

**HISTORIC SIGNING** — Several members of the Northville Area Development Corporation gathered around President C. A. Smith last week as he signed the non-profit development group's first project. It's a loan authorization for \$185,000 from the Small Business Administration for an expansion of the Foundry Flask and Equipment Com-

pany, 455 East Cady. As its share of the loan, the local group must raise \$27,750. It is offering 15-year debentures at six per cent interest (see page one, section two). Looking on as Smith signs are: (seated l. to r.) Robert Shafer, Fred Kester and Philip Ogilvie; (standing l. to r.) A. M. Lawrence, Eugene Cook, John Miller, Bruce Potthoff and A. R. Clarke.

## "Biggest" P-TA Carnival On Tap Tomorrow Night

A full night of fun is on tap for young and old alike Friday in what is being billed as "the biggest carnival event ever staged" by the Northville P-TA.

Festivities begin at 5 p.m. in the "Cafe la Pasta" — the community building with new name and look — where dinner will be served.

Midway fun in the community building gymnasium, the junior high school and surrounding outside areas begins at 5:30 p.m.

According to Chairman Bill Secord, there are new and more exciting games and bigger and better prizes.

The small fry will find their fun in the junior midway located in the junior high school gym. They'll discover a fish pond with real water, a bug game with mechanical bugs zipping and zagging, a pong toss, a "huckle-buck" game where baseballs are thrown into barrels, a dig-for-gold adventure where they can unearth black and gold stones, as well as such old standbys as the lollipop tree, make-up booth, surprise package and ring-a-cane.

Other activities in the junior high building include the white elephants and candy and cookie booths.

The senior midway in the community building calls for more skill — and offers an array of new, giant-size stuffed animals as prizes.

Some of the games designed to test the skill of older hands include hoop tossing, the "jar game" which offers many attractive prizes including lamps, irons, transistor radio, etc., pitching into a barrel, tic-tac-toe with rubber rings, the bumper game, tossing baseballs into colored pans and the milk bottle game.

The favorite ring-a-cane, weight-guessing, cake walk and cake decorating contest will also be held.

At 7 p.m. John Wisner, door prize chairman, will begin twirling the lucky barrel. This

will continue every half-hour with the grand prizes — a boy's and girl's bicycle — being given away at 9 p.m.

Pony rides outside have been cancelled because insurance coverage cannot be secured. But Harold Guenther, outside activities chairman, promises more fun with a stagecoach and train ride. And while the kiddies are waiting to ride, they can always enjoy a cotton candy treat!

The cake decorating contest offers a total of \$30 in cash prizes. Awards of \$6, \$3 and \$1 will be given in three classifications — under 12 years of age, 12 through 16 and over 16.

The event is sponsored by the Ladies Auxiliary of the VFW with Mrs. H. V. Bissa as chairman. She asks that cakes be delivered to the stage of the community building between 3:30 and 6:30 p.m.

marked with contestant's name, age and phone number. The cakes should be on something that does not require returning. Judging will take place at 6:30 p.m.

Advance ticket sales are being held at all schools this week with savings for buying early. White elephants and "surprise packages" should be sent to school this week. Chair-

man Secord pointed out. He noted that white elephants and cakes are especially needed.

"Most of all we need helpers, especially parents, of junior and senior high school students to work in the senior midway," Secord said. He asked that volunteers call any school office and donate an hour of time to the carnival.

### Deadline for Dog Owners

Northville city and township dog owners will have another opportunity Saturday to have their dogs vaccinated and obtain new licenses.

Saturday's clinic will be held at the Northville city hall, 122 North Wing street,

from 9 a.m. until noon.

Dr. Thomas Heslip will administer two-year vaccine shots. Fee for the vaccination is \$4. Licenses will also be available. They must be obtained on or before May 31.

Plenty of prizes and here's proof provided by P-TA carnival planners Jack Ruland, Jean Utley and Bill Secord.

### Tribute to Dead

Special Memorial Services will be observed Sunday at the First Methodist church in Northville.

The Reverend Paul Cargo has invited members of the American Legion and VFW and auxiliaries to attend the 11 o'clock services.

## Council Weighs Parking Cost Against Business Growth

### Sets 'Compromise' \$600 Per Space Fee

The ticklish off-street parking requirement which hangs as a stipulation over the construction of any new business, expansion of old or change in business use of an existing building needed the city council Monday night for most of its three-hour-long meeting.

Elimination of the ordinance requirement was never a consideration, but what to charge a business per parking space in the event it cannot provide the stipulated number of spaces became something of a "hot potato."

The issue is of particular concern to city fathers at this time with the proposed expansion of D & C Stores, Inc. While it remains for the planning commission to decide, it is known that the expansion will require new parking consideration. And adjacent space is unlikely.

City Manager Bruce Potthoff has asked the council for a policy ruling on the parking-space charge. He told councilmen Monday night that the average cost per improved parking space in the business district had been \$1,006 to the city to date.

The requirement that businesses must provide a certain number of parking spaces, depending upon the nature of the business, is a relatively new ordinance in Northville, but widely used in other communities. Its purpose is to avoid the parking pinch that has hit many fast-developing business centers.

In this sense it serves to help business, its proponents point out.

But opponents of the idea point out that it can discourage expansion — especially if the cost of providing the parking is prohibitive.

When all the pros and cons were hashed over Monday night the council decided it would set a figure of \$600 per space to businesses unable to comply with parking provisions of the ordinance.

"Building additions add to our tax rolls by increasing both real and personal values," Mayor A. M. Allen pointed out in taking a position in favor of reducing the cost below its actual level. "I hate to discourage expansion and I think all these factors must be considered, the mayor added.

Councilman Richard Ambler noted, too, that parking provided to date in the downtown area had been relatively expensive to develop.

City Attorney Philip Ogilvie cautioned the council against setting the price too low. "By contributing to the city's parking fund and not providing its own parking, the business gains the advantage of not having to maintain or pay taxes on the parking space. If the fee is too low, there would be no incentive except that it might not be convenient to the business location," Ogilvie noted.

Councilman Ambler finally proposed the \$600 figure, the

same amount used in the city of Plymouth.

The council approved the measure with Councilman Fred Kester obtaining (because of his association with D & C Stores) and Councilman John Canterbury absent.

Specifically, the off-street parking ordinance provides that if the new or expanded business cannot provide the required number of parking spaces within 300 feet of its business it may meet the requirement by paying \$600 per space to the city's parking fund.

The city is under no obligation to provide the spaces if it already has off-street parking in excess of the number required.

In other business Monday night the council awarded contracts for street improvements to Oakland Paving (\$8,426.70 for street repairs) and Cadillac Asphalt Paving Co., (\$1,584.77 for sealcoating). It also voted to purchase a lawn tractor from Stone's Gamble Store at a low-bid price of \$599.81.

Also approved without change was the 1963-64 budget of \$406,055.

The council also adopted a resolution to be forwarded to the Wayne County Road Commission requesting that Center street from Dunlap to Cady be posted for no parking in the morning from 6-9 on the west side and in the afternoon from 3-6 on the east side.

Finally, the council approved fees of \$2,600 and \$1,200 to City Engineer Harold Penn to proceed with engineering surveys of Orchard Drive and North Center from Ely to the city limits necessary for the eventual paving of these streets.

### Parade Call

Northville Jaycees have issued a call to all local organizations, businesses or individuals who wish to participate in the annual Fourth of July parade.

Chairman Earl Knott is seeking marching groups "or youngsters with decorated bikes." This year's parade is scheduled for 1:30 p.m. Those wishing to participate are asked to contact Knott at FI 9-1015.

### Of Community College

## Public Meeting To Air Pros, Cons

Schoolcraft College — what it is, what are the advantages of belonging, what are the disadvantages.

These questions will be answered for Northville school district voters at a public meeting on the community college question at the community building at 8 p.m. Monday, June 3.

The following Monday voters will go to the polls to decide whether or not Northville should join the Northwest Wayne County Community College district — now composed of the school districts of Plymouth, Livonia, Garden City and Clarenceville.

The meeting will be sponsored by the board of education and P-TA. Nelson C. Schrader, a former school board president, will act as moderator. Speakers will include: William Crump, school board president; Dr. Eric Bradner, president of Schoolcraft College; Harold E. Fischer, chairman of the college board of trustees; and Mrs. Jane K. Moehle, vice chairman of the college board.

In addition, the "pro and con" sides of the college question will be presented by Kenneth Conley, speaking in favor of the plan, and Mrs. H. B. Price, in opposition.

Both Mrs. Price and Conley were members of the community college study group. The majority report of the committee favored joining the college, but Mrs. Price did not concur with their conclusions. The community college plan calls for school district voters to approve a one mill levy. Petitions requesting annexation to the college district

were filed by Mrs. Eugene Cook, who chaired the college study committee. At the same time Mrs. Cook filed petitions for Dr. Gordon Forrer as candidate for trustee to the college board representing the Northville district.

Location of the college, which will offer courses for technical and vocational training as well as the first two years of college liberal arts, will be on Seven Mile at Hag-

erty road. Bids for construction of the facility are scheduled to be opened May 27 at the present college offices on Newburgh road. Contracts will be awarded May 29 with construction slated to begin immediately so that classes may open in the fall, 1964.

Voters in the South Redford district have also petitioned for annexation and will decide the question on June 10.

## Visiting Mayors Tour Novi, Wixom

Business slowed down to a trickle Monday as citizens in Novi and Wixom set out to greet their new mayors.

Presiding over Novi during Government Day was Mayor Robert Teifer,

Sr. of Trenton while Wixom's ruler for the day was David Johnson, president of Sparta.

Doors throughout the communities were thrown open in honor of the visiting mayors. Both toured local industries, stopping to get acquainted with governing officials — all as part of the annual Michigan Week celebration.

A veteran of "mayor's exchange days", President Johnson noted that "every city is just a little different."

Johnson, noting Wixom was his eighth exchange city, marveled at the way the community is "spread out."

Novi was praised by its one-day ruler, Mayor Teifer, for much the same reason: plenty of growing room.

## News Around Northville

The Martin Housemans of 67 Terrace road were in Hillsdale over the weekend to attend the educational Bible forum sponsored by the Watchtower Bible society of New York.

Held at the high school, the forum featured a lecture by tri-state district director of witness activity, Nicholas Kovlak Jr.

Mr. Houseman served as the convention auditor.

Mr. and Mrs. R. J. Wright of 602 Fairbrook showed their pictures of Alaska Monday in the First Presbyterian church of Birmingham. The guests were the Senior Citizen's club and members of Citizens Presbyterian village.

Mrs. James Spagnuolo of 113 East Main is in Lansing caring for her four-year-old granddaughter, Teresa Marie. Mrs. Charles Fallsetta, Mrs. Spagnuolo's daughter, is in the hospital.

Visiting the R. M. Atchisons of South Rogers last week was Mrs. Atchison's mother, Mrs. Harriet Baldwin Harrington.

Attending the district Jaycette convention last weekend were Mrs. Charles Ely Jr., Mrs. Duane Marshall and Mrs. Robert Pankow.

Word comes from the University of Pennsylvania that Walter E. Newton, son of the Vernon Newtons of 325 First street, graduated Monday.

He received a master's degree in governmental administration exercises in Municipal auditorium, Philadelphia.

May 14, the Gael Downers of Frederick street attended Eastern Michigan university ceremonies honoring their daughter, Ann.

Ann was one of 21 junior university women tapped for Adahi, senior women's honorary society.

Adahi recognizes women for their academic achievement, choosing those who have also been outstanding in their service to the university and fellow students.

Home visiting last week was Lieutenant Richard Atchison, son of Dr. and Mrs. R. M. Atchison of South Rogers street. Lieutenant Atchison navigated a plane to Dayton, Ohio, hopping to Northville for two and a half days before proceeding to his new assignment — flying B-52's — at California's Castle Air Force Base.

In Toronto last week for a business-pleasure trip were the Richard Talbotts of 40160 Fair-

way. Talbot is a salesman for the Hugh Rader Lumber company, Detroit.

David Filkin of 621 Fairbrook has completed his three-year course with the Famous Artists' schools of Westport, Connecticut. He specialized in commercial art and illustration with this home study school.

Directing the art courses is a faculty of distinguished artists, including Norman Rockwell, Albert Dorne and Jon Whitcomb.

On hand Saturday to greet the two Girl Guides from India visiting the Huron Valley district for the summer were several Northville residents.

Among them, Senior Scouts Andrea Bissa and Barbara Zerkel and Leaders' Mrs. Archie Moore and Mrs. George Zerkel.

### You're Invited

#### To Town Hall

Tickets are still available for the 1963-64 Town Hall lecture series.

Speakers for the series, held each year at 11 a.m. in the P&A theatre, are Walter Slezak, October 17; Alexander Rorke Jr., November 21; Dr. Albert Burke, February 20; Nila Magidoff, March 19, and Count Ferdinand Sarmi, April 16.

The first two of the traditional "celebrity luncheons" following each lecture will be held in Meadowbrook Country club; the last three, the Thunderbird Inn.

Those interested in tickets may contact Mrs. H. F. Wagenschutz at FI 9-2976.

### Knights Templar Set Ascension Services

Uniformed Knights Templar and their wives will attend annual Ascension Day services in the Methodist church Sunday at 11 a.m.

A social hour will follow in the Masonic Temple.

Northville Commandery was organized by dispensation from the Grand Commandery, Knights Templar of Michigan, May 11, 1888, granted its charter on May 11, and constituted a commandery on June 7, 1887.

The first Ascension Day observance of the commandery was held in the Methodist Church on May 10, 1888.

The Templar Order is both military and religious in its origin and dates back to the Crusades early in the 12th century.

Lawrence M. Miller, commander, and his officers join with the minister and members of the congregation in welcoming all to the service.

## Youth Choral Group Sings Here Saturday

The state's teenage singing ambassadors, the 1963 Michigan Youth Choral, will present a concert in Northville Saturday at 8 p.m. in the high school auditorium.

This year's chorale, directed by Lester McCoy, includes 33 young men and 35 young ladies — high school seniors from southern Michigan.

The concert is being sponsored by the Men's club of the First Presbyterian church and will feature several numbers by the Presbyterian Bell Ringers.

Among the singing ambassadors are two Northville girls, Phyllis Sanford and Donna Williams. Phyllis is the daughter of Mr. and Mrs. Dean Sanford of Plymouth; Donna, the daughter of Mr. and Mrs. William Williams of Northville.

After the Northville concert, the girls will begin preparing for the chorale's goodby tour. They'll be leaving the United States by air on June 27 for a seven-week concert tour of the Scandinavian countries and England.

While touring, the young people will live in the homes of their Scandinavian and English hosts.

Purpose of the chorale, sponsored by the Michigan Council of Churches, is to interpret America to people of other countries through music.

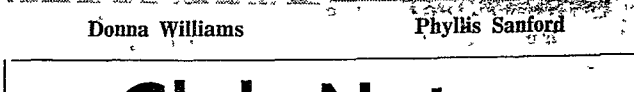

In addition, it gives talented young musicians an opportunity to sing with an ensemble.

Other Northville students selected for the chorale have been Carol Jones who toured South America with the group in 1961 and Janice Williams who went to Central Europe last year.

In preparation for their international tour, the chorale has given concerts at McCleary auditorium in Windsor for the Rotary club, Muskegon high school and Adrian college.

## Kitchen Diary

### Pecan Cookie Treat

This week, Kitchen Diary features two recipes Mrs. Glenn Long tabs "hand-me-downs."

The pert mother of three went on to explain that the recipes she was contributing "have been in the family and my cook book so long I'm not exactly sure where they came from."

In any event, both are favorites of 14-year-old Jim Long and his 19-year-old brother, Tom, who'll soon be coming home from Clemson university in South Carolina for the summer holiday.

The recipes:

**FLUFFY FRUIT SALAD**  
1 package lemon jello  
1/2 cup hot water  
1/2 cup orange juice  
2 Tbs. lemon juice  
1/4 cup mayonnaise  
1/4 cup orange segments  
1/4 cup drained pineapple tidbits  
1/4 cup grape halves  
2 Tbs. quartered maraschino cherries  
2 Tbs. chopped nuts  
1 cup whipping cream  
pinch of salt

Dissolve jello in hot water. Add fruit juice and pinch of salt, let cool. Add gradually to mayonnaise, chill until partially set. Whip with a beater until fluffy and light. Fold in fruits, nuts and whipped cream. Pour into one quart mold. Chill until firm. Serves about eight.

### PECAN COOKIES

1/4 cup butter  
1 cup granulated sugar  
2 eggs, beaten  
2 cups flour, sifted  
1 tsp. baking powder  
1/2 tsp. salt  
2 cups whole pecan nuts  
1 cup chopped dates  
2 cups cornflakes  
1 tsp. vanilla.

Cream butter, sugar, stir in eggs and mix well. Sift flour with baking powder and slowly add to first mixture. Stir in pecans, dates, cornflakes and vanilla. Drop by teaspoon on buttered cookie sheet. Bake in 350 degree oven for 15 minutes or until lightly browned. Makes five dozen.

## Sunday Vocal Recital Offers Varied Program

The first in a series of musical programs sponsored by the newly organized Organ Guild of the First Methodist church of Northville, will be given Sunday at 3:30 p.m. in the Church Sanctuary.

An hour-long vocal recital will make up the first program and will be presented by Mrs. Geraldine Mills, soprano, John Hyde, tenor, and Robert Jones, accompanist and organist and choir director of the church.

The varied program will range from religious music to some of the lighter, more familiar songs by Romberg, Herbert, and Rodgers and Hammerstein.

Among the solos are "Alleluia" by Mozart, "Come to the Fair" by Martin, and "Song of the Open Road" by Malotte. The familiar "In My Garden" from the Firestone Hour and the duets from "Carousel" and "Maytime" will also be presented.

The Organ Guild has been organized to raise funds for the repair and improvement of the present church organ. The public is invited to attend "Afternoon of Music" and the reception which follows in the Church Fellowship Hall sponsored by the Woman's Society of Christian Service.

## In Justice Court

Four men who were cited for disorderly conduct at the Walled Lake Casino were fined Thursday in Novi justice court.

David Lamb of Detroit was fined \$50 and put on three months probation for refusing to leave a car when asked by the driver. He had also entered the car without the driver's permission.

James Martin of Highland Park left the car when asked. He was fined \$20 for the May 11 disturbance.

John Risi also of Highland Park was apprehended May 11 for being drunk and disorderly. He was committed to jail over the weekend because he was unable to drive home. He was arraigned the following Monday and fined \$35 or 10 days and was committed.

Richard Palmieri of Dearborn was cited for disorderly

conduct at the Casino. He was found guilty of a May 11 disturbance, fined \$25 and placed on three months probation.

Five men were arraigned on a count of minor in the possession of liquor.

William Gillis and Robert Osgood, both 19, and Ronald Crites, 20, all of Clarkston, pleaded guilty to having liquor in their possession May 12 in the Casino parking lot. Each was fined \$25.

James Binkley, 20, and Howard Bewernitz, 18, both of Inkster, paid a \$25 fine on a similar charge. They had liquor in their possession May 10 on South Lake Drive.

Four motorists were arraigned before Judge Robert K. Anderson.

David Lyberg of Brighton, guilty on two counts, was fined a total of \$25. He drove without an operator's license May 10 and also with an expired operator's license.

Neal Powers of Pontiac failed to stop for a school bus May 8 on 12 Mile and Meadowbrook roads. He was fined \$25.

Michael Szilvogyi of Taylor was fined \$20 for driving without care and caution May 11 on East Lake drive. He swerved to avoid a dog, hit the dog and the car crossed the street.

Gordon MacLean of Detroit failed to stop in the assured clear distance April 26 on 14 Mile and Haggerty roads. Guilty, he paid a \$10 fine.

## Ship Ahoy!

Roland Steele, TM1, Northville Navy Recruiter, has announced that the May and June high school graduates, who desire, may be granted advance leave. Recruiter Steele also said, "this would let the new recruit spent time at home, with the family and friends while a member of the U.S. Navy."

Further information may be obtained by contacting the Navy Recruiter at 100 Dunlap.

## In Northville Justice Court

In the absence of Judge Charles McDonald, Novi Judge Robert K. Anderson presided Monday in Northville justice court.

Edward Garner of Walled Lake, who was previously arraigned May 6 and released under bond until he produced a valid Michigan driver's license, pleaded guilty to the charge of allowing an unlicensed driver to drive his car April 28 on Main street. He was fined \$15, \$10 costs and a \$5 fee for towing of his car which was impounded at the time of arrest.

Robert Cole of 356 Fairbrook street was found guilty of permitting a dog to run at large Saturday. After the judge found him guilty and in light of Cole's offensive demeanor in court, he was fined \$15 and \$10 costs.

**A FIRST FOR NORTHVILLE** — Proudly holding Northville high school's first regional golf trophy is Captain Dave Zielinski as (l to r) Coach Al Jones and team members Jim St. Germaine, Bob Boyle and Bill Wiedner look on admiringly.

## Golfers Take Regionals; Face State Test Saturday

Northville has a mighty proud golf coach.

In its third try in regional competition the Mustang golfers stroked their way to the top by a whopping eight-stroke margin over its nearest rival in the 13-team meet.

"We didn't enter the regionals until 1961 when we finished third. Last year we were second and this year the boys went all the way," Jones beamed.

The match was held at Glen Oaks Friday. Northville's four-man team scored a total of 332, with Dearborn Riverside coming in with 340.

Other scores were: North Farmington, 351; Grosse Ile, 352; St. Clair, 355; Royal Oak Shrine, 361; Dearborn Sacred Heart, 368; Dearborn Easton, 381; Marysville, 403; Clarenceville, 412; Monroe Catholic Central, 421; Wyandotte River-view, 424; and Jackson North-west, 430.

In addition to the team title Northville also walked off with individual honors. Jim St. Germaine grabbed medalist honors in Class B with a 76. Dave Zielinski and Bill Wiedner fired 85's, while Bob Boyle was close behind with an 86.

Last night (Wednesday) the Mustang golfers were scheduled to compete in the W-O League tourney at Burroughs course.

And Saturday they'll aim for the top in the state meet at Cascades in Jackson where winners of the 20 regional trials compete for state-wide honors.

## Surprising Netters Win Loop Title

The Northville Mustangs nosed out Bloomfield Hills on the home courts Friday and Saturday, 14-11, to win the Wayne-Oakland county league tennis title.

Bloomfield Hills carried a 10-0 record into the tourney. Included were two wins over Northville.

The rest of the league offered little competition as Clarkston and Milford each scored 3-4 points, Holly 1-4 and Clarenceville 3-4.

Defending league singles

### Colts Nipped In Overtime

After splitting two games last week, the Northville JV's lost a heartbreaker Tuesday, 6-8, at Walled Lake in extra innings.

Leading by one run going into the bottom of the eighth frame, the Colts failed to protect their one-run margin as Walled Lake scored twice to win.

Instrumental in the Colts' attack was Phil Andrews who belted a grand-slam homer in game at five all.

George Simenton garnered three of the Mustangs' 10 hits. Playing one of their finest games of the season, Northville beat Catholic Central Friday, 5-0.

Jerry Imsland, who pitched the first two innings, retired with a sore arm and Steve Evans finished up. Together, they permitted only three hits.

Simenton poked a long home run into right field, John Jamison doubled, and Bill Burns had two singles to lead the Northville hitters.

Although he gave up all seven errors Wednesday to make it easy for Plymouth to win on its home field, 7-4.

Seven runs, Steve Evans pitched adequately. In addition, his teammates rapped out only four hits.

Champ, Turk Ornekian, repeated last year's performance of winning four matches and the singles crown.

Turk quickly disposed of his toughest competitor in the second round when he disposed of Bloomfield Hills' number one man, 6-0, 6-2. Tiring, Turk then beat Bloomfield Hills' number two man, 8-6, 6-2, in the finals.

In the final analysis, it was Coach Keith "Mandrake" Krause's magical pairing of his charges that brought victory.

Jim Jiggins and Gary Gryszewicz, who played in the second and third singles spots in season play, teamed up to cop the doubles crown.

They defeated Bloomfield

Hill's undefeated first doubles team, 6-3, 7-5, in the second round and eased to victory in the finals, 6-3, 6-4.

Krause's slight of hand tricks didn't end there, however. He recruited Tom Swiss and Jim Juday, two football-basketball stars, to form the second doubles squad. They lost their first league match of the season — and perhaps of all time — 6-2, 6-3, before a cheering crowd.

The Milford coach commented, "If they ever learn the rules of the game, they'll be tough."

Bob Langtry-Jim Wiedner, relegated to the third doubles spot, scored some vital team points in winning two match-

es. Mark Byard and Dave Schmidt, both of whom normally play as doubles men, moved into the number two and three singles slots, respectively.

Both won first round matches. In other action, the Mustangs suffered two defeats. Bloomfield Hills won here Thursday in a dual meet, 4-1 for its second conquest of Northville this year.

Plymouth, which should win the class A regionals — according to Coach Krause — walloped the home team there for the second time this season, 6-1.

Only victor in each contest was Ornekian, although he had to scamper to win over a Bloomfield Hills opponent, 5-7, 6-1, 6-4.

## Mustangs Can't Score; Drop Out of League Lead

Visions of bases loaded with men

That is what's haunting the Mustangs after leaving 10 men stranded in losing Monday to Bloomfield Hills, 1-0.

Northville lost more than a game. It also lost the W-O League lead and barring a colossal upheaval at the hands of Clarenceville or Brighton, Bloomfield Hills will be the conference king.

The loss was no fault of pitcher Eric Peterson, who twirled a two-hitter.

Unfortunately, the visitors made their hits count. A lead-off single, a ground out and a solid double to right center scored the lone run in the fourth frame.

Bases were loaded with Mustangs in the fourth and seventh innings, but no one could bring runners across.

Jeff Crawford and Tom Swiss lashed out two singles apiece to pace the Mustangs' attack.

Northville also booted a game Wednesday against Plymouth, 6-5.

Plymouth scored all its runs without benefit of a hit. The

box score read two runs on three walks and an error in the fourth frame and four runs on five walks and an error in the sixth.

On the other hand, the Mus-

tangs had somewhat of a field day at bat, ringing out 11 hits. All their runs were earned. Four pitchers shared the chores with Dave Cummings taking the loss.

**MONEY IN THE BANK** — Kindergarten students of Miss Grace Pollock, teacher at the Main street school, have been buying savings stamps all year long. But Tuesday they had the chance to learn more about saving as they toured the local office of Manufacturers National bank. Here, Linda Woboril receives her \$25 bond from assistant bank manager William Keith, as Keith Glatfelter compares bonds. All the students were treated, however. They received penny collection boxes as gifts.

## Cites College Advantages

To the Editor:

Yes, I am prepared to support community education beyond the high-school level. Via taxation we are already sup-

porting State Universities which are becoming increasingly difficult to enter and increasingly selective because of the population boom in the college age group.

## Car Hits Bicyclist

A young Northville girl was hit by a car Sunday as she was riding a bicycle.

Pat Rauber, 12, of 640 Fairbrook sustained bruises as a result of the accident.

She was riding her bicycle on Seven Mile road near Eaton drive when she was struck by a car.

Driver of the car, Henry Karcher of Coral Gables, Florida, stated that the girl was coming toward him on his side of the road. She looked back and swerved in front of his vehicle. He added that he had no time to avoid the accident.

## Here's Tips On Painting

Interior paints are of three basic types. Knowing the characteristics of each will help you select the right paint for your rooms.

**HIGH-GLOSS** finish, available in both wall paint and enamel, is extremely washable and easy to keep clean. It is resistant to grease and stains. However, glossy surfaces tend to produce glare. High-gloss finish is often used in hard-wear areas such as kitchens and bathrooms. Enamel is recommended for wood trim where washability is important.

**SEMI-GLOSS** has a more pleasing tone but not quite the degree of washability of high gloss. This finish is good for areas such as children's bedrooms or family room.

**FLAT-WALL** finish is the most popular finish, used primarily in living rooms, dining rooms and bedrooms where beauty comes before washability.

Academically speaking, Schoolcraft College offers:

- a. an opportunity to border-line students, "late bloomers" or emotionally immature students not ready to leave home but ready for college work, to accept college on a trial basis.
- b. complete 2-year career curricula leading directly to employment.
- c. adult education for employment advancement or personal satisfaction.

How can we as a community find it morally fair to reap the benefits and not be prepared to pay the price?

Sincerely,

Mrs. H. O. Evans

Most first aid experts today favor the mouth-to-mouth method of artificial respiration.

First clear the air passages by drawing the tongue forward with your fingers. Place the victim half way between a face-up and side position, tilt the head well back to insure a clear air passageway. Take a deep breath, place your mouth over the victim's mouth, and breathe into his lungs until you see his chest rise and feel the lungs expand. In mouth-to-mouth breathing, pinch the victim's nostrils shut while breathing into his lungs. Remove your mouth and let the victim exhale, applying slight hand pressure between the ribs and navel, to expel all air.

Repeat the cycle 15 times a minute. You may cover the victim's mouth with a single layer of a clean handkerchief.

Remember: Start immediately. Check the mouth for obstructions. Loosen clothing and keep the victim warm, but don't delay artificial respiration to do this. After the victim revives, be ready to resume respiration if breathing halts again. Don't give up unless you're positive the victim is dead.

If you're called on to help in a rescue, keep calm and move rapidly to try to get the victim breathing again as soon as possible.

There will be a meeting Saturday of all managers or sponsors of teams that intend to enter the Northville Recreation department men's softball league.

The meeting will be held 10 a.m. in the temporary office at 157 East Cady street.

Any organization or group planning to enter a team must send a representative who is authorized to make decisions on fees, rules and schedules said Director Kenneth D. Conley.

## Read This To Save A Life

There are many physical conditions that can cause breathing to come to an abrupt halt, but the most common of these is drowning. The real tragedy of the many deaths from drowning each summer is that many could have been saved if someone nearby had known how to apply artificial respiration.

The cardinal rules of artificial respiration are simple:

—Start immediately. Don't wait for anything. Send someone for help, but don't wait for the ambulance. It will probably be too late.

—Keep it up. There are cases on record of breathing starting again after a lapse of many minutes, when the rescuer kept steadily at work forcing air in and out of the lungs. —Special courses in lifesaving including artificial respiration, are offered by the American Red Cross and other groups each spring. The trained rescuer is better equipped to save a life. But an untrained amateur may save a life.

Most first aid experts today favor the mouth-to-mouth method of artificial respiration.

# Al Conquers Plane Stalls by Stubborn Persistence

EDITOR'S NOTE: This is the fourth in a series of articles concerning the fun, adventure and difficulty in learning to fly, written by Al Lubowitz of our South Lyon Herald staff. He is taking lessons at the New Hudson airport.

There comes a point in flying, so old flying veterans tell me, when you think you've reached an impasse. That's the point where you have to decide that YOU'RE going to fly the plane, the plane isn't going to fly you.

I think I know what they mean. I reached an impasse. And what did it? Stalls!

"What would happen if someday the airplane stalled on you?"

When I first started flying, some morbid hecklers asked me that question. What would I do? Why I'd just pull over to the side of the road, get out, and see what the matter was. I had jokingly shot back to these would-be fear-mongers. I considered it a smart aleck

answer to a smart aleck question. Little did I think that one day this 'was going to be a problem.

Now I know better. Talk about stalls being a problem for only ONE day ... It would be better to say that they were a struggle for over a week.

Stalls are no easy thing to do. Correctly that is. It takes skill to do it. Once again — correctly. That was my difficulty. I was doing it every way except the right way.

What is a stall? To put it simply, it's like when you're driving a car up a steep hill without giving the car enough gas. What happens? The engine grinds and jerks to a halt. The principle is the same in an airplane, but with different results.

The airplane, having lost its forward momentum and not having enough speed to keep it lifted in the air, begins to fall. The engine keeps running but the plane plunges downward until it can pick up enough speed to resume flight.

Sounds simple I thought. Just watch me. Anyone can stall out.

And I was right. Anyone can stall out and this is precisely one of the reasons it's so important to know how to recover properly. Another reason why this exercise is important is that all airplane landings are — in effect — stalls.

When the pilot is a few feet off the ground, he gently lifts the nose of the plane, creates a stall, and before the plane has a chance to dip too far, he settles gracefully to the ground.

Humph, I sniffed in disdain. For a fellow who's learned to fly straight and level, make turns, climb, and glide, this will be a cinch. To my dismay, I discovered there was much more to it.

First of all, as the plane approaches the point just before it drops its nose and begins to dive, it's extremely important that the wings are kept

level. If one wing is tipped up, the plane, in its downward fall, could begin spinning.

Also it takes no imagination to see what would happen if, in landing, one of the wings tipped downward. Instead of landing neatly, the pilot would be plowing a ditch with one wing tip.

The plane must be held straight and level! There can be no teetering of the plane when it stalls!

And there are factors working against you! For example, as the plane approaches stalling speed, the torque of the propeller tends to throw the plane to one side causing it to tip. Also in pulling the stick back to lift the nose, it's easy to move the stick a little to either side. This amateurish stick control will make the wing flaps lower and cause the plane to tip too far to one side.

The solution to all this? Use the rudders. Like when a car skids on ice, it's necessary to twist the wheel quickly in the

opposite direction the car is going. As the car begins to respond, the wheel must be quickly twisted the other way.

So it is with the rudders. As one wing dips, the opposite rudder must be kicked. Then as the plane responds, the other rudder must be kicked. Skillful and immediate rudder action will keep the plane on an even keel.

Over and over I tried this. "Take the plane up to 2500 feet and do me a stall," Bill McKinley, my instructor, repeatedly told me. Up I would go. I'd try it. No luck. Instead of a smooth maneuver, I'd come twisting down and lose several hundred feet.

"Take the plane up and do me a stall," his voice wearily repeated. Over and over again until at night I was kicking rudders in my sleep. What was wrong? Was I the idiot of the year?

Then came the glorious day! I don't know why this day was different, but for some reason

I awoke with the firm resolve to fly that blankety-blank plane. Maybe I had remembered what the old-timers had told me. I don't know, but one thing I was sure of. No machine was going to get the best of me.

Possibly to prove I wasn't going to stand for any monkey business and that I was in dead earnest, I even put on my work clothes.

And surprise of surprises! It was easy. Just like that! I did it. Of course it was a little shaky but I did it. Then I did it again. Great. Wonderful.

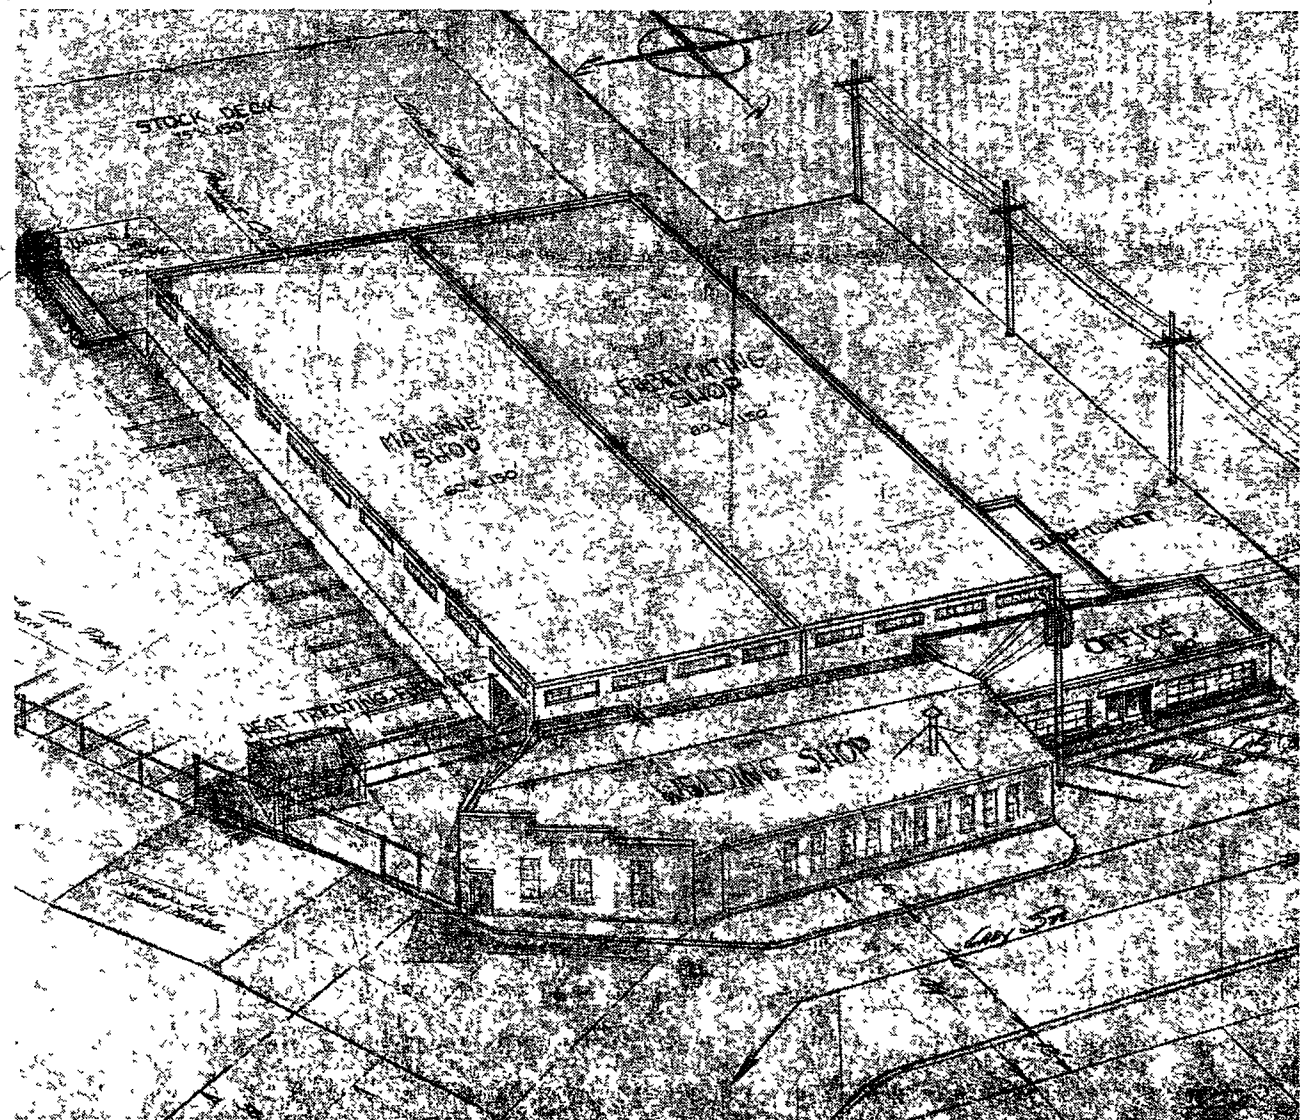

"I knew you'd do it all along," Bill told me afterwards. I yawned. "Natch," I said in a matter-of-fact tone. But despite my outward display of casualness and despite my thinking only a few minutes before that I was the world's dumb bell, I couldn't help feeling a wee bit like Alexander The Great coming back from conquering the world.

## Wixom Heritage Farm Includes Flying Field

Wixom's heritage farm has an unusual "crop" in its back yard.

Unlike any other 108-year-old farm in these parts, it's housing a hangar, filled with the area's small airplanes.

But in spite of what one of today's owners calls "the plane playground" nestled behind the farm, it operates in the tradition begun by George Spencer.

Friday, Wixom's Michigan Week committee will award the second and third generation Spencers — Vernon and George — a heritage farm plaque.

"I kept watching them," he recalled with a grin, "and thinking I oughta be able to fly as well as a bird."

Finally, I decided I'd try it myself, he said. "I got my dad's new black umbrella, climbed up on top of a 40-foot haystack, opened 'er up and sailed off there."

Sheepishly still, Spencer confessed, "I busted my dad's good umbrella, but hopped away from the scene."

Calling the episode his "first parachute jump," Spencer said it only made him "more

curious" about flying.

World War I rolled around and Spencer went off to enlist, hoping to learn more about planes.

"The U.S. Air Force wouldn't take me," he said, "because I wasn't a high school graduate." Rejected here, he went to London, Ontario, to sit out the war with the air force there.

His consolation prize? a five-engine Kanuk, bought after the war in a surplus store.

Spencer brought it home, assembled it — the first piece of today's air strip, he says.

## from the PASTOR'S STUDY

by the Reverend M. E. Rickert  
Willowbrook Community Church

There is a popular song which heralds the statements, "Love makes the world go round." Though these words may give expression to a well-meaning idea, they do not tell us "what" kind of love it is nor "how" it makes the world go round.

There is the "love of money" which leads some persons to do an awful lot of running around to get it. There is the "love of self" person, or race, or religion, or church, or group or nation, or idea - which, in its extreme expression, keeps the world going round in circles.

There is, on the other hand, the love about which Christ spoke when He said, "Love the Lord thy God with all thy mind, and with all thy heart, and with all thy mind and with all thy strength and thy neighbor as thyself." Then He added, "There is no greater commandment than these two."

Love is of such a nature that it causes "the lover" to want to be near and to do things for the one who is

the object of his affection. So, two people, in love, quite naturally, hold hands, put their arms around one another and even exchange kisses. A religious person, because he or she loves God, seeks to discover and maintain close relationship with God through worship.

Whether "sweetheart" or "worshiper" each, as a lover, seeks to do what he has reason to believe will please the one whom he loves by helping the one the one being loved to accomplish his purpose.

The great difference between the love of the secular world and the love of the Christian world lies in its selectiveness. Man's love, for another is based upon whether or not he wants to love and, also, upon whether or not the object of his love returns his love.

Christian love is something different, something plus. The love of God revealed to mankind in Jesus Christ is a love which is extended to all people whether or not they want it or accept it. It can be declined, but

it is never withdrawn. It is not always extended to people simply because of what God they have made of their lives but because of what they can make of their lives for good, with the help of God. It is a love which endures despite the efforts of others to disregard it or to destroy it. It is a love which is forever out-going, going the second mile. It is a love which is vicarious in that it seeks to identify itself with the one who is the object of one's affection at the point of giving helping in coping with the heaviness of life. These expressions of God's love are revealed very clearly in the experiences relative to the sacrificial death of Jesus Christ on the Cross.

Admonishing His disciples to "love one another, even as I have loved you," Jesus added, "By this will all men know that you are my disciples, if you have love for one another." And, again, "Greater love has no man than this, that a man lay down his life for his friends."

6. Interpret and strengthen recruitment and employment practices of the Woman's Division consistent with our belief in the oneness of God's family.

7. Open the facilities and services of all Woman's Division institutions without restriction based on race and make such policies clearly known.

8. Establish all Schools of Missions and Christian Service and all leadership development and enrichment programs on a regional basis without restriction based on race.

9. Seek to change community patterns of racial segregation in all relationships including education, housing, voting, employment and public facilities.

10. Work for national policies that safeguard the rights of all the nation's people.

11. Support world-wide movements for basic human rights and fundamental freedoms for peoples everywhere.

12. Join with others who seek in church and community justice and freedom for all members of the family of God.

## W.S.C.S. Ratifies Charter of Racial Policies

The Northville Woman's Society of Christian Service and the Ann Arbor District W.S.C.S. of the Methodist church have ratified the charter of racial policies of the Woman's Division of Christian Service, board of missions of the Methodist church.

The principles and goals stated in the charter are:

**WE BELIEVE**

1. We Believe that God is the Father of all people and all are His children in one family.

2. We Believe that the personality of every human being is sacred.

3. We Believe that opportunities for fellowship and service, for personal growth, and for freedom in every aspect of life, are inherent rights of every individual.

4. We Believe that the visible church of Jesus Christ must demonstrate these principles within its own organization and program.

5. We Believe that the Woman's Division as an agency of The Methodist Church must build a fellowship and social order without racial barriers in every area it may touch.

**WE WILL**

1. Commit ourselves as individuals called by Jesus Christ to witness by word and deed to the basic rights of every person regardless of cost.

2. Unite our efforts with all groups in the church toward eliminating in The Methodist Church all forms of segregation based on race whether in basic structure or institutional life.

3. Create in local churches opportunities for inclusive fellowship and membership without restriction based on race.

4. Act with other groups and agencies to involve families in new experiences with other races and cultures.

5. Share in creative plans that challenge youth, students and young adults of all races to new understanding of the Church's mission and ministries.

**Novi Boy Scouts 54**  
Fourteen boy scouts, five Webeloes and four adults, went on the Wilderness Trail hike of 22 miles on Saturday. They left at 6 a.m. and returned to Novi at 5 p.m.

Boy Scouts who went on the hike were R. Parta, P. Lutz, J. Svec, L. Tafrahan, T. Bell, R. Robertson, T. Dryer, C. Bowman, D. Bingham, B. Hector, J. Simonsen, A. Barnett, V. Miklas and D. Taylor. Adults were D. Lutz, D. Parta and D. Tafrahan. Five Webeloes of pack 54 went along with the troop. Mr. R. Robertson was in charge of them.

**Novi Girl Scouts**  
The senior Girl Scouts would like to thank everyone in the community for contributing rummage sale materials and also for patronizing their rummage sale as the sale was very successful.

The troop participated last Wednesday in the neighborhood roller skating party at Island Lake. They also are working on service project of planter for Northville State hospital and in addition this past week. They contributed to the community by assisting the Friends of the Library at the cartoon show that they put on for the youngsters in Novi.

Intermediate troop 1027 recently had a song fest outside at their meeting and Alison Lyke brought treats. The Whirly birds and Cardinals worked on their second class rahk. The Pussywillow patrol worked on their play and will be assisted by Mrs. Killean and Mrs. Bingham in order to have it ready for the court of awards June 3. Mrs. Ratcliffe, camp crafter is working with the girls and making plans towards overnight camping June 15, also Mrs. Ward and Mrs. Tafrahan.

This troop's mothers met with leaders Mrs. Lyke and Mrs. Ward recently at Mrs. Lyke's home to assist with plans for the remainder of the year's program. This troop also participated in the neighborhood roller skating party. Furnishing transportation were Mrs. Kozak, Mrs. Ratcliffe, Mrs. Culbert, Mr. Trotter and Mrs. Ciot.

Intermediate troop 149 had a parents' meeting recently where the leader, Mrs. MacBride presented final plans for menus, transportation, chaplains, etc. for the girls over night 7, 8, and 9 at Bishop Lake in June. Mrs. MacBride is completing her campcrafter training this week by going on an overnight to Camp Narrin.

These girls also participated in the roller skating party. The following assisted with transportation: Mesdames Skelleneg, Needham, Diem, MacBride, Beadle and Willacker. For overnight the girls are going to charter a Northville Lines bus to help with transportation.

Browlie troop 145 made sit-ups and swaps at their recent meeting. They took the situpons home to finish. They worked on the Browne Smile song and had regular business meeting. Bonnie Sachrist brought treats. They also participated in the roller skating at Island Lake with leaders Mrs. Skellis and Mrs. Wharton and several mothers furnishing transportation.

Intermediate troop 550 also went on the roller skating party at Lakeview roller skating rink located at Island Lake. After the roller skating party they went on a cookout at Mrs. Hasley's cottage at Brighton.

Intermediate troop 918 now has 22 girls in the troop with Mrs. Thorpe and Mrs. Riess as leaders. They recently made their mothers' kleenex holders from felt. Treats were furnished by Andy Anderson and Valerie Pinner and they worked on the song "When you make a Promise." They did not participate in the roller skating. Instead they worked on flag ceremony and had special guest Mrs. Zimmerman who worked with them on "A Scout's Own." They sang many songs and worked on patrol system and discussed memorial day parade.

Browlie troop 891 also did not go roller skating. They went on a hike out to Novi township park. They explored the area, looked at many wild flowers, returned to cars and had refreshments of koolaid and cookies. Mothers who attended were Mesdames Gingell, Broderson, Stewart, Hamill and Clarke.

**PLANNING AHEAD** — Although the Inter-Lakes Group of the Civil Air Patrol will not be hosting cadets from Brazil until late July, plans for the International Air Cadet Exchange are already underway. Lt. Robert Parmenter (right), commander of the Northville unit and owner of Parmenter Cider Mill, will open his mill for one day to show visitors how cider is made. To help the effort and provide some cider for the visitors, Simmons Orchards, 46320 Ten Mile road, donated 30 bushels of apples. Standing next to Lt. Parmenter is George Simmons with his son, Bruce and Bruce, Jr.

## Art Around Us

By Jessie Hudson

Michigan Week, Michigan Week, all around it's Michigan Week.

Northville library and Plymouth's Dunning-Hough Library will have special displays of books produced in or about Michigan. Plymouth library will also have a display of drawings by Plymouth high school students of some of the more historical buildings in town, especially those which are about to come down for the new city hall building.

The Historical Museum next to Plymouth's city hall is a repository of things saved out of Michigan's past. The museum will be open every afternoon of Michigan Week to give visitors an extra opportunity to inspect the treasures therein. The building is usually open only on Saturday and Sunday afternoons. It holds a surprising amount of very interesting items including old farm implements used in this locality, cooking equipment from nearby homes, and many nostalgic photographs of the way things used to look.

There is more to Michigan, of course, than its past history. There is the work being produced today by its manufacturers and its present day artists.

One such artist is featured at the Hartley-Powers Gallery in Northville for Michigan week and next week, too. James A. Walker of Flint is the featured artist and silk-screen prints his specialty.

Also in connection with Michigan Week, the 53rd annual exhibit of Michigan Artists opened Thursday, May 16 at the Detroit Institute of Art, Woodward at Kirby. The latest, and (presumably) the best of art being produced in Michigan today will be shown. This exhibit will last through June 30 and is always an exciting one.

Almost easier to get to than the Detroit Institute now that Route 23 is fixed all the way is the Toledo Museum of Art on Monroe street (Routes 223-23). There is an openness, spaciousness, a light and airy feeling about the Toledo Museum that most art museums do not have. The Libbey family seem

Her late husband was Northville postmaster at that time. In the top picture Mr. Van Atta is shown handing the mail bag to Elmer Perrin, village president, who delivered it to Plymouth by horse. The second picture shows Perrin arriving in Plymouth with a Greenfield Village stagecoach waiting to deliver Northville and Plymouth mail to the Plymouth airport. In the picture below, Plymouth Postmaster Learned (in hat) has just handed the mail to Daisy's Cass Hough, who delivered it by plane to the Detroit airport.

One of a series of reports by this newspaper and the Print Advertising Association on the advantages of print media

## Don't you read before you buy?

Most people do. They count on advertising in print to give them the information they want on products that interest them—information on features, designs, and prices, for example. People not only read about products and services, they show ads to their family and friends; they clip coupons for information and samples; they tear out ads to take along when they go shopping.

When you add it all up, print advertising—the kind you read in the pages of this newspaper—makes sense. And because it measures up to the buying habits of most consumers, print makes sales. Most people read—and then buy. Don't you?

## Readers Speak:

# Community College Is Wise Investment

To the Editor:

There will be no "hard sell" by those in favor of Northville joining the Schoolcraft Community College. We feel the facts will speak for themselves and that the citizens of Northville are intelligent enough to make the right choice. We will, however, conduct a "hard sell" campaign to urge the voters to inform themselves on this issue. We hope everyone will attend the public meeting sponsored by the Northville PTA and the Board of Education where all sides of the question will be discussed.

A review of the history of education reminds us that, from the early beginnings of our country, local taxpayers have assumed the responsibility of providing facilities for the education of their children. Not too many years ago, the local taxpayers' responsibility ended with the eighth grade in a small one room school building. Those children from more wealthy families had to travel considerable distance to the nearest city to attend grades nine through twelve, usually

on a tuition basis. Realizing that progress required more education all the time, the property owners in these small districts voted to consolidate and thereby assumed the local obligation to provide twelve grades of schooling for everybody. In terms of job capabilities, a high school diploma today is about equivalent to the eighth grade education of fifty years ago. We have now reached the point where most occupations require education beyond high school, either in technician or professional fields.

Everyone is against higher taxes, but the simple fact is that year by year a higher percentage of Northville high graduates are seeking additional technical training or entering state colleges or universities. The expansion of these state facilities is a continuous process and everyone to our children.

Since all Michigan citizens in Northville pays for them. Also, at the present time, there is practically no nearby technical or trade training available

bear the cost of state education, is it not better to be affiliated with a local community college where we can better see how wisely our money is spent and where we can help determine school policies. As a proponent of the community college, I feel Northville should accept the local responsibility for the support of this institution which will offer trade and technical training in addition to permitting students to take the first two years of college while living at home. This one mill means less than \$5.00 a year to the average home owner in Northville.

There are many other facts that you should consider before deciding how to vote on this question. I hope everyone will attend the meeting in the Community Building on June 3rd at 8:00 p.m.

Sincerely,  
Joanne Cook

## Opposes College Vote in Novi

To the Editor:

I read Elsie Price's letter in the Readers Speak column of May 15 with interest in regard to Community College, and I might say she covered it very well why one should vote NO when the voters will be asked to vote on the question June 10. I have no interest in the Northville School District, outside of paying taxes to send our 9th through 12th grade students to the fabulous Northville schools, but we also have a Community College vote coming up in Novi on June 10 and I can't see supporting higher education then the 12 grade from a local standpoint, because we are paying for state supported colleges.

I take note of a favorite phrase this paper has in quite frequently, "Initial cost of the college to the average homeowner would be comparable to the cost for a tankful of gas, a couple of cartons of cigarettes." This might be true if it would stop on any one proposal on the ballot in the past, but if I added up all these newspaper inserts — a carton of cigarettes now would cost me \$300. The editor might have something when he speaks of a tankful of gas. If he would use his influence through his paper and advocate a 1-cent federal tax on each gallon of gas that is sold, we could build all the schools that are needed in this country, the same as the federal highways are supported, and at the same time relieve the property owner of the sole sup-

port of education.

Getting back to the Novi schools, I was amazed to find Superintendent of Schools Tom Culbert getting \$1,000 raise in salary, and \$500 a year for the next two years. Now one can see where the money goes when you approved millage to the operating budget April 1, 1963.

## SPEAKING for The Record

By BILL SLIGER

This week our state of Michigan is paying tribute to itself.

Novi and Wixom are celebrating the annual event with special observances throughout the week. Highlight was Monday's mayor exchange program in recognition of Government Day.

Feted in Novi was Mayor Robert E. Teifer of Trenton; in Wixom the village president of Sparta, David J. Johnson, was the guest of honor.

Northville skipped official participation in the event for the first time in its 10 year history, chiefly because of the new city hall project. Next year city leaders hope to resume the celebration and show off the new municipal facilities.

Newspapers have been blessed with material containing interesting facts about our nation's 26th state. In the belief that we should know more about our own home state, I'm including just a few.

How many of the following "facts about Michigan" did you already know?

- the state flower is the Apple Blossom;
- the state bird is the Robin;
- our state tree is the White Pine;
- Indians called the area "Mishigamaw", meaning "Great Water";

- One is never more than six miles from a lake or stream in Michigan;

- Michigan is the nation's number one producer of potato chips;

- Michigan State was the first land-grant college and the U of M was the first major university to admit women (1870);

- the state's public schools have 1,790,000 students and 72,000 teachers;

- our population is nearly 8,000,000 people and 600,000 deer;

- equipment and plant investments in Michigan by the automotive industry this year totals one billion dollars;

- we lead the nation in production of seedling evergreens;

- Iron Mountain is the home of the world's highest artificial ski jump, and the Grand hotel on Mackinac Island has the world's longest porch;

- U of D is the world's largest Catholic university;

- the UP land area is 29% of the total state area;

- Detroit alone uses 10% of the nation's output of finished steel;

- Michigan produces nearly all of the aspirin made in the U.S.;

- we have one passenger car for every 2.8 residents;

- Michigan was the first state to abolish the death penalty (1847);

- the 4th Michigan Cavalry captured Jefferson Davis, president of the Confederacy;

- Michigan's shoreline is longer than the nation's Atlantic or Pacific coastline;

- Lake Superior is the largest fresh water lake in the world;

- the world's greatest limestone quarry is located at Rogers City, and Negaunee has the largest underground iron mine in the world;

- the busiest waterway in the world is the Detroit river, which carries more tonnage annually than the Rhine, Thames, Seine and Volga rivers combined;

- the state leads the nation in production of red tart cherries, field beans, blueberries, cucumbers for pickles, gladioli bulbs and eastern white winter wheat;

- Michigan's number one crop in value is corn — and Wayne county, known world-wide for its industries, leads all of Michigan's 83 counties in production of sweet corn;

- Michigan had the nation's first superintendent of public instruction and was the first state to assure every child the right to a tax-paid high school education.

# We'll 'Think' Visit 50 Years Hence

Babson Park, Mass., — I am thinking today of the changes which have taken place in merely one area — namely, transportation.

My grandfather cut cord wood and hauled it into Gloucester on an ox sled. I felt very smart when I could drive the oxen, guiding them with a stick. This was my first experience in transportation.

My father later started a drygoods store and had a couple of horses to get goods to his customers. Often he took me on these short trips and I learned to drive horses. Ultimately I drove them in races on the ice. This was my second lesson in transportation.

Finally, when I got married, I bought a new automobile which Henry Ford was just putting on the market for \$398 cash. I later knew Mr. Ford very well; and he told me it took him ten years to raise \$100,000 to start the Ford Motor Company in 1900.

Later he had me as his guest when he manufactured his fifteen-millionth automobile. He surely was a wonderful man and remade America.

During more recent years I traveled continually in the trains with steam locomotives that are now curiosities. My trip tomorrow will be from Orlando, Florida, to Boston in four hours by jet, compared with the day and a half it used to take me by train. Or, I am able to cross the ocean in a few hours by jet, against a few days by boat.

Gradually, travel will decline as our imagination is developed. In fact, as the population increases, this will be necessary. Experiments are now being made in connection with Christian Science, parapsychology, telepathy, etc., which should be encouraged. We will soon be content to imagine the places and persons we want to visit or talk with. This will be commonplace fifty years from now. Our imagination will become stronger, aided by TV and photography, and we will travel less but use the telephone much more.

We know the billions of radio waves which are in the air and in the rooms where this column is being read. Yet our clothing partly insulates

them from our bodies. Perhaps our clothing should contain minute wires serving as millions of "antennas". This might free us from ailments such as arthritis, weak heart, and blood troubles. Many of our physical illnesses may be due to lack of radio waves.

Another field in which I believe great developments will take place is the use of magnifying glasses. I am having one made now three feet in diameter. Our eyes are a wonderful possession, and something really revolutionary could be developed in the way of magnification to help ease the strain which all of us place on our overworked eyes.

As I have said in previous columns, however, the greatest changes will come about through some form of television. Before long, TV will give out sunshine and also transmit sunshine. By pressing a button we will be able to get heat, or light, or air conditioning via television.

Many reading this column will live to see our educational system entirely reorganized. Young people will be trained to think and reason. We may not need to "pay" thousands of dollars for a data-processing machine when each of us carries in his head a machine superior in efficiency and power. Professor George R. Harrison, Dean of the School of Science at MIT in Cambridge, Mass., has written a book which every educator should read.

If I, during my lifetime, have advanced from driving an ox team to riding a jet plane, is it not reasonable that those who are young today will see similar progress?

Chemists tell me that great changes will take place in the food we eat. It will become more tasteful, more digestible, more healthful, and free from any poisons. It will be illegal to use certain insecticides. One biologist even claims that soup manufacturers may collect and can insects instead of killing them. These are just a few of the thoughts which come to my mind as I look ahead fifty years; either the insects will eat our food up, or we must "wake up" and eat them up first!

# Our Top 10 Killers

Continued emphasis on good prenatal care brought about another drop in the number of infant and maternal deaths during the past year, but infant immaturity and congenital malformations remained among the "Top 10" killers in Michigan during the period.

State Health Commissioner Albert E. Heustis noted deaths of the heart remained the leading cause of death in Michigan.

Various heart ailments accounted for approximately two-thirds of the increase in deaths from the previous year. Provisional reports compiled by the Health Department's statistics division showed the total number of deaths from all causes increased from 67,118 in 1961 to 69,743 last year. Heart disease accounted for 1,722 of the increase in deaths.

Heustis noted there were no changes in the ranking of the 10 leading causes of death. All showed slight increases, except congenital malformations which ranked eighth, and infant immaturity, ninth-ranked.

Maternal deaths, which were not actually in the top 10, dropped during the year from 75 to 55; while infant and fetal deaths from all causes showed a decline of 269 from 1961.

Other leading causes, behind the 27,068 heart disease deaths were cancer, strokes, accidents, pneumonia and influenza, diabetes, arteriosclerosis, malformations, immaturity and cirrhosis of the liver.

Blowing its own horn for taking hold of a good idea is the position where the Michigan Press Association finds itself.

Early this year Pierre Salinger, Presidential news secretary, noted at the association's annual meeting, that usually "foreign" newsmen see only New York and Washington, D.C., because there is no effort made to show them other parts of the country.

Latching onto this idea, MPA members joined in an effort with John W. Crawford, of the Michigan State University division of mass communications to make one attempt to disprove Salinger's observation.

The result was a recent visit to Michigan by three United Nations correspondents: Dr. Sabina Leitzmann of Frankfurt, Germany; George E. Ennifin of the Ghana News

Agency, and Vladimir Bogachev of the Russian news agency, TASS.

The trio spent two days on the MSU campus at East Lansing, where they spoke to journalism classes and held a press conference.

Then the three split up for a single day's visit. Leitzmann went to Sebawaing as guest of the Sebawaing Blade-Crescent. Ennifin went to Vicksburg to be entertained by Meredith Clark, publisher of the Vicksburg Commercial, and Bogachev traveled to Whitehall with Louis J. Berman, an MSU staff member and publisher of the Whitehall Forum.

This unique project designed to increase international understanding through professional ties could be profitably expanded.

Leadership, consistency, patience, understanding and perception are attributes needed in one special variety of people. It may well be that you fall into this category.

According to Dr. Troy Stearns of the Michigan State University College of Education every parent needs to have great quantities of these attributes, as well as other characteristics.

"Parents must set a good example for children to follow, and then be patient as the child attempts in his own way, to follow this example," he said.

## Haass Elected

Peterborough, N.H. — Robert A. Haass of Farm Crest Farms in Northville has been elected, to membership, in The American Guernsey Cattle Club, non-profit agricultural organization serving over 40,000 purebred Guernsey-breed States.

Haass started with purebred Guernseys in 1949 and now owns 102 head. He sells Golden Guernsey milk.

The American Guernsey Cattle Club records the registration of purebred Guernseys — those whose ancestry can be traced back to the Isle of Guernsey, original home of the breed. The American Guernsey Cattle Club also records the results of official production tests; and, through Golden Guernsey, Inc., supervises the marketing of Golden Guernsey Milk.

One of a series of reports by this newspaper and the Print Advertising Association on the advantages of print media

## Don't you read before you buy?

Most people generally do.

Not only do they read; they cut out and show ads to their family and friends; they clip coupons for information and samples.

They can see an advertisement in print, they can compare designs... features... and prices of nationally known products and services. (And people do compare before they buy.) Advertising in print is a handy thing. You

can always check back; the message is still there even if your attention is distracted.

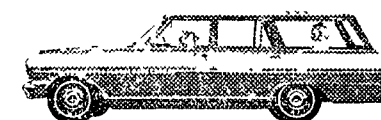

When you add it up, print advertising—the kind you read in this newspaper—makes sense. And because it measures up to the buying habits of most consumers, print makes sales.

Chevy II Nova 400 6-Passenger Station Wagon

A Chevy II wagon looks this big when you load it up

and this big when you gas it up

That, in the eyes of most Chevy II wagon owners, is just about the size of it.

A king-size appetite for cargo. But a dainty one for gas. And this, we hardly need add, is just the kind of wagon we planned it to be.

Taut and trim as it is on the outside, we went to great lengths to keep it BIG where a wagon should be BIG. The load platform extends a full nine feet from the back of the front seat to the tip of the lowered tailgate.

And for all the pepper we packed into that 6-cylinder engine (there's also a choice of an even thrifter 4 in most models), we were careful to keep it simple, easy to service—and a real stickler on economy.

Feel in a traveling mood? Well—happy coincidence—this is the time of year your Chevrolet dealer feels in his most generous trading mood. Looks like it's high time you two got together.
