Don't Take Our Carts for A Ride Managers Plead

Everybody's talking about it, but will anybody do anything about it? That's the prize question of the week.

Kroger and A & P managers are trusting that their customers will help them to remedy the situation brought to their attention by Police Chief Denton this week. The Chief sent word that, "The grocery cart situation is out of control."

Eddie Barnes, Kroger manager, and Walter C. Burnsworth, A&P manager, said that because of parking difficulties they have obliged their customers and permitted them the use of the grocery carts to transfer the groceries from the store to the car.

Some customers, however, have shown their "appreciation" by leaving the carts in the parking lot, shoving them down the street and even taking them "for a ride" and "dropping" them off blocks away from the stores.

"Each night more carts are found on the streets," Chief Denton said.

The managers have been informed that starting this week all carts found on the street would be picked up and a fine would be levied for their redemption.

GOODWILL PICK-UP

The Goodwill trucks will make their next visit to Northville, Plymouth and Rosedale Gardens Monday, Oct. 17. The local Goodwill Industries telephone representative, Miss Edith Sorenson will arrange to have a pick-up truck stop at your home. Phone her at Northville 571.

AS CEMENT WAS being poured into forms on the 7-Mile cut-off this week, some of the workers were singing, "Cement Mixer, Putty-Putty", but the mixer didn't putt along, it tried for a record production. Opening its "big mouth" and dumping the cement in forms, enough cement was being mixed to pave an average of 800 feet a day. Wayne County Road Commission workers spread the cement with shovels and the finishing machine followed up, doing the leveling. Rainy weather this week has caused a slight delay, but work on the project will continue as soon as weather permits.

Mustangs Tackle Centerline Oct 15 After Bowling To Clarenceville 21-7

The mighty Mustangs, hardened after their losing encounter with the Clarenceville Red Devils last week, hope to repeat their last year's victory (26-0) when they meet the Centerline team this Friday.

As for last Friday, that running "devil" Sloop clinched the game in the first quarter when he ran 47 yards for the first touchdown and repeated, after Northville's fumble, with a 22-yard second touchdown. Devitt was unsuccessful in kicking extra points.

With the score 12-0, in favor of Clarenceville, the Mustangs came through fighting with a pass from Mosher to Bell who put the ball on the second yard line. Wagenschütz carried the ball across for the extra point.

Clarenceville reciprocated with a pass from Hannaford to Jones who scored another touchdown. Devitt fumbled through with a good kick, making the score 19-7.

The third quarter was a real fight. Lady Luck held with Northville and the Mustangs succeeded in holding Clarenceville scoreless during the quarter.

In the fourth quarter however, Hannaford passed to Devitt who ran for a touchdown. Due to a penalty against Clarenceville the touchdown was ruled out.

A few plays later Clarenceville was able to break through for a safety, making the score Clarenceville 21, Northville 7. The Mustangs were able to hold on to make this the final score.

The traditional vinegar barrel was given to the losing team. However, the Mustangs, who put up a great fight, are determined to hand over the little token next year.

New Road Will Take Trucks Off Main St.

Seven Mile Rd. Cut-Off Extends from
Northville Rd. to Edw. N. Hines Drive

After an actual 2-year waiting period, not counting the years before that Northville residents spent hoping and wishing for action, paving started this week on the 7-Mile Rd. cut-off with an average of 800 feet being completed a day.

The cut-off, a long awaited desire of the community will extend from Northville-Plymouth Rd. to Edward Hines Drive and will be primarily beneficial as a detour for gravel trucks which have been travelling through the center of town to the gravel pit near Beck Rd. and 7-Mile Rd.

Merchants, shoppers and city officials have long considered the use of Main St. by trucks as a nuisance and traffic hazard.

The city was interested in curbing truck traffic through town for many years, but nothing definite was decided on until July, 1953. At that time, Township officials offered to pay \$20,000 of the \$37,000 total set by the Wayne County Road Commission as the share of its cost to be paid locally. Their offer was accepted and the city raised an additional \$20,000, leaving a balance of \$17,500 which was to have been paid in September 1954; however, due to delays in starting construction the amount due was deferred until September of this year.

In August of 1954 bulldozers began clearing trees along the approximate half-mile stretch.

This week, as forms were being made for the two 11-foot sections, and cement was being poured and leveled, Northville residents witnessed the nearing completion of an improvement they had long approved of.

Principal Hits Jackpot; Twin Daughters Born

"Two for the money", "double trouble" or "double blessing". Any way that you look at it, well wishers will be getting two cigars this week from High School Principal Elroy Ellison . . . his wife presented him with twin daughters Tuesday afternoon.

The new additions were born in Mt. Carmel hospital. Melinda Robbin weighed six pounds, seven ounces and was born at 1:29 p.m. Her sister, Sherry Lee, weighed five pounds, six ounces and was born at 1:33 p.m.

"Mother and daughters are doing fine and father is recovering," was the word from the Ellison household today.

The Ellisons live at 552 Dunlap St. and have one other daughter, Shirlynn Gay, 13.

Wildlife Retreat Sought for Northville Area

The Wildlife Sanctuary committee established by the Northville Parent-Teachers Assn. in the spring of this year, met Wednesday night, Sept. 28 at the home of the chairman, Mrs. Mary Begle, Nine Mile Rd. The following members were present: Mrs. Maxwell Austin, Mrs. Wilson Funk, Robert Hart and Harold Hartley.

Discussion revealed that housing projects and commercial developments of various kinds threaten to eliminate the last remaining natural areas in the vicinity of Northville. Since trees, shrubs and other vegetation hold our natural water supply, the extermination of large sections of this vegetation has as its consequence the loss of springs, brooks and even ponds. In addition the lowering of the water table makes well-digging an increasingly expensive operation and the water gained by it, often less desirable.

In the opinion of the committee, the preservation of a natural area in Northville would aid to some extent in retaining our springs and would permit both adults and children to enjoy the trees, birds, flowers and other wildlife existing in an undisturbed state. Our parks cannot adequately . . . (Continued on Page 10)

Record Starting Bible Column By Local Pastors

The Record directs attention to a new feature, "From the Pastor's Study", appearing on Page 4 this week, but scheduled to run on the church news page in the future.

The column will be written by the five pastors of Northville churches, each of whom will discuss according to his own judgment any subject he desires. The Record shares the hope of our local pastors that "From the Pastor's Study" may afford them an opportunity to carry the teachings of Christianity to a greater number of men and women than can be reached through the churches alone.

Pastor Peter F. Nieuwkoop, of the First Baptist church, is the author of this week's column. He is the oldest pastor in the city in point of service here. The other columns will appear weekly in the order of local seniority of their authors.

School Officials Want to Get Children Out of the Mud

SHOWING the latest style in footwear for students at Amerman school are these tots, "caught in the mud" on their way to classes.

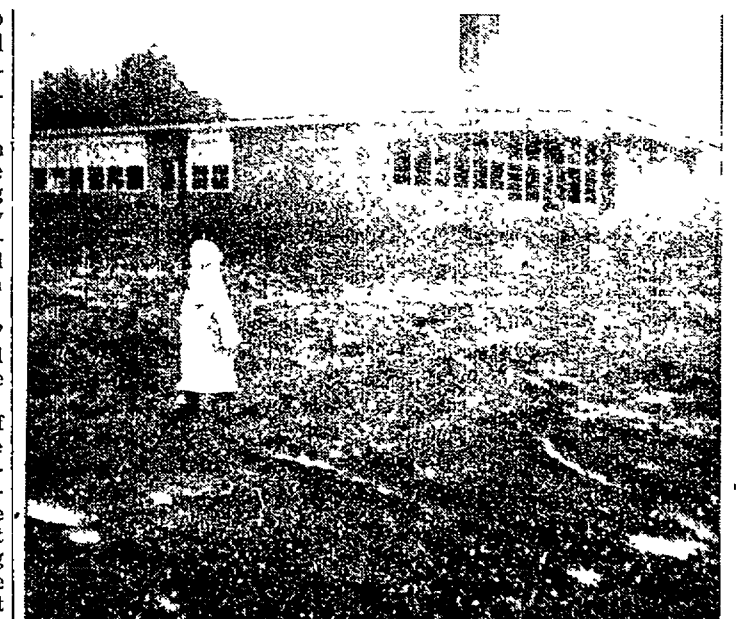

If you're planning to go near the Amerman school on a rainy day, heed this advice and don't go ill-equipped.

Wear your boots. If you plan to stand in one place for awhile you'd better wear your fishing boots because after a few rainy hours the ground develops "goosey quicksand" characteristics and before you know it, you're in the stuff up to your ankles.

Kiddies like to "plow through" the mud, but think of the added cleaning that is involved for the school custodians and mothers!

According to Superintendent of Schools Russell Amerman, the situation will not exist any longer than is necessary. "We're trying to get the children out of the mud," Amerman said. "At the last school board meeting a Building Committee was named and the members are now trying to get estimates for sidewalk construction."

The committee, which consists (Continued on Page 10)

TRUDGING in the mud and lagging behind the "big boys", this little "covered up" kindergartener is finding out that the last few steps of a journey are the hardest to walk, especially in the mud.

Northville Girl and Wayne Man Wed in Lutheran Church

Before an altar decorated with white gladioli and chrysanthemums and palms, Eileen Marie Schoch and Richard Lane were united in marriage by Rev. Bernard J. Pankow at 7:30 in St. Paul's Lutheran church Oct. 1.

Eileen is the daughter of Mr. and Mrs. Otto Schoch of 416 Yerkes St., and her husband's parents are Mr. and Mrs. Guy Lane of 1946 Latz Rd., Wayne.

Selma Schnute played the traditional wedding music and accompanied Carl Stephens who sang "O, Perfect Love" and "The Lord's Prayer".

The bride, who was given in marriage by her father, wore a floor-length gown of chantilly lace over nylon net and satin. The fitted bodice was fashioned with a high round neckline appliqued with lace flowers with long wrist length sleeves of lace. Lace was appliqued on the nylon net fingertip-length below the waist. A Juliet cap of sequins and pearls held her fingertip veil. She carried a shower bouquet of white roses and white stephanotis with a cascade of white velvet ribbons.

Miss Mary Martin of Highland Park, the maid of honor, wore a floor-length gown of shrimp colored nylon over satin. The six

Prepare Spring Gardens In Fall

Mrs. William B. Chase entertained the Northville branch of the National Farm and Garden Assn. in her home on Eight Mile Rd. Monday.

Assisting her were Mrs. D. Hurd Clark, Mrs. W. J. Jodway, Mrs. Harold Wagenschutz and Mrs. John Burkman. Mrs. William B. Walker, Jr. and Mrs. Celestia Kohler presided at the tea table which carried out autumn colors in the centerpiece of gold and yellow mums from the Chase greenhouse. Mrs. Kohler had served the club as president in 1937 and now resides in Resida, Calif.

Harold Hartley of the Northville eight grade showed color slides he had taken of the prize winning flower arrangements which were displayed in the club's flower show last June.

The speaker for the afternoon was Ray Henstock, director of the Detroit Garden Center on Belle Isle. His topic was "Preparing Spring Garden in the Fall". Mr. Henstock said that now is the time to make a definite plan for next spring's garden. He suggested that for more enjoyment in the spring, first plan the garden on paper then prepare the ground, build up the organic soil and put in the plantings and bulbs, well labeled and well planned for easier maintenance.

A reception for 350 guests was held at the Veterans' Memorial hall following the wedding ceremony. Miss Betty Strange was in charge of the guest book and Mrs. Eleanor Dethloff, Mrs. Julius Feole and Mrs. Arthur Janetzke assisted at the reception.

THE GILLY GALU BIRD

The Gilly Galu is certainly a very strange bird. It always flies backwards. It seems that it is not quite so interested in where it has been. It is very true that we can and should learn much about the mistakes of the past but don't be like the Gilly Galu bird. In Philippians 3:13-14 the Apostle says "forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus." If you are a "Born Again" Christian remember that God had forgiven you all your sins. It is important that you forgive yourself in order that you forget the past and focus your eyes upon the future. Every new day brings with it the opportunity to worship and serve our Saviour. There is a great work to do and you as a Christian can have a part in it. However, your services will be greatly hampered if you continue to allow yourself to waste precious time in morbid introspection. The best for the Christian lies ahead. Look forward to the future with eager anticipation and do not be a Gilly Galu.

Several instruments of mayhem are employed by members of the cast of "Ramshackle Inn" in the Farmington Players forthcoming production. This three-act comedy will be the first presentation of this group this season and will appear in the Farmington junior high gymnasium Oct. 21, 22 and 28 and 29.

Players Present "Ramshackle Inn"

The Farmington Players, organized three years ago, present "Ramshackle Inn" Oct. 21-22 and 28-29, in the Farmington Junior High school gymnasium. Lee O'Connor, assisted by Martha Weber, will direct this three-act mystery-comedy.

Mr. O'Connor has been associated with small theatre groups in the Detroit area and Miss Weber directed "January Thaw" and appeared in "The Return of Robinson Crusoe" and "Harvey".

Playing the leading roles is Betty Rood as "Belinda", a role made famous by Zazu Pitts, and Farley Thomson as "Patton". Each player in the Farmington group rotates on a production thus learning the problems involved. Directing is usually done by members. One act plays are presented for the enjoyment of the group.

So far the group does not have a theatre, a goal they are working towards. The Charles Hannas, Farmington architect, have graciously opened their doors to studio for the rehearsals.

Ticket reservations may be made by calling GREENleaf 4-4466 or Northville 584-R11. New members are welcome to join the organization.

Rah! Rah! Rah! The hoopla and shenanigans of Homecoming will be here soon and the excitement of it all has Northville teens in a very receptive mood.

Complete homecoming plans have not yet been made but here's a sample of what everyone's looking forward to: the new Homecoming Queen; the parade with floats, convertible, and the high school band; the football game between Northville and Clarkston, and the dance 'til 1 a.m.

Playing for the dance will be Robert Williams, assistant high school band director, and his 12-piece band, composed of teachers from Detroit and the surrounding area.

"Vote for your choice." Boys from the "N" club are busy this week selling votes at 1c apiece and many a "guy" is spending his week's allowance to help promote his "doll" as Northville high's Homecoming Queen of 1955.

At the end of the week five girls with the highest total of votes will be selected and chances will continue to be sold. Next week, the girl with the highest number of votes will be named Homecoming Queen and the remaining four girls will make up her majesty's court.

Money from this venture goes into the "N" club treasury and is applied toward their projects. The "N" club membership totals approximately 25. One of the qualifications for membership in the club includes having earned a major letter in sports.

The purchase or rental of a street sweeper was discussed. Action on this matter was put over until the special meeting to be held Sept. 26th, 1955.

Comm. Allen reported on the recommendation which he and Comm. Reed wished to make as to members of a committee to study the best use of the revenue received from the State of Michigan from the race track. The names of Forrest Doren, Merrill Sweet, Nelson Schrader, Wilson Funk were presented to act in conjunction with two members from the City Commission. Pres. Ely recommended that the two members from the Commission be Comm. Reed and Allen; this study committee to carry on until such time as the new City Charter is adopted and new officers are elected. Moved by Welch, supported by Peters, that the appointment of the six members as recommended be confirmed. Carried.

Moved by Comm. Reed, supported by Allen, that Fire Chief make a monthly report on activities of Fire Dept. Carried.

Village Atty. was instructed to draw up contract between the City of Northville and Northville Twp. regarding use of City dump by the township.

Comm. Welch reported on meetings that he and Atty. Ogilvie had held with the Board of Wayne Co. Road Comm. regarding the 8-Mile Cut-off, and the conclusions were that no alternate route can be used for same; that it must follow the proposed route on Carlyle Ave. because of the law under which this project is being carried forward, which provides that adjoining counties may unite in laying out and establishing a county road on or near the line between their two counties, and Carlyle is the nearest street practicable. Other suggested locations, more distant would not comply with this law. It was therefore moved by Comm. Welch, supported by Comm. Reed that the resolution as prepared by the Wayne Co. Road Commissioners granting to the Board of County Commissioners of Wayne and Oakland Counties the jurisdiction as a county line road, of Carlyle Ave., 50' wide and 0.252 miles in length of part of W 1/2 of S.E. 1/4 of Sec. 34, T1N, R8E, City of Northville, Oakland County, Mich., be adopted. However, because of a number of questions which were raised by residents in Oakland Sub. Pres. Ely requested that the motion be withdrawn until such time as another meeting could be held with the Wayne Co. Rd. Commission to get the answers. Motion and second were withdrawn.

Moved by Comm. Reed, supported by Comm. Welch that the salaries of Police Officers and patrolmen be raised \$400.00 per year, to bring them in line with the wages received in surrounding communities for this service, also that a maximum allowance of \$75.00 per man per year be made for replacement of any part of their uniform. Immediate hiring of a new man, whose starting salary is to be \$4316.00 per year. Motion was carried.

No further business appearing, meeting was adjourned.
(Signed) Mary Alexander, Clerk

Fires Claimed 169 In Mich. Last Year

If homes lost by fire last year in Michigan could have been saved, their dollar value would be enough to house all the people in St. Louis, Mich. (population 3,500).

That fact was pointed out by Richard G. Pfister, extension safety specialist at Michigan State university, in calling attention to Fire Prevention Week which started Oct. 9.

The week is a memorial to the great Chicago fire which started on Oct. 9, 1871.

One hundred and sixty-nine people died from fire last year in Michigan, he emphasizes, and many of those fires could have been prevented.

Eight out of 10 fires that will occur in Michigan this year could be prevented, he asserts, if everyone would clean up rubbish and correct faulty electrical wiring immediately.

The U.S. suffered more than a billion dollars worth of property loss from fires in 1954.

AMVETS To Launch Seal Campaign

The AMVETS of Novi's Perry Kenner Post No. 76 announced today that from Oct. 26 through Nov. 11, the AMVETS are conducting their fifth annual "We Remember" campaign to raise funds for a wide variety of welfare and service programs.

The drive consists of an appeal sent with seals to families throughout the nation.

The money raised through the "We Remember" fund-raising campaign is used to provide a national counseling program for disabled veterans on problems of hospitalization, disability and rehabilitation; as aid to war widows concerning their rights and benefits; and for annual Christmas parties with a visit from Santa Claus and individual gifts in some 40 unendowed orphanages in as many states.

The AMVETS also award 4-year scholarships worth \$2,000 each to needy and deserving children of deceased or disabled veterans. Twenty-five of these scholarships have already been awarded.

Each boy and girl on the AMVETS National "We Remember" seals for 1955-56 is the child of an American Serviceman of World War II or Korea who gave his life so that we may live in freedom.

The new AMVET seals also "remember" a few of the units of World War II and Korea by presenting their insignia.

"These symbols of victory and the faces of the children represent the strength and heart of America," said Charles Trickey, Jr.

Cut Carelessness And Cut Fires U-M Man Urges

Francis Hartman, head of the firemanship training program at the University of Michigan, this week urged householders, businessmen and industrialists to seriously recognize the purpose of National Fire Prevention week Oct. 9-15.

"The more than 12,000 persons who lost their lives in fires, and the more than one billion dollars of property destroyed by fire in the U.S. last year were, in the great majority of cases, 'the declared, 'due to carelessness with fire and combustibles.'"

Hartman, who served as fire chief of the Fire Training school at Purdue university for 14 years, joined the staff of the U-M this fall.

"Observance of Fire Prevention Week and special efforts to prevent fire during this week will be of little importance," he stated, "unless safe and thoughtful practices are carried on throughout the coming year. Those fires occurring most frequently result from the following situations:

"Careless disposal of smoking materials and matches; misuse of electricity, including overloading of circuits and tampering with fuses; improper care and repair of heating equipment; careless handling and storage of inflammable liquids; general messy housekeeping with its accumulation of rubbish and papers and old clothes and furniture in attics, basements and closets."

The program at U-M, Hartman said, is designed to increase the efficiency and the "know-how" of volunteer fire departments all over the state. The program includes inservice training to firemen by visiting instructors, regional fire training schools, fire department instructor short courses, and the annual Michigan Fire college during the summer. The college's 28th annual session will be held next summer.

"We plan to expand the program in the field of industrial fire safety," he stated, "with emphasis on organization and training of plant fire brigades in an effort to carry on continuous inspections and fire prevention practices within individual plants."

Locker Plants Get Complete Inspection

Within coming weeks successful hunters will be bringing deer carcasses to be processed for consumption later to locker plants over which representatives of the Michigan Dept. of Agriculture's bureau of foods and standards enforce locker plant laws.

Locker plants, according to Department Director G. S. McIntyre, must be licensed by the department and maintain strict sanitation of equipment, utensils and refrigerators and must keep proper temperatures.

Deer hunters are advised to dress out carcasses immediately after killing, and protect them from possible contamination until delivery is made to the locker plant.

The locker plant operator must inspect every carcass of meat to see that it is not contaminated or decomposed. State regulations prohibit storage of deer with the hides or skin on in the same room with other meat products, it was explained by Miles A. Nelson, bureau chief, who said that inspectors will give special attention to locker plants during hunting season.

Detroit Youth Overruns Truck

Two 14-year-old high school girls were injured and a late model car was badly damaged last Friday afternoon when a teen-age Detroit youth traveling at a high rate of speed overtook and plowed into the rear of a moving truck loaded with apples.

Calvin Unthank, Jr. of Detroit was traveling eastward over the rain-soaked highway at "50 m.p.h. or over," police said, when he overtook and struck the truck loaded with apples bound for Kentucky. Kelley Gross, owner and driver of the truck, gave his address as Fillmore, Ky.

The truck's speed was about 35 miles per hour at the time, Kelley said. The force of the impact drove the hood of Unthank's car under the body of the truck and threw both vehicles in the ditch. The truck suffered only minor damage.

Two young girls, passengers in Unthank's car, were rushed to a Northville hospital for treatment of injuries. They were Judith Ferro and Margaret Koerner, both of Detroit. A third passenger was uninjured.

Novi police arrested Unthank on a charge of following another vehicle too closely.

Motorist Strikes C & O Freight Train

A young automotive engineer bound for General Motors proving ground narrowly escaped injury or possible death early Tuesday morning when his car crashed into the engine of an oncoming freight train on 12-Mile near Taft Rd.

The motorist, James Richard Landis, 28, of Oak Park, said the warning blinker at the railroad intersection was obscured by reflection of the bright morning sun.

He said he saw the oncoming train at the last minute and applied his brakes, thus greatly reducing his speed before the impact.

The car spun completely around, tearing out one of the blinker signals in the process, police said. Both Landis and the diesel engine suffered only minor injuries.

PLENTY OF FREE PARKING was available in Northville last Friday when G. E. Miller, local Dodge dealer, announced the new line of Dodges for 1956. Miller footed the bill for the entire day's parking in the city. Patricia McIntosh is shown reading one of the paper bags Miller had used to cover the meters for the occasion. The car in the background . . . a Dodge naturally.

The new Continental Mark II, to be introduced by Ford Motor Company this month, is a prestige automobile manufactured in low volume with special attention to quality, styling and detail. It retains in modern form many styling characteristics of the former Lincoln-Continental. The fashionable Continental spare tire is mounted beneath a unique moulding stamped in the rear deck lid. The "modern formal" design emphasizes the functional use of chrome, steel and glass areas. The hood is almost six feet long, and the car is more than 18 feet long. Four inches less than five feet high, it is believed to be the lowest production car with both a front and rear seat. A new frame design and the 77½ inch width of the car insure ample room for all occupants.

B. F. Grogovic, reportedly representing a group of individuals long interested in building a race track in Novi township, spoke to the group briefly regarding their plans.

Original plans for the track were presented to township officials in 1948 and called for use of the Holcomb farm, a 190-acre tract bordered by Grand River, Meadowbrook 11-Mile and Seely roads.

Although presented seven years ago, the actual plans were never carried out. Recently, however, the group has shown interest in reviving the "dead horse" Grogovic said.

Grogovic added that such a track today would cost between five and seven million dollars and would be built for harness racing. He asserted that the group he represented was interested in racing from the "sporting" aspect.

The Blue Star Mothers, headed by Myrza Ward, and the Farm Bureau under Mr. and Mrs. Burgess, will take care of the southwest section.

The Board of Commerce and Cub Scouts will canvass the southeast section headed by Leo Harrawood, Jack Crawford, Russ Taylor and Phil Simonton. Agnes Morrison will be in charge of the Willowbrook area.

3,000 QUARTS OF MILK PROCESSED DAILY AT GUERNSEY DAIRY

BOTTLING is done by machine. Here an employee sets the bottles in cases, readying them for delivery.

Modern Machinery Sends Milk Through 9 Stages.

Ice-Cream, Made 3 Times Weekly; Fresh Eggs Featured In Complete Dairy Line

A drink of Vitamin D — baby's delight — a glass of moo — whatever you call it, the finished product is the dairymen's pride and joy — milk.

At the Guernsey Farms Dairy, just a few steps from Northville's shopping district, much of this city's milk supply is processed, 3,000 quarts daily.

Approximately 24 employees of the dairy are involved in the milk sequence that begins when tanks of milk are collected from South Lyon farmers, and ends when cases of bottled milk are loaded on trucks for retail and wholesale delivery men.

MACHINES AT WORK

The milk passes through several machines in a series of stages before it reaches the consumer. After the milk is received from

Guire keeps 10 or 12 different ice-cream flavors in stock and makes approximately 28 different flavors during the year—"in season" flavors like peach, raspberry, etc.

McGuire and his wife, Elise, live at 240 Orchard Drive with their 12 children. The oldest child, Tommy, 15, helps his father in the plant, and Patty, 14, helps out in the store, next to the plant. The other children, James, Mary, Margaret, Hugh, Joseph, Michael, Frances, Lucy, Rita and Martin, are still a little young to be their father's business partners, but they stop to visit the dairy. Like most children, they're interested in ice-cream.

POURING the milk into the receiving tank is a two-man job. The milk will now be clarified.

TAKING samples of the milk for bacteria and butter-fat count is the first step in processing.

Scmebody Goofed in the 2nd Paragraph

Aviators during World War II had "gremlins" that caused all sorts of trouble mechanically, and sometimes did some good to high-flying planes.

Operators of machines of all kinds, particularly automobiles, have noticed that certain types of "cugs" develop in the mechanisms.

Sometimes plumbers complain of getting a left-handed monkey wrench by accident. Some ball players act as if they don't know the difference between a left-handed and a right-handed bat.

Newspapermen and printers are no exception to the rule.

For centuries they have been bothered by those pesky little things called "type lice" that move or drop out letters in a word and generally change the meaning of what the man intended to say.

You will know what we mean if you have ever read a story that said, "Mrs. Brown was the featured singer at the church dinner." Of course, it should have been "singer" but those type lice did it again.

In the trade we call them "typos," for short.

Readers of the Northville Record who noticed some of the bones that creep into the paper from time to time will know what we mean. They may recall a few months ago this line, "Somebody goofed in the 2nd paragraph" which our alert linotype operator purposely added at the end of a story to alert our proof reader to an error. The line was left in the story by mistake and we had phone calls from several amused readers.

Another typo a few weeks ago amused even the lady who tried to advertise "crown" cages for the parakeets she was selling, but found herself advertising "crow" cages instead when she read her ad in the Record.

Occasionally we catch boners before they get into print, too. Lady Luck was with us when some kind friend without an arithmetical mind sent in an item about a young couple celebrating their first wedding anniversary, with the additional information that they had a baby six months old.

Last week we received another gem sent in by a lady who was reporting that a family was to move away from our city. She concluded the story by saying: "They will be greatly mist by all."

Other editors have the same troubles and the following slipped into print in a well known weekly quite recently:

For example, when the little devil made one word out of two and said: "Mrs. Robinson will direct the choir. Mrs. Brown will beat the piano."

Another time, a West Coast headline declared: "Strange Tail of Missing Pair Solved".

And an ad for which someone had paid good money, said: "Modern Hotel, Reasonable Rats."

Sometimes, newspapermen themselves give lice considerable help in their nefarious business by writing things that can be read two ways. Such as the man who wrote this headline: "Grove-land man is high in egg laying contest". Or the one who wrote: "Christmas sale of Methodist women to be held Tuesday".

The man who wrote "St. Paul women are best sewers" meant well and was reasonably accurate but he had to leave town in a hurry.

And there was a mob scene downtown in a Middle Western city when the local populace read: "Girls are wearing nothing but cotton stockings for the duration".

Classified advertising is a great field for this type of boner in newspapers. For some reason, someone always has a "room for rent to unmarried girl with hot and cold running water". One of the rarities was: "For

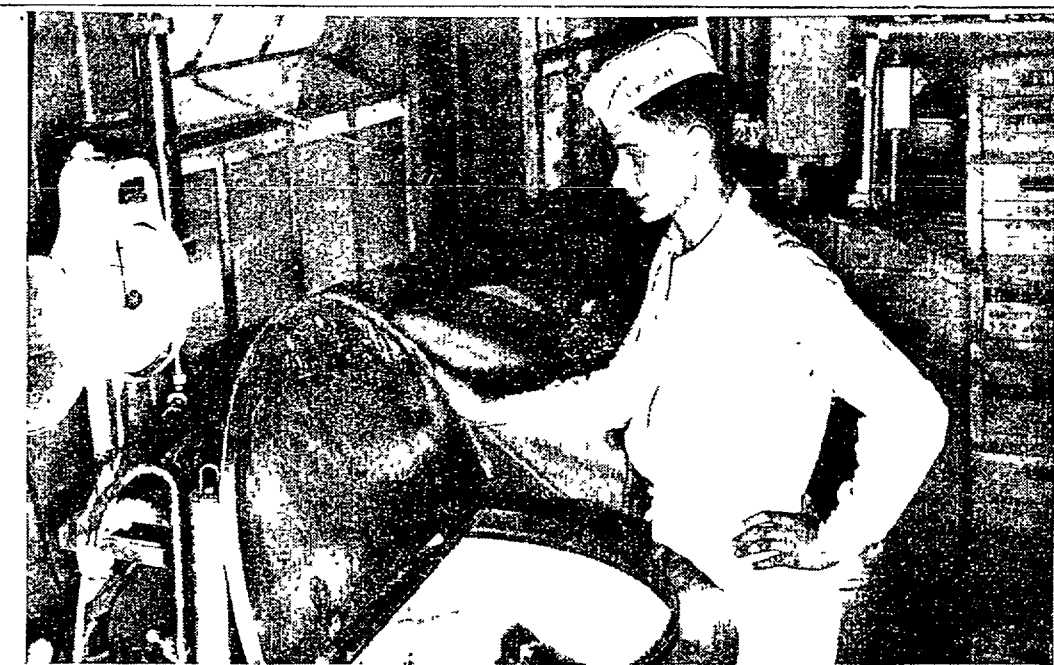

sale, man's large desk, secretary with drawers".

This had an air of futility, but left no doubt as to what he meant: "For sale—Baker's business, good trade, large oven; present owner has been in it for seven years; good reasons for leaving."

One of the all-time classics appeared in an obituary column of all places, and said of the deceased: "Noted for his witty remarks, he once offered this marriage advice: 'First find the girl with whom you can live in perfect harmony and good will. Second, let her do as she pleases.' His widow and nine daughters survive."

So you see, between those little unseen bugs that plague composing machines (those intricate gadgets that convert a reporter's copy into slugs of metal containing the words) and the adeptness of some newspapermen to say two things, when they meant to say only one, there is never a dull moment in the newspaper business.

Just remember, if you should be the innocent victim of one of these slip-ups, it wasn't done on purpose.

RECORDING the temperature of milk in the pasturizing machine is done hourly.

V.F.W. Announces Membership Drive

Mrs. Glory Brown, membership chairman of Northville Ladies Auxiliary to Post 4012, Veterans of Foreign Wars, announces the opening of the 1956 membership drive.

Every eligible veteran and his family is invited, and encouraged to share in the program of the Veterans of Foreign Wars and its auxiliary.

Through their legislative program the Veterans of Foreign Wars have secured many of the benefits which are now available to all veterans and which are being enjoyed by many. The posts and auxiliaries have a wide variety of programs including Americanism, youth activities, community service and hospital work.

There is no better insurance, at any price, than the Veterans of Foreign Wars National Home at Eaton Rapids, Mich., where children of members, or a former deceased member, of the Veterans of Foreign Wars are assured an education, health, happiness and security.

Mothers, sisters, wives, daughters and widows of deceased or honorably discharged men who have served on foreign soil or waters during time of war are eligible to membership in the ladies auxiliary. Also, women of the armed forces of the U.S. who have had foreign service in time of war and possess an honorable discharge and their mothers, sisters or daughters are eligible to join the ladies auxiliary.

A cordial invitation is extended to all eligible women to join the Northville Auxiliary to Post 4012 of the Veterans of Foreign Wars. Call or write Mrs. Glory Brown of 19540 Maxwell St., phone 3007-W.

'56 FORD...with new 202-h.p. Thunderbird Y-8

with new Thunderbird Styling with new Lifeguard Design

A glance tells you that the '56 Ford has the long, low lines . . . the dazzling beauty of the fabulous Ford Thunderbird.

But wait till you touch the gas pedal! Then you'll know that Ford goes like the Thunderbird, too. With the new 202-h.p. Thunderbird Y-8 engine, available in Fordomatic Fairlane and Station Wagon models, you'll pass with new confidence, smile at hills.

And there's even bigger news! It is Lifeguard Design. With the cooperation of leading universities, medical associations and safety experts, Ford found that most serious accident injuries were caused by the driver being thrown against the steering post, occupants being thrown forward against hard surfaces, or from the car. So, Ford developed a new Lifeguard steering wheel with a deep-center structure to help protect you from the steering post . . . Lifeguard double-grip door locks to give added protection from doors springing open under shock . . . optional Lifeguard cushioning for instrument panel and sun visors, to help lessen injury from impact . . . optional seat belts that help keep occupants securely in their seats.

Come in soon! See the '56 Ford, test its power, and learn what Lifeguard Design means for the greater safety of you and your family. Then you'll know exactly why the '56 Ford is . . .

the fine car at half the fine-car price!
