## KITCHEN DIARY

## Soup's a Whole Meal When Made Like This

Mrs. Louis Mallette  
"Whenever you make soup remember that the longer you cook it the better it is," Mrs. Louis Mallette's mother told her when she gave her these two favorite family recipes.

Her daughter added another line, "Every time you reheat it, the better it tastes."

Mrs. Mallette recommends at least two hours cooking time. She usually counts on a whole morning to do it justice.

When the Mallettes have soup, they make a meal of it. A tossed salad goes nicely with the bean soup, Mrs. Mallette says. She likes a cottage cheese salad with the vegetable soup.

The family men like plenty of meat in their soups, but the recipes can be varied to suit individual tastes, Mrs. Mallette adds.

### NAVY BEAN SOUP

1 lb. pkg. navy beans  
1½-2 lbs. short ribs or ham and ham bone  
2 qts. water  
2 small onions, diced  
2 stalks celery, diced  
Soak beans overnight.

To prepare soup, cook meat in water at low heat until it is tender and falls off the bone.

Remove meat from broth. Trim off fat and cube meat. Return meat (minus fat) to broth. Add beans, onions and celery (including leaves).

Cook until beans are tender (whole recipe should take about 2 hours cooking time). Stir periodically to prevent beans from sticking to pot. Remove soup from heat and let cool.

Reheat to serve.

### VEGETABLE SOUP

1½-2 lbs. short ribs or boiling beef  
No. 2 can tomatoes  
2 onions, diced  
4 stalks celery, diced  
4-5 carrots, diced  
1/3 cup shredded fresh cabbage

½ pkg. frozen green beans  
½ pkg. frozen peas  
¼ cup rice  
1½ tsp. salt  
pepper

Cook meat in water at low heat until it is tender and falls off the bone.

Remove meat from broth. Trim off fat and cube meat. Return meat (minus fat) to broth.

Add tomatoes, onions, celery (including leaves), carrots and cabbage.

Later add remaining vegetables and rice (these take less time to cook). Stir periodically to prevent rice from sticking to pot.

Season to taste. Cook until all vegetables are tender (whole recipe should take about 2 hours cooking time).

# 'Candidates' Win Laughs

HAPPY DAYS ARE HERE AGAIN — Campaign strategists might have an untapped goldmine in the Northville Woman's club. The ladies demonstrated their political know-how in Friday's skit by polishing off such crucial issues as the need for more fish, downhill roads and progressive dinners.

SOME OF THE NICEST SIGHTS at the Woman's club luncheon each year are the smart spring ensembles that make their seasonal debut. Mrs. E. V. Ellison (left) and Mrs. R. M. Atchison added a bright note to Friday's meeting.

WHEN BONNETS bloom can spring be far behind? Mrs. T. J. Knapp (left) and Mrs. George Zerbel chat after dessert.

"Too many fish have left South Vile," the lady candidate barked.

"Is there anything South Vile needs less than more fish," her opponent barked back.

And the trench-coat clad press corps sprang forth with pencils, cameras and a kitchen stool (to stand on while shooting) ever-on-the-spot where news was being made.

The rollicking campaign rally was not a bad dream or Alice in Wonderland for registered voters.

It was the Northville Woman's club's annual tureen luncheon skit signing off another club year. The comic skit is a tradition at the club's last meeting.

South Vile's political aspirants managed to stumble over all the issues and then some.

"Don't you think more eggs make a healthier cake," fashionable Mrs. Morely enthused.

Her homespun adversary, Mrs. Lessly went on record for downhill roads and progressive dinners.

And so it went, with cheers from partisans and banners proclaiming "More Fun" and "Keep South Vile Clean".

The skit, directed by Mrs. John Begle was co-authored by Mrs. Begle, Mrs. William Sliger and Mrs. William Wiley.

As customary, the cast was chiefly composed of new members.

The luncheon preceding the program and annual reports was chairmaned by Mrs. Richard Martin.

President Mrs. Charles Yahne, Jr. presided at the business meeting.

New officers were chosen for the coming year.

Elected were: Mrs. C. E. Woodruff, president; Mrs. George Kohls, vice president; Mrs. George Weiss, recording secretary; Mrs. Fred Hartt, corresponding secretary, and Mrs. William Milne, treasurer.

Named to the board of directors were Mrs. Richard Martin, Mrs. Donald Lawrence, Mrs. Orson Atchinson, Mrs. C. Ely and Mrs. Charles Yahne, Jr.

## Kings Daughters Luncheon Tuesday

The King's Daughters annual spring luncheon will be held next Tuesday, April 5 at the home of Mrs. John Litsenberger, 132 West Dunlap.

Colored slides and taped commentary on Northville highlights prepared by local seventh graders and teacher Michael Abbott will be shown during the program.

Members are asked to bring a passing dish and table service. Luncheon will be served at 12:30 p.m.

## Local Great Books Group To Discuss Kant Treatise

The Northville Great Books discussion group will review Kant's "Perpetual Peace" at its next meeting, Thursday, April 7 from 8-10 p.m. at the public library.

Non-members wishing to attend may contact Mrs. George Weiss, 925 Grace street, FI-9-3190, or Donald Riddering, 9706 Six Mile road, Salem, FI-9-3138.

## Wed 65 Years

The family of Mr. and Mrs. William Rattenbury of East Cady street joined in a family celebration of the Rattenburys' 65th wedding anniversary Sunday at the home of their daughter, Mrs. H. G. Richardson of Spring drive. Another daughter, Mrs. R. G. Power of Detroit was also present, along with seven grandchildren and two great-grandchildren. The Rattenburys were married in Livonia, and have lived all their married lives in the Northville-Livonia area.

## BIRTH

Mr. and Mrs. Bernard Bock of Milford announce the birth of their first child, Jeffrey Michael, March 13 at St. Mary hospital, Livonia. The baby weighed seven pounds, six ounces. Mrs. Bock is the former Therese Wicke of Northville. Grandparents are Mr. and Mrs. August Wicke of Fairbrook avenue, and Mrs. Gertrude Bock of Ann Arbor.

Brownie Troop 209 had three visitors from Girl Scout Troop 222 last week. The girl scouts, Debbie Burr, Narda Foreman and Susan Murany, taught the Brownies a song and game. The Brownies also learned the correct way to handle introductions and how to set a dinner table, in preparation for their Father and Daughter banquet coming up.

Mrs. Edna Whitaker of Flint announces the engagement of her daughter, Judith, to Lawrence Green, son of Mr. and Mrs. William L. Green of Napier road, Northville. Judith is a graduate of Flint Junior college and a member of the Chi Alpha Epsilon sorority. Lawrence will graduate in August from General Motors Institute with a degree in mechanical engineering. "Easter Seals are mailed to your home and business where you decide, with your heart, what you wish to contribute."

Library Backers Gain More Support

Spurred on by growing public support, Novi's newly organized citizens library committee has decided to go ahead with plans to incorporate.

Incorporation papers were to be filed this week with the Michigan Corporation and Securities commission. By incorporating, the committee hopes to avoid excessive tax payments.

The group, which probably will be incorporated under the name "Friends of The Novi Library", met last week to discuss the latest developments of plans to start a public library here.

Sanford Sawyer, chairman of the self-appointed library committee, reported that he has received information from the state in setting up such a library. Many persons have volunteered assistance — both financial and physical, he said.

In other developments, Township Supervisor Frazer Staman said Friday that he was awaiting an answer from the township attorney as to whether or not the township can legally turn over its proposed library building to the volunteer group.

Staman and other board members told Sawyer earlier that they would be willing to cooperate if the township does not become legally entangled.

The township building is located next to the township hall.

Persons wishing to donate books and funds for the proposed library should call Mrs. David Fried at GR-4-8834.

Three Motorists Fined In Novi, Wixom Courts

Three motorists were fined and a South Lyon youth was bound over to circuit court to stand trial for breaking and entering in Novi and Wixom court cases last week.

Gordon Hamilton waived examination and was bound over when he appeared before Novi Justice of Peace Robert K. Anderson last Thursday. State police have charged him with breaking into a New Hudson store.

Artsil Cogar of South Lyon pleaded guilty of drunk driving Thursday and was fined \$50 by Judge Anderson.

Ronald Kinney of Pontiac paid a \$50 fine in lieu of a 20-day jail sentence Saturday after pleading guilty of passing a school bus which was being unloaded on North Wixom road. He was sentenced by Wixom Justice of Peace William Welke.

James T. Woodward of Detroit was ordered to pay a \$50 fine or serve 30 days in jail Saturday after he pleaded guilty of leaving the scene of a property damage accident in the Lincoln plant parking lot. He also was sentenced by Judge Welke.

READERS SPEAK: Wants Better Police Protection

To the Editor:

My store was broken into for the 10th time Saturday night, twice in the past three weeks.

The method of entering was the same: they kicked in the window in the front door.

The noise was heard immediately, and Novi police arrived just a few minutes later — but they did not pursue the culprits.

Instead, the matter was turned over to the state police. Why not have our own policemen do the work in Novi?

The state police figure ours is just a little business and therefore not important enough to solve. They've done nothing about the other cases.

I'm getting more cooperation from the Wixom police department than from the Novi police or the state police.

I for one am in favor of getting rid of the manager and getting some effective, courteous policemen.

THIS TOWN IS MINE

I am everybody. I am everybody who lives in my town.

A town is made of many things but mostly a town is made of people. A town is made by people, mostly by the people who live there.

A town grows and prospers or it declines, because of many things. Sometimes because of things beyond the control of the people who live there. But more often because of the activities of these people—what they do and say about their town.

There are no finer people than the people who live in my town. I believe in them and I believe in my town.

This town is mine. To me it is the greatest town in the world. It deserves and will get the best I can give to make it so. It deserves and will get a good word from me always.

## Optional Flat Rate Area Phone Service Seen in Future

The Michigan Bell Telephone company, in its annual report, today outlined a 9-point program of service objectives in the next decade.

Highlighting the program is the goal of Direct Distance Dialing for nearly all telephones and the introduction of optional, flat-rate services permitting unrestricted calls to nearby communities.

William M. Day, president, said the company is prepared to undertake the improvement program, "given the financial strength" to do so.

Other objectives cited by Day for the '60's are: Eliminate 4-party line service, extend urban-type service to former rural areas, expand extended-area service, introduce special office and residence services to "help business prosper and bring even greater convenience to the home," further storm-proof the telephone network, introduce new and more attractive telephone instruments, and extend the use of closed-circuit television for business and education.

Although Michigan Bell "shared in the general economic revival of 1959," Day said its return on investment "continued at a discouragingly low level." The return of 6.66 per cent on investment was slightly more than half a per cent over the 1958 figure.

Michigan Bell gained 135,000 telephones in 1959 — about double the increase for the previous year. For the second consecutive decade, the company gained a million telephones in the 10 years just ended. Customers made a new high of 14.3 million calls daily in 1959 — an increase of 640,000 a day over the previous year.

The company's construction program was the third largest in its history — an \$83 million outlay for improvements and expansion throughout its territory.

Operating taxes of the company amounted to \$58.5 million, an increase of \$6.5 million over 1958 and about double the dividend payments to investors. Including the 10 per cent Federal excise tax customers paid an average tax of \$2.50 per telephone per month.

### Northville Artist Exhibits In Western Michigan Show

Delores, a senior commercial art major at the Detroit Society of Arts and Crafts, entered a water color and charcoal sketch.

The show, sponsored by the Friends of Art and Grand Valley Artist association, will run through May 1 in Grand Rapids.

She also showed a charcoal drawing in the Art for Young Collectors exhibit in Detroit early this month.

**MORE BIKE WINNERS** — Six Evans bicycles and three Motorola transistor radios were delivered to salesmen in The Record-Novl News "new subscriber" campaign last Saturday. To date 337 new subscriptions have been sold in the Northville-Novl-Wixom area and nine bicycles and six radios have been earned. Last week's bicycle winners pictured above were: (l. to r.): Curtis Hahn, Mike Utley (who ordered a girl's model and gave it to his sister, Judy, standing next to him), Allen Lee Moss, Larry Spangler, Bill Sliger and Harry Ramay (inset). Darlene Moss earned the bicycle for her brother, Allen Lee. She was away at girl scout camp when the picture was taken. Top salesman, and only one to earn both a bicycle and a radio, is John Canterbury. He sold 26 new subscriptions. Three others will receive awards this Saturday. They are Bruce Dayton, 317 Baseline, and Larry Forth, 21718 Kilrush, who earned bicycles; and Donald Thorpe, 24066 Glen Ridge, who earned a radio. The campaign ends Saturday, April 9. ## Michigan Bell Introduces New, Lightweight Phones

Michigan Bell Telephone company next Monday (April 4) will offer to the public a new small, lightweight telephone representing the first major change in home telephone design in more than a decade.

The new phone, called "The Princess", is a compact, oval-shaped instrument requiring one-third less space than current desk-type telephones.

Only 8½ inches wide, 3½ inches deep, and 4 inches high, it saves five inches in depth and stands two inches lower than its predecessor. The Princess weighs 42 ounces, nearly three pounds less than most current desk models.

Designed to take a minimum of space on bed headboards, dressing tables, coffee tables, or wall shelves, the phone is a result of five years of research by Henry Dreyfuss, industrial designer, and Bell Telephone Laboratories.

The premium priced phone comes in five colors — white, beige, turquoise, pink and blue. It is equipped with a dial that lights when the receiver is lifted, or glows as a night light at the flick of a switch.

Now displayed at local Bell telephone business offices, the Princess represents the sixth major telephone alteration since Alexander Graham Bell's original invention in 1876.

By 1882, the earliest table and wall "voice boxes" were converted to a slightly more simplified and efficient unit placed on the wall. It had a heavy receiver and loose,

dangling wires.

In 1886 came the movable stand-up desk set. This model you could clasp in one hand with the receiver held in the other. With variations, it continued through World War I and the Jazz Age.

In 1927, a radical change took place with the handset model, popularly called the "French phone" although invented in this country. A telephone transmitter and receiver were mounted on the same handle, the handset that was to revolutionize telephone characteristics.

The "300" model, brought out in 1937, adhered to the basic handset pattern, except that the wall-mounted ringing mechanism disappeared into the phone base.

The current model "500" desk set was introduced in 1949. As in previous models, a campaign wall set also was offered. It echoed functional design and was the first phone to be offered in colors.

Similarly, the Princess reflects the trend toward miniaturization. Four little "feet" on current models have been eliminated. The new model rests on a molded resilient plastic pad which grips any surface and helps provide a lower silhouette.

Bell Laboratories engineers pared the sizes of internal dial and switch assemblies, wires and coils.

The handset, kept unchanged because it best met the hard measurements of tens of thousands of persons in studies, was placed directly over the dial instead of on a cradle to the rear. The plastic base is molded to cradle the handset.

The Bell System plans to produce 2,500,000 Princess phones this year. That figure tops the total number of 2,241,000 Bell System phones in 1955.

### Genealogists to Hear Tracing Techniques Talk

Attorney Harold R. Smith will be the guest speaker at the April 9 meeting of the Detroit Society for Genealogical Research.

He will speak on the "Techniques in Identity" — an explanation of his experiences in tracing his family members. The talk is aimed at helping beginners and "veterans" in tracing family histories.

The meeting, which is open to the public free of cost, will start at 2 p.m. in the Detroit Main library auditorium.

## THE HITCHHIKER'S THEOLOGY

The other day I picked up a young fellow and gave him a ride. Shortly thereafter I opened the conversation by asking him what church he went to. He told me he was of such and such a faith. Then I asked him what I must do to be sure of heaven. He told me that I had to have faith. No matter what I believed, if I believed it strong enough I would go to heaven! This was the hitchhiker's theology, which incidentally is the same creed of a good number of people. This popular theology that admits all religions into heaven is as false as the devil himself. There is not one iota of truth in it and whoever believes it shall be deceived into a Christless eternity. Christianity is God's revelation to man. It is the only religion in the world that has been substantiated by the death, burial and resurrection of its founder. It clearly sets forth Jesus Christ as the only Saviour by which we can approach the Father, (John 14:6) and be saved for heaven (Acts 4:12). To the Jews, to the religious pagans, to the moral religious man the Bible says that he must repent and turn in faith to Jesus Christ to be forgiven and granted eternal life.

## New Area Phone Books To Arrive Next Monday

Northville and Novi telephone users will receive their new "area" White Pages directories, beginning Monday, Michigan Bell Telephone company announced this week.

The enlarged directories consist of a single alphabetical list of more than 182,000 telephone users living here and in some 20 surrounding communities.

The 13 exchanges to be found in the new White Pages serving those 21 communities are: Belleville, Farmington, Flat Rock, Livonia, New Boston, Northville, Plymouth, Rockwood, Romulus, Trenton, Wayne, Wyandotte and Ypsilanti.

"Michigan Bell's objective is to make it easier for people to talk with anybody they want, wherever they want, and with a minimum of delay," said Hughes C. Bronaugh, manager here for the company.

"Area directories, which arrange all their listings in alphabetical order in a single list, make it easier and quicker for customers to find the number they want," he said. "In the old book, customers sometimes had to look through several lists — grouped by towns or exchanges — before they found the listing wanted."

Each listing, however, will have its appropriate community designation, he added.

The area directories are part of Michigan Bell's "Metropolitan Area Directory Plan" in which 23 telephone exchanges serving more than 100 communities surrounding Detroit are being split into three area White Pages directories.

"Telephone customers who need one or both of the other two area directories covering communities beyond those in their own new book may obtain them by calling Michigan Bell's local business office," Bronaugh said.

He added that when the new books are distributed to the homes and business establishments, the old local White Pages directories will be picked up. Distribution, he said, is expected to be completed within eight days.

## 'Swainson for Governor' Committee Planned Here

A "kick-off" meeting of the Citizens for Swainson in the Northville-Plymouth area was held last Monday night and plans outlined for bi-partisan organization.

Two Northville residents, George Bennett and Mrs. C. E. Woodruff, are heading the local campaign to back the lieutenant-governor for the Democratic gubernatorial nomination.

Well known throughout the area as a resident of Plymouth, bi-partisan interest in supporting Swainson has already been indicated, the organizers stated.

"We believe that Swainson exemplifies the young and courageous leadership Michigan needs and that his leadership is tested and proved by his outstanding record as a State Senator from our area with a perfect attendance for two terms, and as lieutenant-governor," they stated in urging others to join the Citizens for Swainson group.

An organizational meeting will be held next Monday evening. As yet the time and place of the meeting has not been set, however anyone

interested in working on a citizens' committee for Swainson for Governor may obtain this information by calling FI-9-1644 or FI-9-0455.

Detroit's Phillip J. Wegend is obviously an easy-going fellow, slow to worry, calm in the face of calamity.

## Driver Back in Jail

Arthur Fleming, 23, of Detroit, was back in jail again, less than a week after his release from DeHoCo where he served 90 days on driving charges.

Released Saturday, Fleming was sentenced to 10 days in DeHoCo by Judge E. M. Bogart for driving with a revoked license.

## Services Held Here For Car-Hotel Crash Victim

A 25-year-old former Northville resident was killed Saturday night in Plymouth when his car crashed into the Mayflower hotel.

Herbert W. Olson, whose parents Mr. and Mrs. Herbert T. Olson, reside at 475 River street in Northville, died at Wayne County General Hospital shortly after admittance. He suffered a fractured skull, hemorrhaging and shock.

According to Plymouth police witnesses reported that Olson was driving south on Main street about 11:30 p.m. Saturday when his car struck a lamp pole at the hotel corner. He then backed the car some 200 feet diagonally across Main street into Kellogg park knocking down a parking meter.

Witnesses said that Olson then drove the car out of the park and across the street crashing into the window of the Carl Caplin men's shop located in the hotel. Damage to the car was extensive.

Funeral services for Olson were held Wednesday at Our Lady of Victory church with the Rev. Father John Wittstock officiating. Rosary was said Tuesday at 9 p.m. at the Casterline Funeral home. Interment was in Holy Sepulchre cemetery.

Olson was an employee of the Michigan Bell Telephone company and resided at 814 Fairground in Plymouth. He was born March 24, 1935 at White Earth, Minnesota. His parents, Herbert T. and Yvonne Olson are the only survivors.

He was a member of the Plymouth Elks lodge and a veteran of the United States Army.

## Tried Twice Last Week For Disorderly Conduct

Two pipeline workers were fined twice last week on charges of disorderly conduct.

Donald Turner, 41, of Plymouth, was found guilty of drunk and disorderly conduct Monday by Judge E. M. Bogart and fined \$25 and costs.

Wednesday, he was tried again on two counts of drunk and disorderly conduct and indecent exposure and fined \$75 and 30 days in DeHoCo by Judge Bogart.

Also fined \$70 was Brady Sherman, formerly of Northville, on two charges of drunk and disorderly conduct.

## Our Parking Meters Ready to Perform

Northville's parking meters have had the dust and dirt blown off their tickers and are ready once more to perform with the skill of their youth.

For the past three months the mechanisms have been undergoing rejuvenation at the Jackson service plant.

Meter heads were vacated in shifts of two dozen until the whole crew had been spiffed up.

This was the first time in 14 years mass repairs were undertaken, Police Chief Eugene King said.

Some of the things that make meters grow old, he added, are road dirt, dust, moisture and coin jamming.

Even though meter heads have been empty on and off these past months, King said, people have not neglected to fill them with coins.

## Stolen Car Recovered

A car stolen Saturday morning from a parking area behind 140 North Center, was recovered by Highland Park police Saturday afternoon. The car is owned by Howard Myers of that address.

Two young escapees from Northville State hospital admitted taking the car after they were picked up by Detroit police.

## Theatre Owner Dies in California

Harry R. Lush, owner of the Penn Theatre in Plymouth and operator for many years of the P&A Theatres in Plymouth and Northville, died at LaJolla, California Monday morning at the age of 69.

Mr. Lush came to Plymouth in 1919 and leased the Penniman-Allen Theatre in July 1921 from Kate Allen. In 1941 he built and opened the Penn Theatre. Five years ago he discontinued his interest in the P&A Theatres.

When the Penn was opened, Mr. Lush decided to offer only first-run movies and as single features. The policy has persisted, and the Penn is among the few theatres that constantly runs single features.

A native of Iowa, Mr. Lush was a member of the Variety club, the Allied Theaters of Michigan, Detroit Power Squad, the Northville Commandry of Knights Templar, and Plymouth Rock Lodge, F&AM.

Mr. Lush moved from Plymouth to Aguanga, California in San Diego county 10 years ago. He is survived by his wife, Charlotte.

Private funeral services were held Wednesday at the LaJolla Mortuary. Entombment is in Cypress View Mausoleum. Donations to the Cancer Fund are being accepted in lieu of flowers.

# Northville 'Chained' Years Ago

## The Northville Record

THE OLDEST WEEKLY NEWSPAPER IN WAYNE COUNTY — EST. 1868 Thursday, March 31, 1960-9

Surveyors today marvel at the accuracy — sometimes the gross inaccuracy — of section and township measurements made almost 150 years ago by their brothers of the "link and chain".

Wynn Wakenhut, a Northville surveyor, had reason to marvel last week as he inspected the crude instruments used by his pioneering predecessors in measuring distances between two points.

The instruments, a link and chain and a compass, are the property of William Green, 8762 Napier. According to Wakenhut this particular Gunther Chain and the compass were used exclusively for surveying Littleton, New Hampshire shortly after the Revolutionary War.

"It's pretty obvious," Wakenhut said, "that these instruments were probably used only once — to lay out Littleton. The chain is in good shape and the compass still works."

The chain and compass were used to measure distances and plot straight lines. The standard chain is 66 feet long, containing 100 links, each about eight inches long.

(An early Northville deed, owned by Mrs. Robert Bingley, 120 Cady describes a piece of property sold to David Gregory by Hiram Robinson using the chain and link measurements. Thus, when it describes one side of the property as 2 chains, 50 links wide, it means the property was 165 feet, 4 inches wide.)

Similar instruments were used extensively about 150 years ago by surveyors commissioned by the United States government in laying out townships in the virgin Michi-

gan wilderness. With the establishment of the office of Surveyor General in 1796, surveyors who tramped the rugged countryside with their crude instruments were paid \$3 per mile.

Wakenhut explained that Northville is significantly located on one of the first lines run through Michigan by these early surveyors.

By the Treaty of Detroit in 1807, the west boundary of the land ceded to the United States by the Indians ran due north from Fort Defiance, Ohio into Michigan. This line served the dual purpose of marking the west boundary of the Treaty of Detroit lands and of establishing the principal meridian in Michigan. The line ran north and south, some distance east of what is now Lansing (Meridian road).

By a contract of 1815, a base line was run east. This line (from which

Baseline road derives its name) passed eight miles north of Detroit and intersected Lake St. Clair. From it surveyors established all townships in Michigan, including those in the Upper Peninsula.

The first surveys established six tiers of townships north and six south of the baseline from the meridian to the east boundary of the state. Thus, the township of Novi became Town One North, while Northville became Town One South.

Using the Gunther Chain and the magnetic compass, surveyors laid out 36 sections in each township. Good surveyors — and Wakenhut includes the original Northville-Novis surveyors in this category — seldom were more than 10 feet off in each township half-mile measurement.

Poor surveyors, such as the men who "chained" Salem township, which is considered one of the poor-

est jobs in Michigan, made errors up to almost a quarter-mile in a township. These errors occurred sometimes because the chain itself became stretched or because one or two links were torn off the chain.

As the surveyors worked their way north from the base line, errors accumulated. Therefore, correctional lines parallel with the base line were established and "chainings" of northern townships were made from these lines to minimize errors.

There were three correction lines in the Lower Peninsula, none in the Upper Peninsula, and none south of the base line.

Wakenhut, who has attempted to locate some of the original markers set in the ground by these early surveyors, said the instruments are only partly to blame for these errors.

Sometimes the surveyors were not qualified and sometimes they made an error or two to satisfy the property owners. In the case of Salem, Wakenhut offered this long-standing explanation:

Surveyors working east from Jackson finished their work first and decided to "celebrate" with their cohorts working west from Detroit. Thus, each spot where the whiskey jug rested became a section corner.

## Have Your Report Ready- Census Starts Tomorrow

The 1960 Census of Population and Housing, the Nation's 18th decennial nose count, gets underway on Friday morning with 160,000 census takers starting their rounds which will take them to every dwelling unit in the United States. In covering the 3½ million square miles of land area of the 50 states, the census takers will travel an estimated combined distance of more than 1,000 times around the world, or approximately 28 million miles.

District Supervisor Jack H. McDonald pointed out that residents of this area can speed up the big count by having their Advance Report forms filled out and ready for the census takers. This action will save time for both the householder and the census taker, the census official said.

The Advance Report Form was distributed to local households prior to the start of the house-to-house canvass. It contains the seven population and six housing questions which are asked of all persons. The Advance Report Form gives the family a chance to assemble information about each member in advance of the census taker's visit. Its use is expected to speed up the field canvass and provide more accurate statistics.

At every fourth household, the census taker will leave a Census Household questionnaire which contains additional questions covering population and housing characteristics which are being asked of a 25 percent sample of the population. Householders are requested to fill out the household questionnaire and mail it within three days to the local census district office. A pre-addressed postage free envelope is being provided for this purpose.

McDonald emphasized that all information about individuals and their homes furnished to the Census Bureau is held in absolute confidence under Federal law. It is used only to provide summary figures such as totals, averages, and percentages. The information about individuals cannot be examined by anyone other than Census employees who are sworn to secrecy, and thus cannot be used for investigation, taxation or regulation.

Householders will not have any difficulty identifying the census takers.

Each census taker will be provided with a red, white and blue

identification card to be worn on the lapel. This card bears the seal of the Department of Commerce and the words "Census Enumerator, Official Credential" are printed across its face. Persons purporting to be Census takers who do not have this identification card should be reported immediately to your local district Census office.

Census takers will be further identified by the portfolio containing their supplies. The portfolio is brown, and bears the legend "1960 Census of the United States", printed in green ink. In the portfolio the census taker carries his supplies of report forms, maps, pencils and other tools of his trade.

Special steps are being taken to make sure that all transients are counted.

Places such as large hotels, motels, and other accommodations for transient guests will be canvassed under a different procedure than the one used for regular household dwelling units. Prior to March 31, census takers visited each of them and made a complete record of the rental units in these special dwelling places. At the same time, they determined which of these units are occupied by permanent residents and which are for transients.

Transients will be counted to-night (March 31). This census operation is known as "T-night". A supply of individual Census Report forms have been left at hotels, motels and other large transient places to be distributed to transient

guests staying at these places during the night of March 31. Census Bureau employees will be on hand during the evening to assist transients in filling out the forms. The purpose of the special canvass is to account for every person staying in such places on the Census date.

After the individual report forms have been collected, they will be screened to determine what names should be included in the local census counts. Persons enumerated on "T-night" will be counted as part of the local population only if they have no usual place of residence elsewhere. Names of transients will be allocated back to their usual place of residence.

Information on permanent residents of these special dwelling units will also be obtained by means of individual census report forms, and the information about their housing accommodations will be furnished by the resident managers of these places.

RALPH C. SCHULZ, of 21136 Lujon in Northville, has been named manager of the Ypsilanti plant of Ford Motor company's Hardware and Accessories division, according to an announcement by R. T. Thornton, general manufacturing manager. Schulz has worked with Ford since 1939 and has been production manager at Ypsilanti.

PIONEER SURVEYORS, including those who laid out Northville and Novi townships, primarily used the Gunther Chain and the magnetic compass (pictured above) in measuring properties. The "half chain" and compass above is owned by William Green, 8762 Napier road. To illustrate the advancement in measuring equipment, a transit owned by Northville Surveyor Wynn Wakenhut is shown at the right.

**"Worst roads in the world, but this new Chevy takes all the roughness out!"**

Out near Vathena, Kansas, farmer Milt Roundy tends 800 acres with only one helper—his 1960 Chevrolet pickup. The truck almost never runs on Kansas's fine state highways—instead it averages about 2,500 miles a month on unimproved back-country trails or on hauls into the fields, off the road. "In my book, these are the worst roads in the world," Mr. Roundy says, "but this new Chevy takes all the roughness out. It doesn't fishtail or whip around like other trucks — I can steer it with one finger!"

They're speaking right up, these owners of '60 Chevrolets. Everywhere you go, they're giving out glowing reports on a revolutionary new truck ride that leads to a bigger day's work at less expense; praising truck power that knows the most about saving money.

It's Chevy's total newness they're talking about. And you'll be talking, too, once you turn a new Chevrolet loose on your money runs. Your dealer can get you started, right away!

It takes Chevy's new Torson-Spring Ride to smooth out a road like this!

# Let's Hear Your School Cost Ideas

To the Editor:

The Northville Teachers' club's recent request for a salary increase has resulted in formation of a lay committee to finger the public's pulse regarding another millage increase.

Rise up fair taxpayers! The time has come to tell someone how you want your tax dollars spent. Your choice may be greater emphasis on the three R's, extended school days for gadding mothers, foreign language at the elementary level or Japanese lanterns on the football field. But, please let's make sure the school board and the administration are fully aware of the majority's wishes.

I would personally favor the increase if it were part of a detailed plan to develop a high calibre faculty. Alas, I suspect we are confronted with an expediency move, which will free the school board to turn their attention to their first

love, floodlighting the football field. The fact that we already have a lighted field elsewhere, notwithstanding.

Our school system's most acute problems could best be met by competence and dedication in the classroom.

This involves more than meeting the pay scales of surrounding areas. It means providing a salary climate that attracts and retains the ablest people.

I'm appalled at the neglect shown in this area of teacher's salaries while minute planning has been given to school plant landscaping. I'm opposed to a philosophy of last things first, evidenced by our annual faculty turnover despite our recently acquired trappings.

My yes or no answer to a millage increase is contingent on what Northville taxpayers really want. I'm convinced we can't afford everything.

If you share my desire for a shift in values or if you are in complete opposition, please send me a postcard expressing your views. I will remit all correspondence to the committee.

An overextended school system cheats on teachers' salaries in the same manner the overextended homeowner cheats on dental care. But repairing neglected teeth is a simple task compared to repairing a neglected mind.

## MAKE MINE BLACK - WITH SUGAR

After attending my first Novi council meeting and hearing an explanation from one of the ex-council members I became quite alarmed at his report and the security risk that Novi is taking by letting their policemen drink COFFEE. Especially policemen who drink COFFEE for three straight hours while on duty. He pointed out that they had employed a detective agency to investigate, a man capable of alleviating these conditions, and our village manager was appointed to see that this COFFEE drinking cease and desist. What they apparently overlooked was that he too was a COFFEE drinker.

My personal observation is that while these alleged policemen are spending their time at the lunch counters continuously drinking COFFEE, the village manager is spending his time at a subordinate policeman's home drinking COFFEE and smoking his fragrant tobaccos.

Now we find ourselves in a precarious situation. We can rest assured that we are being protected by COFFEE addicts. One of the old councilmen pointed out that we are the largest village in the State of Michigan, facing great inimity from our surrounding neighbors, whose

engulfing hands are reaching out to consume us piece by piece. They look longingly over our borders and what do they see. A weak police force frantically retreating from the outer borders overcome by the aroma of Novi COFFEE. They see a village manager also overcome by the COFFEE aroma.

I can assume that our old council were at the end of their rope. They were stuck with COFFEE drinkers.

In desperation I thought of our D.P.W. and their old dump trucks as a means of protection. But alas—too late—they are laboriously trying to post over one hundred dollars worth of weight limitation signs on our roads banning trucks from using our streets but conscious of the fact that our police force cannot enforce these restrictions because of lack of scales to weigh them. Then scurrying off to gather the village rubbish at the approximate cost of ten dollars a yard.

What I wonder now, will our new council promote sound and sensible administration or will they continue to support this beatnik type of management and install BIG thermos bottles for COFFEE in our officials' offices and scout cars.

## 11th-Grade Girl Fights To Save New-born Colt

Gladah Feeds New Colt

He's a skinny little fellow, no bigger than your pet dog.

And his chances of growing into a frisky pony are about as thin as the three ounces of milk he sucks from the Lady Claircol bottle every two hours.

But if the patience and hope of 16-year-old Gladah Clarke mean anything, the scale of life is sure to tip in his favor.

Jerry — that's the colt's unofficial name — was born five days ago in the Clarke's stables at 41810 East Seven Mile road, on young Jerry Clarke's birthday. The colt's twin sister was born dead.

The double birth caught Gladah and her parents by surprise — and probably surprised the mother, Princess, even more. Twins in horses are mighty rare. Doesn't happen but in about one out of 2,500 cases.

But just being born a twin isn't the only reason vets shake their heads in weighing Jerry's chances of survival.

Princess, a Welch, is only a pony herself (she's full grown, of course) and the father, Chief Pontiac of South Lyon, is also a pony — an Appaloosa "Pony of America". The marriage is unusual to say the least. Consider, too, the fact that the twins were four weeks premature.

Jerry had plenty of attention right from birth. "We watched from the stairway outside the stable," Gladah, a Northville 11th grader, said. "We watched her give birth to the filly. Then Princess walked away and we thought she was ignoring her."

But upon closer inspection, Gladah and her parents saw that Princess, aware that the filly was dead, was more interested in the bundle of brown fur in another corner of the stable. The colt was alive but weak and barely breathing.

James Ritchie, South Lyon veterinarian, had little hope to offer when he answered the Clarke's call. But he gave the colt a couple of shots, one for lock jaw and another for infection, and left Gladah with some pretty strenuous instructions.

Because the colt was too weak to stand he has to be fed by a nipple and bottle. So every two hours, Princess obligingly lets herself be milked, the milk is transferred to the little bottle, and Gladah snuggles down next to the colt with bottle in hand.

Feeding a little colt every two hours is a pretty rigorous schedule, but Gladah doesn't mind. She sleeps on the straw next to Jerry and dreams about a frisky pony.

## Buffalo Univ. Dean To Address Institute At Northville State

On March 31st and April 1st, Dr. Benjamin H. Lyndon, Dean Graduate School of Social Work at the University of Buffalo, will be the speaker at an Institute at Northville State hospital.

Co-sponsored by the Northville Psychiatric association and the Michigan Society of Neurology and Psychiatry, the institute will emphasize, "Trends in Specialized Social Work Practice". Social workers throughout the state are planning to attend.

Many social workers, psychiatrists and psychologists attending, will have an opportunity to meet Dr. Lyndon at a reception at the home of Louis Schults, 34035 Dorais, Livonia, at 5 p.m. on March 31. Dr. Lyndon came to Detroit in 1947 as dean of social work. Under his direction, the school of social work achieved full professional status as a graduate school.

Since leaving Wayne State university in 1951, Dr. Lyndon organized a graduate social work program at New York university, before he went to the University of Buffalo.

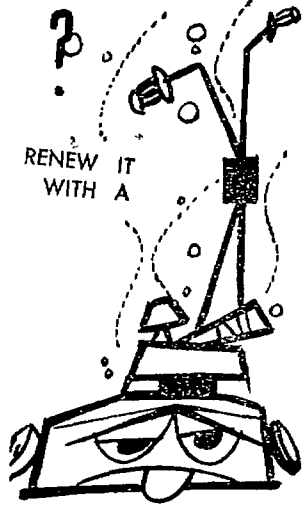

Any former social workers or others in the area wishing to attend, may contact Mr. Schults, social work supervisor at Northville State hospital, FI-9-1800. The registration fee for the two-day series is \$2.00 with optional luncheons for the two days at \$1.50 each. Persons attending the institute may also make requests, in advance, to tour the hospital.

## Mustangs Elect Atchinson "Most Valuable" 1960 Cager.

Roger Atchinson, 18-year-old senior, was elected the most valuable varsity basketball player last week by his Northville teammates. In another election, the Mustangs named Sophomore Steve Juday "most improved" player of the 1959-60 cage season.

The election of Atchinson was based primarily upon his sizzling scoring performance and agility beneath the basket. The 5' 10" guard plunked in 95 field goals and 67 free shots for a total of 257 points and an average of 16.1 points per game.

Atchinson's closets team rival was

Center Wade Deal who pumped in 56 field goals and 56 charity shots for a 168 total and a 10.5 average.

Atchinson, who also is a key player for the Mustangs' football and baseball squads, is president of the "N" club and an alternate member to the student council. He plans to enter Western Michigan university next fall where he will take a teaching course.

Coach Dutch Van Ingen pointed to Juday's outstanding performances in the final seven games of the season in explaining his selection.

Juday piled up an average of 13 points in his last seven games after a rather unimpressive start. Altogether he scored 126 points, with 37 field goals and 52 free shots.

Three other top Northville scorers were: Jim Patterson, 126 points, 7.9 average; Larry Nitzel, 68 points, 4.5 average, and Gary Morgen, 84 points, 6.0 average.

In other statistics compiled by Coach Van Ingen, Northville outscored its opponents in the first quarter, 205-202; dropped the second period, 226-237; tied the third, 216-216, and dropped the last, 238-253.

The opposing teams fired 328 field goals to Northville's 299, but the Mustangs were tops at the free throw line, 288 to 258. Northville tied its opponents percentage-wise, 62 to 62. Opposing teams committed only two more fouls than Northville, 304-302.

### Coarse Fish Season In State Opens April 1

A "two-in-one" season on coarse fish will again be open this spring in a number of streams in 80 Michigan counties.

Carp, suckers, redbreast, mullet, dogfish and garpike will be legal targets for archers and spear fishermen from April 1 to May 31 in lower peninsula streams designated by the Conservation Department. Above the Straits, the archery-spearfishing season on noxious fish will run during the month of May.

Lists of streams open to the sport can be obtained from the Department's Lansing office or any of its district field headquarters.

## Chick Quits!

CHICK HARBERT, one of the nation's top golfers, resigned Monday as the professional of Northville's Meadowbrook Country club. Harbert had been with Meadowbrook for the past 13 years. He reportedly resigned because of a disagreement with club directors over the use of electric golf cart fees. His resignation caught the directors by surprise, with little time before the opening of the Michigan golfing season to appoint a replacement.

## Anglers Ready Nets For State Smelt Run

Spawning runs of smelt soon should be invading Michigan's tributary streams of the Great Lakes.

Water temperatures and levels will again rule the timing of the runs. Last year, weather postponed them and caused spotty success for fishermen.

Upstream migrations of the slender, silvery fish begin when water temperatures rise to about 40 degrees. Although there are marked differences from year to year and even within the same stream, smelt movements usually begin during early April in the lower peninsula and around mid-April above the Straits.

Conditions for smelt netting have been poor in the Great Lakes during the winter, but Conservation Department fisheries officials have no word from commercial fishermen of a big, downward shift in populations.

While much depends upon the weather, fishermen can aid their cause this spring by observing lights out periods, where possible, to encourage smelt on their upstream runs.

ON YOUR MARK — Northville's high school athletes moved outside this week to take advantage of long-overdue spring weather and to flex their muscles in preparation for the opening of the spring sports schedule next month. Lined up and ready to go splashing on another sprint (above) are three of Coach Ralph Redmond's top dash men. They are (l-r): Tom Ritter, Tom Darling and Jim Petrock.

Overcoming fatigue and weariness through entirely spiritual means will be a theme dealt with at Christian Science services this Sunday.  
Scriptural readings in the Lesson-Sermon on "Unreality" will include the following from Isaiah (40:28, 29):  
"Hast thou not known? hast thou not heard, that the everlasting God, the Lord, the Creator of the ends of the earth, fainteth not, neither is weary? there is no searching of his understanding. He giveth power to the faint; and to them that have no might he increaseth strength."  
Among the correlative passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy is the following (385:15-18): "Constant toil, deprivations, exposures, and all untoward conditions, if without sin, can be experienced without suffering. Whatever it is your duty to do, you can do without harm to yourself."

## from the PASTOR'S STUDY

By the Rev. Fr. John Wittstock  
Our Lady of Victory Church

"IT IS GOOD FOR US TO BE HERE"

One of the Gospel stories tells us that Jesus took Peter, and James and John up to the top of a mountain and was transfigured before them. His countenance was seen more radiant than the sun. Christ allowed them the privilege of seeing His Divinity just for a moment. Peter explained, "Lord, it is good for us to be here."

That happened on Mount Thabor. Then on Mount Calvary He showed them His Humanity as He is dying on the cross. All the disciples, save St. John, ran away. They did not exclaim, "Lord it is good for us to be here."

How well these two scenes are re-enacted in our lives every day!

When God shows us His Glory in the many benefits of body and soul that He showers upon us, we are glad and even thank Him sometimes.

But when He shows us The Cross, we shudder and even try to run away from It. We murmur and complain, we become very much discouraged — so much so that we cannot even

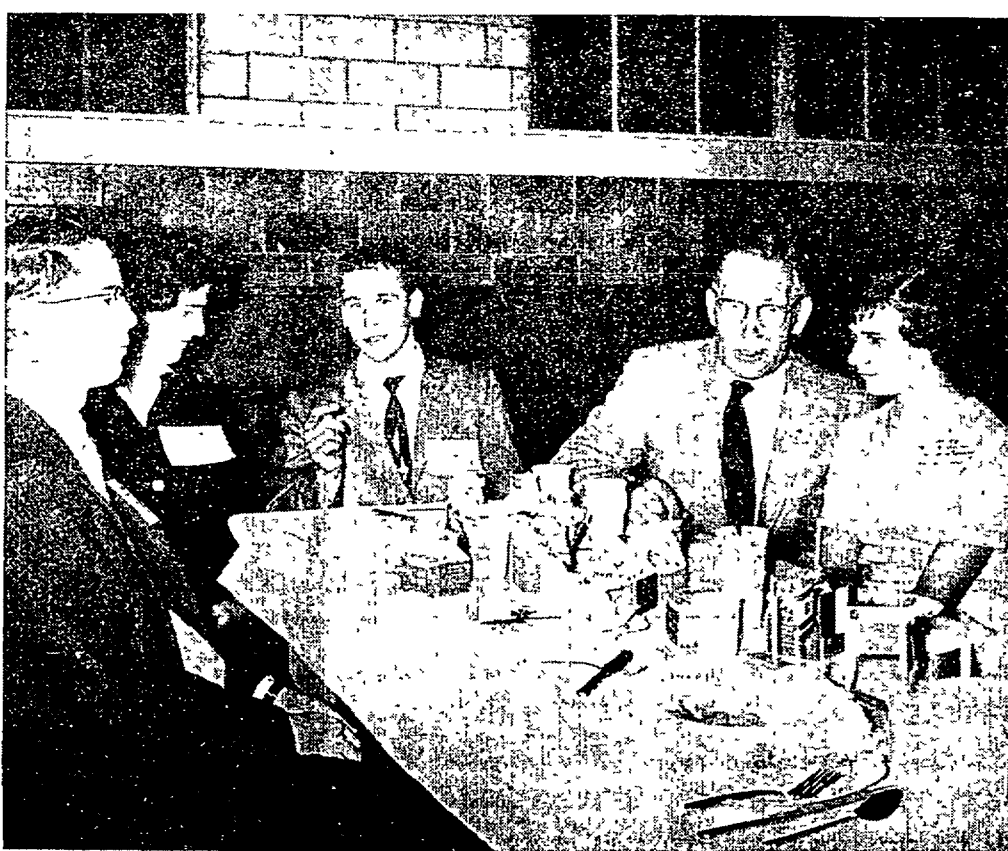

pray. And yet our faith tells us that we must accept the cross if we wish to follow Christ and ultimately save our souls.

In these closing weeks of the Lenten season, let us take St. John as our exemplar of praying. St. John had rejoiced on Mount Thabor for the nearness of Christ and the peace that was filling his heart, and gladly would he have dwelt in that place forever.

So also may we rejoice when on the mountain of prayer in search of our soul's Beloved, we find Him indeed and hold fast to Him and wish that we might never let Him go. It may be somewhat of an emotional holding but God made a man's emotions as truly as He made his intellect.

But we must be prepared to ascend both mountains: Thabor in light, Calvary in darkness. To set foot on the one is in truth to seek Christ, but Christ as ministering to us in the joy of His shining presence.

To set foot on the other is still more to seek Christ in that, forgetting ourselves, we seek Him and Him only.

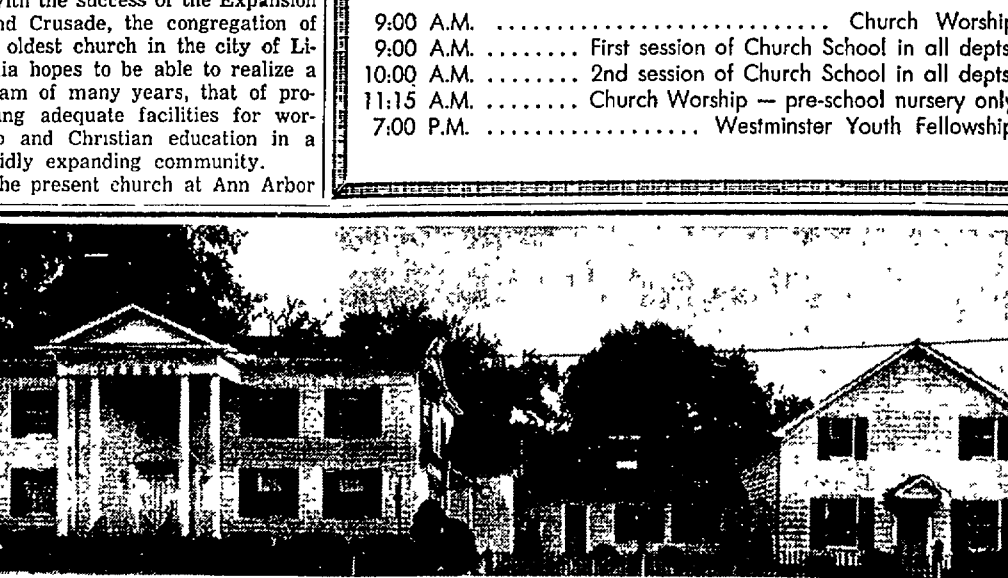

**UNITED NATIONS DELEGATES** — Four Northville students represented the Dominican Republic at the UN Assembly conducted last week Monday and Tuesday at Ithaca. According to faculty advisor E. C. Mollema (above), the local students turned in one of the most outstanding performances at the assembly, which included 600 select students from Ohio, Indiana and Michigan schools. Nearly every known nation in the world was represented by the students. The students are (l-r): Robert Trombley, Isidore Seiffert, Christ Krauter, Mollema and Anjette Michielsens.

## Century Old Church Plans Fund Drive

The Rev. Glen Trembath, staff member of the Methodist Department of Finance and Field Service, Church Extension, will be the guest preacher at the Sunday services of the Newburg Methodist church, Ann Arbor trail at Newburg road, on April 3 and April 10. Rev. Trembath, a resident of Wyandotte, will conduct and direct the proposed Expansion Fund Crusade for the congregation of Newburg on the church Loyalty Days, Sunday, April 10 and Monday, April 11 at which time, teams of dedicated members will visit on behalf of their church, seeking subscriptions for the two year goal, which has been set at \$48,000.

The director, Rev. Trembath, has organized financial campaigns of 86 churches in 21 states since September 1955, when he was made a staff member of the Church Extension office. These churches have raised more than 5 1/2 million dollars, under his direction. Rev. Trembath has also served in the Detroit conference for 14 years.

With the success of the Expansion Fund Crusade, the congregation of the oldest church in the city of Livonia hopes to be able to realize a dream of many years, that of providing adequate facilities for worship and Christian education in a rapidly expanding community. ## ANNUAL TOWNSHIP MEETING

NOTICE IS HEREBY GIVEN, That the next Annual Township Meeting of the Electors of the Township of Novi, County of Oakland

STATE OF MICHIGAN  
will be held at  
NOVI COMMUNITY BUILDING  
26350 NOVI ROAD  
beginning at 2:00 o'clock P.M., E.S.T., on  
**SATURDAY, APRIL 2, 1960**

HADLEY J. BACHERT,  
TOWNSHIP CLERK

THIRD GRADERS at Orchard Hills school in Novi don't tinker around with miniature building blocks. They dream-up man-sized projects and then do man-sized jobs. Take for example the split-log cabin now under construction in the school room. It's an authentic model of the early pioneer home right down to the intricate tongue and groove joints. Mrs. Betty Ramsey is the teacher and construction engineer. Above, Danny Lipke and David Kahler skillfully prepare the door opening.

## Mrs. G. S. Merwin To Chairman Group

Mrs. George S. Merwin, 43461 Cottisford, Novi, has accepted an important post on the newly organized Operating committee of the United Foundation Women's Organization, Mrs. Irving ImOberst, Dearborn operating committee chairman for western Wayne county, announced last week.

Mrs. Merwin was appointed chairman of a key sub-committee created to carry out the education and public relations goals of the Operating committee.

"The annual fall Torch Drive is our means of 'giving once for all' to the 195 separate service, health and character building agencies which are members of the United Foundation," stated Mrs. ImOberst. "And this newly formed Operating committee has been assigned the job of telling the people in each community who give so generously in time and money once a year what services are available to them, as a result, 365 days a year."

To accomplish this mission, speakers, programs and Torch Drive agency tours will be made available to every service, church, school, fraternal and social organization in Wayne, Macomb and Oakland counties.

In addition to these programs, special educational meetings to be held in April and May throughout western Wayne county are being planned for Torch Drive and civic leaders.

Mrs. Merwin, representing Northville, is serving on the sub-committee now making final arrangements for the special meetings to be held in "northwestern" Wayne which covers the areas of Northville, Livonia, Redford township, north Dearborn township and Garden City.

## St. Mary Hospital Guild News

The following items on activities of the St. Mary Hospital Guild, submitted by Phyllis Robinson, will benefit the communities the hospital serves and its general membership, keeping them informed of the active participation of the guild in the hospital.

### Decoration Committee

The decoration committee met Monday, March 7 to prepare St. Patrick's Day favors for the patients' trays. The completed 90 adult favors consisted of a green shamrock with a clay pipe tied to a white lace doily and the 50 children's favors made with green suckers.

Millie Comps, our past chairman, was presented with a pen and ceramic pen holder made by one of our talented members, Isabelle Quigley. Millie has been a wonderful chairman and all benefited under her artistic leadership.

Madeline Enterline, the new decoration chairman, has asked for some clever Easter ideas before the next meeting.

Refreshments were served and all departed a bit happier knowing they had helped to make the patients' cheerful for another holiday.

**Hospital Volunteers**  
A new group of smiling faces and busy hands can be seen regularly at St. Mary hospital. This being the hospital volunteers of St. Mary Hospital Guild.

Presently there are 90 guild members working regularly every week, racking up an accumulative total of approximately 270 hours per week. These hours are spent manning the information desk, business office, mail distribution, admitting, fluid and juice details.

Proposed for the not too distant future is a volunteer training program. Here the guild members will be trained to handle the more technical areas of the hospital — x-ray lab., central service, sterilizing, also patient administering, etc.

Interested? Good! Keep it in mind. Membership will be notified when the program is to begin.

### Ways and Means Committee

Guild members, encircle June 2 on your calendar. Why? Because a social event (one you won't want to miss) is being planned for that evening by Chairman Kathy Hughes and her committee. It's going to be a card party at Bentley high school and will include as part of the entertainment a lively musical variety show. Ticket Chairman Ginny Gamher has announced tickets are available and knowing the popularity of our card party last year, we urge you to purchase them early.

Complete information should be available soon on the results of our sale of "Music Man" tickets.

## "Luncheon Served" with Fashions

Reminding themselves to "stand straight, walk slow and smile," eight Novi housewives in Bermudas and summery frocks climbed the daisy-wreathed podium Thursday afternoon.

One by one they twirled serenely, stepped down and ambled — smiling, straight and slow — among tables of more than 100 delighted friends and neighbors at the first Willowbrook Community church Women's Society of World Service fashion show, "Luncheon Is Served".

Hair styles — featuring modified Italian and bouffant looks — were also shown.

Local dress and beauty shops and a cosmetic representative supplied costumes, coiffures and makeup.

The show, chaired by Mrs. Robert K. Anderson, was narrated by Mrs. George Lewis.

Models were church women, Mrs. Anderson, Mrs. Richard Holmes, Mrs. Robert McClelland, Mrs. Walter Pinner, Mrs. Daniel Freytag, Mrs. Fred Buck, Mrs. Ralph Caliguri and Mrs. Richard Cromer. Mrs. Lewis also modeled a daytime dress.

A luncheon preceded the fashion show.

Proceeds will be used for the Society's church work.

**CHECKED FOR SPRING** was the smart afternoon dress modeled by Mrs. Fred Buck.

MINUTES BEFORE they appeared cool, calm and handbox fresh before their audience, Mrs. Robert K. Anderson (left) and Mrs. Daniel Freytag rushed final repairs.

**NO STRAYS HERE** — Wisps and flyaway curls were banished from Mrs. Walter Pinner's coiffure as she stepped out to model a spring frock and new hair style. Hair Stylist Mrs. Lawrence Hopps makes last minute adjustments.

## Northville Township Audit Report

March 16, 1960

Township Board  
Northville Township  
Wayne County, Michigan

We have examined the statement of financial condition of Northville Township, Wayne County, as of March 1, 1960, and the related statements of receipts and disbursements for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. We did not examine the 1959 tax roll returnable to the Wayne County Treasurer as of March 1, 1960. A separate audit of this tax roll is made by the Wayne County Bureau of Taxation.

In our opinion, the accompanying statement of financial condition and related statements of receipts and disbursements present fairly the financial position of Northville Township, Wayne County, at March 1, 1960, and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Very truly yours,  
Iceerman, Johnson & Hoffman

NEWS FROM THE  
AMERICAN  
LEGION

POST 147

Bob Collacott — Reporter

Last Tuesday, March 29, the Lloyd H. Green Post of Northville presented a flag to a Brownie troop in South Lyon. Officiating at the presentation for the Legion was Americanism Chairman Jim Madigan. Four Brownie troops of the South Lyon area were present to see the movie on flag etiquette, which is shown at all flag presentations by this post.

Our membership chairman claims that we are only ten short of the 200 mark. Anyone who hasn't paid his dues yet should try to get them in before the last of this month.

Another reminder to all veterans. Keep open the night of April 22. At this time a man will be at the Legion home to explain the new veterans pension plan.

Blood Bank News: At the present our local post has more than 30 pints of blood on reserve. Any member who may need blood for himself or any member of his immediate family can get same by contacting Comrade Acker at FI-8-0111 or the Legion Home at FI-9-1080. In order to keep the blood bank active and enough blood on call the Legion members must keep donating. Anyone interested in giving blood to the American Legion blood bank should contact Comrade Acker.

## SPEAKING

# for the Record

By Bill Sliger

There's a time-worn saying that "every spring a young man's, etc."

A couple of other things inevitably happen each spring in Northville (and many other communities for that matter).

First of all citizens living on unimproved streets begin complaining (and understandably) about the muddy, bumpy conditions. Simultaneously, older paved streets show the wear and tear of winter so that huge chuck holes pop up to jar unsuspecting motorists loose from their steering wheels.

Meanwhile, another action triggered by spring and contract time is taking place. The matter of teachers' salaries and how much, if any, raise in scale will be permitted.

Though hardly related in nature, these problems are bound like Siamese twins. For the solution to both rests with the taxpayer and what his pocketbook can withstand.

On the one hand a resident might say that compared to teachers' salaries paved streets are unimportant, indeed.

It is unescapably true, however, that both are important. And, as I have stated in this column before, the school board has demonstrated consistently that it is much more adept at finding the taxpayers' wallet than the city council. (This is not a criticism!)

Unpleasant as it may be to the taxpayers, the problems of teachers' salaries and paved streets will not go away. We shall be hearing much more about both in the coming weeks.

While a P-TA study group is examining the teachers' request for more money, the city manager has prepared a cost analysis for improving all the streets.

In all probability the study committee will ask that a millage increase for teachers' salaries be taken to the voters later this year. If the teachers are to be given a pay boost, the school board has stated already that it must come from new voted millage.

City Councilman Ed Welch has been pressing for several months to interest the council in undertaking a city-wide street program. The council knows that damage to existing improved streets is so bad that nearly all of the money available for streets must be used for repairs this year. Councilman Welch believes that it would be wiser economically to get the entire job done at once under a bond issue.

The city manager's report this week shows that to pave all existing streets would cost approximately \$450,000. Over a 20-year period this would call for about a 3-mill levy. This figure might decrease as our assessed valuation increases.

Coincidentally, it has been estimated that the school district would have to vote a 3-mill increase to meet the teachers' salary request.

In the final analysis the answer will come from the taxpayers. It is hoped that in reaching this decision all information is considered carefully and equally. We cannot escape either obligation. But we can decide when — and to what degree — the requests of our governing units are to be granted.

More properly stated, the taxpayer should decide what he WANTS and is willing to finance.

# Census to Increase State's Representatives

NEW VOICES in Congress and Michigan Legislature will be among results of the 1960 census.

Michigan is expected to send two new Congressmen to Washington in 1963 because of a requirement that Congress must reapportion the House of Representatives after each federal census.

Under provisions existing as the nose count started, the census also will authorize additional representation in the Michigan House. But it would be 1965 before the legislative redistricting takes effect.

The timetable for reapportionment according to population shifts recorded by the census may be too leisurely for proponents of redistricting. Adoption of a re-apportionment amendment to the state constitution could change the schedule.

Senate districts created under the 1952 reapportionment amendment would remain frozen no matter what is revealed by the census — unless the 1952 provision is wiped out. This

is just what state AFL-CIO President Gus Scholle has asked the Supreme Court to do.

It is possible attempts will be made to revise the apportionment of both the Senate and House through a vote of the people before 1965 rolls around.

The amendment adopted in 1952 stipulated that the House must be reapportioned in 1963 according to outcome of the census, with the new districting to take effect two years later.

The state Board of Canvassers would draw up the new districts if the legislature failed to act on re-apportionment in 1963.

Census-takers are expected to find that Michigan has a population of about 8,000,000, or 1,700,000 more than she had when the 1950 census was taken.

This population gain is expected to give Michigan two more Congressmen, bringing the total to 20. One Congressman was added after the 1950 census.

The big question is the boundaries for the new districts. But it's a cinch the populous Wayne-Oakland-Macomb area can expect a louder voice ultimately in Washington and Lansing.

MICHIGAN HIGHWAYS — and the men building them — will be in the forefront of the news this spring.

The dollar value of trunkline projects let in April is expected to surpass that of any month in State history. More miles are expected to be involved in the April lettings than were in operation throughout the State in 1955.

Already Michigan has completed 20 percent of its share of the new interstate system, which is 10 percent complete nationally.

Republicans will concede that Democratic Highway Commissioner John C. Mackie has had success with his ambitious five-year building program.

But Mackie's bulldozers have crushed some toes.

Sen. John Stahl (R-Belding) claims the second year of his investigation of the Highway Department will produce evidence backing up his contention state highway matters have been mismanaged. While Mackie builds roads, Stahl will be trying again to build a fire under Mackie.

THE LATEST Detroit official to run for governor is out from different cloth than the late Detroit Mayor Albert E. Cobo, who never quite got across to the outstate voters when he ran against Gov. G. Mennen Williams in 1956.

Detroit Councilman Edward Connor sparks more enthusiasm in his speaking engagements than Cobo
