Arthur Heslip, president of the MMPA Farmington local and the MMPA Salem local, and Dick added. Lister, a member of the Oxford

#### Contest Ouster

The men have contested the ouster and were granted a restraining order pending a hearing Wednesday.

Calling this action unjust, Martin launched into a vicious attack on the two MMPA officials present, assistant secretary manager Jack Barnes and Lapeer dairy farmer Irv Haskill. Holding an open Bille in one hand, the former union leader quoted Isaiah and pointed a trembling and accusing finger at the two MMPA officials as he halfwhispered, half-shouted "Woe unto them that decree unright-eous decrees..." "It was an un-

He whispered, he shouted, he righteous decree, it was an unquoted the scriptures, and he fair decree, and it was an undemocratic decree," he shouted Stating the aims of the group he ble waving ex-preacher Homer is advising, Martin said the Fair Martin held members and guests Sharers propose to bargain col-

"We're not kidding and neith er are the creameries who say "advisor" for the Fair they will bargain with us," he added.

"What is our tie-up with lab-or?" he continued. "We have none. Unions are not a part of this association...they don't belong in one...we can get good advice from labor unions and we are willing to take it if it will

#### More Than Average

Barnes, as official spokesman for milk, he blasted MMPA's for the MMPA, had told the board of directors for their recent action in canceling the farmer in the Detroit area gets membership contracts of several more for his milk than the averresidents in this area for their age farmer in most other parts

Among those recently voted out of MMPA under this directically high prices, he warned, the tive were Northville resident, creameries will get an increasing amount of their supply from farmers outside of the normal chairman of Tuesday night's Detroit area. There are 100,000 meeting; Sam Bailo, president of dairy farmers in the state, he

#### Accept Will of Majority "Our organization (the MMPA)

feels that the real answer lies in compromise...accepting the will of the majority and moving forward. We feel that there is no question about the dairy farmer needing more money for his milk," Barnes continued.

"However, we also feel that establishing an artificially high price, accepting restrictions and quotas, while conceivably possible, would be extremely diffi-

Bailo, a South Lyon dairy farmer, said that the MMPA in their \ organization publication, called him a "labor union law

"speed-up" at the Ford valve the Turks? They each consume plant during the last week. At an average of 156 pounds per first we thought our eyes were year. All we can add to that is deceiving us. Then, becoming | ... they must be saving boxtops. convinced that it was truly a speed-up, we thought surely union officials would protest. Evidently they haven't.

Therefore, lest this matter get further out of control, we are asking for a public explanation of why the lazy old mill wheel at the east end of the plant is being allowed to turn so fast that the water is not, able to keep up with it. We spent quite a few minutes last Thursday observing the situation and found the wheel was turning so fast that water falling upon it was being thrown mercilessly into outer space.

Todays high school kids are not taking up the age-old custom of chewing tobacco. This interesting fact was brought to light early this week when a salesman for one of the larger tobacco companies visited the town merchants carrying a line of sun glasses. The sun glasses are in addition to his regular tobacco line, he said, and are marketed by his company in a determined effort to regain some of the profits lost by the decline of chewing tobacco sales. Truly an outstanding example of product di-

The Michigan Division Council meeting and luncheon of the Woman's National Farm and Garden Assn. was held at the Woman's City club in Detroit Thursday.

The seven officers from the Northville branch who attended were Mrs. George Alexander, Mrs. John Haller, Mrs. R. D. Merriam, Mrs. Gerritt P. Rooks, Mrs. John Burkman, Mrs. Robert Niemi and Mrs. Glenn H. Cum-

#### 22 Months Stay In Germany Ends

Mr. and Mrs. Richard Porterfield have returned to Northville after living in Germany. Richard served 22 months with the Armed Forces in Stuttgart, Germany. Mrs. Porterfield flew home

from New York Feb. 6. Her husband drove their car home and

arrived later in the week. While in Germany, Mrs. Porterfield (Irene Tesch) was able to see cousins of her father's who

live in the west zone of Berlin. Among some of the things she brought from Germany are two sets of famous Bavarian china and some clocks which were made in the Black Forest.

The Porterfields are staying temporarily with Mrs. Porterfield's parents, Mr. and Mrs. William Tesch of Rayson St. Mr. Portenfield's parents formerly lived in Northville and are now residing in Osseo, Mich.

## BRILG

Mr. and Mrs. Wilbur Hotchkin of 19464 Gerald Ave. announce the birth of a son, Robert Warn-er, born Feb. 10 at Mt. Carmel hospital. The baby weighed eight pounds ten ounces.

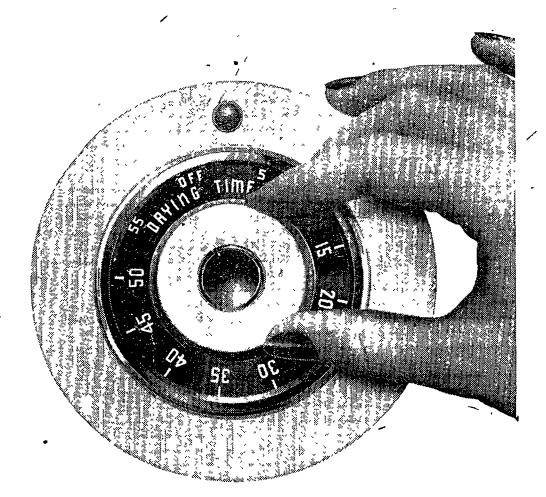

#### Amarylis Blooms On 35th Anniversary of R. D. Merriam's

An amarylis bulb brought from her daughter's garden in Florida by Mrs. R. D. Merriam last August appropriately burst into bloom Feb. 21, the 35th anniversary of the Merriams.

The Merriams and 35 friends from Chicago, Detroit and Plymouth enjoyed a dinner at Botsford Inn on the anniversary day.

Last Saturday, the Merriams invited 16 of their Northville friends for dinner and bridge at their home on Beck Rd.

how to live by imitating the life of Christ than to spend so much time talking about the death of

Friends, the truth of the matter is that, our attitude, toward the death of Christ is of such importance that by it we stand or fall. The Bible teaches us three important facts about man's relationship to God. (1) All men by nature and by practice have sinned and are dead in tresspasses and sins. In this position as a sinner, he is aleinated from God. He has no contact with God. He is without hope and without God in this world. (2) Jesus Christ came to change this position. He did so by taking man's sin upon Himself thus paying the penalty of man's sin and making it possible for God to show mercy to the guilty. Serious reflection upon this one thought, "Christ died for our sins" will cause one to see that this is indeed the very

# 2nd Place Title Clinched; Coach Lets Team Play "Dog Shots" For Starting Positions

Holly Shoots 10% More Free Throws

Rain, fog and treacherous highway conditions put a damper on the attendance at the Northville-Holly game last Friday, but as far as the game went

With the second place league title clinched, and confident that his players were more than a match for the Holly team, Coach Johnston let the varsity team shoot "dog shots" Friday after-noon to determine the starting

Starting players were Palmer, Hollis, Teshka, Yahne and Pat-

In the last three minutes of the first quarter Teshka was replaced by Pethers who promptly scored

According to Al Jones, reserve team coach, Pethers was not feeling too well and at times appeared sluggish on the court. Regardless of his condition, Pethers scored in every quarter with a total of 27 points for the game. Thirteen of his points were scored in the fourth period.

Holly pitched their freshman center MacDaniels against Pethers. MacDaniels is one inch taller than 6' 5" Pethers, but he is

Northville guards played their best of the season, especially Yahne and Bell.

free throws, scoring 53 percent the time. Northville scored

# Two Editorials on Michigan Blue Cross

Featured below are the full texts of two editorials which appeared in The DETROIT TIMES on February 26, 1956 and in The DETROIT FREE PRESS on February 27, 1956. Because they present the considered editorial judgment of two of Michigan's great newspapers, we are reprinting them in full as a public service for the information of our 3,600,000 Blue Cross members and all the people of Michigan.

#### From The Detroit Times, February 26

#### BLUE CROSS FUSS

We didn't suspect a week ago today, when we started a series of articles on Blue Cross, that the fuss over hospital prepayment would attain the intensity it has now reached

The amount of hullabaloo, frankly, is getting out Rep. Allison Green has a bill for the Legislature,

which he fondly hopes will solve everything. It won't. Insurance Commissioner Joseph A. Navarre has been quoted with some remarks which we suspect he will regret when he begins to realize what he has said.

A group of unions in Detroit and Flint is proposing to set up a rival "Blue Cross plan," which is entirely within their rights, even though we doubt it will look as simple to them once they have gotten into what is a very complicated problem. Of the three-Rep. Allison, Commissioner Navarre,

and the unions-we think the unions are behaving most reasonably. We differ with them only in our opinion as to whether they CAN produce what they think they can. But of the whole lot, we think Blue Cross and its

present managers are the most capable of providing what we want. We think Blue Cross is getting a vicious and needless pushing around.

In our news stories we have tried to tell what was happening without letting our opinions sway us.

But this is the editorial page, and this is our opinion, and we are saying what we think.

First of all, a series of articles which began concurrently in another Detroit paper is, for all we know at this moment, still running. We don't have any quarrel with the facts in it.

We do believe it has placed too much emphasis on "over-utilization"-that is, the complaint that some people either stay too long in the hospital, or get in under Blue Cross when they shouldn't-when they aren't really sick.

The Times reported that. We can take you back in the files a couple of years and show we were the first newspaper to report there was some of this chiseling going on, It should be halted. We think it is being

But it makes a rather sensational subject to write about-and some people talk too much about it. This "over-utilization" while it does happen, is not occurring to the extent that it makes any vast difference in premium payments.

And that is the most important issue in this whole

Why do we think "over-utilization" is not as great as some people try to suggest?

First, because a Blue Cross study group itself was the first to dig into the matter. No attempt to hide anything. Just an effort to correct the situation, since chiseling by one subscriber is paid for by all the

honest ones. Second, Blue Cross, by subsequent and continuous inquiry, thinks that this evil is under good control,

even though there is still an occasional violation. Third, because Michigan isn't the only Blue Cross plan. The same general plan exists in all the states,

each under its own laws and its own management. If the plan here happened to be at fault, in some way, it is hardly possible that all the states would be-

at fault in the same way. Somewhere in the country we would find that Blue Cross rates were markedly lower—we would find it, that is, if Michigan's Blue Cross were letting the custhat is, if Michigan's Blue Cross were letting the cus-

tomers get away with murder. Somebody would have found a solution, and would be bragging about it. But no, rates are pretty comparable anywhere you go.

been publicized into a bigger, fault than it really is. We don't think very many people get much fun out

of going to, or staying in, a hospital. Now Rep. Green thinks he could bring about lower rates, and thwart all the chiselers (such as there are -most people are honest) by a law making Blue

Cross change its policy. He would make everyone who uses Blue Cross pay the whole cost of the first day in the hospital (the most expensive day, because then you have all the tests, and usually the operation if you need one) and

also pay 15 per cent of the cost after the seventh day. Of course that would reduce the premium you pay for Blue Cross-but you'd soon find it didn't save any money. Furthermore, it would put the biggest burden on the people who are most seriously ill. Who wants

Rep. Green, with the best of intentions, has oversimplified the situation. Besides, he wants to make this compulsory for everybody-doesn't even want to give subscribers a choice of which way they'd rather

Commissioner Navarre, for reasons which escape us, has indorsed Rep. Green's notion. We suspect some politics somewhere, because we think Navarre ought to know better.

We wonder, too, why Navarre has questioned the sincerity of the Blue Cross in offering a so-called "deductible" policy. People have been able, if they chose, to buy such

a policy from Blue Cross for upwards of the last year. Blue Cross made no secret of the fact that such a policy was being offered. People could have it, at a lower price, if they wanted it. They didn't want it.

To get back to the unions, now. They'd like a policy which gives more benefits at lower cost. Who doesn't like the idea? Who doesn't want the good five-cent cigar back, or the \$700 automobile, or the three-cent newspaper, for that matter? We'd like them

But you can't slap economics in the face. You can't legislate Utopia.

And so far as we are concerned, you can't say that Blue Cross hasn't been doing a good job.

Its prices haven't gone up any faster than factory wages. It has been so good that it now has 3,600,000 people, or half of the whole state, using Blue Cross and liking it.

Trying to make out, all of a sudden, that something is "wrong," or that some simple little bill in the Legislature can turn time backward and make things cost less-that's nonsense.

We don't think this union group can do it, either, but we'll concede their right to try. At least they aren't trying to tell everybody else how to do it. They're undertaking to show how to do it.

- We think, flatly, that Blue Cross is a fine thing, and we hope all the noise won't fool the people and unduly alarm them.

Blue Cross is merely a victim of our rising economy just as everybody else 's.

## From The Detroit Free Press, February 27

#### Hospital Insurance Costs

#### TRYING TO SPOT THE REAL VILLAIN

Old melodramas had their advantages. It was easy to identify the villain. This is not so in the current uproar about hospitalization insurance. Rates have skyrocketed. Many think Blue Cross has thrust its hand too deeply into the pockets of its 3,600,000 Michigan subscribers. Investigations are being made, bills are being submitted to the legislature, and the air is blue with charges.

Much is still being learned, but we think some observations can be made now. The public's demand in the last decade for better

medical and hospital care has been great. Therefore, on top of inflation must be added the cost of this improved care. An increase in Blue Cross rates might, then, be considered automatic.

The question is: Do the allegedly excessive rates reflect only inflation and improved care?

Ample proof to the contrary appears in surveys of hospital cases covered by hospitalization insurance. The studies indicate clearly that alarming abuses have cropped up. These take the form of unnecessary hospitalization, prolonged stays for convenience or comfort and excessive use of drugs and laboratory

The problem remains the same. Whom do'we hiss and boo?

Is it hospitals for operating inefficiently? Is it physicians who find it convenient to group patients in hospitals for quick and lucrative rounds of call that require only an hour or so each morning? Is it patients who unnecessarily demand and get from their doctors a hospital bed and costly care? Is it Blue Cross for permitting such known abuses to continue?

Frankly, we suspect the answer to all such questions may be "Yes!"

At least one offered solution appears to be precipitous and short-sighted. A bill introduced in the Michigan Legislature suggests a deductible plan similar to auto insurance. The proposal to make subscribers pay for the first day of hospitalization and 15 per cent after seven days no doubt would cut rates. It also would greatly reduce the value of the service. It would not, we believe, strike hard enough at the

It would, however, seen logical to offer optional plans. Blue Cross has such a plan, in which the patient pays the cost of the first two days and \$2 a day for

the remainder of the hospital stay. The saving of but 16 per cent in premiums does not seem adequate, considering that the average stay is seven days. Blue Cross also is readying a "catastrophe" policy, but if the saving is no greater than offered under the yearold deductible plan it too probably will not be widely

One additional thought stands out prominently. Physicians, through their dealings with patients and because they control both the hospitals and the Blue Cross organization, have failed, in our estimation, to take an active public stand on the abuses under the voluntary hospitalization insurance plans.

Because they are so closely involved in the abuses and because voluntary plans were their answer in a period when socialized medicine appeared around the corner, they should be available to counsel the public. The public wholeheartedly accepted the voluntary plans and should have the wise advice of doctors.

Since Blue Cross is a \$100,000,000-a-year business, the entire problem should be thoroughly examined, calmly, circumspectly and publicing

# Golden Wedding Anniversary Celebrated With Open House

Mr. and Mrs. Fnank Clark were honored on their Golden Wedding Anniversary Feb. 26 at an open house celebration held at the home of Mr. and Mrs. Frazer Staman, Wixom Rd.

Approximately 100 guests attended the celebration between 2 and 5 p.m. Sunday afternoon. Several township supervisors and county officers were among ville Feb. 26, 1906. Mrs. Clark's the many well-wishers who came from Detroit, Milford, Pontiac,

Commerce, Northville, Plymouth, Walled Lake and Brighton. A beautiful three tiered wedding cake, trimmed with yellow roses and the names of the hon-orees, was centered on the buf-

BETTY

**CO-OPERATIVE** 

**NURSERY NEWS** 

By Marion Crump

February saw several new

of a series of "Musicales" begin-

ning with the visit of Glenn

Schultz Feb. 10. Glenn played several selections on his accor-

dion chosen to suit the age of his audience. On Feb. 17 Jon Batzer

delighted the group with a short

violin concert. In the near fu-

ture Jim Hammond will bring

his clarinet and play for the children. Any interested musi-

cians who play other instru-

ments and would like to partici-

pate in this project are invited to contact tour teachers, Mrs. Hartt at 908-R or Mrs. Schipper

Another new addition is a Nature Corner. Sweet potato and flowering bulbs are among the

potted variety. A promise of an aquariium has brought gifts of goldfish and hopes of guppies

and other easily cared for stock

from people who would like to

The Gazlays donated a tremendous Spanish galleon left over

from Cub Scout activities to the equipment of the group and the children spend many exciting hours on it. The craft itself

threatens to give out long before the youngsters tire of it.

The Presbyterian church is re-

decorating the room which the three-year old group uses. New table tops of linoleum and gay

draperies will add a fresh spring

New members to the Play

group are always welcome. Ap-

plications are available by call-

ing membership chairman, Mrs.

"If you could change place with anyone in the world who would you like to be and why?' That was the question we ask-ed teenagers this week, and frankly the answers surprised

We thought that they would come up with characters who a glamorous, adventurous ife with an unlimited amount of cash on hand; we also thought that a few might choose someone in the well-known profesions. They fooled us.

The teenagers did have one thing in common...they all wanted to be famous persons; however, the boys preferred current sports stars and the girls chose women who have made history.

Here are their answers:

DAVE O'NEILL, 16, sophonore, wants to be "...a great basketball player like Ron Kramer, U-M star." Dave plays on the NHS reserve basketball team and although he is 5' 11' he said that "Kramer is 6' 3" and can out-jump guys 6' 7". He's a good all-around sports-man," Dave said, "and has a great career ahead of him."

JANICE DIXON, 15, sophonore, said, "Queen Elizabeth of England because she is so gracious, pretty and holds a high position." Asked whether the Duke had anything to do with her decision, she said, "I don't care about him. He's good looking, but I wouldn't change places for that reason."

would like to change places with ture," Everett said. "If I was a baseball star, Al Kaline. "He's 'Hoppy' I'd play as long as I got a good arm and a great batting average," Ron said. When that sports stars usually If I didn't have enough money a player and then become a manager. Managers really clean-up. rake in the money.'

BETTY STRANGE, 15, sopho-

WATCH THOSE WAISTLINES. If members of the Northville high school basketball team look like they're putting on a little weight we won't be surprised, considering the way they've been "treated" lately. The group above were photographed last Monday at Paul's Sweet Shop eating a spaghetti and pizza dinner paid for by their coach, Stan Johnston. The week before Paul Folino treated the players to a banana split. The team has clinched second place in the league.

4-Door Hardtops?

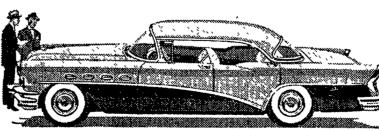

ROADMASTER 4-Door Riviera—custom-built by Buick

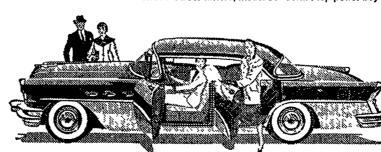

# BEST CHOICE YET

THE SUPER 4-Door Riviera, Model 53—Buick's extra-spacious medium-price buy

THE CENTURY 4-Door Riviera, Model 63—Buick's top power buy

THE SPECIAL 4-Door Riviera, Model 43—Buick's biggest buy in the low-price field

 $B_{
m ig}$  news in hardtops these days is the 4-door model.

ggest news of all is Buick's 4-Door Riviera. Ever since its introduction, this Buick hardtop has taken the country by storm.

But the newest note about this newest of models is the price choice Buick offers you. Now you can have this much-wanted model in four different price series-and that's a choice you'll get nowhere else.

Now you can have the 4-Door Riviera in the custom-built ROADMASTER, the extra-spacious Super, the supremely-powered CENTURY, or the bedrock-priced Special.

What follows from there? Plenty-really plenty.

For in every 1956 Buick there's a wealth of thrills-a spirited gaita trim maneuverability-a sheer enchantment in styling.

In power, it's a pistol. Every Buick packs a 322-cubic-inch V8 engine -with Buick's highest horsepower and compression ratios yet. In take-off, it's trigger quick. A new Variable Pitch Dynaflow\* betters

the best Buick getaway on record—with instantaneous response at the very first inch of pedal pressure. In emergency, it's double-barreled-with that new Dynaflow chang-

ing to full-power safety-surge acceleration the instant you floor the pedal and switch the pitch.

And in roominess, in luxury, in handling ease, in tide steadiness, in directional sense-you'll discover a literal truth:

This is the best Buick yet. Can you come in tomorrow to see and sample the greatest Buick ever

-and to note the prices that make this the best buy yet? \* New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today It is

standard on Roadmaster, Super and Century - optional at modest extra cost on the St . . al.

#### CONSIDER THIS PRECIOUS SACRIFICE

"Who has not read with thrilling interest the story of the old curfew? A young soldier for some offence was condemned to die, and the time of his death was fixed "at the ringing of the curfew". Naturally such a doom would be fearful and bitter to one in the years of his hope and prime; but to this unhappy youth death was doubly terrible, since he was soon to marry a beautiful young lady, whom he had long loved. The young lady who loved him in return tried desperately to save his life, even to the extent of trying to bribe the old sexton not to ring the bell, but she found that was impossible. The hour for execution drew near. The officers of the law brought forth the prisoner and waited, while the distant sun was setting, for the signal from the distant tower.

To the wonder of everybody the curfew did not ring! Only one human being at the moment knew the reason. The poor girl, half wild with the thought of her lover's peril, had rushed-up the winding stairs, climbed the lad-der into the belfry loft and seized the tongue of the bell. The old sexton was in his place and promptly on the moment threw his weight against the rope and the bell reeled and swung to and fro in the tower. But the brave girl kept her hold and no sound issued forth. At last the sexton went away. Old and deaf, he had not noticed that the curfew gave no peal. The brave girl descended the belfry, wounded and trembling. She hurried from the church to the place of execution Cromwell himself was there, and just as he was sending to demand why the bell was silent

"And her brow Lately white with sorrow, glows with hope and courage At his feet she told her story,

showed her hands all bruised and torn, And her young face, still haggard with the anguish it had

Touched his heart with sud-

'Go; your lover lives,' cried Cromwell; 'Curfew shall not ring tonight."

Do you think that this young man redeemed by the sacrifice of love from the executioners' sword would ever forget or acknowledge with appreciative love the one who had done so much for him?

Change the scene a bit. The scene is Calvary and Christ hangs on the cross. His brow is crowned with thorns and nails in his hands and feet pin him to the cross. His heart throbs with compassion for sinful men as He bears the awful load of man's guilt. Earth trembles and the sun hides its face in shame when "Christ the mighty Maker died for man, the creatures sin!' sacrifice means nothing. What does it mean to you?

# JUST AS GOOD A CHRISTIAN!

but I'm just as Good a Christian as those do!" which I would like to reply "Says who ? According to the Bible Good Christian

is obedient to the commands of His Lord. One of the Lord's commands is to "Stop neglecting our meet-ing together, as some do, but let us continue to encourage one another, and all the more because you that great day is drawing near." (Williams Trans. Heb. 10;25). A good Christian is one who has surrendered his all to Christ. A good Christian is one who ives separated from all evil. He is the Spirit filled man who is engaged in his Father's business of getting out the Gospel. What a contrast to the world's definition. For they pelieve that a good moral religious man who is a good mixer, who never "talks his religion", who can do as the Romans do in Rome and never allow his religion to interfere is a good Christian. The best example we have of a good Christian is none other than our Saviour Jesus Christ. He is the perfect Christian. One can become a Christian by receiving the life He imparts. He can become a "Good' Christian by becoming like

Peter F. Nieuwkoop, Pastor First Baptist Church NORTHVILLE

Bible School ...... 10 a.m. Morning Worship .... 11 a.m. Evening Worship 7:30 p.m.

Mrs. John Squire of Kalama oo has been the house guest for he past week of her niece and nephew; Mr. and Mrs. F. M. Mc-Cormick of Maxwell Rd.

On Thursday, Mrs. McCormick gave a luncheon in honor of her aunt. Guests included Mrs. W. Earl Taylor of Ann Arbor and Mrs. Fred Kidman of Northville. Sunday, Mrs. Squire and the Kıdımans were treated to a duck dinner at the McCormick home.

# MMPA...

(Continued) "Absolute Lie" "That's an absolute lie and

they know it," he shouted. Then, letting loose a blast at MMPA President Glenn Lake, Bailo said, "The new president would have us believe he is going to set the world on fire ... everything will be hunkey-dorey, but...(unless things change) you'll be getting the same rim-

ming you have had in the past.' "The MMPA feels they have had a corner on brains in the milk industry for the past 40

Only Promises

"We aren't proud of the fact that a working man in this area can buy more milk for an hour's pay than anywhere else in the country...the MMPA gets rid of members who speak their mind .They'll never get a higher price for you...only promises and you can't live on promises,"

he continued. Milk vs. Water

A lighter note was struck at one point in the evening when Haskell told of a pending experiment in Lapeer where a milk vending machine is being installed next to a public drinking fountain. In this battle for pop-ularity between two of nature's products, dairy farmers of the area feel confident that their product will make an excellent

# **Red Cross Drive** To Be Conducted By Mail This Year

Michigan Week

American Red Cross Northville drive will have a change in method this year, according to Mrs. A. C. Carlson, director for Northville. Instead of a house-to-house canvass by Northville women, the drive will be conducted by mail. The business district, however, will be canvassed by Mrs. J. R. Cunningham and Charles Carrington,

Mrs. Carlson asks the peopl of Northville to return their envelopes as soon as possible as there is an urgent need for funds

The American Red Cross has supplied more funds for disaster relief and rehabilitation since last July than at any other time in its history, according to Mrs. Carlson. "The reserve funds earmarked for disaster are nearly depleted," Mrs. Carlson said, 'and to make matters worse, the normal weather, pattern makes spring months, which are still ahead of us, very costly ones in terms of disaster needs. The spring tornado and flood season has just begun in the south and the help of everyone is needed if the Red Cross is to continue its disaster relief program."

Emphasis is placed on the nec essity for funds with which to carry on local Red Cross services which include assistance to servicemen, veterans and their families and the blood prc am. The Red Cross slogan for the 1956 drive is "On the Job".

No motor least 300 feet in front of such bicycle and shall also be equip-ped with a reflex mirror reflector or lamp on the rear exhibit-ing a red light visible under like conditions from a distance at least 200 feet to the rear of such

#### SECTION 40

Emergency vehicles may be marked in the following manner: Any police vehicle may be markwith green lights or reflex reflectors. Any ambulance may be marked with purple lights, front and rear. Any ambulance or fire or police vehicle used for emergency work may be marked with blinking, oscillating or ro-tating red lights to warn other vehicles to yield right-of-way as provided in this ordinance.

#### SECTION 41

Whenever a motor vehicle is equipped with a signal lamp or lamps to comply with the provi-sion of section 23 the signal lamp or lamps shall be so constructed and located on the vehicle as to give a signal which shall be plainly visible in normal sun-light from a distance of 100 feet to the front of and/or rear of to the front of and/or fear of way lawn, grass plot, bridle path the vehicle, but shall not project or pedestrian trails in any park a glaring or dazzling light.

#### SECTION 42

No vehicle except authorized emergency vehicles shall display a red light to the front or a green light to the rear.

#### SECTION 43

Equipment on motor vehicles as required under this Ordin-ance shall be maintained herein provided, and any uniformed police officer shall be authorized on reasonable grounds shown to arrest the driver, and to order the driver or owner to have the same repaired forthwith.

efore entering or crossing such designated highways, and when-ever any such signs have been so erected, it shall be unlawful the driver of any vehicle to fail to stop in obedience thereto: Provided, however, that at the intersection of two or more such through streets signs requiring stops may be erected at any or all approaches thereto, and provided also that signs may erected on the approach to an ntersection of a through street with one not so designated requiring drivers on such through street to come to a full stop be-fore entering or crossing such in-tersection; Provided that this regulation shall not apply to any intersection where traffic is being directed by a police officer or traffic signal.

(b) Pursuant to the provisions of Section 4 of this Ordinance, one way streets may be established and when such one way streets are designated by signs sufficient in number to apprise ordinarily observant persons of the existence of such one way streets, it shall be unlawful for any person to operate, park, stand or stop a vehicle on such streets in any direction or fac-ing in any direction other than that designated by such signs.

#### SECTION 45

(a) When signs prohibiting stopping are installed, no operator shall stop, stand, or park, a vehicle in such designated space, except when necessary to avoid conflict with other traffic or in compliance with the directions of a police officer or traffic control device.

(b) Where signs prohibiting standing are installed no operat-or shall stand or park a vehicle in any such designated space. (c) Where signs prohibiting parking are installed, no operator shall park a vehicle in such designated space.

(d) Where zones and entrances are designated for standing or stopping of vehicles and the regulations are established by signs, then they shall be effective only during those periods when such buildings or property are operating. Where these zones or entrances are established streets, upon which the stand-ing of vehicles is prohibited during designated periods by one or more such general restriction signs installed in the same block, the privilege of using such zones or entrances is denied during those hours.

#### SECTION 46

(a) No operator shall park stand or stop a vehicle except when necessary to avoid conflict with law or other traffic or in compliance with the directions of a police officer or traffic control device, in any of the following places:

(1) On a sidewalk; (2) In front of a public or private driveway, or within five feet of a driveway with ourb cut of ten feet or less in width;

(3) Within an intersection;

(4) On a crosswalk; (5) Within 20 feet of a crosswalk, or if none, then within 15 feet of the intersection of property lines at an intersection of nighways;
(6) Within 30 feet upon the ap-

proach to any flashing beacon, stop sign, or traffic control signal located at the side of a high-

way;
(7) Within 50 feet of the near-

(10) Upon any bridge or other elevated structure upon a high-way or within a highway tunnel; (11) At any place where of-

ficial signs prohibit parking, standing, or stopping. (b) No person shall move a vehicle into any such prohibited area or away from a curb such

distance as is unlawful. (c) No person shall park his vehicle on the public market grounds during market hours except while he is transacting leg-itimate market business on said markets.

(d) No person shall park, stand or stop a vehicle on the foot walks, bridle paths, sidewalks, grass plots, dividing areas of divided highways or planted places of any park or boulevard, nor shall any person park a vehicle shall any person park a vehicle adjacent to a dividing area with-in a street or boulevard, except in such areas as may be designated by official signs for the parking of automobiles, nor shall any bicycle, motorcycle or automobile be driven over any park-

#### SECTION 48

No operator shall park a vehi-cle within 15 feet of a fire hydrant; within 20 feet of the driveway entrance to any fire station, and, on the side of a street opposite the entrance to any fire station, within 75 feet of said entrance (when properly signpost-

#### SECTION 49

Unless otherwise ordered by signs, vehicles shall stop, stand, or be parked parallel to the curb, and shall be so placed that the right side of the vehicle shall be adjacent to the curb, and neither right wheel shall be more than twelve (12") inches from the curb; except that on one way streets the left side of the venicle when parked at left curb shall be adjacent to the curb and neither left wheel shall be more than twelve (12") inches from the curb.

#### SECTION 50

Authority to impound vehicles and to collect fees therefor shall be exercised as follows:

(a) Members of the police department are hereby authorized to remove a vehicle from a high-way to the nearest garage or other place of detention or to a garage designated or maintained by this Township under the circumstances hereinafter enumerated,

(1) When any vehicle is left unattended upon any bridge, vi-aduct, or causeway, where such vehicle constitutes an obstruction to traffic.

(2) When a vehicle upon a nighway is so disabled as to constitute an obstruction to traffic and the person or persons in charge of the vehicle are by reason of physical injury incapacitated to such an extent as to be tations as to size of vehicles unable to provide for its custody or removal.

3. When any vehicle is left unattended upon a highway and is parked illegally so as to consti-tute a definite hazard to traffic or so as to obstruct the normal movement of traffic.

4. When any vehicle is allowed to stand continuously upon any highway for a period in excess

of forty-eight hours.
(b) Whenever an officer re-(b) moves a vehicle from a highway under this section and does not know and is not able to ascertain the names of the owner, or for any other reason is unable to give the notice to the owner as hereinbefore provided, and in the event the vehicle is not claimed by the owner within a period of three (3) days, then and in that event the officer shall immediately send or cause to be sent written report of such removal by mail to the Secretary of State whose duty it is to register motor vehicles, and shall file a copy of such notice with the proprietor of any public garage in which the vehicle may be stored. Such notice shall include a complete description of the vehicle, the date, time and place from which removed, the reasons for such removal and name of the garage or place where the vehicle is stored.

(d) Whenever an officer removes a vehicle from a highway under this section, a fee of five (\$5.00) dollars shall be charged for the moving of the vehicle as provided in this section. In addition to the above fee there shall be collected the sum of two (2) dollars for each twenty-four hours of part thereof that the vehicle remains in the Town-

#### ship's custody. SECTION 51

#### SECTION 52

No person shall stand or park on a highway a motor vehicle upon which or near which any sign, wording, or legend is printed or attached indicating that that or any other motor vehicle is offered for sale.

#### SECTION 53

No person shall move a vehi-cle not owned by such person into any such prohibited area or away from a curb such distance as is unlawful.

(a) When practicable, merchandise and freight shall be discharged and loaded from the side of the vehicle nearest the curb. When such handling is impracticable because of the size or weight of the packages or merchandise or freight, the vehicle may back to the curb, but it shall not stand at an angle which will obstruct the opera-tion of other vehicles.

or pedestrian trails in any park or parkway, except at such places where vehicular roadways are established.

SECTION 47

No person shall stand or park a vehicle other than a bus in a bus stop, or other than a taxicab in a taxicab stand, or other than a sight-seeing car in a stand designated for the use of such cars, or other than a motor in any loading zone, during the dischering near a stand acommercial vehicle for any purpose of receiving or unloading of passengers, nor assumed than for the reasonable time to load or unloading the dischering near any school bus proceeding in the same direction, which bus has stopped for the purpose of receiving or all dischering near any and the coupling and at the extreme outer edge of the coupling and at the extreme outer edge of the coupling and at the extreme outer edge of the vehicle and each such chain or device and connection so used shall be of sufficient strength to haul the trailer when loaded.

SECTION 61

The driver of a vehicle shall not overtake and pass any school bus proceeding in the same direction, which bus has stopped for the purpose of receiving or all the extreme outer edge of the coupling and at the extreme outer edge of the vehicle and each such chain or device and connection so used shall be of sufficient strength to haul the trailer when loaded.

SECTION 61

The driver of a vehicle shall not overtake and pass any school bus proceeding in the same direction, which bus has stopped for the purpose of receiving or all the extreme outer edge of the contraction of the extreme outer edge of the tons of a police officer or traftice on the extreme outer edge of the vehicle and the extreme outer edge of the tons of a police officer or traftice on the extreme outer at the ECTION 47

No person shall stand or park a vehicle other than a taxic cab in a taxicab stand, or other than a faxic cab in a taxicab stand, or other than for the expeditious possible time to load or unloading of passengers, nor at the stand accommercial vehicle for any purpose other than for the expeditious possible time to load or unloading of passengers, nor at the stand accommercial vehicle for the unsuppose of the thing in a stand designated for the use of such vehicle for thire in a stand designated for the use of such vehicle for thire in a stand designated for the use of such vehicle in a loading zone, during the loading zone are in plicable to loading zones are in the provisions are in the above qualifications and the above qualifications are into the above qualification and the above qualification and the wring in any building nor or into the provision and provision are in the provision and the provision are in the provision and the p

traffic is proceeding with the horses' heads at a right angle to the vehicle.

SECTION 55 In any proceeding for viola-tion of the parking provisions of this ordinance or any parking rule or regulation adopted pursuant to the provisions hereof the registration plate displayed on such motor vehicle shall stitute in evidence a prima facie presumption that the owner of such motor vehicle was the per-son who parked or placed such motor vehicle at the point where such violation occurred.

#### SECTION 56

The following types or regulations do not apply on Sunday and Legal Holidays, unless signs are installed and worded to in-olude Sundays and Legal Holi-

(1) Limited time, stopping, standing or parking restrictions which do not restrict stopping, standing, or parking during the full 24 hour day;
(2) Right and left turn prohibitions which do not reschibit

bitions which do not prohibit during the full 24 hour day;

#### SECTION 57

The displaying or operating of advertising devices or the dis-playing or demonstrating of merchandise in a manner which so affects the conduct of persons as to jeopardize or impede vehicular or pedestrian traffic upon the public highways, streets or sidewalks shall be deemed a misdemeanor and is hereby pro-| hibited.

#### SECTION 58

(a) No vehicle shall exceed a total outside width, including any load thereon, of 96 inches, except that the width of a farm tractor shall not exceed 9 and except further that the limit stated in this section shall not apply to implements of husbandry temporarily propelled or mov-ed upon the public highway.

(b) No vehicle unladen or (b) No vehicle unladen or with load shall exceed a height

of 12 feet 6 inches. (c) No vehicle including load shall exceed a total length of 35 feet and no combination of ve-hicles coupled together shall exceed a total length of 50 feet

over all. (d) No trail of vehicles or vehicle operated alone shall carry any load extending more than three feet beyond the front

(e) No motor vehicle, trailer, or semi-trailer whose frame or body extends more than 60 inches beyond the rear axle thereof and is more than 42 inches above the roadway shall be operated on the highways of this Town-ship unless equipped with a fenor bumper on the extreme rear of such frame or body. Such bumper shall extend downward from the rear of such frame or body to within 30 inches of the roadway and be of substantial construction.

(f) Any person desiring to move any vehicle of greater size than that permitted by this section shall make application to the Police Chief who may lay out a route and specify the time of day of travel.

#### SECTION 59

Whenever the load on any vehicle shall extend more than four feet beyond the rear of the bed or body thereof, there shall be displayed at the end of such load in such position as to be clearly visible at all times from the rear of such load, a red flag conflict therewith of the Township of not less than twelve inches both n length and width, except that between one-half hour after sunset and one-half hour before sunor parking would obstruct traffic;

(9) On the street side of any vehicle parking, standing, or stopping at the edge or curb of a street, unless signs permit;

(10) Upon any bridge or other

or parking would obstruct traffic.

No person shall stop, stand or park a vehicle on that portion of the highway located between the property lot lines and the curb, unless permitted by action of the conditions at least two hundred feet from the rear of such vehicle.

SECTION 60 (a) No passenger vehicle shall be driven upon any highway drawing or having attached thereto more than one vehicle or trailer.
(b) The draw bar or other con-

nection between any two vehi-cles one of which is towing or drawing the other on a highway, shall not exceed 15 feet in length from one vehicle to the other. Whenever such connection consists of a chain, rope, or cable, there shall be displayed upon such connection a red flag or other signal or cloth not less than 12 inches both in length and width. Every vehicle or trailer drawn by any motor propelled vehicle must be attached to such vehicle with such forms or coupling devices as will prevent such vehicle or trailer from being deflected more than six inches from the path of the towing vehicle's wheels. Such vehicle or trailer must also be connected vices and/or electric material conto the towing vehicle by suita-(b) Except when necesary to ble safety chains or devices, one authority to cause the turning off of avoid conflict with other traffic on each side of the coupling and all electric supply and cut or disconole safety chains or devices, one device and connection so used dangerous to life or property or may ship of Novi with shall be of sufficient strength to interfere with the work of the Fire cured a license.

owner, holder, occupant, lessee, agent or trustee of such property. Complaint for the violation of this section shall be made by the owner, holder, occupant, lessee, agent or trustee of such property.

SECTION 63

All fines, costs, and penalties imposed for violation of this Ordinance shall be payable to the Clerk of the Court. SECTION 64

This Ordinance and the various parts, sections and clauses are hereby declared to be severable. If any part, section, or clause is adjudged unconstitutional or invalid, it is hereby provided that the remainder of the Ordinance shall not be affected thereby fected thereby.

SECTION 65

This Ordinance shall be known and cited as the "Traffic Ordinance". SECTION 66 This Ordinance supercedes and repeals Ordinance No. 14 and all Ordinances or parts of Or-dinances in conflict herewith.

#### SECTION 67

This Ordinance shall become operative and effective thirty

COUNTY OF OAKLAND)

STATE OF MICHIGAN I, Earl Banks, Clerk of the Township of Novi, do hereby certify that the above ance was approved and adopted by the Novi Township Board at the regular meeting thereof held on the 20th day of February, A.D., 1956, and was ordered to be given publication in the man-

ner prescribed by law. Earl Banks, Clerk, by Charles Trickey, Jr. Acting

#### **ELECTRICAL** ORDINANCE No. 26 REVISED JAN. 20, 1956

Township of Novi, Michigan AN ORDINANCE for safe-gûarding life and property by regulating and providing for the inspection of the installation and maintenance of

electric wiring, electric devices and electric material; to provide for the licensing and registration of Electrical Contractors and the licensing of Journeymen electricians in the Township of Novi: to provide a reciprocal arrangement for the recognition of examinations and licenses issued by other municipalities in the State Michigan voluntarily co-operating in the enforcement of this ordinance; to provide a penalty for violations thereof and to repeal all other ordinances and sections of ordinances in

#### Novi, Michigan. SECTION 1

Electrical Inspection the end of any such load a red light plainly visible under normal atmospheric weather conditions at least two hundred feet from the rear of such vehicle.

A. The Electrical Board nerelinater called the Inspection Authority shall inspect devices, apparatus and equipment offered to the public for use in subject to review as hereinatter provided, over the inspection of all electrical installations, including changes, recommendations therefore to the public for use in installation to see that such items conform to the above requirements.

SECTION 9 repairs, and additions thereto within shall appoint an Electrical Inspector who shall inspect all electrical installations and report to the Inspec-tion Authority. This jurisdiction shall apply to the installation of wiring de-vices, apparatus and equipment for connection to electricity supply sys-tems having voltages over 30 volts, except as provided in Section 4.

#### SECTION 2

Fees for Inspection A. When an application is made for permit required under the terms of his ordinance, a fee shall be paid in an amount as prescribed by the Elec rical Board of the Township of Novi

#### **SECTION 3**

Right of Access to Buildings
A. The Electrical Inspector and/or his deputy shall have the right during reasonable hours to enter any build ing in the discharge of his official duties or for the purpose of making at the extreme outer edge of the nect, in cases of emergency, any wire vehicle and each such chain or where such electrical currents are

14—Wednesday, February 29, 1956—THE NORTHVILLE RECORD trance thereto from intersecting avoid conflict with other traffic operator shall turn the horses park (as defined in this Ordining of the implementations of the impact of a railway (d) traffic control device. and snap switches, replacing fuses,

#### SECTION 5 Inspection

or corporation for delivery to the owner a certificate of inspection authorizing connection to the electrical service and the turning on of the current. All wires which are to be hidden from view shall be inspected before concealment and any person, firm, or corporation installing such wires shall notify the Inspector giving sufficient examinations. Due notice shall be given applicants of the date of examinations. inspection before such wires are concealed.

#### SECTION 6 Re-Inspection

A. The -Electrical Inspector may make periodically a thorough re-in-spection of the installation in buildings of all electric wiring, electric where the electromotive force exceeds devices and electric material now installed or that may hereafter be installed, within the Township of Novi and when the installation of any such examination and obtained a license wiring devices; and for metallic in the stallation of the installation of any such examination and obtained a license operative and effective thirty (30) days after the first publication hereof; to-wit; On the 31st day of March, 1956.

Made, passed and adopted by the Township Board of the Made, passed and adopted by the Township Board of the Township of Novi, Michigan, this 20th day of February, A.D., 1956.

(Signed)

Frazer W. Staman, Supervisor Earl Banks, Clerk, by Charles Trickey, Jr.,

Acting order the discontinuance of electrical service to such wiring, devices, and/or material so found to be defectively installed until the installation of such wiring, devices and material has been made safe as directed by the Electrical Inspector.

#### SECTION 7 **Construction Requirements**

A. No certificate of inspection shall be issued unless the electrical installation is in strict conformity with the provisions of this ordinance, the statutes of the State of Michigan, the rules and regulations issued by the Michigan Public Utilities Commission under the authority of the State statutes, and unless they are in conformity with approved methods of construction for safety to persons and property. The regulations as laid down property. The regulations as laid down censee, together with the payment of in the National Electrical Code, as the required fee. After March 1st all approved by the American Standards licenses not renewed shall be con-Association and in the National Elec-sidered cancelled and may not be re-Association and in the National Electrical Safety Code, as approved by the American Standards Association, and in the Township of Novi rules and regulations established as hereinafter contractions of the township of Novi rules and regulations established as hereinafter cricians' licenses shall be issued by the provided (Section 10, par. D) shall be prima facie evidence of such approved

#### SECTION 8

Approved Materials A. It shall be unlawful to install or use any electrical device, apparatus, or equipment designed for attach ment to, or installation on any elec trical circuit or system for heat, light or power that is not of good design and construction and safe and adequate for its intended use. The Elec-trical Inspector shall have power to disapprove the use or installation of devices not fulfilling these requirements. Devices, apparatus and equip-ment approved by such generally recognized authorities as United States Bureau of Standards, Electrical Testing Laboratories of New York, or Underwriters Laboratories shall be held to have the approval of the Elec-trical Inspector unless explicitly disapproved by said authority for rea-sons of faulty design and poor con-

struction involving danger to persons and/or property. B. It shall be the duty of the Elec-A. The Electrical Board hereinafter trical Inspector from time to time to

SECTION 9 Record and Review A. The Inspector shall keep com-

installation, the owner may within five days after receiving written notice from the Electrical Inspector, file a petition in writing for review of said action of the Electrical Inspector with the Board of Examiners, upon with the Board of Examiners, upon the propose of the p receipt of which the said Board of Examiners shall at once proceed to determine whether said electrical installation complies with this ordinance. and within three days shall make a decision in accordance with its find-

#### SECTION 10 License for Electrical Work A. It shall be unlawful for any

ing in the discharge of his official duties or for the purpose of making any inspection or test of the installation and installation of electric wiring, electric devices and/or electric material contained wherein and shall have the authority to cause the turning off of authority to cause the turning off of all electric supply and cut or discontained wherein supplying and cut or discontained wherein supplying and cut or discontained for any proval by the Examining Board and the payment of the paym the electromotive force exceeds 30 volts in or about buildings and/or structures located within the Township of Novi without first having pro- installation of electrical wiring and

ination.

B. It shall be unlawful for any person to engage in the occupation or trade of Journeyman electrician in the installation, alteration, maintenance or repair of electrical wiring equipment, apparatus or fixtures for light, heat, power or medical purposes where the electromotive force exceeds

shall determine, and such other practical tests in examination at the dis-cretion of the Examining Board. Stenographic notes shall be taken of all oral examinations.

Minimum qualifications for examination for Journeyman electricians shall be four years of practical experience. Time spent in trade school attendance shall be credited as apprentice experience. Four years in technical school and one year practical experi-ence shall also qualify for examina-

tion.
C. The fee for an Electrical Contractors license shall be \$25.00 per year. The fee for a Journeyman Electrician's license shall be \$1.00 per year. Licenses shall expire on December 31st of each year, and shall be renewed upon application by the li-Inspector upon recommendation of the Examining Board. Licenses issued under this ordinance shall be nontransferable and shall be displayed when requested. Electrical Contractors' licenses under the terms of this ordinance shall not secure permits for work to be done by any person not employed by said electrical contractor, and license may be revoked for viola-

tion of this rule. No license shall be recognized by

the Inspector unless such licenses are issued by a cooperating Municipality having an Examining Board.

The Inspector shall permit Electrical Contractors lawfully licensed by other municipalities of the State of Michigan to install alter corrections. Michigan to install, alter or repair electrical wiring, equipment, apparatus or fixtures for light, heat or power purposes within the corporate limits of the Township of Novi, upon payment of a One Dollar registration fee, provided that such municipalities re-ciprocate in recognizing Electrical Contractors who are duly licensed under the provisions of this ordinance by granting them the same privilege and charging the same uniform license and registration fees. Provided further, that the licensing ordinances are substantially equal to the requirements of this ordinance. Journeyman electricians duly licensed by any munici-pality cooperating in the reciprocal arrangement shall be permitted to work in the Township of Novi withplete records of all permits issued and inspections made and other official work performed under the provisions of this ordinance.

B. When the Electrical Inspector condemns all or part of any electrical pality, shall register with the Electrical Inspector.

cal Inspector.

No Electrical Contractors' licenses ity which fails to approve, by affirma-tive action of its Legislative Body,

tive action of its Legislative Body, the reciprocal and mutually interchangeable licensing arrangements covered by this ordinance.

Corporations applying for Electrical Contractors' licenses, whose principal place of business is not in the State of Michigan, may obtain such license from the Inspector upon approval by the Examining Board and the payment of the prescribed for equipment. Such bond shall be a sure ty bond from a recognized and ap-proved Surety Company authorized to transact business in the State of

Any Electrical Contractor's or Journeyman electrician's license may, after plying a hearing, be suspended or revoked by the Examining Board having is-A. No alterations or additions shall have passed a suitable examinable made in the existing wiring of any building be wired for the placing of any electric lights, motors, heating devices, or any apparatus requiring the use of electrical current at a potential over 30 ence or may have one or more men volts, nor shall any alterations be made in the wiring in any building after inspection, without first positive.

Any Electrical Contractor's or Journeyman electrician's license may, after a hearing, be suspended or revoked by the Examining Board having is sucd such license upon evidence presented that false statements have been made in the wiring in any building after inspection, without first positive.

Any Electrical Contractor's or Journeyman electrician's license may, after a hearing, be suspended or revoked by the Examining Board having is such such size of the placing of the proposition of son, firm, or corporation holding such license wilfully or by reason of incompetence repeatedly violates any rules and regulations relating to the inspection regulations relating to

stallations shall not exceed 5,000 gallons for any one premise.

(D) Underground tanks shall not located within two (2) feet of a private property line or a basement or pit lower than the top of such tanks, unless such tanks are completely encased in six (6) inches of concrete of a one, three and five mixture.

(E) Underground tanks shall be set on a firm foundation, supported so that bearing stresses are uniformly distributed and surrounded with clean sand, well tamped into place. Where necessary to prevent floating, they shall be securely anchored weighted.

(F) Measuring devices on tanks be neath buildings and previously described encased tanks shall be of an approved wail gauge type. Gauge stick openings located inside any

building expressly prohibited.
(G) Tanks underground and vault ed tanks shall be provided with a clean-out connection, which shall be not less than 34 inch pipe, extending within 1½ inches from the bottom of the tank to outside the building. This connection shall be properly capped.

Section 4.22. Gravity feed shall be used only with burners arranged to prevent abnormal discharge of oil at e burner by automatic means spe cifically approved for the burner with (A) Gravity flow of fuel oil from

to burner is permitted when each tank does not exceed 275 gallon capacity. Tanks of larger capacity where permitted, shall discharge oil suction through top of tank Section 4.23. Storage and auxiliary

tanks shall be securely supported by substantial incombustible supports to prevent settling or sliding. Section 4.24. Where a pump is in

stalled between the storage tank and an auxiliary tank, means shall be provided so as to return any surplus oi to the storage tank or other approved means shall be provided to preven overflow of the auxiliary tank.

Section 4.25. Fuel oil drums as hereinbefore defined shall be of metal

of not less than 18 gauge and shall be equipped with a suitable hand pump or approved self-closing faucet. Said fuel oil drums may be stored in any garage, or building on the ground floor only. Fuel oil storage for use with oil-burning space heaters shall be limited to two 55 gallon drums inside of any building, or not more than one 275 gallon tank outside of any building, where properly vented and provided with a hand pump. The use of faucets on drums or tanks stored inside of buildings is prohibited.

Section 4.26. The metal used in all

tanks shall be of a minimum gauge U. S. Standard, depending upon the capacity or size as given in the following table: Capacity Thickness of

Material 1- 285 Gallons 286- 560 Gallons 14 Gauge 12 Gauge 10 Gauge Gauge 1.101- 4.000 Gallons 1/4 Inch 12.001-20.000 Gallons 5/16 Inch

All such tanks shall be welded or riveted, and shall be heavily coated outside with asphaltum or other rustresisting material. All tanks and underground piping attached thereto shall be tested for leakage and shall be tight at five (5) pounds air pressure. All tanks having a capacity in excess of 275 gallons and all tanks for underground installation shall bear the Underwriter's label.

Section 4.27. For fuel oil heavier than 35° A.P.I., tanks may be made of concrete, in accordance with the standards of the National Board of Fire Underwriters for the construction of concrete fuel oil storage tanks as recommended by the National Fire Protection Association, with special of the Inspector.

Section 4.28. Fuel Oil return lines shall be provided with a check valve where the return line extends below the top of the tank,

Section 4.29. Preheating of oil, where necessary, shall be done by steam, hot water, or approved electric heaters. Heaters shall be substantially constructed with all joints made of tight. Thermometers shall be installed at suitable locations to indicate the temperature of the heated oil. Heaters shall be by-passed or provided with suitable means to prevent ab-normal pressure. Positive means must be provided to prevent introduction of oil or other liquid harmful to boiler operations into the boiler.

Section 4.30. Oil burners shall be

securely installed in a workmanlike manner, in accordance with the instructions of the manufacturer, by qualified mechanics experienced in making such installations.

Section 4.31. Where oil burners

are installed in furnaces originally designed for solid fuel, the ash door of the furnace shall be removed or bottom ventilation otherwise provided to prevent the accumulation of vapors in the ash pit, unless the burner is of a type which mechanically purges the

Section 4.32. Boilers and furnaces in which oil burners are installed shall

be connected to flues having sufficient draft at all times to assure safe operation of the burner. Smoke pipe dampers, if any, shall be removed or locked in the desired position. All check drafts must be closed at all times.

Section 4.33. Contractors installing

industrial oil burner systems shall furnish diagrams showing the main oil lines and controlling valves, one of which shall be posted near the oil burner equipment and another at some point which will be accessible in the case of fire at the burners.

Section 4.34. Immediately upon the installation of the tanks and concealed piping of an oil burner instal-lation, the installer thereof shall notify the inspector that said tanks and piping are ready for inspection, by registering the number of the permit and the location of the work in the inspection register book kept for that purpose in the office of the Inspector, and it shall be unlawful for any person to cover up any such tanks or piping until the same shall have been inspected and approved by said In-

such tanks may be allowed to remain. provided that all fuel oil is removed from the tank, the gravity draw-off is securely capped or plugged at the tank, the fill pipe is plugged or capped inside the building, with the section extending outside the building re
(A) When a gas burner is removed from an outlet, the outlet shall be as to prevent carbon deposits.

A separate manual main shut-off valve shall be provided ahead of all controls and a union connection shall be equipped with approved high temperature from this state.

moved, and the vent pipe is not altered. Abandoned outside fuel oil tanks shall be completely filled with water

ARTICLE V Space Heater Controls

Section 5.1. All fuel oil burners subject to automatic ignition, shall be provided with a permanent approved automatic device so designed that oil, upon entering the combustion chamshall be immediately ignited or the oil supply shall be immediately

Section 5.2. Gravity fed heaters and hot water heaters shall be provided with a constant level safety float valve or other approved device to prevent flooding of burner due to gnition failure or any other cause. Section 5.3. All fuel oil burners used with warm air, hot water, or steam heating systems shall be pro-

vided with an approved warm-air limit control, bot water limit control, or pressure limit control, and low

warm air space heaters.
Section 5.4. Room Thermostats when required shall be of approved

Section 5.5. Electrically operated controls shall be so designated that failure of electric current will cause burner to be shut off, in case of pot type burners will place burners on v-flame operation.

#### ARTICLE VI Gas Burner Installations

Section 6.1. The construction, arrangement and manner of installation of all gas burners and gas burner equipment hereafter installed for use in connection with heating systems, and the alteration and repair hereafter of all gas burners and gas burner equipment used or to be used in con-

Ordinance this ordinance, a list of gas-fired burners and equipment shall be maintained by the Inspector, which, through the rangement, reliability of automatic features, positiveness of ignition and possibility of explosion have been from the American Gas Association, or other nationally recognized laboratory, to be acceptable under the provisions of this Ordinance.

Section 6.3. It shall be unlawful for any person, licensed to install, alter, repair or replace gas burners within the Township of Novi, to install any used gas burner or for the Inspector to issue any permit authoriz- the combustion of the gas. ing him to do so, until said licensee shall have first submitted with his or depending upon an electrical curapplication for such permit a copy of rent-shall be used if of such character the purchase order describing the that failure of the electrical current used burner that is to be installed and a statement by the purchaser acknowldging that to be the case, together said burner has been properly recon-ditioned and will comply in every

ARTICLE VII

standards and adjustments.

Gas Piping, Valves and Fittings defects shall be used in conveying gas inside of buildings. Approved sealless drawn well annealed copper, brass or other approved non-ferrous tubing with approved fittings may be used for permanent connections to stationary gas burners, but no soldered joints shall be used. All fittings for wrought be in accordance with the American on connections.

Pipe Thread Standard. (A) Where necessary, due to corrosive conditions, piping shall be suitably coated.

(B) Defects in pipe or fittings having been located, the defective pipe or fittings shall be removed and replaced with perfect material.

(A) On conversion burner installater on metal lath of the conversion burner installater or metal lath or metal lath of the conversion burner installater or metal lath or metal (C) No second hand pipe or fittings

shall be used. Section 7.2. Piping shall be installed so that it is subject to no unnecessary strain and shall be securely

and rigidly fastened.
Section 7.3. When in running pipe sion of the Inspector.
Section 7.4. All horizontal piping

shall be graded not less than 1/4 inch to 15 feet to prevent traps and shall drain to the risers and from the risers o the meter unless the framing of the structures prevents such. (However this does not permit Violation of Sec Section 7.5. A drip, in which liquid

condensate may collect and be re-moved shall be provided at any point n the line of pipe where condensate

(A) Drips shall not be located

grees Fahrenheit.
(B) Drips shall be installed only in such locations that the outlet of the above normal room temperatures.

drip will be readily accessible for emptying and cleaning.

(C) The size of any drip shall be determined by the capacity and exposure of the piping which drains to it.

Section 7.6. The lower end of a vertical supply line if socretain the little state. vertical supply line, if accessible, shall

removing stoppages.
Section 7.7. All branches shall be taken from the top or side of horizonal piping.

Section 7.8. The installation of piping in relation to electric wiring shall be in accordance with the Electrical Code of the Township of Novi. Section 7.9. Each outlet shall be securely closed gas tight with a threaded iron plug or cap immediately after installation and shall be Section 4.35. Abandoned fuel oil left so closed until an appliance is tanks shall be removed; except that contact with combustible floors in outlet be closed with lead caps or

lead plugs.

(A) When a gas burner is removed

direct from the meter, to furnish adequate supply to the burners without excessive pressure drop.

Section 7.11. Gas piping may be concealed in walls, ceilings of floors only after an inspection and approval by the Inspector (before gas is turned the floor furnace. The duct or grille

(A) All gas piping which is to be oncealed for more than one foot of its length shall be tested in the prescense of an inspector with a five-pound air pressure, and joints and seams shall be checked with soap and vater. Piping shall hold this fivepound pressure without dropping pressure for 15 minutes.

(B) No gas piping shall be installed in chimneys, flue, ventilating shafts or ducts and elevator shafts.

(C) Unions, running threads, right and left couplings, bushings and swing joints made of a combination of fittings shall not be concealed.

(D) Piping in solid floors such as concrete shall be laid in channels in the floor, suitably covered to permi water cut off, respectively to auto-matically shut off the burner when safe limits of temperature and/or contact with earth or other material pressure are exceeded; except that this which may corrode shall be protected equirement shall not be required for against corrosion in an approved manner. Piping shall not be laid in cinders

Section 7.12. Only ground join unions or other approved fittings shall be used in gas piping. Section 7.13. Valves and cocks used

in connection with gas piping shall be of types approved for such use. (A) Valves and cocks shall be of such design as to clearly indicate the "on" and "off" positions or direction of rotation to "open" and "close".

(B) Valves shall be constructed so that the stems cannot be withdrawn by continuous operation of the hand

ARTICLE VIII

Gas-Fired Space Heating Equipment Section 8.1. Gas burners and devices, attachments or accessories to nection with heating systems, shall gas burners, which can in any way conform to the provisions of this effect combustion or safety, shall not be installed until they have been in Section 6.2. With the enactment of spected, tested and approved by the

Inspector (A) This inspection and test shall cover arrangement of parts, suitability arrangement of parts, suitability of of materials, strength of parts, electrical control, thermostatic arrangement of parts, electric cal control, thermostatic arrangement of parts, electric cal control, thermostatic arrangement of parts, electric or other controls, thermostatic ar- ment, reliability of automatic features and positiveness of ignition. (B) Any combination of gas burn-

ers, attachments or devices used to found by test or acceptable proof gether in any manner shall meet the requirements which apply to individual pieces of equipment. (C) All gas burners, devices, at-ichments and accessories, covered by this section, shall bear the manufac

turer's identification marking. Section 8.2. No devices or attachment shall be installed on any gas burner which may in any way impair

of gas under conditions which w with a statement by said licensee that normally result in its reduction unless other means are provided to prevent the development of dangerous temway with code requirements for new peratures, pressures or the escape of equipment as to operation, safety gas. Only approved devices and controls may be used.

(A) Electrically operated safety devices shall not depend upon the closing of a circuit to shut off the main Section 7.1. Standard full weight gas supply. (This requirement shall wrought iron or steel pipe free from not be construed as prohibiting the use of electrical regulating devices, provided the required safety devices

are also installed). (B) All electrical work and equipment of the system shall be in accord ance with the requirements of the Electrical Code of the Township of

Novi, Michigan. iron or steel pipe (except stop-cocks or valves) shall be of best quality rigidly installed and so connected to malleable iron or steel. Threads shall the piping as not to exert undue strain

> Section 8.5. No gas burner shall be installed in a room in which the facilities for ventilation do not permi the proper combustion of gas. Section 8.6. The gas cock or shut-

tions, the gas supply cock shall be located approximately five (5) feet above the floor and approximately two (2) feet to the rear of the face of

the furnace where practicable.

Section 8.7. When air or oxygen under pressure is used in connection it is necessary to cross wood joints with any gas supply, effective means or beams, the joists or beams shall not shall be provided to prevent the air be notched, except by special permis- or oxygen from going back into the gas piping.
(A) Power burners (gas-air mixture

furnished by a power blower) shall be equipped with an air interlock control hat will shut off the gas supply to the burner in the event of failure of the air supply to the burner (controls actuated by failure of power supply to the blower motor do not meet this requirement.)
Section 8.8. All gas burners shall

be located so that they will be readily accessible for operation, repair and adjustment and for maximum safety. (A) Gas burners shall be installed where the condensate will be subjected to temperature below 32 denot raise the temperature of surroundnot raise the temperature of surrounding combustible materials or construction more than 90 degrees Fahrenheit

(B) Equipment with closed bases, in which no provision is made for the circulation of air below the burner boxes or combustion chambers shall be properly insulated from combusti-ble floors.

(C) The minimum clearance of gas vertical supply line, it accessione, shall be equipped with a tee (or cross) fired heating units from compositions and materials shall be as set forth in Table No. 4, except, in the composition of the co the case of equipment especially designed for burning gas and tested and listed for lesser clearances by a na-tionally recognized testing laboratory

(1) The clearance to combustible construction may be reduced a specified in Table No. 2, when the combustible construction i protected in accordance with

Section 8.9. Gas-fired floor furnaces shall be specifically approved which they may be installed.

(A) MANUAL MAIN SHUT-OFF

VALVE

(B) COMBUSTION AIR
Fixed ventilation by means of a
duct or grille arranged to supply air

from a permanently ventilated attic or underfloor space, shall be provided to any confined space which encloses shall be screened and have a free area at least twice the free area of the vent collar of the floor furnace or one (1) square inch per 1,000 BTU per hour of gas input, whichever is the greater, and shall be installed in such a manner as to insure proper combustion. (C) PLACEMENT

The following are requirements that will serve in properly placing the furnace or furnaces to serve one story (1) No floor furnace shall be in stalled in the floor of any aisle or passageway of any auditor-ium, public hall, or place of assemble, or in an exit-way from any such room or space.

(2) Walls and Corners-With the exception of wall-register models, a floor furnace shall not be placed closer than six (6) inches to the nearest wall, and wall register models shall not be placed closer than six (6) inches to a corner. (3) Draperies — The furnace shall

be so placed that a door, drapery, or similar object cannot be nearer than twelve (12) inch es to any portion of the register of the furnace. (4) Central Location - Generally speaking, the more central the

location, the better, favoring

slightly the sides exposed to the

prevailing winter winds.
(D) BRACING The floor around the furnace shall braced and headed with a frame work of material not lighter than the

(E) SUPPORT Means shall be provided to suppor the furnace when the floor grille is

removed.
(F) CLEARANCE The lower portion of the floor fur nace shall have at least six (6) inch clearance from the general ground level, except that where the lower six (6) inch portion of the floor furnace is sealed by the manufacturer to prevent entrance of water, the clearance may be reduced to not less than two inches. When these clearances not present, the ground below and to the sides shall be excavated to form a "basin-like" pit under the furnace so that the required clearance is provid ed beneath the lowest portion of the furnace. A twelve (12) inch clearance shall be provided on all sides excen the control side, which shall have as eighteen (18) inch clearance.
(G) ACCESS

Provision shall be made for an access door to the floor furnace by means of an opening in the foundation wall of at least 18 by 24 inche and a trap door of at least 24 by 24 inches, located at some convenien point, and a clear and unobstructed passageway to the floor furnace of a least 18 inches high by 24 inches wide. (H) SEEPAGE PAN

Whenever the excavation exceeds twelve (12) inches or water seepage is likely, a pit made of concrete, water-proof, not less than 334 inches thick and extending four (4) inches above grade level shall be used. The pit shall be not less than 6 ft, by 6 ft inside dimension, with at least 21/2 foot clearance on the control side and clearance on all other sides not less than six (6) inches

(I) WIND PROTECTION Floor furnaces shall be protected, where necessary, against severe wind conditions

(J) UPPER FLOOR INSTALLATIONS

Listed gas floor furnaces may be installed in an upper floor provided the furnace assembly projects below into a utility room, closet, garage, or similar noninhabitable space. In such installations, the floor shall be enclosed completely (entirely separated from the nonhabitabl space) with means for air intake to the provision of 8.9 (B), access facilities for servicing on the control side, with minimum furnace clearance of six (6) inches to all sides with the enclosure constructed of portland cement plaster on metal lath or material of equal

fire resistance. Section 8.10. No gas-fired boilers furnaces or other devices for space heating a building or buildings shall be installed and no boiler or furnace designed for other fuels shall be converted to the use of gas unless the following regulations are complied

with. (A) Either an automatic safety pilot, so constructed and adjusted that no gas can flow through the main burner unless the pilot is burning, or some other approved type of safety device serving the same end shall be

employed.
(1) Pilot burners shall be supported in such manner that their position relative to the main burn

er or burners shall be fixed. (2) Pilot burners shall be so positioned as to be safely lighted and readily accessible for in-spection, cleaning or replacement.

(3) Automatic safety pilots of gas burners having an hourly input of less than 400,000 BTU shall be so adjusted that the main gas supply will be shut off within three (3) minutes after pilot flame has been extinguished. Gas burners having an hourly input of 400,000 BTU or more shall be provided with a flame rod or other approved instantaneous type safety pilot which will shut off the main gas supply within ten (10) sec-onds of pilot flame failure; except that gas designed sectional cast iron boilers will be accepted when provided with ap-proved type safety pilot, which shuts off the main gas supply within 75 seconds of pilot flame

failure.
(4) Pilot flames shall be so adjusted as to effectively ignite the gas in the main burner or burners, shall be adequately protected from drafts and shall not become extinguished when the main burner or burners are turned on or off in normal manner. (5) All pilots shall be so adjusted

mechanical air distribution. All hot water boilers shall be equipped with an approved high water temperature limiting device and the steam boilers shall be equipped with approved pres sure limiting devices and approved low-water cut-off. Limiting devices on water and steam boilers shall be igan, set so as not to exceed the limitation as specified by the regulations of the American Society of Engineers. These limiting devices shall be in addition to operating controls.

(C) An approved gas pressure reg ulator of sufficient size shall be in stalled in the gas line leading to the gas burner. An additional approved adjustable gas pressure regulator shall be installed in the gas pilot supply

(1) All gas pressure regulators or diaphragm control valves used with space heating equipment shall be vented to a constant burning pilot so that any gas leaking to the atmospheric side of the regulator or control valves will be carried to and ignited by the pilot or an approved venting device shall be used. (2) On burners where no constant

burning pilot is provided, the gas pressure regulator or diaphragm control valve shall be vented to the smoke pipe on the chimney side of the draft diverter or directly to the outside atmosphere. (D) An approved manual

shut-off valve shall be provided ahead ney, or with Type B vent piping used of all controls and a union connection in places of a chamney, where the shall be provided downstream from this valve to permit removal of the controls or equipment.

(1) A pilot gas supply line shall be

an approved main burner shutoff device through an approved fitting and shall be equipped a shut-off valve and an adjustable pilot gas pressure

regulator.
(2) Drilling and tapping the fuel line for the purpose of connecting a pilot gas supply line is prohibited. (E) All gas burners shall consist

ory assembled and tested units.

(1) Gas burner unifs shall be so installed or attached as to prevent twisting, sliding or drop ping out of the intended correc position. (2) Burners shall be so installed a to be readily accessible for in-spection and cleaning and no part of the flames shall imping so as to cause incomplete com

bustion. No baffles shall be applied which will interfere with proper combustion.

(3) Air shutters shall be adjusted to produce a good flame at the

prevailing gas pressure.

(4) Secondary air openings shall provide sufficient area to supan adequate amount of ai for complete combustion and if automatically controlled, the construction shall be such that in case the control fails in any way, either the gas will be shu off or the secondary air door will remain open.

The flames from constant burn ing pilots and burners shall freely ignite the gas from adja cent burners when operating a prevailing gas pressure and when the main control valve is regulated to deliver about onethird (1/3) the full gas rate.

through air openings in mixer faces when operating at prevailing pressures. (F) The combustion chamber and all of its passages shall be gas tight.
(G) The fuel door of a converted

appliance shall be arranged to relieve approved self-closing device.

(1) Every gas-fired boiler, furnace (NOTE: See detail A). or other space heating device shall be effectively vented to construction with at least two (2) inchthe outside atmosphere.

with the safe operation of the burner.

(I) Every gas-fired boiler, furnace upward inside the next higher section. or other non-portable space heating The annular space between the lining

device shall be connected to a flue. (1) In case of conversion burners. full size as the flue collar of less than one (1) square inch per 6,500 BTU hourly input. Where the outlet from the equipment is larger than the ing the insulated filled space.

weather cap or approved exhauster, and sealed at the bottom and fitted equivalent shall be placed in and made a part of the flue pipe from the equipment, or in the equipment itself. Such device shall be designed to (1) insure the ready escape of the products of combustion in the event of no draft, back draft or stoppage beyond the equipment and (3) neutralize the effect of stack action of the flue upon the operation of the burner and shall otherwise comply with the requirements hereinafter specified for such devices and their installation.

The draft hood or diverter shall be located at a point not lower than the top of the highest flue passage.

The draft hood or diverter shall be located at least one (1) foot higher than the top of the highest flue passage for equipment of the revertible (down fitting joints secured with at least two highest flue passage for equipment of the revertible (down fitting joints secured with at least two highest flue passage for equipment of the revertible (down fitting joints secured with at least two flue and of the revertible (down fitting joints secured with at least two flue and of the revertible (down fitting joints secured with at least two flue and of the revertible (down fitting joints secured with at least two flue passage for equipment of the revertible (down fitting joints secured with at least two flue passage for equipment of the revertible (down fitting joints secured with at least two flue passage for equipment of the revertible (down fitting joints secured with at least two flue passage for equipment of the revertible (down fitting joints secured with at least two flue passage for equipment of the revertible (down fitting joints secured with at least two flue passage for equipment in and fitted with a suitable condensate trap. gasses to the outside atmosphere. (A) Before making a vent connec ion the chimney or flue shall be constructed in accordance with the

Code of the Township of Novi, Mich-(B) Whenever the type of fuel for heating equipment is changed, the flue shall be cleaned from the base of the chimney to the point the vent enters the chimney, and the remainder of the flue shall be clear so as to properly conduct the products of combustion to the outside atmosphere Cleanouts or other approved devices shall be provided at the base of all chimneys to enable the flue to be

Section 8.12. Type A flues (lined chimneys of masonry or reinforced concrete or metal smoke stack) are required for (1) all space heating may be converted to the use of solid or liquid fuel: (2) all boilers and furnaces. The above provisions shall apply except where special approval is granted by the Inspector for the use of Type B vent

maintained clean.

Section 8.13. Chimneys or flues installed for use of gas-fired space heating equipment but which are not suitable for solid or liquid fuels must plainly and permanently marked "This flue is for the use of gas burn-ing appliance only." Such marking or label shall be placed at a point near where the vent pipe enters the chim-Type B vent piping enters a wall, floor or ceiling.

Section 8.14. Type B flues shall be A pilot gas supply line shall be used only with approved gas-fired installed on the supply side of equipment which is not required to be vented to Type A flues, and which produces flue gas temperatures not in excess of 550 degrees Fahrenheit at the outlet of the draft hood when burning gas at the maximum permissible manufacturer's input rating Type B flues shall be constructed

in accordance with one of the follow (1) A type B flue may be an Un

derwriter's Laboratory Inc. listed for gas appliances or an equivalent flue tested in a like manner by other nationally recognized testing laboratories. (2) A Type B flue may be double construction with at least one (1) inch clearance at all points

between the inner lining and the outer casing. The inner lining shall be made of standard iron or steel pipe with threaded joints; or transite pipe with cemented joints; or U.S. 20 gauge galvanized metal or U.C. 24 gauge copper with gas-tight joints, secured with at least two (2) metal screws in each joint. The inner lining shall be sealed at the bottom and fitted with a suitable condensate trap. The outer casing shall be made of iron, transite pipe, or of gal-vanized sheet metal not less than U.S. 24 gauge, or of sheet copper not less than U.S. 24 gauge. The required clearance between the lining and casing shalf he maintained by means of suitable permanent metal snacers which will not materially restrict the circulation of air.

flue so constructed shall extend least two (2) inches between the finished ceiling line and sufficiently high to provide adequate venting (at (6) Burners shall not expel gas least three (3) feet above the finished roof line) and shall be equipped with a suitable weather cap or an approved exhauster. The cross sectional area of the inner lining of such flues shall be at least twenty (20) square inches with no dimension less than five (5) inches other uses except with the specific apexcept where special approval is given pressure due to puffs or backfire by the Inspector. A minimum clear-caused by delayed ignition or other causes and shall be provided with an causes and shall be provided with an expression design design design. flue and any combustible material.

the outside atmosphere.

(H) Where dampers are an integral part of the equipment, they shall be removed or permanently secured in the wide open position except such dampers as may be used to alter the passage of flue gasses through the equipment, which will be locked in such a position as not to interfere the such as position as not to interfere the such as position as not to interfere the such as the construction with at least two (2) inchilated any of the equipment is not adversing the inner lining shall be made of galvanized sheet metal of not less than u.s. 24 gauge or of copper of not less than u.s. 24 gauge with tight fitting joints secured with at least two (2) metal screws in each joint. Joints in installed.

Section 8.24. The material used for burning shall be followed by the construction with at least two (2) inchilated. shall be connected to a flue.
