

City Incorporation Talks Start Thursday in Novi

City Looks For Clerk Replacement

The city of Northville began advertising for a new clerk this week.

By December 31 City Manager Bruce Potthoff must come up with a replacement for Mrs. Mary Alexander, who's been performing the clerk's duties for Northville for more than a quarter of a century.

Mrs. Alexander started as an office clerk for the village on October 7, 1934. She submitted her resignation this summer. The council has delayed seeking a replacement until a new city manager was named. Hiring of all personnel is a duty of the manager's office.

Manager Potthoff said this week that he hopes to find a new clerk before Mrs. Alexander leaves so that the successor will have an opportunity to work with her in the office.

The position pays an annual salary of from \$4,000 to \$5,200.

Desired qualifications include two years experience, in administrative or clerical work and a high school education.

Koester To Sue Novi

Herbert Koester, 42780 West Eight Mile road, this week threatened the village of Novi with a \$200,000 suit.

Koester stated that he is retaining an attorney to bring action against President Joseph Crupi, Police Chief Lee BeGole and the village at large for unlawfully ejecting Koester from the council meeting Monday night.

"It was a case of false arrest," Koester claimed.

The incident arose following discussion of a new hunting law being considered by the village council. It was opposed by Koester but adopted by the council.

Koester claimed that his ejection was triggered when he heard another member of the audience say that he, too, objected to the law. Koester replied "don't worry, we can always ask for a referendum vote."

At this point President Crupi ordered Chief BeGole to remove Koester from the council room. Crupi had previously warned Koester to "wait until you're recognized" before speaking.

Guest speaker at the first of a series of Novi board of commerce-sponsored meetings on city incorporation next Thursday will be L. L. Friedland, a professor of political science at Wayne State university, Board President Russell Button announced this week.

The October 19 meeting is to be the first of a series sponsored by the board to help clear up public misunderstandings and lack of knowledge about the issues of Novi's proposed city incorporation.

Friedland has been a professor of local government, urban planning, municipal management and personnel administration at Wayne State since 1947. Prior to that, he had participated in research in local government operations. He has also served as budget officer for local government operations, personnel officer for local and federal agencies and examiner of organization and methods.

He has acted as consultant to such governmental units as the State of Michigan, Royal Oak township, Grosse Pointe township, Southfield, Trenton, Oakland and Macomb counties, and several others. He is the author of several books on county and local government.

Plans for the series of meetings were first laid at the board of commerce's last meeting. The vote to sponsor the meetings came in response to the village council's action in August that placed the incorporation issue on the ballot for the March 12 village election.

At the first meeting on October 3, it was agreed that a single committee should work together to present both pro and con sides of incorporation. Definite membership on the committee will be determined at the meeting next week.

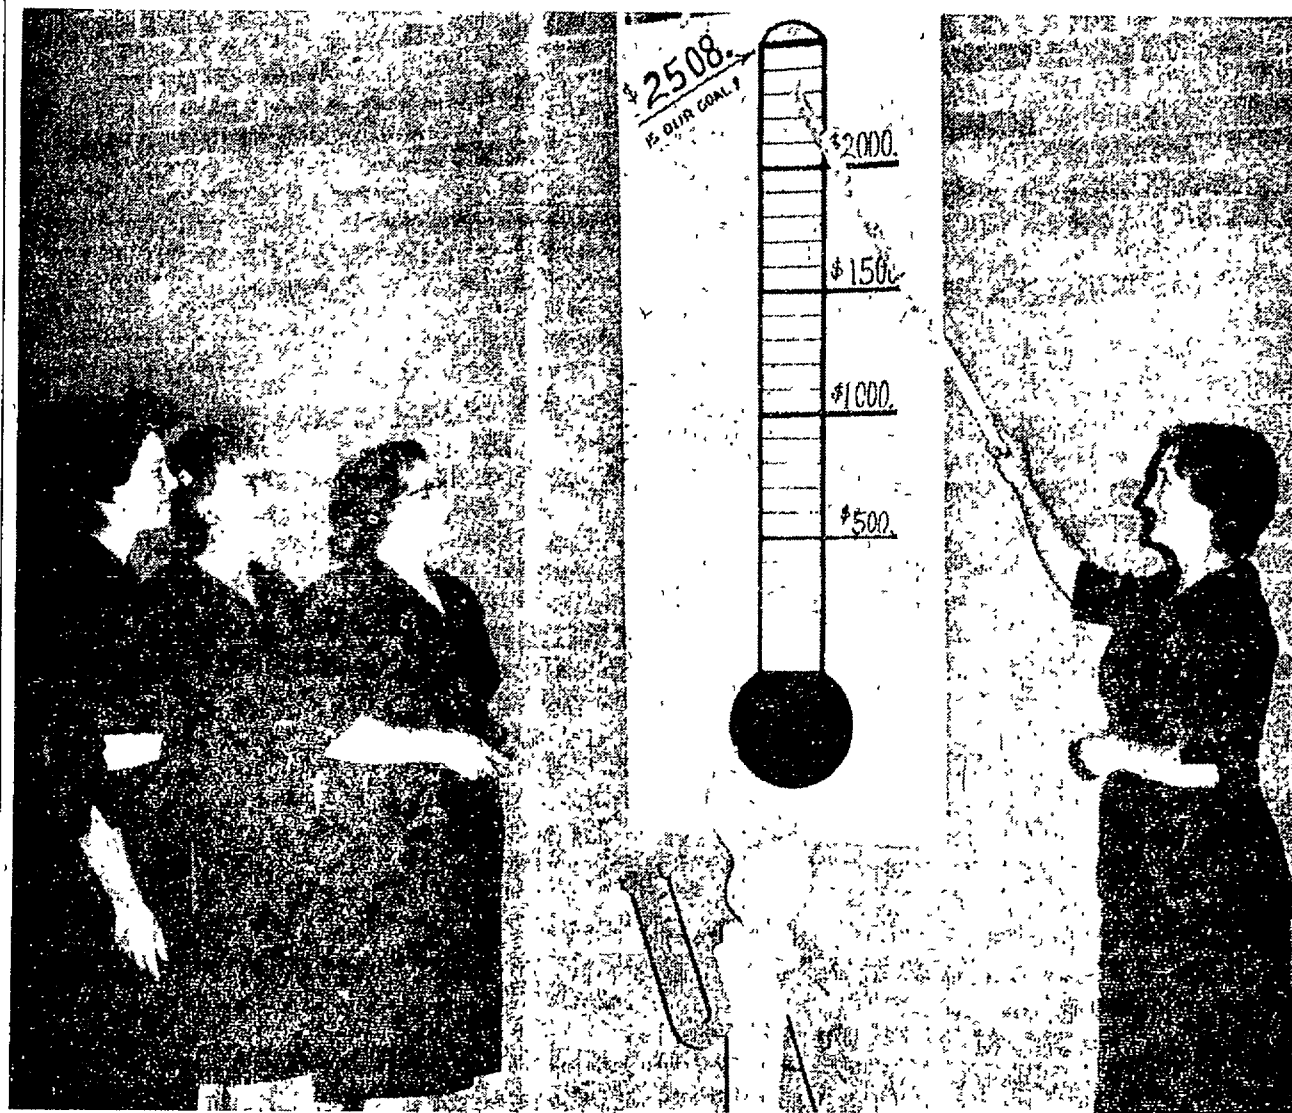

The village council placed the question on the ballot August 7 after village Clerk Mrs. Mable Ash reported that petitions calling for the vote contained enough valid signatures to bring council action.

Button, who carried the petitions to the council, said at the time that as this was a second vote on the question, it was the village's "last chance to keep Novi together as a unit." He added that the reason for incorporation into a city is "protection of our boundaries."

At the board of commerce's first incorporation meeting, Button quoted a letter from the Michigan Municipal League that cited a recent Supreme Court decision (Cavanagh v. Calhoun County Canvassers) stating that "it is now quite clear that to have a successful annexation of territory from one city to another city, there must be a separate, favorable majority vote in each city."

He said this was the "best proof possible" that city incorporation would protect Novi's borders from annexation.

UF Volunteer Women Plan One-Day Residential Drive

THAT'S OUR GOAL — Mrs. Hugh F. Conser, Sr., chairman of Northville's community residential drive for the United Foundation campaign, points to the sum that must be raised by her volunteer collectors this year. Looking on are three of the 50 women who will help (l. to r.) Eugenie Colson, Mrs. Nell

Geroy and Mrs. Chester Teasel. Although the campaign lasts for 10 days beginning October 17, Mrs. Conser hopes that her committee workers can contact every area home in one day — next Wednesday.

To Solicit Homes On Wednesday

Northville's fifth annual United Foundation Torch Drive gets underway next week with a business and house-to-house solicitation goal set at nearly \$4,000.

The drive is scheduled to begin Tuesday and continues through October 27.

But Mrs. Hugh F. Conser, Sr., chairman of the local residential campaign, announced this week that her committee of more than 50 women volunteers will attempt to meet its goal in one day.

Mrs. Conser has selected Wednesday, October 18, for an all-out effort to solicit every householder in the area will be made.

Goal for the house-to-house drive is \$2,500. The collection from area business firms will be headed by Alton Peters. Goal for this portion of the community-wide campaign is \$1,377.

Peters has eight committee members who will make personal calls on businessmen. The business committee members are Charles Carrington, Wilso Funk, Carl Johnson, Fred Kester, Charles Latham, Richard Lyon, John Miller and Mel Parsons.

Last year the business drive netted \$1,284.

Mrs. Conser has divided the community into four areas. Area captains will be responsible to see that each house within their areas are called upon.

"We may have some calls because people are not home, but we hope to call at every residence in the community starting at 9 a.m. Wednesday," she announced.

The solicitors may be identified by their official UF collection on kits and receipt books.

Working with Mrs. Conser are area chairmen are:

Area one — Six to Eight Mile road from Namer to Beck — Mrs. Thomas Hieslip and Mrs. James MacKay;

Area two — Seven to 8 1/2 Mile between Beck and Center — Mrs. Richard Martin and Mrs. Jefferson Baker;

Area three — Center to Hagerty between Seven and 8 1/2 Mile — Mrs. A. J. Adams;

Area four — Beck to Hagerty between Five and Seven Mile — Mrs. Chester Teasel.

Last year \$2,507.50 was collected in the Northville residential campaign.

The United Foundation campaign — founded in 1919 in Detroit — supports some 195 individual agencies. Its basic reason for success has been the practicality of united giving and it has used as its campaign slogan "Give Once for All". To day there are only two major independent fund-raising drives outside the UF. In 1949 there were some 50 individual campaigns.

This year UF added four new agencies — Cystic Fibrosis, Don Bosco Hall, Home for Boys Oakland County Legal Aid Society and the National Council on Alcoholism.

Although the American Cancer Society does not permit its affiliates to participate in United Funds, the directors of the Southeastern Michigan Division elected to stay with the UF. Thus the Michigan Cancer Foundation was formed carrying on its same cancer control program and continues to receive its funds from the UF drive.

The UF boasts that Torch dollars are raised at only a cost of five percent — thus providing 95 cents of every dollar for agency service.

Local organizations receiving UF funds include the boy and girl scout groups, recreation department and Kings Daughters — as well as such area organizations as the YMCA, American Red Cross, Michigan Heart Association, Leader Dogs for the Blind, Children's Aid, Michigan Epilepsy and several church-sponsored services.

Volunteers Needed

Although Mrs. Hugh F. Conser, Sr., has more than 50 women who have volunteered to work next Wednesday to collect for the United Foundation Torch Drive in Northville, she could use more help.

She points out that there are many homes to be contacted and that the job can be made easier for everyone if there are more collectors.

Volunteers may call Mrs. Conser or any of the area chairmen named in the adjoining UF story.

Area, County Officials Air Sewer Issue

City and township officials met Tuesday, with Detroit department of public works officials to discuss the county's proposed sewer service to Novi.

Northville is objecting to the possibility that Novi taps will use the capacity of the interceptor line between Northville and Plymouth before local tap allocation has been taken.

Attorneys for the city and township also hold that the county is breaking its contract by permitting out-county use of the system. They maintain the extra capacity should be reserved for Wayne county communities.

The county has taken the position that it must sell some of the capacity left un-purchased by Wayne county communities to finance the multi-million dollar interceptor sewer line currently being designed to relieve the present Middle Rouge interceptor.

Northville's Mayor A. M. Allen has indicated that he would not object to Novi's use of the sewer if Oakland county would construct and finance a new line from Northville to Plymouth.

Attending Monday's meeting were Mayor Allen, Township Supervisor George Clark, City Attorney Philip Ogilvie and Township Attorney James Little and City Manager Bruce Potthoff.

To Open Art Gallery

Two well-known Northville artists will open a gallery of contemporary art in the business district this Sunday.

The shop will be located at 116 Main street, formerly the Garrett Barry real estate office.

Owners of the shop are Mrs. Harold Hartley, Sr., and Miss Alta Powers.

The gallery will feature articles created by area artists in paintings, ceramics, sculpture, mosaics, jewelry, weaving and woodworking.

It will open for a preview showing Sunday from 1 to 9 p.m.

Regular hours will be daily from 9:30 a.m. until 5 p.m. and Fridays until 9 p.m.

Plane Crash in Germany Kills Lt. William Hensch

Second Lt. William W. Hensch, 23-year-old son of a Northville high school teacher and his wife, died October 3 in the crash of his light Army plane in Bad Kreuznach, Germany.

Mr. and Mrs. William Hensch, 855 Scott avenue, received word of their son's death last Wednesday. The wife said the plane Lt. Hensch was piloting had crashed into trees at the edge of the airport in Bad Kreuznach.

The airman left the States last month to begin a three-year tour of duty in Germany. He was assigned to the Eighth Aviation company, Eighth Infantry division of the U.S. Army.

Besides his parents and a younger sister, Sharon, Lt. Hensch leaves his wife, Constance, and two daughters, Kim Lynn, 2, and Jacqueline Renee, 5 months.

His wife and children had been living in Fort Dodge, Iowa with Mrs. Hensch's sister.

Lt. Hensch's body was to arrive in Northville this morning (Thursday). Funeral services will be conducted Saturday morning from Casterline funeral home. Exact time of the services may be obtained by calling the funeral home at FI 9-

Lecture, Travel Series on Tap

Two new lecture series will make their Northville debuts next week.

The first travelogue of the Rotary sponsored World Travel series will bring Robert Auburn and his film story of the "Jeweled Cities of North Africa" to the high school auditorium Tuesday at 8 p.m.

Auburn will personally narrate the movies which he filmed during a six-months' tour.

A graduate of Stanford university, Auburn spent two years in the Middle East with the Arabian American Oil company before beginning a 13-month trip through the Middle and Near East, Africa, Europe, The Balkans and Scandinavia.

He later enrolled in the School of Cinematography, University of Southern California, for advanced training in motion picture work.

Gearred to entertainment for the entire family, the World Travel series will offer five other programs:

Sasha Siemel's "White Hunt of Brazil", November 7; Bathie Stuart's "New Zealand", December 12; Ray Dinsmore's "Face of the Soviet", February 6; Stan Midgley's "Colorado Today and Yesterday", March 6; and Robert Davis' "Sicily — Island of the Sun", April 3.

Each travelogue will be shown at 8 p.m. in the high school auditorium.

Tickets are being sold on a series basis only at a cost of \$5 for the six-program package. They may be purchased from any Rotarian or at Manufacturers National bank.

The Our Lady of Victory Altar society's Northville Town Hall series in its premier performance next Thursday morning will focus the spotlight on John Mason Brown.

Renowned as an author, essayist and critic, Brown will borrow the title of his Saturday Review column, "Seeing Things", for his appearance at the P&A theatre. The lecture, one of five scheduled in the "for women only" series, will begin at 11 a.m.

Brown's career in the world of words began in 1917 when he joined the staff of the Louisville Courier-Journal. Following graduation from Harvard university six years later, he became associate editor and dra-

ma critic of "Theatre Arts Monthly".

Brown was named editor of the Saturday Review in 1944 after serving in the Navy during World War II.

Besides his numerous guest appearances on radio and television panel shows, Brown has penned a number of well known books including: "Ladies Home Journal Treasury", "Seeing Things", "The Art of Playgoing", "Two on the Aisle", "Broadway in Review", and others.

Subsequent Town Hall programs will present: Madame Gmette Spanier's "The Fascinating World of Le Conturier", November 15; Anthony Wedgewood Benn's "Under Big Ben", January 18; Ian Ros MacFarlane's "Dawn of Self Rule", February 15; and Bennett Cerf's "Morning with Bennett Cerf", April 3.

A speaker's luncheon at Lofty's Arbor-Lill in Plymouth will follow each lecture. Tickets are being sold on a series only basis at \$10. They may be ordered by phoning FI 9-1431 or writing Town Hall at Box 93, Northville. Luncheon reservations can be made at the theatre after each lecture, or by mail, or by phoning FI 9-1829 between 6 and 9 p.m.

JC's Want to Know: 'How Can We Help?'

A "community development" survey will be undertaken this month by the Northville Junior Chamber of Commerce to determine what projects the organization should sponsor.

William Bingley and Diana Marshall are co-chairmen of the proposed survey. Robert Motion will act as coordinator of the project. Specifically, the Jaycees plan to call upon a number of local residents with a prepared questionnaire. They will seek out ideas for community projects that may be undertaken immediately or in the future as the organization grows.

According to Bingley, the door-to-door survey will begin October 26.

The Jaycees, formed locally a year ago, have been active in several community projects including the Fourth of July program, horse show and beautification of city property on South Main street near the Ford plant and Old Spring.

Coach Pay Hike Vetoed by Board

A proposed plan to guarantee regular annual raises for coaches and other teaching personnel in charge of extra-curricular school activities was turned down by the board of education Monday night.

Al Jones, director of athletics at the high school, presented the plan, he said, because he felt coaches and other advisors should be rewarded for a job well done. He additionally pointed out to the board that the extra pay schedule had not been reviewed since it was originally set up in 1951.

Jones' plan would have called for a 10 percent pay hike each year a coach or teacher advisor remains on the same assignment. These annual increases would be limited to a five-year period.

Ratification of the proposal would have cost the school system \$421 this year. Extra pay for coaching athletics currently costs the system \$6,827 annually. The schools pay a total of \$3,115 to coaches of non-athletic activities.

Individual salaries in the extra pay schedule run approximately \$80-\$500. At the top of the bracket are coaches of high school varsity sports — \$500 for head football and basketball, \$367.50 for baseball; \$300 for track, tennis and golf. The athletic director and head of the high school book store also receive \$500 each. Other athletic coaches and assistants are paid between \$200 and \$250 approximately.

In non-athletic activities, advisors get \$150 for play production, \$105 for debate, \$250 for yearbook, \$150 for safety patrol, \$450 for summer band, \$225 for dance band and assistant marching band.

The part of the proposed plan that seemed to dissatisfy board members the most was the idea of "automatic" raises. They told Jones they thought increases should be the subject of an annual review.

While turning down Jones' proposal, the board did agree to review the matter again.

Members asked the athletic director to first determine the number of students who participate in the extra-curricular program, to compare the Northville extra pay schedule with those used by other schools of comparable size and to compute the amount of time each coach spends on an activity.

In other money matters, the board unanimously accepted the bid by the local branch of the Manufacturers' bank to purchase \$200,000 in bonds at a rate of 4 1/2 percent simple interest. This money is being borrowed against anticipated tax revenues.

Also on the board agenda Monday night was a report by a committee studying facility needs and costs for the new athletic field at the high school.

To date committee members have been attempting to estimate what type of facilities — lighting, seating, fencing — are needed. Monday they will travel to Brooklyn to study a quartz lighting system being used to light the athletic field there.

Although no figures have been revealed yet, equipping the field is expected to cost \$500,000. Raising the money is another question to be answered. A public subscription drive has been suggested and the possibility of a special bond issue is being investigated.

The committee declined to set any date for completion of the project, but it is believed that committee members would like to have enough facilities ready for use of the field next fall.

Before adjourning, the board renewed the contracts of Superintendent Russell American and Assistant Superintendent K. M. MacLeod. Superintendent American's pact calls for a \$500 annual increment over the next three years. His present salary is \$14,200.

Dr. MacLeod, who was recently offered a position at Central Michigan university, was reappointed at his present \$12,400 salary, which the board will review later this year.

Tucker — Meyers Nuptials Spoken

Beverly J. Tucker, daughter of Mr. and Mrs. Edward Tucker of Livonia, and Kenneth E. Meyers, of Northville, were united in marriage by the Rev. William Mercer at a candlelight ceremony September 23 at Trinity Methodist church, Highland Park.

Attending the bride were Vera Jeanne Tucker, her sister, as maid of honor, and Gretchen Van Camp and Sharon Tutill, both of Farmington.

Jess Sutton, of Northville, was Mr. Meyers' best man. Seating guests were ushers Huston Butler, Northville, and Roger Valentine, Farmington.

The bride's gown was of all nylon lace with a bateau neckline, long pointed sleeves, and empire bodice which fell into a full ballerina length skirt. Her elbow length veil was scalloped along the edge and held in place by a crown of pearls. She carried a bouquet of white sweetheart roses.

The maid of honor wore a dress of emerald green nylon

and the bridesmaids wore identical gowns of Nile green, with bateau neckline, envelope sleeves, and a full gathered skirt touched off by a belt with a pert bow in the back. Their matching nylon net headpieces were held in place by a crown of seed pearls. A bouquet of bronze colored mums were carried by the maid of honor while the other attendants carried yellow mums.

The bride's mother wore a dress of candlelight brocade with magenta accessories. Her rose corsage matched her hat. Mrs. Valentine, proxy mother of the groom, wore a beige nylon lace and satin dress with brown accessories and her corsage was of yellow roses.

A reception was held in the church parlors immediately following the ceremony.

For their wedding trip into Michigan and Indiana, the bride chose a brown and beige suit and wore a white sweetheart rose corsage.

The couple will reside in Livonia upon their return.

Luncheon Opens Club's 69th Year

Woman's club planners must seal a pact with the weatherman before fixing the date of their traditional fall luncheon. At least it appeared so Friday.

Like a year ago, the day of the luncheon dawned bright, warm and clear — ideal for the more than 100 members and guests who motored to Fox Hills country club, outside of Plymouth, to kick off the club's 69th season.

Attired in their autumn finery, the women sat down to tables cleverly decorated with centerpieces of flowers and flags. Old Glory and the flag of the Confederacy recalled the Civil War and the music which the conflict inspired.

There to discuss and sing some of the memorable melodies that grew out of the War between the States was guest speaker Wayne Dunlap, conductor of the Plymouth and Saginaw symphony orchestras.

America was ready to make music of its own during those years, Dunlap told his audience. It has been estimated that some 10,000 songs — marches, hymns, spirituals, ballads — were composed in the period, said Dunlap.

Mrs. William Crump, program chairman, introduced the conductor.

Mrs. C. E. Woodruff, Woman's club president who presided over the festivities, near the close of the luncheon led applause for past club presidents who were honored. Expressing gratitude for the presidents was Mrs. Charles Yahn.

112 EAST MAIN — NORTHVILLE — FI-9-0777

PENSIVE PRESIDENT — Mrs. C. E. Woodruff, beginning her second season at the helm of the Northville Woman's club, pauses among the banquet tables before opening the fall luncheon marking the club's 69th year.

It's a Woman's World

First Members Pioneered Idea of Adult Education

Lucy Stout Dowd, history testifies, was a talented woman of rare intellectual ability.

Her poetry and prose, her dedication to the cause of woman's suffrage and her thirst for knowledge brought her national renown.

In essence, it was this last characteristic — a profound desire to learn — coupled with a flair for leadership that moved her to organize what has become one of the city's oldest and more prominent clubs for women.

Whatever prompted her to interrupt her travels and to settle in Northville has passed out of memory. But she did stay long enough to assemble women whose mutual interest was sharing knowledge about academic subjects and current events.

It could be said that this group pioneered adult education. Starting in 1891, the women met weekly at private homes. At each meeting one of them would share the findings of her lengthy research of some timely topic.

Their subjects reflected the scholarly, intellectual interests of the members.

Finally, in 1892, the women decided on a name for their organization — the Woman's Club. For the presidency they chose their founder, Lucy Stout Dowd.

Next to tap the gavel for the clubwomen was Dr. Mary E. Lapham, to whom the club owes its permanent home at the library.

Like her predecessor, Dr. Lapham was a progressive, highly intelligent woman, perhaps a little more versatile than Mrs. Dowd.

Besides her career in the medical field — she specialized in tuberculosis treatment and helped introduce the technique for deflating the human lung — Dr. Lapham was at one stage active in banking and finance.

As Woman's club president she sought to continue the precedent of serious study among the members.

Not long after she had stepped down from office the doctor purchased the present library building for the Ladies' Library association. However, in presenting her gift to the association, she stipulated that it should be reserved one day each week for meetings of the Woman's club.

Today the club still owes its meeting place to the benevolence of its second president.

Time, as might be expected, has wrought changes in the club.

Its object, as defined by the constitution, still remains the mutual improvement of the members and study of the vital interests of the day.

Rather than restricting themselves to only scholarly pursuits, the women in recent years have injected more variety into their programs, commented Mrs. C. E. Woodruff, president.

This season, for example, the women will explore broad cultural avenues; drama, literature, art, music, public affairs, gourmet cooking and interior decorating.

Mrs. Woodruff further noted the departure from programs furnished solely by club members. Guest speakers are now the rule rather than the exception, although members are still called upon to present a skit at the annual meeting which closes the club season.

In its sixty-ninth year, the Woman's club has 160 active

members on its rolls. There are also about 28 associate members and two honorary members. Those women who have been active in the organization for 25 consecutive seasons hold life memberships.

The Woman's club adds new members by invitation only, explained Mrs. Woodruff.

Active members pay annual dues of five dollars; associate members pay eight dollars.

Governing the non-profit organization is a board composed of five officers and five elected members.

Projects carried on by the club include: an annual scholarship to a high school graduate for college study; sponsorship of a representative to Girls' State; assistance to the Youth for Understanding Teenage Exchange program; work on civic improvement; and a tuberculosis stamp drive.

Appraising the need for such an organization in the club world, Mrs. Woodruff said:

"Although women today are surrounded by many cultural opportunities, the value of the cultural club with its enrichment of the lives of its members and the life of the community exists in the space age, I believe, as much as in the past."

"I am happy to serve the club this year," she added, "as one link in a chain of women ever devoted not only to self improvement but to an understanding of our world."

Kitchen Diary

Trial and Error School Taught Her to Cook

Surely the most enviable talent a housewife can possess is culinary competence. Inborn or acquired through experience, the knack for creating savory foods belongs to a precious few whose success no doubt stems from a perfect blend of a heaping measure of imagination, a dash of daring, a pinch of persistence and a sincere love for cooking.

Numbered within this elite circle of women, and men, is Mrs. Wilbur Johnston.

From her kitchen at 370 Orchard drive emerge some of the most diet-defying, scentil-

lown, Johnston originals — as lating, taste-tempting dishes in matchless as Dior creations — are the wealth of 41 years cooking experience.

Three of these original recipes are this week's Kitchen Diary fare.

Mrs. Wilbur Johnston
1/2 cup peach sweet pickle juice
1/4 cup catsup
1/2 cup water
1/2 t. Worcestershire sauce
2 T. vinegar
1-3 cup chopped onion
1/2 cup chopped celery
1/2 t. salt

Simmer ingredients together for 10 minutes. Place chicken halves or pieces in pan and pour sauce over them. Bake 45 minutes in 375 degree oven. Turn chicken several times during baking.

FROZEN SALAD
2 pkgs. Philadelphia cream cheese (3 oz.)
2-3 cup mayonnaise
No. 2 can crushed pineapple (drained)
1 jar (10 oz.) maraschino cherries (drained)
1/2 cup nuts
1/2 pt. whipping cream
Whip cream and add other ingredients. Freeze until solid. Let stand at room temperature 15 minutes before serving.

HOT FUDGE SAUCE
1/4 lb. melted butter or margarine
1 lb. powdered sugar
Cream over hot water. Then add:
1 tall can evaporated milk
Cook 20 minutes over boiling water. Blend in:
4-ozs. baking chocolate
1 t. vanilla
Beat until smooth. Heat before serving. This makes three cups and will keep several weeks in refrigerator.

Dear Friends:

It is with deep regret that we announce the intended closing of our fine jewelry store. Due to health reasons we do not wish to continue on. We can think of no finer tribute to our fine relationships with our customers and friends, like yourself than to see YOU benefit by our liquidation of valuable stocks at a small fraction of their true market value. We have asked the auctioneer to auction off everything to our friends and neighbors at the lowest price. Actually you set the price. Bid what you like for anything you want. As you know, all of our fine DIAMONDS, WATCHES, JEWELRY AND THOUSANDS of Gift Items are of the highest quality. We urge you to attend and take advantage of the low prices that will prevail. Thank you so kindly.

Sincerely yours,
Mr. H. C. Corbin

1-Card of Thanks

We would like to express our thanks and deepest gratitude to our friends and neighbors; also to Mr. Schrader and the Rev. M. I. Johnson of Plymouth.

Mrs. Nina Slyfield and Sons
H41p

We wish to thank Johnnie Noel and all our friends for the blood donations for Katie Tutill. Thanks again.

Mr. and Mrs. E. S. Tutill

We wish to extend our thanks to each and everyone for their cards, calls, flowers, and other acts of kindness during my illness. Thanks to Mr. McHattie for his flowers. A very special thanks to Rev. Shearill for his many visits and extra trips to the hospital; also to all the Tube Mill workers for the gift to George. Words can't express what it meant to us or how much we appreciate it.

Most sincerely,
George and Martha Yenson
H41cx

We wish to extend our sincere thanks to all our neighbors and friends for all their kindnesses shown us during our bereavement. Special thanks to the Reverend Ferris Woodruff, Forrest Phillips, Entre Nous Chapter 298 O.E.S. and South Lyon Lodge 319 F & A.M.

Mrs. Allie M. Bentley
Norma Bentley
Pauline Bentley

"D.J." sez:
If I got as much advice as the con-con delegates are receiving from "outside interest" groups, I would have sold this dandy ranch home at 416 East St. on its big 100x150 lot. It's a bargain.

A little chilly for a cool dip in this spring-fed pond, but very nice to look at from the spacious liv. rm. with its 3 large thermo. windows in its secluded natural landscape setting.

MUSTANGS way out in front — but way behind when it comes to a "best buy" such as this at 744 Spring Dr. on easy FHA terms.

"No Hunting" signs get you down? Have it all to yourself on this 10 A. with nice ranch. Pheasants galore & fine country living.

Dirty & rundown — but still much handier than our local telephone book is this \$5,000 challenge at 211 E. Cady St.

"Shot gun" marriage? Too slow today. Use a rifle. 1 — 30 Savage; 1 — 300 Savage with scope, both Model 99's. Maybe get a deer, too.

Snow apples — big and juicy. \$2.00 bushel.

Furnished home for rent Nov. 20 — Apr. 25. Couple.

Pretty "corny", eh? But right from the heart of an honest, hard-hitting real estate man — I hope, YOURS.

Friendly Cub Turns Grizzly

They had a "bear" of a time while it lasted, but things became a little too gruff for Dr. William "Bill" Barber, a Pickford veterinarian, so he turned over his four-month-old bear cub to the Conservation Department. Dr. Barber is the son

of the A. V. Barbers, of 35 Griswold.

"Chubby" as they called the cub, had been in the Barbers' care since he was three weeks old. They fed him at first from a nipple bottle, but as he was weaned his fancy turned from the bottle to vegetables, dog food and supplementary vitamins and minerals.

As he grew, Chubby's tastes began to wander even further, and he began to climb trees to

eat fresh new buds. He also took a liking to candy, and would walk around on his hind legs if rewarded with a "bit-o-sweet."

The cub has been taken to a wildlife game reserve, from which he will either be sent to a zoo or to a conservation observatory.

Youngsters who will be between the ages of 6 and 11 by November 26 may take part in the contest. Recreation Director Ken Conley will conduct the contest.

Boys aged 6-8 are to report to Ford Field at 9, and those who are 9 and 10 should be there at 10.

There are 15 prizes awaiting the youngsters, including five football uniforms, five warm-up jackets and five footballs.

Travel Against 'Tough' Lakers Team on Friday

Northville's Mustangs continued their season-long pattern of building up an unbeatable lead in the first half, as they pleased a capacity crowd of homecoming fans at Ford field Friday by running over the Milford Braves, 25-6.

Tomorrow night the Northville eleven travels to West Bloomfield to go up against the second-place Lakers in a game that will probably decide who will win the W-O league.

The Mustangs popped loose early in the game, taking Milford's kick-off and marching in three plays to a TD. Gaining 41 yards in the march, the 41 he ran to the goal line, was halfback Tom Swiss.

Northville's second score came late in the first quarter, the Milford 25, and the Mustang on an end-zone pass from quarter-

back Steve Juday to end Dan Brown. The play was set up when defensive fullback Ron Rice intercepted a Milford pass on the Milford 49. The successful pass plays from Juday to end Craig Bell prepared the way for the short pass to Brown.

Milford's only score came with just seconds remaining in the first quarter. Braves guard Jackson received the Mustang TD kickoff on his 28 and ran it back to the 41. A pass-and-run play from Milford's passing end, Ward, to halfback Hogford made the score. The quarter ended after Milford's kickoff.

The next Mustang TD was on the first play of the second quarter. Juday passed to Bell on the Milford 25, and the Mustang on an end-zone pass from quarter-

back Steve Juday to end Dan Brown. The play was set up when defensive fullback Ron Rice intercepted a Milford pass on the Milford 49. The successful pass plays from Juday to end Craig Bell prepared the way for the short pass to Brown.

OUT OF REACH was this pass from Mustang quarterback Steve Juday (not pictured) to end Craig Bell (81). It looks like two of Milford's defenders were having a battle of their own, but they actually came together when they both started to block out a Northville player who sepped aside just before he was hit.

Guys Gain In Contest

For the third week in a row the guys have taken home money in our annual football contest, but this week the guys came out on top for the first time, taking first prize.

Winner of the first prize was Thomas V. Heatley, 22, of 304 W. Dunlap street, who also won the \$10 bonus because he had a receipt from the Northville Electric Shop, where he had purchased a part for his car radio. He said he follows football and other sports, concentrating mostly on the college teams. He added that he ran on the Northville high track team, participating in the half-mile. This was the first year that he's participated in the contest, he said.

Second place went to Mrs. Marilyn Bell, of 542 Carpenter. She confided that her interest in sports is largely because of her husband Mark. She said he helped her do most of the picking that won second place. She also won in five contest two years ago.

Both Mrs. Bell and Heatley missed three games, but Heatley was closest on picking the final score of the Lions' game. Mrs. Bell had the correct final scores, but she gave them to the wrong teams. She picked Detroit to win 31-17. The Detroit loss was the most-frequently missed game.

Each winner also incorrectly picked Oklahoma over Iowa State, another frequently-missed game.

There were a number of entrants who missed four and five games, including Vernon Biddle and Joe Kritch, Jr., who both missed four, and Mary Daleo, Jean Greene and Mike Slattery, who all missed five.

There are only six more weeks of our contest, so sharpen your pencils and get to work picking those winners.

NOW! A NEW WORLD OF WORTH!

CHEVROLET

'62 CHEVROLET JOBMASTER TRUCKS
WITH NEW High Torque Power!

Here's new High Torque power for every weight class—light, medium and heavy... the most powerful engines in Chevrolet history... sure saving power and dependability for every job!

There are plenty of powerful reasons for Chevy superiority. High torque reasons. Reasons that range all the way from a mighty new High Torque 409 V8* for heavies, right down to the thrifty Sixes... including the High Torque 261 Six* that's available for the first time in light-duty.

Loads of other reasons, too. Like the new work styling with downward-sloping hoods that let drivers see up to 10 1/2 feet more of the road directly ahead. Like Chevrolet's proved Independent Front Suspension for even smoother riding, easier working trucks. Like the heavier duty hypoid rear axles for middleweights and the rugged new I-beam front axles* (9,000- or 11,000-lb. capacity) available for extra-tough jobs on Series 80 heavyweights. Like the longer lived mufflers. Like work-proved Corvair 95's (2 pickups and a panel) that haul up to 1,900 lbs. of payload with low-cost dependability and sure rear-engine traction. LET'S TALK CARS . . .

An Automobile Alarm Clock

Ever notice how truckers solve the tiredness problem while on long highway drives? They stop often for coffee, light snacks and a short rest when they feel drowsiness coming on.

That's sound advice for any motorist starting out on a long, tiresome drive. It is amazing how even a fifteen minute rest and a little fresh air will renew your alertness when your eyelids start getting heavy.

There are occasions, however, such as on turnpikes and other restricted or other heavily traveled roads where parking is difficult or illegal, when some kind of driver alarm system would come in handy.

An insurance company has recently come up with a gadget designed by its own engineers that may help to keep a sleepy driver on the ball. Once turned on, it provides the driver with a three-stage alarm process that he must respond to every 60 seconds with a light touch on the horn.

Commencing with a flashing light, the warning, if unheeded, goes on to blow the horn. If there is still no driver response, the car's ignition turns off and, on, finally shutting off altogether. Only a touch of the horn button will arrest the system which then starts over again in one minute.

The best alarm system of all, though, is still a rested driver. Add to that the peace of mind from a mechanically sound car. We can't make you get enough shuf-eye, but we can make sure you're driving a safe car if its brought to us regularly for service.

New Telephone Building To Serve Local Area

Construction of a new building in Farmington to be leased by the Michigan Bell Telephone Company was expected to begin this week, it was announced.

Preparation of the building site, on the north side of 10 Mile Road between Grand River and Haggerty is being completed. The new building, to be of concrete block construction, will provide needed space for garage, storeroom, and associated equipment for Michigan Bell's outside plant operations in Farmington and the Northville area. Cost of the building and site was placed at \$160,000, according to Hughes C. Bronaugh, manager here for Michigan Bell. General contractor for the new structure is the O. A. Pokorney Co., of Detroit. Completion of the building is expected to take five or six months. Bronaugh said Michigan Bell "would lease the building for a term of years," adding that

Symphony To Present First Concert

Plymouth Symphony orchestra will open its sixteenth season of free concerts Sunday, October 15, at 4 p.m. in the Plymouth high school auditorium.

The first of six scheduled for 1961-62, the concert will have Paul Olefsky, member of the music faculty of State University of Iowa and former principal cellist with the Detroit Symphony orchestra, as featured soloist. Joined by the orchestra, Olefsky will play Variations of Rocco Theme, by Tchaikovsky.

Conductor Wayne Dunlap has announced these other selections for the first program: Edgemont Overture, Beethoven, Concerto for Cello and Strings in B flat, Vivaldi; Three Pieces for Piano and Orchestra, Bruce Wise; and Symphony in B flat, Chausson.

WILPF to Meet

Northville - Plymouth branch of the Women's International League for Peace and Freedom will convene Monday at 1 p.m. at the home of Mrs. Sheldon Blackman, 127 South Mill, Plymouth.

YOUR UP AT WORK...FOR YOU

Could you tell him he'd never play again?

All kids have the right to play. Sick ones included. They have the right to get back in the game just as quickly, as it is in anyone's power to make them able to play.

That's one of the great things our Torch Drive dollars accomplish—making sick kids well again. But this is merely one of the many important

ways our United Foundation works for all of us. Through medical research, paid for by your UF dollars, are coming preventives and cures on which your life may hinge someday . . . or that of someone dear to you. Always bear this in mind and give willingly, give generously—once for all!

Homecoming Had Happy Ending

The Northville Record

The Oldest Weekly Newspaper in Wayne County

Thursday, October 12, 1961 — 3

Everything went according to plan Friday night.

The weather was perfect, the crowd capacity and the game a victory for the Mustangs.

For six pretty Northville high school girls the evening was an exciting one in formal dresses riding atop convertibles and parading as reigning beauties of Homecoming.

It was especially exciting for Senior Linda Lepper, selected as Queen.

The evening started with a parade led by the band from the high school to Ford Field. Crowning of the queen ceremonies were held at half time with the festivities highlighted by a sparkling performance by the band under the direction of Robert Williams.

The evening was climaxed with the traditional Homecoming dance.

The game wasn't all blocks and tackles for Co-Captains Jerry Biddle and Steve Juday. Biddle is shown congratulating Queen Linda in the traditional way.

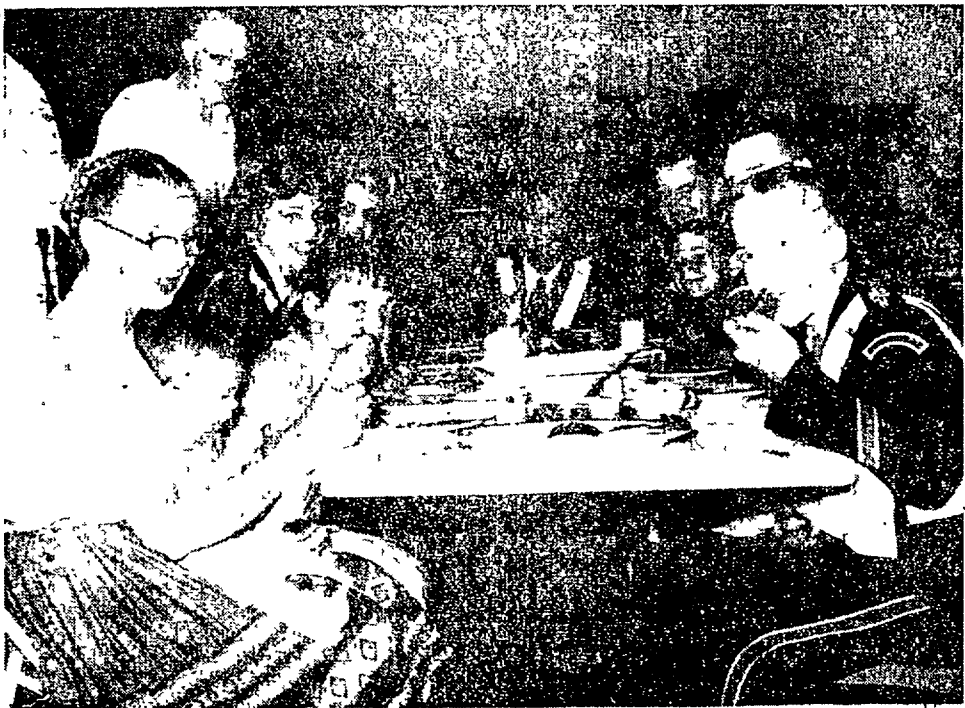

Queen Linda's court was smiling and pretty — (above l to r) Sally Winner, Holly Fox and Nancy Hanson and left (l to r) Grace Brinson and Amelie Sigfridson.

Queen Linda Lepper smiled prettily as she reigned over festivities at the Homecoming dance following the game.

And after the game was over — dancing at the Community Building.

For hundreds of area residents it wouldn't be Homecoming without pancakes before the game at the Presbyterian church.

The word for it is... "Masterful!"

"Superb" . . . "luxurious" . . . "beautiful" . . . "brilliant"—there are many words that might be used to describe the new 1962 Cadillac car.

But if we were to select from the Cadillac vocabulary the one word that most completely captures the essence of this latest "car of cars"—we would choose "masterful".

For here is a motor car that has already established its mastery in everything that makes an automobile good and fine and desirable.

In appearance, it is clearly a Cadillac masterpiece—graceful, clean-lined and elegant.

In performance, it is a revelation. Its power plant is a reservoir of silken power—and the car rides

and handles with an instinctive ease and sureness.

In safety, it is in a class of its own—with a host of exclusive features, including remarkable new side cornering lights.

In craftsmanship, it is simply without rival. Every 1962 Cadillac will undergo more than 1400 inspections to assure its quality and goodness.

On and on the list could go. But however lengthy, that list could never replace the experience of inspecting the car and driving it.

Your dealer will happily let you do both.

Once you have, you'll understand why the word has gone out so quickly that this is the finest motor car ever to bear the Cadillac name.

"The healing and redemptive
power of divine Truth will be
brought out at Christian Science
services Sunday in the Lesson
Sermon on the subject "Doc-
trine of Atonement."
Peter's healing of the lame
man as related in Acts (4) will
be included in readings from
the Bible, together with his re-
ply to those who questioned
him regarding the source of
his healing ability: "Be it known
unto you all, and to all the peo-
ple of Israel, that by the name
of Jesus Christ of Nazareth,
whom ye crucified, whom God
raised from the dead, even by
him doth this man stand here
before you whole."
One of the correlative cita-
tions to be read from "Science
and Health with Key to the
Scriptures" by Mary Baker E-
dwards states: "The same power
which heals sin heals also sick-
ness. This is the beauty of hol-
iness," that when Truth heals
the sick, it casts out evils and
when Truth casts out the evil
called disease, it heals the
sick" (p. 135).

STRENGTH FOR LIVING

Men of the medical pro-
fession are in good position
to know how many people
need to rely on drugs and
vitamins to give them the
strength they need for daily
living.

When fear of annihilation
by an atom, hydrogen or
neutron bomb gnaws at the
heart of one's sense of secu-
rity, there is obvious need
for something to strengthen
the spirits of men.

Many seek to bolster their
morale by imbibing those
things which, in their linger-
ing hang-over, leave them
weaker in body and in inner
confidence. On the world
scene, leaders of nations con-
tinue to put their greatest
trust for strength in arma-
ments—overlooking the his-
torically warranted observa-
tion of the lowly Galilean
that "they who take up the
sword shall perish by the

sword."

Many centuries ago, a
peasant-poet, faced with the
cruelties of adversity and
the taunts and falsities of
foes, made a marvelous per-
sonal discovery—"The Lord
is the strength of my life."

It is told that a well-to-do
woman, left without the ser-
vices of a cook, was asked
how she was making out with
her cooking. Her reply indi-
cated that she was doing
nicely and, then, she added:
"It's amazing how much the
fire does." The Psalmist and
many others have discovered
how much God can do to
make one strong. This is the
witness of Job who, losing
family, friends and posses-
sions, came up with the pos-
sible witness: "Though He
slay me, yet will I trust
Him; of a Stephen, the first
Christian martyr who was
stoned to death but who in
the closing moments of his
life could pray, "Lord, lay
this not to their account," or
the Apostle Paul who was
lashed, beaten and ship-
wrecked and yet could say,

"If the Lord is for us, who can be against us?"

The secret of spiritual
strength lies in relatedness
to God. Said the Psalmist,
"one thing I will seek after;
that I may dwell in the
house of the Lord all the
days of my life." Going reg-
ularly to Church and wor-
shipping there is the way
many people find access to
God's strength.

The strength which God, of
His grace, imparts to hu-
man life consists of two
things: the strength in confi-
dence that the righteousness
of God will ultimately tri-
umph and the strength of
fearlessness. The Psalmist
put it this way: "I believe
that I shall see the goodness
of the Lord in the land of the
living" and "of whom, then,
shall I be afraid."

If you are discouraged, dis-
traught or dismayed, here is
timely advice from the Psalmist—
"Wait for the Lord,
be strong, and let your heart
take courage, yea, wait for
the Lord."

OUT OF THE PAST

ONE YEAR AGO

October 13, 1960
— C. E. Langfield, president of Northville Laboratories, started the ball rolling this week on the fund-raising program to buy uniforms for the high school band by donating \$5,000 in memory of his father, who was instrumental in organizing the band. The band members are selling boxes of candy to add to this tremendous boost, and several community groups are organizing to help toward the \$7,500 goal.

— The Northville school board agreed Monday evening that 1964 would have to be the last year in which Novi ninth grade tuition students could attend Northville high school.

— The Northville Woman's Club opened their 68th season last Friday with a luncheon at Meadowbrook Country club. More than 100 members and guests attended the annual event, which was graced by the weatherman with beautiful fall colors and sunshine.

— Novi Village Council President Joseph Crupi, of 41600 Nine Mile road, has purchased a 55-room resort hotel located 10 miles north of Oscoda, near Lake Huron, he announced this week.

FIVE YEARS AGO
October 11, 1956
— John C. Robertson, staff engineer and manager of the Municipal Purchasing services for the Michigan Municipal League in Ann Arbor, has been named Northville's new city manager. The 31-year-old man was chosen Monday night at a special council meeting.

— Members of the newly organized Northville Junior Chamber of Commerce last week named local merchant Fred Kester to the group's presidency. Other officers elected are Robert German, vice-president; William Wilson, secretary; and Merle Parsons, treasurer.

— Construction began last week on a 30-mile gas pipeline that will eventually strengthen the natural gas supply system serving Northville, Novi and other area communities. The 16-inch pipe will extend from South Lyon to Royal Oak.

— More Novi township residents than ever before have registered for the November presidential election, according to Township Clerk Hadley Ba-

chert. He estimated that upwards of 2,300 electors are now eligible to vote in the Novi area.

— School officials and citizen groups this week began an intensive campaign to inform voters of the issues involved in a proposed consolidation of four Novi township school districts. The consolidation question will appear on the October 30 ballot.

— An assembly of teachers of the Wayne-Oakland county league met in Holly October 10 to discuss problems or improvements of the various interschool activities.

FIFTEEN YEARS AGO

October 11, 1946
— The Sockow family home on Six Mile road was destroyed Tuesday morning when a fire of undetermined origin swept through the house. Flames licked at the near-by creamery barn, but firemen were able to save this building.

— A new farm supply store was opened this week at the corner of Hutton and Main streets by Roger Christensen. The firm's new home, constructed for a farm implement dealer's needs, represents the latest in space and display area for such business, Christensen said.

— Northville Boy Scouts picked up six tons of paper last Saturday during their annual paper drive. The boys received \$10 a ton for their efforts.

— Cold weather didn't hold back enthusiasm Monday night as 7,516 fans attended the opening of 30 days of horse racing at the Northville Downs. The fans set an opening night attendance record as well as a record \$120,746 in pari mutuel betting.

— Oakland County Agricultural Agent Karl Bailey announced this week that next Wednesday the Wixom township hall will be the scene of an organizational meeting to set up an artificial cattle breeders association in this area.

TWENTY-FIVE YEARS AGO
October 9, 1936
— The Northville Civic association, in response to hunters' pleas, has changed the date of their harvest festival to October 30. The previously set date of October 16 was changed because of its proximity to the October 15 opening of the hunting season.

— The Redford Lumber company was sold last week to the Nowels Lumber Incorporation of Detroit and Rochester. The firm has appointed Harold Church of Warren as manager of its Northville branch.

— The village council acted Monday to allow angle parking on both sides of Main street and on the east side of Center street. The vote came after representatives of the civic association, the local businessmen and shoppers came before the council to ask for reinstatement of angle parking.

— Ellsworth I. Besemer of Belleville has been appointed county agricultural agent by the Wayne county board of supervisors, with the approval of the state board of agriculture.

In Uniform

Army Pvt. Max C. Dillenbeck Jr., whose parents live at 42422 E. Seven Mile road, Northville, recently completed eight weeks of military police training under the Reserve Forces Act program at The Provost Marshal General Center, Fort Gordon, Ga. Dillenbeck received instruction in self defense, traffic control and the basic procedures of civil and military law. Upon completion of six months active duty training, Dillenbeck is scheduled to spend the remainder of his military service with the 602d Military Police Company, an Army Reserve unit in Dearborn. The 22-year-old soldier was graduated from Our Lady of Sorrows High School, Farmington, in 1958 and from Pennsylvania State University, in 1960.

READERS SPEAK:
Asks Interest In Council
To the editor:
Our city is growing each year. We live in one of the few countries in this world where the people have a right to express their opinions on their government.

Because of this right, we are free to attend all meetings of our council and voice our thoughts in city matters.

Let's wake up and learn how our city is being run.

There is an old saying that, "We grow too soon old, and too late smart."

Let's not continue like this. Get interested in your city. Attend our council meetings as often as you can. It can be an interesting evening, plus a benefit to your city.

The council has been elected to work for you, but they can not possibly know the citizens' ideas, if we do not tell them.

We have been too lax in our city government.

It's too late to object after issues are voted on. Let's be there and hear them discussed in the beginning.

SPEAKING for the Record

by Bill Silger

Not many days hence Northville merchants will be celebrating the opening of Kroger's new supermarket facility. Shortly thereafter, A&P's new supermarket will be ready to take its bow for which local retailers will again express appreciation.

Local businessmen are naturally happy that two such strong customer attractions should settle in the established shopping district instead of an outlying site.

Even the most pessimistic merchant admits that with two modern food chains providing ample parking the customer traffic should increase locally. In other words, many women who have gone elsewhere to shop for groceries may now turn to Northville.

And while these new customers are here it follows that they will make other purchases in other stores.

With this thought in mind it becomes evident that some constructive and immediate attention must be given to the community's shopping district.

This is a job that cannot be accomplished by businessmen alone. The city government must, in fact, lead the way to general improvement of the community's commercial area.

Every businessman, whether he practices law or sells hamburgers, should be vitally concerned by the vacancies in the business district. What kind of a store will replace the corner dress shop, the jeweler that is quitting business or the building that will be left vacant when A & P moves into its new location?

Will these new tenants offer a service that complements those we already have? Will we gain a new-type business that may be badly needed and will help provide a more complete shopping center?

And what about community parking needs for the future? Then there are eyesores within the business district that city officials have cited for years that could be converted into constructive, tax and revenue-producing commercial areas.

Actually, the job of rehabilitating our shopping center has been made much easier by the rebuilding of our two super markets. But this is not enough. Actually, it is only a beginning for which our business and government leaders should be everlastingly grateful.

The job ahead might properly come under the broad authority of an economic development group — something, again, that officials have discussed but dropped.

More specifically, it is an assignment for a chamber of commerce.

It is already late, but not too late. Leadership must come from the council with willing cooperation from the retail merchants association.

An aggressive program to promote proper development of our business district would not only help preserve the community's largest single tax-paying category but would represent a definite service to the growing number of residents who look to Northville for its day-to-day purchases.

The automobile makes it too easy to look elsewhere.

Baby Investment

Babson Park, Mass., As I look back upon a long and active life I have come to an important decision. Furthermore, this is in connection with investments, of which I should have excellent knowledge; my entire life has been devoted to the study of them.

Babies are probably the world's oldest investment, having survived many thousands of years of wars, massacres, panics, and revolutions. In many nations even today the largest families are believed to be the richest, while a family with no children is looked down upon.

Stocks are only two hundred and forty years old. The first big promotion was that of the Mississippi Bubble, sponsored around 1715-1720 in France by a Scotsman; while the second great stock promotion was the South Sea Bubble, which followed in England under the leadership of Robert Walpole.

Other than in the United States, the sale of stocks (new issues) reached a maximum just before World War I, when London was the world's center of stock trading. World War I gave the London market a great blow; while World War II put New York ahead of all the world's centers.

Stocks offer a speculative profit which bonds do not offer. Stocks also benefit from inflation. Interrupted with a few eras of deflation, the inflation of currency has been going on for centuries, — since money was first used in Persia and Babylon 3,000 years ago. Bonds suffer through inflation, hence long-term bonds should usually be avoided.

Of a given corporation, however, the bonds should be safer than the stock, provided the bonds are due within about five years. They have a first lien on the company and, in case of trouble, interest on the bonds comes before dividends on the stock. The safest investments of all are healthy, well-trained children. To be doubly safe, take out an insurance policy on each child as soon as it is born. Stocks, bonds, and other "pieces of paper" such as we recognize as wealth have no value in Russia. Only in bank accounts of the Russian Government Bank can one save money in Russia. Even then, Russia devalues the ruble (or Russian "dollar") whenever it suits her convenience. Savings are not encouraged under any com-

Pfaff Speaks At Meeting

William G. Pfaff of 24075 Glen Ridge Court, Novi, assistant to the actuary, assistant secretary and assistant treasurer of American Hospital-Medical Benefit and American Community Mutual Insurance Co. was speaker last week during the annual sales meeting of the company's companies, held in Plymouth.

Michigan Mirror

Future for State's UP

Michigan's northern peninsula, despite all the talk about its "depressed areas" and "chronic unemployment," is far from down and out.

There are five good reasons why it would be a tragic mistake to write off the area above the Straits of Mackinac as a kind of economic wasteland to be abandoned to a life based to a large degree on governmental rejuvenation programs.

They are 'tourist trade, mining, farming, forestry and industry. It would be equally foolish, of course, to refuse to recognize the ills that have come to the upper peninsula largely as a result of less demand for the products of its mines and forests and from the emigration of people to the south.

The "proper" view, especially for Michigan citizens who made their homes in the lower peninsula, seems to be that the lovely land up north is something like a post-depression financier.

Things may be a little tough economically right now, but the ability to prosper has not been lost by the current situation. The decline of mining, a lag in forest-related occupations; the failure to spur ahead with advancing technology in a host of fields; and the serious blow dealt by the lamprey-eel to a profitable fishing industry have hurt the upper peninsula, it is true.

But there are two facts about the area which must be recognized. First, the great fields of endeavor which brought fabulous wealth to the upper peninsula in the past are not dead. They can be brought back. While mining, forestry, fishing and the like have slipped, they still account for substantial income. Second, there is opportunity for virtually unlimited growth in new areas with farming and tourism most likely to "arrive" as money-makers in the near future.

With a push from the government and help from research and technology in many fields, the upper peninsula's future never looked brighter. For example, the region's \$25 million a year tourist business is estimated to be only about half its potential. Farming never did reach the heights of which it is capable in the land above the Straits. New horizons in wood products and related fields, efforts to bring back mining and abundant water and power for industry are a few further reasons for faith and confidence in the upper peninsula.

The whole thing adds up to this: Don't sell Michigan's "northern frontier" short. A subject for speculation by state revenue officials recently is how much the 4 per cent sales tax, which replaced the earlier 2 per cent levy on Jan. 1 of this year, hurt the sale of new automobiles in Michigan.

Revenue Commissioner Clarence Lock reports that income from automobile sales taxes has dropped considerably in the last few months.

Lock says lower per-unit collections, because of the lower price of compact cars, has something to do with it. However, some dealers still insist that the higher tax has hurt their sales, he says. This particular point is open to conjecture, Lock says, but there is no doubt that the income from sales taxes on autos is down.

The auto sales tax picture, which incidentally ought to improve when labor and management work out their differences on contracts in the industry, and when new models start selling briskly, fits into Michigan's overall revenue picture.

This year, total income is being watched more closely than ever by legislators and the administration because of different estimates used in threshing out the budget for the fiscal year.

Unless income hits the exact mid-point between Gov. John B. Swanson's revenue estimate of \$477.9 million and that used by the legislature, \$466 million, somebody will say "I told you so" from one end of the state to the other.

If revenue for the 1961-62 fis-

cal year does hit that mid-point, lawmakers and the administration will both say "I told you so."

A curious relationship between federal government regulations and state law means that trucks in interstate commerce, when used on Michigan turnpikes, must have amber turn signals.

Attorney General Paul L. Adams recently came to this conclusion in an opinion written for State Police Commissioner Joseph A. Childs.

Via a nifty course of negative reasoning, Adams arrived at the amber light middle ground between federal and state requirements.

Federal regulations require trucks which are disabled on the highway to flash both turn signals simultaneously while signal flares, also prescribed in the regulations, are set out and taken in.

But Michigan law prohibits flashing red lights except on certain emergency vehicles. Under federal regulations, the flashing turn signals may be red, but other colors between red and yellow on the spectrum are not prohibited.

Michigan law does not say anything about flashing lights of a color other than red. Therefore, Adams says, the federal regulation and the state law are not in conflict. Carrying his reasoning a step further results in the conclusion that trucks on Michigan highways must have amber turn signals.
