

Council May Ask Voters to Approve Bond Issue

A \$300,000 question was left squarely up to the city council Friday night as the results of a six-months' water system study were outlined.

It left little doubt in councilmen's minds as to what has to be done. Only the procedure remains to be answered. Monday night the council will decide this.

In a combined report prepared by James Pollock, a financing consultant retained by the city specifically for this job, and the city manager, engineer and public works superintendent the council learned:

1. That total improvement of Northville's water system to include water softening equipment would cost an estimated \$435,000;

2. That \$190,000 can be raised from a revenue bond paid off by existing rates of the system;

3. That \$300,000 can be raised under a combination of a general obligation and revenue bond with payments again coming from existing water rates.

The entire council lauded the report for its completeness and clarity. A map of the entire system pinpointing all existing lines, valves, hydrants as well as size and general condition of lines was used in the presentation of the report.

The survey, along with the recommendations for improvement, brought special praise from Consultant Pollock who called the report an example of "good, sound, basic planning to provide a first class water system."

City Manager John Robertson, City Engineer Harold Penn and Herman Hartner, public works superintendent, all had a hand in the preparation of the survey.

Specifically, the report pointed to these definite improvements needed by the system:

— More valves to allow repairs of water-line breaks without interrupting service to large areas of the community;

— More fire hydrants to approach the desirable condition of one hydrant every 500 feet to provide adequate fire protection;

— Larger lines to provide more pressure and allow periodical "flushing" of lines without reducing water pressure — this would include a "loop system" or grid of an 8 to 10-inch

line around the existing system;

— A 350,000-gallon elevated storage tank to give adequate storage and proper pressure, particularly in the high, northwest section of the city;

— Complete development of a new well site near Novi road including pumps and a pump house;

— Installation of additional water lines at various points in the present system.

A water softening system, estimated at \$57,500, was also included in the report but was generally considered beyond the financial resources of the city at this time.

Actually, the council must pare down the recommended improvements which totalled \$377,500 to come within the limits that can be paid by revenues from existing water rates.

Consultant Pollock's financial analysis is currently being given careful study by councilmen.

His dual suggestion for financing left the council with a decision that must be made by Monday evening to meet timetable schedules to carry out the bond issue.

To provide water needs at the new high school and in Northville Heights subdivision the city has already begun certain water line and pump installations.

Money to cover these projects will have to come from the bond issue. Thus time is important.

This is the dilemma facing the council:

A straight revenue bond issue would be the most expedient means of obtaining money. It requires no vote of the people and would not raise local taxes. Machinery for a revenue bond could start immediately and the money would be obtained within six months.

From an economics standpoint, however, a straight revenue bond does not offer the advantages of a combination "revenue-general obligation" bond.

In the first place under a revenue bond the city would be limited to \$190,000 as law requires that revenues from the water system must equal one-and-one-half times the indebtedness for this type bond.

Secondly, the interest rates on straight revenue bonds are at least one percent higher than the revenue-general obligation type.

Thus, under a straight revenue the city would pay \$175,000 in interest over 27 years on \$190,000.

By financing the water improvement program under the second plan — revenue-general obligation combination — the city could get a maximum of \$300,000 and pay interest of \$200,000 over a 27-year period.

The manner of payment under both plans would be from water rate revenues without levying additional taxes.

Plan two is considered a better investment by bond buyers and receives a lower interest rate because it is secured by the entire tax base of the city.

Councilmen, pressed for time and hopeful of initiating the improvement program without a hitch, could see only one disadvantage to the second plan.

Approval by 60 percent of the votes cast by property owners must be obtained to inaugurate a revenue-general obligation bond issue.

Already the council can see a solution to the time element under plan two. A vote on the issue could be held February 16 at the county primary election, thus saving the expense of a special election. It would also fit into the deadline set to obtain bond issue funds.

The only risk, obviously, is a negative vote by the people.

Most councilmen seem confident that the citizenry will support the program. The consensus of council opinion was that everyone was aware of the condition of the water system and that it has become the number one complaint of the taxpayers.

More confidently, they pointed to the huge savings afforded under the general obligation plan — and the one "clincher": the program can be supported by water rate revenues without increasing taxes.

But What About City?

There's No Doubt in Township: Candidates File in December

Petitions are available this week at both the city and township halls for prospective candidates for 10 offices where terms expire in April.

There's no doubt about the procedure in the township. But city filing requirements are cast with confusion.

In the township candidates for seven offices must file petitions by December 29 at 4 p.m.

In the city, because there is no February primary election, it has

not yet been definitely decided whether candidates must file as early as December 29.

Township officers whose terms will expire in April include: Mrs. Mollie Lawrence, supervisor; R. D. Merriam, trustee; D. J. Stark, clerk; Roy Terrill, treasurer; Fred Fry, board of review; Robert Hazlett, constable; and Lawrence Mas-selink, justice of the peace.

Mrs. George Tegge, assistant township clerk, stated that no petitions have been taken out thus far. Interest in township affairs was at

a high pitch last year following re-assessment of property values and several residents then indicated an intention of taking an active role in the next election.

Only member of the township board whose office is not up for election in April is Alex Lawrence, trustee. His term expires in 1961.

Partisan elections are held in the township, although no candidates filed on the Democratic ticket two years ago and all the present office holders were returned without opposition.

A primary election for the township was held in 1957 because of the lack of opposition on the ballot.

Efforts of City Attorney Philip Ogilvie to obtain a clear-cut decision from the state on Northville's peculiar situation have thus far been unsuccessful.

The conflict arises because the city has no primary election. Under the city charter petitions are filed between February 1 and March 1.

Under state law, however, petitions in cities located in counties of 500,000 where a primary election is being conducted must file seven weeks prior to the primary election (in this case, December 29).

In 1957 candidates filed petitions in 1957. The state then ruled that petitions would have to be filed again in February. Now no one will say when the filing date should be.

Up for election in April will be two council seats and the position of mayor.

Mayor Malcolm Allen is completing the term of the late Claude Ely, while John Stubenvoll, a former councilman, was appointed to fill Allen's spot on the council. John Canterbury is the third member whose term of office expires in April.

None of the officials have indicated whether they will run again, although Stubenvoll accepted appointment last spring with the understanding that he would merely fulfill the current term. Previously a council member for 13 years, Stubenvoll had decided to retire from active city government affairs and did not seek re-election two years ago.

Petitions for city offices must contain not less than 15 signatures and not more than 75. Township petitions require names of not less than two percent and no more than four percent of the registered voters. A total of 1,595 persons are registered in the township.

SUFFERING ENDS — Kim Smith, daughter of Mr. and Mrs. Wilburn Smith, Northville, died last week at University hospital, Ann Arbor. The child is shown here with her parents in a photograph taken shortly after doctors diagnosed her illness as leukemia.

Conduct Funeral Services For Small Leukemia Victim

Little Kim Smith, leukemia victim, lost her struggle for survival last Wednesday.

The 18-month-old only child of Mr. and Mrs. Wilburn Smith, 48500 West Nine Mile road, had been critically ill with the rare blood disease for several days. She died at University hospital after receiving a series of transfusions.

Kim's parents learned the child had leukemia less than two months ago. They first noticed something

wrong when Kim lost her appetite and developed a number of mysterious bruises.

Friends and strangers, hearing of the child's condition, responded by offering prayers, contributing money and encouragement to the Smiths. Fellow employees, old classmates, and several anonymous residents who just wanted to help, took up collections, sponsored a benefit dinner, and contributed food.

Kimberly A. Smith was the daughter of the former Miss Barbara Springer, and granddaughter of Mr. and Mrs. Edgar Wilder, Northville, and Mr. and Mrs. Wilburn Smith Sr., South Lyon.

The funeral took place Saturday at the South Lyon Methodist church, with Rev. Ferris Woodruff officiating. Burial was at Rural Hill cemetery, Northville.

Kim is the second Northville child to succumb to leukemia in recent months. In July, 1957, Carol Ann Donnelly, daughter of Mr. and Mrs. Rene Donnelly, died after a year-long battle with the disease.

Early Deadline

Because of the Thanksgiving holiday next week The Record will be published one day earlier. Advertisers and readers are reminded that the deadline for all copy will be 5 p.m., Monday.

BLAZE CONFINED — Northville firemen quickly brought the blaze under control, thus preventing complete destruction of the Haller plant. Fire damage was confined to the front section of the second floor. Fire was shooting out of the office window above when firemen arrived on the scene.

Put Haller Fire Loss at \$50,000

A fire of undetermined origin, which apparently smoldered for several hours before detection, last week ate through office walls and ceilings of the Haller, Inc. plant, 16580 Northville road, causing an estimated \$50,000 damage.

Carl Fuhst, Haller night employee who was seriously injured in a fall after discovering the fire, is reported "progressing satisfactorily" at Sessions hospital. The Livonia resident suffered severe back and leg injuries, face bruises and burned hands.

Fuhst was working in the plant when the fire was discovered early Friday morning. Firemen reported

Fuhst probably was attracted to the fire by the noise, climbed onto some crates to get nearer to the flames, and then fell backwards to the floor.

Fire inspectors believe the blaze started in a main office on the second floor, smoldered for a long time, and then swept through four adjoining offices, the engineering department and the lobby. All doors were locked.

The blaze may have started by a careless smoker who tossed a match or cigarette onto the floor, authorities theorized.

Office and drafting equipment as well as plant records were destroyed.

Many of the machines located elsewhere in the plant were damaged by water from the sprinkling system and fire hoses.

Firemen brought the blaze under control shortly after arriving at the scene. Fire damage was confined to the front section of the second floor. The Northville engines were used; a Plymouth truck at the scene was never hooked up.

As firemen trained their hoses on the fire, rumors circulated that explosive materials were stored in the building. However, plant owner John Haller later denied these reports.

Haller, who said the building and equipment were fully insured, purchased the plant last January. It was formerly owned by the Ford Motor company. Powdered metal products are designed and manufactured at the plant.

Township Licenses To Be Issued Here

The Wayne county sheriff's office announced this week that Northville township residents will be able to obtain first driver's licenses at the township hall next Monday, November 24, or Monday, December 1.

A representative from the sheriff's office will be at the township hall these two days.

Thereafter, applications will be issued from the Northville city hall. Through the cooperation of Northville Police Chief Joseph Denton and the Wayne county sheriff's office, a special ruling will permit all future issuance of first licenses and renewals for township residents to be conducted through the Northville city hall after December 1.

A state-wide change in license renewal policy passed about two months ago permits township residents to renew their licenses through the Northville city offices.

After December 1 the township offices will not handle any kind of drivers license business.

"So few people were coming here that we decided it wasn't worthwhile," explained Mrs. George Tegge, assistant clerk.

Previously, first licenses were issued at the township hall every Monday.

SPRING ALREADY?? — Thomas Krauter, 8, son of Mr. and Mrs. Herman Krauter, 373 Rayson, wondered if it wasn't time to get out his bag of marbles when he woke up one morning this week to see this stubborn Easter lily blossoming in the back yard. Last time the plant bloomed was at Easter when Mrs. Krauter brought it home from the store. After the flower dropped off, she placed the plant in the ground near the rear porch, and it's been growing ever since.

Find Dazed Motorist Hurt in Auto Crash

A Northville resident, apparently dazed from injuries he suffered in a two-car smashup at Northville and Phoenix roads, walked nearly a mile from the accident scene before police were able to locate him last Thursday night.

Ernest G. McGregor, 113 Main street, was treated for face cuts and bruises at Wayne County General hospital after Officer Raymond Nowicki found him walking along Northville road near the Haller plant.

Police said the accident occurred about 12:30 a.m.; McGregor was found nearly an hour later.

South Lyon Publisher, 49, Dies of Heart Attack

Frank Freimund, publisher of the South Lyon Herald, died suddenly Wednesday afternoon at St. Joseph's hospital in Ann Arbor.

Freimund, 49, was taken to the hospital Monday noon following a heart attack.

He is survived by his wife and two daughters, Mrs. Marilyn Donovan of Livonia, Karen Freimund, and a son, Frank, Jr.

Funeral arrangements were not completed at press time.

Assessment Reductions Sting City, Township

Action by the state tax commission this week reducing personal property assessment of several state industries and utilities had its effect on Northville but not nearly to the extent of many suburban communities.

Where Redford, Livonia, Romulus, Allen Park, Nankin and numerous other areas suffered reductions in the hundreds of thousands of dollars, Northville felt a total reduction in the assessed valuation of Consumers Power and Detroit Edison of \$45,800.

But Northville township was hit harder with a total reduction of \$156,670. Of this Consumers received a \$153,450 cut, or 50 percent.

Township officials were not available Wednesday for comment.

Actually, only the reduced valuation of Consumers in the Oakland county section of the city of Northville agrieved councilmen.

While the assessed valuation figure was dropped only 15.9 percent (from \$276,200 to \$147,900) in the Wayne county section, the drop was over 50 percent in the Oakland county side of the city (from \$14,000 to \$6,900.)

Detroit Edison's reduction was almost token. Their valuation went down from \$429,320 to \$417,830, or 2.7 percent.

What the reduction means to the average taxpayer is that the revenue lost from the reduced valuation will have to be made up through additional millage — or loss of services. In Northville, however, the

loss is small — only \$1500 in city and school revenues within the city, but the township will lose approximately \$6,000 in combined taxes.

Edison, Consumers and Ford Motor company had protested their local assessments last spring — as they had in nearly all communities where their facilities are located. Ford withdrew its Northville appeal, however. Oddly enough, under Northville's new assessments, reduced tax rate and lowered equalization factor, both Consumers and Detroit Edison faced lower local tax bills even before appealing the assessments.

In other business Monday evening the council set December 1 as the date for a public hearing on the planning commission's decision to remove the restriction on wintering of horses at the Northville Downs' Sheldon road barns.

During the barns discussion, Councilman Ed Welch reminded the council that horses wintered in Northville would be subject to personal property taxation. F. L. Doran, a member of the planning commission and also a horseman, said owners were aware of this and, in most cases, were willing to pay a reasonable assessment.

The council passed a motion to enter into an agreement with Northville Downs for sale of some two acres on River street by the city to the track for parking and access to the track.

In final action Mayor Malcolm Allen suggested formation of a committee for the development of small industry. The committee would investigate all possible sites in the area with the idea of aiding persons interested in building small plants locally, the Mayor said. The council will suggest appointments to such a committee at the next meeting.

about WOMEN

2—Thursday, November 20, 1958—THE NORTHVILLE RECORD

GIRL SCOUT PROJECT — Approximately 30 Northville girl scout leaders and assistants, representing 12 of Northville's 14 troops, were on hand for the annual Girl Scout Christmas Workshop last week at the home of Mrs. Edwin R. Langtry, 712 Thayer boulevard. The workshop is intended to teach leaders how to make Christmas decorations and gifts so that they may return to their units and teach girl scouts how to make the gifts and decorations, which are given to hospitals and service groups. Instructors for the workshop were Mrs. Carol Northup and Mrs. Shirley Lipa. Pictured here inspecting some of the decorations made at the workshop are: (left to right) Mrs. Robert Shafer, Troop 234 leader; Mrs. Joseph Petrock, Troop 236 leader, and Mrs. G. H. Froebel, Troop 223 leader.

Married at Our Lady of Victory

Our Lady of Victory church was the scene of the wedding October 25 of Betty Lou Bauer, daughter of Mr. and Mrs. John Bauer of Livonia to Richard E. Lake.

The Rev. John Wittstock performed the nuptial mass at an altar banked with white mums.

Escorted to the altar by her father, the bride was attired in a chantilly lace gown with tiered skirt and fitted bodice styled with a sweetheart neckline. Her fingertip veil was caught by a pearl crown and she held a bridal prayer book under a nosegay of white carnations and orchids.

Irene Karpinski, sister of the bride, was maid of honor and wore a capuchin frock with lace bodice and taffeta skirt. Her flowers, fuji mums and carnations, were dyed to match her dress.

Bridesmaids were Virginia Miller and Phyllis Soloman, sister of the groom. Their sapphire-blue dresses were fashioned with a velvet bodice and taffeta skirt and they carried bouquets of tinted blue fuji mums.

Wendy Soloman, niece of the groom, was flower girl. She wore a yellow taffeta dress and carried a bouquet of pink roses.

The groom was assisted by Fred Soloman as best man and ushers were Richard Miller and Gerald Karpinski.

After the wedding ceremony the bride left a bouquet of white chrysanthemums before a statue of the Blessed Mother.

For her daughter's wedding, Mrs. Bauer selected a sky blue taffeta dress with lace overskirt and black accessories. She pinned on a corsage of pink roses.

A reception for 170 was held in the Northville American Legion hall for guests from Livonia, Northville, Novi, South Lyon, Ohio, New Jersey and Plymouth.

The couple left for a wedding trip through the Upper Peninsula, Wisconsin and Illinois. Betty chose a blue wool suit with black accessories for her going-away outfit and wore a white orchid corsage.

The bride graduated from Bentley high school in Livonia and is employed by the Northville A&P store. The groom attended Northville high school and is employed at Northville State hospital.

They will make their home in Livonia.

Edward Grant Asher Weds Livonia Girl

Betty Jean Lazar of Livonia and Edward Grant Asher of Northville were united in marriage by Justice E. M. Bogart Saturday evening, November 15. Mrs. Bogart and Mrs. W. M. Bogart were the attending witnesses.

AAUW Will Meet At Training School

The Northville-Plymouth branch of the American Association of University Women will meet at 7:45 this evening (Thursday) at the Wayne County Training school.

Medical Superintendent Dr. Pasquale Buoniconti will talk to the group about the purposes and functions of the training school, and Lynn Sullivan, vocational supervisor, will discuss and illustrate with slides the vocational aspects of the school program.

Dr. Buoniconti, a native of Springfield, Massachusetts, attended public schools in Springfield, completed his under-graduate work at Yale university, and obtained his M.D. degree from Royal university in Naples, Italy. He served his medical internship at St. Luc's hospital in Montreal, Quebec, Canada, and came to the training school in 1955 from Stockley, Delaware where he had been superintendent of the Delaware Colony.

The Buonicontis have two children. Their daughter, Phyllis, graduated from Northville high school and is a sophomore at Purdue university. Their son Mark is in the second grade at Amerman elementary school.

Hostess for this meeting is Miss Mildred Young, assisted by co-hostesses Miss Lucille McLaughlin, Miss Twyla Hartley and Mrs. Dempsey Ebert.

Northville residents who might have a little difficulty in finding their way to the meeting quarters are directed to turn left off Sheldon road at the second entrance as they approach from Northville.

Plan Wedding In February

Lila Lea Skow

Mr. and Mrs. Alvin Skow of Horton street announce the engagement of their daughter, Lila Lea, to James Malloy of Independence, Iowa. The couple plans a wedding early in February.

Mr. Malloy is a senior law student at the University of Iowa and will be graduated in June.

Miss Skow is a graduate nurse and employed at the University hospital in Iowa City.

Book Club Sees Slides

The Tuesday Book club met at the home of Mrs. Walter Couse this week. Members enjoyed seeing colored slides taken by the Couse's on their recent trip to Europe.

Camera Club to Meet

The Northville Adult Camera club will meet next Wednesday at 7:45 p.m. in the library. Discussion topic for the meeting will be "Camera Techniques".

A REPORT TO DETROIT EDISON OWNERS, CUSTOMERS AND THE PUBLIC

On November 17, Detroit Edison was host once again to its stockholders at the Annual Informational Meeting held at the Henry and Edsel Ford Auditorium in Detroit. The company's management reported to its owners what progress has been made, what plans it has, and how it is continuing to help everyone in Southeastern Michigan to live better electrically. Here is part of the story:

Walker L. Cislser, President
The Detroit Edison Company

"The continued prosperity of our communities, our State and our Nation depends upon productivity of all kinds resulting from the investment of money, the judicious use of natural resources and the application of the intelligence and skills of people. These have brought to our Nation the greatest industrial capacity and the highest standard of living in the world. We in Detroit Edison will always endeavor to do our part to bring an even brighter future to Southeastern Michigan."

Detroit Edison builds for the future—To meet the demands for more and more electricity, Edison is continually expanding and improving its facilities. On October 20 the third steam turbine-generator at the River Rouge Power Plant went into operation. This new 321,500-kilowatt unit brings the capacity of Edison's electrical system to nearly 3½ million kilowatts. And there is more to come. Two new 325,000-kw. turbine-generators are being added to the St. Clair Power Plant—one in 1959 and the other in 1961. Both are forward-looking projects to permit Edison to supply power in any amount, large or small, to any of its one and a quarter million customers anywhere in its service area.

Modern living is electric living—Those things which make yesterday's dream home today's reality are electric. New comforts, conveniences, work savers are built right in when homes go up. For instance, the Gold Medallion homes—the ultimate in electric living—include electric space heating, the most significant advance in home comfort. Every day in many new ways electricity is proving more and more versatile in the home, in agriculture, in business and industry.

Area development—Detroit Edison will continue to promote broader recognition of our State's exceptional industrial advantages. By working closely with communities in its territory and through a national advertising program, new industry is being attracted to Southeastern Michigan. This means new jobs and increased commerce of all kinds.

Atoms for peace—Detroit Edison is a member of the Power Reactor Development Company which is building the reactor portion of the Enrico Fermi Atomic Power Plant. The 91-ton reactor vessel, heart of the project, was set into place during April and assembly of related equipment is progressing as planned. Each day the target date for nuclear operation, late in 1960, comes closer—the date when private industry will have made another big contribution to the nation's atomic leadership.

Electric dollars work hard—We will continue to plan for the future to provide even better service at the lowest possible cost. The rates for our service have not changed since January, 1949, except for metal melting and steam service. With continued increases in the cost of equipment, supplies and fuel, in payrolls, and in all other expenses, there may be limitations on our ability to offset rising costs with internal economies indefinitely. We will, however, endeavor to make every dollar work hard for the Company's owners, customers and employees.

Customer-Owners

Of the nearly 100,000 stockholders, 70% live in Michigan and 60% are customers of Edison service. Service is a big word at Edison; for in addition to adequate electric power, it means a complete electric service. Appliance repair, light bulb exchange, advice on industrial and commercial lighting, a new fast recovery hot water supply, tips for homemakers—these are only a few of the special services offered to Edison customers.

THE DETROIT EDISON COMPANY
Serves 4,300,000 people in Southeastern Michigan

Newcomer's Corner

"I look upon every day to be lost, in which I do not make a new acquaintance."

—Samuel Johnson

SUBURBANITES — Northville's plenty of elbow room appeals to the James Anderson family (left to right): Mrs. Anderson, Jimmy, Nancy and Mr. Anderson.

One more family, happy victim to the lure of suburban living, are the James Andersons of Clement road.

"We kept looking for a place away from the crowd," the former Dearbornites declare, adding that they've "had an eye on Northville" — with its wide open spaces and surrounding lakes — ever since

they began house-hunting a few years ago.

Jim and Addie B. Anderson, with their children, Jimmy, six, a first grader at Amerman elementary school, and Nancy, 10 months, moved here the first part of August.

Mr. Anderson, an engineering

graduate of the University of Michigan, works in Detroit as a construction superintendent.

"Another possibly strong reason for our decision to live in Northville," Mrs. Anderson adds jokingly, "is that it's easier for my husband to get to the Ann Arbor football games."

Woman's Club to Hear Book Review on Theater

This Friday's program of the Northville Woman's club will feature a book review by Ellen Scott of George Oppenheimer's "The Passionate Playgoer", a personal scrapbook of the drama critic's memories of the theater since 1920.

Also on the program is a report by Diane Luchtman, Northville high school senior, on her experiences at Girls' State in Ann Arbor this summer.

Pledged to Sorority

Elsa Couse, daughter of Mr. and Mrs. Walter Couse of West Seven Mile road, was recently pledged to Zeta Tau Alpha, national Greek letter sorority at Albion college where she is a freshman.

Juniors Bring 'Four Freshmen' to Northville

"It's a blue world," the Four Freshmen tell them, but the Northville high school junior class is looking at the rosy side of the "Freshmen" repertoire.

At some stiffer-than-average expense, and for the first time in the school's history, the Northville juniors have hired a nationally recognized group for their November 28 J-Hop to be fashioned after the "Blue World" theme, taken from one of the quartet's popular recordings.

The idea to bring a "name" group to Northville originated in class discussions last year, teacher-sponsors Robert Williams and Edward Mollama say.

While investigating the schedules of candidates Buddy Morrow, Ralph Flanagan and Woody Herman bands, the dance committee discovered that the "Four Freshmen" would be appearing in Detroit just prior to their J-Hop date.

The initial class vote on snapping up the opportunity "was almost unanimous" at that time, the sponsors say.

Following objections about cost from seven parents, the final vote still saw only 22 out of the 145 students in the class decide against the suggestion.

"We will be getting them for \$1,000," Williams said. "That's about \$2,800 cheaper than their

usual asking price."

In addition, he said, the class figured that its \$2,800 treasury could sustain any slump in ticket sales.

"Parents who objected did so chiefly in consideration of the traditional senior trip," Williams explained, "feeling that a loss in treasury funds would cancel the possibility of the trip."

By last Tuesday 95 tickets had been sold for the dance, and many others for the special concert by the "Four Freshmen" preceding the dance, for those who just want to hear them in person.

Fourteen Michigan high school band directors have already reserved seats for the concert, Williams said.

"The 'Four Freshmen' are one of the best singing groups in the nation," he pointed out, and "at their last performance in Ann Arbor's Arbor Hill auditorium they drew standing room only crowds."

In spite of the vocalists' popularity, ticket prices at \$3.50 a couple, will be raised only 50 cents over the usual J-Hop admission charge.

The class has also decided to limit the number of tickets available to 450.

"We're not out to make a profit," Williams explained, "we don't want to pack guests in to the point of overcrowding. The class would rather leave plenty of room for dancing, and to see everyone have a good time."

No other school in this area has ever tried to sign a major show-

group, Williams said, with the exception of Milford which hired the Tex Beneke orchestra for their school dedication celebration.

The Milfordites, however, failed to meet the \$1,500 cost, charging \$3 admission.

According to the sponsors, progress indications seem to line up in favor of the local experiment.

The kids are all working hard, and their enthusiasm seems to have inspired adult residents to begin planning for a full evening of pre-Hop parties along with the dancing.

The quartet will entertain for four hours, including the concert. Music for the rest of the evening will be provided by the well-known Frank Bridge orchestra of Detroit.

The Freshmen also play their own instrumental accompaniment.

Bob Flanagan sings top voice, plays trombone, and doubles on bass. Don Barbour, the second voice, is featured in many solos and plays guitar. Ross Barbour handles all introductions, sings third voice, and plays drums and trumpet. Ken Albers, the third voice, plays trumpet and mello-phone and solos vocally and instrumentally. Bob, Ross and Don are original members of the group. Ken replaced Ken Er-rar in 1956.

Whether the venture can succeed or not may remain doubtful to many parents, teachers and administrators, but most have expressed the thought that the juniors are old enough to begin assuming responsibility for their decisions.

THE FOUR FRESHMEN will be in Northville for the high school J-Hop November 28. The singers are: (top) Bob Flanagan and (left to right) Ross Barbour, Don Barbour, and Ken Albers. Bob, Ross and Don are members of the original quartet. Ken joined the group in 1956.

"THE BEST THING that ever happened to Northville" says ticket salesman and class Vice President Carol Krezel of the coming "Four Freshmen" appearance at Northville high. She and dance committee Chairman Chris Hammond here begin their energetic campaign right away behind stacks of 450 available tickets, just off the press.

Teen Club Holds Party

Mrs. Charles Ware — Market 4-1601

On Wednesday evening the Teen club of Wixom held a party honoring Jesse Birchard, their counselor, who is moving to Walled Lake. They presented him with a set of cuff links and tie clasp. The club will hold their next dance Saturday, November 29 at the Wixom school.

Mrs. Charles O'Dell and family have moved back to Wixom from Indiana and are living in the Everett Pearsall cottage. Mrs. O'Dell is the former Lois Nicolay.

Mr. and Mrs. Robert Gross of Pontiac trail are the proud parents of a boy born at St. Joseph hospital, Pontiac.

Mr. and Mrs. John Bannerman of Wixom had as their house guests last week Mr. and Mrs. Charles Buckley of Saginaw. The Buckleys were married recently.

Sunday dinner guests of the Wesley McAtee family was Mrs. Melvin Polsten of Wixom.

Thursday Mrs. Edmond Caes was honored with a pink and blue shower in the church parlors.

Tuesday Mrs. Everett Pearsall attended the funeral of her uncle, Ford Parker, of New Hudson. Mr. Parker was born in Wixom 83 years ago.

Gerald (Bill) Abrams and family, John E. and Peggy Ramsey, Robert Paul and Mr. Thomson are deer hunting at Fife Lake.

Roy Robertson of Birch Park got his deer on opening day. He was at Buckley.

Mrs. Lucetta Ruggles and Bill and Mr. and Mrs. George Morris were in Strathroy, Ontario for a few days last week.

Jim Robinson and Stub Ruggles are also deer hunting at Iron Mountain. Bill Robertson is at Atlanta.

Walley Luck is hunting in the upper part of the lower peninsula.

Lloyd Croft, Norman Bower and Thurman Bower are in the upper peninsula deer hunting.

Joe Burke of Walled Lake also

brought home a deer. Ray Burke and son, Tom, were not so lucky. Dick Robinson is also deer hunting in the north woods.

Week end guests of the Jesse Byrds were Mr. Byrd's niece and husband, Mr. and Mrs. Martin Kendig of Dayton, Ohio.

There will be a public hearing December 2 on the Nelson property on Pontiac trail, part of the Elmer Clarke farm.

Mrs. Fred Thayer, Barbara Stadnek and Hilda Furman attended a Red Cross demonstration and work shop at the new Oakland county branch of Michigan State university, Rochester, last week.

Saturday Mrs. George Campbell, Jr. gave a birthday party at her home at Oxbow Lake honoring three generations, Fred Thayer, son-in-law, George Campbell, and grandson, Christopher Campbell. There were 14 guests present.

Tuesday Mrs. Charles McCall had a pink and blue shower honoring her brother's wife, Marge Nisson. There were 32 guests present.

Mrs. Burton Graves has been on a two-week visit to New Mexico. Chris Nisson is deer hunting in the Tahquamenon Falls area.

Mr. and Mrs. Burr Decker were in Port Huron Sunday. With them were Mrs. Lucetta Ruggles and Bill. They were met in Port Huron by Mr. and Mrs. George Morris.

After dinner they all drove back to Wixom.

Mrs. LaRue Bogart is in Sessions hospital in Northville.

The Wixom Extension group met at the home of Mrs. Harry Williams at Loon Lake. The lesson was "Uses of Mosaic Tile".

The group will meet for the annual Christmas party at the home of Mrs. John Gibson of Beck road for a pot-luck dinner. Date has not been set.

Readers Speak Up: CALLS BUS DEED ACT OF KINDNESS

Dear Editor:

I must say I read Mr. Gallis' letter (in the 11-13 issue) with a little more than undisguised astonishment.

This letter is not directed to him but rather to the message he has conveyed.

I believe that duly elected school board members should be entitled to make emergency decisions, especially when there is obviously no time for public referendum. I feel that Mr. Schrader made the only fair and humane decision in regards to the honor guard for the late Cardinal Mooney. I feel that this courtesy should be extended in the event of the death of any well known public figure who has led an exemplary life. People of this type set an excellent example to teach the youth of any school especially in these rather chaotic times. This I think would help prevent any state vs. church friction rather than foster it.

Also our founding fathers did recognize the need for "the separation of church and state" we must remember that we were colonized predominantly by various types of religious groups (i.e. Wm. Penn, Jas. Oglethorpe, Roger Williams, etc.) who were being oppressed by the government, therefore, it was these religious forefathers, fully realizing the great need for this separation who set the pace for the founding of the Constitution.

As far as taxes go everyone has to pay them in some form. People who never had any children and those with children long since grown have to pay school taxes, altho have no use of the school buses.

I for one feel that any act of kindness or humanitarianism is certainly not opposed to any educational or democratic concept, however more use of such acts might quite conceivably help more people to better understand the "democratic" concept.

Mrs. J. H. Wick
39633 Seven Mile Rd.
Northville, Mich.

NOTICE OF PUBLIC HEARING

NOTICE IS HEREBY GIVEN that a public hearing will be held at 8:00 p.m. MONDAY, DECEMBER 1, 1958 at the NORTHVILLE CITY HALL on the following proposed amendment to the zoning ordinance:

1. That those portions of Lots 230 and 231 of Assessor's Northville Plat No. 3 which lie more than 450 feet west of the center line of Sheldon Road, be reclassified and re-zoned from R-1 to T-1 classification, subject, however, to the following restrictions: (a) That said property revert to R-1 classification when there is no longer a race track in Northville.

2. That Section 20.02 — Use Restrictions of the Zoning Ordinance be amended to add thereto the following:

Provided further, that the use of all property within this T-1 District for the wintering of horses be limited to the capacity of 250 horses at any one time. The purpose of this amendment is to delete from the original ordinance amendment the provision which limited the use of the affected property to the period of racing dates allocated and 15 days prior and subsequent thereto.

"Get" Local Beer At Premium Prices

Stephan Francis Fogarty, 31, of Inkster and Ernest Yuhasz, 26, of Romulus were each fined \$25 and court costs by Judge E. M. Bogart last Thursday for attempted larceny of a case of beer from the Northville Restaurant Wednesday.

That's about \$2.50 a bottle.

Fine Bad Check Passer

Northville police this week caught up with one of the several bad check passers who have been operating in this area recently.

Ward Roger Drouillard, 29, of Novi, was fined \$50 and court costs by Judge E. M. Bogart Monday for writing and passing checks for some \$70 in his stepfather's name. The checks had been turned in at Brader's department store.

Mrs. Cockin Makes 80 Aprons For December Church Bazaar

Apron making seems to be Mrs. Kenneth Cockin's forte. With materials and money donated to her, she has made 80 of the aprons to be sold in the Neal Circle apron booth at the Methodist church bazaar December 2.

Mrs. Cockin, chairman of the Neal Circle project, is assisted by Mrs. Robert Dixon, Mrs. Marjorie Lanning, chairman of the Neal Circle.

They have prepared fancy aprons, mother-daughter and doll sets, men's aprons and aprons "for every occasion".

All bazaar booths will open at 2 p.m.

1958 Torch Drive Falls Short of Goal

Though putting up a good last-minute show, Novi didn't quite catch up to its United Foundations Torch drive goal of \$2,667 this year.

A week's extension of the drive throughout the metropolitan Detroit area which was generally off to a slow start brought the November 6 closing total in Novi to \$2,481.59 collected in the residence-government-small business campaign and \$180.80 contributed through the schools.

Both the regional and county collections, which include Novi, surpassed their quotas.

The regional goal, set at \$44,548 for Novi and 11 surrounding townships was exceeded by nearly \$1,000 with a \$45,240.95 final report.

The Oakland county \$378,623 quota was secured by a closing tally of \$396,765.

Seniors to Present "Harvey"

"Harvey", the story of an invisible rabbit and his human companion "Elwood P. Dowd", had been chosen for this year's senior class play by Northville high school students, and will be presented December 3 and 4 at 8 p.m. in the community building.

Tale has it that Elwood Dowd, who lives with his sister Veta Louise Simmons and his niece Myrtle Mae Simmons and "friend" Harvey, is in the process of being committed to a mental hospital.

The play takes place in Mr. Dowd's house and in the mental institution.

Many will remember the movie or television versions of this popular comedy.

The cast is as follows: Elwood P. Dowd, Glenn Schultz and Bob Niemi; Veta Louise Simmons, Julie Older and Nancy Frankland; Myrtle Mae Simmons, Barbara Rollings and Judy Childs; Dr. Sanderson, Doug Ware and Tom Williams; Dr. Chumley, Charles Parton and Jack

Cummings; Mrs. Chumley, Patty Willing and Nancy Kellogg.

Others are: Mrs. Chauvenet, Becky Kellogg and Laura Sutherland; Ruth Kelly, RN, Carla Johnson and Diane Luchtman; Wilson, Spike Walker and Jack Bailey; Judge Gaffney, Tom Brown and Frank Muller; Maid, Mary Daleo; Cab Driver, Jim Cowie and Bill Madigan.

Adult tickets will cost 75 cents and student admission 50 cents.

Farmington Garden Club To Have Christmas Show

"Joy to the World" will be the theme of the Farmington Garden club Christmas flower show December 13 at Dunckel junior high school, 32800 12 Mile road.

The show will be open free of charge to the public from 2-9 p.m.

General chairman is Mrs. James P. Henry and co-chairman, Mrs. Arthur F. Grosop, assisted by Mrs. Arthur Schaldenbrand and Mrs. Keith Willoughby in staging and scheduling.

GIRL SCOUT NEWS

Girl scout leaders whose troops need more calendars for the sale now in progress are asked to contact Mrs. Dayton Deal, FI-9-0573. Units unable to dispose of calendars they already have also are urged to contact Mrs. Deal.

Girls of Girl Scout Troop 234, under the leadership of Mrs. Robert Shafer and Mrs. Gordon Hubbert, and assisted by Mrs. Sid Moose and Mrs. A. E. Jones, are making clown dolls as a service project for their sponsoring group, the Women's Society of Christian Service of the Northville First Methodist church.

Girl Scout Troop 223 held its first meeting this week with their new leaders Mrs. John Hochkins and Mrs. George Korzynski. The girls elected officers at the meeting, including president, Judy Lonn; vice president, Vicki Harrison; treasurer, Carol Bell; secretary, Karen Peterson, and scribe, Muriel LeFevre.

Girl Scouts of Troop 3 hosted a Halloween party for Troop 7 October 29. The past week they have begun working on Christmas projects under the direction of Mrs. Frank Dotterer. For six weeks starting next week Troop 3 girls have planned a skating party at the Riverside rink in Plymouth.

Girl Scout Troop 227 met Tuesday and discussed badges. The girls also began working on Christmas presents for their mothers.

Wixom School Holds Open House

The Wixom elementary school observed American Education Week with an open house Wednesday, November 12. Several of the mothers took advantage of the invitation to eat lunch in the cafeteria with their children and to watch them at work in their classrooms. Exhibits of the children's textbooks and papers were on tables in the halls so parents could see and compare the work expected of each grade level.

At the tea held in the multi-purpose room each teacher presided at a table with a slate centerpiece designating which grade she teaches. Parents were seated with their child's teacher.

In the beginning of the week the Oakland county board of health finished testing the eyes of all the pupils and notices were mailed home to parents of the ones requiring further examinations by their own private doctor. The Wixom P-TA sponsored the cost of the examiner.

RESEARCH FUND — The Wayne County Training school was \$1,000 richer last week with the presentation of a check by the Maimonides Medical Society auxiliary in memory of Dr. Max Steiner, late Detroit physician and director of Pontiac State hospital. Dr. Steiner was a member of the Maimonides and the Wayne County Medical Society. Dr. Pasquale Buoniconti, director of the training school, is shown here accepting the check from auxiliary officers. They are (left to right): Mrs. Israel Wiener, past president; Mrs. Howard B. Appelman, treasurer; Mrs. Joseph Dubin, president, and Mrs. Harry Weisberg, project chairman.

Alpha Nu Chapter To Meet December 8

Mrs. O. F. Reng will be hostess to the December 8 meeting of the Alpha Nu chapter of Delta Gamma at her home in Northville.

Mrs. Arthur Donovan of Lake street, South Lyon, was hostess at a dinner-meeting of the group at her home Monday evening. She was assisted by members of the nominating committee.

President Mrs. Ida B. Cooke conducted the business meeting. The program was in charge of the music committee. Twenty-two members were present and received from the program committee booklets containing the programs and committee assignments for the year.

Mrs. Donovan, chairman of the legislation committee, distributed materials for a study of the United States Constitution to be presented at the January meeting.

1—CARD OF THANKS

May we take this opportunity to thank each and everyone who were so kind to us in our recent bereavement. Never to be forgotten by us, our assistant sympathy and untold kindness. Truly as our darling baby passed through the shadow of the valley, your loving kindness was the rod and staff of comfort that will remain with us forever.

Bill and Barbara Smith

I wish to thank all those who sent cards and gifts during my stay in the hospital, especially those who have helped during my return home.

Mrs. Grace Calkins

We wish to thank our friends and neighbors for their many acts of kindness and floral offerings during our recent bereavement; also Rev. Melbourne Johnson for his comforting words and Schrader Funeral Home.

Mrs. Mattie Taylor
Mr. and Mrs. Walter Kleinschmidt

MOON ROCKET? Residents of Wixom were asking themselves this question last week when this huge 65-foot-long tank was trucked in from Milford and then loaded on a flatcar with the aid of two cranes. Some of those persons who stopped to ask the workmen about the tank learned it wasn't destined for space but for the Reynolds Spring company, Vincennes, Ohio where it will be used for storage of propane gas. The used, 37-ton tank, which once was used for gas storage at the old Ford plant in Milford was loaded onto a flatcar at Wixom because there are no suitable railroad sidings in Milford.

CHRISTIAN SCIENCE CHURCH

Main and Dodge Streets
 Plymouth, Michigan
 Recognition of man's true nature
 as God's spiritual image and like-
 ness is a central theme of the Les-
 son-Sermon entitled "Soul and
 Body" which will be heard in Chris-
 tian Science services Sunday.
 From the King James Version of
 the Bible will be read the following
 (II Corinthians 5:1): "For we know
 that if our earthly house of this tab-
 ernacle were dissolved, we have a
 building of God, an house not made
 with hands, eternal in the heavens".

Man's Disorder and God's Design

This World Council of Churches' theme shows the gulf that exists between what is and what ought to be. I think of it especially in the current struggle toward peace. This month many churches observed World Order Sunday, and while prayers and labor ought to be a continuing passion, it is well that the subject should be emphasized and lifted up.

There is plenty of disorder in the world. All is not well. Lester B. Pearson, Canadian statesman, said, "The grim fact is that we prepare for war like precocious giants for peace like retarded pygmies."

Problems loom large but they are not insurmountable. 44% of the world's adult population cannot read or write. Diseases such as malaria, yaws, trachoma, leprosy, pneumo-
 nia cause the death of millions and bring millions more a weakness so that they are unable to work productively. Two giants in the world, each capable of snuffing out the other, wrestle while other nations look on

in grave concern. Is there any doubt of disorder in the world? None at all.

The Christian religion has in it a design for peace. God is the God of all mankind. We are all brothers. Jesus says the worship of God is empty without the kindness of the worshiper to his fellow man. Jesus believed that a person is a wonderful creation of God, a soul worthy of redemption, a life that should be full and abundant. God's design is order and peace.

The Christian way has not run off to a swamp and become mired. A river of Christian thought and practice has been poured into the sea of the world. Our own nation owes much to its Christian inheritance. The United Nations has in its Charter ideas and goals which could have only one source, the Christian religion. The Declaration of Human Rights, whose 10th birthday is December 10 of this year, has a lineage from the Christian concept of brotherhood and the sacredness of human personality.

May man's disorder never dim our vision of God's design.

DECEMBER BAZAAR—Ladies of the Northville First Methodist church Neal Circle (left-right): Mrs. Marjorie Lanning, chairman, Mrs. Robert Dixon and Mrs. Kenneth Cockin prepare aprons for their circle's sale booth at the annual Methodist smorgasbord bazaar scheduled for December 2. Similar concessions and displays are planned by the various church groups.

St. Mary's Compiling Book of Appreciation

The administration staff of Livonia St. Mary hospital has begun compiling names of donors to the hospital building fund for permanent record in the St. Mary Hospital "Book of Appreciation". For contributors who have bought a memorial, a bronze plaque bearing the donor's name or the name of any individual—living or dead—designated by him, will mark each room and all equipment valued at \$1000 or more.

The Felician Sisters, who began the building project on Federal grant funds and public contributions, ask that pledges who have not completed their obligation, do so as soon as possible so that their names appear in the "Book of Appreciation". The hospital cornerstone will be laid in December, the Sisters announced. Construction to date is 26 percent complete.

MICHIGAN BELL

LONG AGO IN MICHIGAN there lived an Indian who had quite a reputation as a weather prophet. One fall, he predicted a long, cold winter. When somebody asked him how he knew this, he pointed down the road to his neighbor's house. "Paleface put in two extra tons of coal," he said.

UNLESS YOU HAVE AN INDIAN handy you'll just have to wait and see how hard a winter this one will be. But you can be sure of one thing. You won't be able to visit friends and relatives as much as you'd like. And there'll be many days when getting to the store will be difficult, if not impossible. But cheer up, there is one thing that laughs at rain and cold—your telephone. Use it often to keep in touch, to order supplies. Since the invention of the telephone, winters are never as bad as they were. When snow piles up, just go by phone.

YOU NEVER CAN TELL

where the benefits of telephone research will turn up next. Bell Telephone Laboratories have just been awarded a Navy Certificate of Merit for their work on guided missile control systems. And from Nebraska U comes word that a cow is giving cattle researchers valuable information on rumen pressure by means of a small radio in its stomach. What made the tiny radio possible is the transistor—a Bell Laboratories invention first used in Long Distance circuits. The cattle people say the information they get from the radio will help them improve the quality of beef and dairy cattle. The cow's comment we don't have.

The only real way to celebrate Thanksgiving is to seat the whole family around the dining table and fill them with turkey. But if some of the family can't get home, remember the next best thing: have your family party by Long Distance. Call your loved ones on The Day. They'll enjoy it. So'll you!

Even Shopping Days Go Faster in this jet age. So here's a great idea: Extension phones make lastingly useful Christmas gifts—and pretty ones, too. Call our business office.

Perfect Season One Game Away

Mustangs Roll Over Howell

The Northville Mustangs, hungry for their first perfect season, gobbled up Howell's football squad in a 53-7 feast here last Friday.

With six wins and no losses under their belts, the fired-up Northville gridders now need only to down Clarenceville Friday to wrap up the best grid season in Northville's history.

The Mustangs have chalked up 15 straight victories, including 24 league wins in a row. However, should Northville lose Friday, it must share the Wayne-Oakland league title with West Bloomfield which finished the season last week with a 6-1 record.

Northville has come within one game of a perfect season for the past two years. Both times record hopes were upset by single-point losses to Plymouth.

Records show that there has been no local teams as far back as 1930 that can boast an undefeated, untied season. Best previous record hung up by a Northville team was in 1950 when Al Jones' gridders were tied only by Plymouth.

Despite these ominous historical notes, Coach Ron Schipper is confident his team can cop the league crown and turn in the first perfect season.

"I've never seen a team that liked to play ball as much as this one," the coach said. "If they play as well Friday as they did last week, we can't help but win."

Except for the goal posts, everything on the gridiron seemed to fall before the hard driving Mustangs in last week's free-for-all against Howell.

Northville unleashed its powerhouse on the very first play from scrimmage, with Bob Starnes, halfback, racing around end for a 60-yard touchdown. Wade Deal, center, kicked the first of five extra points.

Less than four minutes later, Northville scored again. Fullback Bill Walker slashed through center, found an opening and sprinted 56 yards up the middle for the magic marker. Deal added his second point.

The local eleven scored three more times before the half. Larry Nitzel pulled in a Howell pass on the Northville 44 and outraced a host of would-be tacklers to the goal line; Bill Boyd, quarterback, plunged over center from the one-yard line after a 37-yard gallop by Starnes, and Walker scored his second touchdown, smashing across the goal line from the one with only seven seconds to go.

Deal's kick went wide after Walker went in for the touchdown.

Howell scored its lone touchdown late in the second quarter after recovering a Northville fumble on the Mustangs' 26.

Mustang Quarterback Fred Schwarze carried the ball for Northville's first second half tally. The series of short jabs which led to the score originated on Howell's 27 where Halfback Roger Cheeseman recovered a Howell fumble.

Deal's kick again failed to pass through the uprights. Late in the third quarter, Boyd intercepted a Howell pass and skirted around end for a 36-yard touchdown. Deal's kick was good.

Starnes electrified the crowd in the final quarter with a 97-yard gallop through the stunned Howell gridders, but the touchdown was nullified by a Northville penalty. The star halfback, a candidate for an all-state berth, was still gasping for aid when two plays later he broke loose again and dashed 88 yards.

Starnes and Walker led Northville in rushing yardage; the halfback rushed for 210 yards in six plays for a 35-yard average, and Walker rushed 108 yards in eight carries for a 13.5 yard average. The team as a whole average 9.5 yards per rush.

THAT WALL AGAIN — Howell's righting eleven found the crashing tackles and blocks of their opponents just too much to handle. The spirited Mustangs allowed Howell only a few short jabs across scrimmage, holding the total rushing yardage to 121. One of the Howell gridders is pictured above just after he ran into the Northville wall. Three Northville players, including End Jeff Goodrich and Center Wade Deal, appear ready to pounce on the ball carrier tripped up by a fourth Mustang, End Ronald Loynes is shown at the rear.

This is Your Last Chance To Win Grid Quiz Money

It was another week of upsets on the gridiron, but for Dennie Templeton picking the winners was easy. The 15-year-old 10th grader almost had a perfect entry!

Dennie, who lives at 21875 Novi road, easily won top honors and \$10 as he managed to forecast the outcome of everyone of the 15 games in the weekly football contest except the Michigan State-Minnesota game.

Next best entry came from Jim Riley, 717 Grace. Jim, 13 and an eighth grader, missed three games. Several others tied Jim, but his 36 to 17 prediction of the Lions-49er's score was closest to the final result, 35-21.

Both Dennie and Jim are active in sports. Dennie is a back on the junior varsity squad, while Jim played for junior high.

This week the curtain will be drawn on another season. The final contest appears on page 13.

And because it is the last week, Ye Olde Football Editor will give all the contestants the benefit of his acute knowledge of the game by forecasting a few of the more interesting games.

Write these down on your pigskins: Michigan over Ohio State; Iowa over Notre Dame; Oklahoma to fall to Nebraska; the Lions to roar over Chicago's Bad Bears and Northville to finish with a perfect season over Clarenceville.

Earns Academic Honors

Cadet James A. Lawrence, son of Mr. and Mrs. Alex M. Lawrence, 19777 Meadowbrook road, Northville, has been cited by Colonel C.L. Persing, headmaster of Western Military academy, Alton, Illinois, for superior academic work.

Cadet Lawrence in the college preparatory course has maintained a high honor average for the past semester.

Exchange Officers Exchange Officers

The Northville and Brookland Exchange clubs completed a "President's Exchange" this week as a part of a national program for all clubs.

Tuesday night Northville President Eugene King, along with Vice President Dempsey Ebert and Meritt Meaker, secretary, took over the officers' reigns of the Rochester area club. A. Russell Clarke, Wilson Funk and Fred Van Atta of the Northville Exchange also attended the Brookland meeting.

Last week the regular meeting of the Northville club was conducted by Mike Giamcotto, Brookland president. With Giamcotto were Darrel Looney, Harold Weaver and the Rev. Norman Kuck, secretary of the Brookland club.

NEWS FROM THE AMERICAN LEGION

POST 147
REX HOLLOMAN — REPORTER

A new guide to hundreds of college scholarships available to qualified high school students of this area has been presented to the Northville high school library by the Lloyd H. Green Post No. 147.

The 76-page publication, which has just been revised for use during the 1958-59 school year, has been recognized as one of the major scholarship guides now being issued in the United States. While it gives special listings of scholarships which have been established for children of veterans, particularly children of deceased veterans, it also lists many other scholarships and educational aids which have been made available to young people generally. James Madigan, educational and scholarship chairman of the American Legion post, stated that thousands of young people have failed to take advantage of generous educational aids which have been offered.

He mentioned in particular the War Orphans and Educational Assistance Act of 1956 which provides up to \$110 per month in educational help for sons and daughters of veterans who lost their lives in or as a direct result of military service in time of war. A fairly large portion of the young people eligible for this help have failed to apply, Madigan said.

He also urged high school students to start making plans for their higher education by no later than their junior year. "The boy or girl who starts checking scholarship sources and making arrangements early is the one with the best chance of going on to school," he said.

The American Legion scholarship guide, which is entitled "Need A Lift?" is available for the use of interested students, parents and high school officials. The publication is now in its eighth edition and more than a quarter million copies of the popular handbook have been distributed since it was first issued in 1951.

Plan Christmas Party

Civil defense was the discussion topic at the November meeting of the Northville No. 1 extension group held in the home of Mrs. Robert Horner.

Guest leader, Mrs. Pat Ort of the Robinson subdivision extension club, directed the discussion.

The next meeting of the group will be a Christmas party December 8.

Mrs. Isabella McLellan, Wayne county home demonstration agent, and Mrs. Harry Stuck, county club president, are expected special guests at the December meeting.

MRS. BERTHA WARD

Former Northville resident, Mrs. Bertha Ward, died in her home at Newberry, Michigan November 14. She had been in failing health for some time. Mrs. Ward, who was born July 22, 1868 in Ovid, Michigan, the daughter of John and Rosanna Clark, had lived most of her life here until she moved to Newberry some 25 years ago. Her husband, William, preceded her in death. She was the twin sister of the late Mrs. Myrtle Kenner of Northville. Mrs. Ward is survived by five nieces, Mrs. John Gowman of Pittsford, Mrs. Ford Becker of Pittsford, Mrs. Moody Johnson of Detroit, Mrs. Eva Ritter of Silver Springs, Maryland and Mrs. Ila Goodell of Lansing; and by two nephews, Roy Kenner of Northville and Ross Kenner of Novi. Funeral services were held November 18 from the Casterline Funeral home with the Rev. Peter Nieuwkoop of the Northville First Baptist church officiating. Burial was in Milford cemetery.

ESTHER M. HARNDEN

Funeral services were held November 15 for Miss Esther M. Harnden, 115 Church street, who passed away at Atchison hospital. She had been in failing health for the past year. Miss Harnden was born October 27, 1893 in Detroit, the daughter of Ora and Julie Harnden. She is survived by two brothers, John C. of Novi and Clarence O. of Grosse Pointe; by four nieces, Mrs. Ruth Comer of Northville, Mrs. Eleanor Coleman of Hazel Park, Mrs. Ora Lou Gibson of Royal Oak and Mrs. Nanette Kilbourne of Mason, Michigan; and by two nephews, Allan Harnden of Novi and Marvin Harnden of Detroit. Miss Harnden had made her home in the Northville area for the past 30 years. She was a member of the Novi Methodist church, Orient chapter No. 77, OES, Northville, Trinity White Shrine No. 44, Farmington, and had been employed before her retirement as a bookkeeper. Services were held from the Casterline Funeral home under the auspices of Orient Chapter 77, Eastern Star. Burial was in Grand Lawn cemetery.

WILLIAM FRANK TAYLOR

Funeral services were held November 15 at the Schrader Funeral home in Plymouth for William Taylor who passed away suddenly November 12 at the age of 92. The Rev. Melbourne Johnson officiated. Mr. Taylor was born in Pinckney, Michigan May 3, 1866, the son of Major Duane and Melina Hughes Taylor. He was married July 5, 1892 to Hattie L. Taylor of Novi. Most of his life has been spent in the vicinity of Plymouth and Northville. For the last few years he had resided at the home of his daughter on Northville road. Surviving him are his wife; one daughter, Mrs. Walter Kleinschmidt; four grandchildren and 10 great-grandchildren. His son, Claud, preceded him in death November 13, 1931.

HARRY BRAY

Harry B. Bray, 48881 West Seven Mile road, Northville, passed away November 12 at Beyer Memorial hospital in Ypsilanti, where he had been confined for the past week following a stroke.

O b i t u a r y

Mr. Bray was born November 13, 1882 in Eau Claire, Wisconsin, the son of William and Lucinda Bray. He was married to Maude Arthur November 1, 1956 by Dr. Scott, pastor of the Miami Beach, Florida Community church. In May, 1957 Mr. and Mrs. Bray moved to Northville. Mr. Bray, a retired photographer, made many friends during his short residence here. He was a member of Northville Masonic Lodge 186 F.&A.M., Eastern Star, Orient Chapter 77, of Northville, Trinity Shrine 44 of Farmington, Little City Lodge 25 IOOF of South Lyon and South Lyon Rebekah Lodge 485 IOOF. He is survived by his wife, Maude; by a brother, D. W. Bray of San Diego, California; by four stepchildren, Harold Farmer, Dorothy Farrell and Vivian Junod of Northville and Genevieve Ely of Dania, Florida; by five grandchildren and five great-grandchildren. Funeral services, performed by the Rev. Paul Cargo of the Northville First Methodist church, were held November 15 from the Casterline Funeral home, and graveside services were conducted by F.&A.M. Lodge No. 186 of Northville. Pallbearers were Earl Gray, N. K. Pattison, Heck Francis, Hiram Blowers, Lawrence Miller and Howard Fuller. Burial was in Riverside cemetery, Plymouth.

MRS. CLARA H. BERRY

Mrs. Clara H. Berry, 22361 Garrison, Dearborn, passed away here November 11. Mrs. Berry was born April 4, 1871, the daughter of Mr. and Mrs. S. L. Rhodes. Her husband, James A., preceded her in death. She is survived by a son, James, of Dearborn and by two grandchildren. Funeral services were held from the Dempsey B. Ebert Funeral home November 13. The Rev. John O. Taxis of Northville's First Presbyterian church officiated. Interment was in Rural Hill cemetery, Northville.

Married Here Wednesday

Dian Marie Nogle and Theodore Franklin Lickie, both of Detroit, were united in marriage by Justice E. M. Bogart Wednesday evening, November 12. Mrs. Bogart and Mrs. W. M. Bogart were the attending witnesses.

NORTHVILLE NEWS AROUND

Mr. and Mrs. Merrill Sweet and Mr. and Mrs. Tom Holmes are vacationing in Briny Breezes park and Delray Beach, Florida.

Cherie Krauter, daughter of Mr. and Mrs. Wilbur Krauter of West Main street was honored at a bridal shower Tuesday evening given by Lou Ann Comer and Shirley Schoof. Some 25 guests attended. Cherie will be married to Duane M. Shear of New Hudson January 24.

An open house will be held for fellow-alumni and friends of Ed Wittenberg at 6 p.m. November 29 in his home at 515 Linden court.

IDENTIFYING A CHRISTIAN

How can one tell whether a person is really a Christian? Can he tell because he claims to be a Christian? Well, hardly, for a vast majority making this claim, I'm afraid, are false professors. Can one tell because a person has been baptized and a member of some Church? No! This is not the test either, for in this day of easy baptism and Church Membership many have these qualifications but may be like Simon the sorcerer in Acts 8:13 who was baptized and was still not a Christian. Well, what about those people who are engaged in social services, or who give vast sums for worthy causes; who visit hospitals, sanitariums, etc. — do not their works prove that they are Christians? No! I'm afraid not. A person may be a great humanitarian or philanthropist and still be an unbeliever. What tests can be made of a real Christian then? First, we would expect him to know how to become a Christian according to the way spoken in the Bible. Second, we would expect him to know something about the time and place of his experience of becoming a Christian. Third, we would expect that there would be an evidence of a change for the better in his life. Can you pass this test?

BUT THE BIG ONE — Donald Richardson of Northville Sand and Gravel is mighty proud of the trophies tied to his car above, but for the flip of a coin he could have had an even bigger prize. Richardson, who lives in Dearborn, bagged the five-point buck opening day about four miles south of Hubbard lake on "The Last Drink Club" property. The deer dressed out at 122 pounds. On the following day, Richardson and his partner, George Sonda, returned to the same spot where he killed the buck. Two bears, one a 387-pound female and the other a 158-pound cub, were feeding on the entrails of the deer. Richardson flipped a coin with Sonda to see who would shoot the big one . . . that's the cub Richardson is holding.

Teen Dance and Movie At Legion Hall Saturday

A movie, "Silent Service", will precede the weekly teen dance this Saturday at the American Legion hall, sponsored by the Navy recruiter.

The dance will be followed by a meeting of the dance committee. All members are asked to be present.

It's a Big Night for the Dads

The Northville Record

THE OLDEST WEEKLY NEWSPAPER IN WAYNE COUNTY — EST. 1868 Thursday, November 20, 1958—11

THAT'S MY BOY — There were beaming smiles — and yes, a few grimacing frowns as the clatter and thud of shoulder pads, muscle and bones echoed back to the cheering crowd. It was Dads' Night. And Northville fathers were wearing their sons' jersey numbers. They sat in seats of honor along the sidelines. It was a night of "Did you see that, he's my boy" or "Give it to my boy, he can do it." And on the field, where Northville players seemed to sense the sideline commentary, Howell fell under a trampling number of touchdown passes and runs, 53-7.

VICTORY FEAST — After the game, fathers and sons were guests at a special Dads' Night banquet in the community room. It was really a victory feast as the fathers and players celebrated the win with refreshments served up by the cheerleaders and high school student council.

SHOP TALK — It was all "shop talk" at the banquet, with players explaining their football strategy and fathers nodding in agreement with an occasional "but you could have . . ." Shown here enjoying the meal and the talk are (left to right) Jack Crawford, his son Hugh, and Lawrence Boyd with his son Bill.

Opening of New High School To Climax 10 Years of Planning

"It was about 10 years ago that someone first mentioned that we ought to begin looking toward the day we would need a new school," Principal E. V. Ellison recalled in his talk before the Northville Parent-Teachers association last week.

Almost immediately after the initial suggestion, a series of studies and discussions was set in motion by groups of lay and professional people on such basic planning problems as: site and building, school district boundaries, population size and distribution, curriculum and educational philosophy, financing and tax limits.

Opening of the new Northville high school, hopefully set for the first of February 1959, will culminate these 10 years of study, planning and direction.

The study group findings were eventually presented in written reports, Ellison continued, along with suggestions for new developments or revisions in existing facilities, program and policy — all finally converging on a concrete plan for school design.

The senior high curriculum study report suggested the educational advantage of closer interaction among "related" academic areas. It pointed out a "deficiency" in counseling and library facilities.

Building and finance committee findings reported that the one-level school design could be exploited to best advantage on the existing spacious site and prove more economical than a multi-level structure.

Reviews of modern educational philosophy showed emphasis on more personal approaches in teaching methods than in the past.

The result was a functionally-de-

signed campus style school arranged in separate class-cluster units.

Using a layout illustration of the campus, Ellison guided visitors at the P-TA meeting through a room-to-room tour.

The music, auditorium and shop classes were combined in an area compound, he pointed out, not only because they comprise the "noise" area of the school, but because of their functional relation to each other.

Music facilities are often used in auditorium "productions" and shop facilities, for construction of shop props.

The idea was similarly applied to the other room clusters.

The individual-unit layout also seemed best to meet the needs of the more intimate teacher-student and student-student relation today, and to be flexible enough to adapt to future developments in educational practices or physical expansion.

Again following the recommendation of the study committees, counseling facilities were increased to

the suggested one counselor per grade with separate offices, and library facilities, expanded.

Wherever possible, Ellison added, physical facilities and design permit multiple use of facilities, and otherwise, 100 percent room usage.

Athletic Director A. E. Jones discussed, at the same meeting, athletic developments now opened up with the new school facilities.

He suggested expansion of the present sports' program to include adequate tennis and track facilities, and to introduce sports' subjects that would carry interest into the student's adult life, such as golf, archery, etc.

Over 500 students will make use of the new school this February.

Ellison pointed out that the campus style lends itself well to expansion, but concluded with another look into the future, "High schools can become too large to do a good job."

"I'd say 1,000 students is about the optimum number for teaching effectiveness and economical financing."

"... We Need 'em Fast!"

THE ESCENE IS the traffic department of any of the hundreds of manufacturing plants in Michigan. The time is 4:00 P.M. on any day of the week. The traffic manager is talking long distance to a supplier in another state about some parts needed for production.

"Send 'em by truck," he says, as he prepares to hang up, "we need 'em fast!"

He knows from experience that motor transport is the fastest link between shipping and receiving. He knows he can depend on it. In fact, he and thousands of his fellow traffic managers have been the men most responsible for the rapid growth of motor transport. Once they experienced the efficiency and speed of trucks, there was no satisfying them with anything less — and today their companies could not operate successfully without truck transport!

That's something for every wage earner in Michigan to think about.

Official Minutes of The Novi Board of Education Meetings

October 8, 1958

The regular meeting was called to order at 8:20 p.m. by President Heslip.

Present: Heslip, Crawford, Taylor, Erwin and Dr. Medlyn. Also present were Mr. Weiland of Charles W. Lane & Associates, Mrs. Weisberger, Mrs. Lyke, Mrs. Rose, Mr. Campbell, Mr. Fried, Mr. Milder and Mr. LeButt.

Minutes of previous regular and special meetings were read and approved.

The following Treasurer's Report was read by Mr. Crawford:
General Fund, \$19,038.89
1957 Building and Site, \$165,353.31
1950 Debt Retirement, \$8,420.86
1955 Debt Retirement, \$26,127.19
1957 Debt Retirement, \$11,932.96
The following communications to the board were read by the secretary:

a. From the Oakland County clerk, statement including excerpts of Act No. 135, Public Acts of 1957, pertaining to annexation methods.

b. From Mr. Oliver T. Rose, commenting on a previous letter published by Mr. Weisberger on long-range planning methods.

c. From the Oakland County School Board Association, announcing results of a general meeting.

d. From the Novi School Study Group, requesting written general policy as follows:

1. That a general policy be written limiting class size to 30 students per room at the start of a school year.

2. That a general policy be written to the effect that students who complete grade work on a subject before the end of a school year be encouraged to tackle advanced grade work, using books not normally encountered in the advanced grade.

3. That the school administration set up a written policy concerning the home work that should be given students in various grades; and

a. That the teachers work up a memorandum for parents concerning how much and what kind of help should be given students with home work.

4. That a general policy be written to the effect that all written work by students should be thoroughly corrected and graded.

5. That some sort of policy be established toward obtaining outside help to relieve teachers of supervision of lunch and recreation periods.

6. That a system of semi-annual conferences for parents and teachers be set up for Novi; and

a. That, if possible, have an open house early in the fall to explain the importance and purpose of such conferences.

7. That land be purchased for possible future high school site. Each item was discussed in order by the board with the following results:

Item 1 — Board has always considered 30 as an upper limit. Occasional failures to hold to this size are due to annual state school census being held before the house building season, last minute resignations of teachers and the insufficiency of funds to pursue a rigid policy of employing a new teacher each time a class were to have more than 30 pupils. It was pointed out that based upon enrollment figures of October 8, that an average class size of between 27 and 28 existed within the system.

Moved by Bernard, supported by Crawford, that: The Board of Education recognizes the desirability of limiting class sizes to 30 pupils, and will, to the best of its ability, restrict class sizes to this figure at the beginning of the school year. Motion carried.

Item 2 — A consensus of board and superintendent indicated that the success of this idea was dependent upon teacher understanding of the aims and benefits of such a program. A special board meeting at which teachers and members of the School Study Group could mutually discuss all aspects of the proposed program was felt to be necessary, and the secretary was instructed to arrange such a meeting for October 29, if possible.

Item 3, 4 and 5 — were discussed at length with reference being made to results of the parent and teacher surveys of the previous school year. Again the board felt that these items required discussions with the teachers and these items were referred to the proposed meeting.

Item 6 — Semi-annual conferences had been discussed, and Mr. Medlyn set October 24, from 8:15 a.m. to 5:00 p.m., as the tentative first day on a pilot plan basis, and scheduling only a portion of the class.

a. — Open house normally comes later in the year and it would be too late to explain the above conferences, but it was agreed that this was a logical time for such an explanation.

Item 7 — Money for this land purchase was not available at present, but the portion of the bond issue application including such funds was in the hands of the Municipal Finance Commission for approval, prior to the proposed bond sale, planned for December or January of this school year. Meanwhile the board members have individually discussed particular sites which had been suggested.

Mr. Fried said that it had been

intended to release the requests to the Novi News, but that they would be withheld until the board had given their answers to all of the proposals. Mr. Heslip asked that the study group return at the time of the next regular meeting for board answers to proposals on which no action had been taken.

Mr. LeButt and Mr. Mildas were present to request a revision of the school bus schedule to include kindergarten children living in their neighborhood, Willowbrook No. 2.

Moved by Erwin, supported by Crawford that the superintendent be directed to attempt bus schedule revisions to include the transportation of kindergarten children from Willowbrook No. 2 to the Orchard Hills School. Motion carried.

Mr. Weiland reported that the architect did not feel the added expense of running electrical conduit to the proposed point of attachment of a future unit D at the Orchard Hills was justified, and recommended that this not be done.

Copy for the name plaque for the Orchard Hills school was approved by the board.

A report on pump difficulties, with the proposed solution, was given and approved.

The vinyl tile multi-purpose room floor was questioned, and Mr. Weiland was asked how much would be needed to provide a wood floor. A figure of approximately \$2,500 was given, but no action was taken on this matter.

A list of proposed reference books and other titles for library use was presented as requested previously by the board.

Moved by Bernard, supported by Crawford, that purchase of new library books as listed be made, the total amount expended to be \$2,400.

It was proposed that bids be requested for the sodding of areas south of unit A and east of unit B at the Orchard Hills school.

The architect was requested to determine answers to questions regarding the compaction tests, final completion date, and whether or not the paving was to be completed this fall as directed.

Mr. Medlyn presented a statement from Cadillac Asphalt Paving (on work at the Novi school) requesting an additional \$150 for extra grading. The board directed Mr. Medlyn to reply that this work was not requested or authorized by the board.

The Audit Committee questioned items on a bill in the Miesel account, also other bills, and requested that Ward's Service bills be rendered monthly.

Moved by Taylor, supported by Erwin, that bills be paid, (list on file with amounts, including certificates of payments to contractors) except that Miesel bill to be checked before issuance of a check for payment. Motion carried.

The meeting was adjourned by President Heslip at 1:15 a.m.

October 22, 1958

A special meeting was called to order by President Heslip at 8:10 p.m.

Present were Heslip, Crawford, Taylor, Erwin, Bernard and Dr. Medlyn. Also present was Mr. Mairs.

Three bids had been requested for the sodding of a portion of areas in front of units A and C at the Orchard Hills school. Three different types of sod were allowed, and the bid form subdivided the total area into three parts.

Two bids were received; one from Green Ridge Nursery, the other from Haerr-Larson Landscape Service.

Based upon the preferred Merion Kentucky Blue Sod, (the only type bid upon by Green Ridge) Haerr-Larson was low bidder for sodding at a total of \$919.75. Green Ridge bid \$1,342. The prices of extra materials and labor required to produce a complete job were requested separately. Haerr-Larson bid \$60 for extra labor of preparations required. Green Ridge bid a total of \$422.76 for preparation labor, \$150 for additional top soil and \$66.55 for fertilizer.

The wide variance in the extra labor and material prices were discussed at length.

Moved by Bernard, seconded by Crawford, that Haerr-Larson be awarded the work for the total sum of \$979.75, with the condition that a committee of two be appointed to authorize commencement of the work after discussion of possible contour and elevation changes with Mr. Larson. Carried.

Mr. Heslip appointed Erwin and

Bernard, who were to meet with Mr. Larson on the site on the following morning. In addition they were directed to investigate the reasons for concrete exposure at grade level in various parts of the school.

The meeting was adjourned at 10:20 p.m.

October 28, 1958

A special meeting was called to order at 8:20 p.m. by President Heslip.

Present: Heslip, Crawford, Taylor, Erwin, Bernard and Dr. Medlyn. Also present were Mr. Lane and Mr. Weiland of Charles W. Lane and Associates, Mr. Fordon of Atkin-Fordon Co., and Mr. Buton of Novi Building Service.

Mr. Heslip called upon Mr. Lane to review the background of the board request to have blacktop installation in the drives and parking area completed before winter.

Mr. Fordon indicated that he did not feel that the installation of the paving without a winter of settlement and freezing and thawing cycles was practical. Reminded that the board had tried to avoid anticipated difficulties of mired buses, mud cleaning, and lack of outside play area, by specifically requesting the architect to ensure an early installation of the paving. Mr. Fordon said that he did not foresee much difficulty in these areas after the on-set of freezing weather. Mr. Buton expressed concurrence with both opinions. Mr. Fordon said that Mr. McGee of McInnes Asphalt Paving Co. stated that the sub-base below the gravel base was water-logged, and that the water worked up into the gravel upon compaction, making paving impossible.

A discussion concerning the sub-base construction ensued, in which Mr. Fordon contended that the water contained in the sub-base was present as a result of sub-surface flow from higher ground to the north and west. Mr. Lane expressed the opinion that the water existed as a result of rainfall, surface drainage and storm water runoff from the roofs of the school which had been directed onto the drive.

Mr. Heslip asked Mr. Lane what could be done to assure the board the use of the drive throughout the winter and spring. Mr. Lane felt that the results of moisture tests asked for by his office from Atkin-Fordon, would be necessary to give a proper answer. Mr. Heslip asked about the possibility of switching to reinforced concrete paving and Bernard asked about the possible useage of soil cement stabilization as in interim solution. Mr. Lane suggested that expert opinion could come from Professor Housel, a soil mechanic expert at the University of Michigan.

Mr. Lane asked Mr. Fordon the following questions: Will you place the asphalt paving this fall?

a. No, we do not feel that it would be practical.

q. Would you guarantee the work if directed to complete it this fall?

a. No, he could not.

q. Can you offer a solution to provide proper access to the school this fall?

a. Mr. Fordon did not feel that such a problem would arise, and that he would be willing to provide some slag for spreading by school personnel, and that possibly some major work could be done if the need were to arise.

q. When would you pave?

a. In July or August.

Mr. Lane proposed:

1. That the full retention of 10 percent of the general contract price be withheld, along with the \$12,800 sub-bid amount for paving until final completion of the paving.

2. That the investigation on soil cement, concrete paving, etc. be initiated.

3. That there be an insistence on the completion of moisture tests and other tests at the expense of the contractor.

Mr. Lane felt these steps necessary in the face of the inability of the contractor to provide assurance of complete accessibility during the remainder of the school year.

Mr. Lane was directed to write a letter to the general contractor embodying the propositions presented by Mr. Lane.

Moved by Bernard, supported by Taylor, that Mr. Housel be directed by Mr. Lane to investigate the existing soil conditions, and to recommend a solution which would assure vehicular access to the Orchard Hills school. Motion carried.

The meeting was then adjourned

by President Heslip.

October 29, 1958

A special meeting was called to order at 8:15 p.m. by President Heslip. Present: Crawford, Heslip, Taylor, Erwin, Bernard and Dr. Medlyn.

Also present were Mrs. Lyke, Mrs. Bernard, Mrs. Weisberger, Mrs. Fried, Mrs. Kopus, Mrs. Bowlers, Mrs. Penhale, Mr. Young, Mr. Jennings and Mr. Knodle.

The meeting had been called specifically to discuss recommendations No. 2 through No. 5 of the Novi school study group, with both teachers representing and members of the study group. (See minutes of October 8 meeting for list of recommendations.)

Mrs. Weisberger reviewed the aims of the Novi school study group, telling of the various committees, and their aims in proposals No. 2-5, to which the discussion was to be limited.

Recommendation No. 2 of the Novi school study group was read by the secretary and discussed by the teachers, the board, and members of the school study group.

Moved by Bernard, supported by Erwin that: To encourage the advancement of those students who have completed grade requirements in any subject, the Board will make available the sum of \$50 for the purchase of books and materials for each class room. The use of the money will be restricted to the purchase of materials whose subject matter is advanced beyond the grade in which the pupil is enrolled. The teacher will make all choices, but the principal and superintendent will approve the material to avoid purchase of materials which are to be used in succeeding grades.

Proposition No. 3 was read by the secretary and discussed by the teachers and the Novi school study group.

Mr. Bernard proposed the home circulation of letters, indicating basic home work policies of the teacher together with his or her specific ideas on correction, amount, grading and giving a clear statement of the teacher's views on parental assistance with home work. In addition, it was suggested that an attached questionnaire be included (with a request to return it, together with an acknowledgement of the receipt of the homework statement) asking the parent, in turn, to inform the teacher of any physical defects which might affect the ability of the child to work at the level of his capacity to learn, together with an invitation to the parents to make written comments which would assist the teacher in the anticipation or corrections of emotional or other problems. Finally, he suggested the inclusion of a statement to basic board policies which affect the pupil-parent-teacher relationship, i.e. policies on grading, achievements, promotion, behavior, attendance, sickness or injuries, and communications all to be sent to the parents in the interests of promoting closer home-school ties.

This proposal was discussed, without formal action being taken, and a consensus of board opinion indicated that Proposal No. 3 be referred to the teachers and Mr. Medlyn for an early report to the Board.

Proposals No. 4 and No. 5 referring to grading of all written work and outside assistance for supervision of lunch and recreation periods, respectively, were referred to discussion between Mr. Medlyn and the teachers for their early recommendations to the Board.

The meeting was then adjourned by President Heslip.

November 5, 1958

A special meeting was called to order at 8:13 p.m. by President Heslip.

Present: Heslip, Taylor, Crawford, Erwin, Bernard and Mr. Medlyn. Also present were Mrs. Rose, Mr. Fried, Mr. Moore and Mr. Mairs.

In a discussion concerning a questionnaire issued to several members of the teaching staff by the Novi school study group, Mr. Fried stated that the questionnaire had been seen by the superintendent, that

the group had never intended to be part of or arm of, the board of education, and did not ask for the sanction of the board. He stated that the Novi school study group had not foreseen the reaction of several teachers in objecting to the inclusion of several questions on their qualifications, degrees and colleges attended as being identificatory. In addition, Mr. Fried stated that there was an indication of there being something wrong with the system if a teacher was unwilling to identify himself or herself with possibly critical statements or answers given in the questionnaire.

Mr. Moore, head of the teacher qualification sub-committee of the Novi school study group, said that the form was devised to determine how Novi compares with other systems in this regard. He stated their aims, in a long-range program were to determine:

1. What we have.
2. What others have.
3. What we should have.
4. How to do it (3)?

Members of the board indicated that, because the material was circulated within the school, that an inference of Board knowledge or approval was given. Without ruling on the controversial "identification" aspects of the questionnaire, the Board instructed Mr. Medlyn to simply indicate to the teachers that the Board of Education had no prior knowledge of the questionnaire, and that each individual teacher was free to handle the matter as he wished.

Moved by Erwin, supported by Crawford, that all material or questionnaires requesting personal or educational background information, presented by outside organizations for circulation or distribution in the school buildings, must be submitted to the board of education for prior approval.

Moved by Bernard, supported by Erwin, that an additional \$50 be provided to Haerr-Larson Landscape Service for additional top soil to be used to increase the finish grade to the immediate east of the multi-purpose room and to furnish additional top soil for two planters, all at the Orchard Hills school. Motion carried.

Moved by Erwin, supported by Crawford that an additional \$30 be expended for the relocation of a power outlet in the unit B office. Motion carried.

Moved by Crawford, supported by Taylor, that Ivan and Alvin Fisher be permitted to continue in attendance for the remainder of the present school year, with permission of the Walled Lake school district, if necessary. No precedent is meant to be established by this action, and each future case will be decided upon the particular factors of the situation.

A proposed reply to Mr. Weisberger's letter to the board was read by the secretary, and after some changes, the board authorized the following reply:

Nov. 7, 1958
Mr. Bernard A. Weisberger
23941 E. LeBost
Novi, Michigan.

Dear Mr. Weisberger:
The Board of Education sincerely regrets that we did not have your voting help in the election of September 22. We wish to state our views on the reasons you gave to justify your negative vote, — that is, that "the request was late, poorly-publicized and ineffectually made".

Front page stories related to the issue appeared as early as May 1 and June 12 in the Novi News, and the Board did not receive notification of the County Tax Allocation Board authorization of a 7.98 mill levy (in comparison to our 10.81 mill budget) until June 11.

The necessary re-examination of our position and the determination of the course to be followed was felt to be an area in which the new board members, elected on July 14, should take part.

On August 27, the decision to hold

the election on September 22, in order to enable us to get the money this year, was made; unfortunately, it came too late for inclusion in the paper of the same day. Legal advertising requirements were complied with, and we feel that the prominent coverage over the succeeding three weeks. We are limited by precedents established on the basis of taxpayer suits against other boards, as to the amount and type of advertising we may do, and we must depend, to a great extent, upon local newspaper stories for publicity.

We made no secret of the fact that the millage was required to avert a year-end deficit and to avoid continued deficit financing. In deciding upon a 2½ mill request, we asked for an amount we felt was necessary to continue our basic program of providing a full day of school for all of our children, under the direction of qualified teachers in classes whose sizes average less than 30 pupils — all in a plant which offers something better than a minimum of facilities, equipment and books. We concede to you that asking for more money than the 2½ mills without a specific program of improvement or enrichment would be a mistake, and people would certainly be justified in rejecting it.

Unfortunately, based upon the extensive comments we have received before and after the election, a majority of the people who voted against the issue did so for a less philosophical reason than yours — they felt they could not afford to pay the resulting higher taxes.

We are thankful that a majority, however small, of the people in the district voted affirmatively on the increase, and feel that the children of the district would be the ones most affected if the issue had been turned down — we can see no benefits arising from a rejection of what you termed our request "for dribbles of money to plug holes in a system running normally".

In view of your vote, we feel strongly that the description of our campaign for the increase as being one "dominated by negative thinking" was decidedly unfair. In addition the attitude of your question as to whether or not we "observe a definite priority between, say, football uniforms on one hand, and charts, maps, science exhibits and library books on the other," reflects upon our basic powers of judgment. However, we refer you to past minutes for the facts, from which you may decide for yourself how we feel.

We are in a position to determine the pressing needs for improvement in our district and will freely admit that we are far from perfect. Our overall responsibility requires us to avoid adoption of superficial or damaging policies, and improvements and changes must all be considered as carefully as possible. Earmarking of available funds when such a very large portion (approximately 90 percent) of our budget is committed to instructional costs

and other fixed expenses, would be a fiscal mistake.

Your suggestion of a four or five year plan would be ideal in a planned economy, but government at the state and county level, for better or for worse, has indicated that our anticipated revenues, even from taxes within our district, will be a variable which will challenge prediction for a long time to come. Another factor among many which defy extremely long-range planning, is the relatively underdeveloped condition of our district, which invites possible explosive increases in school population.

Your further advice that we secure help from "community representatives, the superintendent of schools and outside specialists" in the formulation of a scheme for better schools would produce an unworkable plan unless teachers were included in the group, and it is our intention to call upon them for advice and later cooperation in the adoption of policies which affect the pupil-teacher relationship.

The Novi School Study Group and the Mothers' Club have both presented suggestions for our consideration in areas where they felt some board action was necessary. We welcome such constructive criticism, have taken action on several of their suggestions, and appreciate the help that both groups have given so generously in a mutual desire for giving us an improved system. We look forward to a long period of cooperation with these groups, and suggest that they seem to be working on several of the same ideas which you have presented in your letter.

It would be impossible in one letter for us to give satisfactory and

complete answers to all of the questions you have asked us; and we do not wish to indulge in a running debate on the issues involved, but we felt that you deserved a general impression of our views. We appreciate your obvious interest in school affairs, and invite you to attend our public meetings, regularly held on the second Wednesday of each month at eight o'clock P.M. in the Novi School.

Sincerely,
Board of Education
Novi Community School District

Kenneth Bernard,
Secretary
The meeting was adjourned by President Heslip at 11:25 p.m.

Urge Stronger Support For Retarded Children

In recognition of National Retarded Children's Week November 16 through 27, Lee A. Trumble, president of the Michigan Association for Retarded Children today urged stronger support of local associations for retarded children.

The Michigan leader outlined the seven-point objectives of the Michigan Association for Retarded Children, which includes universal public acceptance and understanding of retardation; education and training facilities; custodial, hospital and nursery care; counseling, adequate personnel; more community facilities and research.

The association is presently administering 54 local chapters throughout the state.

Founded in 1950, the association now fosters such programs as camping services, medical research, legislative activity, commitment procedures, scholarships to specialized teachers and other endeavors necessary to the broad programs of assistance, care and education of retarded children in Michigan.

Atomic Plant Construction Progresses

Steady construction progress of the Enrico Fermi Atomic Power plant is shown in this aerial photo of the project located on the Lake Erie shore—seven miles north of Monroe and 30 miles south of Detroit.

The nuclear portion of the plant—the atomic reactor, heat exchangers and related facilities—is being built by Power Reactor Development company, a non-profit group representing 21 electric power and industrial companies.

Research, basic design and testing in connection with the project are responsibilities of another non-profit group, Atomic Power Development Associates, Inc. in which 43 industrial firms are associated.

The non-nuclear portion of the plant, a 150,000-kilowatt turbine-generator station to be operated on

steam purchased from the reactor section, is being built by the Detroit Edison company, member of both the PRDC and APDA groups.

Edison will own and operate the non-nuclear portion of the plant, while the PRDC will own and operate the nuclear portion.

Detroit Edison also has established an on-site Atomic Information Center (See 11) which, in the three months since its completion, has been visited by 12,000 people.

Other Michigan companies associated in the Enrico Fermi project are Bendix, Burroughs, Commonwealth Associates, Consumers Power, Ford Motor, Fruehauf Trailer, General Motors and Holley Corporation.

The Fermi plant, Michigan's first atomic-electric generating station, is scheduled for completion in 1960.

Motordom's New Measurement of Greatness!

The American motorist has long since adopted his own technique for judging the year's automotive offerings.

He simply looks to the new Cadillac car to discover motordom's fullest measure of all that is new and good and wonderful.

And never before has Cadillac placed such a high standard on the world's motor cars as it has for 1959.

For the new "car of cars" has introduced a whole new concept of what an automobile can do and be... and how it should look and act.

To the eye alone, it is a revelation. Elegant, majestic, substantial, poised—it has brought a new magic and splendor to the world of motion.

Its Fleetwood interiors are miracles of advanced design.

The majestic new Cadillac for 1959 is now on display—inspect and drive it today!

FOOTBALL CONTEST

IT'S FUN — IT'S EASY — ANYONE CAN WIN — NOTHING TO BUY!

\$10⁰⁰ First Prize **\$5⁰⁰** 2nd Prize

EVERY WEEK

— HERE'S ALL YOU DO: —

In each of the 15 spaces provided below place a circle around the team you believe will win. Be sure to pick a winner in all 15 games. Note that in one game it is necessary to pick the probable score. This will be used only in case a tie occurs and then the contestant whose score is closest to the actual score will be declared the winner.

All entries must be postmarked not later than 5:00 P.M. Friday. Entries may also be brought directly to The Record office before 5:00 P.M. Mail your entries to: Sports Dept., The Northville Record, Northville, Michigan.

Enter just once each week, but you may enter as many

weeks as you desire. In case of ties, prize money will be split.

Be sure to write your name, address and phone number plainly in the space provided. Free entries are available at The Record.

Employees of The Record or sponsoring merchants are not eligible to enter.

SPEAKING for the Record

by BILL SLIGER

There's a story on page one this week concerning the forthcoming improvement program of the city's water system.

We won't go into details of the project — it's covered in the news story.

But every taxpayer in the city should be aware of what the council is trying to do. Very likely, taxpayers will have to approve the project.

In an excellent presentation last Friday evening the council learned many things it already knew, and at the same time was given some new food for thought.

A summer-long study completed by the city's engineer, manager and public works' superintendent clearly pointed out the shortcomings of the system.

Councilmen were pretty well aware of these. Northville water — its pressure, quality and odor — is a source of constant complaint.

The council also learned what will be needed to correct the situation and provide the city with a top-flight system for many years to come. What's more important, two means of financing the project were outlined.

Under both systems of financing, the project would be paid off with funds from the water rates as paid by city users without raising taxes.

Plan number one is a straight revenue bond; plan two is a revenue bond with the general obligation of the city taxpayers to serve as a guarantee of payment.

Plan one greatly reduces the amount of money that can be borrowed because it must be secured by an ability to pay back at one-and-one-half times the amount borrowed. In addition the interest rate is generally at least one percent higher than plan two.

Obviously, plan two seems preferable.

There's just one small hitch, however. Plan two requires approval of the voters by a 60 percent margin.

Plan one can be initiated by the council without voter approval.

Every councilman knows how important and necessary the water improvement program is to the community of Northville. Because of this, they do not want to take a single chance of delaying the progress of the program. In fact, parts of the program have already begun. These "headstarts" will be paid from the proposed bond issue.

In other words, there WILL be a bond issue.

Whether it will be under plan one or two depends upon the city council and the faith they place in the voters of the community to support the water improvement project.

For that reason we hope that taxpayers will read today's page one "water" story. Let your councilmen know how you feel about the proposal.

We think plan two is the best for more than financial reasons.

It allows the voters to take part in community improvement, too, instead of sitting on the sidelines while the council makes the moves.

Chats with Parents

Proper Relationship of Child's Fears Important

I have a daughter, age 7, who is afraid of so many things that

I worry about whether she will ever outgrow her fears. She goes to sleep with the light on, has to be sure all doors are locked before she goes to bed, and is frightened almost to a frenzy of the doctor and dentist. Are other children her age fearful of so many things?

It should be some consolation to you to know that every child has his own individual set of fears and that most of them are normal ones. A certain amount of fear is necessary to the child's self-preservation — fear of fire, high places, traffic when crossing the street, or other things around him which he must avoid for his own protection.

Though fear is a universal human emotion, it needs to be tempered to the extent that it becomes a useful part of the child's make-up. Fears appear early in the child's life, much earlier than the knowledge he later gains about how to overcome them, or the equally important knowledge of how to distinguish between useful fears and those which may be harmful to him.

One of the first fears of most children is the fear of bodily injury which may result from the pinch or prick of a diaper pin, a fall, or some other pain producing experience. The psychological principle of the "conditioned reflex" may enter into the toddler's behavior and cause him to associate pain from a fall with standing on his feet and he may give up trying to stand or take a step for short periods after a fall.

Fears are of less importance in themselves than is the need for getting them into their proper relationship with the things that cause them. Fears of adults or older children are easily passed along to small children, and unreasonable fears within the family may be sensed and adopted by the

child. Your statement that your seven-year old feels a compulsion to check the door locks before retiring suggests that some other member of the family may be a door-checker, too. Children don't inherit fears; they are learned. Much of the child's learned behavior comes from what he sees, and most of the older-than-I-am behavior he sees in his own family.

The doctor-dentist-hospital dread is experienced by most children; resistance to them usually begins after the child learns to associate pain with them. The doctor gives painful "shots"; the dentist drills on a tooth; hospital treatment is necessarily different from the affectionate and protective handling the child experiences at home. Part of this fear of new places and strange situations of an unpleasant nature should be explained to the child in as much detail as is necessary to lessen the child's apprehension about it. A child should never be told that the needle won't hurt or that a tonsilectomy is painless. Deception of this sort will serve only to intensify his fears. Tell him the truth and try to make it as palatable as possible.

Fear of the dark is common among children. Usually the child is not afraid of anything in particular; he's just afraid of the dark. In her book, FEARS OF CHILDREN, Helen Ross likens children's fear of the dark to the adult feeling of loneliness. It is actually a desire to be able to see things which are familiar — the walls, a picture, a finger-painting brought home from school, or just anything which will make the child secure in the feeling that he is among familiar, protective surroundings.

Most of the fears of children — which come from outside the child

Michigan Mirror

House Split Gives Demos First Voting Majority

REPUBLICANS will start the 1959 legislative session stripped of all but a token of the power they held in state government a decade ago. They still control the Senate, 22 to 12, but the House is evenly divided at 55-55 and all the other state offices are held by Democrats.

The lack of a majority by either party means there is a question about which party will supply the presiding officer and which party shall be represented as chairman of House committees. There are a number of proposed solutions for the problem, but a satisfactory answer has yet to be decided upon.

Both parties shudder at the thought of the 1959 legislative session and the struggle for answers to accumulated fiscal and social problems.

As one observer stated it, the ancient rule of government by compromise will get a lot of practice.

The full impact of the House split is not yet known. It could mean new faces among legislative employees and vastly changed policies. It will certainly mean a harder Democratic voice in committees and on the floor of the House.

Republican caucuses will not necessarily arrive at the final answer on major issues now, even if party leaders can hold their votes on the same side.

Democrats, who for years have come up with their own decisions knowing they would be defeated on a final vote, now can produce a voting majority, so they anxiously shoulder some of the burden of the policies of the House.

Strategists await Gov. Williams'

Social Security Meeting Changed to November 28

The social security representative of the Detroit-Northwest Office will not make the scheduled visit to Plymouth on Thursday, November 27 due to the Thanksgiving holiday.

However, the representative will be at the Michigan Employment Security Office, 987 Lilley road, Plymouth, on Friday, November 28 between the hours of 1 and 4 p.m.

Residents of the Plymouth and Northville area who have social security matters to discuss should call at the Plymouth Employment Security Commission office during the above hours.

message to the Legislature this January with great anticipation. Republicans privately wonder whether his demands will change their tenor now that there is a chance the Legislature will be stalled until they are met, and that more of them might be approved.

In the past, Republicans say the strategy worked this way:

Williams would make demands that he and other Democrats knew the state could not afford without imposing burdensome new taxes, or reversing policies that existed for decades.

When Republicans controlling the legislature balked, he would take to the campaign trails charging they were hurting the cause of mental health, public health and other vital state services.

Legislators, seeing merit in some of Williams' ideas, sometimes would go part of the way.

The Democratic charge then would be that it was too little or it came too late, or that even if the legislature did put a program into action, it was a Democratic idea.

SPECULATION is rife, as the political writers say, about Williams' future after defeating Republican Candidate Paul D. Bagwell by 143,000 votes November 4 and running fifth on his own ticket.

Some are writing Williams off the Democratic slate in 1960 when delegates gather to pick a national ticket.

Williams defeated the late Albert E. Cobo two years ago by 290,000 votes and Democrats were predicting gains up to 450,000 by this year.

They reason that had he won by an overwhelming vote, national party leaders couldn't ignore him despite their apprehension about his labor organization ties.

Now, some observers are predicting the governor will try for U.S. Senator Patrick V. McNamara's seat in 1960.

This would complete the cycle started four years ago when Democratic strategists were forced to accept McNamara when their No. 1 comeback candidate was former Senator Blair Moody who died before the election.

Williams said he was more happy at the increases in Democratic-held offices this year than he was disappointed at the lesser majority he,

himself, achieved.

He said he was happy that Lt. Gov. Philip A. Hart defeated the incumbent Republican Senator Charles E. Potter; that more Democratic house members were elected and other victories scored.

But, out of the post-election as a new and stronger factor emerged Secretary of State James M. Hare, a former professor, who led the Democratic ticket.

Republicans say that Hare with others rode into office on Williams' coattails four years ago. Now, with Hare stepping up, there is a chance

the party will have to revamp its long-term plans to take into consideration his vote-getting power. Hare, who has not always agreed with party policy, has more weight to support his position within the closely knit circle of Democratic high command.

HOW TO SHOOT A TURKEY

It takes more than one shot to bag a turkey . . . on film. To really do justice to your Thanksgiving Day dinner, try shooting a picture sequence. (It's not only a lot of fun — but it will keep you occupied during that tantalizing wait for the dinner bell to ring.)

Here's a suggested sequence that you can use as a springboard for your own ideas:

1. Mom getting the turkey ready for the oven.
2. Guests arriving at the front door.
3. Dad peeking impatiently into the oven.
4. Mom proudly carrying the turkey into the dining room.
5. Dad carving the bird.
6. Junior happily attacking a drumstick.
7. Sis pushing back her empty plate.
8. Your favorite uncle enjoying a post-dinner nap on the sofa.

Sounds like fun doesn't it? But a word of advice. Bring in your camera and flashholder before Turkey Day so we can make sure your equipment is in good working condition.

Closing Commercial: We have fresh supplies of your favorite Kodak black-and-white and color films. Plus flashbulbs and batteries to fit your flashholder. Lay in a good supply so you won't run short right in the midst of your sequence.
