**HAPPY BOY** — Bill Juday has plenty of reason to smile. The stand-out Northville high school guard was named to every mythical all-state team published last week end.

## He's on Everybody's All State Eleven!

When 17-year-old Bill Juday graduates in June he probably will find a red carpet stretching from his front door to college athletic buildings throughout the nation.

The Northville high school senior received state-wide recognition last week end by first string guard posts on four mythical all-state football teams.

And, although it's won't be official until Sunday, the Associated Press has stated the Juday also is tops on its all-state eleven.

College and university coaches are not likely to gloss over that record without taking some recruiting measures. In fact one out-state school — Vanderbilt — has already approached Juday with an athletic scholarship offer.

According to Coach Ron Schipper, who rates Juday as the best lineman ever to play under him and one of the best guards in the state, the first team all-state awards received by the 180-pound guard probably is "a first" in Northville high school history.

At least two other players from Northville have received all-state awards. Bob Wagenschutz, first-string center for the University of Idaho, was named to the second all-state team in 1956, and Al Iversen, first string center and captain for Eastern Michigan university, was selected for the second all-state eleven in 1953.

The all-state selections published by the Detroit Times and News included gridirers from Class "A" schools as well as "B" and "C" schools.

As a member of the Times "All-State Dream Team", Juday will be treated to an exciting 3-day weekend program at Detroit beginning tomorrow. He and the other 10 members of the mythical team will wind up the weekend Sunday by being introduced to fans at Briggs stadium and watching on television between halves of the Lions-Chicago Cardinal game.

In addition to his selection to the four all-state teams, Juday was named to two all-suburban and two all-league squads. Three other Mustangs received similar recognition. They were Halfback Larry Nitzel, Guard Fred Mitchell, and Center Wade Deal. (For pictures and details see page 11).

Coach Schipper was one of seven suburban coaches who were singled out as football mentors with outstanding performance records during the past season.

Editorial comments heaped on Juday for his performance this year included:

"... an exceptional speedy blocker... field leader of a team that has won 31 straight games"

## Taxes Go Up And Down -- But Not Much!

That familiar notice — in brown envelope with a blue slip peering through from the inside — is making the rounds of the Northville school district.

It's the property owner's school and county tax bill. City residents have already received the "greetings". Township residents will have to wait a few days — but Township Treasurer Roy Terrill is certain they will not be overlooked. As soon as his records return from the county, the notices will be sent out. The bills also include the township tax.

The taxes are payable from December 1 until February 15 without penalty.

For all residents except those living in the Oakland county section of the city there will be a slight tax increase.

Because of a lower "equalization factor" for the Oakland county taxpayers, their tax bill (both county and school) will be \$36.69 per thousand dollars of assessed valuation. Last year the tab was \$38.5 per thousand.

In the Wayne county section of the city taxpayers will shell out \$40.15 per thousand dollars of their property assessment compared to \$37.72 last year. The change is due to a 1.64 mill boost in the school tax and an increase by the county. The equalization factor in the Wayne county area of the city did not change.

Northville township residents will have an increase, too. Their tax bills will be higher than the city because of a boost in equalization as well as county and township shares.

Township residents will be paying an equalized mill rate of 44.32 compared to 40.57 last year. Of this, 34.59 mills go to the schools, 8.49 to the county and 1.24 to the township government.

In the Plymouth school district section of Northville township tax bills are about 10 mills lower. This results from a 25.22 school millage levy.

City residents may pay their taxes at the city hall during regular office hours. Treasurer Terrill will be in the Manufacturers National bank in Northville during regular banking hours on Tuesdays and Fridays after notices have been sent out.

Superintendent of Schools Russell Amerman, pointing to the school's bleak financial picture under the state's money-squeeze, has already appealed to residents to pay their taxes as soon as possible. While the Northville schools are not presently in financial trouble, Amerman indicated that a prolonged delay in state aid could hurt after January.

### Committee to Meet On Hospital Drive

An organizational meeting for launching an area-wide campaign for funds for Community General hospital will be held this evening (Thursday).

Selected committee members have been called together by the hospital's board of trustees. The group will be divided into several individual committees to solicit business, industry, professional people, organizations and the general public.

The meeting will be held at 8 p.m. in room 11 of the junior high school (old high school). Entrance to the building may be made through the east door.

### Dance Break

Teen-agers who attend dances at the American Legion building each Saturday will have to do their dancing elsewhere until January 9.

The dances, co-sponsored by the Legion and the navy recruiter, will not be conducted during December.

### Put on Your Bibs Fellows!

City and school officials and employees will put on their bibs again Saturday when the Lloyd H. Green Post 147, American Legion, sponsors its third annual Hunters Dinner at the Legion hall beginning at 6 p.m.

The dinner is held each year in honor of Northville men who help make the city a better place in which to live.

The informal dinner program this year will again include specially prepared venison — maybe some raccoon — and two color films on out-of-doors subjects.

The Post's own chefs, Howard Wright and Frank Lewis, will perform in the kitchen. Jim Madigan is the dinner chairman.

in the Wayne-Oakland league and 24 of the last 25 against all opponents.

"Rival coaches rated Juday the finest defensive end in this area. "A terror both ways. Has starred for three years on a team which has lost only twice in that period."

Juday is the son of Northville Councilman and Mrs. Richard Juday, 304 Lake street.

### D Day For Dogs

Northville police, with the aid of the department of public works, will begin cracking down on stray dogs.

A DPW truck, manned by a policeman and DPW employee, will patrol city streets one day a week to pick up all unleashed dogs — both licensed and unlicensed — Chief of Police Eugene King announced this week.

The dogs will be kept at the city pound for 48 hours before being destroyed.

To retrieve them, owners will have to pay the fines prescribed by city ordinance: \$3, first offense; \$5, second; \$10, third; and court action for a fourth violation.

Dogs roaming at large have become an increasing menace and nuisance, Chief King said.

The new program will go into effect as soon as facilities are set up.

**LOOK FAMILIAR?** — Northville must have had his harness racing enthusiasts at the turn of the century, too. This picture, apparently taken at the old fairgrounds (now Northville Downs) was among a number of glass negatives found when a barn was being torn down to make way for the First Baptist church addition. For more pictures and story, see page nine.

## Legion Proposes Hammond As 'State Veteran of 1960'

C. Oscar Hammond, a member of Lloyd H. Green Post 147 of Northville since 1920, has been named "American Legion Veteran for 1960" by the Legion's 17th district.

The resolution was adopted at the district convention in Livonia and further resolved that Hammond be proposed for the state award as veteran for 1960.

Hammond was cited for his contribution to the American Legion programs of his post, district and the department of Michigan.

He is a past commander of the local post and the district and also a former vice commander of the department of Michigan.

At one time or another Hammond has held all offices in the Northville post. He served as

state vice commander during the year 1955-56.

Selection of the state veteran of the year will not be announced until next spring.

## Few Attend Novi 'Bonfire Rally'

With only a "handful" of N.S.A. residents present, the mothers' war on the legislature last week Tuesday was reduced to an enthusiastic skirmish.

Approximately 50 Novi citizens joined with mothers and housewives in a bonfire rally to protest legislative squabbling while state schools are faced with a financial crisis.

The women had hoped the rally would attract many more Novi residents, and, at the same time spark citizens in other communities to demand that Michigan legislators come up with a "sensible answer" to the state's financial problems.

Mrs. David Fried, one of the leaders of the movement, expressed dissatisfaction with the turnout but said "it was good for Novi. All in all it was a successful program. Those who attended appreciated what Dr. Medlyn had to say."

Medlyn, superintendent of Novi schools, painted the financial picture of schools locally and elsewhere throughout the state.

The superintendent repeated an earlier statement in which he said he disapproved of operating schools on borrowed money. He said at that time that he was not opposed to borrowing money for "stop-gap measures" — but this thing has been going on for a long time.

## Council Approves New Work Rules

City councilmen gave approval to a set of personnel rules proposed by the city manager Monday night in a meeting that accomplished little else.

The council is scheduled to meet again Monday night to dig into a special assessment ordinance. Tuesday night they'll get together for a committee study of another lengthy ordinance establishing zoning for the areas of the city annexed from Novi township during the past two years.

The new work regulations set forth hours, holidays, sick leave, vacations, residence requirements and other rules governing full time employees of the city.

In reports from the city manager the council learned that the county, after a survey, did not feel traffic at the corner of South Center street and Seven Mile road justified installation of a new traffic light. A blinker and four-way stop is now enforced. Councilmen had proposed a full stop light.

In final business the council decided to contribute \$100 to the Retail Merchants Christmas tree lighting program in addition to paying for the electricity.

In a move which apparently caught both Northville and Novi officials by surprise the Northville Estates Civic association announced this week that it will seek annexation to the city of Northville.

The subdivision of \$25,000 to \$50,000 homes is one of only two areas within the boundaries of Novi township that is not a part of the village.

To become detached from Novi township the maneuver will necessitate including an area in the village of Novi.

The election — if called and decided in favor of annexation to the city — is almost certain to result in litigation.

Specifically, Northville Estates includes 120 acres on the northwest corner of Baseline and Beck roads. Three separately owned parcels of land along the north side of Baseline and east of Northville Estates divide the subdivision from the city limits (which extend approximately 1000 feet west of Taft road along the north side of Baseline; Northville township is directly across Baseline road from the land proposed to be annexed).

These parcels are in the village of Novi and are included in the petition for detachment from Novi. According to William R. Slattery, president of the Northville Estates Civic association, only one of the parcels has its owner residing on the property. This owner, Mrs. C. A. Randall, has signed the petition, Slattery said. The other two parcels are owned by the Coventry corporation and Mrs. Leona McDonald of Romulus.

The village area is approximately 135 acres, making a total of 255 acres.

Slattery expects 90 percent of the residents of the area seeking annexation to sign the petition. It is also necessary to obtain a petition bearing 100 signatures of city of Northville residents. These petitions are currently being circulated.

It is anticipated that the petitions will be forwarded to the secretary of state within a month. If pronounced proper an election date would then be set by the secretary of state. Law requires at least 40 days for registration and election notices, placing the possible election date at least three months away.

Whether or not a city can annex part of a village (without calling for an election of the entire village) looms as the major question mark, however.

Attorney Philip Ogilvie, legal advisor for Northville Estates, indicates it is possible.

Howard Bond, Novi village attorney, stated that he believes the village boundaries are protected against annexation. When contacted he had not previously heard of the annexation move and had not studied the matter.

Ogilvie pointed out that the statute governing annexations by cities of less than 15,000 population provides that areas seeking detachment from townships or villages to the said city may do

so through a favorable election of the city and the residents of the area seeking detachment.

From the other standpoint, it appears that the village of Novi may contend that the statute under which the villages are formulated stipulates that areas bordering on a city may not be detached from the village and annexed to the city without a vote of the entire population of the village, as well as the annexing city.

The year-old village of Novi has already discovered that there is a method for "farmland" located on the village borders to seek return to township status. Three such cases are now pending in Oakland county circuit court involving acreage on 13 Mile, 14 Mile and Eight Mile roads.

In recent years Novi has lost two parcels of land by annexation to Northville. In 1957 the city annexed 88 acres west of North Center street and north of Baseline, where the new high school and Amerman elementary school are now located. This spring a long-standing legal battle was settled by the supreme court when some 250 acres of Novi township (including Yerkes Estates, Warren Products and the property along Taft road which abuts the area now seeking annexation to the city) was proclaimed properly annexed to Northville.

In announcing its move to gain admittance to Northville the Northville Estates Civic association stated that its members "feel closely related to the civic, religious, educational and business affairs of the city."

The subdivision has 36 homes with 35 occupied. There are a total of 154 lots in the subdivision, which is owned by the Northville Development company of Birmingham. Its development began in 1955. Each home has its own water well and septic field. All streets in the subdivision are paved.

In informing the city council of the proposed election Ogilvie (who is also city attorney for Northville) said that the residents fully understood that they could not expect water or sewer facilities. They would receive city fire and police protection as well as rubbish and garbage collection.

Spokesmen for the association said they believed their taxes would be greater than the services they would receive in return, but that they had decided they would rather become a part of Northville than Novi.

Neither Novi Village President Walter Tuck or Township Supervisor Frazer Staman were not ready to make a statement on the move. Tuck did express disappointment and indicated that he had hoped Northville Estates would decide to join the village.

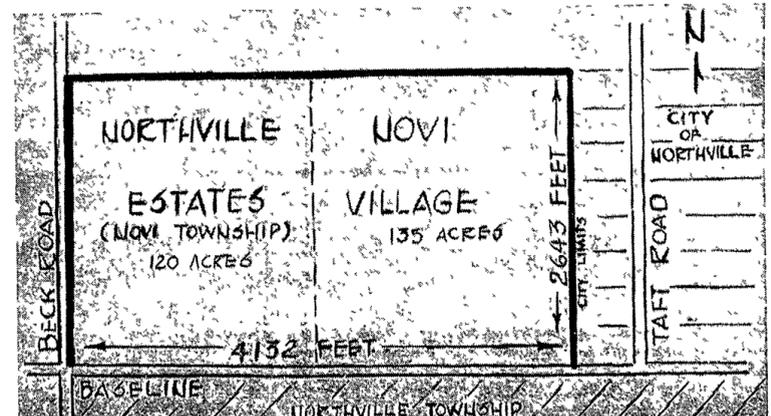

Northville city councilmen discussed the matter briefly Monday night at a regular meeting and decided to withhold any official statement — if one is to be made — until further study in a council committee meeting.

## City Parking Meters Go Up and Down

Parking meters are going up — and coming down in Northville.

The regular street meters — removed during the installation of new sidewalks in the business district — will be returned as soon as possible.

Some consideration had been given to replacing the single meter posts with posts bearing two meters. The council decided against this because of the additional cost, however. Parking meters in the municipal parking lot at the corner of Main and Center streets were removed this week. The council recently decided to discontinue its practice of curtailing taxes on the property in exchange for its use as a parking lot.

This map shows the area (in heavy border) seeking annexation to the city of Northville. Located at the northeast corner of Beck and Baseline roads, part of the area is exclusively in Novi township, while the western part of the property is also in the Village of Novi.

### Crowds Agree "Papa" Is All Right

Tonight (Thursday) the Northville high school curtain goes up for the third and last time on "Papa Is All", a three-act comedy about a Pennsylvania Dutch family beset by the trials of romance.

Playgoers attended two earlier performances of the annual senior play Tuesday and Wednesday, which opened to full house audiences both nights.

Three casts, directed by Drama Coach Miss Florence Panattoni and students Dorothy Boyer and Julie Fiene, ably kept the chuckles coming each night.

The story pits Papa — a strict Mennonite — against the rest of the family who plot to help daughter Emma continue seeing her young man — the local surveyor.

Jake, the teenage son, does his best to see that Papa doesn't get wind of the budding romance. Also in the interest of secrecy, Mama works up an alliance with Policeman Brendle.

But the inevitable happens and the fun begins when Papa learns of Emma's latest escapade from a gossip neighbor, Mrs. Yoder.

The casts include: Al Korn, Ray Dahl and Grove Sandrock as Papa; Shannon Jensen, Janet Wilson and Carol Krezel as Mama.

KEEPING AN EYE ON "CAESAR" are the Mitchell Waynes (left to right): Penny, Don, Mrs. Wayne and Mr. Wayne. That black shadow by Penny's foot is 'Mittens', the Waynes' kitten.

The tri-level ranch with the wrought iron oak leaf mailbox is the new Brookland Farms home of ex-Detroiters, the Mitchell Waynes.

Like several of his neighbors, Mr. Wayne — an engineer with the Lincoln-Mercury division — is a Ford Motor company man.

He and his family — including a daughter, Cynthia (Penny) and son, Don — moved here in August. Both Mr. Wayne and his wife are native Detroiters, who just happened to drift out this way while looking for a pleasant new home site.

Don and Penny attend Northville schools. Don, 12, is in the seventh grade. His sister is a junior at

Northville high.

For family recreation, the Waynes go for sports. Right now the youngsters have a natural skating pond in their back yard. Mr. Wayne likes to golf and bowl.

Two other members of the Wayne

clan are "Caesar", their dog, and kitten, "Mittens".

"If he gets a chance "Caesar is quite a rover," Mrs. Wayne put in a plug, "so if our neighbors see him roaming around, at least they'll know where he belongs."

# To Perform Menotti Christmas Opera in Plymouth

The opera cast seen and heard by millions every Yuletide season over coast-to-coast television will be in Plymouth Sunday, December 20 to present Gian-Carlo Menotti's traditional Christmas opera, "Amahl and the Night Visitors".

Last Christmas eve marked the singers' ninth annual appearance in the production that has become one of America's great contributions to Christmas lore.

Presented under the auspices of the Plymouth Symphony Society, the performance will be held at 4 p.m. in the Plymouth high school gymnasium.

The opera has special appeal for children. In it the modern composer recaptures his childhood in Italy where the Three Kings rather than Santa Claus bring gifts to children at Christmas.

Menotti recalls that while the kings were never seen, each child pictured their visit — the weird cadence of their songs, the camel's hooves, or the mysterious tinkling of silver bridles.

When commissioned to compose a Christmas opera for NBC-TV in 1951, Menotti drew on these memories to create the story of a small crippled boy who spends an unbelievable night with the Three Kings when they stop at his widowed mother's hut for a night on their journey to the Christ child.

Twelve-year-old Kirk Jordan of Victoria, Texas plays the role of Amahl.

David Aiken, King Melchior, has been seen and heard throughout the country and abroad in TV, concert and opera.

Rosemary Kuhlmann, the Mother, is a discovery of Menotti. The me-

z-soprano has appeared on Broadway, and radio and is a member of the New York City Opera company.

Leon Lishner, who has appeared in world premieres of other Menotti operas, "The Consul" and "The Saint of Bleecker Street", is cast as King Balthazar. His performances with the best known symphony orchestras have long been applauded for their excellence.

Andrew McKinley, who portrays King Kaspar, has won wide musical acclaim for his many appearances with the LaScala, Milan; Glyndebourne, England; Chicago Lyric and Metropolitan Opera companies, as well as with leading orchestras of the country.

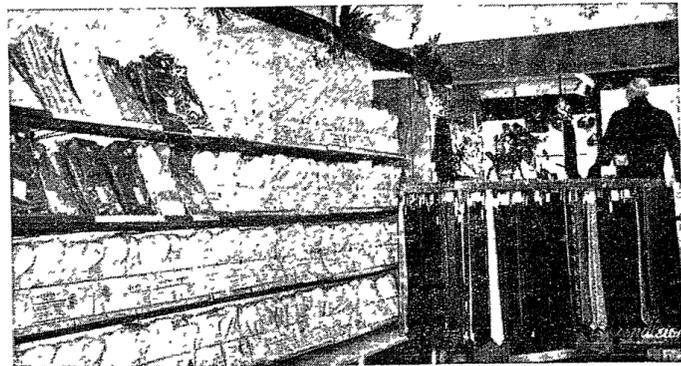

Sixteen local singers have been selected for the chorus of shep-

herds, and Nat Sibbold of Plymouth will join the cast in the role of page.

Plymouth Symphony Conductor Wayne Dunlap has announced that Marilyn Cotlow of Detroit, who appeared on Broadway in Menotti's "The Telephone", will present a brief program of Christmas music as an extra feature for the afternoon.

**Lyon School Heads To Air Proposal**

A public discussion of the proposed \$615,000 Lyon Township school district bond issue for construction of a 20-room school, will be held at Salem Township hall, 8 p.m., next Wednesday, December 9.

A panel of school heads and members of the board of education will answer questions about the proposal which goes before voters December 15.

The proposed building, administrators have said, would be used temporarily — about three years — as a junior high school, but would be designed for eventual elementary school use.

Administrators state that while the need for a junior high is most urgent right now, planning of a secondary school would take longer.

The building site — south of South Lyon, off Pontiac trail — is already owned by the school district.

For those unable to attend the Salem meeting, a "twin" session will be held Tuesday, December 8 at 8 p.m. in the South Lyon elementary school gym.

The public is invited to either meeting.

**Cub Pack 721 To Sell Candy**

Cubs in Pack 721 are selling candy again this year, the delicious butter crunch that Northville residents have obtained from the Cubs in prior years.

Money raised in the candy sale is used to buy subscriptions to "Boys Life" magazine and to help defray other Pack expenses.

Scoutmaster Art Prodger advises that the candy "is packed in an attractive copper-tone canister, suitable for use in the kitchen to store coffee, tea or sugar — and labels are included in the cans for just that purpose."

Prodger says that residents who have not been contacted by a Cub may call him or any of the following Den Mothers: Audrey Becker, Marge Beerhower, Sue Cushing, Mary Lou Armstrong, Norma Terry or Mrs. Gladys Barnum.

The Pack, which is still welcoming new Cubs, will meet at VFW hall Monday at 7 p.m. Theme of the December meeting is "The General Store".

Weekly activity on tap for Cubs and Dads of Pack 721 includes the Wednesday evening father and son swims, conducted at the Wayne County Training school. Participants meet at the Boy Scout building on Dunlap street each Wednesday at 5:15.

**Larger "Yellow Pages" Coming Out Next Week**

Michigan Bell Telephone company announced it will begin distribution here of "area" Yellow Pages directories next Tuesday as the first step in implementing its new "Metropolitan Area Directory Plan".

The new single area directory will go to customers in Farmington, Garden City, Livonia, Northville and Plymouth, replacing the individual Yellow Pages now in use in those communities.

Under Michigan Bell's new directory plan, 29 telephone exchanges serving more than 100 communities surrounding Detroit are being split into six area Yellow Pages, and into three area White Pages.

The nine area directories eventually will replace the many books which now serve the cities and townships encircling Detroit up to, and including Mt. Clemens, Pontiac, Ypsilanti and Rockwood.

Headings in the Yellow Pages to be distributed here will have com-

plete alphabetical lists of all business establishments in the communities served by the new area directory.

The White Pages, which will be delivered here next spring, will consist of a single alphabetical list of all telephone users in some 15 communities which will make up the local area directory.

Each listing in both the Yellow and White Pages, however, will contain its own community identification.

Population growth in the ever-expanding older areas and the newness of other communities have resulted in telephone exchanges no longer following political boundaries. With the new books, a customer will only have to know the general area in which a person lives in order to find his telephone number.

## December 6-12 Proclaimed Christmas Seal Week Here

WHEREAS, the ravages of tuberculosis are felt in homes in Northville, and

WHEREAS, tuberculosis annually costs the taxpayers of Wayne County more than \$9,000,000 each year in case finding, care of patients, health education, rehabilitation, research, pensions and public assistance, and

WHEREAS, the work of the Detroit Tuberculosis Sanatorium and the Tuberculosis and Health Society, aimed at preventing the spread of tuberculosis, will help bring an end to the economic loss and personal tragedy caused by the disease,

THEREFORE, I, A. Malcolm Allen, Mayor of Northville, urge every citizen to contribute generously to the Christmas Seal Sale which supports the work of the two organizations and do proclaim December 6 to 12, 1959 as Christmas Seal Week in Northville.

Your Christmas Seal dollars will speed the day when tuberculosis will no longer take its toll from the homes of our community.

Through teaching people how to keep well, finding the unknown cases of tuberculosis, by helping tuberculosis patients return to useful, happy lives and by supporting medical research our Christmas Seal contributions will make Northville a healthier place in which to live.

## PRECIOUS ATONING BLOOD

We who live in this present age have become acquainted with the value of blood transfusions. Thousands of people who are living today owe their lives to this remarkable discovery. When God sought to choose one substance in the world to convey the idea of redemption, He chose blood. From the very beginning God set blood aside as something precious. The Israelites were not to eat it, and if blood was spilled on the ground it was to be covered. God told Noah that the life of man was in the blood. Years later when Christ hung on the cross, one of the soldiers thrust a spear into His side and there came forth blood and water. The Apostle John in writing says in I John 1:7, ". . . and the blood of Jesus Christ His Son cleanseth us from all sin." This healing serum for sin is one of the most important doctrines in the whole Bible but modern religion is strangely silent upon this score. Yet how important it is. Even as blood transfusions mean life to ailing bodies, so the blood of Christ means life to sun-sick souls who anxily try by faith. For a very interesting study in the Bible, take a Concordance and study what the Bible has to say about the atoning blood.

# Old Glass Plates Recall Past

THIS WAS Main street in Northville back around the turn of the century. Mrs. Johnson was a very good friend of Mrs. William Nevison, owner of the harness shop on the right. Mrs. Johnson remembers this building as being on the north side of Main street between Center and Hutton.

Workers began tearing down an old barn behind the home of Malinda Schrader, 209 North Wing street, recently to make way for an addition to the First Baptist church. In their work they uncovered a chest containing glass negatives of pictures taken around the turn of the century in Northville.

The old glass plates were brought to the newspaper by Rev. Peter Nieuwkoop and with a little investigating it was discovered that they had belonged to the William Tinham family. Mr. Tinham is deceased, but the former Mrs. Tinham is again widowed and is now Mrs. R. H. Johnson, 316 South Wing street.

She quickly recognized many of the pictures, some of which are reproduced on this page. Mrs. Johnson's maiden name was Georgiana Palmer. A life-long resident of Northville, she admits to being "past 80".

Several of the old pictures included "Georgi", as Mrs. Johnson was known in those days. One of the pictures, shown on this page, reveals the ankle-length style of the day.

Despite their age the 60-year-old glass plates reproduced remarkably well and are sure to bring back memories to many old-timers. Other pictures will be published in later editions in conjunction with the regular "Out of the Past" column.

HIGH BUCKLE shoes and long stockings were the dress of the day for children at the turn of the century. Mrs. Johnson can't remember who these children are. They may be residents of Northville today. Do you recognize them?

HUNTING just isn't as good as it was in the old days — and here's proof. Mrs. Johnson recognized all but one of the men above. Starting with the second from the left, the hunters are: Bill Tinham, her late husband; Charles Sessions and Bill Stark.

AT LEFT — This picture was taken around 1900, says Mrs. Johnson, who is shown on the right with her cousin, the late Mrs. Finney of Traverse City.

### Your Natural Gas Comes A Long Way

The natural gas you get at the turn of a valve has traveled hundreds of miles. Laying pipelines to carry it to you presents many engineering problems.

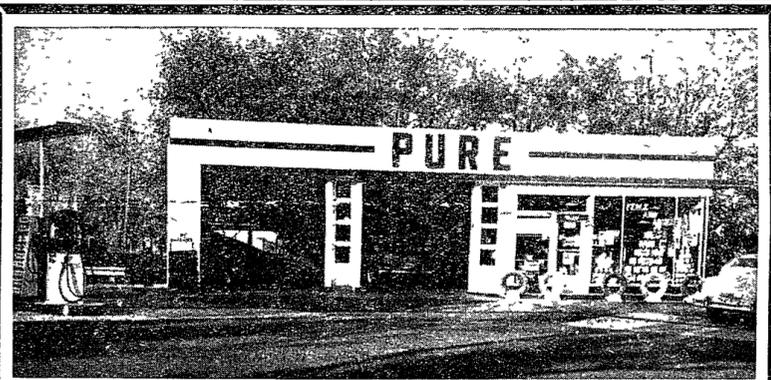

Rivers are only one of the hazards which must be overcome on the pipeline's cross country journey. Since gas is lighter than air, 30 pounds of ballast are used for each foot of 30-inch pipe in a water crossing.

Corrosion is another headache engineers have minimized by coating and wrapping the pipe before it goes into the ground.

Millions of dollars in equipment join with labor and know-how to keep natural gas flowing to your home or place of business. Natural gas is your dependable low-cost servant.

Only GAS does so much, so well . . . the modern fuel for automatic cooking . . . refrigeration . . . water-heating . . . house-heating . . . air conditioning . . . clothes-drying . . . incineration.

Mustangs Host Trojans In Cage Opener Tomorrow

It's going to be tough sledding right from the start for Northville's 1959-60 basketball team.

The Mustangs clash here tomorrow night with the Clarenceville Trojans who last week Wednesday barely lost a 56-49 overtime game to South Lyon.

Cage experts who watched last week's game report that the Trojans are "a well rounded squad with a lot of potential." South Lyon took second place in its league last season with an overall 10-4 record.

Meanwhile, Coach Don Van Ingen, who took over the varsity coaching position at Northville this fall, has had difficulty getting all his players together for regular practice.

Two of his veterans, Roger Atchinson and Wade Deal, missed several practice sessions because of illness and Jim Patterson was absent several days during the deer hunting season.

The Mustangs were scheduled to scrimmage with Walled Lake Tuesday—their first cage action since last winter.

Although Vaningen is not sure yet who he will start tomorrow, he named six likely candidates. They are: Atchinson, Deal, Joe Gotro, Larry Nitzel, Gary Morgan and Patterson.

Atchinson, a guard, and Deal, who will make the switch from guard to center this season, are the only two players who have "sewed up" positions, Van Ingen said.

The coach said he is switching Deal to center because his big 6-foot frame should be a decided asset under the boards. Joe Gotro and Sophomore Dan Brown, tallest member of this year's squad at 6' 2½", also are candidates for the pivot.

Gotro, Patterson and Morgan may draw the forward positions, while Atchinson, Steve Juday or Nitzel will be at guard.

Atchinson is Northville's highest scoring letterman to return this season. He and Deal are the only two players who played regularly last year.

Other Northville players this season include: Tom Schwarze, guard; Jerry Forbes, guard; Dave Hay, forward and guard, and Tom Darling, forward.

Coach Lee Kempf of Clarenceville probably will start Tony Giacobazzi at center, Doug Hanaford and Gene Scholes at forward, and Mert Roberts and Ron Blovet at guard. Ron Warren reportedly is a top candidate for several of these positions.

Last year the Mustangs took fourth place in the Wayne-Oakland league with a 5-5 record. They edged the Trojans 58-52, while the junior varsity quintet defeated Clarenceville 45-39.

Area Residents Invited to Join Archery Club

Bow and arrow enthusiasts of the area are being invited to join Northville's first "archery club".

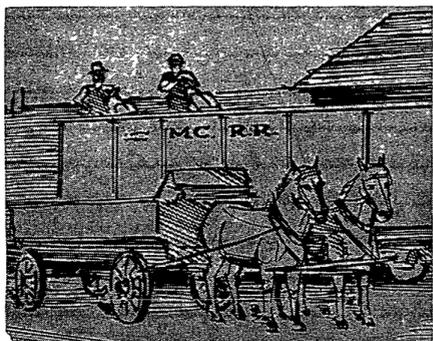

The club, being organized by Ernie Schultz of Walled Lake, has the backing of several businessmen in Northville.

Schultz, who will act as instructor, said the club has obtained an indoor range and also expects to have outdoor facilities in the summer. He said he has plans for a 28 target course for summer shooting.

Archers in the area interested in joining the club may contact Schultz, Postmaster Leland Smith or Bruce Turnbull of Northville Electric Shop.

Preliminary negotiations have been completed for bringing the Marcus Haines' Magicians — a professional basketball troupe — to Northville late this month.

Recreation Director Stan Johnston revealed this week that the professional cagers probably will play here on December 28. A team composed of local all-stars will take on the Magicians.

Early arrangements call for the game to begin at 8 p.m. in the new high school gymnasium. Tickets for the game will cost \$1 for adults, 75-cents for students.

## 75 Attend 1st Practice For Recreation Basketball

City recreation basketball got off with a bang Saturday as approximately 75 boys and young men turned out for the first regular practice session.

Stan Johnston, recreation director, said he was delighted with the turnout at the community building. He predicted another successful season.

"There's still plenty of room for joiners," Johnston added, "despite the early response." Interested persons are urged to attend the second practice session this Saturday.

Practice schedules are: 10-12 noon, junior high school age students; 1-3 p.m., high school, and 3-5 p.m. senior men's league.

According to Johnston, the newly organized men's league will be co-sponsored by the recreation department and the Warren Products company. It probably will be called the Warren Products league, he said.

## Harbert Shoots 283 at Palm Beach

Northville's Chick Harbert fired a 283 Sunday to clinch a tie for "second place" in the \$15,000 West Palm Beach Open golf tournament.

His tie with United States Open Champion Billy Casper was only two strokes off the winning pace shared by Arnold Palmer, Pete Cooper and Jay Brewer.

It took four extra holes for Palmer to shake loose his two red-hot opponents and claim the top money of \$2,000.

Two other Michigan golfers finished in the money. They were John Barnum of Grand Rapids and Wally Burkemo of Detroit. Both finished with 289s.

## Season's Buck Kill Down; Hunters Take More Doe

Preliminary figures from the Conservation Department's traffic surveys indicate that hunters will approach a pre-season kill estimate of 113,000 deer during Michigan's regular and special firearm seasons.

As of last week, southbound cars had brought 12,416 deer across the Straits. This was more than 2,000 whitetails ahead of last year's pace for this period. An all-time high of 13,365 deer were brought across the Mackinac Bridge during the 1958 season.

Elsewhere, Department checkers have counted about 10 percent more deer than last year on cars traveling US-23.

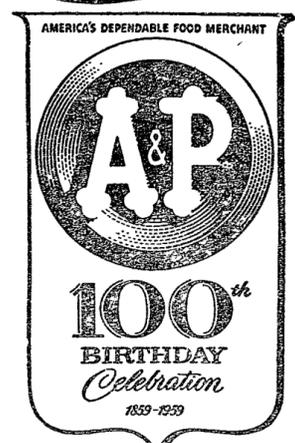

As expected, buck kill is down slightly from 1958 while antlerless take is appreciably higher under this year's liberalized special seasons.

Department game men looked for a drop from 73,000 to about 68,000 in buck kill because of starvation losses last winter. The antlerless harvest may approximate 45,000, a quota sought by the Department to curb starvation losses during the 1959-60 winter.

Soon to join the hunting picture is the December 1-6 "any deer" season in a crop-damage area of Allegan county.

## from the PASTOR'S STUDY

By the Rev. James F. Andrews  
Full Salvation Union Chapel

Full Salvation Union is a thing of the Spirit that is not discerned by the natural man, neither can he know it because it is spiritually discerned. One must be lifted into consciousness by the Spirit of God above the natural realm of comprehension before he can appreciate what God is doing in things that are not seen.

As one is so lifted he will realize in the consciousness that fills him the power of God that delivers from all those attitudes or states of mind that have divided and still divide God's people.

He will find himself losing interest in religious ideas he at one time thought were very important and before he has time to cloud his vision with those intellectual ideas that gender strife he will be able to realize himself actually being made "One" with all of God's people everywhere even as Christ prayed that it should be.

This is an experience in spiritual consciousness. This is Full Salvation Union. This is the Kingdom of God that is not in word but in power.

It is not made known by enticing words of man's wisdom but through demonstration of

spirit and power. Those who are lifted into the consciousness of being made "One" in Christ Jesus cannot help but demonstrate the reality of that which they are experiencing. Such demonstration becomes the power of God to lift others who believe into the same realization.

When a person is lifted into a new realm of personal conscious realization he cannot help but recognize the reality of that which is taking place. His eyes are opened. His spirit of contenting for the understanding that fills him — changes to God's spirit of union and peace.

God's purpose is being made known. He is answering the prayer that Jesus prayed "That they all may be one".

God, like the angel did to Lot, is laying hold of His people by the inspiration of His Spirit and lifting them out of the condemned city of the theories of men. The only place of safety in these fearful times is in Full Salvation Union — not a denomination, a church or association, but that living, spiritual consciousness that Christ prayed might be realized by all who follow Him.

**CHRISTMAS GIFTS** — Remembering that giving is more rewarding than receiving, members of the Girl Scout Troop 228 made dresses for the dolls in the picture above and then turned them over to the Good-fellow organization this week for distribution at Christmas time. Shown here with the dolls are Scouts Denise Spiker (left) and Ruth Carrington. Co-leaders of the troop are Mrs. Charles Carrington, Mrs. Robert Reed and Mrs. Fred J. Hicks.

**Hare Running Best**

ONE JUMPED IN — another jumped out.

Secretary of State James M. Hare, although denying a report that he is off and running for the Democratic nomination for governor in 1960, has left little doubt he considers himself in the race.

State Treasurer Sanford has just about counted himself out.

Brown, like Hare, is a three-time winner on Gov. G. Mennen Williams' team.

A year ago, Brown was among those mentioned as possible contenders for Williams' job when the Governor steps down. He ran strong in the 1958 election, displayed an earthy touch, and cultivated backing in rural areas, where he was known as "Farmer Brown".

But Brown indicated he has no interest in a primary struggle.

There are those in party leadership who say it would be just as well if Brown did not run. They say it would be easy for opponents to pick on the man who held the state's purse strings during the period of fiscal crisis, however removed he may be from the cause of the crisis.

A primary race is expected among Democrats when Williams calls it quits.

Lt. Gov. John B. Swainson is gaining support but is not himself convinced he is ready for the big leap.

Supreme Court Justice George Edwards, a former union organizer, has strong backing in labor circles and among party leaders. But he has offered no encouragement to those who think it is about time to groom an heir to Williams' throne.

Attorney General Paul L. Adams lurks as a dark horse, as does Detroit city councilman Ed Carey,

former House minority leader. Democratic State Chairman Neil Stabeler appears content to stay behind the scenes and denies he will make the race himself.

Small Wonder Michigan's Secretary of State is a frontrunner in the 1960 election sweepstakes.

The name of James M. Hare is carried around by every Michigan motorist who has kept his drivers license up-to-date.

Motorists filling out forms for the 1960 car license tabs will find it's not hard to find the name on the forms.

Sale of the green and golden yellow tabs lagged more than 25 percent below purchases during the first 17 days of 1958 sales.

How do we know? From one of the almost daily press releases mimeographed by Hare, a leader in the fight for the public's right-to-know who is fast becoming the best known Michigan Democratic officeholder outside of the Governor's office.

The 1960 legislature can expect to hear from Jim Hare on his proposal to create a Michigan consumer protection office.

Hare, capitalizing on early November news developments, said there was as urgent need for a coordinating consumers' protection agency in Michigan.

"The cranberry scare, the stories of hunters asphyxiated by defective gas heaters, the expose of false and misleading television commercials . . . all point up the growing concern of the public and governmental agencies regarding the lack of protection enjoyed by the American consumer," Hare said.

ISSUES ARE shaping up for the 1960 election campaign.

House Speaker Don R. Pears (R-Buchanan) told a Grand Rapids Republican rally efforts to get a sales tax and a constitutional convention will be major issues.

Republicans are apt to have a candidate who will make sure a constitutional convention is an issue. Paul D. Bagwell, GOP candidate for governor in 1958, has been keeping the issue — and himself — before the public.

Bagwell has several suggestions for revising the constitution, including a recommendation that governors get four-year terms, with a limitation of two terms.

Bagwell insists the constitution should not be changed in piecemeal fashion.

He said the 51-year-old constitution has been amended 69 times, 47 more times than the Federal Constitution.

"Michigan is like a huge Gulliver bound by Lilliputian ropes, struggling to get to her feet against these countless knots," Bagwell said.

**Keep Your Investments in American Stocks**

Babson Park, Mass. — Since returning home from my long trip to Europe, I find that many of my friends here are greatly interested in buying stocks now of German, French, Italian and other European companies.

**Is All Europe Turning Socialistic?**

Let me first say that in Norway, Sweden and Denmark, the railways, telephone and telegraph, and all the utilities are owned by their national governments. All these countries have many private stores and huge "co-operatives". In some of these countries every co-operative not owned by the state must have a majority of its directors citizens of that country. Holland and Belgium are more friendly to outside investors.

In Poland and Russia everything is state-owned. Hence, the purchase of European stocks by Americans is limited practically to stocks of corporations in a limited number of nations as noted above.

**Conditions in Germany**

West Germany is now very prosperous and this prosperity extends in decreasing proportion—until we reach Spain. The German people are intelligent and industrious, and are not handicapped by unreasonable labor leaders or tax collectors. The favorite German stocks are the "industrials", namely chemicals, metallurgy, electronics, building materials, automobiles, paper products and chain stores. The banks—which largely carry on the investment business—are also making money. Many of these companies may offer temporary profits.

American investors who buy them are, however, playing with fire. I hope I am wrong; but I think that Mr. K will succeed in getting control of all Berlin and will ultimately consolidate East Germany—which Russia now controls and which I

visited—with West Germany. This could enable Mr. K to control the entire area under the Polish System. The Poles insist they are not Communists; but all property is owned by the Polish Federal Government, which is friendly to Russia. Hence I do not recommend the purchase of any German stocks or bonds.

**Khrushchev's European Plan**

As I stated last week, Mr. K does not want World War III. His hope is that some way can be worked out for him to gradually consolidate and control Germany without fighting. But if he must fight to bring about his goal, and if we should feel obliged to get into a nuclear war, I hate to think of what would follow. Western Europe does not want Communism; but I believe that with the exception of the property owners—who are a small minority—the majority is favorable to state ownership under the Polish System.

If World War II should come, all Europe would immediately turn socialistic and have state ownership; but gradually—war or no war—is the trend. This especially applies to France, Italy and perhaps to England, notwithstanding the recent victory of the conservative party. They don't want Communism; and I hope the Russians will get tired of it. Much, however, depends upon China which is fast developing its own form of Communism. All the above means that my U.S. readers had better look upon European stocks as dangerous

speculations rather than as investments.

**Our Securities and Exchange Commission**

Bankers and brokers have never liked our Securities and Exchange Commission. They claim its red tape puts a "ball and chain" on the sale of new issues of stocks and bonds. I, however, feel it is a protection to all honest investors, and even speculators to take the time to read the prospectus which the Commission requires.

Stocks and bonds issued by banks and corporations in Germany

and other European countries do not have to be reported to such a commission; in fact, no such commission exists in Germany. Therefore, it is often impossible to get the records of earnings, assets and other details of European stocks or bonds which the corporations or bankers do not care to publish. Furthermore, punishments for false rumors and "estimates" are not severe enough to insure accuracy or honesty. Hence, irrespective of fears of World War III or any Communist activities, I cannot advise my readers to now invest in Europe.
