## for the Record

by G. H. C.

America always has had a big heart. No empty phrase, that "Give me your hungry, your homeless—" in the declaration of principles at the unveiling of the famed Statue of Liberty in 1886.

America always has been generous, not only to those who have come to her shores, but to those who have been stricken by famine or disaster in other lands.

And this is the time of year, approaching the birthday of The Saviour, when America's heart is at its fullest. And Bertram B. Johansson, of the Christian Science Monitor, points out how simple it is for practically every American to participate in a vast program designed to alleviate human suffering elsewhere in the world.

For only a dollar, he says, you can become an internationalist.

That is all it costs now, under a new CARE program of food distribution, to send two packages, or 28 pounds, of surplus farm food to a hungry family or individual in any of 32 countries overseas.

Such an amount of food would sustain some families nearly a month.

With the exception of some canned meat purchased by the Foreign Operations Administration, the eats are "free". That is, the rest of the food package—rice, beans, flour, milk powder, cottonseed oil, and so forth—is being supplied out of the United States Department of Agriculture's overstuffed bins and warehouses.

The CARE organization has become the distributing agency for a portion of the huge American farm surplus.

The State Department determines to what countries the surplus food shall be delivered. Sometimes the allocation of food is as a means of combating communism as well as diminishing hunger. But the CARE organization decides who is to receive the foodstuffs. The relationship is not of one government to another, but of one person sending food to another. This precaution is taken to prevent the influence of political favoritism in the distribution of the food to individual families.

Great hunger still exists around the world, despite improved conditions in many areas.

There are still 247,000 displaced persons and refugees within the small boundaries of Austria.

8,000,000 refugees in Germany.

Many thousands in Hong Kong.

Ten to 11 million people still need aid in Korea.

These are just a few of the desperately hungry who need help.

Stacked up against these conditions, Johansson says, there is in storage in the United States today an enormous quantity of food obtained under the farm parity program.

The enormity of the stocks is staggering. There are on hand in warehouses all over the country:

More than 447,000 pounds of butter.

329,000,000 bushels of corn.

753,000,000 bushels of wheat.

And millions more pounds and bushels of 23 other agricultural products.

Between Thanksgiving day and Christmas, CARE hopes to be able to move some 18 million pounds of these surpluses to families in Vietnam, Greece, Guatemala, and 29 other countries.

Actually, one may contribute as little as 50 cents and still send one 14-pound package on its way. Organizations, such as men's and women's clubs, labor unions, and employees groups are sending in group-collected amounts, made up of 50 cent or larger individual contributions.

Donations may be sent to any CARE office over the country, or taken to any one of 2,000 local Railway Express Agency offices, which as a contribution in the public interest, will accept your gift personally for CARE.

## Program Found by Pastor Reveals History of Old Northville Town Clock

"Good Men and True" gathered in Northville 51 years ago next month to accept what has become to be something of a millstone around the community's neck.

Of course, there was a question mark after the title of a talk given by Rev. J. M. Belding at the dedication of the town clock atop the Methodist church Jan. 1, 1894, to wit: "Our Citizens—Are You Good Men And True?"

However, charitable residents of the Village today undoubtedly will concede that those who gathered at the meeting in 1894 had only the best of intentions.

Rev. William Richards of Maxwell Rd., who now is in Florida for the winter, was interested in widely-published accounts of the finding of five young hoot owls in the clock last May. The stories speculated that the steeple had been built and the clock installed about 40 years ago—no one seemed to know just when.

### Program Found

Among his papers Rev. Richards, now nearing 80 and who was pastor of the church from 1922 into the thirties, found a copy of a printed program of the presentation.

The cover pictures what appears to be a woodcarving of the church and steeple, credited to the Detroit Free Press. It is entitled "A Happy New Year. Dedication of Town Clock. Presented to The Village of Northville by John Gardner."

The back cover carries a drawing of Gardner, a distinguished looking man with heavy sideburns, and the inscription: "And you, my dearest friend! how shall I thank you? What shall I do to show my grateful heart?"

Little did Gardner realize, apparently, that half a century later his generous gift would spend approximately \$1,000 annually for its maintenance, or whether the steeple and its outmoded workings should be deemed to the Methodist church. Or, that if the Methodist congregation refused to accept it, it would be torn down, as has been recently suggested.

### Festive Occasion

At the time, the presentation constituted a festive occasion. (Continued on Page 8)

## \$825,000 School Bonds Approved at Walled Lake

A \$825,000 bond issue for new school construction in the Walled Lake area was overwhelmingly approved Monday in a special election.

Supt. of Schools Clifford Smart said the money would be used for four separate items scheduled for completion next year: a gymnasium for the Walled Lake High school; a multi-purpose room addition to the Twin Beach elementary school; and a six-classroom addition to the Commerce elementary school.

In 1956, Smart said, the school district plans either to build a 13-room elementary school or add 13 rooms to the present elementary buildings, to provide an office unit for the high school, and a kindergarten room addition at the Walled Lake elementary school.

Construction of the gymnasium and the three other improvements to be completed next year is to start in January.

School population of the Walled Lake area is now 4,400, Smart declared.

An increase of approximately 500 school children in each of the next several years is anticipated, indicating a substantial growth in the entire area.

## Youthful Hunter Gets 180-lb. Buck

Like Hiawatha, young Nelson C. Schrader of Northville is no mean shakes as a nimrod.

Thanksgiving day he and his parents, Mr. and Mrs. Nelson C. Schrader, 116 Orchard Dr., were at their lodge northeast of Gaylord. The 14-year-old boy felt the urge — just like Hiawatha — to journey forth with trusty bow and arrow, in this case a .32 Remington Special, to count coup on such denizens of the forest he might find.

He was a little nervous, he admitted afterward, when he saw a magnificent ten-point buck coming slowly toward him. The slight case of buck fever did not materially affect his aim, however, and at a range of approximately 75 yards he opened fire.

Two bullets dropped the buck, which was found to weigh 180 pounds. The senior Schrader also got his buck, but had to admit his son was a mightier hunter than he for it was the smaller of the two.

Nelson, Jr., was not the only Northville youth to get a buck this season.

Last year, Dick Mitchell of W. Seven Mile Rd., shot his first buck at the age of 14. This year, Dick and his father, Melvin P. Mitchell went deer hunting at Hubbard lake again and each shot a six point buck. Dick got his the first day of the hunting season.

## Newcomers To Gather Tuesday at Rotary's Rural-Urban Banquet

Newcomers to the Northville area will be given a grand welcome, complete with banquet and all the trimmings, at the annual Rural-Urban get-together next Tuesday evening.

More than 250 persons, including some 90 newcomers whose names have been obtained by the committee on arrangements headed by John M. Miller, have been invited to the affair.

## Willowbrook's Construction Rumors Denied

Rumors that the new Willowbrook village is having construction difficulties, and that an attempt was being made to foist a \$300,000 water system upon Novi taxpayers, were discounted this week by Paul LeBost, head of the construction firm which bears his name.

LeBost said that delays in construction of houses already sold on the south side of Ten Mile Rd., between Meadowbrook and Haggerty, have been occasioned by slowness of action on the part of the Veterans administration. Material for construction of the houses is already on the site, but actual building has been delayed because of failure to receive certificates of reasonable value required for those purchased by veterans.

On the north side of Ten Mile Rd., he said, "we are proceeding according to schedule. Many of the houses already contracted for have been completed and our work crews have been and will continue to work steadily throughout the winter."

On the water issue, LeBost said the Willowbrook village water system was three-fourths installed and that an offer had been made to turn it over to Novi township at the request of the State Board of Health. State officials, he declared, said that such a water system could be more appropriately operated by the township than by a private concern and that he had no intention of saddling the cost upon Novi taxpayers.

No Cost To Taxpayer "We expected to complete the system and then turn it over to the township without a nickel of cost to the taxpayer," LeBost said. "We were just going to drop something into their lap in accordance with a request from the State Board of Health, but if they do not want it, we will operate it ourselves."

On the subject of schools, he insisted that children residing in Willowbrook village would have ample facilities and that an option had been taken on acreage on the northeast corner of Ten Mile and Novi road. There, he said, a school could be erected when the population warranted it.

The meeting is designed for the purpose of integrating the newcomers into the community, and to provide an opportunity for new and old residents to become acquainted. All who attend are guests of Rotary.

## American Legion Auxiliary News

The American Legion Auxiliary, Lloyd H. Green Unit No. 147, is getting its Christmas shopping done early this year. The post has purchased gifts to be sent to the Veterans' hospital at Ann Arbor for the Christmas Gift Shop.

The gift shops are conducted in five VA hospitals in Michigan, the latter part of November and early part of December and are made possible by the gifts purchased by the units.

The gift shops give the veteran an opportunity, while hospitalized, to remember his wife, mother and children, or his sister and brother, with a Christmas gift which he selects, and to which is attached his greeting.

Four members of the Lloyd H. Green unit and members from other units of the area will go to the Dearborn VA hospital Gift Shop to help the veterans select their gifts. Those women wrap and address the gifts for mailing after they have gift wrapped them.

The following items were

among the gifts purchased by the auxiliary for the gift shop: two boxes of socks, one chess game, one ash tray, two ash tray sets, three ladies' wallets, four traveling kits, one cologne stick, one ladies' purse, one fire house (toy), one clown doll, one Hi-lift loader (toys), one doll nursery, one pull toy turtle and two lighters.

## A SWITCH OF THE PITCH —AND AWAY YOU GO!

The biggest sensation in years is what

"variable pitch propellers" have done for Dynaflo Drive\*

It happens like this. You need pickup—and pronto. So you get it. You get it by pushing the accelerator pedal of a 1955 Buick all the way to the floor board.

Then—without jerk or lag or lurch or pause—you get action! You get action whether you're just starting off—or asking for a safety-surge of power out on the highway.

There's nothing like it in past experience—because there has never been anything like it in an automobile before.

This is action that comes from the principle of variable pitch propellers used on modern planes. Their propeller blades change "pitch" for take-off—and cut hundreds of feet off the time required to lift a plane from a runway.

And the amazing fact is—in a 1955 Buick Dynaflo Drive there are 20 little propeller-like blades that also change their pitch, just like the propeller blades of a plane.

This is a transmission engineer's dream of heaven. A build-up of momentum as smooth as flowing oil—and almost as quick as lightning—plus better gas mileage in cruising range. It's what the whole automobile industry has been shooting for—and Buick has it. So, that means

there's only one thing for you to do. Try out a 1955 Buick, and soon.

Try it out for quick action, as we've mentioned. Try it out for room and comfort and ride. And by all means, cast an admiring eye on its style—for it beats the high-fashion Buicks which set the pattern in the successful year just ended.

We're waiting and eager to hear from you soon. So drop in—or give us a call. We promise you a thrill that no other car can deliver.

## "Harbor Lights" Theme of NHS J-Hop

The 1954 NHS J-Hop Nov. 26, was the first J-Hop to be held in the new Community building. Judging from the attendance, which was the largest for any previous J-Hop the Community building was completed just in time.

The theme of the J-Hop was "Harbor Lights" and the decorations were among the most unusual and spectacular ever attempted. A large lighthouse, with light and railed "walk" was erected in the center of the dance floor and Jimmy Stevenson and his six-piece orchestra were seated under the canopy which supported the lighthouse. The stage represented a large city at night with a clock tower in the center. Life preservers were hung in various places around the dance floor and miniature lighthouses were placed in each corner of the floor.

Ken Krezel, president of the junior class and his guest, Pat Madigan, led the grand march at midnight.

### GIVES QUICKER ACTION

Different water temperatures are specified in bread recipes for dissolving compressed and active dry yeast. Compressed yeast must be dissolved in lukewarm water (80-85 degrees F.). At this temperature, a drop of water placed on the wrist feels neither warm nor cool. Active dry yeast should be dissolved in warmer water (150 to 110 degrees F.) for quick action. Water at this temperature feels warm but not hot to the touch.

### NOT SO SAFE

Chicago — A board placed on the side of the bed of a 4-year-old boy, to keep him from falling out of bed, figured in his death. The child, Charles Gohn, Jr., managed to get his head wedged between the board and the mattress but couldn't get loose. In desperation, he threw his body over the board. When found by his mother, Mrs. Elizabeth Gohn, 27, he had strangled to death.

Apples are sold by the unit, by weight, or by the original container. Selling by weight is more satisfactory, says Roberta Hershey, Extension foods specialist at M.S.C. Three apples of medium size weigh about one pound. There are about 40 medium-sized apples in a peck and 150 in a bushel. Medium-sized apples sell for less than large ones and are usually more economical.

### NO GHOST, JUST SHADOW

Pottsville, Pa. — An apparition which appeared on a rock behind the home of the Charles Fritz family for several nights caused an unusual amount of interest and was thought by some to resemble the Virgin Mary, and left rosaries on the stone. Actually, investigation proved that the light pattern resulted from the arrangement of curtains in the home of the Fritz's, reflected by the light in a room.

## DISTURBING FACTS

Additional financial support, to provide for more classrooms, more and better paid teachers, must be found to assure America's youth the education it must have to share in and contribute to a better future for all.

If states, communities, and private individuals and organizations fail to provide this needed support, the federal government will step in to provide the money.

That would mean higher federal taxes and reduced local control of education. But, much more important, federal support would necessarily require federal control over the kinds and quality of education. Diversity would give way to uniformity. It is a prospect most disturbing to contemplate.

## LET'S GET RID OF XMAS

Practically everyone in the civilized world knows when they see the word "Xmas" that it really means "Christmas".

To many, it is completely odious that "Christ", the haloed name of the Saviour, should thus be omitted from the name of the day on which He was born. Is it because some people are too lazy to give its proper spelling? Or, to be charitable, is it simply that they are thoughtless?

Is there a substitute for Christ? Certainly not in the Christian world.

Northville's Rev. Peter F. Nieuwkoop, pastor of the First Baptist church, says:

"X is a symbol for the Greek letter (chi) and is an initial letter in the Greek name 'Christus' signifying Christ. However, the majority of people do not know this and the X is merely a time saver—a substitute for Christ.

"The commercial world is fast crowding out the name of Christ anyhow, and we need not further the movement by eliminating His name from our Christmas."

Let's get rid of Xmas, therefore, as an abbreviation for the most holy day in the Christian world.

## Michigan Mirror

by Gene Alleman

Legislators will be asked to modernize Michigan's system of school financing in January after a committee of experts comes up with answers to three major problems.

The committee will start from scratch, basing its research on what the people need from education.

"As part of the committee's work, we should determine what constitutes a minimum educational program," said Jack Milligan, assistant superintendent of public instruction.

He said the first part of the report would be ready for the legislature in January, but that some detailed parts of the study might take two years to develop.

Biggest Problem will be to find a way to shell out state money to the school districts which need it.

The distribution formula now sends the money to districts on a per-student basis, regardless of the need. Some districts use it to pay tuition for their students in other schools if they have none at home.

The other two posers will be to find means to improve local property tax assessments and to abolish the 'closed districts' those which send children to other districts and have no schools of their own.

MICHIGAN found it was ignoring one of its own laws which provides that the state and railroads share the cost of installing flasher signals at crossings.

The 1931 law required the 50-50 financial arrangement for the installations and insists the state pay \$10 a month for keeping them in working order.

For years, there has been an agreement that the state would pay the full cost, \$3,200 for each crossing signal with the railroads footing the bill for maintenance.

Now comes a ruling from Deputy Att. Gen. Arthur T. Iverson saying that the law stands and the state is bound by it.

"To conform strictly to the law would cost more than it's worth," said Maurice E. Hunt, public service commissioner.

Iverson had the answer: "Get the legislature to change the law."

Plans already are in the making to lay the plight before the 1955 legislature, a body eager to hear how money can be saved.

STATE HEALTH OFFICIALS have started a search for unknown tuberculosis sufferers to fill vacant hospital beds.

They say that only 78 percent of 5,590 beds available for patients are being used, including 288 at Detroit's Herman Keifer Hospital.

The State Department of Health is proposing ways to detect tuberculosis earlier in school children, and in intensified case-finding projects on a local level.

"The availability of the beds offers an excellent opportunity to expand all phases of case finding and provide care for those who have tuberculosis and don't know it," a special report said.

Michigan's civil service commission is steering away from a fight with the legislature next year.

For the past two years, the commission has come up with pay increases for the 25,000 state employees after the legislature already had drafted its budget.

Angered by the budget-upsetting maneuvers, legislators toyed with a variety of ideas for solving the problem — abolishing civil service, among others.

Now, hoping to make peace, the commission has ordered a study of the pay situation due before the legislature returns in January so everybody will know whether another raise is in the making.

SCIENTISTS in Michigan's laboratories are working on four new "wonder drugs", one of which may be directed against tuberculosis.

"One of four is being produced experimentally now," said Dr. Birger H. Olsen.

Out of the four, the department hopes to develop a drug to attack tuberculosis, one of the top ten killers. Even now, another of Michigan's home-developed wonder drugs is nearing production.

It is synnematin, a new vaccine which has been a proven cure for typhoid fever in experiments on 15 victims in Mexico. Doctors here said there was a reason it wasn't tested in Michigan:

"We don't have enough cases in the state to test," said Dr. F. S. Leeder, director of disease control. "We may use it later on some of the chronic carriers, though."

# Use Speed Recipes To Make Gifts From Your Kitchen

PERHAPS you've decided not to give those lovely cookies and other sweet tidbits that come from your kitchen because their preparation is so time-consuming. Think again after you've looked at these speedy recipes and you'll surely change your mind:

**Holiday Balls**  
(Makes about 50)  
2 cups fine vanilla wafer crumbs  
1 cup sifted confectioners' sugar  
1 cup chopped walnuts  
1/4 cup sifted cocoa  
3 tablespoons dark corn syrup  
1/2 cup chopped candied fruit  
Dash of salt  
1 teaspoon vanilla  
4 tablespoons cold water  
Combine all ingredients and mix thoroughly. Roll into balls, using about 2 teaspoons of the mixture

There's nothing more welcome than a present from your own kitchen. Include your favorite cookies and sweets or try these speed recipes for Holiday Balls and Chocolate-Coconut drops which offer true deliciousness.

for each ball. Then roll in colored sugar, cocoa or confectioners' sugar. Store in covered container.

**Chocolate-Coconut Drops**  
(Makes 30)  
1/2 cup sweetened condensed milk  
1 ounce unsweetened chocolate  
1/2 teaspoon salt  
1 1/2 cups moist shredded coconut  
1/2 teaspoon vanilla

Place sweetened condensed milk and chocolate in top of double boiler over boiling water, and cook for 10 minutes. Stir often until thick. Remove from heat and blend in salt, coconut and vanilla. Drop by teaspoonfuls on greased baking sheet one inch apart. Bake in a moderate (350° F.) oven for 10 to 12 minutes. Remove from pan at once.

## Candles, Greenery Will Decorate Home

It's easy to have your home say "Merry Christmas" graciously. You start with candles and greenery, and a few Christmas ornaments and a smidgen of imagination and soon it's done.

If you're entertaining buffet style, here's a simple but effective idea for the table: Set two or four candles of the red, squat type, at the ends of the table. Have two long and two short candles, if you want to use four, using one of each length as a team.

At either side of the candles, pile tree balls in milk glass bowls or pottery ones. Finish with sprays of holly or greens woven together between the candles.

**More Table Decorations**  
Here's an effective table decoration if you have people to sit down at the table. Use silver or aluminum candlesticks with green candles at the center. In their midst place small boxes of dime store favors, wrapped in red, green and white. On top of each, or at each place, set a small corsage made at home. For these you might use two white carnations wired with a sprig of holly and red berries.

White branches are effective for occasional tables. You can use the extra branches trimmed from the tree. Spray these white using any inexpensive spray gun filled with liquid white shoe cleaner. When the first coat is dry, spray on the second one.

Should you like to have the white branches sparkle, use a special plastic glue and sprinkle glitter on them, too.

**Entrance Decorations**  
Doors and entrance halls offer wonderful possibilities for decoration. Why not make a white glitter wreath for your front door or hallway? Shape a circle from a wire hanger, then place strips of white net through this to give a snowy wreath. Attach glitter and sequins on the netting and you're ready to hang it.

White foam canes are another possibility for the door. Wrap red ribbon around the cane, candy-stick fashion. Place it against a green branch and string some large silver bells or beading around the greenery to add a glamour note.

**HOW TRUE**  
Take care in traffic.  
Lay off the wine.  
The wife you save  
May well be mine.—C.H.L.

Twenty-five members and guests of the Cooperative Nursery school attended the "Ladies' Day" TV program at Station WJBK Nov. 19. Each week some organization is featured on this program, a Lady of the Day is chosen, and prizes are awarded.

Mrs. Edwin Langtry of Thayer Blvd., Northville, was chosen as Lady of the Day and was presented with a corsage. Mrs. Charles Hall, president of the Cooperative Nursery school, received an electric bean pot as a prize and Mrs. Francis Clinton, a copper candy dish. Both Mrs. Clinton and Mrs. Hall also received tickets to a Detroit theater and a box of candy and a box of groceries. They also appeared on the television screen with Mrs. Langtry as she was crowned Lady of the Day.

## What's Cooking?

(What's your favorite dish? If you will share it with other Northville housewives, please call The Record's society editor, Telephone 200.)

Laura and Dorothy Sutherland, daughters of the Hurd Sutherlands of W. Dunlap St., and their brother, Peter, aged 7, like to have the cookie jar filled at all times. Laura and Dorothy bake pies and cakes as well but their favorite cookie recipe is this one for Honey Cookies. It is an old family recipe handed down in their father's family and makes enough to more than fill a good sized cookie jar. Peter was just ready to take a bite of a fresh cookies when the flash bulb went off and he shut his eyes. Laura is 13 and a half, and Dorothy 11 and a half, and both are Girl Scouts. Mrs. Sutherland is shown at left in above picture.

### HONEY COOKIES

1 cup very soft shortening (lard or Crisco) 2 cups strained honey  
1 teaspoon nutmeg 1 teaspoon lemon extract  
Dissolve 1 tablespoon (rounded) of soda in 6 tablespoons of warm water. Add 7 to 7 and one-half cups pastry flour and 1 teaspoon of salt to the shortening and honey and mix well. Roll out on a floured board until one-quarter of an inch thick, cut with cookie cutter. Bake on cookie sheet for 10 minutes at 375 degrees.

## Cooperative Nursery School News

The monthly meeting of the Cooperative Nursery school will be held Monday, Dec. 6 at the home of Mrs. John Stubenvoll, 875 Grace St., at 8 p.m. The co-hostesses will be Mrs. Raymond Champ and Mrs. Robert M. Edwards. Mrs. Howard Meyer will be the guest speaker. Mrs. Meyer is state representative of the Cooperative Nursery school and has been active in the organization for over two years. She will speak on children's problems such as fears, thumb-sucking, etc.

A committee meeting of the Cooperative Nursery school was held Tuesday, Nov. 23 at the home of Mrs. William Secourd on Seven Mile Rd. Plans were discussed for the new term starting Dec. 15. All children between the ages of two and a half and five are welcome to join the nursery school.

The committee chairmen were given names of children of the proper age group to join the nursery school and they will be contacted.

The Cooperative Nursery school is held in the Presbyterian church basement Monday, Wednesday and Friday of each week between

the hours of 9 and 11:30 a.m. Two teachers, with state teaching certificates, Mrs. William P. Madigan and Mrs. Edwin Langtry, are in charge. The tuition is \$10 a month and this includes tuition to the PTA, with which the nursery school is affiliated.

All mothers and children interested are invited to come and observe during school hours or attend a monthly meeting. The four-year-old children are especially invited to acclimate themselves for kindergarten.

## GET RID OF XMAS

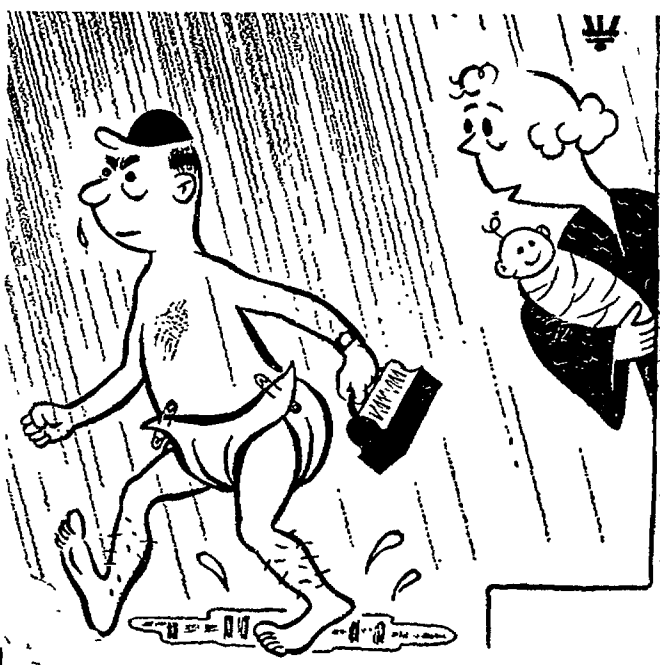

Let's get rid of Xmas as an abbreviation for Christmas. "X" is a symbol for the Greek letter (chi) and is an initial letter in the Greek name "Christis" signified Christ. However the majority of people do not know

this and the X is merely a time saver—a substitute for Christ. The commercial world is fast crowding out the name of Christ anyhow, and we need not further the movement by eliminating His Precious name from our Christmas. A little girl noticed a manger scene in a department store window. She asked her mother, "Who is the baby in that funny little bed?" "That's Jesus" replied the mother, "Jesus who, Mama?" The little child knew nothing about Jesus Christ whose birthday we celebrate on Christmas. Dear reader, make sure that your child knows the wonderful story of the Christ, who came from heaven's glory to be the Redeemer Saviour. Make sure all the children in your neighborhood know about Him too. If you cannot take them to a Sunday School where the truth of God's word is taught then open your home and start one to tell them of Jesus. Keep on telling the story of love that all who believe might salvation receive and tell it especially on Christmas.

# High School Cagers Open Season Friday Night

## Mustangs Seek Revenge for Defeat In '53

Seeking revenge for a 47 to 35 whipping at the hands of Plymouth in the opening basketball game last year, the Northville High school Mustangs will tackle the Rocks here Friday night.

Time for the Varsity contest is 9 p.m., following the customary Reserve game at 7.

Although the Northville quintet will be keyed up for the opening tilt, little hope is seen in some quarters for a victory over the visitors. Two years ago Northville dumped the Rocks when the latter dedicated their new gymnasium. This year, when the Mustangs will play their initial game on a new floor, the Rocks hope to return the "compliment".

With a green team, Coach Richard Kay is faced with the task of whipping the newcomers into shape and molding a smooth-working quintet.

"The big experiment this year," he said, "is going to be a question of whether the big men we have are going to be a match for the smaller and faster clubs we will face. Trying hard to fill the tremendous gap left by such outstanding graduates as Glenn Howarth, Ed Nash and Al Iversen, will be 6 ft 4 in. John Clarke, 6 ft. Jim Wiley, and 6 ft. 2 in. freshman Cap Pethers.

"John Clarke and Jim Wiley, both seniors, are going to be valuable around the boards, but both have limited varsity experience. The third untitled starter is the blond-haired 14-year old 'baby' of the squad, Cap Pethers. Cap is one of the most outstanding prospects we have seen in years. A confident natural, Cap uses his size to good advantage and is an excellent shot.

"Rounding out the starting five we have two returning veterans. Darwin Teshka at 6 ft. 3 in. is a junior and the aggressiveness and eagerness he has displayed so far makes us confident he will begin this year as he finished last year when we won the Wayne-Oakland County league championship.

"Sophomore Bud Bell is the 'runt' of the starting five at 5 ft. 11 in. Buddy is the playmaker and the ball handler, and as a freshman last year was a starter on a championship team.

"Behind this five we probably have greater depth than we had last year. It was difficult to find this starting lineup until we decided to go with our height. Paul Schulz and Clarence Patterson are pressing the starters to get into the line-up, as are Paul Hamlin, Jim Rambeau, Lynn Matzen, Bob Gillick and Joe Girardin.

"This year promises to be an interesting one, if nothing else. We are going to be slow getting started, but given time and patience we will win our share of the season's games."

## AND I QUOTE

CAGERS who will take the floor Friday night against Plymouth are included in the candidates for this year's varsity pictured above. Front row, left to right: Paul Schulz Bud Bell, Joe Girardin and Paul Hamlin. Center: Lynn Matzen, Tovey Rambeau, Clarence Patterson, Jim Wiley. Rear: Bob Gillick, John Clark, Darwin Teshka, Cap Pethers.

## Football Bows Out at U of D

DETROIT: Dec 1—Football and basket ball cross paths at the University of Detroit this week. On Saturday when the Titan football team is ending its season in Houston, Texas, the U of D cage team will travel to East Lansing to meet the Spartans of Michigan State.

Football Coach Wally Fromhart ends what has been a luckless season hoping for his third victory in nine games in the finale against the Houston Cougars who need a win to take runnerup honors in the Missouri Valley conference.

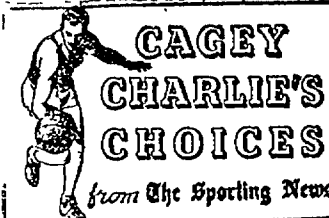

"I have never experienced a season in all my days of coaching, which has been so filled with injuries as this season has been," said Fromhart, "and with the little depth as we have had, they proved to be our most hurting foe."

Saturday night, Basketball Coach Bob Callahan's veteran squad will get its stiffest test of the young season when the Titans tangle with Michigan State.

U of D has found very little success in winning on the Spartan home court over the years, with only victory on the East Lansing floor going all the way back to 1928 when the Titans won 29-22. The two schools renewed relations after a three year lapse, and both teams are looking ahead to a prosperous year.

There are four times as many Americans making \$5,000 and up a year today as there were 10 years ago.

## One-Third Michigan Hunters Get Game

Ann Arbor — Michigan has more deer hunters than Idaho has population, says Warren Chase, professor of wildlife management at the University of Michigan. He adds that one-third of our hunters get their game, while almost 70 per cent of Idaho nimrods are successful.

He bases this on the smaller population there as well as the fact that Idaho hunters can go after elk, moose, muledeer, big horn sheep, antelope and mountain goats.

About 18,500 acres of state-owned mineral lands were to be offered for lease—not for sale—in an oil and gas lease sale slated in the Senate chambers Dec. 1.

Thirty-six reported fires burned 143 acres of forests and grasslands in Michigan last week.

## Wild Life Notes...

Reports covering the first full week of Michigan's 1954 deer season indicate that hunting in the upper peninsula has been about as good or better than last year and that the number of hunters has been about the same as last year.

To 10 p.m. Nov. 21 this year, hunters carried 6,394 deer and 106 bears south across the Straits of Mackinac. Last year to the same time and date, 6,192 deer and 153 bear came south on Straits' ferries.

One wolf was killed in Luce county last month, making a total of 16 bagged thus far this year. Also, 463 coyotes 176 bobcats

and 1,824 foxes were bountied during the month. A total of \$18,150 in bounties was paid.

"Saved over \$1,700!"

Joseph Haller

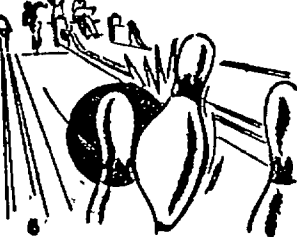

Young father says, "Blue Cross-Blue Shield is priceless to us!"

A grateful father, Joseph Haller, 6800 Abington, Detroit, says "Last May our 4-year-old son, Richard, knocked a pot of boiling water off the kitchen stove and was so badly scalded, he spent 58 days in the hospital.

"The hospital bill totalled \$1,403.65 and Blue Cross paid all of it... Blue Shield paid \$332.00 in doctor bills. It's wonderful to have this protection. No family can afford to be without Blue Cross-Blue Shield."

The chances are one in three that you or a member of your family will have a hospital bill within a year. Wouldn't you be safer with the protection that saved Joseph Haller over \$1,700.00?

Find out how you can get Blue Cross-Blue Shield protection for hospital and doctor bills today. Call or write: Blue Cross-Blue Shield, 441 E. Jefferson Avenue, Detroit 26, Mich.

THE SCOTTISH RITE MALE CHORUS, which will be presented at the Northville Presbyterian church on Dec. 10 at 8 p.m., is a 20-year-old organization and in great demand throughout the nation. Homer C. Shaffmaster, choir manager, and Robert F. Jones, choir director, were two of the original organizers and refuse many more engagements than they can accept. Harry Bunnell is accompanist and organist. Following is the program they will present here: I: "The Creation", Richter; "Kyrie at Sea", Durrer; "Come Thou Holy Spirit", Tichonokoff; "O God, Our Help in Ages Past", Davis; "No Man is an Island", Kramer; "Hunter's Moon", Hyde, II; Northville trio—Louise Older, Audrey

Becker, Claire Williams, accompanied by Kathleen Bosch, III. Selections from "Oklahoma", Rodgers; "Oh, What a Beautiful Morning", "Surrey With the Fringe on Top", "People Will Say We're in Love", "Oklahoma", IV; Organ selections, Christmas group: "Jesu, Joy of Man's Desiring", Bach; "Shepherd's Christmas Song", Arr. Dickinson; "O Holy Night", Adam, soloist, Richard Fogel. Finale from "The Gondoliers", Sullivan. At the piano, Harry Bunnell and Harold Prim. The appearance of the choir here is sponsored by the Northville Presbyterian choir, of which William G. Williams is director. James Cowie is in charge of arrangements. Admission is \$1.

WINTER WONDERLAND IN THE MILLINERY DEPARTMENT—Juliet cap of ermine with jeweled flare at side of face, left, is complemented by the matching ermine muff. Ambrose of New York designed the ensemble. "Snowbank," at right, of white fox set off with jeweled flower on a satin stem tops a muff and stole of matching fur. It's a winter fashion by Brookfield, also of New York.

WHERE'S THE RECEPTION COMMITTEE?—This space travel is disappointing. Fellow takes off from Mars in his flying teacup, lands on earth, and what does he find? Silly Earthlings all watching a primitive, waterborne Earthship undergoing an overhaul. To come down to earth, the creature peering from the "spaceship" is a dockyard worker who is cleaning one of the gigantic end-cones of the liner Mauretania's propellers, as she lies in drydock at Southampton, England.

SOUTHERN FASHIONS — Jeweled-linen shorts and a trim blouse are sun-suited for Miami wear, and the addition of a tie-on side-slotted skirt to the Margaret Newman-designed outfit makes it correct and comfortable for wear at cocktail time. However, a little farther south (in Antarctica), Australian Phillip G. Law, leader of a research team exploring for uranium, finds that the correct costume for hot-grog time includes: Polar bear fur gloves, steel-spiked shoes, a parka and a steel-tipped walking stick.

### The Bible Reflects All Eras of History

ONE of the things that have made the Bible's Old Testament so vividly related to human experience, and so persistent in its symbolism, is the fact that every phase of what has happened, and what is happening, to humanity is somewhere found in the record.

Periods and episodes of greatness, prosperity and splendor are interspersed in that history with periods of depression, deep suffering, and utter destruction.

What is amazing is that that ancient history, surveyed against present-day events and conditions, often reads very much like the Twentieth Century. The oppression of the Jews by a hostile Pharaoh in Egypt can be compared with Hitler's attempt utterly to annihilate the Jews in Germany, and to extend that annihilation to every part of the world that he hoped to conquer.

So the Old Testament Scriptures have interest, vividness and significance for discerning readers today, that escapes those who have read them only as records of the past.

What is most deeply significant in those Scriptures, however, is that out of, and in, a world of slavery and bondage, they not only contain the essential idea of freedom, but they reveal the hope, power and persistent spirit of survival.

Not only is it significant that the spirit of freedom persists in a world of bondage, but religiously there is the miracle of the survival of faith, and the aspiration for truth and righteousness.

## Christmas Seal Sale Opens 48th Year

Mrs. Claude Crusoe, 43180 West Nine-Mile road, has been appointed chairman and Mrs. Francis Wiesmyer, 18651 Sheldon road, co-chairman of the 48th annual Christmas seal sale in Northville, Richard L. Lea, County director of the Tuberculosis and Health society, announced this week.

The sale of seals in Northville is under the auspices of the Northville Woman's club. Canisters will be placed in all the stores and a self-seller will be placed at the postoffice. Miss Ruth Knapp, nurse for the Northville schools, will have charge of the sale of the seals in the schools and Sister Anita Maria has charge of sales in Our Lady of Victory church. Mrs. Leonard Howard will supervise the sales at Maybury Sanitarium.

Nearly 10,000 people working or living in the Northville-Plymouth area received a direct benefit from the society early this year when the chestmobile x-rayed chests here. A number of TB cases were discovered.

Mr. Lea points out that in many countries the Christmas Seals are sold by official government rather than by an unofficial, voluntary association.

"The Seals are different, too," he said. "This year, for instance, the American Christmas Seal features children, joining hands in health around the Christmas tree."

"This is far from being like some French Christmas Seals of the past, which have featured a small advertisement for a brand of toothpaste of some similar item."

"Our records tell of many other unusual seals. One old German Christmas Seal pictures a man coughing while facing another man who is stricken with fear because he sees a symbolic skull in the germs being coughed at him. This was back in the 'scare' days."

"In Switzerland, a large seal is issued to be pasted on auto windshields. Japan was forced to abandon using the word 'tuberculosis' on its Christmas Seals because 'it is stated that the names of diseases and unpleasantness

## Carrington Agency Now In New Quarters After 41 Years Service To Northville

The 41-year-old Carrington Insurance Agency, one of Northville's oldest businesses, is now located in new and larger quarters at 120 N. Center St. where the Northville Record was published for many years.

T. R. Carrington, founder of the agency, and still active in its management, has had the building extensively remodeled to include two professional offices which are to be occupied by Dr. J. K. Eastland, DDS, and Stuart Campbell, optometrist, after the first of the year. He purchased the property recently from Gerald C. Woodworth, who in turn had purchased it from Mrs. W. H. Cansfield after it was vacated by the Record in 1953.

Carrington entered the insurance business in 1913 as a part

time occupation. He operated on that basis until he completed his term as Northville postmaster in October, 1934.

Early the next year he opened a full-time agency, and operated it himself until his son, Charles, returned from army service in 1946 and joined him as a partner.

The agency represents 17 insurance companies, one of which, The Hartford, has been insuring Northville homes for 95 years. All forms of insurance are written including life. It is a versatile firm, also representing a telegraph company and acting as the Northville branch of the Secretary of State's office.

Dr. Edwin Root, one of the community's first dentists, occupied a building on the site of the agency's new quarters for nearly 30

years. C. C. Yerkes later used it as his law office until 1907. When the frame building on the corner was moved back to permit erection of the Lapham State Savings bank, it became the home of The Northville Record until 1933, when it was badly damaged by fire.

Then the present building, known as the Neal Building, was erected, and was used by The Record until it moved to the corner of Main and Center Sts. about 18 months ago. Since then it was used by various enterprises until the Carringtons purchased it several weeks ago.

### Shiny, Sugary Top

You can put a glaze on your pies by lightly brushing the top pastry with water, milk, or cream, and a sprinkling of sugar. An egg yolk blended with 1/2 teaspoon of water also will give a rich-looking glaze to the crust, says Household magazine. You may like to try each method.

## Northville Stores Prepared For Biggest Christmas Season

Northville streets and stores put on their holiday dress last week end in preparation for the coming of Santa Claus in just a few more days. Officially he will arrive Dec. 17 as a guest of the Northville Retail Merchants Ass'n. but there are rumors that he may put in an appearance in one store on Friday evening, Dec. 3 and 10.

Regardless of when he arrives, the village will take on a festive appearance from now until Christmas—only 20 shopping days away. Children will be leading their fathers and mothers by the hand into the various stores to

show them the bike, the skates, or the doll that they hope Santa will bring with him down the chimney on Christmas Eve. And fond grandparents will be on the lookout too for the toys that will gladden the hearts and bring smiles to the faces of their children's children.

Every Northville merchant has made preparations for a holiday trade equalling anything in their best previous years. Their shelves already are bulging with the choicest toys and gifts to be had. More are stored away in the back rooms and basements to be brought out as necessary. The majority of Northville stores will be open until 9 p.m. until Christmas.

To start off the Christmas season, the merchants will again offer hundreds of bargains on Friday and Saturday, Dec. 3 and 4. This will be the third of a series of monthly Home Town Bargain Days which the Northville Retail Merchants Ass'n. has put on this fall. A special feature of the occasion that is expected to attract hundreds of shoppers from the outlying area, as it has when the two previous village-wide sales were held, is a number of valuable prizes which will be given to holders of Lucky Coupons.

Every copy of the Northville Record this week, and of this special Shopping Guide, contains a coupon at the bottom of this column. All that is necessary to do is fill in your name and address and deposit your coupon on Friday or Saturday in boxes located at any store listed at the bottom of this column. The prizes to be awarded are on display in the lobby of the Depositors State Bank. Winners will be notified by mail and can pick up their prizes at their convenience.

Men were at work last week end decorating the Northville streets with Christmas greens and lights. By coincidence, the snowflakes started to fall as they commenced their decorating job. It was, perhaps, a happy omen that this Christmas season will bring joy and gladness to many homes where sons have been in military service in distant lands in years past.

## Northville Teacher Has Two Entries at Art Institute

Two works of art by Stanley Hench, Northville Grade school art instructor, have been accepted for exhibition by the Detroit Art Institute, it was announced this week.

The exhibit is limited to the works of Michigan artists and only 300 have been accepted out of 2200 entries.

One of Hench's accepted entries is a self portrait in oils and has won several prizes: one at the John H. Harrison Art Institute in Indiana, and another at the Indiana Artists exhibit where it won third prize. The other entry is a religious drawing in pen and ink.

The Hench's with their two children, Helen Christine, two and a half, and Stephen, 15 months, reside in Walled Lake. Born in Fort Wayne, Indiana, Hench attended the Art Institute in Pittsburgh and graduated from the Art Institute in Philadelphia. This is his third year of teaching.

Hench paints in oils, water colors, charcoal and pastels and it has always been his chief hobby. He has created a great interest in art in grade school youngsters and they are turning out exceptionally fine work under his direction and supervision.

## Scouts Promote Safe Driving Day

Boy Scouts in the Northville area are keenly interested in the promotion of President Eisenhower's Safe Driving Day Dec. 15, according to Amos R. Shields Scout executive of the Detroit Council. "S-D" day has been proclaimed by the President in an effort to reduce the tragic toll of death, injury, and property damage from highway accidents.

"The 'S-D' day campaign fits perfectly into the Scouting program," said Shields, "for safety on the streets and highways is stressed throughout the work of Cub Scouts, Boy Scouts and Explorers." "A good Scout is a good pedestrian, a safe bicycle user, and eventually a safe driver."

In connection with "S-D" day, Boy Scouts and Explorers are urged to earn their Safety Merit badge as soon as they complete their First Class rank or Explorer rating. Safety is one of the 16 Merit badges required for the Eagle rank. There are 16 required and five optional subjects for a minimum total of 21 in the Eagle advancement program, Shields explained. The "S-D" program, originated by the President's Action committee for Highway Safety, has been given the full support of police, court school, and motor vehicle officials. Many of these officials serve as counselors in Scouting and are willing to help Scouts and Explorers obtain this important Merit badge.

are considered of evil propensity in Japan.

"Some of the other nations producing Christmas Seals for their own TB battle include Geylon, Ireland, Canada, England, Palestine, Turkey, Denmark, Spain, Netherlands, Finland, Norway, and Union of South Africa. "Notably, one part of the world now "appears to have no

tuberculosis Christmas Seal," Mr. Lea reported. "Apparently, Russia had discouraged Christmas Seals, and has stamped them out in other countries now behind the Iron Curtain.

"Here in America, the Christmas Seal remains with us as a part of our holiday, making an ever-widening circle of friends for the fight against tuberculosis. When we buy Christmas Seals, we're taking part in a world-wide tradition," Mr. Lea concluded.

## Here Are Delicious Ways to Prepare Broilers and Fryers

BY DOROTHY MADDOX

THE Department of Agriculture reports that unusually large supplies of broiler-fryer chickens are now on the market. So let's take advantage of the lower prices. Here's a wonderful version of that world-famous taste treat, Hungarian chicken paprikas:

### Chicken Paprikas (Serves 4)

One-quarter pound salt pork, diced; 1 broiler fryer (3 to 3½-pound ready-to-cook weight), cut in serving pieces, flour, 1 tablespoon red (Hungarian) paprika, 1 teaspoon salt, ½ cup Tokay wine or soup stock, 1 cup sour cream, 1 cup heavy cream, 3 medium onions.

Preheat electric skillet or heavy iron skillet. Place diced pork in skillet and fry for 10 minutes, turning frequently. Meanwhile, dredge chicken with flour. Blend seasonings into wine or stock and mix with cream. Shred onions.

When pork cubes are glazy and slightly brown, add chicken and brown well on all sides (about 10 to 15 minutes). Add onions, stir lightly, pour ¾ of cream mixture over chicken and blend carefully. Cover skillet; turn heat low and cook for 20 minutes.

Add remaining cream mixture, cover and cook until chicken is tender (about 15 to 20 minutes). Sprinkle with paprika before serving. Serve with broad egg noodles.

If you enjoy the flavor of curry here's a good recipe for you

### Curry Broiled Chicken (Serves 2 to 3)

Two and one-half to 3½-pound broiling chicken, salt and pepper, 4 tablespoons butter or margarine, melted; ¼ to ¾ teaspoon curry powder, paprika.

Have butcher split chickens in half. Remove neck and backbone. Season inside and out with salt and pepper. Combine butter and

Chicken paprikas is only one of many tasteful ways to serve fryers and broilers now in abundant supply.

curry With a pastry brush, coat chicken pieces on both sides with butter. Sprinkle lightly with paprika. Place in flat, shallow pan 6 inches from flame. Start chicken cooking skin side down. Broil 15 to 20 minutes, or until golden brown and tender. Continue brushing with the butter mixture. Turn and broil 10 minutes longer.

## Let's Reason

by A. M. Smith

ABOUT OUR MESS

What a mess we're in! A conglomerate of ideas tossed about with the gloomy spitefulness that sizzles in a basketball championship play-off. "It's just awful!"

We Republicans wail and pull our hair because we didn't keep control of Congress and tighten our grip on it. We Democrats have fits because we didn't take over with a much larger margin, and are full of fidgets for fear we will not repeat in 1956. The fate of the Nation hangs on both sides warring!

Add a long list of national and international woes. Here are some of them! The CIO plans to spend about \$70,000,000 to get the guaranteed annual wage so it can get back a part of it in the years to come. Vishinsky is dead. We no longer have that Red clown to stimulate our humor and keep our cerebral mad centers ready to explode. Nations are making hydrogen bombs and are in hysterics about where and when to drop them—or not to. Taxes are "too high"—as always were and will be. Pensions are "too low"—as always was and will be.

Farmers are not getting enough to get rich fast enough, and business concerns all over the country are both failing and prospering—as always, and no darned cure for it. The doctors are afraid of socialized medicine and sick folks are afraid of the doctors' bills.

The worst national calamity since Roosevelt was elected is that Senator McCarthy bumped his elbow. One commentator said McCarthy got a splinter of glass in his elbow, but days later said the doctors couldn't find the splinter! But it is jabbing home the observation that maybe Eisenhower's election was also a calamity. We Democrats think so. But we Republicans frantically hold the fort.

Another commentator says McCarthy is just hoaxing his pals of the Senate, and a Senator seconds that motion. But 160,000,000 people are going right ahead to make democracy work, having fights and fun doing it—the American way.

Cheer up!

## Audubon Soc. Erects Post Bird-Feeder In Cass Benton Park

As part of a program of conservation the Northville Junior Audubon society erected a post bird-feeder in Cass Benton park Sunday morning and provided the feeder with sunflower seeds, millet and suet. Eighteen children and adults attended the ceremony during which Mrs. Catherine Hartley, the group's sponsor read a statement of the philosophy of the Audubon society.

Mrs. Greta Bulton of Randolph St. was thanked for her contribution of money to be used for food.

Prior to raising the feeder the children conducted a nest hunt which resulted in the discovery of a rare nest of the short-billed marsh wren by young Carol Johnson.

The next activity of the Audubon society will occur during the Christmas week when a census of the bird population of the Northville area will be taken.

## Michigan State Researchers Work To Make Tired Homemakers Happy

The age-old problem of tired homemakers has been "adopted" by Michigan State home economists.

The answer to "What makes a homemaker tired" is being sought by Dr. Elizabeth Wiegand and Dr. Irma Gross of the home management and child development department. They have started a study which will ask the help of 100 Michigan mothers who have at least two pre-school children. These women will be interviewed and asked questions on their

attitudes on relaxation and sleep and their likes in household tasks. Interviewers will ask about equipment each mother has to work with and something about the children's play area. The most tiring period of a day for each mother will be studied.

Dr. Wiegand has chosen to interview mothers with pre-school children. These women would most likely have the heaviest work load since the children are dependent on them. The women will represent 100 Lansing families and will be chosen at random. There will be about four from each school district in the city.

The goal of this project is to help families live with happier family relationships and by doing so, have happier homes. The hundred families interviewed may get some help in bettering their family relationships by actually analyzing their own attitudes and plans. But the study primarily should help all families by giving a broad picture of what factors make a homemaker tired.
