

Field Dedication, Choosing of Queen Mark Homecoming

There'll be ceremonies galore tomorrow (Friday) night as Northville's Mustangs host Brighton for the annual homecoming classic.

After a parade through town featuring the band and the party of homecoming royalty, there will be the solemnity of the dedication of Northville's new football field.

And at halftime will be the splendor of the crowning of the queen. A homecoming dance is planned following the game.

Activities get underway at seven o'clock, when the band will step out smartly from the A & P store parking lot. The queen and her court will follow in cars as the band takes this parade route:

Down Main street to Center, north on Center to Dunlap, west on Dunlap to East

and north on East to the high school parking lot.

The field dedication is scheduled for a few minutes before the eight o'clock game time.

School Board President William Crump will represent the board. Officially accepting the field in behalf of the student body will be student council President Frank Steinberger.

Class presidents who will take part in the dedication are Senior Duna Penn, Junior Dave Cummings, Sophomore Garry Davis and Freshman Bill Davis.

During the halftime events, 1961 Homecoming Queen Linda Lepper will crown her successor, who will be announced at a pep rally tomorrow afternoon.

Mustang Co-Captains Craig Bell, Jim Juday and Tom Swiss will present the queen and her court with corsages and will serve as escorts during the ceremonies.

Popular balloting to select the queen takes place today. Candidates, announced last Friday, are Etta Rutan, Brenda Coburn and Karen Peterson.

The trio has been selected by the senior class as its representatives, and the two runners up will serve in the queen's court.

Other class representatives who will serve in the court are

Grid-dle Cakes

Homecoming fans can fill up on pancakes and ham before going to the game at the annual Pancake Supper sponsored by the Presbyterian Men's club.

Dinner will be served Friday evening at the Presbyterian church Fellowship hall from 5-7 o'clock.

Betty Peterson, ninth grade, Maisha Lane, sophomore class and Christine Moase, junior class.

Queen Candidate Brenda Coburn is, like her fellow candidates, 17 years old. The daughter of Mr. and Mrs. Elwood Coburn, Sr., of 28075 Dixon road, Brenda takes an active interest in forensics and is a member of the pep club and GAL.

The pretty brunette, who plans to study nursing, is secretary of the student council and a member of the Future Nurses club. She enjoys acting and sewing.

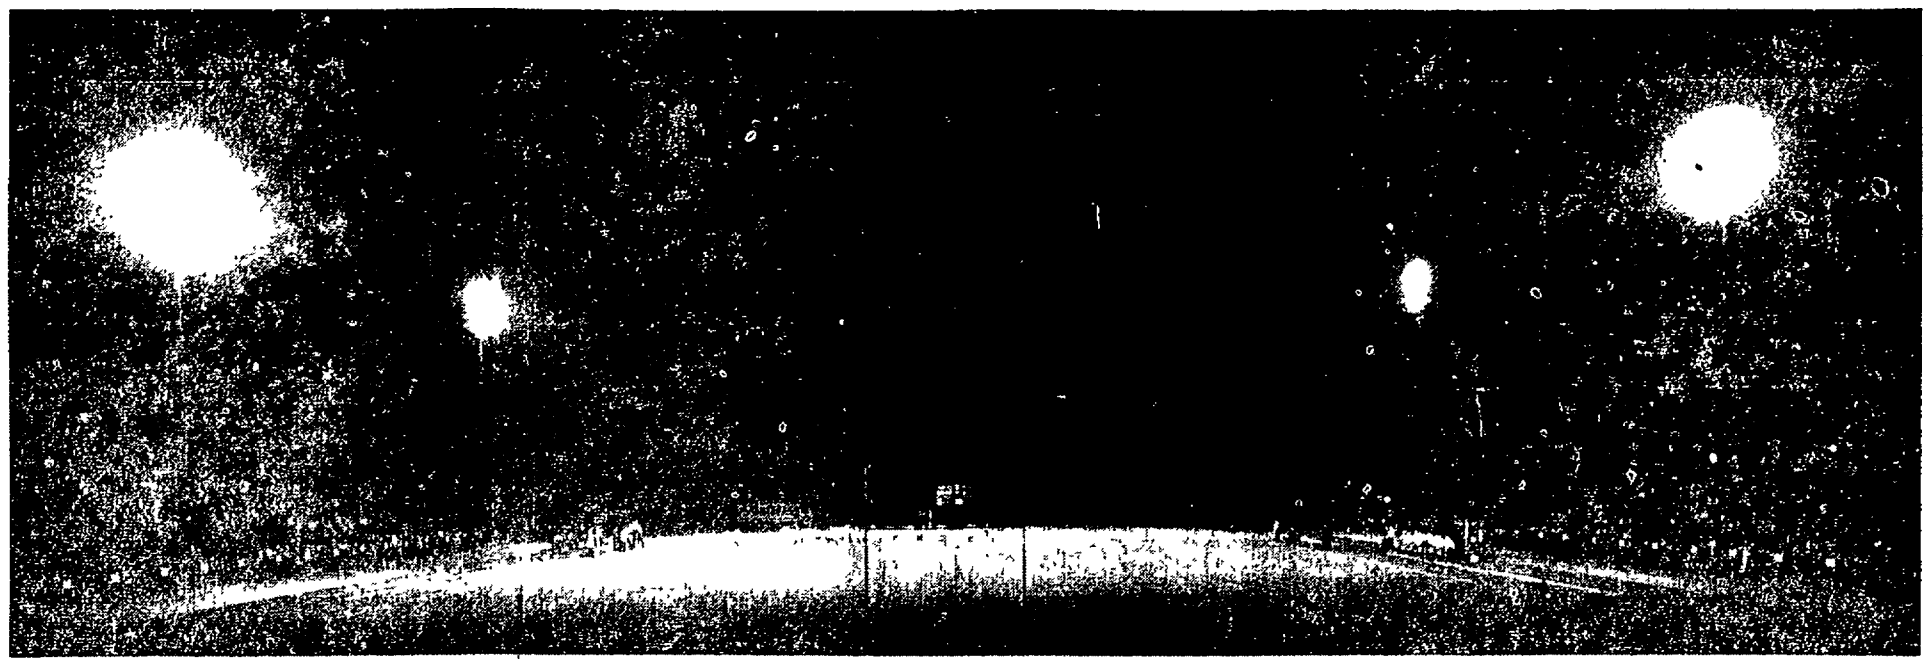

Karen Peterson holds a host of club offices including treasurer of the pep club, secretary of the honor society and student council health officer. She is also secretary of the senior class as well as a member of GAL.

The daughter of Mr. and Mrs. Allan Peterson, of 19850 Fry road, Karen plans to enroll in a college secretarial course. A water sports fan who enjoys sewing, she hopes to become a stewardess after finishing college.

Etta Rutan, who serves as secretary of the pep club, treasurer of GAL and a member of the honor society and student council, is the daughter of Mr. and Mrs. Emerson Rutan, of 840 Grace Street.

A lover of swimming and other water sports, Etta is interested in journalism as a career and hopes to study it at college. She was secretary of her junior class.

Following the game, the queen and her court will reign over the homecoming dance in the community building. The dance, which will start shortly after the game, will last until 11:30.

This wide-angle photo of the new athletic field was taken at Friday night's game. Fans, coaches and players praised the field, lights and stands

New School For Salem Given OK

Architects for the proposed Salem elementary school were authorized Monday to proceed with working drawings.

The Lyon township school board voted to approve the preliminary planning for the Salem school, and authorized O'Dell, Hewlett and Luckenbach associates to proceed with working details.

Action by the board followed a review of cost estimates, building schedule and procedure, and specifications by Henry Haberkorn, architectural engineer.

Basic plans call for a five classroom building to be located on the east side of Salem road—just south of the old Salem school. The property has been purchased by the Lyon school system.

Haberkorn indicated that the estimated cost of the building has not changed since it was reduced recently from \$130,000 to \$125,000. He indicated that "chances are good" that the building will be ready for occupancy by next September.

While plans have been designed for eventual expansion, initial building will provide for separate rooms for kindergarten through fourth-grade pupils. Currently, these students are being bussed to New Hudson and South Lyon. He said the drain would not adversely affect the school.

In connection with a drain easement which runs diagonally across the property, Haberkorn said he would prefer to place the school elsewhere on the property rather than involve the school with the county in having the drain moved to parallel position along the road.

Here are some of the preliminary specifications revealed by Haberkorn Monday:

Foundation — concrete poured in trench excavation or concrete block on concrete pad.

Walls — block interior and as back up, with free brick exterior except under windows where block will be surfaced with colored Gran-o-lux, or equal.

Frame — structural steel beams bearing on masonry.

Roof construction — long span, pitched roof of built up tar and gravel, with aluminum gutters and downspouts.

Floors — asphalt tile throughout except concrete in storage room and ceramic tile in toilet.

Wall and Ceiling Finishes — generally painted. Plastic coating on toilet room walls.

Doors and Frames — hollow metal throughout.

Drives, Walks and Play Area — drives shall be six-inch compacted aggregate. Sidewalks four-inch concrete. Play area, to be bid as additive alternate, will be blacktop on aggregate base.

Lighting — fluorescent in classrooms and office area, incandescent in corridors, storage and heater room.

Heating and Ventilating — heating system shall be hot water, through unit ventilators. The gas-fired boiler shall be sized to accommodate two additional classrooms.

Plumbing — sewage will be disposed of by septic tank and tile field or by mechanical system and filter-bed, whichever is approved by county and state health officers.

Recreation Plans Halloween Event

Tense and nervous lately? Having trouble with trembling repudiation?

Well, you'll soon be able to relax, because it'll all be over by the time next Wednesday night ends. That's when Halloween will be over and all the dreadful creatures will return to their hiding places for another year.

But you can bet, however, that until it's all over, ghosts, goblins, ghouls and all sorts of spirits will be exerting their influence — so be careful.

And a favorite Northville lurking spot for the monsters of muck will be the community building, where they can mix with local youngsters for fun and prizes at the annual Halloween party.

Recreation Director Ken Conley said a full evening of

games, costume judging, refreshments and dancing is being planned.

Doors of the community building will open wide at 5:30, when grade school age youngsters will be served refreshments. Costume judging for the younger set will begin at 6:15 and games will follow until 7:45.

Junior and senior high school students will hold forth with a dance from 7:45 to 9:45. Costume judging will take place during the dance.

Conley said refreshments of order and donuts will be supplied to all — even those who look particularly scary.

The annual event is co-sponsored by the retail merchant association, the Optimists club, the junior chamber of commerce and the recreation department.

MIRROR, MIRROR — Students of Northville high school will select one of these fair tasses as Homecoming Queen this week and she'll reign over festivities at the Northville-Brighton game Friday night. Looking up (l. to r.) are Queen Candidates Etta Rutan, Brenda Coburn and Karen Peterson.

Are Teachers Happy With Salary Plan?

A meeting between school board members, administrators and teachers has been proposed for the near future to air problems relating to the year-old "self-improvement salary schedule" now used in the Northville school system.

The matter came up for discussion at the school board meeting Monday night when Teachers Ada W. Fritz and John

Barnett presented a list of eight problems concerning the schedule. The points under question were raised by the evaluation committee of the teachers' club.

Miss Fritz is chairman of the committee and Barnett is club president.

Board members expressed deep concern over teacher reaction to the plan after Board Member Ed Angove asked if it were true "that most teachers do not favor the schedule and voted for it only because they believed there was no other choice."

Miss Fritz admitted that she had heard that many teachers held this opinion.

"I'm disappointed. Maybe we ought to go back to the old method," Angove replied.

"Maybe the new plan came too easy," snapped Member Robert Shafer.

Board President William Crump stated that he did not believe most teachers shared this opinion. "This was not a schedule adopted to give raises, but to improve teaching and award those who improve themselves," Crump said. He indicated that he believed the plan had been successful.

Shafer added that in his opinion most teachers did not understand the plan and concluded that many of the problems may be due to lack of communication.

Superintendent Russell Amerman noted that the program had worked well and that problems were expected in its first year. He suggested that they could be worked out through closer contact.

Problems cited by the teachers were: step credit, credit for undergraduate courses, principal's evaluation procedure, teacher appeal procedure, composition of the self-improvement salary committee, application for advancement, basis for sup-

er-maximum level and committee action on applications.

In particular, the teachers proposed that teacher appeals should be made to a committee of two teachers, two administrators and a layman. Presently, the superintendent serves on the committee. They would replace him with a layman so that a subsequent appeal from this board could go to the superintendent.

President Crump indicated that the board would study the problems at its November 26 meeting. It was suggested that the teachers recommend solutions to the problems cited. A combined dinner meeting of the groups would follow.

Figures submitted by Assistant Superintendent Kenneth MacLeod revealed that a total of 27 changes in contracts due to increment advances had been made since last spring. There were a total of 76 contracts signed. The median base teaching salary is \$5800, ranging from \$4800 to \$8600 and the median total salary for Northville teachers (including increments) is \$6000, ranging from \$4800 to \$8925.

In other business the board voted to protest a state ruling that would discontinue paying state aid for foreign exchange students. The board also heard Mrs. Robert Beerbower report that a P-T-A committee had been formed to study "all the facts concerning the community college plan".

Absentee Ballots Now Available

Absentee ballots for the November 6 general election are available at the city and township hall offices.

\$1,000 to Goal In UF Drive

Northville's \$3,351 United Foundation Torch Drive goal was approximately \$1,000 away from reality this week with one more day of official campaigning left.

But leaders of both the business and residential drives were optimistic that the goal would be topped!

Mrs. Orthal Baggett, who has headed up a volunteer group of 82 women in a house-to-house campaign, reported early this week that \$1,651.51 has been turned in to UF headquarters since the drive began 10 days ago.

The residential goal is \$2,206. William Keith is directing the solicitation of Northville area business firms. He reported that \$700 has been collected. The goal is \$1,335.

"Not all of our residential areas have been completely canvassed", Mrs. Baggett stated Tuesday. "We expect to complete the campaign this week and also make several callbacks where residents were not home when we called before", she added.

Mrs. Baggett believes that if the remaining prospects give in proportion to the others who have already donated the goal will be reached handsily.

"We don't want to miss anyone, but if we should we hope they'll just call FI 9-3110 and we'll come right out and accept their contribution", she stated.

Keith admitted that the business drive was lagging in total collection dollars.

"But we still have to hear from some of our biggest contributors and I'm sure they'll put us over the top", Keith said.

He noted that the average donation from business firms contacted to date was larger than in previous years.

The campaign is the sixth such drive conducted in Northville as part of the annual UF program.

The "give once for all" funds support some 195 agencies that provide assistance or service for needy individuals and offer programs for youth and aged alike.

Political Debate On Tap Tonight

Political fireworks could be in the offing tonight when Democratic and Republican candidates for Northville's (Wayne county) state senate, legislature and U.S. Congress pair off in face-to-face debate.

Of the six candidates only Democratic Congresswoman Martha Griffiths will be unable to appear. She has promised to send a representative to speak in her behalf.

In addition to statements and rebuttals from the candidates, the program will provide the audience with an opportunity to question the candidates directly.

Arranged by joint efforts of the local Democratic and Republican clubs, the program will begin at 8 p.m. in the community building and will include:

Democratic Senator Raymond Drendzel and his Republican opponent, Patrick J. McNally;

Democratic Representative Harvey J. Beadle and Republican Paul Chandler;

and James F. O'Neil, Republican candidate for 17th district U.S. Congressman.

Mayor A. M. Allen will act as moderator. Each candidate will speak five minutes. His opponent will follow and then each will be permitted two minutes for a rebuttal.

Written questions from the audience will be given to the moderator following the debate period.

P-T-A PRESENTATION — Pins for recognition of service to the Northville school system were presented Monday night at a meeting of the school board by Mrs. Robert Beerbower representing the Parent-Teachers Association. It was the prelude of a number of such presentations that will be made to administrators and teachers at individual school P-T-A meetings this year. Mrs. Beerbower told the first recipients that the pins were the P-T-A's way of "saying thanks" for teacher efforts in the Northville system. Each of the pins designates the number of years of service and contains the inscription "Teaching Service, Northville" and displays the lamp of knowledge. Pictured above (l. to r.) are: Assistant Superintendent Dr. Kenneth MacLeod (5 years); Richard Kay (former principal at Amerman school not at Grosse Pointe (10 years); Mrs. Beerbower and Superintendent Russell Amerman (35 years); and E. V. Ellison, director of administrative services (25 years).

Child Psychologist At Amerman P-TA

"Straight From the Horse's Mouth" is a most intriguing title for what promises to be a most entertaining and enlightening program to be presented at the Amerman school

P-TA tonight (Thursday). Dr. J. Clayton Lafferty will guest the program which will be held in the multi-purpose room of Amerman school.

Well known in this area, Dr. Lafferty brings his experience and knowledge as well as a well equipped tape recorder. There in (the recorder) lies the basis of the title.

Dr. Lafferty is presently a consultant in psychological services for the Wayne County Board of Education. His experiences with children ranges from Boys Republic to present chairman of the Wayne County Sub-Committee on Research Design of the Superintendent's Study of the Gifted. Even the most experienced person with children will find Dr. Lafferty and his tape recorder most interesting. P.T.A. members, parents, and friends are invited to hear thoughts, opinions, and feelings "Straight From the Horse's Mouth."

Dr. J. Clayton Lafferty

Also heading the program will be the enlarged Amerman school mixed chorus. The 42 voice singing group will entertain with a medley of patriotic and favorite American songs under the direction of Mrs. Frances Kontos.

The meeting will begin promptly at 8 p.m.

DKG's Hear Panelists On Women Leadership

Alpha Nu Chapter of Delta Kappa Gamma met at the home of Mrs. Wilson Funk, 845 Grace street, on Monday for its second meeting of the year.

Dessert was served at the beginning of the meeting by the hostess and her two assistants, Miss Florence Panatoni and Miss Kathryn Giltner. After a short business meeting Mrs. Bert Moshimer introduced the members of a panel from Kappa chapter. The first member Miss Edna Fink is employed by the Detroit Board of Education. She began her teaching as a home-teacher of adult blind and the multiple-handicapped blind children. The emphasis shifted to blind children when the great increase of blind children occurred because of retrolentafibrophalia, she noted.

Miss Fink helped pioneer a program of counselling the parents of these blind babies and the babies were seen every two or three weeks until school placement. At present Miss Fink is working on a pilot program at the Detroit Crippled Children's Society. She has published articles on "The Outlook for the Blind."

The second member of the panel was Dr. Mary Rose Costello. Dr. Costello was originally a member of Alpha chapter in Atlanta, Georgia. She went to the Atlanta Speech School as a teacher and later was appointed the director. She was awarded an Annie Webb Blanton Scholarship of \$2500 to pursue study at Northwestern University, where she received her doctorate in audiology in 1956. She taught at Wayne State University and was the recipient of a fellowship in the American Speech and Hearing Association last year. She is now employed by the Henry Ford hospital in the audiology department. She has published numerous articles: "The teaching of Hearing Skills," "Speech Reading as Language Development," etc.

Mrs. Maxine Freeborn teaches in the South Redford school district and discussed the type C program. She was a charter member of Kappa chapter and is the immediate past president. The topic for the evening was "Acknowledging the Contributions of Recognized Women Leaders." The speakers focused our attention on new frontiers which challenge the untapped potentialities of women as individuals and as groups.

The next meeting will be a joint one with Kappa chapter the state president of Delta Kappa Gamma Mrs. Clarence Hall of Jackson. This will be a Thanksgiving dinner, November 26, at the Mayflower Hotel. Members are requested to send reservations to Mrs. Eva Donovan, GA 1-5133.

I like the way modern concrete roads keep their riding smoothness!

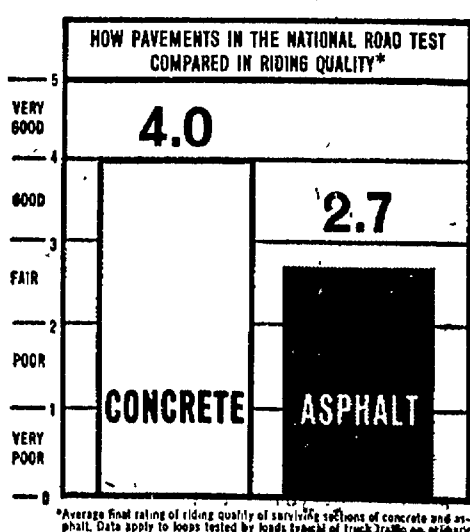

The National Road Test confirms for taxpayers that concrete provides lasting riding quality.

Concrete and asphalt were tested side by side on 5 loops in the recent National Road Test, sponsored by the American Association of State Highway Officials. Loaded trucks traveled 17 million miles over the hundreds of pavement test sections.

At the end of test (two years of traffic), the surviving sections were measured for riding quality. Concrete averaged "very good." Asphalt averaged "fair."

It's with good reason that concrete is preferred for important roads such as state primary routes. The low upkeep cost of concrete saves taxpayers money year after year.

A PLEASANT CHAT with Malcolm Muggeridge, first speaker of the Northville Town Hall lecture series last week, was enjoyed by Mrs. Jonathan Goldsmith (left) and Mrs. Lewis Alexander before the program began. Mrs. Goldsmith was hostess for the day, while Mrs. Alexander, Town Hall treasurer, served as the speaker's hostess.

World's Trying to Copy U.S. Says Muggeridge

The small white-haired man pushed his horn-rimmed glasses back onto the bridge of his nose, glanced across the rostrum at his audience and said, "the trend today is for everywhere in the world to become like everywhere else."

Speaking in his heavy British accent, Malcolm Muggeridge explained that "the everywhere the world is tending to become like is the United States."

"The American way of life is being adopted by the rest of the world," he said to the 500 women in the audience of the opening lecture of the Northville Town Hall series last Thursday morning.

"This is because the rest of the world is reaching a point of wanting the same things the American people want," he said, adding that the strangest aspect of this situation is America's lack of confidence about its position.

Muggeridge, who has been a free lance journalist for much of his professional life, as well as serving for five years as editor of the English humor magazine Punch, pointed out America's obsession with determining what the rest of the world is thinking of her position.

"So you have the extraordinary public opinion polls," he said, "which often turn out something like this: 29 per cent of Europeans say they like America, 42 per cent say they don't, and the rest haven't decided yet."

Continuing, the well-known satirist said: "The Romans did it differently — by sitting open a chicken and predicting out-comes of things from the way the entrails fell on the ground. I prefer this method."

Muggeridge, who began his address titled "English and Americans" by declaring that the United States is a "matriarchy" governed by its women, pointed out that England enjoyed during the last century the same position of world power America now holds.

"But the English enjoy being disliked," he stated whimsically, "so they didn't worry about how the rest of the world viewed them."

Since the rich and powerful are always disliked, he commented, "I feel it would be better to enjoy being loathed than to dislike it."

The speaker noted that what he terms "a plague of serious-

"Very old, unstreamlined, but nevertheless delicious" are the terms Mrs. Robert Frost, of 1917 Smock road, uses in describing the holiday recipes she submitted for this week.

She says the Squash Biscuits recipe was given her by her mother, who had obtained it from an aunt. She estimates the age of the recipe at about 100 years.

The recipe for Mince-meat was brought from England by Mrs. Frost's mother-in-law about 60 years ago. A yearly ritual a few weeks prior to the holiday season at her mother-in-law's home, Mrs. Frost has made it an annual treat in her own home.

SQUASH BISCUITS
Cream together:
1 c. sugar
1/4 c. shortening
Add:
1 1/2 c. squash (cooked and strained)
1 c. yeast (2 pkgs. yeast dissolved in 1 c. warm water)
1 c. milk, scalded and cooled
Stir thick. (Takes about 2 c. flour)

Let rise until light then add:
1 t. soda dissolved in 1 T. warm water
2 t. salt
Mix stiff with flour (takes about 5 c.).
Knead well and let rise until light.

Shape into biscuits, dip tops of biscuits in melted butter then in sugar. Again let rise until light and bake until lightly browned in a rather slow oven. (I set it at about 350 degrees).

ENGLISH MINCEMEAT
1 lb. suet, chopped fine
1 lb. currants
1 lb. raisins
1 lb. sugar
1/2 lb. mixed candied peel
3/4 lb. candied cherries
5 lbs. apples (preferably Spices)
1 t. nutmeg
juice of 1 lemon
juice of 1 orange

Mix altogether, pack in fruit jars and seal. Allow to stand several days before using. (Rather than using fruit jars I prefer to allow it to stand a few days in a crock, then put in freezer containers and freeze).

On the last work night, five members showed up to paint. These five members were able to get the lounge ceiling and side walls painted. A few more members showing up would help to speed up the project and get it over with. Every effort will be made to cut our next meeting short so that some more of the painting can be finished.

Let's all work on securing new members this year. Our "Hunters' Ball" comes up early in December, so why not invite a prospective member to this affair. It could be deciding factor in his joining the Post.

By now every member should have received his tickets for the "Thanksgiving Feather Party". Let's get out and sell them. Remember, 10% of the proceeds are going to the new Community Recreation building. Anyone needing more tickets can obtain them from Commander Holloman at 320 Orchard drive, Northville.

See you at the meeting.

NEW PRINCIPAL at Wayne

County Training school is Robert J. St. Germaine. A native Detroit who now lives with his wife and two children in Nankin township, St. Germaine is taking over the school principal post vacated after 24 years by Mrs. Marcella Douglas, of 212 South Rogers street. St. Germaine, who is president-elect of the state council for exceptional children, completed his undergraduate work at Eastern Michigan university and graduate training at the University of Illinois, in the institute for research on exceptional children, where he was a research associate. After spending nearly five years as Genesee county's director of retarded children, St. Germaine served a year as coordinator of special education in Kent county before coming to the training school.

Meeting Set For District Scout Adults

The Sunset district of the Boy Scouts will hold its annual meeting next Thursday, Wendell Henry, district executive, announced this week.

He invited adult scouts and sponsors from this area to attend the pot-luck supper, which will be held at 6:30 p.m. in the Cherry Hill high school at 28500 Avondale road in Inkster.

The program for the evening features the Reverend Jerome Shanahan, of Detroit, as main speaker. His topic will be "Scouts, Religion and Purpose."

Also included on the program are installation of district officers and presentation of the Silver Beaver award for outstanding service to boyhood.

That's Some Birthday Gift

You can bet Rhonda Sue Scheffer, will be the apple of her great grandmother's eye. Because Rhonda, eight-pound, two-ounce daughter of Mr. and Mrs. Robert Scheffer of Utica was born Monday morning.

And Monday was the day Mrs. Charles Blackburn celebrated her 80th birthday. Mrs. Blackburn lives with Mr. and Mrs. John Blackburn, of 456 Orchard drive, the maternal grandparents of Rhonda Sue.

Paternal grandparents are Mr. and Mrs. Raymond Scheffer, of Warren. The mother is the former Gail Blackburn.

Well, GEORGE ROMNEY,

what are you going to do about the mess in Lansing?

First, let me say that only the people lose from all the bickering in Lansing. All the people.

Why all the bickering? The answer is that there is no leadership in Lansing. The legislature cannot lead. No committee can lead. Only the man in the governor's chair has the authority and the responsibility to lead the state government.

But no man, regardless of his authority and responsibility, can lead unless he has developed the ability to get people thinking and acting together. He certainly cannot get cooperation by blaming the

other fellow when things go wrong and taking all the credit when things go right.

We all lose when there is no leadership. We either get lop-sided legislation which suits no one, or we get deadlock. The people can't win when we have deadlock and division in Lansing.

LEADERSHIP is necessary to get all sides working together to provide a government that can get things done for all the people of Michigan. I'd like to put my experience in leading people with diverse ideas to work for you.

Will you give me a chance to PROVE what a new team in Lansing can do?

THE WINNERS — Wixom city Mayor Wesley McAttee congratulates the three winners in the city's slogan contest while distributing the prizes at the last council meeting. James Beene, 14, receiving check from McAttee, was overall winner with the slogan: "Wixom — City of Opportunities". Winners of the elementary and junior high divisions, respectively, were (l-r) Myren, 10, and Loren, 14, Koolherst. The slogan contest was held to find a slogan which Wixom could use in promoting the city.

“Heart” Helps Grid Club, But Not Enough

It was a gallant effort, but Northville just didn't have the horses. But take it from Coach Ron Horwath, the Mustang gridders had the heart!

When the final curtain fell on the opening game at Northville's new athletic field Friday night, the score was West Bloomfield 27, Northville 19.

The game was much closer than the score indicates. With one minute remaining the Mustangs trailed by a single point, 20-19. But a desperation pass from the end zone backfired as the Lakers intercepted and ran in for the clinching score.

Thus West Bloomfield maintained its undefeated status and set the stage for a season finale against unbeaten Bloomfield Hills to determine the successor to Northville as champion of the Wayne Oakland league.

Meanwhile, Northville takes on a speedy Brighton eleven tomorrow night. It will be a battle for third place. Both teams have 3-2 league records, each having lost to the two Bloomfield teams.

While he's not taking a thing away from the strong West Bloomfield team, Coach Horwath was mighty proud of the performance of his injury-ridden Mustangs.

Three players who had been definitely counted out because of injuries showed up with doctor permits to play Friday. They were Back Joe Hay and Linemen Dave Jerome and Rick Rebitzke.

"These boys wanted to play, even though they hadn't practiced all week", Coach Horwath related. And he noted that several of the players had to be rotated and perform in unfamiliar positions. "All things considered, we turned in a remarkable ball game", Horwath concluded.

At the outset it looked as if Northville might be in for a

sound trouncing.

With the game just over two minutes old Dan Greig tossed a five-yard touchdown pass to Bob Aumaugher and the conversion made it 7-0.

The Lakers moved into scoring territory on a 15-yard pass play that clicked on third down and 12 to go from their own 40-yard line. They followed this with a 36-yard jaunt to the Mustang nine.

The Mustangs couldn't move the ball in the first quarter and was forced to punt twice. But near the end of the stanza End Jim Juday pounced on a West Bloomfield fumble at mid-field.

Eight plays later and 4 1/2 minutes into the second quarter Northville's Jim Jiggins ran the ball into the end zone from the three. The kick was good and the score tied. An 18-yard run by Tom Swiss and Craig Bell to Don Biery pass good for 23 yards along with steady running by Ron Rice set the stage for Northville's score.

West Bloomfield marched right back and scored on a 3-yard run by John Nemeyer and the half ended, Lakers 14, Northville 7.

The third quarter was all Northville. The Mustangs scored on a 14-yard pass, Bell to Biery after Guard Dave Cummings recovered a West Bloomfield fumble on the Lakers' 25-yard line.

Four plays later it was Cummings again that set up another Mustang score when he cut through the West Bloomfield line to throw the ball carrier for a loss.

His hard tackle resulted in a fumble and the ball was scooped up by Hay who rambled 51 yards for the score. Northville couldn't pick up its extra points so the score stood 19-14 as the third quarter ended.

In the fourth quarter the Lak-

ers proved their worth. Taking a Northville kick-off they hit on three passes and then turned to the ground to score from the seven. The kick was wide and the score was 20-13 with less than nine minutes remaining.

The Mustangs came back strong with Swiss picking up 19 yards on a run to the Lakers' 44. But Northville couldn't pick up another first down and West Bloomfield took over again on its own 38. The Lakers then marched on the ground to the Mustang one yard line before fumbling.

With just 53 seconds left and all their time-outs gone, the Mustangs hurried off two plays — both backfiring. On the first play Northville drew a penalty and on the second try Greig kicked off a Mustang pass and ran it back eight yards for the final tally.

Although it was tough to lose the first game on the new field, Coach Horwath had high praise for the lighting, field condition and stand facilities.

"I think we've got the best field in the league now. I was surprised at the good condition of the field itself", Horwath noted.

In other league action Bloomfield Hills downed Milford, 27-7. Brighton bounced Clarkston, 20-12, and Holly defeated Clarenceville, 21-12.

“Old Pro” Wins Again

An "old pro" walked off with the top prize in last week's football contest.

Al Jones, athletic director at Northville high school, missed only two games in a week that had its share of upsets.

There was only one other contestant that could match Jones's pace. Robert Engel, a telephone repairman who lives at 46063 Neilson, picked all but two of the winners. But he missed the New York Giants upset of the Detroit Lions so lost to Jones on predicting the score of the professional game.

Jones must have been using a crystal ball — he also managed to forecast the upset of Ohio State by Northwestern.

It was one of the biggest entries the contest ever had. At least two dozen of the contestants missed but three of the games — so it would appear that the armchair quarterback's are getting sharper.

Jones won \$15 for his skill, while Engel collected \$10. Engel is a graduate of Northville high school, class of 1954, and a former Mustang griddier.

Runners Get Two for One

It took only one try, and last Thursday Northville's Mustang cross country squad downed two Wayne-Oakland league opponents with one race.

Being first with the most gave the local harriers their fourth and fifth wins in eight regular meets. The Mustangs raced for 33 points, while Bloomfield Hills placed second with 40 and West Bloomfield trailed with 50.

Bill Adams paced Northville, placing for an over-all third. Gary Davis followed, ending up fifth overall, while Chuck Anheft came in sixth.

Frank Steinberger placed eighth, while Russ Strath founded out Northville's entry by coming in eleventh.

The Mustangs were to race last night (Wednesday) in the W-O league meet at Kensington park. The meet decides what position league members place for the season.

Coach Chuck Yahne, while optimistic about doing better than last year's fifth place, still isn't looking for top spot. He points out that several league schools now have attained class "A" rating, and have a larger student body to draw their teams from.

The class "B" regional will be the Mustangs' next bid — to be held Saturday at Franklin Hills country club, located on Inkster road at 13 mile.

Yahne said he doubts Northville will be able to place a team in the state meet, but added there's a possibility of several local runners placing individually.

The team's final meet of the season is next Monday, when Northville faces Oak Park. Only tournament activity is left after Monday's meet.

ONE YEAR AGO
October 26, 1961

A public hearing that promises to arouse more than casual interest from city of Northville residents is scheduled for Monday evening. The issue is a 25 per cent assessment for street paving and improvements which has been bantered about by the council and citizens for months.

At a few minutes past 9 a.m. Tuesday, Kroger opened its spanking new super market in Northville. And by closing time of 9 p.m., more than 1,000 customers had passed through its check-out counters.

Northville school board members Monday night, authorized Superintendent Russell American to suspend students for any reasons he deems sufficient. The new policy also permits principals to suspend students for up to three days.

L. L. Friedland, a Wayne State University professor of political science told Novi residents last week that the community should stay together as a unit in whatever steps it takes to protect its boundaries from annexation by neighboring communities.

Northville city and township officials recently met with officials of the Wayne county department of public works to see what could be done about blocking the county's proposed sale of sewer service to Novi.

The Northville officials are afraid Novi's use of lines to an interceptor connection at Plymouth would overload the line.

Novi policemen talked to about 85 hunters who were in violation of Novi's new hunting ordinance on opening day last week.

He said no arrests were made under the new ordinance, just explanations. Enforcement will begin later, he added.

Northville city councilmen Monday night instructed new City Manager John Robertson in his duties as assessor to increase a program for re-appraisal of every parcel of city property.

John S. Coleman, one of Northville's most prominent figures, was struck by a heart attack Monday less than two days after he was knighted by Queen Elizabeth Coleman, president of Burroughs corporation and a weekend resident of Northville was dubbed a knight of the British Empire at the British embassy in Washington. He is now in a Detroit hospital.

Northville's first United Foundation drive was reported as being behind schedule this week. Chairman Ed Welch stated that his residential and business campaign had netted \$700 so far but the goal for the drive, which ends Friday, is \$2,100.

Novi incorporation officials hope to complete their census of the township Saturday in a final wrap-up session. Incorporation committee chairman Walter Tuck this week issued a call for volunteers to help complete the job.

The new Lincoln plant will have its big day tomorrow. The

1958 Lincoln and Continental — first models to be produced at the huge plant — will be revealed to the public for the first time.

Monday is the final day for Wixom residents to register for the November 26 election to become a city. Petitions for candidates for the city charter commission must also be filed by then.

Don Waterman, of Franklin road, was reported resting comfortably in a Detroit hospital this week after being shot in the face while bird hunting. He was shot by an unidentified hunter who was in a field across the road from him.

Local post office officials this week reminded area residents that Christmas packages for overseas will have to be mailed within the next three weeks in order to arrive on time. They set a November 15 deadline to insure that packages arrive on time.

Fritz Bowers, of Salem owner of the Northville Taxi service, recently purchased the Austin Taxi station and now manages both under the name of Northville Taxi and Village Cab.

In spite of an all-day drizzle Saturday, Northville Drug company's 25th anniversary celebration attracted 2,000 visitors to the store.

Four Northville high school seniors will compete with students from across the nation in Pepsi Cola's national scholarship contest for 119 four-year college scholarships and \$50 \$50 college entrance awards. The quartet, elected by the student body, are Dorothy Grieger, Edward Lanning, Patricia Johnston and Gene Rutenbar.

The Morse Dairy has been sold by J. B. Adcock to the Detroit Creamery company. Adcock had purchased the dairy from the late Lloyd Morse in 1946.

Street Commissioner Earl Montgomery has taken over the police chief duties vacated recently by Loyle M. German. The appointment by the village council leaves only filling of the relief man's post to bring the village up to full staff again.

R. J. Casterline announced the opening this week of his new funeral home. Located at his residence, the new funeral home will be operated by Casterline and his son, Fred.

William Hensch, a Wayne University graduate, will fill the science teaching position left last week by Coach Elliott V. Barr.

A dog's problems claimed the attention for three hours Tuesday morning of Northville's police department, employees of an oil company and the Pere Marquette railroad agent. The dog, chasing a small cat, became trapped in the under-casing of a railroad oil tank car and took three hours to remove.

Henry Ford, his son Edsel and 10 other Ford company officials visited the local Ford factory Tuesday. The group spent two hours on a tour of the new plant, which has been in operation for less than a year.

The two ring leaders of the youthful gang of robbers apprehended here last summer by former police Chief Loyle German were sentenced to serve from two to four years in prison.

Kids to Aid UNICEF

UNICEF HALLOWEEN — Youngsters from Northville's First Presbyterian Church, the First Methodist Church and Novi's Willowbrook Community Church will devote a portion of their Halloween evening activities to a constructive purpose — collecting funds for the world's needy children as a part of the United Nations Children's Fund program. They know that for one dollar UNICEF supplies 17 hungry children with a daily glass of milk for one year, or can mean the vaccine to protect 100 children from tuberculosis. They'll collect door-to-door with UNICEF canisters early Halloween evening. In Novi the Youth Fellowship teenagers will canvass the community. Later they'll have a penny-counting and Halloween party at the church, the Reverend Marvin Rickert stated. In Northville youngsters of the Presbyterian and Methodist Sunday school classes participated in a poster contest for children through the sixth grade. The winning poster from each church will be painted on store windows in the business district by junior high school students. David Vincent is chairman of the program for the Methodist church and Mrs. Rolf Batzer for the Presbyterian. In the picture above four members of the Methodist church Sunday school classes are shown working on posters. They are: (l. to r.) Ted and Jeff Mills, John Canterbury and Rachel Cargo. Below are members of Charles Carrington's sixth grade class at the Presbyterian church busy on their UNICEF posters.

Two Northville Women Injured In Auto Crash

Two Northville women were injured Sunday in an automobile accident which occurred in West Virginia as they were on their way home from a vacation trip.

Hospitalized at War Memorial hospital in Berkeley Springs, West Virginia are Mrs. Rachel Hinman, of 550 Grace street, and Mrs. Earl Lothamer, of 229 South Wing street.

Mrs. Donald Ware, of 229 Hutton, niece of Mrs. Hinman, reported that her aunt had suffered a back injury, while Mrs. Lothamer received internal injuries. She said she had spoken with the women by phone, but could not determine their condition.

Mrs. Hinman and Mrs. Lothamer, who both are employed as nurses at Maybury Sanatorium, were injured in a head-on collision near Berkeley Springs when they attempted to make a left-hand turn. Mrs. Ware said she and her husband will transport the women back to Northville when they are able to travel.

Obituary

LOYD MELVIN STILLWELL

A former resident of Northville, Lloyd Melvin Stillwell, was killed when he fell off a scaffold while working on a construction project in Southfield, October 15. Born March 5, 1908 at Pigeon, Michigan he attended Northville schools and resided here as a young man. He served three years in the service during World War II and was a member of the American Legion, and F. and A.M. He is survived by his wife Joan and three sons, William, Alex and Robert of Osseo; his father, Lorenzo of Northville; three sisters, Clara Broda and Verna Sommers of Northville; and Betty and a brother, Clifford, 13 grandchildren, one great-grandchild. Funeral services were held at Hillsdale with interment at Maple Grove cemetery in Osseo.

LET'S TALK CARS...

It's Been A Dusty Summer

A savings of three or more miles per gallon can be effected if motorists would make certain that their automobile engine's air filter is not clogged with dirt and grease.

If you have your car serviced regularly at our shop, your air cleaner will be inspected as a matter of course. If it needs changing, we will recommend it to you.

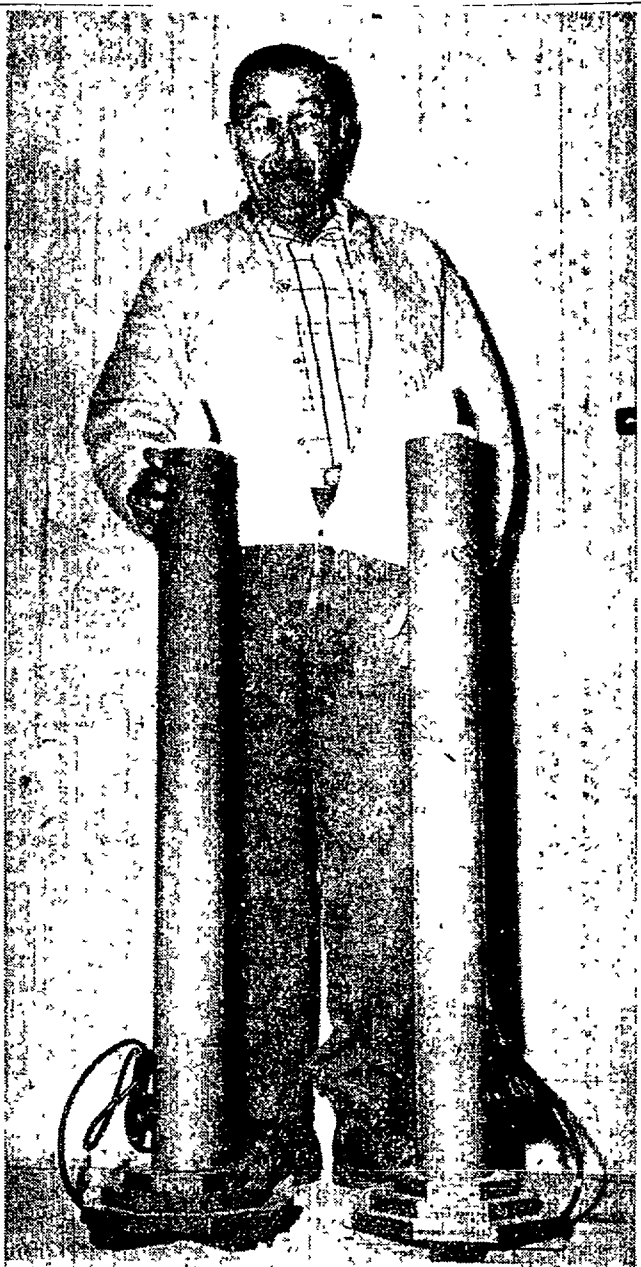

Air filters should be changed when they are too dirty to permit sufficient air volume through to the carburetor. Usually, this condition is reached every ten to twenty thousand miles in normal driving. No rule of thumb, however, can allow for prolonged driving over dusty roads.

An engine tune-up now before the first cold winter morning tells you you need one — along with a tow — will save you money and a lot of aggravation. If your filter is plugged, you are only wasting the money spent on the tune-up to ignore it.

Eighteen times as much air as gasoline is needed in your carburetor mixture to get the most out of your fuel. You lose both power and economy if your engine is starved for air through your fuel being too enriched.

Numerous tests by automotive engineers show a consistent 20 to 30 per cent gasoline economy gain in cars using clean filters against identical models using clogged ones. It's been a dusty summer. If you can't remember when your filter was changed, it may need it now and you'd be wise to attend to it.

They Flush Flock of Pheasants

It must have been one of the best opening days ever for area pheasant hunters.

With the fields full of hunters and pheasants the stroke of 10 a. m. Saturday brought forth a barrage of blasts and

a flurry of feathers.

The pictures on this page were taken at the Orlov Owen farm on West Seven Mile road shortly after 10.30 a. m.

The photographer came at just the right time.

Just after a picture of a foursome of hunters with seven birds was taken, two more were flushed. One was a long-shot and was "winged" by one of the sharp shooters.

Their dog "Rip" — winner of the 1959 National American Derby Field Trials in Colorado Springs — quickly re-

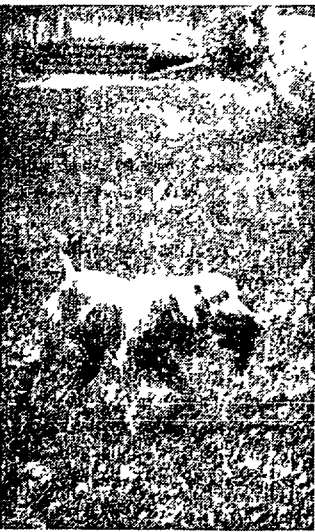

trieved the wounded pheasant, however.

A few moments later Owen and his guest, Jerry Teshka, posed with their bag of three pheasants. And as soon as the picture-taking formalities were over, Owen's dog "Queenie" flushed another bird — just to show the photographer she was as good as Champion Rip!

To complete the day — and prove the abundance of birds — two cock pheasants flew right in front of the car as the photographer drove away on Seven Mile road.

Orlov Owen and Jerry Teshka with Owen's Brittany "Queen", display three pheasants bagged by 10:30 a.m.

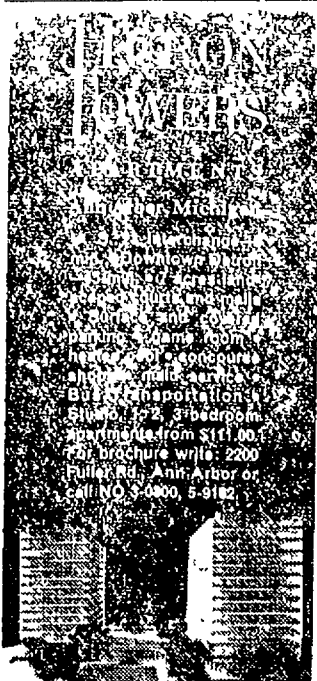

Champion Rip retrieves a bird that failed to get away after it had been "winged" by a long shot.

Rain shortly after 11 a.m. interrupted the hunting but it didn't dampen the results. This party of hunters at Orlov Owen's farm on West Seven Mile road had seven birds to their credit — and more "misses" than they cared to admit. Pictured (l-r) are: Jim Goldsmith, Bill Kofender, Ward Riley, Bill Eggenberger and Johnnie, Orlov Owen, Ed Riley, Jerry Teshka and Herb Korabacher.

By 10:30 a.m. this foursome of hunters had five birds. They bagged two more before the photographer left. Their dog, "Rip", is a national champion Weimaraner. Pictured are Cass Hoffman, Jim Haven, Tom Casley and Wally Galt.

Demonstrating new '63 Chevrolet truck features the hard way!

When we came to a river we got wet. This river bed was paved with rocks the size of melons. What a test for new light- and heavy-duty suspension systems this was!

Conventional light-duty units have coiled spring independent front suspension — easier on truck, load and driver.

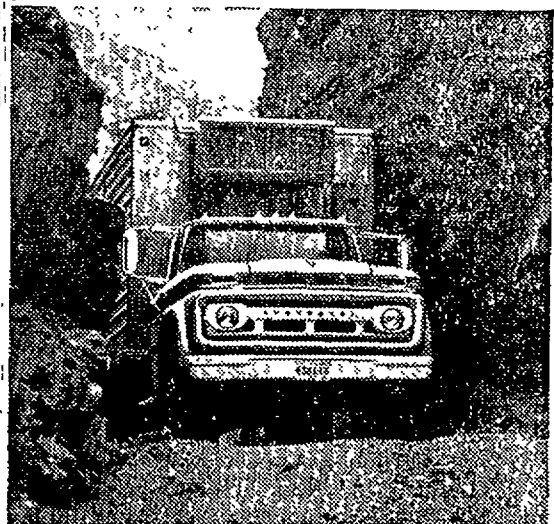

New engines, suspensions, frames and narrower front ends show their stuff on Mexico's tough Baja Run!

With months of proving-ground tests under their belts, why did new Chevrolet trucks take on the rugged Baja (bah'hah) Peninsula?

This is the toughest line of trucks Chevrolet has ever built. Sending them over the most punishing terrain in North America (a road totally unlike the fine highways on the Mexican mainland) was double proof of this fact. Frames, engines, suspension systems were subjected to stresses far greater than trucks normally encounter. You can be sure that trucks that can handle this kind of beating can handle any kind of work.

THE "NEW RELIABLES" FROM CHEVROLET

Quality trucks always cost less

Users of new conventional medium- and heavy-duty units who have to operate in close quarters are going to like the narrower front ends (up to 7 inches).

See the "New Reliables" now at your Chevrolet dealer's!

We've got a "HOLIDAY"! Everybody get on the job!

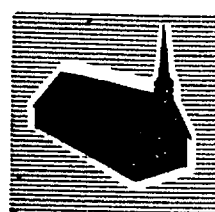

Strange as it seems, "holidays" are not vacation days, but mean hard work for the pipeliners.

The Natural Gas pipelines, a huge network of strong, seamless, steel tubes covering thousands of miles underground, assures dependable Natural Gas service. Still a thorough check and inspection must continually be made to guard against corrosion. When breaks or flaws are found to exist through inspection by trained men and electronic equipment, they are called "holidays". In Outstate Michigan, Consumers Power Company has over 7,000 miles of Natural Gas pipeline to keep under constant surveillance. Continual inspection and immediate communication to emergency crews by these trouble shooters keep this call, "Holiday", to a minimum.

An assuring message about immortality will be brought out at Christian Science services Sunday in a Lesson-Sermon on the subject "Probation After Death."
Opening the Responsive Reading will be these verses from the Bible (John 14): "Let not your heart be troubled: ye believe in God, believe also in me. In my Father's house are many mansions: if it were not so, I would have told you I go to prepare a place for you. And if I go and prepare a place for you, I will come again, and receive you unto myself; that where I am, there ye may be also."
One of the citations from "Science and Health with Key to the Scriptures" by Mary Baker Eddy states (p. 487): "The understanding that Life is God, Spirit, lengthens our days by strengthening our trust in the deathless reality of Life, its almightiness and immortality."

from the PASTOR'S STUDY

Rev. Lloyd Brasure
First Presbyterian Church

"We know that you are a teacher come from God", spoken to Jesus by those who knew Him in the flesh. Here was One who taught truly the facts of life and of life eternal to those who had ears to hear and minds to perceive these great truths. He made His teaching come clear with stories that lived. He told stories about seeds and people; shepherds and sheep; treasures old and new; children at play; builders on rock and on shifting sand; diners seeking special favor at the head table; people in debt; four-flushers and hypocrites; the foolish man with too much possession and little good judgment; of some good people too anxious for self to give assistance to someone in real deep trouble; the lost money; the son in trouble

and the other son almost too good to be true; the wedding banquet and those who never came, though invited; the wise and forgetful young ladies. All this and more He spoke in the parables that were earthly stories with heavenly meanings. Do we often enough remember these great truths for life as we hurry about doing the chores of this world?

As seekers after the pearl of great price, we must give constant attention to the source of all wisdom and power. The parables of Jesus were meant to clarify spiritual value and lead the disciples to an understanding of life's goals. The man who found the hidden treasure in the field recognized it for its true worth. Do we acquaint ourselves often enough with the teachings of our religious faith; do we display loyalty to the Church of our choice as we promise

ed, so we are equipped to know the treasures of the spirit, of the kingdom of God?

Are some of us walking by on the other's side and ignoring those in need? Are we criticizing others as hypocrites and doing nothing ourselves to justify our own set of values? Church people are often called 'hypocrites'. This arouses within me a desire to defend these 'hypocrites' as the ones very often who are the faithful hard working folks who keep the Church together. Let us remember that we come into the Church with a confession of sin on our lips, not one of accomplishment. Also, let it be well remembered that Jesus may call them that, but it is not our privilege to name them or judge them. May the Lord God of all mercies be with us all as we seek to know Him and serve Him in the daily walk.

Apportionment Plan Ranks State in Top 7

EDITOR'S NOTE: This is No. 13 in a series about the proposed new Michigan Constitution. Additional articles will appear in subsequent weeks.

How does Michigan's legislative apportionment, as proposed in the new constitution, stack up with that of the other states in the U.S.? How does it compare with the present Michigan apportionment? These are the questions frequently asked by those who study the new document which is to be submitted to the voters next April 1.

The answers to these queries are contained in the Compendium of Legislative Apportionment published early this year by the National Municipal League.

Reference to this report indicates that Michigan's new plan for both Senate and House will rank it with only seven states out of the 50 in which 40 percent or more of the population is necessary to control each house. These other six states are: Maine, Massachusetts, New Hampshire, Oregon, West Virginia and Wisconsin.

Moreover, in several of the houses, of these six states the differential between the largest and smallest district is wider than that for either proposed Michigan house.

Michigan's new plan for the Senate increases the percentage of population necessary to control from 29 to 43 and raises its relative status from 29th to 16th among the states. The proposed new plan for the Michigan lower House increases the percentage necessary to control from 44 to 49 and raises its relative status from 8th to 3rd place among the 50 states - only Alaska and Oregon would outrank us.

It should be noted, too, that the nine states with Senates more representative than Michigan's new plan, six such states have lower Houses so much less representative than their Senates.

ates as to indicate that these states look upon their Senates as their popular Houses. For example, Missouri with a Senate controllable by 47 per cent of its population has a lower House controllable by only 20 per cent.

The proposed Michigan House holds a differential between the largest and smallest districts of approximately 2-to-1. Of the two states which outrank us in population percentage required to control, Oregon's differential is slightly over 2-to-1 and Alaska's is over 6-to-1.

Ideally, a state which apportions to elect one House of its legislature on a population basis should attain a 50 per cent figure which would be necessary to elect a majority of that House. The Municipal League Compendium shows, however, that no state achieves this percentage.

Why? The Compendium points out that in most instances this is because county lines are used in drawing legislative districts. The proposed Michigan apportionment plan adheres to county lines and this decision was made by near-unanimous vote of the convention's committee on Legislative Organization.

The committee's report gives county lines in the apportionment procedure:

1. County boundary lines "assure citizens clearly identifiable and traditionally recognized voting districts" and "conform to the long established county organization patterns of many groups, including political parties."
2. "Election administration is simpler."
3. The U.S. Census uses counties as a unit of population.

Michigan's new apportionment plan, however, by combining sparsely populated counties into multi-county districts attains a higher percentage necessary to control than is achieved in most states.

SPEAKING for The Record

By BILL SLIGER

The federal government's public works acceleration act — aimed at pumping up the economy by encouraging immediate expenditures for needed projects — appears to be gaining ready takers in the Northville-Novi-Wixom area.

Under the act the government has appropriated some \$900 million of which Michigan will receive \$90 million.

An agency has been authorized to negotiate all projects directly with the local community. Projects that qualify can receive up to 50 per cent of the cost of the project from the federal government as a grant — not a loan.

The only hitch to the offer is one of time. Projects must be ready to get underway almost immediately. And local funds cannot come from regular tax monies already budgeted but must represent plus spending. In most instances this would mean bonding the community or an additional tax assessment. Funds set aside for a project, but insufficient, can be used. The theory is that the matching federal funds then get this money into immediate circulation.

Naturally, hundreds of applications are pouring into the Housing and Home Finance Agency in Chicago which is administering the project. Undoubtedly, there will be more applications than funds available.

Wixom would like to pave a number of roads as part of a road improvement program. The project would cost \$150,000 with the city's share coming from additional taxes next year.

Walled Lake is seeking the interest of Novi in construction of a sewage disposal plant that would serve the lake area proper. Estimated cost of this project is \$800,000. Presumably, the two communities would have to raise half that amount by bonds.

In Northville the city council is working diligently on new city hall plans. With government participation it is hoped that a library and fire department facilities can be included in the structure. There's \$150,000 on hand for this project as a result of the sale of the community building to the school district. The remaining money needed would come from the federal government.

We like the idea of including a library in the new city hall. It is badly needed — not because our local library is lacking in numbers of volumes — but because the facility itself is in falling down condition.

There will be a number of complications involved in the library question. The present structure is jointly owned by the city and township. They share the cost of maintenance and operation of the building. The proposed new structure would be owned by the city alone.

Some arrangement would have to be reached whereby provision of library facilities remained as a joint responsibility.

But it is our opinion that cooperation of our community's governmental units (school, as well as city and township) has never been at a higher level.

So we're optimistic that this highly desirable community improvement can become a reality.

Northville's coordinating council is looking for new project ideas. It was suggested at last Thursday's meeting that a committee be formed to complete Joe Denton park. Another idea was to prepare a roster of all area organizations, their officers and how to contact them.

President Herman Moehlman would welcome any suggestions. The coordinating council already sponsors the annual 21ers banquet and formerly handled the Beauty Northville campaign.

The group feels its wide representation could be used to sponsor a sustaining project to benefit the community. Any ideas?

Don't Sell Salesmen Short

Babson Park, Mass., I was amazed, and even shocked, the other day when I saw the results of a survey of college students and their job preferences. Of those polled who had made a definite decision, only 5% intended to take up selling as a vocation.

None yet, many of the students made it clear that they looked down upon salesmanship as an inferior occupation, and some even felt that it is hardly "decent".

Salesmen are Today's VIP's
Few seemed to realize that there are vast areas of sales activity besides counter clerking and door-to-door canvassing. Most of these youngsters were most astonished if they knew that those salesmen who call at their homes to sell life insurance, books, household goods, etc., comprise only about 2% of the total sales force of this country.

The great mass of salesmen — the other 98% — are selling to the nation's millions of retailers and corporations. These people are kingpins in our free economy and, along with those who sell advertising, they create and satisfy enough new wants to keep our economy in high gear.

The salesman is a mighty powerful person.

It should be made clear to our young high school and college students that sales work has a special appeal to those with persistence and ambition, because their earnings will be in direct proportion to ability and hard work. An experienced salesman gets a tremendous kick out of his job because he realizes that everybody's standard of living can be raised by his efforts. He also learns that if only a thousand customers buy a product, without salesmanship, it may cost \$10; but that, with imaginative selling and the consequent mass production, the consumer may get the same article for perhaps \$2, or even less.

Answer to Overproduction
One of the major fears of business right now is overproduction. So, naturally, the Number One Problem is how to dispose of the enormous volume of both heavy and consumer items our industrial complex is capable of turning out. The answer is live-wire salesmen. I am not referring to the few get-rich-quick boys who only want to make a fast buck. They are here today and gone tomorrow. I do mean those talented salesmen who learn how to get close to a prospect, how to gain his confidence, and how to give him real service. It is such men — and women too — who make up the great and important backlog of our merchandising empire.

A top-notch salesman has the true spirit of a missionary, — boundless courage, complete honesty, unlimited energy, firmness, and outstanding adaptability.

Seek Amendment on Ballot

MOST VOTERS are relatively familiar with the top names which will appear on the Nov. 6 ballot in Michigan.

Lesser candidates, those below the office of Governor, often get lost in the shuffle, however. Ballot proposals take an even greater loss when voting time arrives.

Usually Michigan voters are diligent about voting for Governor. Most people also vote for the candidates for Administrative Board posts. These include the Lieutenant Governor, Secretary of State, Attorney General, Treasurer, and Auditor General.

A GREAT DROP occurs in the count, however, on votes for Supreme Court justices. These candidates are nominated at major party conventions in August, but run on a non-partisan ticket. In a voting machine, the candidate names are far to the right of the machine; in paper precincts they are listed on a separate ballot.

The same thing occurs when a Constitutional amendment or other ballot question is listed, farther to the right on a machine, and on still another separate ballot in paper districts. This year, even more of a drop than normal is anticipated when votes are counted on a proposed Constitutional amendment. (Not to be confused with the proposed new Constitution to be voted on next April.)

A PROPOSAL to allow a general revision of the state laws was approved for ballot placement by the Legislature. Since then, however, its presence has gone almost unnoticed.

Because the proposal is of a rather technical nature, very few people are expected to take the time to familiarize themselves with its effect and vote on it, said State Elections Director Robert M. Montgomery.

The Constitutional change would allow the Legislature to provide for a general revision of the statutes.

Presently revision is prohibited. The Governor appoints a commission which puts the laws together each year. This commission is prohibited by the Constitution, however, from making any corrections which might slip through during passage, such as misspellings.

PROPOSERS of the amendment in both parties said it would greatly improve legislative effectiveness. Rep. Joseph A. Gillis, Jr., D-Detroit, and Rep. Henry M. Hogan, Jr., R-Birmingham, sponsored it. They substituted a simple 24-word sentence for the 80-plus word section now in the Constitution prohibiting the revision. It would provide that "the Legislature shall provide by law for the general revision of the statutes at such time and in such manner as it shall determine."

ONE OF THE FIRST concrete steps toward providing a youth camp program in Michigan is under way.

The State Department of Social Welfare recently purchased a site at Pup Lake, south of Houghton Lake in Roscommon County, for the establishment of a youth conservation-rehabilitation camp for 50 boys between the ages of 15 and 17 years.

Creation of the camp was authorized by the Legislature. Its establishment was one of several proposals which resulted from a five-year study of probate laws and facilities for juvenile delinquents in Michigan.

THE THREE buildings at the Pup Lake facility will provide a self-contained operational unit under the joint jurisdiction of the Social Welfare Department, the Conservation Department, and the Department of Public Instruction.

The youth will work with reforestation, dam and flood control and other conservation projects. At the same time they will be participating in a program of rehabilitation, academic education, and vocational training.

THE IMPACT of a new facility in Detroit is being watched in other states as well as throughout Michigan.

A defense Contract Information Center, the first outside the Washington, D.C. area, recently was opened by Gov. John B. Swainson and the head of the U.S. Army Mobility Command in Detroit.

Purpose of the Center is to provide information to prospective contractors on jobs up for competitive bids in defense work.

SOME 2,000 contract specifications were listed the day the center opened.

WITH KNOWLEDGE at their fingertips on contracts to be let, it was hoped Michigan contractors could better compete for defense work, both inside the state and in other places.

Sincerely,
Sander Mudd, M.D.

overly interested in your own self is meant as an observation and not an accusation. Try looking at it this way: you had the experience of loving and being loved by your husband and then you have the privilege of watching a child, with your warmth and guidance, grow to adolescence and adulthood. Eventually he finds a girl and he'll probably find many more before he's ready for marriage. You yourself recognize how valuable a wide experience with different girls will be for him. You'd best promote this by realizing that your present resentment only further endears his girl friend to him.

Stop smothering the boy; for this only causes him to cling more tenaciously to this "other woman." You'd be well advised to diversify your interests. Have you considered volunteer work with emotionally disturbed children? This kind of help to children who need it so badly can be most gratifying and we need assistance of people like yourself in our hospitals.

And paradoxically as it may seem, the more self-sustaining, the more self-reliant the offspring become, a greater source of comfort and gratification they are to us in our old age. You have all of your hopes, aspirations and ambitions firmly attached to a young man who can barely stand the burden this imposes upon him. The idea of his growing up is for him to find someone besides yourself to love — someone whom he can love with a far greater depth and tenderness than a mother can be loved.

I think it is fine that he has found someone besides yourself towards whom he has feelings of tenderness. It probably has been difficult for him, too, for after all, a mother who conducts herself with the tender concern you have always displayed toward him is not relinquished by a son easily.

I don't like having a child keep secrets from his mother, especially when she loves her son the way I do mine. What can I do to make him confide in me? I miss all the closeness we had and I feel so alone now. I think he should feel something for me. After all, I have only him and I've spent my very life in giving to him.

This girl is very good-looking and I'm afraid she is going to trap him into something. Just last night I had a dream that he had married her and believe you me I woke up in a cold sweat!

Do you think he should go to

WHEN YOU BUILD BUY OR SELL

YOU HAVE SPECIAL INSURANCE NEEDS.

Your home can pose many important questions about insurance protection! Am I liable on my empty lot? Do I insure for full house purchase price? How do I cover workmen while I'm building? How can I protect my mortgage if I die or become disabled? Do I cancel my insurance as soon as I sell?

They're all important questions and the answers vary according to individual situations. Let us help answer them for you.
