wayne-Oakland League Band which first performed in Brighton on Monday evening, Feb. 9. Its second concert occurred Wednesday, Feb. 25, in Clarkston's gymnasium. The league band is composed of directors and students from Northville, Milford, Clarkston, Brighton, Clarenceville and Hollyschools. Mr. Lee conducts "Marche Slave" by Peter Tschalkowsky, and Mr. Page leads the organization in "The Crimson Flush" by Robert Alexander.

The second occasion for which the band was preparing was the District Band Festival held Feb. 21. Bands from all around the southeastern Michigan district competed and Northville received a II rating. Judges were Oscar Anderson of Chicago Public Schools, David Hughes of Indianapolis, and Harry Begian and Homer LaGasse of Detroit Public Schools.

The third occasion for which the band has prepared was its local concert to be held Tuesday, March 10.

7th Graders Send CARE Packages

The classmates contribute the necessary articles of clothing and form CARE packages. They sent two packages at Christmas and are now preparing another.

Fred Schultz, Norman Somers, Kathleen Heatly and Carolyn Burkman formed a clarinet quartet which rated a 2. The clarinet duet and the oboe solo will now travel on to the state festival in Lansing.

Stiffer Driver Tests Planned

LANSING—A five point program to strengthen driver license examining procedures to eliminate incompetents at the wheel was approved at a conference on revision of Michigan rules and regulations for operators and chauffeurs licenses held at State Police headquarters in Lansing.

Although administration of the driver license law is shared by the State Police Commissioner and the Secretary of State, representatives of more than 23 state departments and associations having an interest in the problem were called in to offer comments and suggestions on the proposed program.

Their recommendations follow:

- 1—A new and more comprehensive written examination for beginner drivers.
- 2—More rigid vision tests.
- 3—A two day training program for the 1,500 licensed examiners in the state and close supervision thereafter. Those who did not attend the school would be disqualified.
- 4—No temporary driving permits to be issued to beginners until a check has been made of the file in the secretary of state's office containing the names of persons who have previously been adjudged by probate courts as insane or idiots, imbeciles, epileptics or feeble-minded and who have not been restored to competency by judicial decree.
- 5—A program to obtain more complete reporting of the foregoing mental cases to the department of state.

Study Group Says No New State Taxes Needed

By GENE ALLEMAN

"No new state taxes are needed to balance Michigan's budget. Just redistribute present state aid to local governments on a more equitable basis and require local governments to raise more taxes by a uniform state-wide equalization of property values."

That, in a nutshell, is the heart of the latest tax study before the Michigan legislature this week.

The recommendations were made by two tax experts from Princeton University, hired by the Citizens' Advisory Committee on Taxes. The experts themselves were prudent enough to term their plan "a long range solution" and hence fortified it with ways whereby emergency revenues

might be obtained for immediate use.

Because the solution would take away from some local governments a big slice of state aid funds, Michigan legislators have been openly cool.

Briefly, the experts' plan is this:

1. No new permanent taxes are required to keep the state functioning once the deficit is liquidated.
2. A one-or-two year special tax program must be decided upon to liquidate the deficit.
3. Too high a proportion of state income is earmarked by law for specific purposes. The legislature must be left free to control monies which are now assigned automatically to prescribed funds. This creates large balances of unused money in special funds while the general fund is depleted.
4. Distribution of taxes whereby state money is divided among counties, cities, villages and townships, for schools and other purposes must be revised because gross inequities exist under the present system.

The tax study reported that \$25 to \$30 additional million will be needed next year for financing. They expect to raise this money in two ways. One is the changing the method of distributing state money already mentioned. The other is to force local government units to raise more of their own money. This, they say, can be accomplished by requiring all valuation be done according to state equalization figures instead of the present method of permitting each unit to arrange its own equalization values.

This would effect nearly every county except Wayne which is already fully equalized. It would raise the amount of money going to local units for schools and other services by \$20,470,000, an increase of 22%. It is fair to assume it would also mean a real and personal property tax increase averaging 22% for outstate residents, money which would be paid directly to their own communities and lessen the need for similar amounts of state aid.

Revision of the distribution program will tend to ease the tax load of people in cities, while reducing the amount sent to villages and townships.

The Princeton man would distribute \$40 million annually (the same amount spread this year from 1/6th of the sales tax) at a rate which would increase the cities' share from this year's \$13.03 to \$15 per capita; decrease the village share from \$10.77 to \$9.50; decrease the township share from \$6.12 to \$1.30.

Changes are suggested in the school program which would distribute the same amount of money per pupil (\$152 per grade school student; \$172 per high school student; a total of \$156 million) to the school district of residence which in turn will pay a per pupil charge to the district where the child is attending school. Dog Training Class to Begin March 6

More than 20 dogs in the Northville area can boast enrollment in the dog training class which is scheduled to begin Thursday, Mar. 5 in the high school gymnasium.

The class to be presented for the fifth consecutive year, is under the sponsorship of the Northville Recreation Committee, and the Southern Michigan Dog Obedience Training Club and will be given under the direction of Mrs. Mary Larson of Plymouth and Alfred Averill of Birmingham, expert trainers.

Registration may be made by mailing a card to "Recreation, Village Hall, Northville", containing name, address, telephone number and breed of dog to be entered in the training class.

Organ Authority to Speak Sunday Eve.

Dr. Wendling Hastings, pastor of the historic Fort Street Presbyterian Church and distinguished authority on the organ and chancel arrangements, will be the guest speaker at the Sunday evening service of the First Presby-

terian Church on March 8. A student of the pipe organ and church architecture, Dr. Hastings will use as his subject "A New Idea in Worship".

Debate Team Wins Regional Tourney

The varsity debate team of Northville High School took the spotlight at the Regional Debate Tournament held Tuesday at Farmington High School with three wins in many rounds.

Lucien Lovewell and Walter Newton, guided by their instructor, Miss Florence Panattoni, took honors from St. Clair Shores, Melvindale and Farmington high schools in succession. "Should the Atlantic Pact Nations Form a Federal Union" was the weighty topic of the "Sudden death" type of tournament in which the loss of one round immediately eliminates the debate team.

The Northville squad will meet winners of other tournaments in the state and semi-finals to be held in Northville later next month. The winners of that contest will participate in the state finals held annually in Ann Arbor on Schoolmaster's Day, some time in April.

City vs. Village Arguments

To the Editor:

As a home owner for 35 years in the Township of Northville, I, of course have been interested in the City-Village discussion.

Residents of the Township have been ably represented by their organization, the Northville Improvement Association and the letters of Mr. Northup and Mr. Hicks, but I feel it might be well to present the views of an individual.

The residents of that portion of the township indicated for annexation feel we are being treated very unfairly and in an un-American way when we are being forced to become a part of the City of Northville. Most of us have never received any services from the village and so we owe nothing to the village. If we become a part of the City we are told we will not for some time receive any of the usual services.

I am also interested in the roads. Wayne County has always done a much better job keeping its roads than has been done by the Village. They have the equipment and man power. Why can we expect to have our roads as well maintained in the future?

Being on the outskirts, we will receive naturally less attention. As a long time resident, I see no advantages to becoming a city. Our Township officials have given good service. Our township tax is almost nil; it furnishes us fire and police protection; gives us two months grace on taxes which is not usual in cities and obtains for us our share of County services.

I understand why the merchants might want to see Northville grow but why just a plain resident and home owner should be beyond my ken. I moved out here 35 years ago to get away from the city. I weighed then the advantages and disadvantages of both places and voted easily for the country. I am not interested in better stores. I have found that what I can't find in Northville, I can't find in Plymouth nor anywhere nearer than Detroit.

I have written this because I do not believe a great many people understand the unjustness of the present city plans. We plead for fair dealing for other races and religions. Why not consider the desires of the minorities of American descent?

I have noted the arguments for a city government. All of them seem to be claiming advantages for those now living in the Village. Can Dr. Snow or any other member of the committee give me one way in which I will benefit in the next two or three years by becoming a part of the City of Northville and having taxes doubled?

the whole package, including the modern City Government.

Perhaps if you were to revise the plan so as to leave the assets of the Township intact and permit citizens in the affected area to have a voice in their own affairs such a plan might meet with less opposition. We are not counting on you to do this.

The map of the proposed city shows how its boundaries to the east, loop in a great arc around the State Hospital. Either this is City planning at its best—or at its worst.

Mr. Ogilvie says the City has not diverted this tax rebate money of some \$35,000 of Hospital money within these boundaries from the Township, and he is right. The City has not diverted a thing—yet. In the next paragraph though he tells us how the City intends to divert this money to rehabilitate Gerald Avenue.

He would saddle this admitted "liability" on City tax payers even though the Township stands ready and willing to do this at the earliest opportunity. Furthermore, \$35,000 is an annual rebate. Is the rehabilitation of Gerald Avenue to be an annual event? This is the kind of involved reasoning which seeks to confuse the real issues in pettifoggery details.

Mr. Ogilvie says he can't see why anybody should be greatly concerned over the fate of some 150 inhabitants who would be brought into the city. It is a sad thing indeed when the civil rights of minority groups can be so lightly brushed aside.

Mr. Ogilvie quotes the statute as saying "that only those within the area to be incorporated shall vote on whether a city shall be formed." However he is less clear on just how Petitioners anywhere in the Township can legally petition an action affecting others and not themselves. Surely if this logic were to prevail, anyone who can sign a petition can vote.

I should also like to point out that if anyone has reason to feel aggrieved over these issues, then surely it should be the Residents of the Township who will be put to the expense of resolving these matters through legal channels.

In conclusion let me point out that these views are shared by the Officials of the Township Board; by the membership of the Township Improvement Association who draws its members from all sections of the Township and village; and by other far sighted and discerning citizens who recognize that a solvent Township is a matter of immediate practical concern to them.

(Signed)

Harold B. Putnam

EARTH'S GREAT TRIBULATION

We who are living in this generation have seen many new and terrible instruments of war, the latest of which is the new H-bomb which is comparable to many tons of TNT. The ingenious mind of man is still working to invent still more devastating armaments. All of these inventions will be used in a future global struggle such as the world has never experienced. This period is called "THE GREAT TRIBULATION" in the scriptures. It is further described by our Saviour in Matthew 24:21. "For then shall be great tribulation, such as was not since the beginning of the world to this time, no, nor ever shall be." According to our recent study in the Book of Revelation there shall be more than one billion people die in a three and one-half year period. This is one-half of the present world population. Terrible times are coming according to the Bible. The Bible promises that just before this awful day of slaughter, the Lord Jesus shall return and rescue all born again Christians from this earth. They shall ride above the storm of destruction like Noah was spared at the time of the deluge. God is still beseeching men and women to repent of their sins and believe on Jesus Christ—will you accept?
