### for the Record

by G. H. C.

Were General Motors to operate at a loss for 11 out of 14 years grave doubts would arise as to the ability of its management. If, in addition, its products were not satisfactory and failed to measure up to those of its competitors, there would be an ironclad case for a change in both management and operating methods.

Here in Northville we have a somewhat similar situation, although on a much smaller scale. Nevertheless, it deserves the attention of the Village Commission.

We refer to the Village Water Department, which leaves something to be desired in pressure at times, and has been able to operate at a profit in only three of the past 14 years. We present below the Water Department's "earnings record," as shown by the audited reports prepared annually by Iccerman, Johnson & Hoffman, certified public accountants.

Year Ended	Profit	Loss	Year Ended	Profit	Loss
Feb. 28, 1940		\$1465	1947		\$3158
1941		1424	1948		5673
1942	\$87		1949		9031
1943		16	1950		5149
1944		567	1951		871
1945		624	1952	1609	
1946		2045	1953	440	

The Water Department's ability to operate at a profit in the past two years is due to the fact that its rates were raised slightly in the fall of 1949. That they may not have been raised enough is indicated by the fact that revenues exceeded expenses last year by only \$440 as compared with an excess of \$1,609 in the previous year. Apparently costs are still rising and there may be some question as to whether the system will operate in the black this year.

We use the water department as an illustration of the need for a village manager to constantly supervise and study the manner in which the Village of Northville is operated. The continuous record of losses from 1940 through 1951 (with only one exception) shows clearly that neither the part-time Village Commission of those years nor the Village Treasurer realized fully what was happening to the water department, or if they did, they failed to comprehend the necessity for doing something about it.

A village manager could be the answer to many inefficiencies that admittedly exist in the way Northville's municipal affairs are run. We believe that if the Village Commission were to investigate the wisdom of hiring such a manager it would find many instances in which city managers have saved far more than the amount of their salaries, in addition to giving the public better administration of municipal affairs.

The Northville Record would like to see some study given to the pros and cons of hiring a village manager to assist the part-time Village Commission, and also some investigation of whether our present water rates are high enough.

### New Village Trees Must Be Watered

The new trees planted on Northville streets must have water if they are to survive, said John M. Miller of Green Ridge Nursery, who supervised planting of the trees for the Village of Northville. Residents who have had new trees planted on their property are urged to water the trees thoroughly at least once each week.

Jane Bugas, 14, (above, left) is a member of the Bloomfield Beavers, Junior Olympic Jumping Team that will compete at the opening competition of the Northville Junior Horse Show

Sunday, May 31. Mary Casenhiser (above, right) of Northville, will captain the Northville Equestrian Team at the show's team trials Sunday.

### 15 Battle Creek Riders Form Largest Outstate Group

The Northville Optimist Club's 5th annual Northville Junior Horse Show, this coming Sunday at Northville Downs, will set an all time record for number and quality of entries. When the first class gets under way at 11 a.m. Sunday morning there will be over 400 entries in the 28 classes making up the show. Post entries, which will be accepted up until noon Sunday are expected to add considerably to the total.

Making the longest trip to the show will be 14-year old Suzanne Devine from Madison, Wis., last year's Chicago equitation champion. Suzanne who will bring her Palomino, Meadow Gold Joey, and her saddle horse, Whirlwind, to Northville, is one of the few riders in the country to have championships in both saddle horse and western horse divisions. She has won many championships from coast to coast.

15 From Battle Creek Fifteen junior riders and their horses coming from Battle Creek will invade the show ring to form the largest single group from outstate. Other groups will come from Grand Rapids, Flint, Holland, Ann Arbor and other communities throughout the state, and the neighboring states of Ohio and Indiana.

The Northville show will be one of the first in the United States to list as one of its competitions the official American Horse Shows Association class of Elementary Dressage. This test of horsemanship is the International type of riding as listed under the official Olympic Equestrian Games, modified for juniors and with a view to the development of dressage riders for future United States team competition. Entered in this class are 13 juniors, Gretchen Raeder, Kitten James, Marie Lindquist, Frank Duffy, Jane Bugas, Patty Bugas, Paula Jones, Skip Dowd, Marcia Petrie, Nancy Fisher, Angela Erickson, Jocelyn Scofield and Randy Grant.

### May Purchase Gravel Property for School Site

Preliminary discussion of the possibility of the Northville School District acquiring a portion of the Manning & Locklin property at the northwest corner of Center St. and Baseline Rd. without condemnation proceedings occurred at a special informal meeting of the Northville School Board on Wednesday evening, May 13.

Mr. Manning attended the meeting upon invitation of the board and exchanged ideas with its members as to the use of five or six acres of the 58-acre piece of land which the gravel company plans to open as a gravel pit. Others present were Eural F. Clark, George L. Clark, Nelson Schrader and R. H. Amerman, of the school board, and George Matthews from the Detroit Edison Co.

Contour maps and subdivision has been removed were studied, and Mr. Perry Manning told the board he would report back with a short time with a price for which he would be willing to sell.

Since the meeting with Mr. Manning, the school board has obtained approval of the site from the State Department of Education, which stipulated that ten acres rather than six should be acquired.

### More Institutions Seek Northville Township Land

Negotiations are under way for the purchase of 200 acres of land in Northville Township contiguous to the Detroit House of Corrections farm for use of the penal institution.

In addition, a 40-acre tract on the west side of Beck Rd. one-half mile south of Six Mile, has been purchased for a parochial school devoted to mentally retarded children. This property adjoins the Wayne County Training School, which performs a similar function for children from Wayne County.

The property which the House of Correction is negotiating for is the farm of the late L. A. Young. It comprises the northwest quarter section (160 acres) of Section 16, bounded by Beck, Phoenix, Napier and Six Mile roads, and the 40 acres lying along Napier directly south of the 160-acre tract.

The property is not tied up with an option, however, and is available for private purchase as well as purchase by the City of Detroit, according to the law firm of Cook Beake, Miller, Wrock & Cross which represents the Young estate.

### Junior Olympic Team

The Junior Olympic Team competition will get under way for their first trials with three teams registered for the season's competition. This competition is sponsored by the Northville Optimist Club, and all teams must be registered in this club in order to compete.

The Western pleasure horse class will be the biggest event, with 30 entries listed, next is the hunter hack class with 20 entries.

Biggest Junior Event According to Dr. Waldo Johnson, president of the Optimists, this 5th anniversary show of the Optimist Club will be the outstanding junior event of the season, and for the first time, metropolitan Optimist Clubs are participating in the ticket sale, making it a joint effort for the benefit of the youth throughout the metropolitan area.

Refreshments will be served all during the show under the management of Al Wistert and Fred Russell. Another attraction will be an automobile show.

The Northville High School band will furnish music under the direction of Leslie Lee.

### 1953 Racing Season Starts June 15

Northville Downs will open its 1953 racing season Monday, June 15 and will operate 45 days through Aug. 8.

These dates, which were set tentatively last February by State Racing Commissioner James Inglis, subject to approval of plans by the Downs management for improving track facilities for patrons and horses, have been confirmed by the commissioner for this year.

Inglis termed the building program submitted by John J. Carle as being "in my opinion not adequate, but at least it is a start."

Still to be obtained by Northville Downs is a change in the Northville zoning ordinance that will permit parking of passenger cars in the rear of certain properties fronting on E. Cady St. and S. Center St. and backing up to land already used by the Downs for parking. The Commission signified at its last meeting that it probably will grant the change in zoning, as recommended by the Village Planning Commission, if a way can be found to limit the liberalization of zoning to the parking of passenger cars exclusively.

### Village Projects Under Discussion

The Northville Coordinating Council voted at its meeting May 21 to request the attendance of Northville Township Supervisor Mollie Lawrence and a representative of the Village Commission at its next meeting to bring Council members up to date on the status of several community projects.

Among the community projects that the Coordinating Council wishes to have discussed by the township and village representatives are progress on the 7-Mile cut-off, the Northville Community Building, and the Village situation with respect to alley and additional off-street parking lots.

### Hill Honors Friend With Scholarship

A new scholarship in the name of E. C. Stephenson, of the J. L. Hudson Company, has been donated by Attorney Clifton D. Hill, and will be awarded to the Northville High School senior submitting the best 500-word essay on the subject: "America's Greatest Opportunity." Essays must be submitted by June 5.

Mr. Stephenson has been with the J. L. Hudson Company since Aug. 15, 1916 and is vice-president in charge of finance.

A graduate of Grinnell College, Iowa, and the law school of the University of Michigan, Mr. Jones taught public speaking at Mackenzie High School. He is a member of the American Speaker's Club of Detroit and winner of the 1951 speaking contest sponsored by the club. Judge O. Z. Ide cooperated with Memorial Day chairmen Charles F. Murphy and Arthur Ash in obtaining the speaker.

To Dedicate Plot The parade will re-form following the service at the theatre and march to Rural Hill Cemetery for dedication of the new Veterans Memorial Plot established by the cooperative efforts of the Veterans of Foreign Wars and American Legion Posts, and the Village Commission. The V.F.W. will present a full Army firing squad and the Legion a Navy firing squad.

### Dedication Service

The dedication service to be held at Rural Hill Cemetery in Northville will honor war dead of this area. It represents the culmination of joint efforts of the V.F.W., Legion and Village Commission in carrying out an idea born in

the minds of Commissioner Claude N. Ely and Charles Schoutz, Legion members, more than a year ago.

They got ready cooperation from the Commission and especially from A. Malcolm Allen, superintendent of the cemetery. The V.F.W. and Legion pitched in with hours of planning, coming up with a set of rules and regulations agreeable to both organizations.

The body of Lloyd Green, first Northville serviceman killed in World War I, will rest in the center of the new plot, and four crushed stone paths, edged with cement, will lead to the grave. A new flagpole was erected this week, and a new flag will be part of the dedication ceremony. Glenn Gerrard, commander of the V.F.W., and Conrad Springer, Legion commander, along with the village's clergymen, will participate in the dedication.

## Rolling Down The River

by the PETZ BROS.

We wouldn't know for certain, but we're told of a recent bridegroom that met a friend of his, while out walking a newly acquired dog. They discussed the weather and other incidental trivia, when the friend observed the dog was certainly a nervous one. "In fact," said he, "I can't understand how your wife goes along with such an animal. Knowing her like I do, his fidgety tactics must certainly annoy her."

"They do," answered the dog owner with another tug at the leash. "Every evening about this time, she makes me take him out for a walk." As if to himself he added, "that's why I bought him!"

Of course, none of you new husbands have to go to all that trouble for a bit of solitude. All you have to do is buy your wife a brand new 1953 Studebaker and you'll have the house to yourself these evenings. She'll love the ease of handling, the extra power, the comfortable ride so much, she may even let you have your favorite poker crew over for the evening. Of course, she won't be around to serve lunch, not with a new Studebaker, the most beautiful car of the year, at her disposal. Come to think of it, you won't want to stay home either, you'll want to get out and help drive the car about. Come in for a demonstration you won't forget.

And oh yes, before we forget. A friend of ours bought his daughter a piano, telling her that if she learned to play the thing, she could become quite popular. "Daddy," she said, "I could become a lot more popular, a lot easier, if you were rich."

Well we're certain this shop of ours will never make us rich. Those fellows out there get so interested in making you and your car happy, they forget there is such a thing as a profit motive. Be a good idea if you hurried to take advantage of us and had that car of yours completely lubricated and give the motor a complete tune-up while such a situation exists.

We heard recently, from a very lovely lady that brought her Studebaker in for a bit of a check-up, that a girl's life cycle was—safety pins, fraternity pins, rolling pins, clothes pins, safety pins.

That's that, but we were reading an article on astronomy the other day. We figure that the trouble with the speed of light is it gets here too soon in the morning.

YOURS,

BILL and WILL PETZ.

# MORE ABOUT RACING

Last Week we brought the citizens of this community our first of a series of messages about the Racing situation in Michigan. We outlined the factors pointing to Union politics and an apparent conspiracy between one Wm. L. McFetridge, General President of the Building Service International, and the Teamsters Union to grab our membership, our contracts and our job rights.

We pointed out to the operators of the Race Tracks that they as EMPLOYERS would be acting more prudently, in their own behalf, if they would follow a course of high principle rather than submitting to short run expediency. It is our contention that the EMPLOYERS have assumed a responsibility, to the public, to maintain proper standards of business conduct, which include decent labor relations with their EMPLOYEES, if their business, born of a Legislative enabling act, is not to be impaired or its life endangered.

We tried to show how the social poison of bad labor relations, in the Racing Industry, in the past, had been served an antidote by the formation and operation of our Union since 1949. We believe the RECORD of our UNION has been a credit to the Racing Industry and stands up well in the light of comparison thruout the country in this field.

We are presently apprehensive that the EMPLOYERS are gambling with the fundamental processes of Collective Bargaining with their EMPLOYEES. Pursuit of this attitude might well bring the Racing Industry, to realize, BUT TOO LATE, that Racing in Michigan owes its existence to the fate of the slimmest legislative margin.

This week racing will start its season at the Michigan Racing Association in Livonia. A few weeks ago harness racing started at Hazel Park Harness Raceway. We were given assurances by the management that, pending court action currently before the Wayne County Circuit Court, EMPLOYEES with established seniority would be returned to their old jobs without discrimination. Within a matter of DAYS management sought to temporize with these assurances as first given us. We were told, BELATEDLY, that certain individuals would have to be weeded out for reasons of age and inefficiency. A school child could see thru this SCHEME and we will not dwell here upon the insincerity of any such position. Suffice to say that every EMPLOYER must understand the basic State and Federal Labor Laws. Certainly they must know that such duplicity will fool NO ONE.

EMPLOYERS in the Racing Industry of Michigan know that our Union is the legitimate and uncontested choice of the EMPLOYEES as their bargaining agency in this industry. The EMPLOYERS should know this is the right of their EMPLOYEES. Why then are the RACE TRACK OPERATORS resorting to the fiction that they must recognize any one else as the spokesmen for these WORKERS? The EMPLOYERS have

known for four years and they know now that NO OTHER UNION—International, Teamsters or anyone else—has ever bargained with or endorsed any contracts belonging to the members of our Union.

The answer is obvious. They are playing the game wherein it is hoped to create a state of suspended confusion where the EMPLOYERS will wind up dealing with NO UNION. Our members, as well as our leadership are aware of this and will NOT tolerate any such SCHEME. We realize that Racing is a source of considerable revenue to the State and consequently we will pursue our strategy with patience but with equal vigor and firmness. We remind our readers and our members that racing is effected with the public interest and a scrupulous vigilance must be maintained by the citizenry to the end that the RACE TRACK OPERATORS do not ignore the broad basic principles of public policy under which the Racing Industry must live.

This is true, whether the problem at hand relates to Labor Relations, Racing Revenue, Racing Dates, Pari-Mutuel Betting, Stock Ownership, Track Management or whatever it may be.

Our position is—that if moral decay can take hold in one segment of this industry it can, like the proverbial rotten apple, spread to all the other apples in the barrel. As both citizens and trade unionists we feel we have the moral right to ask our neighbors, the patrons of Racing and the general public to be on guard and to assist in the performance of our public duty.

We firmly state that our Union is the rightful representative of our members. If the EMPLOYERS have any doubt of this then they should seek a redetermination of this fact, and not effect any pretense of neutrality or attempt a false face of contract sanctity.

### THE ANSWER IS AN ELECTION!

Our peaceful and constructive suggestion is that the Racing Commissioner should conduct such an ELECTION, or see that one is conducted.

We ask you to write and urge the Racing Commissioner, James Inglis, Cadillac Square Building, Detroit, to do this.

Ray Carroll, President

### Notes From Grade Classes

By Barbara Couse

Grade school children have been enjoying the marble games taking place this week with Mr. Wilson Funk supervising the activity. Next week's program features several marble tournaments. As all the children seem to come away from the game with candy bars, lolly pops or balloons for prizes, they enjoy this game where you just can't lose completely. The Northville Recreation Committee and Mr. Funk are on all the children's minds—and marbles of course.

**Kindergarten** — The morning kindergarten class went to Barbara Zerbelt's home to see her tropical fish. Mr. Zerbelt explained all the different kinds to the children and fed the fish to illustrate their feeding habits. Then the children all went out to Barbara's yard and played games. Mr. Zerbelt took pictures of the children.

**1st Grade**—Mrs. Sabo's room had the experience of running their own cookie and candy store. The profit was used for room activity materials. Perhaps we have some rising young business men and women here! Mrs. Upthegrove's room is taking time to read and learn a little poetry. Using May Hill Arbuthnot's "Collection of Children's Poems" as a text, the children are learning such poems as "Three Little Kittens," "The Monkey and the Crocodile," "The Merry-Go-Round" and others. Mrs. Upthegrove feels "the miracle of the poems of this book is that the collector takes everyday experiences and gives them a new importance—a new glory that they don't have alone; when poetry does this, it becomes a shining armor against ugliness, vulgarity and brutality." The class believes poetry lifts the spirits and gives them something to grow on.

**2nd Grade**—Mrs. Schipper's class recently visited the Farm Crest Dairy. After a tour of the farm, they were treated to chocolate milk and cookies by Mr. Higbee, father of Gary Higbee who is in the class. Afterwards the children made a study of milk products and constructed a small farm in the room. The activity in Mrs. Kimball's room that rates high in interest is the individual gardens which have been planted and cared for by the children. Some had a special interest in flowers, others chose vegetables and all are eagerly watching each little garden.

**3rd Grade**—Discussion of safety rules for bicycle riders has been the topic in Mrs. Egge's room. The children made folders listing and illustrating the rules and decorated their bulletin board with these. They are also making booklets of words that are spelled and pronounced alike but have different meanings. The third graders in room 8 have completed their Weekly Reader tests and most are very proud of their achievement scores. In this room they have been very active in the marble tournament with Tommy Long and Bob Rice top scorers among the boys' and Suzanne Cowie and Vickie Woodcox tops among the girls.

**4th Grade**—Miss Fritz' room has challenged Mr. Madigan's room to a softball game. At the

end of 1 and 1/2 innings the score reads Mr. Madigan's room, 12 Miss Fritz's, 10.

For a science project the pupils of Mrs. Funk's fifth grade made an aquarium.

They collected sand and gravel, pond water, tadpoles and water plants. Two tadpoles are thriving, and watercress grows taller every day.

### Tell Me Why . . .

Win and Bill got stuck in the mud the other day.

Bob Clark didn't have a date a week ago Saturday night.

Frannie Malley sighs whenever she hears anyone mention T.B.

Jim and Jo didn't start going steady again sooner.

Joyce Farrell doesn't sit next to Bob Burgess in Science class anymore.

John Fisher is so bashful.

Max Hollis doesn't know about his secret admirer yet.

Gene Mahoney uses "garbage" to start his fires.

"Mr." Clayton Graham isn't married yet.

They had to sell the doggie in the window.

So many of the boys in the junior class never go out.

Parents have to be so old-fashioned.

Carol Sutton won't go out with Larry Meyer. (Maybe she's just bashful!)

Girls like Nancy Dewsbury have both the beauty and brains while the rest of us poor souls have neither.

Gordon McDonald and Harry Huber don't skip school anymore.

The study halls have been so quiet lately.

Charlie Rogers hasn't done anything noticeable this week.

Claudette Doan is absent so much.

Someone doesn't tart a BB or JH club (initials).

Lyda Kileen likes Garden City better than Northville.

Girls have so many more problems than boys.

JH & JG, JH & IN, JB & AJ, BB & ND, PS & PH, LG & EE, LM & CS aren't going steady.

### 6th Grade Class Has Coronation Project

The sixth grade in Mrs. Newton's room are satisfying their interest in the coronation ceremony by creating one on their bulletin board. This required considerable research work and has been a very enjoyable project.

Much enthusiasm for weaving has come forth in our classroom. We have made two very attractive scarves, one of which we are giving to Mrs. Black.

Frederick Mitchell has been home with the measles this week.

We are reviewing our work by finishing our work books.

The following people received all E's on all the review tests in spelling this week: Charles Hix, Crispin Hammond and June St. Clair. The following missed only one word: Charlene McGee, Chris Krauter and Carolyn Van Atta.

### Sixth Grade Classes Meet in Park for Lunch and Ball Game

Friday, May 22, Mrs. Newton's and Mr. Kay's sixth grade classes will meet together at lunchtime to enjoy their lunches in the park. Following lunch there will be a combined girl and boy softball game which, we hope, will settle a long-argued point of supremacy.

Mrs. Newton's class is the favorite because, rumor has it that she will pitch for her team. Present odds are running 8 to 5 for the Newton "Nasties".

### Girl Scouts Tour Cranbrook Institute

Fifteen members of Girl Scout Troop 13 spent a profitable morning at the Museum of the Cranbrook Institute of Science Friday, May 22. Their leader, Mrs. Hurd Sutherland, was assisted by Mrs. Arthur Janetzke, Mrs. Stuart Thomson and Mrs. Glenn Long in guiding the girls on the trip.

Mrs. John McMillan of Cranbrook explained the mechanized model of the solar system, a geiger counter, a gem alcove with a rare collection of opals, a 100-pound topaz and many other displays. She also answered many

A tax on Michigan business payrolls and earnings is the legislature's answer to the deepening state deficit at Lansing.

The levy, first of its kind in any

state, was steamrolled through the House of Representatives at 24-hours' notice last week.

Strategy of the Senate Taxation committee, led by Senator George Higgins, was apparently to ditch the carefully drafted state income bill on both business and individuals and to spring at the 11th hour the business receipts measure. This bill was so new at the capital that a press conference was called Wednesday, May 13 to explain its provisions. Seven days later, including a two-day week-

end, the bill had been rushed through the Senate and House.

A veteran Detroit newspaper correspondent observed: "It's so new, not a half dozen legislators understand it."

House Minority Leader Ed Carey (D-Detroit) insisted that official house records show the measure was "jammed through without adequate consideration or knowledge of the bill's content." A Republican move to delete his protest was not successful.

Pointing out that the bill had been written by a representative of the Ford Motor Company, a fact which was conceded openly by the Senate Taxation committee; Carey charged: "The bill is full of obscure language that it can only be interpreted by courts." In the language of the men of the streets, Governor G. Mennen Williams was handed a "hot potato." Without his signature or vote the bill would become law in 10 days.

During the early part of the 1953 session the Senate waited for the House to initiate tax legislation. The answer of the House was to approve both the Nills corporate profits tax and also provisions of Senator Joseph P. Cloon's income tax bill on both business and individuals.

Representatives then waited to see what would happen. It did—and fast!

The Senate committee threw out the Cloon measure, carefully drafted by University of Michigan law experts. It sprung, as a substitute, the automobile company drafted tax bill on adjusted business receipts.

Automobile manufacturers who make parts in Michigan and then ship them to other states for assembly would benefit from the new tax. Protests were promptly registered at the governor's office from Kaiser-Frazer and Packard automobile companies who make, assemble and sell all cars in Michigan. They charged unfair discrimination.

How many "voters" would be affected? The total is estimated at Lansing to be 75,000.

From the Republicans' viewpoint this may be important at the 1954 state election, as the tax base is obviously limited.

A state income tax on both business and individuals would have been unpopular with more voters and hence more apt to expire on March 15, 1955—the date selected for the business receipts levy. Observers are of the opinion that the likelihood of voters' repeal of the sales tax diversion amendment was lessened by the adoption of the new business tax. By the same token the chances have been enhanced that the legislature may be forced to continue

**Our Great America** by Woody

the new tax beyond 1955. So-called "temporary" taxes have a habit of becoming permanent taxes. Crisis is perpetuated as pressure groups lobby for more state funds.

The legislature's solution to the deficit dilemma was really one of a possible two choices.

Quoting Treasurer D. Hale Brake, eight years a State Senator and 10 years a state administrative official:

"The permanent answer (to the deficit) must take one of two forms, or a combination of the two. A third, which one hears so frequently on the street as a solution, is not an answer. That third idea is that the elimination of waste, an increase in efficiency, will permit us to go on doing all the things that we are doing in the way of service and still balance the budget without new money."

"We must bear in mind that for the last four years our Legislature has been doing that job and they've got the excess water pretty well drained off. When you talk now of a continuance of all of our services at reduced cost, you are talking about a few thousand dollars that might be taken out somewhere, NOT ABOUT MILLIONS."

"The legislative answer must be either a discontinuance of major services or additional revenue. There seems to be no third answer at this time... There remains but one answer—more money."

Agreeing with the state treasurer's logic, the legislature has turned to a tax on 75,000 business firms, while deploring the evils of the sales tax diversion amend-

ment.

The Detroit sponsors of the business receipts bill really hoped whereby no tax bill of any kind for a stalemate in the legislature would have been approved. They also contemplated, in a detailed study of state aid to local governments, the possibility of wooing Michigan voters to repeal the insidious sales tax amendment.

The Princeton tax study report, financed by these Detroit sponsors, declared that "all available data indicates that Michigan is now financing more of the costs of local government through state collected taxes than any other comparable state in the Nation."

"Among all the state, regardless of size or comparability, its total amount of state aid annually is exceeded only in California and New York... Experience everywhere has shown that this is wasteful of public funds and sooner or later leads beyond centralization of finance to the centralization of governmental operations."

Since 75 per cent of the state sales tax is now returned automatically to local home governments, the State of Michigan has become a super tax collector for schools, cities, villages and townships.

Will a business tax on 75,000 firms and individuals lead to repeal of the sales tax diversion

amendment? That is an interesting question which arises from the legislature's eleventh hour decision.

The answer will be written, of course, by the voters. Time will tell.

### CHRISTIAN SCIENCE

That hypnotism or mesmerism has no part in the healing method of Christian Science is clearly shown in the Lesson-Sermon entitled, "Ancient and Modern Necromancy, alias, Mesmerism and Hypnotism, Denounced" to be read by all Christian Science churches on Sunday, May 31.

The Golden Text is from Jonah (2:9): "They that observe lying vanities forsake their own mercy."

Salvation is of the Lord."

Among the Bible citations is this passage, (Ps. 43:5): "Why art thou cast down, O my soul? and why are thou disquieted within me? hope in God: for I shall yet praise him, who is health of my countenance, and my God."

Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include: "The Christian Scientist demonstrates that divine Mind heals, while the hypnotist disposes the patient of his individuality in order to control him. No person is benefitted by yielding his mentality to any mental despotism or malpractice." (p. 375)

## Mr. and Mrs. James Smith to Make Home in Livonia

MRS. JAMES A. SMITH

A waltz length gown of white lace and tulle was worn by Frances Bonar when she became the bride of James A. Smith of Detroit in a double ring ceremony solemnized Saturday afternoon, May 23, at the Livonia Methodist Church.

Mr. and Mrs. Clark Bonar of Six Mile Rd. are the parents of the bride and Mr. and Mrs. James S. Smith of Detroit are the bridegroom's parents.

The couple repeated their marriage vows before the Rev. Cadman Prout at an altar adorned with bouquets of white gladioli and pink snapdragons. Mrs. Marcelle Hall, soloist, sang "The Lord's Prayer," "Because" and "With This Ring" with Mrs. Pauline Pollakowski presiding at the organ.

A brief bolero of Chantilly lace topped the strapless bodice of the bride's gown which was distinguished by a very bouffant skirt of nylon tulle. Her shoulder length veil was secured by a tiara of seed pearls and she wore gauntlets of Chantilly lace.

The bride's flowers were a colonial bouquet of stephanotis and camellias with white satin streamers.

Attending as matron of honor was Mrs. Betty Schadel of Detroit, cousin of the bride.

Her waltz length gown of ice pink was fashioned similarly to the bridal gown. A crown of pink forget-me-nots and a colonial bouquet of pink carnations with fuschia streamers complemented her frock.

Robert Hodge of Farmington attended the bridegroom as best man and seating the guests were the bride's brothers, Charles and James Bonar of Salem.

A reception for 120 guests followed the ceremony in the church house.

Mrs. Bonar, mother of the bride, greeted guests in a dress of navy sheer accented by white accessories. Her flowers were a shoulder corsage of white and red carnations. A dress of powder blue with pink accessories was chosen by Mrs. Smith for her son's wedding. Her corsage was of pink and white carnations.

The bride asked her cousin, Mrs. Betty Cowger of Detroit, to assist with the cutting of the wedding cake.

The new Mrs. Smith donned a black and white linen suit with white accessories for a ten-day wedding trip through upper Michigan. The couple has a new home waiting their return at 9834 Woodring, Livonia.

## School Nurse Tells Red Cross History to Girl Scouts

Background and history of the Red Cross were explained to Girl Scouts Wednesday, May 20, by Miss Ruth Knapp, R.N., school nurse. Miss Knapp was a guest of the Scout group led by Miss M.S. Austin, and sponsored by the Business and Professional Woman's Club. Miss Knapp is a member of the club.

The personable school nurse told the girls of the group how Henri Dunant founded the Red Cross in Geneva, Switzerland. She pointed out that the Red Cross flag which has a red cross on a white field is the exact reverse of the Swiss flag.

The Red Cross flag, she said, is composed of five perfect squares. The outer four represent love, faith, hope and charity, and are held together by the center square representing service.

There is no better health-care protection at any price!

Blue Cross-Blue Shield pay more...for more hospital and medical services... for more people!

### ARE YOU PROTECTED?

ONE IN EVERY THREE FAMILIES FACES A HOSPITAL BILL WITHIN THE YEAR!

SICKNESS AND ACCIDENTS are never welcome visitors. Recovery is often a slow process. In many cases, recovery from expenses due to hospitalization and medical care is even slower!

#### Hospital costs are up!

Modern medical science is making tremendous strides in easing pain and speeding recovery. Many wonderful drugs and medical techniques have been introduced in just the last few years.

But, new drugs and new techniques are expensive. Inflation, too, has pushed hospital costs up. In the last 10 years, these costs have almost tripled. That's why Blue Cross - Blue Shield protection is more important than ever before!

In the 14 years since Michigan hospitals and doctors started these non-profit plans, Michigan Blue Cross-Blue Shield have paid out over 302 million dollars—in subscriber benefits. With nearly 3-million members Blue Cross - Blue Shield is Michigan's most widely used health-care protection.

#### Blue Cross covers hospital bills!

Blue Cross Comprehensive Group Hospital Plan covers a wide range of hospital services, for up to 120 days, at any one of over 95% of the general hospitals in Michigan (excepting Government hospitals).

## Water Wonderland Is State's Title

"Water Wonderland" has been selected as the slogan for Michigan's automobile license plates, Secretary of State Owen J. Cleary announced today.

The slogan was chosen by a committee representing the Michigan Tourist Council, Automobile Manufacturers, Michigan Farm Bureau, Michigan State Police, Department of Public Instruction and Department of State from more than 20,000 entries submitted by Michigan citizens in a contest to select a suitable motto to advertise the state's attractions on automobile license plates.

Cleary said the slogan will go on the 1954 license plates which will go on sale next Dec. 1.

"I think it is a grand slogan," Cleary said. "Michigan has 11,037 lakes and 3,000 miles of shoreline, and the judges' selection could have been no more appropriate. In addition to advertising our tourist attractions, the word 'Wonderland' embraces our tremendous agriculture and industrial development. I know of no state that is more of a 'Wonderland' than is Michigan."

The winning slogan was submitted by 61 persons who entered the contest. Each will receive a certificate from the Department of State certifying that he or she submitted the winning slogan.

## Northville to Play Plymouth Sunday in Crucial Game

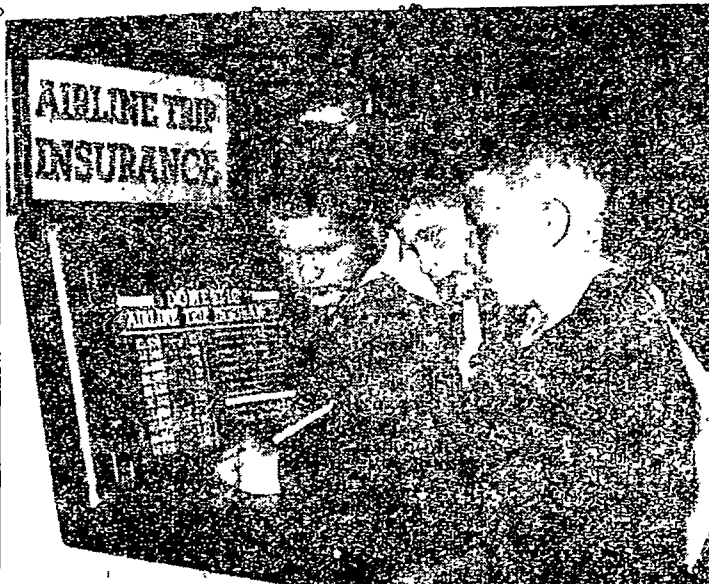

The Northville-Plymouth baseball game Saturday, May 30 at Cass Benton Park will lower the boom on one of the teams. The Northville nine, sponsored by the Cy Owens Ford dealership and the S. L. Brader Department Store, currently has a record of two wins and a tie. Plymouth is up on top with the Auto Club team, boasting three wins against no losses in the Inter-County League. The Decoration Day game will get under way at 3:30 p.m.

Northville will play the Redford Cubs on Sunday, May 31 at Battle Creek Park, located at the corner of Inkster and Five Mile roads. The game will start at 1 p.m.

Northville rattled the River Rouge hurler for 14 hits last Sunday to pile up an 8 to 3 win over the Downriver team on Great Lakes Field in River Rouge. Geo. Tracey went the route for Northville, holding River Rouge to six hits, and striking out eight batters.

River Rouge, the Inter-County champs last year, held Northville even in the first inning, 1 to 1, and went ahead in the second 2 to 1, but Northville added three runs in both the fifth and sixth frames while River Rouge was getting only one more. Another tally in the eighth clinched the game for Northville, 8 to 3.

Plane fares and insurance fees for the trip were covered by the class fund of \$325.10 which the boys and girls earned this year. The total amount was raised through such projects as bake sales, sales of candy, popcorn and elementary school badges. A play staged by the children netted \$180.

## Donald Campbell Injured on Bike

Donald Campbell, four and a half-year old son of Dr. and Mrs. Stuart Campbell of 219 West Main St., received minor injuries Saturday morning in an accident which occurred on West St.

According to the police report, Don was coasting down the ramp near the rear of the high school building on his tricycle and ran into the oncoming car, driven by Robert Ostrander of Nine Mile Rd., reported for induction into military service at Pontiac Monday, May 25.

Rd. Mr. Ostrander reportedly was driving slowly on West St. and saw the boy coming and stopped. The boy, unable to stop, ran into the left front bumper of the car, sustaining a slight concussion and bruises and abrasions on his head. He was taken to Atchison Memorial Hospital for treatment and then released.

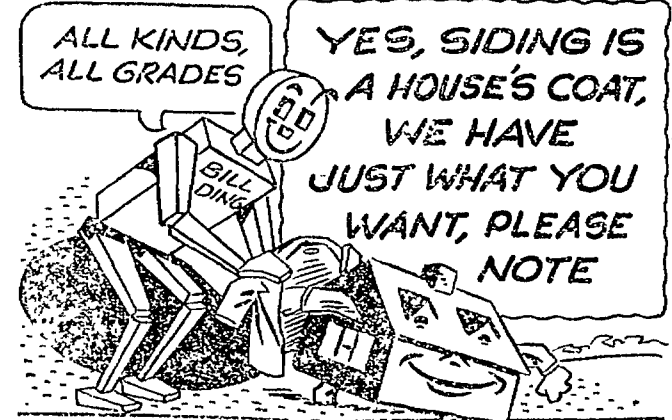

The driver was not held. Charles Westerfield, son of the Wallace Westerfields of Nine Mile Rd., reported for induction into military service at Pontiac Monday, May 25.

## Common Sense In The Post Office

Post office patrons, especially housewives, will be delighted with a new regulation of the Post Office Department which now permits them to seal all their packages without using a printed label, "May be opened for Postal Inspection".

Seal them hereafter, and seal them as tightly as you wish Postmaster Leland V. Smith advises his patrons. All that is now necessary is to write "May be opened for postal inspection" above or below the sender's return address which must be written in the upper left hand corner on the address side of the parcel.

This new order by Postmaster General Summerfield has been greeted enthusiastically by the public and postal employees alike.

In the past it was necessary to have a printed permission sticker on sealed packages. Typewritten or handwritten instructions were not acceptable, and the package was either rated up to first class rate or the sender often had to hunt up a printed label.

## KNOWLEDGE vs. INFORMATION

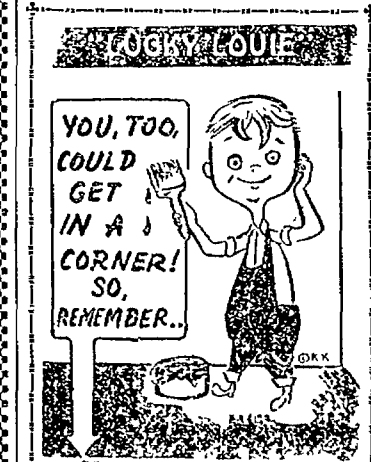

Will you agree with this statement? "Our knowledge is only as good as our information." We may receive information from several sources. This information may be true, it may be false, it may be a mixture. For this reason I'm sure that everyone will agree with the above statement.

When it comes to the matter regarding Christianity I'm sure that we will find no better source of information than the Holy Bible. It is the Word of God to man. It has been tested, historically, scientifically and experimentally and has stood the test. Men have scoffed at it, lied about it and tried to destroy it but God has marvelously preserved it. Now most everyone has some ideas about God, Christ and salvation. I'm wondering if your knowledge of these things is based upon the information gathered from the Bible. Can you prove what you believe from your own Bible? Can you say, "Thus saith the Lord in this book, chapter and verse?" Unless you can do this, the chances are that you may be the victim of wrong information. Friend, let me urge you once more to start reading the Bible for yourself. Begin by asking God to open your mind to the truth of His Word, then start reading the Gospel of John.
