Letters To the Editor

Writer Hasn't Voted for Seven Years; Now Opposes City Incorporation

Why I am voting for the first time in seven years.

I was born in the city of Detroit 38 years ago. I lived in Detroit for 21 years, and later in 1938 I married my wife, whose first name is Frances, in the village or town of East Detroit, Michigan, a friendly place just like Northville, swell people and swell business men. The town's boundary lines were from 8 Mile road to 10 Mile road down Gratiot Ave., or let's put it this way the town was two miles long and two miles wide, population around 6,000 people—just perfect to live in and raise a family in nice surroundings.

Then some businessmen got a smart idea, let's become a city, we then will receive more revenue under a city charter, and they got their wish. They sure made things happen, the beautiful Golf Course along 8 Mile and Gratiot sold their land for more homes, more schools had to be built, why they even moved the beautiful church, that stood on the corner of 9 Mile road and Gratiot to make room for a drug store (chain). People really came in from 7,000 to 38,000, people, and remember the boundary lines were the same, the schools were overcrowded, kids went 1/2 day only, taxes went up and up each year, why every time it rained I was moving my electric stove and ice box, and chairs and table, food was spoiled, up to my living room and bedroom, we lived in a tri-level home brand new. Why because the 9 Mile drain was not large enough to pass, and the drain backed up,

so we had to get more money, again we had a drain and sewage special tax, factories moved in, and I was looking around to move out.

So one day I came out to Cass Benton Park on a Sunday to scout a baseball game. I drove into Northville to buy a lunch, and I liked the village of Northville, so well, I looked around for a home for sale and came across the one on Orchard and 7 Mile road right across the street from Mr. Clarke, who is now president of the Northville State Bank. I also did some scouting on my own, people and businessmen and so on, schools, transportation, my ride to the city, time, etc. and then contacted Mr. Eaton, a realtor, and who I consider a real friend who sold me my first home in Northville, and so far I have purchased a new home on Rayson St., again from Mr. Eaton. People of Northville do not be fooled by the revenue from the race track, remember the track had a hard time securing dates this year, this track may leave sooner than you think.

I know the mothers and fathers do not worry about their children in Northville now, we have a swell place to live—fine schools and fine churches, and fine businessmen.

In closing I want to say the reason I moved to Northville, I wanted to get out of the city, and breathe some good fresh air.

Sincerely yours,
Joe Kritch, Taxpayer

Big news about

Buick's 4-Door Riviera

THIS brand-new kind of automobile—the sensation of all the Auto Shows this year—is now rolling off the Buick assembly lines in volume numbers. That's the first news.

And the second is just as wonderful—this dramatic new model is very definitely everything that eager buyers hoped it would be.

For the 4-Door Riviera is the first "hardtop" ever available with separate doors for rear-seat passengers—plus full sedan room in the rear.

It comes breezing in with all the low-lined sweep and wide open visibility of Buick's

original 2-Door Riviera—and luxurious new spaciousness in its full-length 4-door body.

With windows down, no posts appear for the rear doors, and you get a completely unobstructed view at both sides.

You find rear doors hinged at front edges to swing wide and free, and assure easy entrance and exit.

And you'll find legroom, headroom and hip-room extra-generous both front and rear—with interiors tailored in fabrics and patterns specially reserved for the 4-Door Riviera.

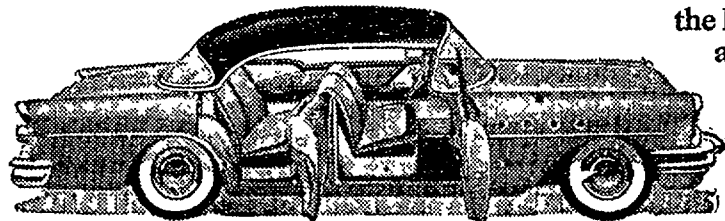

Best of all, this new Buick beauty comes off the line in both the low-price SPECIAL Series and the high-powered CENTURY Series.

So you can pick your 4-Door Riviera with the potent performance of a 188-hp or 236-hp Buick V8 engine—the swift getaway and gas saving of Variable Pitch Dynaflo*—the velvet stride of the Million Dollar Ride—the long list of Buick bonus features at no extra cost—and all at "great buy" prices that have helped move Buick into America's "Big Three" of best sellers.

But—come see us about the 4-Door Riviera now.

With all-out production—and a prompt order—this newest excitement in cars will be yours that much sooner.

*Dynaflo Drive is standard on Roadmaster, optional at extra cost on other Series.

Thrill of the year is Buick

Mich. Residents Spend \$4.75 A Year On Flowers

The average Michigan resident is a more frequent buyer of flowers than the citizens of some states and spends \$4.75 a year on the average for flowers against a national average of \$4.28.

These are based on the most recent figures available from a report to the Michigan Department of Agriculture by the Michigan Florist Assn. from its secretary, Paul R. Krone of East Lansing. Michigan ranks seventh among all states in retail floral sales. In 1949 this amounted to a \$30 million business, and Krone estimates this has increased a third so today \$40 million would be a more accurate figure.

Cancer Crusade Is Under Way In Northville

Urgency of the cancer educational program cannot be over-emphasized, Mrs. C. Oscar Hammond stated in announcing the 1955 Cancer Crusade here. It will continue throughout the remainder of the month.

Mrs. Hammond was named last week as Northville chairman of the drive here, which is under the sponsorship of the American Cancer Society. Headquarters for the local ACS unit are at 511 N. Center St.

The drive will be stepped up this month in an effort to reach every person in the community with information about the disease.

"We are living today," Mrs. Hammond pointed out, "in an era of fear of surprise atomic or hydrogen bomb attack on the U.S. To guard against this threat, our government is spending billions of dollars annually for national defense. This civilization shattering attack may—we hope—never materialize."

"But our country is faced with another deadly attack that is not just a threat. It is a grim reality. Last year cancer killed 230,000 men, women and children in the U.S."

"Surgery and radiation, the chief weapons against that disease, saved only about 75,000 patients in 1954—and some 75,000 more could have been saved by prompt and adequate treatment."

Reasons Why Northville...

(Continued from Page 1)

It appeared that the fairest and best solution to the question of area was to limit the proposed city to the present area of the Village. Many citizens living in the Village and many living outside the Village in the township have expressed opposition to changing the present corporate limits—irrespective of whether Northville remains a village or votes to change its legal status to that of a city.

In simple terms what is the difference between a village and a city? A village is part of one or more townships. The people who live in a village pay the entire cost of the village government and the services it performs.

In future articles we plan to present the facts on the many advantages of Northville voting to change its legal status to that of a city. We deal with questions of overlapping services, comparative costs, greater efficiency, convenience to our people and related subjects.

King, Knights Ride At Cub Meeting

A medieval atmosphere from the times of King Arthur and his knights of the Round Table was created at the Monthly Cub Pack meeting held Monday, April 4 at the V.F.W. Hall.

Instead of forty-five cubs there were 45 knights in shining burlap armor and seven gallant wood and cardboard steeds, all ready for the charge. The Pack relived the days of King Arthur for an evening.

The call of trumpets began the festivities followed by a narration of the King Arthur story while each den marched in with its banners held high to form a circle. Then began the jousting contests with each den taking part.

The ball and chain duel, rooster fight and spearing the ring were performed. The latter game was of special interest for in it the boys rode their trusty chargers and tried to spear a ring with their lances.

When the contests were completed 45 tired knights took off their armor and went home. The evening was accounted specially successful by each member.
