

Newcomer's Corner

"I look upon every day to be lost, in which I do not make a new acquaintance."

—Samuel Johnson

HER NAME IS "BUFFIE", and this golden cocker spaniel is the only member of the D. L. Butler family who is a little uneasy about being in a new home. The rest of the family (left to right) are Janis, Scott, Mr. and Mrs. Butler, tiny Debbie and Duane, who are convinced that Northville is a nice place to live.

Because they wanted to be "out in the country" — a reason many newcomers give for moving to this area — Mr. and Mrs. D. L. Butler and their four children packed up and left Detroit one day last July and moved into a brand new home in Northville Estates subdivision. Of course it wasn't quite that simple, but they're settled now and glad to be here, even if Mr. Butler has further to go to work. He's

assistant controller of the steel division at the Ford Motor company's Rouge plant.

He's also a lieutenant colonel in the army reserves — a position that is time consuming but one he enjoys so much he makes that work his hobby. He has also attended night school at Wayne State university for the past ten years.

A former Brownie leader, Mrs. Butler is interested in children's activities of all kinds. And she has four charges to help her hobby along — an athletic-minded son named Duane, who is 14 years old; Janis, who is 9; Scott, 6, and Debra Lee, 3.

The three oldest are eagerly looking forward to starting school in Northville this week.

Duane and Debra, incidentally, both celebrated their birthdays last Thursday.

There's also a cocker spaniel named "Buffie", who's made his home with the Butlers for 10½ years, and who's considered a part of the family.

Donald Bunge Married August 25 in Findlay, Ohio

An afternoon double-ring ceremony on August 25 united in marriage Patricia Joanne Hammond of Findlay, Ohio and Donald Robert Bunge of Northville.

Patricia is the daughter of Mr. and Mrs. Erple E. Hammond of Findlay.

Mr. Bunge's parents were the late Mr. and Mrs. Ralph G. Bunge of Farmington. Mrs. Ronald Bell of Northville is his sister.

Rites were read in the First Methodist church of Findlay, Reverend Donald W. Cryer officiating. Church decorations included palms, baskets of white gladioli and pastel shaded Fuji mums and 7-branch candelabra.

For her wedding, Miss Hammond chose a gown of white Alceon lace and tulle with a bateau neckline and lace sleeves extending to points on the wrists. The gown was fashioned with a chapel sweep train of lace panels and tulle.

Her shoulder length veil of imported silk illusion was held in place by a regal crown of tiny seed pearls.

Her bouquet was of gardenias surrounded by foliage and tufts of bridal illusion accented by white satin streamers.

Matron of honor was Mrs. John E. Benedict of Findlay, and Mrs.

Paul J. Bechill of Wyandotte and Mrs. Richard E. Eakin of Findlay, classmates of the bride, were the bridesmaids.

All three wore identical ballerina length gowns of cotton blue crystallette over taffeta, and headbands and pearl trimmed veils of matching blue. Each carried a basket of pastel mums and wore matching shoes, white gloves and pearl earrings.

Gerald Ditchfield of Detroit was best man for Mr. Bunge. Serving as ushers were Paul J. Bechill of Wyandotte, Richard E. Eakin of Findlay and Larry L. Hammond, brother of the bride.

For her daughter's wedding, Mrs. Hammond chose a navy blue cupini dress trimmed with a velvet sash. She wore a gardenia corsage and white accessories.

A reception and luncheon were

held at the American Legion hall in Findlay following the ceremony.

After a wedding trip to northern Michigan the couple will reside at 230½ East Hardin street, Findlay.

The new Mrs. Bunge is a graduate of Toledo hospital school of nursing and a member of Alpha Zeta sorority.

Mr. Bunge was graduated from Farmington high school and Findlay college.

BED ACROSS THE CORNER?

Never! To do this breaks up the floor plan and adds confusion to room's composition, and wastes space — both in the corner and at the head and foot of the bed. Besides a bed in this position is always a chore to make. Your bedroom will appear more charming and spacious if you . . .

STREAMLINE YOUR ARRANGEMENT

Like fitting the bed into corner (if room is extremely small) — or if twin beds are used, you might arrange them along against adjacent walls and complete arrangement with corner cabinet or table. Use top area for lamp, books, small radio. Such a plan leaves space for storage chests, dressers, desk or bookcases.

It is always our pleasure to have you come in and browse around — let us help you select pieces that are just right for your needs. Lovely decorator-type furnishings that will add to the charm of your home.

YOUR FRIENDS IN NOVI WILL HAVE

New Telephone Numbers

STARTING SUNDAY

Do you have friends living in the Novi area between Thirteen Mile, Nine and One-half Mile, Haggerty and Napier roads?

They'll have dial service . . . and new telephone numbers . . . starting Sunday, September 8. Each new number will consist of a NAME (Fieldbrook) and FIVE NUMERALS. For example:

FIELDBROOK 9-2605

This is the first of two improvements that will speed your calls throughout this area. Northville has grown tremendously and the need for telephone service has grown tremendously, too. In just 10 years, your local telephone system has almost tripled in size. It has outgrown the present building and the equipment that switches your calls between telephones.

So a new building is being put up to house equipment to bring dial service . . . the second improvement . . . to everybody in Northville next year. Meanwhile, the 600 Novi people will be served by a mobile unit with the latest type of dial equipment. This reduction in the load on the switchboard will speed your calls and improve overall service throughout this area.

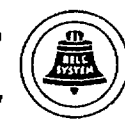

YOU'LL GET A NEW DIRECTORY which lists all new Novi numbers. It's a good idea to look up each new Novi number and keep it in front of you as you call . . . so your calls to Novi will go through promptly. Then just give your operator the NAME Fieldbrook and ALL FIVE NUMERALS.

1,500 Attend Fair at Hospital

DIXIELAND MUSIC and other swinging beats of Don Williams' clown band kept feet of visitors and patients alike moving in rhythm at the Patients' Fair, helping to provide a carefree carnival atmosphere. Nearly 2,000 patients who joined the fun heard the music from wherever they happened to be on the fairgrounds.

In 1953, officials at Northville state hospital took a careful look at the recreation program they had established for the hospital's 2,000 patients.

Though satisfied for the most part, one thing troubled them: many patients could not be allowed to attend recreational activities away from the hospital.

With this in mind, they organized the first Northville state hospital "patient" fair in the fall of that year.

Through it, patients were able to enjoy an "outing" right on the hospital grounds — even those who could not attend such activities as trips to the Michigan State Fair, swimming parties at Kensington park, Detroit Tiger games, or the Shrine Circus.

Last week the hospital saw its fifth consecutive fair come and go. As usual, upwards of 2,000 patients tried their skill and luck at some 18 booths, delved into soft drinks and home-made cake and watched the antics of Don Williams' clown band and strolling troubadours furnished by the Detroit Federation of Musicians.

To put the fair across successfully, the hospital depends to a great degree on the assistance of nearly 20 organizations. Many of them also help out during the rest of the year.

Among them are the Citizens Auxiliary Committee for Northville State Hospital, the Northville Psychiatric Association, Plymouth Birthdays Ladies, Plymouth Women's Club, Farmington Eight Mile Extension Group and the Berkley Women's Club.

Others are B'nai B'rith Council of Greater Detroit, Cherry Hill United Presbyterian Church, Gray Lady Service, Highland Park Women's Club, Ladies Auxiliary of the Jewish House of Shelter, Lutheran Bichor Cholem and Zeta Tau Alpha.

Mrs. Carolyn Seefeldt, director of social service, coordinated the fair. She was assisted by Miss Janet Patterson, director of occupational therapy; William Davis of the maintenance department; James L. Grisell, director of clinical psychology, and Mrs. Elizabeth Matzen, social worker.

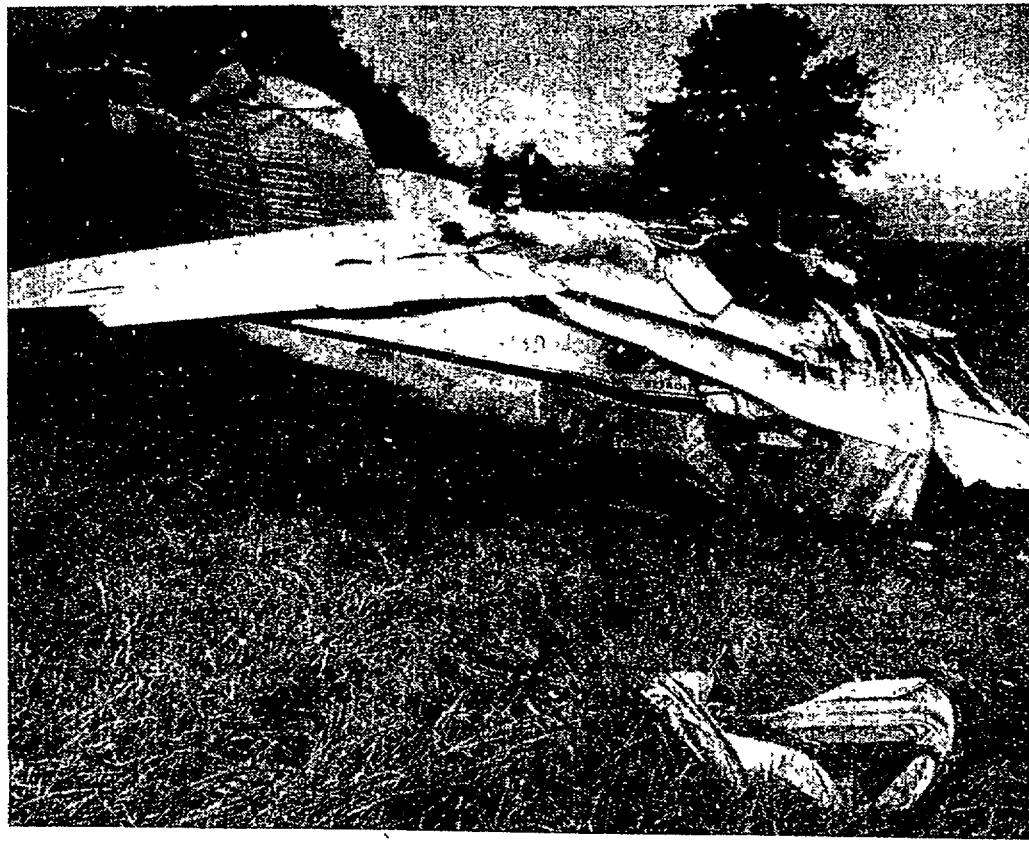

For the first time, a chaplain's booth was set up during the fair this year. There, Protestant, Catholic and Jewish chaplains worked together and distributed religious mementos to the patients.

For the bed-ridden, staffers of the food service department under A. A. Brewer saw to it that food and prizes were taken to all patients who could not attend the fair.

With another fair now history, Dr. Philip Brown, medical superintendent, looked back on it and noted that it had become an almost traditional event.

Furthermore, the doctor pointed out, the program is so highly regarded by officials of other institutions that they too are sponsoring similar activities for their patients. The latest to plan a patients fair is Ypsilanti State hospital.

Thus, from an idea born of necessity, a new development in the treatment of mental patients has grown.

DEATH IN KENSINGTON PARK — Before scores of onlookers in Kensington park last Saturday, this four-passenger plane suddenly dove into a sloping bank near Hickey Hill road and killed its two occupants — Wheaton Candler, 30, of Walled Lake, and his secretary, Sue Porter, 26, of Detroit. Police blamed the crash on foggy weather.

4 Drivers Fined On Various Counts

A Novi township man was given a \$35 fine and a thorough lecture on the advisability of auto insurance last week.

Donald P. Vincent, 23, 41770 West 10 Mile, appeared before Justice Robert Anderson last Thursday evening on charges of driving under the influence of alcohol and driving with defective brakes.

Witnesses testified that Vincent had driven up a driveway at a Willowbrook home and smashed into an expensive sports car, knocking it eight feet.

Anderson fined Vincent \$35, put him on six months probation, impounded his car, and ordered him to pay all costs for damages or face 60 days in jail.

Anderson also fined Donald Morrell, of Livonia, \$35 for excessive motor noise. Morrell pleaded not guilty but was found guilty. Anderson found him not guilty on a second charge of reckless driving.

In a third case before Anderson, Barnett Barlowe, 12760 Corbin, Detroit, was fined \$100 and put on six months probation after pleading guilty to a charge of reckless driving.

Parents Asked To Stress Safety

Chief of police Joseph Denton urges parents to instruct their children in safety rules for crossing streets.

He reminds them that children should cross with safety patrol boys if possible. They should also cross at corners, being sure to look both ways if there is no traffic light.

Where there are lights, they should be sure to wait until the signal is green.

Men and Women In Uniform

Basic Airman Brodye J. Humphries, 17, son of Mr. and Mrs. John R. Humphries, 792 York street, Plymouth, has been assigned to the 3275th Technical Training Group at Lackland Air Force Base, Texas, where he is currently undergoing phase two basic military training.

Humphries attended Northville high school. The new airman recently completed a four-week first phase basic training course at Lackland in which he qualified for advanced training.

While in his specialized training each airman also completes the Air Force's regular basic training program.

Army Pfc. Francis X. Sutter, son of Mr. and Mrs. Raymond F. Sutter, 41060 West 13 Mile road, Walled Lake, recently was graduated from the I Corps Non-Commissioned Officer Academy in Korea.

Sutter completed the academy's four-week course which trained him in leadership, map reading and other military subjects.

A telephone installer and repairman in Company B of the 7th Infantry Division's 127th Signal Battalion, Sutter entered the Army in April 1956 and received basic training at Fort Leonard Wood, Missouri. He was stationed at Camp Irwin, California before arriving in the Far East last May.

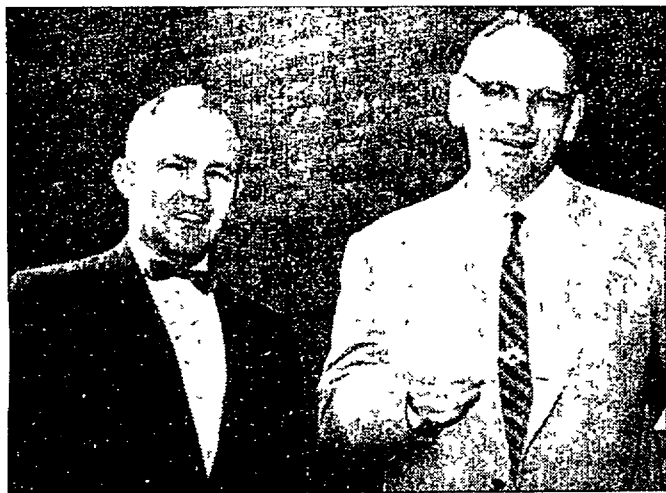

The 20-year-old soldier was graduated from the University of Detroit high school in 1954 and was employed by the Michigan Bell Telephone company, Farmington, before entering the Army.

Is Social Security Enough?

Security in old age has relieved many a mind from the worry of an income when they can no longer work. In former years only a few fortunate ones could look forward to retirement at age 65. Now through Social Security a vast majority of our people will be able to retire and live comfortably the rest of their lives. But is this enough? Does man live by bread alone? Is the care of our bodies all that matters? It would seem that this is true by the way most folks live. The Bible plainly tells us that we not only have bodies, we also have souls. The breath God breathed into man's nostrils put being a soul which shall never die. It lives but a short time encased in a human body here upon the earth and then takes flight to live eternally in heaven or hell. The redemption of that soul from the penalty of sin is the theme of the Gospel. Christ came from heavens glory, bled and died to make it possible for the soul to live eternally in heaven. The offer of ETERNAL SECURITY is given to us in the Gospel. It says, "Whosoever believeth in Him should not perish but have eternal life." Have you accepted His offer?

New Hours, Place For Social Security

Northville and Novi residents were advised this week of a change in time and place of the regular Social Security visit to Plymouth.

Beginning next Thursday, the Social Security representative will visit the Plymouth office of the Michigan Employment Security Office, 987 Lilley road, from 1 to 4 p.m. on the second and fourth Thursday of each month.

The representative will discontinue hours at the Plymouth post office, according to Harry Baltuck, manager of the Detroit-Northwest Social Security office.

Family Vacation DSR Bus Style

AT THE WHEEL — Donald Grieger sits at the driver's seat of his DSR bus. The converted travelling-home easily accommodates four and offers plenty of room for eating, sleeping, relaxing or just plain looking out the window at the scenery. Grieger bought the bus for \$400 and made it into a vacationing home on wheels for his family. The Griegers recently returned from a 3,300 mile vacation.

SHINY INTERIOR — Everything is spic and span in the Grieger's home-on-wheels. The walls are lined with richly colored panelling and above their heads are shown compact cupboards that hold an ample supply of canned foods. A complete kitchenette lines the opposite side of the bus, while in the rear is the bedroom.

When Mr. and Mrs. Donald Grieger and children, Ken and Judy, take a vacation, they never leave home.

That may be stretching it a bit, because the Griegers live in a home-on-wheels when they take a trip. And this summer their "home" travelled 3,300 miles on a three weeks' tour of the Dakotas and northern Michigan.

The Griegers live at 15926 Northville road, when they're not on the road. In motion their home is a DSR bus elaborately transformed into a complete living-kitchen-bedroom arrangement that comfortably accommodates the family.

The idea was Don Grieger's. In the daytime he's employed as a tool and die maker at Bathey's in Plymouth. But evenings, Saturdays and in any other spare minutes since September, 1954 Grieger has worked as a carpenter-mechanic. He bought his bus from the Detroit bus lines for \$400. It took another \$800 and countless hours of work to change the bus into a house-mobile.

All the walls and ceiling are covered with wood panelling. Every nook and corner is used for cupboards or built-in compartments. A refrigerator is built-in directly behind the driver's seat and along the same side is a sink, work table and lavatory. Along the other side of the bus are cushioned seats and a table and booth. In the rear two double beds are arranged in criss-cross style to sleep four easily. Grieger pointed out that one booth can be converted into another bed.

The woman's touch is very evident. Mrs. Grieger has all the foodstuffs conveniently arranged in overhead cupboards that completely circle the bus. Her stove operates on bottle gas and the refrigerator is electric.

Grieger even built a large paved car-port in which to house the bus. One side has a pit for mechanical work underneath. Grieger keeps another bus for a friend who became interested in the idea and, with Grieger's help, built a similar home-on-wheels.

The Griegers' trip this summer took them to the Badlands and the Black Hills. They'd travel days at an average speed of 45 miles per hour. According to Grieger, the bus averages 10.4 miles to the gallon.

While rolling merrily along through the west, the Griegers report seeing Northville merchant Roy Stone and his four boys in a passing car. From the Dakotas the Griegers journeyed to the Upper Peninsula returning through northern Michigan.

And after three weeks of thrilling sights and experiences when they stepped off the bus into their yard it was almost as though they hadn't been away. They took all the comforts of home-living right along with them.

HOME-ON-WHEELS — The Donald Griegers and children, Ken and Judy, make this DSR bus their home when on vacation. Grieger converted the bus into comfortable living quarters. He also built the car-port and cement apron shown above for housing the bus. A friend also leaves his bus (at left) at the Grieger's.

Next Time You See A Flying Saucer . . .

Star-gazers and sky-watchers in Northville and Novi were asked this week to report any flying saucers at once.

Anyone seeing such unidentified flying objects has been asked to write:

Aerial Phenomena Research Grp.
National Headquarters
5108 Findlay Street
Seattle, Washington

Robert J. Gribble, national director, said more than 3,000 reports have been checked out and that many unidentified objects are almost certainly "spacecraft from other planets."

Gribble called them "intelligently-controlled craft whose ports of origin are outside the earth's atmosphere."

Local Woman Gets UF Post

A Northville woman was named to a key Oakland county Torch Drive post this week.

Mrs. Paul Clark, 59220 Eight Mile, Northville, was named divisional chairman for Lyon township.

She and three other women were named divisional chairmen by Mrs. Palmer Bundy, Torch Drive residential chairman for Oakland county townships.

Others were: Mrs. E. F. Garland of Walled Lake, for Commerce township; Mrs. H. Boettcher, of Milford, for Milford, White Lake and Highland; Mrs. Clark of Northville, for Lyon township; and Mrs. James W. Tagg of Farmington, for Farmington township.

"This will be the first Torch Drive campaign in which the Oakland townships have participated," Mrs. Bundy pointed out. "We will need many more volunteers between now and the campaign, which is to be held October 15 through 25."

Saturday Last Day To Win Extra \$50

The close of the second vote period of the \$3,500 Subscription Contest at ten o'clock Saturday night will see an extra \$50 cash prize added to the winnings of the contestant turning in the largest amount of money for new and renewal subscriptions to The Northville Record or The Novi News or both.

When this period ends, \$30 clubs of subscriptions will yield 25,000 fewer votes. Individual subscriptions making up the clubs will also be worth from 1,000 to 10,000 fewer votes toward winning the new Ford and other prizes. Just one extra \$30 club finished Saturday instead of next week can easily mean the difference between winning and losing one of the big prizes.

Saturday Last Day To Win

The competition for the extra \$50 prize has not been as keen as was expected. Many of the contestants went out during the first vote period and built up a vote that would have guaranteed success. But they did not continue their efforts. They "let up" during this crucial period. Unless these same contestants get busy and do some real campaigning before the close of this vote period, their opportunity may be lost.

Win Half a Battle

The close of the second vote period will determine how many of the contestants will win half a victory, then throw their winnings away. To stop short of the goal, as some of the contestants seem to have done, reflects lack of initiative and self-confidence. It also means the loss of a prize which was half won and then left for some more ambitious contestant to finish winning.

Much can be accomplished in a short time by any contestant who will make up his or her mind to be a winner. The one who will hunt for subscriptions now instead of reasons for being unable to get any more can easily overcome all opposition.

The only difference between the contestant with the largest vote and the one with the lowest is just a matter of a few hours of real productive effort.

Any contestant who will buckle down to hard campaigning and make a special effort to get \$30 clubs of subscriptions — not just enough to stay in the race — can come to the front and be one of the big prize winners when the contest ends September 21.

Time for Action

The time has come for some real action on the part of contestants who want to be numbered among the honored prize winners. The prizes still are within reach of every contestant who will put forth as much effort as such prizes deserve. Those who just hang on, hoping that by some stroke of luck something will be won, can't hope for success.

Hard campaigning during the remaining days of this important vote period will win the extra \$50 prize. The votes earned will put that contestant in the winning list in the final vote count.

A check of the records of subscriptions secured since the contest started shows that there are plenty of prospective subscribers. Not one-third of the people who are regular subscribers to The Northville Record and The Novi News have given subscriptions. Only one-third of the prospective new subscribers in this area have given subscriptions. Many present subscribers will pay in advance to SAVE MONEY and help some real, determined contestant win. Most of the people who don't take one of the papers will subscribe to keep abreast of the local news.

The majority of contestants have seen their friends and relatives. Some have jumped from place to place, picking up subscriptions here and there and getting promises. But there are hundreds of people who have never been asked to subscribe. The contestant who will go out now and make a systematic campaign will find enough subscriptions to come to the front and win.

Help Workers Win

Under the contest plan, nearly everybody is a prospect for a subscription or an extension of his present subscription up to four years in advance.

If a contestant contacts anyone who has already given a subscription for one or two years, that subscriber can increase his time to four years by paying the difference between what was paid and \$10 for four years — the limit. Contestants taking these extended subscriptions will get the difference between the votes issued and the votes that the \$10 payment earned during the first vote period. This makes and keeps nearly everybody a prospect for subscriptions during the contest. It makes it possible for a real campaigner to get the winning votes while his competitors merely wish they could get them and do nothing about it.

In making this drive, the contestants will find the real builders and boosters of this area will be the most cooperative, and say it with subscriptions.

Promises won't help contestants win. The time it now takes for contestants to go back after promises is needed to hunt other subscriptions.

When you help contestants, you help yourself. You help this entire area. The more readers that these newspapers have, the better they can serve you and the people residing in the Northville and Novi communities. Think this over. Then get in touch with your favorite contestant and pay your subscription today.

Get Subscriptions Extended To 4 Years and Win

IF A SUBSCRIBER PAID any contestant \$3.00 for a one-year subscription during the First Vote Period, he can PAY \$7.00 MORE, make it 4 years for \$10.00, and the contestant taking the Second Payment will receive the difference between the votes issued and the 4 year first period vote, which is 90,000 VOTES.

IF A SUBSCRIBER PAID \$5.00 for a two-year subscription during the First Vote Period, he can PAY \$5.00 MORE, make it 4 years for \$10.00, and the contestant taking the second payment will get 60,000 VOTES.

IF A SUBSCRIBER PAID any contestant \$3.00 for a one-year subscription, he can PAY \$2.00 MORE, make it two years, and give contestant taking the second payment 30,000 VOTES.

Here's What 10 \$30 Clubs Earn In Votes Now

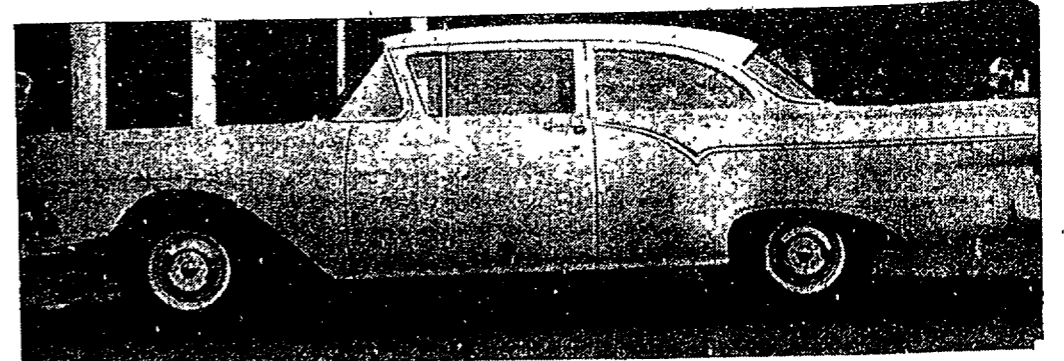

HERE IT IS — all figured out. Any combination of subscriptions totaling \$30 worth yields votes on the same basis. These are NOT EXTRA VOTES. This includes votes that individual subscriptions earn, 200,000 club votes, 50,000 on the club coupons and 25,000 for making subscription reports. This table is published so that contestants can set a goal for so many subscriptions and try to reach it this week — while the second period vote offer is in effect.

TEN \$30 CLUBS (\$300) in \$10.00 SUBSCRIPTION PAYMENTS YIELD	4,975,000 VOTES

Tourist Cash Slumps

RESORT EXPERTS are checking results of a summer season predicted to be disappointing at the cash register but which has been showing new signs of life.

At one time it was believed the dollar influx would drop from \$6 billion to \$5 billion.

Michigan's Tourist Council, fighting off the effects of a stable appropriation and increasing needs for advertising, has pinched its pennies and stretched its dollars.

Michigan in recent years has slipped from third to fourth in the rank of states as a tourist-attracting magnet. But its natural attractions are enjoyed by millions.

Tourists already are flocking to see the newly-completed Mackinac Straits Bridge.

Improved highways are attracting more, making speedier the trips to summer vacation meccas. The state's parks are jammed every week end.

Fall is here, and only the post-Labor Day work of compiling statistics and getting estimates from the experts is needed now to complete the story of 1957's summer resort season.

Most areas report an upsurge in the number of motel and lakeside resort accommodations. One reason for the increase, if one exists for this season, will be sheer population pressure.

"When there are more people, there are more of them vacationing," said one state official.

MICHIGAN HAS abandoned the idea of sending a lobbyist to Washington to snare federal defense contracts to help ease the state's unemployment crisis.

Gov. Williams sent a group to Washington to investigate the idea.

Lee M. Uhl, an official of the State Department of Economic Development, reported back that the federal government was under an economy wave, making the state lobbyist's office "unwise".

The group reported the state should have key people drop in occasionally at federal offices in Washington, rather than establish an office with a fulltime man in charge.

The visit, however, did obtain an agreement from the Army, Navy and Air Force to furnish the state with monthly lists of big government contracts, bringing them to the attention of state factories.

Uhl said there is much confusion about federal defense contracts.

Areas of unemployment look to such contracts as a cureall, when actually they provide only limited relief from unemployment, he indicated.

"We will take all advantages we can from the information we get from the Pentagon," said Gov. Williams.

Meanwhile, Williams' special commission continues its quest for details on unemployment in Michigan.

DANGEROUS ROOT ROT brought into Michigan from Prince Edward Island last May, will be under control on five infested areas in Bay County by mid-September.

Infestation in Michigan was in a shipment of seed potatoes destined for Bay county.

Favorable Weather Boosts Farm Income

Babson Park, Mass. — Except in a few more or less restricted areas, weather and crop conditions have improved materially in recent weeks. The outlook now is for a total U.S. crop production close to the relatively high average of the last five years. Here are a few highlights in the over-all picture, as I see them.

Wheat and Some Other Grains
 I look for a 1957 U.S. total wheat crop of around 915,000,000 bushels—down 8 percent from the 1956 output and nearly 20 percent under the 1946-1955 average. This is still a relatively large crop, since in seven of those years production topped one billion bushels by sizable margins. The current crop comes on the heels of a total U.S. carryover on July 1 of 905,000,000 bushels — practically enough for a whole season's normal requirements. Most of this wheat, however, is in government hands and will not glut commercial channels. I do not believe the current crop will prove burdensome.

Mother Nature has been kind to several of the other grains. Outturns of barley, flaxseed, oats and rye may exceed the 1945-1956 average — barely by 48 percent, flaxseed by 7 percent, oats by 3 percent and rye by 20 percent. Total supplies of these grains for 1957-1958 will lean toward the easy side. American housewives should have plenty of new, clean-sweeping brooms this year because the indicated crop of broomcorn is well above average. However, popcorn

devotees may have to curb their appetites for this item; planted acreage is 14 percent below average.

Corn, Dry Beans and Rice
 The outlook for the nation's corn crop is relatively good, but the outturn, which is estimated at around 3,066,000,000 bushels, may be about 10 percent under last year and slightly below average. Weather between now and harvest time must, of course, be reckoned with. Supplies will be easily adequate for the 1957-1958 season, since total corn stocks recently were at an all-time high for the date, at 1,963,000,000 bushels. If the hog-corn feed ratio remains as favorable as it is now—16.7 to 1 — a lot of corn will be fed this fall and winter. Meanwhile, old-crop corn prices may average somewhat higher, but I forecast some seasonal weakness in new-crop corn this fall.

The outlook for dry bean production is less favorable than a year ago. The crop, which is harvested in the fall, may be around only 16,300,000 bags — down 5 percent from the 1956 outturn and 2 percent under the ten-year average. Since the carryover will be relatively small, total supplies for 1957-1958 should not be excessive. The indicated U.S. rice crop of 40,500,000 bags (100 pounds each) is 15 percent under the 1956 outturn and the smallest crop since 1950. This could mean a fairly tight statistical position sometime next year.

Cotton and Soybeans
 American cotton farmers in recent years have learned well the art of intensive cultivation. Even on the smallest planted acreage in many years, high per-acre yields this year may give them a crop of about 11,900,000 bales. This would be sizable, although considerably less than indicated domestic consumption and exports in 1957-1958. This points to another substantial cut in the still big carryover next August 1. Prices may weaken moderately during the heavy marketing season in the weeks ahead, but should recover thereafter.

Despite record-high soybean acreage, the 1957 U.S. crop—currently estimated at 428,000,000 bushels—is 6 percent below the 1956 record outturn, but 58 percent above the ten-year average. Since stocks in all positions were recently at a record peak, there should be no dearth of soybeans in the crop year beginning October 1. There is no basis for sustained price strength at present, barring serious crop damage.

LOCAL BUSINESS BRIEFS

F. A. Tuck, 46620 Stratford court, an employee of Shell Oil company, has been awarded a Certificate of Merit from the Greater Detroit Safety Council in recognition of 12 years driving without an accident.

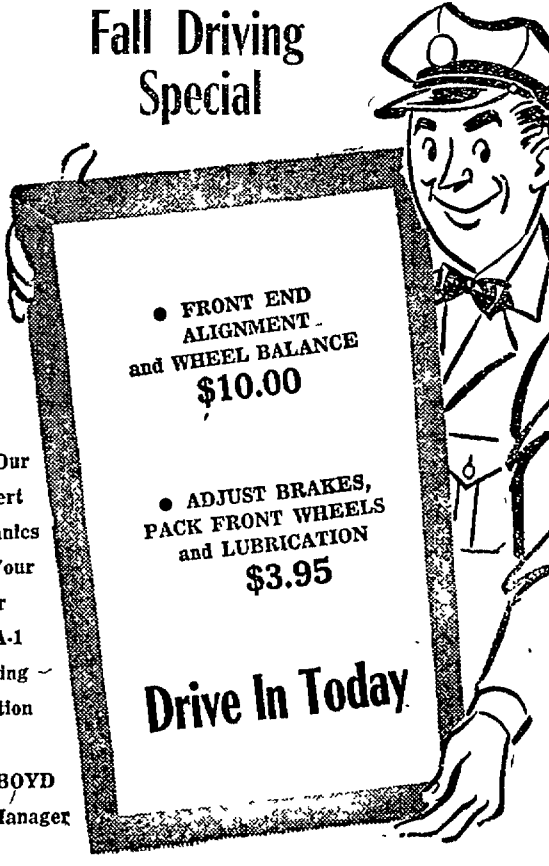

Don R. Learned, controller for the Lincoln division of Ford Motor company, recently participated in a panel at the National Business Conference of the Harvard Business School association in Boston. Presenting an "Outlook for the Automotive Industry", he stated that "by 1956 the nation should have approximately 64 million spending units, an increase of 16.3 percent over 1956. Based on a projected 40 percent increase in gross national product, the increase in income of these spending units should increase by 22 percent."

The old style method of having to look through racks of clothes to find customers' dry cleaning has been replaced at Ritchie Bros. Laundromat. They recently installed a rotating system that brings the customers' cleaning to the front for quick selection. It's done with numbers.

William A. Mayberry, president of Manufacturers National Bank of Detroit, announces that 98.8 percent of its offering of 156,600 shares of new stock was subscribed for upon the exercise of subscription warrants. The additional shares were offered on a one-for-seven basis to stockholders at \$35 per share. The 1,947 unsubscribed shares were purchased by the underwriters' group headed by Blyth & Co., Inc., First of Michigan Corporation and Watling Lerchen & Co.

The stock offering, which has been approved by the Comptroller of the Currency, has added \$5,481,000 to the Capital Funds of the bank — \$1,566,000 to the bank's Capital — \$2,434,000 to Surplus, and \$1,481,000 to Undivided Profits. As of the close of business on August 2, total Capital Funds of the bank were in excess of \$49,000,000.
