Northville merchants have been talking for years about the need for downtown parking space for their customers. They have deplored all-day parking in the lot at Center and Main streets and other choice locations by individuals who are employed in their own and other downtown establishments.

The Community Center lot is available now for such parking but most of the time it is unused. Tuesday afternoon there were only two cars parked there while the lot at Center and Main was crowded. Without a careful check there is no way of knowing if they were parked there all day or just for the permissible two hours. However, it appears that the downtown merchants might start an "educational" campaign to get their own employees to use the new Community Center lot. If they do this, and ask the cooperation of Police Chief Joe Denton in ticketing parking violators, their downtown parking problem will be solved in large measure.

Adoption of the state building code by the Northville township board gives the Wayne County health department a legal basis for enforcing stricter housing and sanitary conditions in the Gerald avenue section. Anyone who has driven over "the avenue" recently will appreciate the need for corrective action. In addition to the more-or-less permanent houses that dot the landscape, there now is a growing trailer camp, whose occupants also depend upon the marginal sanitary facilities of the district. Let us hope that the county health department will take positive action to correct a situation that never should have been permitted to develop.

Today is the last day your baby has a date with The Record's special baby photographer at the Community Center. There is no charge for having his picture taken, and absolutely no obligation to purchase a picture from the photographer, although you may do so if you wish. Nor is it necessary that you be a subscriber. The whole project is strictly a good-will gesture by the Record toward its subscribers and others in the Northville area. The firm which takes the pictures is highly recommended by other newspapers for which it has done similar work. Sometime next fall all the baby pictures will be published in The Record.

We are scheduling for publication next week a map of the Northville oil field, showing every drilling location whether for gas or oil, and all completed wells; also the names of leaseholders and drillers. The map has been specially prepared for the Record by F. W. Terwilliger, state geologist. It will give a fairly comprehensive picture of what is going on in the Northville field.

Plymouth Plant To Change Power

After 50-years of supplying most of its own electric power needs Burroughs Corporation will tie in to Edison Company lines this fall at Plymouth and Detroit plants and discontinue operation of all electric generating equipment.

The Plymouth Plant powerhouse will still be used for the manufacture of steam heat and compressed air, but turbines and other electric generating equipment will be removed to make room for new product manufacturing processes.

"The move is the result of a corporation-wide study of the company's long range power needs," Robert A. Niemi, Plymouth plant manager said. "The purchase of power will reduce our operating costs and eliminate large expenditures which would otherwise be necessary during the next few years for replacement or addition of electric generating equipment."

In Northville Courts:

Ronald Farrell 370 First St., was fined \$15 and costs on a drunkenness charge by Justice Ed Bogart Sunday, after he was found lying in the road on Fairbrook Ave. He was held in the Plymouth jail Saturday night to await his court appearance.

Traffic Deaths Gain, Accidents Show Reduction

The downward trend in Michigan traffic accident fatalities that prevailed in January, March and April was halted again when 152 persons were killed during May, according to the State Police.

The figure represented an increase of 18, or 13 per cent, over the same period last year, and was the highest reported for the month of May since 1941, when 193 persons lost their lives.

Injuries during May amounted to 4,777, or 10 per cent below 5,304 in May of last year. Accidents were down 11 per cent from 16,092 to 14,258. Urban areas accounted for a substantial reduction in both injuries and accidents.

During the first five months of this year, 622 persons have been killed and 20,534 injured in 74,126 accidents. Compared to the same period last year, deaths were down 26, or five per cent, and injuries decreased 734, or three per cent. Reported accidents increased three per cent.

Estimated mileage for the first four months of 1954, the latest figures available, was \$2 billion, an increase of four per cent over 7.8 billion in the same period last year. The death rate of 5.7 for each 100 million miles of travel showed a reduction of 15 per cent.

Rich Crop of Cherries Expected By Northville Area Fruit Growers

Western Michigan has nothing on the Northville area when it comes to producing rich, red cherries, or pretty girls, either.

At least, that is the contention of Ralph Foreman, Sr., owner of the Foreman orchards three miles west of Northville on Seven Mile Rd.

To substantiate his contention, Foreman this week showed visitors around the 600-tree plot where the bumper 1954 crop bent limbs almost to the breaking point. Although the orchards will not be formally opened until today, a number of persons from Detroit, Northville and other nearby points were picking some of the ripened fruit earlier in the week. An orchard owned by Foreman's sister on Ridge Rd. was picked clean by Wednesday.

"We're keeping our fingers crossed and hoping for better luck than last year," Foreman said as he surveyed the bright red cherry crop in one part of the six acre orchard he and his sons own.

Just at the height of the 1953 season, Foreman explained, a sudden hail storm practically stripped all of the cherry trees in western Wayne county, and the crop was nearly a total loss.

Foreman estimated that as of Wednesday, nearly five tons of cherries had been taken out of the area. He said he did not know just what other orchards were doing—including those of E. A. Chapman on Taft Rd. and Paul Bayless, 46500 W. Eight Mile Rd.—but that he and his sister had disposed of two tons of fruit themselves. He anticipates that other orchards in Wayne and Oakland counties also are having a rich harvest.

"No sir" he said, "we don't have to take a back seat for Western Michigan. The cherries in this section of the state are unusually big and full of juice. We'll match them against Shelby any time." Shelby, north of Muskegon, is in the center of the cherry district of Western Michigan. Foreman said his crop was ahead of Shelby's, and that he telephoned growers there Monday to get crates to be used in picking the Northville crop.

In addition to the cherry orchard the Foreman family also owns a vast apple orchard comprising 1600 trees, and many more trees bearing plums and peaches. These will be coming along after the cherry crop, and

already show signs of being loaded with fruit.

"We'll have to prop up the limbs," Foreman mused, planning ahead, "or else they'll break off. It'll be kinda hectic around here for a while."

"It won't be so bad" chimed in Ralph Foreman, Jr., gazing toward a cherry tree where three pretty girls in shorts were busily filling buckets with the luscious crimson fruit. "It'll be rather pleasant, I think—as long as that hail stays away."

CHERRY QUEEN of the Northville area, getting "crowned" is pretty Miss Gay Duerson, (center) daughter of Mr. and Mrs. Harry Duerson, 21400 Meadowbrook Rd. Gay, 19-year-old University of Michigan junior, was a visitor to the Foreman orchards west of Northville Monday. On her left is Mrs. Veronica Strach of Detroit; at right, Mrs. Rita Helfrick, also of Detroit, while Ralph Foreman Jr. attends to the "crowning" ceremonies.

Trash Collection Changes Ordered By Commission

An increase in rubbish and trash collections has forced the Village of Northville to change the time of pickup to every other week instead of weekly, Comm. Jack Stubbenvoll, chairman of a committee appointed by Mayor Claude N. Ely to study the situation said Wednesday.

"To avoid any misunderstanding," Stubbenvoll said, "it should be made clear that the change in pickup has nothing to do with the collection of garbage. Since it would not be practicable nor desirable to have homeowners hold garbage for a two-week period, especially during the hot summer weather, pickup crews will collect garbage as usual every week."

Stubbenvoll said that to facilitate the trash collection, homeowners on the north side of Main St. will be serviced Friday, July 23. On July 30, trash in the area south of Main St. will be picked up. Thereafter rubbish will be collected on alternate weeks on the north and south sides.

So that residents may familiarize themselves with provisions of the applicable Village ordinance, appropriate portions of it will be found elsewhere in this edition of The Record.

Oil Well Worker Badly Hurt When Car Hits Tree

John F. McShane, 21, of 502 Grace St., is in a critical condition in Wayne County General hospital at Eloise, following an automobile accident just before dawn Saturday at Novi and Eight Mile Rds.

According to Wayne county sheriff's officers and Northville police, who investigated the accident, McShane apparently fell asleep in his car while driving eastward along Baseline east of N. Center. The car failed to take the turn into Novi Rd. and crashed into a tree.

Conrad Burkman, 19, son of Mr. and Mrs. John Burkman, 535 E. Eight Mile Rd., discovered the accident about 4 a.m., and notified the village hall caretaker, who in turn called the sheriff's office.

McShane, who is employed by the Taggart Drilling Co. on an oil well crew west of Northville, was first taken to Sessions hospital and was then transferred to Wayne County General. He is reported to be unconscious, and suffering from head and possible internal injuries.

Theft Of Aerial Is Reported To Police

Mrs. Betty Zielke, of Milford, reported to Northville police Friday that someone had stolen a radio aerial and a pair of fender skirts from her car.

She said the articles were taken while her car was parked in front of Sessions hospital shortly before midnight Friday.

Northville Man Is Named Officer of Piano Technicians

George Lochart, of Northville, was elected first vice president of the American Society of Piano Technicians at its annual convention held in the Palmer house, Chicago, last week.

Upon his return to Northville Monday, Lochart said the society had voted to hold its 1956 convention in Detroit. Election as vice president usually is tantamount to elevation to the presidency of the society later.

Turtle Tourney To Be Made An Annual Affair

Northville's first turtle tournament was so much of a success that it will become an annual event in the future, Recreation Director Stanley Johnston said yesterday.

Sponsored jointly by the Recreation Dept. and The Record for the benefit of Northville area children, the tourney was held Saturday morning in the Village parking lot at Main and Center Sts. Approximately 250 persons watched the three races which comprised the tournament, and for which children and parents both had prepared during the preceding ten days.

Several Northville merchants contributed merchandise as prizes, while the recreation department and The Record put up \$27 in cash prizes, which was supplemented by money gifts from spectators.

46 ENTRIES

At "Post time" for the first of the three "heats", some 46 more or less energetic terrapins were placed in a large cardboard box in the center of a 30-foot circle. At a signal from the tournament director, Mayor Claude N. Ely and Harry C. Duerson lifted the box.

The turtles promptly "took off" like a drop of warm molasses, with Police Chief Joseph Denton and Sgt. Gil Glasen righting those that had flopped on their backs.

Like the spectators at Northville Downs, owners, friends and visitors vocally urged on their favorites, with cries of "come on, Leaping Lena!", or simply "get going, you dad-ratted slow poke!"

"Oscar", a sleek, highly decorated entry owned by Bobby Lyke, crossed the finish line first, travelling the 15 foot distance in the fast time of one minute 51 seconds. His happy owner pocketed \$5 as first prize money.

Other winners of the first race were, in order: William Higgins, Don Biery, Patty Higgins, and Spike Walker.

In the second race, Donna Wil-

Man Is Sought on Bad Check Charge

Northville police and state police officers were investigating two complaints of bad checks this week after John J. Carlo, general manager of Northville Downs, reported that he had cashed two checks for \$200 each only to learn that they were not good.

A warrant for the arrest of Bruce Wells, of Detroit, has been asked by Chief Joseph Denton. Wells is said to have obtained cash for a rather badly made out check on July 3. A brother at the Detroit address told officers that Bruce Wells is now in Kentucky. In the other instance, a Detroit woman was accused by Carlo of cashing a check which was returned marked "no funds". Chief Denton said the woman has now made restitution, and no warrant will be asked for her arrest.

Band Concert Wednesday Night

The second concert of the Northville high school band will be given July 21 in the Community building. The third will be given on July 28.

The band will play the following numbers: El Capitan, H.M.S. Pinafore, Promenade, Broadcast From Brazil, Hands Across The Sea, Poem, Pavanne, Cole Porter Selection, Ringling Bros. Carousel, and God Bless America.

Hotel Interest On Increase, Johnson States

Interest in a new hotel for Northville has increased following publication in The Record recently of a story quoting Carl Johnson, president of the Retail Merchants Assn., on the need for such an establishment.

"A large number of people we've talked to have agreed that Northville needs a hotel," Johnson said. "There is no doubt in their minds that a hotel would greatly benefit the area, as well as provide quarters for visitors and others in need of accommodations overnight."

Johnson said he had received a letter from Elmer M. Hollis, of Detroit who owns property in the Northville area, which mentions a Detroit, Plymouth, Livonia group interested in construction of a hotel somewhere in the vicinity. The letter said:

"Recently I noticed an article in the Northville Record about a proposal for a hotel in Northville. So, I am writing this letter to you. There is a group from Detroit, Plymouth and Livonia who have been interested in putting up a modern hotel in or near Northville."

"We own the corner of Fry and 7 mile, opposite the entrance to the Hospital. This group wanted to construct an apartment hotel on that site. My wife and myself have plans to put up a modern hotel type apartment house of 2 1/2 rooms each, 36 units and one large apt. We do not anticipate this right now because we want sewer and water, but we do think eventually there will be sewer and water available in that location. So 7 mile and Fry was out as far as the group concerned were."

"The group then turned to another corner that we own in Northville. First, at Fairbrook and Henry Sts. Their view is to wait until 7 mile (cut-off) Rd. is completed, then there would be 100 ft. frontage on the new 7 Mile. They then planned to try to change the present restrictions to multiple commercial residential restrictions. So, I am writing this to you to say, that you and your group have the choice, if you wish to have first choice on this site for your proposed hotel. My wife and myself would be interested only in a co-operative plan."

Commenting on Hollis' offer of a site, Johnson emphasized that the Retail Merchants Assn. is not itself interested in going into the hotel business, but is vitally interested in having some organization do so.

Village Trees To Be Sprayed Again

Dutch elm trees belonging to the Village along Northville streets will be sprayed again this week in an effort to combat the Dutch elm disease.

John M. Miller, of the Green Ridge nursery, will be in charge of the work. He said residents should keep their cars off the streets until Saturday, so that none of the chemicals used would drop upon them.

Northville Horses In State Fair Book

The 1954 Michigan State Fair Premium book pictured two Northville Belgian horses. They are stallion Jan Parceur and the mare Lady Ellen Parceur, who were the 1953 Michigan State Fair Grand Champion Belgians. Both are owned by Water Cress Stock Farms.

Free Photos Of Children

Today is the last day for photographing Northville children under the plan whereby The Record will publish the pictures.

Publication will be without charge, although parents may place an order for additional photographs if they wish.

A photographer from the United Studios, of Elkhart, Ind., specialists in children's pictures, will be on duty from noon to 7 p.m. today at the Northville Community Center.

Dear Sir,

The consensus has changed in these parts in favor of McCarthy. We have suspected for some time he was not as bad as painted by the reporters. And when we saw the hearings on T.V. and checked the papers we knew there was something "wrong in Denmark."

Walter Winchell last Sunday night intimated some honest people wanted to see an inquiry to ascertain if the Communists, Pink and Fellow-travelers were behind it all?

McCarthy would have to go some to browbeat and humiliate that army officer for not firing a certain dentist in spite of several warnings from the F.B.I. but kept him on for months and finally promoted him and gave him an honorary discharge.

Was this any worse than sarcastic cry-baby Welch brow beating and trying for hours to make McCarthy's head stenographer

commit perjury?
 Too bad Schine is on K.P. He is a brilliant young lawyer if he was born with a silver spoon in his mouth. Too bad he couldn't be given authority to investigate the pink news slanders. I'll bet the fir would fly.

Motorists Asked to Consider Wildlife

Lansing — Now is the season when wildlife most needs the help of considerate highway drivers, conservation department workers say.

The danger to young pheasants, rabbits and deer in these early summer weeks is greater, game men say, than at any other time. Heavy dew brings the young birds and animals to roadsides to dry off in morning hours.

Young birds and animals do not understand about the dangers of life. They are slow on their feet, curious, and dumb. Conservationists ask that you give them a chance to move off the highway.

Also, game workers again urge that young animals be left untouched when found afield. Spotted fawns and baby rabbits have the best chance for survival if humans simply stay away.

Laurie Ann Black Dies July 9

Laurie Ann Black, two year old daughter of Robert and Laura Black died July 9 in the Children's hospital in Detroit.

Laurie is survived by her parents, a sister Linda and her grandparents, Mr. and Mrs. William Black, Henry Wick and Mrs. Doris Wick.

The body lay at the Casterline funeral home until noon on Monday. Funeral services were held at the St. Paul Lutheran church at 4 p.m. with Rev. E. E. Rossow officiating. The body was interned at Rural Hill cemetery.

Flies Are Used to Control Caterpillars

Lansing — Large gray flies, currently buzzing through northern wooded areas in large numbers are, strangely enough, beneficial to man.

Most flies are, of course, outlaws, but these particular flies are the parasites that eventually will kill off the troublesome forest tent caterpillar.

The caterpillars have been actively eating foliage from trees and bushes in many areas of the northern lower and eastern upper peninsula for several years.

But the parasite flies have been building up in recent years and have already controlled the caterpillars in some areas.

Conservation department foresters say that spraying large areas for control of the flies is not recommended.

The flies will be gone by about the middle of July.

Anyone can talk—saying something is more difficult.

LUX-NOWRY

by Mrs. Carlton Hardesty
 In a double ring ceremony, at eleven o'clock Saturday morning, July 10th, Miss Dorothy Corrine Lux of Northville became the bride of Ray S. Nowry of Plymouth. Their vows were spoken before Rev. C. M. Pennell at her home in South Lyon and the service was witnessed by Mr. and Mrs. Sheldon Nowry of Plymouth, parents of the bridegroom.

The bride, a nurse at Maybury Sanatorium, is the daughter of Mr. and Mrs. Harry Lux Jr., of Syracuse, New York. She wore a very becoming aqua gabardine suit and her corsage was of yellow rosebuds. She was attended by Mrs. Kenneth Nowry attired in Navy blue and wearing a corsage of white carnations. Kenneth Nowry of 38615 Joy road, Plymouth was his brother's best man. The groom's mother wore a navy and white sheer and her flowers were white carnations.

Mr. and Mrs. Sheldon Nowry entertained at a family dinner in their home at 803 Ann St., Plymouth, before the newly weds left for a trip through Northern Michigan, Minnesota and Wisconsin. For traveling, the new Mrs. Nowry chose a dress of baby blue cotton satin with white accessories. On their return, the young people will be at home at 118 Church St. Northville.

The GREEN THUMB

by Paul Newton

Crabgrass Never A Failure—

Crabgrass is strictly an annual plant that never fails. It seeds itself in late summer and early fall. The seeds lie on the soil over winter and sprout in late May and really take hold from June through September.

Eliminating this rampant grower does not mean that you will have a good lawn. The bare spots left where it grew this summer are the seed beds for its start next May. The one best remedy is a healthy turf to smother it out. Crabgrass does not like shade.

The first step is to buy good grass seed. Avoid any mixture that contains rye grass, timothy, meadow fescue or a large percent age of red top or any other short

grasses. The first three, especial ly, are coarse grasses and when they die out after a year or two they leave big holes in the lawn for crab grass to take over.

Second, feed your lawn well in early fall when the desirable grasses are taking a new lease on life and crab grass is on the down grade. Then feed again in early spring to thicken the turf to shade and crowd out the crab grass seedlings.

Third, raise the cutting blades of your mower to 2½" from the ground from May 15th to July 1st. This shades the small seedlings of crab grass and prevents them getting a good start.

Fourth, eliminate grubs and chinch bugs. These pests keep your lawn thin. Get rid of the grubs by dusting the lawn with chlordane. Five pounds of 50% Chlordane per 1000 square feet washed into the soil with a hose in early spring should last several years. The chinch bugs are harder to control. Dust with chlordane or DDT in late spring and again in late August and repeat once a year.

Fifth, if there is a spot in the lawn where there are buried rock or rubbish you will always have crab grass. Clean up the area,

and reseed in early fall. Fall planting gives the good grasses time to be well established before the crab grass starts next summer. Moss is an indicator of a starved and poorly aerated soil. Loosen the soil and give it a complete plant food before trying to grow grass on it.

All of these measures combat crab grass, but it is necessary to use some of the new weed killers. These are most successfully used just before seed formation in early summer. Whether you use Crab-Not, Weedone, or Double O. The important thing is to use them according to directions on the package.

There is a dry material on the market known as Scutl, which has had good results, but all can fail if you do not follow directions.

"Northville Day" Set At Cinerama

"This Is Cinerama" the new dimensional motion picture entertainment now in its record breaking run of 69 weeks of exhibition at the Music Hall in Detroit has announced that July 25 would be known as Northville Day at that theatre.

Frank Upton, Managing Director, of the Music Hall stated that blocks of the best seats in the theatre would be reserved for residents of Northville who would be attending the three performances on that day.

The Matinee starts at 2 p.m. with a special performance at 5 p.m. and the evening show at 8:40 p.m. Inasmuch as all seats are reserved, an advertisement containing a coupon appeared in this edition of the Northville Record and another will run in next Thursday's edition. All reservations must be in to the Music Hall box office not later than Tuesday, July 20.

More than 950,000 persons have seen the entertainment since it began its epochal run in March 1953 which has established a record for length of run for any type of entertainment in Michigan's history.

New, bigger load space! New, lower loading height!

New Chevrolet Trucks... do more work per day... more work per dollar!

You save on operating costs. High-compression power in every model saves you money every mile! The "Thrifmaster 235" engine, the "Loadmaster 235," and the "Jobmaster 261" (optional on 2-ton models at extra cost), deliver increased horsepower and operating economy, both.

You save extra trips. That's because of the extra load space you get. New pickup bodies are deeper... new stake and platform bodies are wider and longer. Also, they're set lower to the ground to make loading and unloading faster and easier.

You save time on deliveries. With new truck Hydra-Matic transmission, you save valuable time at every delivery stop. And you can forget about clutching and shifting! This proved automatic transmission is optional at extra cost on ½-, ¾- and 1-ton models.

You save with lower upkeep, too. New chassis strength saves you money on maintenance. For example, there are heavier axle shafts in two-ton models... bigger clutches in light- and heavy-duty models... stronger frames in all models.

You save hours on the road. Thanks to new high-compression engine power, you can maintain faster schedules without driving at higher maximum road speeds. Increased acceleration and hill-climbing ability let you save time where it counts!

And your savings start the day you buy. Chevrolet, you know, is America's lowest-priced line of trucks. And it's also the truck that has a traditionally higher trade-in value.

Come in and see all the wonderful new things you get in America's number one truck. We'll be glad to give you all the money-saving facts.

HOME SEWING HINT For Good Measure

WHO SAYS there's nothing new in tape measures? Here's one that combines the advantages of both rigid metal and soft cloth tape measures. Looks the same as the standard 60" yellow woven fabric tape measure that starts at both ends with number one—but the woven fabric is bonded with a permanent plastic stiffening. It folds every 7" like a carpenter's rule, yet is flexible enough to measure around the smallest body area, such as a finger, or a wrist! And this Dritz Flex-I-Fold Tape Measure is wonderful when you want to measure the length of a skirt from waist to hem. Doesn't tangle or curl, but lays flat to the fabric. You can use the edge like a ruled straight edge when you're guiding a tracing wheel in a straight line. Won't curl, stretch, shrink, kink, or tangle.

Bean and grain drying equipment in Gremel barn. The fan at lower right is also used to mow-finish hay.

ELECTRICITY

ENDS THREE-YEAR SEARCH FOR EFFICIENT GRAIN and BEAN DRYER

For three years, Harold Gremel, Huron County farmer, searched for a better way to dry his beans and small grains. Then, with some help from Edison Farm Service Advisors, he successfully developed this electrically powered system that enables him to dry six to seven thousand bushels of beans and grain per season. Result: He can harvest when his crops are ready and cut down weather losses. This means higher

prices on the market.

Mr. Gremel farms 370 acres of land—100 in beans, 80 in small grain, 35 in beans—and milks a herd of 13 cows. As do many Michigan farmers, he is each year finding new ways to put electricity to work to lighten his load and give him greater security. For further information on farm electrical equipment, see your Edison Farm Service Advisor.

Good wiring is always important. So always ask your Farm Service Advisor for his recommendations.

Death For Spies?

The House of Representatives has approved a bill proposed by Attorney General Herbert Brownell which would permit the death sentence for spies in peacetime. Heretofore the United States has imposed the death penalty on spies only in times of war.

There is, however, thought to be some opposition in the Senate Judiciary committee, and in the Senate itself. Although the bill only permits the death penalty—and does not make it mandatory—some members of the upper legislative body are believed to oppose the measure.

We point out, in this connection, that the upper legislative body is inclined to be perhaps more lenient in such matters, and this might be attributed to the greater age of most members of the upper body. No doubt many of the nation's elder statesmen cling to ideas and concepts of war which take into consideration the chivalrous attitude and the philosophy that wars should be fought in an honorable manner.

These concepts are out of date in 1954. They are out of date because of the nature of atomic warfare and the scientific angle which now has become dominant in military operations. The theft of the country's highest scientific secrets could well determine the outcome of a new war, and, therefore, the elective death penalty for spies, convicted of selling government secrets to the enemy, is a necessity in this country.

It may seem severe to many Christians, and the death penalty for spying in peace time may be thought unnecessary by some high-minded individuals, but the practical approach to survival and the preservation of our democratic civilization includes the realization that stern measures are necessary to preserve the nation's secrets in this atomic age.

U. M. T. Dead For 1954.

Sen. Leverett Saltonstall, chairman of the Armed Services Committee and Massachusetts Republican, says universal military training is apparently out of the question at this session of Congress. Saltonstall blames the Administration for the new delay, and says his Senate committee was ready to act on a new reserve program this year.

Saltonstall says he believes legislation overhauling the military training system is of vital importance to the nation, especially in view of the proposed Amy cutback from twenty to seventeen divisions.

It appeared for a time that the Administration was ready to recommend and strongly push a modified form of universal military training, although there are reports that top administration leaders have reversed themselves on the timing of this move. A new military training program has already been approved by the Defense Department, and also by the Office of Defense Mobilization, but White House approval has not yet been forthcoming.

Perhaps the thought in some top Administration circles is that there is little to recommend opening a major fight on universal military training at this time. In an election year, so close to the end of the proposed adjournment of Congress, such a fight might be handicapped from the start. The result, it seems, will be that universal military training will be pushed at the next session of Congress—provided the leadership in Congress, as of next January, is in favor of scheduling such legislation for early consideration.

The News Is Good!

The best news out of Washington in many a week is that an upturn in economic recovery is definitely indicated.

Dr. Arthur F. Burns, chairman of the President's Council of Economic Advisers, predicts that employment will rise, and that business spending for plant and equipment this year will be as high as it was in 1953. He expects military spending to "remain at very high levels."

The Commerce and Labor Departments report that the construction industry during May reached its highest levels with outlays of \$3,100,000,000 for new buildings.

Private spending for residential building in May exceeded \$1,000,000,000; commercial building reversed a downward trend and rose to a record for the month.

No wonder John Q. Public is giving a resounding Raspberry to the dismal song and dance of the Desharmy Boys—"Gloom and Doom!"

Hundreds Search for Lost Boy in Belding

Dale German, the 2½ year old grandson of the Harry German's of Orchard Drive, Northville, gave his parents and 400 other people in Belding, where the Harry German Jrs., reside, a scare they will not soon forget.

Little Dale wandered away from the family home with his dog about 7 p.m. just about the time a rainstorm of intense fury let loose in Belding. Within a few minutes after the storm began the Germans realized the boy had disappeared and was facing it some place alone.

Bolt after bolt of streak lightning with cloud-rendering claps of thunder following was an awesome sight to hundreds of local people who took part in the search that was conducted by Chief of Police Bill Chrysler and State Police officers from the Rockford post. The child's father, who is manager of the

Belding D. & C. store, said he never realized how many people got wind of the news so fast and volunteered their help.

Flooding through field after field of soaked crops in search of Dale, they finally found him about 11:30 p.m. about a mile and a half from the family home on the farm of Jules Brechting. The youngster was examined by a doctor and pronounced "fit" for a good night's sleep.

IMPORTANT NOTICE

TO ALL VILLAGE RESIDENTS

Due to the increase in Rubbish and Trash collections over the last six months period it will be necessary to make some changes in the time of pickup. Beginning Friday July 23, 1954 only that portion of the village lying north of main street will be collected. On July 30, 1954 only trash in that portion of the village that lies south of Main Street will be picked up.

Resident's Rubbish and Trash will be collected every other week alternating between the North and South of Main Street from then on.

So that village employees may spend more time on maintenance and public improvements the commission desires to call to your attention the ordinance pertaining to Rubbish and Trash collections. Please read it carefully so you may comply with its provisions and avoid any misunderstanding.

(It is emphasized that this change has nothing to do with garbage collection. Garbage will be picked up weekly as usual.)

THE FOLLOWING IS A CONDENSATION OF CERTAIN PORTIONS OF VILLAGE ORDINANCE NO. 120 WHICH DEALS WITH GARBAGE AND RUBBISH DISPOSAL

Section 1 - Definitions:

"Rubbish" shall be construed to mean and include bottles; crockery; tins; metal vessels; trimmings from lawns, trees, and gardens; knocked down paste-board boxes, paper, ashes; and all waste not classed as garbage which may be produced by normal operation of dwelling places, households, apartment houses, stores, office buildings, restaurants, hotels, institutions, and commercial establishments.

Exceptions: Rubbish is not to include discarded or new building materials, sidewalks and driveway pieces, commercial waste, or trees (unless such trees be cut to at least four foot lengths and be not over six inches in diameter.) This type of waste is to be removed from private properties by the owners or lessee.

Section 2 - Rules and Regulations Governing Collections from Homes and Other Places.

(a) Garbage, ashes and rubbish shall be kept and stored separately. All refuse containers shall be maintained in good clean condition by their owners and promptly replaced when no longer fit for use. Combined weight of any container and its contents shall not exceed one hundred (100) pounds.

(b) Receptacles that are badly broken or otherwise fail to meet the requirements of this ordinance, may be deemed to be rubbish.

(c) Ash containers shall be metal and of sturdy construction and must have adequate handles for handling and to prevent spillage. Hot cinders or ashes shall not be placed in ash containers.

(d) Rubbish containers may be of wood or metal or burlap canvas or similar cloth bag. COVERS FOR RIDG CONTAINERS ARE DESIRED IN ORDER TO PREVENT SCATTERING OF CONTENTS. When rubbish exceeds the capacity of the containers regularly used it may be wrapped in bundles and securely tied, or, as in the case of discarded furniture, it shall be broken and reduced in volume so as to permit safe and speedy handling. THE GREATEST DIMENSION OF SUCH BULKY ARTICLES SHALL NOT BE MORE THAN FOUR (4) FEET.

(f) Garden rubbish shall be placed in containers of wood, metal or paper in order to facilitate its handling. BRANCHES SHALL BE CUT TO FOUR (4) FEET AND TIED SECURELY AND COMPACTLY IN BUNDLES.

Section 7 - Burning Leaves, Etc.: Leaves, sticks, papers, etc., shall not be burned on Village pavement, street, alley or Village property.

Section 8 - Glass, bottles, etc.: Owners or lessee of buildings, homes and lots, must keep clean that part of the Village alley, street or property, fronting their property from strewn bottles, glass, paper, tree limbs, cans and other debris at all times.

Section 10 - Collection Time: Rubbish or ashes in containers shall not be placed at the point of collection previous to the night before collection, nor shall the containers remain, upon becoming empty, for a longer period of time than the next morning.

Each family shall have separate containers from every other family and must place them at a different location than another family. There shall not be communal disposal of ash or rubbish and this is to apply to commercial establishments, homes, etc. Apartment buildings and others may have communal containers if a person is duly designated to take care of such rubbish and ash refuse.

Dreaming of past possibilities leaves none for the future.

Joseph Zarish Buried Monday

Joseph Zarish died July 9 at his home on 22325 Halstead Rd., Farmington at the age of 59. He had lived on his farm here in this area for the past 27 years.

Surviving are his mother; Theresa Sharley of Ionia; his wife Mary of Halstead Rd.; a son, Harry of Northville; a daughter, Mrs. Paul Rackow of Farmington; a brother, Michael of Chicago and two sisters, Mrs. Teresa Burke of Ionia and Mrs. Stephanie Hulaner of Czechoslovakia.

Funeral services were held at 2 p.m. Monday at the Casterline funeral home. Rev. Carl Schultz, pastor of the Lutheran church of Farmington, officiated.

Interment was in Oakland Hills Memorial cemetery.

Wingate-Paden Rites At Village Hall

Bertha Katherine Wingate and Joseph John Padgett of Detroit were united in marriage at the Village hall Saturday by Ed. M. Bogart, Justice of the Peace. Mrs. Helen Teshka and Joseph E. Denton were the attending witnesses.

Correction

An error in the Business and Professional Women's article in last week's Record stated Mrs. Bea Carlson was secretary. Mrs. Bart Connors is secretary of the B&PW club. Mrs. Carlson was named National security chairman of the club for next year. The Record is glad to make this correction.

Novi Pet Show

By-Brook Acres on 11 Mile Rd., Novi, the home of the Van Every's was the scene of a pet show on July 9. Attending were: Mrs. Aaron Oliver, Mrs. Art Weir and two children, Robert and Kay Francis, Mrs. Fred White and Robert, Mrs. L. J. Putnam and Hadley, Mrs. Elmer Heichman, Mrs. Royal Keller, Robert and Cindy, Mrs. Chas. Van Every Sr. and Mrs. Chas. Van Every Jr., Todd and Van and Pat Robertson.

Tea, lemonade and cookies were served following the show. Prizes were awarded as follows: First prize and blue ribbon went to Hadley Putnam for his puppy; second prize went to Van Every for his mare and colt and the third prize was awarded to Pat Robertson for his collie.

The man who lives within his income today is living in slightly cramped quarters.

Jack Adams, Manager of the Detroit Red Wings Hockey team, (left) and Budd Lynch, television sportscaster of the Red Wings games, will make a personal appearance before the Meadowbrook Country Club, 40941 E. 8-Mile Road, Northville, Thursday, July 22 at 9:30 p.m.

The program will include film highlights of the 1954 Detroit Red Wing Stanley Cup Playoff games, plus interesting sidelights of hockey by each of the two personalities present. A round-table discussion will be held following the presentation.

Appearance of the two at Northville is part of a state-wide tour designed to enlighten sport enthusiasts concerning the world's fastest game. The tour, sponsored by The Stroh Brewery Company, will continue through the month of July.

C. Huckabee of Meadowbrook Country Club, is chairman in charge of the arrangements for the special sports program.

Major league pitchers insist that Ted Williams and Stan Musial, good as they are, still aren't as smart as the plate as Johnny Mize used to be. Ted and Stan have compiled higher averages, but the Big Cat, who retired after helping the Yankees win their fifth world championship in a row last year, could do far more with a bat in his hands.

One of the seats in the rear of the Pirates' airplane has been nicknamed the "jump seat," by the Buc players. The first four players to occupy the seat on Pirate trips this season are no longer with the club. They were Walker Cooper, Joe Page, Cal Abrams and Hal Rice.

The new summer issue of the Milwaukee telephone directory carries a sketch of County Stadium, the Braves' home park, on its cover. This probably is the first time a ball park has been honored in such a manner, according to The Sporting News.

Road secretaries of many major league clubs are reported drawing up a campaign to be included in the players' pension plan. The owners who were questioned on the subject pretty generally vetoed such a step, but the players heartily endorsed it. Bob Feller for instance, said "Traveling secretaries seem to be part of the player personnel."

If you had your pick of Duke Snider and Gil Hodges of the Dodgers and Frank Thomas of the Pirates, who would you select? Branch Rickey would take Thomas and explains it this way, "I'd rather have Thomas as a .300 hitter than a home run king."

DONALD B. SEVERANCE, Attorney 707 Federal Bldg. Detroit 26, Michigan

STATE OF MICHIGAN County of Wayne ss. J. H. 113

At a session of the Probate Court for said County of Wayne, held at the Probate Court Room in the City of Detroit, on the twenty-first day of June, in the year one thousand nine hundred and fifty-four.

Present James H. Sexton, Judge of Probate.

In the Matter of the Estate of FRED P. SIMMONS, Deceased.

George R. Simmons, trustee under the last will and testament of said deceased, having rendered to this Court his final account in said matter and filed therewith his petition praying that the legacies be paid in full and that the residue of said estate be assigned in accordance with the provisions of said last will:

It is ordered, That the Twentieth day of July, next at ten o'clock in the forenoon at said Court Room be appointed for examining and allowing said account and hearing said petition.

And it is further Ordered, That a copy of this order be published once in each week for three weeks consecutively previous to said time of hearing, in the Northville Record, a newspaper printed and circulated in said County of Wayne.

James H. Sexton, Judge of Probate

I do hereby certify that I have compared the foregoing copy with the original record thereof and have found the same to be a correct transcript of said original record.

WALSH'S WORLD

Sandwich Loaf

Makes Serving Crowd Easy Task

NEXT time you have a crowd in for afternoon or evening snacks, why not try a pretty frosted sandwich loaf? All you need is a beverage, and the serving is as easy as can be imagined since the loaf needs only slicing. Another nice thing about sandwich loaf is that it can and should be made hours ahead to chill thoroughly and thus ease the slicing. This also saves last minute fuss.

- Party Sandwich Loaf**
- 1 cup graded cheddar cheese
 - 2 tablespoons chopped pimiento
 - Salad dressing
 - Salt and pepper
 - 1 small can pink salmon
 - 1/2 stalk celery, cut fine
 - 1/2 teaspoon paprika

A Visit With Your Neighbors On the Job

A flair for decoration won Mrs. Charles Denune of the Northville Florist shop a turkey for the most attractively decorated window at Christmas time. Her clever window arrangements always draw favorable comments from the passer-by.

Before Mr. and Mrs. Denune went into the florist business for themselves in Northville, Mrs. Denune managed a florist shop in Petersburg, Mich. Previous to this she attended a school of floral design in Detroit where she learned flower arrangements for wedding, funerals and parties. A line of flower containers and ornaments and figurines used in floral arrangements is carried along with flowers.

The Denunes have been in business for two years in Northville and one year in their present location, having outgrown their first quarters.

Mrs. Denune attended school in Northville and excepting for a few years, has lived in this area most of her life. The Denunes have one daughter, Norene, who graduated from Northville high school in June.

Blessed are they which do hunger and thirst after righteousness, for they shall be filled. — (Matthew 5, 6.)

Righteousness is not gained merely by wishing for it, nor by any effortless means. It must be diligently and sacrificially worked for, striven for, and earnestly prayed for—and this must be constant, for righteousness is not kept without effort.

HAVE you been thinking you can't afford a new Buick? Listen:

If you can afford any new car, you can afford a Buick—and we boldly show our price here to prove it.

Look again, and you'll see that this is the local delivered price of the new Buick SPECIAL 2-door, 6-passenger Sedan. Compare, and you'll learn that this price is just a few dollars away from those of the so-called "low-price three."

But—dig a little deeper if you want the real clincher. That's when you find that those few dollars more you pay for a Buick buy you a lot more automobile.

They buy a whale of a lot more power—Buick V8 power—plus the new economy of Power-Head combustion.

They buy a lot more luxury and comfort and solidity—more room, more glass area, more frame strength, more tread width, more ride steadiness—including the million dollar "feel" of all-coil springing and torque-tube stability.

They buy, too, the most advanced styling of the times, and the great panoramic windshield, and the surety that such fresh-

looking beauty will stay in the style parade for seasons to come. (That means a better deal for you come resale time.)

Is it any wonder, then, that Buick now outsells all other cars in America except two of the so-called "low-price three"?

Come in for a demonstration—this week, for sure. And learn, in the doing, what a big trade-in allowance our volume sales can bring you.

Poultry, Milk, Ice Cream Best Buys During July

Broilers and fryers share the top spot with ice cream on the U.S. Department of Agriculture's plentiful food list for July—with dairy production continuing at a record-breaking level.

Wholesale broiler and fryer prices should continue without upsurges, notes Henry Larzelere, Michigan State college poultry marketing specialist. Total supplies for July are about 5 per cent above last July.

The first sizable marketing of new crop turkeys will be on hand, with light birds available throughout the month.

Beef will continue to be plentiful. There is an abundance of the higher grade meat from grain-fed cattle. Grass-fed cattle will be coming to market in seasonally larger numbers to provide more of the intermediate and lower grades of beef.

Produce markets will be abundantly supplied with a wide variety of vegetables from nearby market gardens, in addition to the heavy vegetable shipments from commercial growing areas. Watermelon is the only fruit "plentiful" for July.

The list includes fresh fish, peanuts and peanut butter, and vegetable fats and oils.

Home Demonstration Agent's Column

Planning to attend Homemakers Conference? Any Northville woman is eligible to attend the 4-day educational meeting at Michigan State college July 20-23, says Home Demonstration Agent Emma DuBord. This is the 27th year for the annual event sponsored by the home demonstration staff of the Michigan Cooperative Extension Service. The 1954 conference theme is "Better Families—Our Goal". The program of educational events includes classes conducted by the MSC faculty members and other authorities in their fields.

Women who enroll for the entire conference can choose from 18 subject matter topics to be offered this year. There will be a special class for day visitors, explains Miss DuBord. Special morning, afternoon and evening programs and entertainment have been planned. Most of the sessions will be in the college auditorium just across the Red Cedar from Shaw Hall where women attending reside. Outstanding speakers this year include Mercedes Hurst, public relations representative for International Harvester; Laura Lane, an associate editor for Country Gentleman; Frances Scudder, director of the home economics Extension Service program for the U.S. Dept. of Agriculture, and Mildred Buchanan Flagg, author-lecturer of Boston.

Many people advise others to save money—but very few give advice on how to do it.

Some teen-agers are mighty good kids in spite of the company they keep—at home.

Northville's Favorite Recipes

(What's your favorite dish? If you will share it with other Northville housewives, please call The Record's society editor, Telephone 200.)

Mrs. Fred Casterline of 114 W. Dunlap, says Freddie would eat this Prune cake every day and their six year old son, Butch, thinks it is mighty good too. So will you. Try it and see.

Prune Cake
2 eggs (well beaten) 1 teaspoon allspice
2½ cups cake flour 1 teaspoon cinnamon
¾ teaspoon baking powder ½ cup butter or shortening
1 teaspoon soda 1½ cups sugar
1 teaspoon cloves 1 cup cooked, cut-up prunes
1 teaspoon vanilla 1 cup buttermilk or sour milk

Set dry ingredients together. Cream shortening, add sugar, eggs and prunes. Mix and add flour, alternating with the milk. Bake at 375 degrees in layer pans or one large loaf pan until cake leaves the sides of the pan—about 35 or 40 minute.

Icing

Put 1 cup white sugar, 1/3 cup water, 1 tablespoon Karo corn syrup, 1 teaspoon baking powder and a pinch of salt in a sauce pan and heat until the sugar is dissolved. It is not necessary to cook it. Place two egg whites in bowl and start beating (electric mixer is easiest) slowly adding syrup to the mixture. Beat until the frosting stands in peaks. Add vanilla and beat. This frosting will not harden.

Here Are Tips On Saving Coffee

You can save on coffee if you follow these five rules:

Use it right after it has been ground; it is more flavorful then, and you can use less.

Grind it fine, and you'll get more coffee out of each pound. Extra fine for vacuum pots with filters.

Cut down on waste by measur-

ing accurately. Find the lowest strength that satisfies and use the same measure each time.

Remember that coffee evaporates and gets bitter when too often reheated. Try to make no more than you are going to drink each time.

If you use the drip method, use a little less coffee and pour the liquid through twice.

DOG QUARANTINE

In accordance with the statutes of the State of Michigan and the action of the Wayne County Board of Supervisors, all dogs in the Village of Northville and surrounding area are placed under strict quarantine effective May 12. All dogs must be vaccinated and licensed. Quarantine will continue until Sept. 15. All unmuzzled dogs will be picked up and impounded in the Village Pound, vaccination and tags notwithstanding. Dogs must be muzzled to comply with the statute.

The Feminine Angle

Women are wonderful creatures, aren't they?

That's not an original observation, by any means, merely a comment on a self-evident truth.

There's little doubt in the minds of most thinking males that we men could get nowhere, and would actually be nothing without the feminine of the species. Which, in sober reflection, appears to have some biological basis in fact.

Be that as it may, men always have been inclined to put Woman—wife, mother, sister, or somebody else's sister—on a pedestal. What man, or woman, hasn't at some time thrilled to the tales of "doing-dare for a lady fair" when knighthood was in flower?

Through the ages, men have fought and died for women. They have performed incredible feats of strength and courage. They've moved mountains, built empires, found new worlds, risen to great heights and fallen into the abyss—all because of a woman. A woman like the fair Elaine, Cleopatra, Diana, the Borgias, Isabella, and the beautiful Helen of Troy—"the face that launched a thousand ships".

Or Sadie Jones around the corner, who almost got me a broken neck when I was 12, because she wanted the highest apple on the tree and I was dumb enough to get it for her.

Yes, men have always put women on a pedestal; or did until women climbed down, unaided, by insisting on equal rights and learning how to take the safety catch off a 45. But don't think they'll let us men forget how dependent upon women we are. No, sir!

Cometh Carmina-Brooks, who handles women's public relations for a large automobile company, and who holds forth thusly:

"Men will probably always be taking the bows for putting America on wheels, but it is doubtful whether the automobile could have been driven to its important place in the nation's economy had not women climbed into the driver's seat."

Further, sayeth Carmina, all the improvements to the horseless carriage have been brought about because women pushed men into making them. The self-starter, to keep Milady from getting a broken arm trying to crank an obstreperous machine, design and fashion and now a tubeless tire to keep Milady from rolling her white gloves changing tires—there being few knights errant sauntering around—all were brought about through the influence of women.

Those and other things, too, any woman will tell you. The telephone, bathtubs, the airplane, the railroad, ice cream, the bikini bathing suit, indoor plumbing and clean-necks-for-little (ugh!, as Al Capp would put it) boys, were all thought up or influenced by women, to hear them tell it. Only the Russians have made greater claims to human inventive progress.

"Why," said the Little Woman while I was discussing this aspect with her, never having acquired

the ability to keep my big mouth shut, "If it weren't for us women, you men would still be living in caves!"

I let the matter end there, not having a handy cave to crawl into, but there could be a lot of truth in what she said.

Of course, there have been all sorts of women through the ages—some helpful and sweet; some (strike that out) many fickle and faithless; some dangerous and mean; and scads of 'em noble and gracious. Far be it from me to cast aspersions their way, not

even at the Hollywood star who was reported highly irked because she only got \$150,000 a picture.

No detractor of women, 'twas not I who quipped: "Nice irk if you can get it!" It must have been some soured-on-women habit of Don the Beachcomber's who dared utter such a base canard.

Fie upon such as he! I still think women are wonderful! As Will Rogers really meant, "I never knew a woman I didn't like!" (*Knight Errant.)

Strawberries Still Top Summer List

There is nothing like strawberries for eye and taste appeal on warm summer days when appetites bog down. Although this is the peak season for Michigan strawberries, shoppers can expect to find them priced in the luxury item class, warns George Mottis, agricultural economist at Michigan State college. Prices are higher this year than last because the Michigan crop is smaller. Irrigation frost-fighters saved it from being even smaller. The southwest Michigan harvest peak ends about July 4, but strawberries will continue coming to markets through July from growers further north in the state.

Turtle Tourney-

(Continued from Page 1)
Liams took first prize, and Joe Gotro second. Third prize winner in this race was not identified, but fourth place was captured by Carol Klopfenstein, and fifth by Bobby Eaton.

The third race went to "Big Boy", owned by Stephen Johnston and wearing the maize and blue colors of Michigan. Big Boy set a sizzling pace all the way, crossing the finish line 54 and two-fifths seconds, a record the tourney director said probably would stand for years.

TAKES SECOND MONEY

Michael Turnbull took second money, and "Crazy Creepin' Crawler", also owned by Stephen Johnston, came in third. Two entries from the "stables" of Dick Biery took fourth and fifth places.

Bobby Lyke and Stephen Johnston also scored in other competition. Bobby's "Oscar" captured first prize in the most original design class while Steve's "Big Boy" was second. Big Boy also took the prize as the largest turtle in the race.

Judges for the contest were: S. L. Lockwood, of Omaha, May or Ely, R. C. Merriam, and Chief Denton. Starters were Sgt. Glas-son and Director Johnston; counting for knockdowns at the bell was Harry C. Duerson. Registrars were Jean Campbell and Lila Lea Skow.

"A good time was had by all," observed Director Johnston, summing up the contest. "Everybody cooperated to the fullest, and we hope that future tourneys will be even bigger and better."

He complimented the following stores for contributions to the

tournament: Stone's, Cloverdale Dairy, Paul's Sweet shop, and the D&C store.

He also expressed appreciation to a number of boys who worked for days capturing turtles from nearby lakes and streams and distributing them to children who wanted to enter the contest. These included: Tucker Williams, Stephen Johnston, Cap Pethers, Dick Biery, Pete Gross, Joe Kritch and Phil Loranger.

Merchants Nine Loses To Taylor

A barrage of basehits by the Taylor Merchants, leaders of the Inter-County Baseball league, sent the Northville nine down to defeat Sunday at Cass Benton park. The score was 11 to 1.

The defeat, accompanied by the visitors in a drizzling rain, dropped the Northville team into third place in the league.

Next Sunday the team will tackle Grandale Merchants at Northville. Game time is 3:30, and Mgr. Steve Polino said his squad will go all out to win at the expense of the fourth place visitors.

Special Garden Club Meeting July 20

There will be a special meeting of the Northville branch of the Womans National Farm and Garden Assn. on Tuesday evening at 8 p.m. July 20 in the Community Building.

The purpose of this meeting is to discuss the possibility of sponsoring the landscaping of the community building.

WINNERS OF the most original design on the backs of the turtle contestants were "Oscar", owned by Bobby Lyke (right), and "Big Boy", held by Stephen Johnston, (left).

CHRISTIAN SCIENCE CHURCHES

That strength, joy and healing result from a spiritual understanding of God as infinite Life will be brought forth at Christian Science services Sunday.
Keynating the Lesson-Sermon entitled "Life" is the Golden Text from Romans (6:23): "The gift of God is eternal life through Jesus Christ our Lord."

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy include the following (487: 27): "The understanding that Life is God, Spirit, lengthens our days by strengthening our trust in the deathless reality of Life, its almightiness and immortality."
The following passage will be among those read from the Bible (Psalms 118:14,17): "The Lord is my strength and song, and is become my salvation. . . I shall not die, but live, and declare the works of the Lord."

Disobedient Children? Concentrate On "Why", Specialist Advises

Your 3-year-old child simply will not mind? If this is your problem, concentrate on WHY the child does not mind—instead of merely on the FACT.

Approach the problem much as you would the problem of the cake that failed to rise, suggests Mrs. Lennah Backus, extension family life specialist at Michigan State college.

What is the cause? That is really what you need to know. Begin by asking yourself these questions:

Is the child well and does he get enough sleep? Well-fed children have more energy to cooperate and rested children are more willing to take suggestions.

What tone of voice do you use when you ask your child to do something? Is it a request or is it a command? The rather gentle but positive manner usually gets better response than the command.

When asking your child to do something, do you allow time for the request to "get through" to him? Children are sometimes so engrossed that they need a moment to turn from one activity to another.

Just what do you expect of your child? Are the things you

ask within his ability—or does he give up in despair and refuse?

Is your 3-year-old refusing to mind in order to gain attention? If you suspect this is the case, why not plan to give him more of your time and the feeling that he can gain your attention in more desirable ways.

Such questions will help you plan wisely to solve the "simply will not mind" problem, says the family life specialist.

Last Day For Scout Camp Registration

Any Northville boy scout desiring to go to camp who has not registered, should register Thursday, July 15 at 7 p.m. at the Boy Scout building. Mr. Weston states this is the last day for registration.

A SHREWD YOUNGSTER

Down in Cedar Bluff Virginia the town sergeant was questioning a fifth grader whom he suspected of breaking into a service station. He really didn't have any evidence against him so he decided he would play a bluff. Looking at the youngster seated before him he said, "We know all about this service station break in. We took fingerprints and all we have to do is to compare them with yours to complete the case." To which the 13 yr. old boy replied "You can have my fingerprints but they won't prove a thing because I wore gloves". Man has ever been trying to cover up the fact that he is a guilty sinner. He has invented many explanations, religions and philosophies that have somewhat eased his guilty conscience. Surely a person would be foolish to think that God will not be able to discover this deception when the sinner stands before Him at the judgement bar. All his explanation which sounded so plausible down here will somehow become exceedingly foolish. All his twisting of the plain teachings of the scriptures into a denial of his sin and punishment to follow will somehow be strangely stilled. Romans 3:19 says that every mouth will be stopped and all the world will become guilty before God ADMIT YOUR GUILT AND RECEIVE HIS MERCY.
