# Don't Believe Those Rumors About Northville's New Pool

"white elephant", but in the eyes of Northville's new swimming instructor the \$500,000 high school pool is a fine facility "that the community can be proud of,"

Ben Lauber, who comes to

experience, joined Assistant Principal (former athletic director) David Longridge this week in praising the new swimming pool as workmen put in the finishing touches.

Both shot holes in rumors

IT'S A BEAUTY-Northville's new swimming coach, Ben Lauber (right) and Assistant Principal David Longridge agree: "Northville's new swimming pool is a beauty." They see the new pool, slated to open in September, as an important community educational tool. Every child in Northville should know how to swim and now they'll have the opportunity to learn, they state.

circulating here that the pool is "one inch too short", "doesn't have enough lanes for competitive racing", and that it will "be off limits to the public."

Meanwhile, workmen have but a few feet of tile to lay in the northwest corner of the pool apron (both Longridge and Lauber call it a natatorium) before water is poured back into the giant cavity for the third and final test before completion.

According to Superintendent Raymond Spear, the pool will be

opened in September -- whether or not electors approve the 2-mill proposition later this month. If the proposition is defeated regular swimming instruction as part of the physical education program for students will begin, but extra-curricular activities, such as competitive events, will be curtailed, he

"We just can't consider closing it altogether," Spear declared.

Inspecting the pool as it neared completion, Longridge explained that expected. "Let's get something straight: it's not too short and it doesn't have a lane missing.

"If it has any shortcomings, I'd point to the locker rooms. I don't know why, except probably because it is a money saver, architects and school officials here and in other communities always seem to come up with a shortage of locker space.

"But the pool itself is a beauty." Lauber agreed. He said there is absolutely no truth to rummors that

(The pool has five lanes, plus a diving "L" area. It is 75 feet, one-inch long, 35 feet wide with 7-foot lanes. Its depth ranges from 3½ feet to 10½ feet in the diving area).

"We had exactly the same kind of rumors that you have here when our pool in North Robinson (Ohio) opened," said Lauber. "After we had the pool for a year people realized they had been wrong. But until then they weren't convinced."

# Taft Paving Set to Start

Barring unforeseen complications Taft Road, between Eight Mile and the northern city limits of Northville, will be paved by mid-September.

The controversial paving project became a certainty Monday night as the city council awarded a contract to the low bidder at a cost of \$88,947.05

- nearly \$2,000 less than the latest engineering estimate.

While the vote to award the contract to Macomb Concrete Company of Frazer was a unanimous one, the fact that Macomb was the general contractor for the unsatisfactory Randolph Street project sparked concern of council members.

All five of the other bidders came up with prices exceeding the engineering estimate of \$90,404. Total estimated cost - including engineering, inspection and contingency fees - was pegged at \$99,286. Since engineering, inspection and contingency fees are estimated at \$10,000, this cost plus the low bid brings the total price up to near the \$99,286 figure.

Other bidders and their bids were: Barthel Contracting Company, \$95,512.39; John Carlo, Inc., \$96,471.05; Thompson-McCully, \$106,538.25; Tony Angelo Cement Contractor, \$106,895.15; and Ministrelli Construction, \$137,604.50.

All but one of the bidders offered to do the job within 45 days of starting. Macomb said it would complete the job within 45 days, and it agreed to begin work within five days after signing the contract. Officials expect it to begin Monday.

It would appear, City Manager Frank Ollendorff said later, that assessments of Taft Road property owners probably will remain within estimates "Of course, we can't really tell until the project is completed. For

### Unification Report Near

Formalization of a unification report is expected to be completed tonight for submission soon to the governing bodies of the city and township of Northville.

The report, according to City Manager Frank Ollendorff, will show whether or not unification of the city and township is feasible. Unification committee members he said, will neither recommend for or against unification in this report.

Furthermore, Ollendorff said the general contractor will have a superintendent present at all times even when work is being done by subcontractors, and the removal of trees has been carefully specified.

A full-time, qualified inspector for the project is to be hired by the city manager.

"I don't think we'll have any problems," said Penn, who indicated he, for one, planned to be "tighter" in following the engineering progress. (Ollendorff told the council later that

Penn will not be the inspector). Among the specific prices within

Macomb's low bid are these: Excavation and paving, \$54,068; shoulders, driveways and cleanup, \$10,974; tree removal, \$2,700; and drainage, \$21,115.

### Webber Elected

Robert Webber, owner of Northville Camera Shop, has been elected by fellow board members to the presidency of the Northville Community Chamber of Commerce.

Webber served as president two years ago. He succeeds Dempsey Ebert, who was named secretary. Other board officers are: Fred McLean, vice president; and John Carlo, treasurer.

# Study Shows Incinerator Too Costly for Area Refuse

It's cheaper to bury a bag of garbage than it is to burn it - but burial is but, a short range solution.

In a nutshell that's the conclusion of the refuse study committee, representing Northville and four other neighboring communities, that has recommended a three-prong attack on the refuse disposal problem.

Couched in a report introduced to the Northville City Council Monday night, the recommendations include:

1. That the governmental units seek authority to develop a new sanitary landfill site.

2. That they merge with Livonia to provide a combined authority with incinerators for Livionia and landfills for the communities represented by the

3. That they consider the ultimate

### Boy, 3, Okay After Running Into Car Path

A three-year-old boy ran in front of a car at 120 Walnut Street and was struck Monday noon.

Charles Klocke, 635 North Center Street, was admitted to St. Mary Hospital in Livonia. His doctor, however, reported that there were no fractures, and he is in good condition.

Charles ran in front of a car driven by William Michael Lundby, 30, 26247 Martindale, South Lyon. Police Chief Samuel Elkins said there are no charges against the driver, and he was not held.

#### School Board Changes Meeting

The regular special meeting of the Northville Board of Education has been changed from July 22 to July 29. All meetings of the board now begin at 8 p.m. in the old junior high school library.

feasibility of joining with the county incinerator plan.

The committee communities are: City and Township of Northville; City and Township of Plymouth, and Canton and Salem Townships. Salem joined the committee this past spring. Officials of these communities are expected to study the report and perhaps take some cooperation action.

Early ambitious intentions of developing an incinerator to serve these communities have all but been abandoned by the committee since it "would not be justified because the volume of refuse will not support an incinerator." In fact, the committee has changed its name from Incinerator Committee to Disposal Study Committee.

According to the report introduced to the council Monday, there is a real urgency to develop some new means of disposal since all sanitary landfills used by member communities will be filled within the next 18 to 36 months - or from late 1969 to mid 1971. The most urgent situation exists in he City and Township of Northville, the report shows, where the landfill (commonly referred to as the "city dump") will be filled by late 1969.

Investigating the various methods of disposal, the committee includes that the landfill is the most common and economical. The committee found that the cost per ton of disposed refuse by landfill in Plymouth is \$1.05, in Detroit \$1.68, whereas studies of the county and the Central Wayne Authority showed contracting charges of \$6.25 and \$6, respectively, for disposal of refuse by the incinerator

These costs, concludes the committee, indicate that a landfill operation should be pursued.

Furthermore, the committee states that independent governmental unit solution would be less effective and does not provide a long range solution. Development of a common landfill, it found, would provide an economical solution until 1980.

### Space Available For Sidewalk Sale

There's space for rent on the streets and sidewalks of Northville business district.

It's for one day only, however. That's during the retail merchants' annual "sidewalk sale", scheduled this year for Saturday, August 3.

Any businesses or organizations wishing to join the

day-long sale event may make arrangements for reserving space by calling Charles Parton at Lapham's,

Center street from Dunlap to Main and Main street from Center to Hutton will be blocked off so that business may be conducted on the streets "mall fashion", as well as on the sidewalks.

#### Livonia is nevertheless interested in its disposal study because an authority could bond more readily than can a city by itself. Livonia has completed an extensive engineering survey on their

refuse disposal requirements and further discussions with Livonia are pending the action that may be taken as a result of the latest committee

#### Downs to Entertain Area Chambers

Chambers of Commerces from area communities will be honored Wednesday night, July 31 at Northville

The local harness racing track will hold "Chamber of Commerce Night" and will provide free admission and box seats to all Chamber members

Chambers already signed up are Garden City, Westland and Wayne.

Northville Chamber members wishing to attend may make reservations by calling Dempsey Ebert at 349-1010.

Liquor License Bid Northville councilmen voted Monday night to reconsider an earlier decision denying the liquor license transfer from John Asimacopoulos to

Theordora T. Tomasovich. A second decision is expected to be made next week during a special meeting of the council. It involves the

sale of Northville Hotel & Bar. Attorney C. D. Hill, representing Mrs. Tomasovich, asked the council to reconsider, noting that his client seeks a business income for her family because her husband is losing his eyesight.

It was because of a gambling conviction against her husband that the council originally denied the transfer.

However, Hill emphasized that her husband will have no physical or financial connection with the business should Mrs. Tomasovich purchase it. Furthermore, Mrs. Tomasovich will agree to any restrictions by the council barring her husband from the premises,

Mrs. Tomasovich plans to remodel the building, located at 113 West Main Street, Hill said, including the redecoration of the exterior with an

Early American motiff.

In other business Monday, the council adopted an initiatory resolution which authorizes the city manager to draw up reports on the special assessment proposal for paving of North Center Street between south and north Ely Drives. Also, the council received cost estimates for asphalting of Baseline Road, between East Street and the city reservoir. These estimates, together with the total estimated cost of \$32,986 will be reviewed with the Northville School Board.

# New' Bradner Road Near Completion

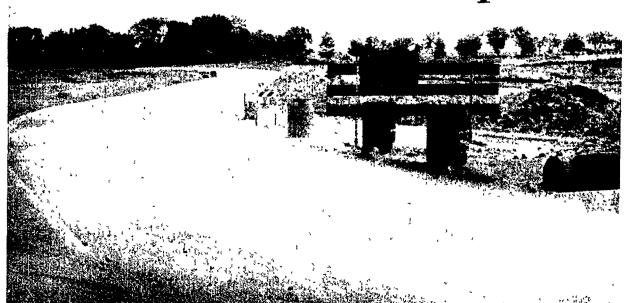

City to Reconsider

Unless weather interferes with the work of the Wayne County Road Commission, Bradner Road construction should be completed by the end of this week.

Following a period of "curing", the new 37-foot concrete roadway should be opened for traffic about August 1. Construction of Bradner, located between Six and Five Mile Roads, included rerouting of the road near the intersection at Six Mile.

The fact that traffic has been maintained throughout construction to provide access along the road has meant some slowdown of work, and problems with extreme washouts during recent heavy rains didn't help matters, according to a road commission spokesman.

However, these expenses do not affect the contract, and the schedule is still up to date, he said.

# Children Learn to Like Studies

The school cannot make the sunrise, but it can let in the sunlight."

This quote makes sense this summer as "sunshine" pours into a Northville school pilot study program. Through the program, funded by the federal government, 43 children are finding out that learning can be exciting and fun as well as valuable.

The project aims to meet the learning needs of elementary-aged students through an activity-oriented program. The children from OLV and the Northville public schools will be in session for six weeks, from June 24 to August 2, from 8 a.m. to 12 p.m. weekdays.

Purpose of the project is manifold, states Miss Florence Panattoni, curriculum coordinator.

the effects of perceptual training on the achievement level of language and verbal skills, improving the self concept of the pupil and motivating his creativity. Finally, the effect of the activity program on learning is being explored along with instructional techniques for the regular school year.

Success of the program, according to director Milton Jacobi, will depend upon the result of the training. If the children show an interest in their school work, the program will be considered a success, he says.

In 1966 the Northville schools conducted a similar diagnostic-type program with very satisfactory results. That session was so successful that many parents who had children enrolled requested that their children be included in this summers program. It was unique in that class size was held to a low of 11 to 14 students. This year's project is even better, Miss Panattoni says, because class size is limited to eight or nine children, a suggestion of the State Department of

The staff for this summer's enrichment program includes five classroom teachers from the Northville public schools. They are being supported by five college or, college-bound students. Classroom teachers include Miss Carol Arnold, Mrs. Jean Tuttle, Karen Herbst, James Hudson and Larry Krabill. Their assistants, all former students of Northville High School, were selected for their interest in children and education. They are Diane Rathert, Gloria Pacific, Bonney Bradford, Chris Kline, and Scott Bergo.

Directors of the pilot project are Milton Jacobi and Donald Van Ingen, principals of Moraine and Main Street Elementary schools.

Working with the instructors are Dr. Carolyn Pratt, psychologist; Betty Sellers, reading consultant, and Evelyn Zurner, secretary. A bus driver also is engaged to transport the children back and forth from various field trips.

What makes this action project different from year-around school

Teachers are really learning what children are like-how they can be motivated to achieve to their potential when what they do is meaningful to them, explained Jacobi. They are attempting; to develop different classroom skills through interest groups and perceptual training.

In the early morning children swim and have classes with their own age groups. They put their learning to work writing stories, a newspaper, making murais and telling jokes.

Then they are divided into groups interested in dramatics, slot car racing, cooking, sewing, and arts and crafts.

They have taken several field trips to the Ann Arbor museum, the Detroit Zoo and the Detroit Metropolitan

Parents too, are involved in the program. Working with them is Mrs. Dolores Prom, the parent volunteer. Prior to the opening of the program, parents met to hear the project plans. At this time they saw slides of the previous program and were given a chance to discuss any problems they might have concerning it.

An additional aspect to the program is that The Assist Center from the Wayne County Intermediate School District is providing professional assistance for teachers. Through their workshops, teachers learn about sensitivity training, communication skills, and evaluation and motivation for achievement. The center consultants who have been working with the teachers are Walt Schumacher, Robert Stafford, and Joe Summerville.

This summer Moraine Elementary School is an action center in the city of Northville. What's happening here illustrates that "a small child is the clearest symbol of humanity's hope".

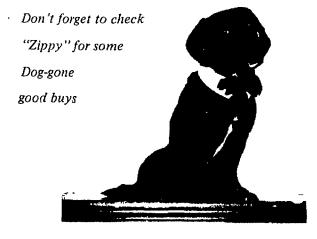

### Commissioners Reappointed

Six members of the Northville Planning Commission and the Board of Appeals were reappointed to three-year terms Monday night by the city council.

In addition, the council named N. C. Schrader III to the unexpired planning commission term of John Steimel, who is resigning. This term expires next July.

Reappointed to the commission were Charles, Freydl, Jr., Don Williams and Harvey Ritchie. Named again to the Board of Appeals were Sydney Frid, Ray Westfall and Douglas Slessor.

Appointments to the Northville Beautification Commission were delayed pending the return of some members from vacations.

### **She Studies** In Mexico

Linda Lemon, daughter of Mr. and Mrs. John Lemon, 102 South Rogers, is enrolled this summer at the University of the Americas located in Mexico City, the fifth largest metropolis in the

Because students at UA are not only from the United States but from more than 40 other countries, the school plays a distinctive role in intercultural and international education. Accredited by the Southern Association of Colleges and Schools. the University has a larger enrollment of American students than any other liberal arts school abroad.

Classes are taught in English by an internationally trained faculty but practically all students learn Spanish not only in the classroom but through their association with the people of Mexico. Most of them live in college-approved private Mexican homes and as a result become familiar with the customs and daily lives of their hosts.

Miss Lemon, a graduate of Northville High School, is regularly a student at Michigan State University.

In Mexico City Miss Lemon finds her intellectual perspective widened by her venture into an environment in which 'glass-walled skyscrapers stand within a few miles of ancient pyramids. Whether attending the folklore ballet or the bullfight, visiting Aztec remains or art exhibits, listening to mariachi music or symphony concerts, students find that the capital of Mexico offers a myriad of activities.

### **Newcomers Eye** Sunday Outing

The Newcomers Club has planned a whole day of festivities Sunday starting about 6 a.m.

At a pre-arranged time the men will be meeting for a morning of golf at the El Dorado Golf Course. Later that afternoon members will meet for a family picnic at the home of Mr. and Mrs Tomas Handy of 40123 Stonleigh Road. The picnic will start about 3 and members and families are reminded to bring their own packed picnic lunch.

NEARLY COMPLETED—Northville's new swimming pool and diving tank (foreground) is nearly completed and officials are preparing plans for its use this fall by students and the public.

## Don't Believe Pool Rumors

Continued from Page One

The lane shortage rumor, they explained, results because a six-lane pool permits simultaneous racing in triangular meets. With five lanes such events are run in heats.

"We can still have triangular meets-just like we had in Ohio-and we can even hold invitational meets involving several schools. We won't have state meets because they just aren't held at local schools but at East Lansing."

Lauber said about 90-percent of all competitive swimming in Michigan schools involves dual meets.

According to Longridge, a good deal of thought went into the decision for the five-lane pool. "We had a limited amount of money to work with. So we asked ourselves, 'What's' the main purpose of the pool?' The

answer, of course, is instruction-not competition, so the cost of the additional (sixth) lane was not considered necessary.

The length of the pool is not short, they declared. It is regulation size, meeting all competitive requirements.

"It's going to be the most-used facility in the community-maybe not right away, but very soon. It will be open day and night, seven days a week, all year long," said Longridge.

Lauber, who is in the process of drawing up schedules for the school's use and purchasing of equipment (such as a canoe), sees these uses:

Physical education classes for boys and girls in junior and senior high school during regular school hours; classes for fifth and sixth grade students on Saturday without any fees charged; evenings, Saturday and Sundaÿ openings for local groups,

### Six Boy Scouts Return From Fun Filled Camp

Six boys from Scout Troop 731 sponsored by the First Methodist Church recently returned from two weeks at Charles Howell Scout Reservation near Brighton.

The boys were offered an opportunity to acquire all the outdoor merit badges and the advancement requirements up to the first class

Those who attended along with their achievements are:

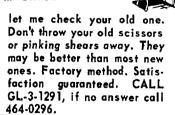

Star Scout Steve Hazlett, five merit badges; First Class Scout Bryan Hartshorne, six merit badges; First Class Scout Brian Nieber, four merit badges; Second Class Scout Kevin Hartshorne, two merit badges and seven advancement requirements.

Second Class Doug Ritchie acquired his first class rating by obtaining his last three advancement requirements.

Second Class Scout Bob Blumhof received three advancements and one merit badge.

The camp is divided into several units, each given famous frontier names

He plans instructions in all kind of water safety-including entering and leaving canoes. There will be classes, open to the public, in beginning and advanced swimming and life-saving, boating, etc. Already several inquiries have been made by qualified swimming instructors living in Northville who want to teach classes at night, he said.

Although the emphasis will be on instruction and recreational swimming, competitive swimming also will play a role. At the outset, explained Lauber, competition will be limited because not all schools have pools. Initially, competition will not be on a league

Average race, he said, will be four lengths of the pool (100 yards). In competitive swimming, four strokes are used: crawl or free style, breast, butterfly, and backcrawl. Races are from 50 yards (two lengths) to 400 yards (16 lengths). Competition includes two relays as well: medlay and free style. In diving, competitors must learn six different dives

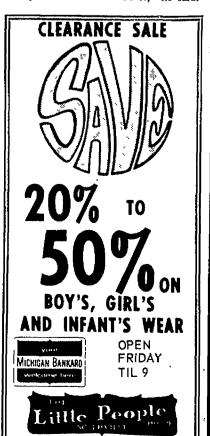

"Don't expect Northville to start winning every meet it enters, either," cautioned Longridge. "It will take time just like wrestling did."

The natatorium includes offices, locker rooms, towel room, underwater lights, underwater and above water speaker system, two below water windows, seating capacity of 250, and diving spotlights.

Besides Lauber, who comes to Northville from Mount Clemens, the swimming curriculum will include a girls' instructor-Karen Turner. She is a 1968 graduate of Eastern Michigan University, who has spent several years as a swimming instructor at summer camps.

Lauber was graduated from Bowling Green State University in 1960 and then served as assistant director of a YMCA in Canton, Ohio. He spent five years at North Robinson, Ohio, building a program with the opening of a new pool in that community.

"It was a five-lane pool, too, just like yours...and we loved it," he said.

# **Buy Bonds** where you work.

They do.

Why do our servicemen buy U.S. Savings Bonds? Their reasons are the same as yours and mine: saving for the future, supporting freedom. And because they're fighting for freedom, too, maybe servicemen see the need more clearly than many of us. Buy Bonds. In more than one way, it makes you feel good.

#### NOW—Higher Rates!

Savings Bonds now pay 4.25% when held to maturity—and Freedom Shares (sold in combination with E Bonds) pay a full 5%. The extra interest will be added as a bonus at maturity.

And now you can buy the Bond/ Freedom Share combination any time - no monthly commitment necessary. Get the facts where you work or bank.

ROUND TRIPPER-With two down and two on the top of the second, Dave Brown smashed the ball over the centerfield fence for the Rexall Rangers. Here Dave rounds third on his way home to the outstretched hands of teammates.

### All Star Tilt Set for Tuesday

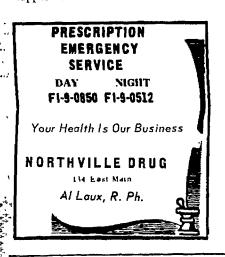

Novi will host the District 4 Little League Tournament game Tuesday evening, Publicist Jackie Colton revealed this week.

The game will get underway at 6 p.m. on the Novi School diamond.

Squaring off against Novi's top players will be the Birmingham Nationals. Fourteen Novi players, representing the Eight Novi Little League teams, will carry the community's winning colors into the

Co-managers of the local all-stars are Ed Butler and Pat Alexander.

Fans are urged to turn out to support the home team.

Novi Party Store swept two straight games-but not easily-to win the Novi Little League "World Series" Wednesday and Thursday.

Representing the Red Division, Party Store nicked the Rexall Rangers, 10-9, in their first game-an extra contest, and came back the following evening to down the Rangers, representing the Blue Division, 12-6.

With the score knotted at 9-all going into the seventh inning of the first game (one beyond regulation), Party Store's Larry Taylor and Mike Collins came up with back-to-back singles to push across the winning run.

Collins, who took the mound in the seventh after Taylor had pitched the first six innings, was credited with the victory. Dave and Eddie Brown shared the pitching chores for Rexall.

Actually, through the first two innings it appeared as though the Rangers would run away with the game. They scored six runs on five hits in those two stanzas, while Dave Brown was holding Party Store hitless.

In the third, however, Party Store picked up two runs and the Rangers one. In the fourth, Party Store pushed across four more runs, and then added three more in the fifth to take the lead, 9-8. Rexall scored the tying run in the

Collins, credited with the win, aided his team's cause by collecting four hits in five trips to the plate-including that game winning single in the seventh.

But the big blow of the game was turned in by Dave Brown, who blasted a homer over the centerfield fence in the second inning, scoring three runs.

Behind 2-0 in the second, Party Store came back with four runs to take the lead-an edge it retained throughout the remainder of the game. Rexall narrowed the gap in the third, scoring two runs on two hits, while Party Store pushed across a single run on three hits. Thus, going into the fourth, the score was 5-4.

### As Season Nears End

## Downs Slates 'Richest' Race

With one full week of racing remaining of its 54 night meeting, which ends on Wednesday, July 31, Northville Downs will present its richest event of the season on Wednesday, July 24 in the 14th renewal of the ancient Michigan Pacing

The Derby attracted a list of 39 nominees and Racing Secretary Harry Peterson is anticipating an entry of 20 or more which will boost the total value to an estimated \$25,000.

That would make it the richest event ever sponsored by the 'Downs and the huge entry could force Peterson to split the stake into as many as three divisions. The champion would be the horse with the fastest clocking in any one of the heats.

Included in the nominations is Careless Time, a four-year-old owned by Mrs. Beatrice Tomcic of Grosse Pointe, who was a recent winner in

2.01.1 at Sportsman's Park in Chicago. That clocking is good enough to make the Detroit-owned pacer one of

the early favorites. Others, who are expected to start include: Baird's Adios, Brady Adios, Frostie Creed, Idona's Faith, Greenleaf

Douglas, Jeremiah Hanover, J. M. Volo, Rainmaker, Royallen, Rusty C.

With a bottle of bufferin in one hand and a cup of coffee in the other Tommy Winn sat on his go-cart at the paddock ramp at Northville Downs.

Tommy, 62 and still mighty active in the harness business, was waiting to take True Valley, his eight-year-old trotter, out for a warm-up. "This horse isn't going too well

this summer, not like a year ago," Winn

said with a wink. "Yet I'd be the last to complain. "He's not as sound as he could be. I bought him four years ago for \$1,750

# Rams Wrap up 2 More

The VFW Rams wrapped up two wins this week in the Knothole Softball League to remain in first place.

In the battle against the Tigers, all 12 Rams had hits - and their runs totaled 15 to the Tigers' 2, as they completely outclassed their opponents.

Don Dale had three singles, Dave Heckerl, two doubles. Kurt Mack, Rick Marrone, Tom Male, Paul Knapp and Bobby Heckerl all had two hits in the Rams' 21-hit attack. The Tigers managed only two runs off Dave Heckerl; one of those was on a bad hop

Captain Dave Heckerl led his team to the first double-header victory of the league's history with the win from the Colts, 15-0.

Don Dales set down the first nine men he faced, and Kurt Stevens finished the rest as the Rams allowed only one base runner the entire game. Stevens added two doubles, and Mack and Dave Heckerl had two hits.

In other action it was Tigers 8, Lions 3 when Doug Marzoni batted in three runs, had two doubles, and pitched the Tigers to their third straight victory. Eric Horner looked

good in the field for the losing Lions. Cougars won 13-0 over the Cubs as the second-place squad ripped the Cubs, who only had one hit.

It was Colts 7, Pumas 6, with the Pumas leading all the way on the fine pitching of Gary Creekmore and some sloppy fielding by the Colts. Leslie Elody scored the winning run and pushed two across in front of him as he singled and rounded all the sacks on a three-base error. Greg Suckow picked up two hits for the winners.

An eight-run second inning couldn't stop the Lions from beating the Panthers 10-8. The Lions scored in every inning with Marty Wikarysz, John Alspaug and Eric Pursell collecting two hits, and Doug Castillo scoring twice and tripling in 2 runs. After the disasterous second, Duane Reeves was in control on the mound.

# 2 Top Baseballers Clash This Week

John Mach Ford Yankees and the VFW Giants, tied for first place in the Knothole Hardball League, will clash this week.

The Giants cut the Astros down in a 17-8 victory last week. The Giants scored in every inning. Marvin Carver led his team with a grand slam home run and a double. Ed Hosbach, Dave Shronce and Greg Pelto all had two hits for the victors. Astro Captain Gary Eaker and Ed Pawlowski both had singles. Eaker scored three Astro runs.

In other play, the Angels took the Giants 13-7. A 6-3 Giant lead was not enough as the Angels overpowered their opponents with the bat and with their superior attitude and determination to win. Pitcher Kevin Herter won his own game when he tripled to the fence with the bases loaded to put the Angels ahead 8-7. Then the Giants collapsed and the Angels scored five more solely on errors.

It was Twins 6, Dodgers 5, in the battle of teams low in the standings.

Down 5-3 heading into the last inning, Denis Reeves singled to score one; a walk with the bases loaded forced in the tying run and Reeves scored the winning run when the Dodgers tried in vain to cut him down at the plate on an infield hat.

When the Giants won 11-4 over the Dodgers, Jeff Murray scored three times and Steve Heintz batted in four runs to give pitcher Steve Lovett all the support he needed for the Giants' second victory of the year.

The Angels won over the Twins 3-0 when control problems lost another game for the Twins. The Angels scored twice in the third and once in the fourth without the aid of a hit, and the Twins fell again.

In a 10-6 win over the Indians, the Yankees kept pace with the VFW Giants, preparing for their match this week. Pitcher Jim Curl got by a little control trouble in the second and added two extra base hits to sew it up for the Yankees.

# Oakland Road Commission Seeks Tax

Like the weather, everyone talks about Oakland County roads,-but nobody does anything about them.

The County Road Commission would like to.

On the August 6 ballot a proposal

will appear asking for a one mill county wide tax increase that would go direct to the road commission for improvement of county roads.

"These roads that were built 20 to 40 years ago can't stand up under

today's traffic," Frazer Staman, chairman of the commission said, "If people want them improved, there's no other way except to pay for it."

Criticism of the increase has plagued the road commission-

# Citizens Group Outlines Needs For County Roads

An Oakland County Road Commission study that members of a Citizens for Adequate Roads (CAR) Committee has distributed shows the minimum primary road improvements that should be made in this area over the next 10 years-providing funds are

Passage of the millage would mean that the road commission would sit with governing boards in each area of the county and help them determine which of the needed improvements are most vital, and, therefore, should be taken care of insofar as possible during

the five years covered by the tax proposal.

In Northville, those streets that need improvement and are located in the Oakland County Road Commission jurisdiction, either solely or in conjunction with other government units, would cost an estimated

Northville and Novi have endorsed the road commission proposal to raise one mill for county road use on the August 6 ballot. Wixom is to vote on the resolution next Tuesday.

The survey shows that Novi Road from Eight Mile to the north city limit, .83 mile, should be widened to four lanes with concrete pavement, open ditch drainage, and the bridge should be widened, at an estimated cost of \$291,000.

One mile of Eight Mile from Deck to Taft should be resurfaced with bituminous concrete at an estimated cost of \$28,000. Eight Mile from Center to Novi for .32 mile should be widened to four lanes with concrete pavement, with five lanes at Center, at some \$215,000 cost.

For .25 mile of Beck Road from Eight Mile to north city limits, the road should be graded and have 24 feet of concrete pavement at approximately

There are 9.26 miles in Wixom, estimated to cost \$1,629,000 for repair; in Walled Lake 7.18 miles would cost \$1,894,000. The greatest number of miles needing improvement are 28.81 in Novi Village, where the cost would be about \$5,350,000, according to the survey.

Novi's repairs should include the reconstruction of Ten Mile from Novi to Haggerty to four lanes of concrete; widening Novi from the Northville limit to Grand River to four lanes of concrete; grading and providing 24 feet of concrete on Beck from Eight Mile to Grand River, on Novi from the south right of way line on I-96 to Twelve-and-a-half 'Mile; and grading and providing 24 feet of bituminous pavement on West from the Wixom East Limit to Pontiac Trail, on Napier from Eight mile to Twelve Mile, and on Haggerty from Eight Mile to Twelve Mile. Also, there is need to provide a bituminous cap on Grand River from Twelve Mile to Haggerty, and on TwelveMile from the Wixom E.Limit to

Further provision for 24 feet of bituminous pavement is needed on Ten Mile after rebuilding the existing base, widening Pontiac Trail to four lanes of aggregate base with concrete curb and bituminous surface from the West Limit of Walled Lake to West, and conversion of Fourteen Mile from Walled Lake Drive to Decker to a 24-foot bituminous pavement.

Among the needs in Wixom is the conversion of Wixom from Pontiac Trail to .6 miles south of Pontiac Trail to a five lane concrete pavement with open drainage; widening the median of Wixom from .9 miles south of Pontiac Trail to I-96 by adding one lane along the outside of each pavement, and providing curbed left turn lanes in the

There is further need to widen Wixom, and Pontiac Trail and to reconstruct Beck from Twelve Mile to West to a two lane concrete pavement in addition to a great many other improvements.

In the Walled Lake area, improvements include conversion of South Commerce from Pontiac Trail to East City Limit to two lanes of concrete, five lanes at Decker and Pontiac Trail, with muck excavation at the Lake. The survey showed need for five lane concrete from Pontiac Trail to East City Limit, conversion of Decker to two-lane concrete from Fourteen Mile to Maple with four lanes at Fourteen and Maple.

A great deal of resurfacing, plus such reconstruction as Pontiac Trail from Maple to South Commerce to four lanes of concrete-and much more resurfacing and conversion are shown in the study as being essential within the next 10 years.

particularly from cities that think they won't benefit because they don't have county roads, or because the increase isn't meant to repair roads that may have been platted but have never been built, such as in subdivisions.

Staman offers some consolation to these cities: "Every city except Pontiac does have a county road," he said, "and every driver uses county roads, whether or not they go through his city. If he had to pay a toll charge to drive on one, he would realize this.'

In order to further appease city governments, Staman said their commission (which will sit on all boards and help decide how the funds collected from that particular community will be used) agrees that up to 50 percent of the monies collected in the vicinity may be used for its subdivision roads IF the governing body believes this is where the greatest

Opposition to the millage also has come from members of the Board of Supervisors who dislike the idea of money going directly to the road commission rather than being channeled through its board. Some citizens groups, however, who question the wisdom of the board of supervisors spending policy, see this special millage as a way of making sure sufficient money is applied to county roads.

The one mill increase would net about \$3½ million a year, and is set up for a five-year period.

"We all kick in to pay for welfare throughout the county whether or not we need welfare funds in our own little locality-the same should be true for county roads," Staman pointed out.

He explained that money from the state, collected in gasoline taxes and license fees, is divided among townships, cities and counties for road improvement in such a way that the average motorist actually pays only about \$7 a year for upkeep of county roads. "He pays more than this-probably \$36 a year-to have his garbage removed," Staman said, "Why should he feel roads are less important?"

The Road Commission is limited in where it can get funds. Those from the state obviously are not sufficient to keep up county roads. "In 31 other counties the Board of Supervisors has supported a county road program. In Oakland County it has not," Staman said. "No program is perfect, but if the people want roads and improvements, this one mill tax increase is a way they can pay for them."

The alternative, of course, is continuing depreciation of county roads. No miracle can be expected to bridge the gap.

Organizations or municipal governments in Oakland County which would like to learn more about the proposed road millage, Staman said, may call the commission. The commission, he said, has established a speakers' bureau to explain it and the questions that may arise from it. Staman is the former supervisor of Novi Township, presently living in

# Two County Issues Face Wayne Vote

Two county-wide issues of vital importance will be before the voters of Wayne County in the August 6 primary

On the ballot will be County Proposition No. 1 and, for the first time in history, nomination of candidates for the County Board of Supervisors, legislative body of county government.

County Proposition No. 1 would continue for another five years a one-mill (\$1 per \$1,000 of equalized value) property levy which was adopted by the voters in 1964 to help finance county operations.

Approval of County Proposition No. 1 is described by county officials as "essential" to avoid drastic public service cutbacks which would endanger the health, safety and well-being of every person in the county.

The one-mill is costing the average homeowner only about 50 cents a For the first time in history, the voters will ballot directly on candidates

for the County Board of Supervisors, legislative body of county government. Two nominees will be selected on a partisan basis from each of 26 districts. The run-off election will be on the ballot for the Nov. 5 general

A field of 369 is seeking nomination to the supervisors posts. The 26-member board is scheduled to replace the present indirectly-chosen, 135-member Board of Supervisors on Jan. 1. The revamping of county boards throughout Michigan was

### Fire Damages Sauna Bath

Northville firemen investigated an incident that caused only minor damage Sunday afternoon at the home of Dean Bush, 315 Debra Lane.

The sauna bath became overheated, caught fire, and the department was called. Assistant Chief Louis Westfall investigated, although the fire which occurred about 3:30 p.m. was nearly under control by the time firemen were called.

Another cause of fatalities among youth has been brought to the police department's attention by the Chemical Special Manufacturers Association: glass chillers.

The aerosol glass chillers, along with other aerosol products, when inhaled by students have proved fatal in enough cases to cause alarm to the industry. Police have been asked to bring attention to the hazards of inhaling these products.

### **Cavern Fights** Exaggerated Says Chief

Police Chief Samuel Elkins feels that rumors concerning fights at the Cavern, a local teen-age recreation spot, have been exaggerated.

"We've had none of the destruction here that other teen-age spots seem to have," Chief Elkins said, "a few fights from time to time that haven't been serious enough to involve our department, but on the whole the Cavern is well-run."

The Cavern is operated by the Mothers' Club which would have jurisdiction over whether out-of-town youth would be barred from coming here, if such a regulation seemed necessary, he said, "unless it became serious enough that we felt it was necessary for us to interfere."

About three weeks ago, the chief said, there appeared to be a "potential problem" but it didn't materialize and to the best of his knowledge, no problem exists at the moment.

Mrs. Gordon Forrer told the Record that "we have had no problems that I know of; no outsiders have been barred from the Cavern, and it has been many months since I can recall any fight at all here."

She added that in her opinion one of the reasons for the orderly conduct at the Cavern is "excellent police co-operation" which apparently deters the problem before it starts.

According to a published report, the Plymouth recreation department has banned outsiders from its teen dances "because of gang fights involving Plymouth-Northville teens."

### Cop Catches Dope Digger

Northville Patrolman Robert Pankow became justifiably suspicious Wednesday afternoon when he found a youth about to plant some seeds in a vacant lot at the edge of town.

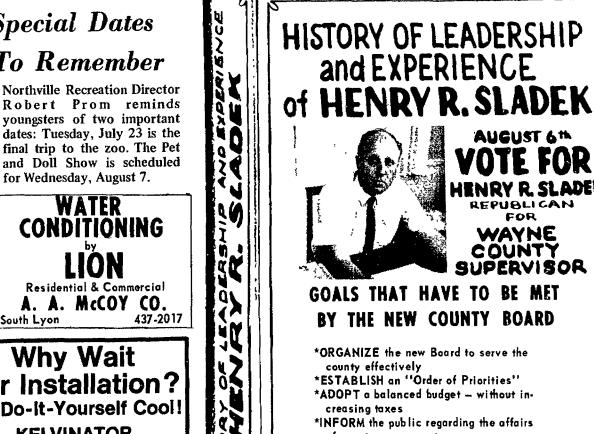

The seeds, as it turned out, were marijuana. In his other hand, the 18-year-old carried a container of Rapid-Gro.

John Henry Martin of 19000 Bentler, Detroit, stood mute on a charge of violation of the narcotics law, being in possession of marijuana and marijuana seeds, when he appeared for arraignment that evening. Plymouth Judge Dunbar Davis, acting on behalf of vacationing Judge Philip Ogilvie, entered a plea of innocent and set examination of Martin for July 29. He was released to his attorney on \$100 personal recognizance.

The seeds Martin carried in a plastic bag were familiar to the officer because Police Chief Samuel Elkins, formerly in charge of a narcotics squad, had shown marijuana seeds to his patrolmen previously. No seeds had actually been sown by Martin in the Griswold Street lot before his arrest. Elkins said.

## Here's A Pleasant Way to Relax

One of the most relaxing ways to while away a summer evening is to plunk yourself down in the Northville City Hall Park and listen to the fine music of the high school band. That's what area residents are

doing here as the band presents its second concert of the summer. Another concert was scheduled this Wednesday evening, and still another will take place on Wednesday, July

24 at 7.30 p.m. at the high school. Last week, the musical presentation included an added treat as the Mothers' Club sponsored an ice cream social.

#### Peace That Passeth Understanding

The human race is seeking peace in just about every era of human relationship. Individuals seek peace through psychiatry, vacations, retirement, religion and the pleasures of life; but with all their seeking, deep within the soul of man there remains unrest.

Many couples who hoped to find peace in the hands of matrinony have found only heartache. They now seek peace in

the arms of a new love, or the divorce court, still others seek peace in suicide.

Racial groups are seeking peace by varied means ranging from peaceful demonstrations to the burning of cities. Labor and management seek peace through collective bargaining but seldom is there any lasting peace achieved.

Nations make attempts to be at peace one with another, with little or no success, as evidenced in the current Paris peace talks.

The religions of the world sense within the soul of man this deep unrest and attempt to make peace with a person or power they consider to be God. The means employed are manifold and varied and avail them no peace.

God says, "But the wicked are like the troubled sea, when it cannot rest, whose waters cast up mire and dirt. There is no peace, saith my God, to the wicked." Isa. 57:20,21.

To refuse to give God His rightful place in ones life is wickedness and God says, for the wicked there is "no peace".

God the Father has given, "His only begotten Son that whosoever believeth in Him should not perish but have everlasting life." When a person sees himself as wicked, undone without peace in this life nor hope for the next, then turns to the Lord Jesus Christ as his Saviour that person receives peace. , ,

This is not a religious concoction but a Christian fact stated by the Lord Jesus Christ; "Peace I leave with you, my peace

I give unto you: not as the world giveth, give I unto you. Let not your heart be troubled, neither let it be afraid." John 14:27. This is the peace that "passeth understanding", it is deep and lasting and acquired by turning to

God, "Phil. 6-7".

So then if you are seeking peace that will keep your soul stable and your mind sane, commit yourself completely to the Lord Jesus Christ.

# With all the theological ferment these days there that they are subject to numerous temptations and in-

is more unrest in our churches than we have known in many years. Issues divide the congregations and sometimes the whole debate seems endless. It would be easier to stay home in bed on Sunday mornings. But through it all, the houses of God stand, because regular churchgoers know that men are inconstant,

fluences. They also know that God is omnipotent, is omniscient. His care is constant. His creative spirit continually sustains the earth, and His love is always sensitive to the plight of man. It is not easy to be a Christian; it never was. Houses

of God stand because there are those who are willing to be channels of God's care—who assume responsibility for church schools, missions, social justice, and—oh yes —that roof. Copyright 1968 Keister Advertising Service, Inc., Straiburg, Va

Minutes of the Regular Meeting.

June 11, 1968 In the absence of President Eugene Cook, the meeting was called to order by Vice President Stanley Johnston at 7:35 P.M. in the Board of Education 7: 7:35 P.M. In the Board of Treet, Northville, Michigan.

Members Present: Mr. Stanley Johnston, Vice President; Mr. Glenn E. Diebert, Secretary; Mr. Richard Martin, Treasurer; Mr. James Kipfer, Trustee; Mr. Andrew Orphan, Trustee; Mr. Raymond Spear, Superintendent; Mr. Earl Busard, Business Manager.

Absent: Mr. Eugene Cook, President; Mr. Robert Froelich, Trustee.

Administrators Present: Miss F. Panattoni, Mr. D. Van Ingen.

Visitors Present: Dr. Orlo J. Robinson, Member-Elect to the Board of Education; Miss L. Edgerton; Mr. Art Adams; Mr. John Searles; Mr. Roy Russell of Thompson-Brown Co.

Vice President Johnston declared that a quorum was present and directed the Board to proceed with the regular order of business.

Superintendent Spear requested that four items be added to the agenda: 1) Letter from City of Northville, agenda item 5e, under Communications.

2) Six additional new teacher contracts for approval, agenda item 7a. under Certified Personnel.

3) Approval of contract for Amerman School Principal.

Letter from Mrs. Madeleine Stillson, High School teacher presently on leave of absence, indicating ; intention to resign for health reasons at the expiration of her leave of absence, July 1, 1968.

Letter from City of Northville announcing a Public Hearing to be conducted at the City Hall, 215 West Main Street, on Monday, June 17, 1968, 8:00 P.M., for the purpose of hearing any person affected by the proposed improvement of Taft Road.

In reviewing SEMCOG Chairman William Mainland's letter of request for committee membership choices of the Northville School Board, to participate in assisting SEMCOG in areas of proposed Council involvement, the following Board members indicated willingness to serve in the areas designated: Mr. Deibert-Public Safety Coordination; Mr. Johnston-Housing trends and Needs Study; Mr. Diebert-Solid Waste Disposal Activity Coordination.

Consideration by the Board of contracts for 11 new teachers resulted in lengthy discussion as to the advisability of filling certain teaching stations not considered replacements, in light of the millage defeat in the June 10, 1968 Annual School Election.

Motion No. 68-235 by Mr. Kipfer, supported by Mr. Martin, that contracts be approved for 11 new teachers as recommended by the Superintendent. Motion defeated.

Following defeat of Motion No. 68-235, discussion continued as to the wisdom of postponing hiring of a girls' swimming instructor in anticipation of a cutback in operational expenditures as a result of defeat of the Board's request for a 2-mill increase in operational millage.

Secretary Diebert expressed personal conviction that the millage defeat of June 10, 1968 represented a mandate of the electorate. Mr. Diebert recommended consideration of any areas that could be abandoned or pared budget-wise, in order to operate within "the "mandate" of the School District voters. Mr. Diebert focused opposition on the position of girls' swimming instructor, although Vice President Johnston and Business Manager Busard pointed out that certain non-academic areas, such as student cafeteria services and student bus transportation, are not compulsory and should be considered in any budget adjustments in the event a 2-mill increase in school taxes is

denied in a special election which could be held in July.

was suggested that the swimming position be considered separately from the other 10 teaching contracts submitted for approval, and action thereon postponed until later in the meeting.

Motion No. 68-236 by Mr. Martin, supported by Mr. Diebert, that the following new teachers' contracts be approved for the 1968-69 school year: Miss Nancy Krupp-English; Mr. Robert Heldt-Shop; Mrs. Linda Van Dyke-Art; Mrs. Jacalyn Byerly-Elementary; Mr. David Schopp-Jr. High Science; Miss Bette Kolbe-Elementary Music; Mrs. Carol Martin-Elementary; Miss Joann Brookmeyer-French; Mrs. Carolyn Sunderman-Elementary Music; Mrs. Betty Ferry-Speech Correctionist; Motion carried.

Motion No. 68-237 by Mr. Orphan, supported by Mr. Kipfer, that Miss Bonnie Rorabacher, Mr. Jeffrey Lightfoot, and Mr. James Honey be appointed as Elementary Intern Teachers with the Northville Public Schools School District for the 1968-69 school year. Motion carried.

Superintendent Spear briefly reviewed the Intern Program in response to Board inquiries as to the function of this program.

At this point in the agenda, Vice President Johnston directed the Board's attention to item 17 on the agenda and the presence of Mr. Roy Russell of Thompson-Brown company for the purpose of reviewing location and conditions of the school site to be donated to the Northville School District.

Mr. Russell pointed out Thompson-Brown's proposal to deed approximately 8 acres to the Board of Education together with an easement over 5 acres for playground uses, constituting a 13-acre parcel to include a school site near the southerly boundary of their Northville Commons development, with access from the proposed Winchester Drive near the easterly boundary of the parcel and access from a proposed street in the Greenspan development on the southerly boundary of the parcel. Mr. Russell indicated provisions for a 60-foot access to the site from a public road, with sewer, water and paving of road to front of access line to be paid

for by Thompson-Brown.

Reservations on the easement area cited by Mr. Russell included restrictions on playground equipment and limitation to passive rather than active play (no ball fields). It was emphasized that since there are residential lots abutting the school site and because the green (easement) area is maintainted and controlled by the subdivision homeowners association, playground equipment and activities would be subject to approval by the subdivision association. A board of directors, composed of residents of this subdivision, has vote control over maintenance, as to what is done and built on the easement, and the right to specify uses to public school children. The association pays the taxes and

Mr. Russell indicated there would be no restrictions on the deed other than the right to consult and work with school architects to express Thompson - Brown's feelings and desires as regards the ultimate location of the building constructed on the site.

maintains.

Superintendent Spear recommended that the Administration be authorized to draft an agreement with Thompson-Brown for the 8-acre site discussed by Mr. Russell, as well as initiate steps to relinquish the option on the original 10-acre Bradner Road site, for presentation to the Board for approval.

Motion No. 68-238 by Mr. Martin, supported by Mr. Kipfer, that the Administration be authorized to proceed with the establishment of an agreement between Thompson-Brown Company and the Northville Public Schools School District in accord with the guidelines as hereby established as regards the deeding of eight (8) acres to the District, and the easement of five (5) additional acres adjacent to the 8-acre school site. Motion carried.

Motion No. 68-239 by Mr. Kipfer, supported by Mr. Martin, that the appointment of Mr. Robert Kucher as Athletic Director for the 1968-69 school year be approved. Motion carried.

Motion No. 68-240 by Mr. Martin, supported by Mr. Deibert, that appropriate resolutions be adopted for Mr. Edward Mollema, Mr. Charles Yahne, Mr. Harry Smith and Mr. Frank Cochran in recognition of their many years of devoted service to the Northville Public Schools School District. Motion carried. (Appendices I, II, III, IV to these Minutes)

Resignations received from teaching personnel since May 13, 1968 were noted for the following: Mrs. C. Godwin; Miss S. Decker; Mrs. A. Osborn; Mr. W. C. White; Miss P. Hinkel; Mrs. D. Chapin.

A dedicatory plaque for the High School swimming pool was briefly reviewed by the Board and found to be acceptable. The Board directed Superintendent Spear to instruct the Architect to proceed with construction of such a plaque as approved by the Board of Education.

Motion No. 68-241 by Mr. Martin, supported by Mr. Orphan, that the School Calendar for the 1968-69 school year be adopted as presented. Motion carried. (Appendix V to these Minutes)

Motion No. 68-242 by Mr. Orphan, supported by Mr. Martin, that the Administration be authorized to provide facilities, buses, etc., in accordance with the request of the Northville Recreation Department fo. the 1968 summer program. The utilization of school facilities and equipment is to be in accord with the same terms and agreements as have prevailed in previous years. Motion

On behalf of the Administration. Superintendent Spear requested that additional time be granted to complete an analysis of the Building and Site Fund, and that such a report, when completed, be referred to committee prior to presentation to the Board. Request granted.

Motion No. 68-243 by Mr. Kipfer, supported by Mr. Orphan, that twenty-five (25) secretarial/clerical positions be authorized for the school year 1968-69, and that a budget allocation not to exceed \$84,529.00 be approved. Motion carried.

Motion No. 68-244'by Mr. Kipfer. supported by Mr. Orphan, that the bid for furnishing milk to the Northville Public Schools School District for the period July 1, 1968 thru June 30, 1969 be awarded to Ira Wilson & Sons Dairy Company in the amount of .053 cents per ½ pint (white) and .059 cents per ½ pint (chocolate) and including the supplying of sanitary straws and coolers at no additional cost. Motion carried.

Votes were as follows: Two-mill operational millage increase: Yes-470; No-484; Millage defeated.

Reclassification of District from Fourth Class to Third Class District: Yes-467; No-392; District reclassified.

Board Members for four-year terms: Cook-413; Deisley-102; Holloman-102; Rinaldi-205; Robinson-504; Searles-251; Stenger-187; Dr. Robinson and Mr. Cook won four-year terms on the Board of Education.

Motion No. 68-248 by Mr. Martin, supported by Mr. Kipfer, that Bill Warrants and Payroll be approved as presented: General Fund \$663,509.43

In presenting the Budget Report for May 1968, Business Manager Busard pointed out the Administration's expectation of ending the fiscal year with a plus figure, indicating that expenditures had been in line with

anticipated revenue collections. The Budget Report for May 1968 indicated the following: 84.24 percent of total allocation expended; 99.20 percent of total allocation expended or encumbered; 0.80 percent of total allocation unemcumbered; 94.92 percent of unexpended balance encumbered; 5.08 percent of unexpended balance unemcumbered.

Superintendent Spear outlined the procedures followed for selection of candidates for the Amerman School Principalship, indicating that four finalists were interviewed a second time, with Mr. William Craft of Livonia, Michigan, the recommended choice to fill the position.

Motion No. 68-249 by Mr. Kipfer, supported by Mr. Martin, that Mr. William Craft be appointed to the position of Principal of the Amerman Elementary School effective July 1, 1968, and that he be issued a one-year contract covering the period July 1, 1968 thru June 30, 1969, with placement on Step 3 of the Elementary Principals' Salary Schedule. Motion carried.

Superintendent Spear directed Board attention to the impact the loss of the requested two mills would have on the District's fine educational program. Mr. Spear expressed belief that the Board would not accept a decision concerning 2750 students based on a voting action of only 484 of the District's 4700 eligible voters, thus he would recommend that a resolution calling for a Special Election on July 29, 1968 be approved. It was suggested that a new approach be established to reach the voters, taxpayers, and parents of our children to assure their presence at the polls on the 29th if such a resolution is adopted. It was noted that although two Board members were absent, immediate action to adopt such

a resolution would insure initiation of proper legal procedure for calling the election in time to get the assessment on the tax rolls should a favorable vote result.

Motion No. 68-250 by Mr. Martin, supported by Mr. Orphan, that a resolution calling for a Special Election on Monday, July 29, 1968 be adopted. Motion carried. (Appendix VI to these Minutes)

Superintendent Spear requested further consideration be given to approval of a contract for a girls' swimming instructor for the 1968-69

Although Mr. Diebert maintained his opposition to this teaching position, based on the millage defeat, other Board members and Administrators present offered varying considerations:

-If this qualified person were hired and the budget did not justify the new position established, some reassignment of present personnel to existing vacancies could move the swimming instructor into the physical education program.

-Capital outlay for the pool is too great to warrant immobilization of the program for lack of one instructor.

-Operate swimming program on a fee basis to amortize operational costs. -Evaluate other areas to be cut before cutting back swimming

-Of 14 existing vacancies to date, 6 will be considered on a contingency basis pending outcome of July 19, 1968 Special Election.

-Not practical to forestall teacher considerations to provide board flexibility to cut costs if two mills not passed; difficult to obtain best qualified teachers later on.

Motion No. 68-251 by Mr. Orphan, supported by Mr. Kipfer, that a contract be approved for Miss Karen Turner, to be considered as a replacement teacher until such time as the Board of Education authorizes an expansion of staff beyond 15 percent of the 1967 budget allocation in the area of instruction, Ayes: Mr. Kipfer, Mr. Martin, Mr. Orphan, Mr. Johnston; Nay: Mr. Diebert. Motion carried.

Mr. Martin and Mr. Johnston commented on enthusiastic reports received relative to the Senior Class party held after Commencement exercises on June 10, 1968. Mr. Martin requested that appropriate acknowledgment on behalf of the Board of Education be sent to persons involved in the success of this activity.

Mr. Kipfer addressed himself to the Board of Education by indicating intention to resign from the Board prior to expiration of his term of office on June 30, 1968, and requested acceptance of his resignation effective June 12, 1968. Following congratulations to Member-Elect Dr. Orlo J. Robinson, Mr. Kipfer expressed appreciation to all concerned for encouragement which he had received as a Board member over the past eight

Motion No. 68-252 by Mr. Martin, supported by Mr. Diebert, that the resignation of Mr. James Kipfer from the Board of Education of the Northville Public Schools School District be accepted, effective June 12, 1968. Motion carried.

In response to questions from Mr. Art Adams, citizen, Mr. Spear and Mr. Busard indicated completion of the swimming pool is expected about July 15, and that contrary to Mr. Adams' thinking, there were no provisions included in the 1967 seven-mill increase to cover operation of the 1967 seven-mill increase to cover operation of the swimming pool or additional classrooms; thus the two-mill increase requested this year is needed to carry out our expanded program.

Minutes of the Regular Special Meeting · June 24, 1968

The meeting was called to order by President Eugene Cook at 7:36 P.M. in the Board of Education Offices at 405 West Main Street, Northville, Michigan.

Members Present: Mr. Eugene Cook, President; Mr. Glenn E. Deibert, Secretary: Mr. Richard Martin, Treasurer; Mr. Andrew Orphan, Trustee; Mr. Robert Froelich, Trustee (arrived 8:09 P.M.); Dr. Orlo J. Robinson, Trustee (arrived 8:09 P.M.); Mr. Raymond Spear, Superintendent; Mr. Earl Busard, Business Manager

Absent: Mr. Stanley Johnston, Vice President Administrators Present: Mr. F. Holdsworth

Visitors Present: 5 (See Register.) President Cook called an executive session immediately following roll call for the purpose of discussing personnel matters relating to negotiations.

Meeting reconvened at 8:07 P.M. President Cook declared that a quorum was present and directed the Board to proceed with the regular order of business. Superintendent Spear requested

three changes in the agenda as follows: 1) Addition of one teacher, Mr. David Johnson, to item 8a, Certified Personnel.

2) Tabling of item 11, Naming of School District, and item 12, School District By-Laws, in light of recent communication from Board attorney.

3) Inclusion of a motion to establish next official Board meeting for reorganization of the Board, at which time items 11 and 12 will be considered.

Motion No. 68-257 by Mr. Martin, supported by Mr. Orphan, that the agenda be adopted as amended. Motion carried.

Communications noted: \_ Letter from the Chief of the Fire Marshal Division of Michigan State Police indicating that a reinspection of the Cooke Junior High School found satisfactory compliance with fire safety requirements, with final approval

granted. Letter from Association of Elementary School Principals, Region II, announcing the election of Mr. Milton Jacobi, Moraine School Principal, to the office of AESP, Region II, President for 1968-69. (This is the third Northville Elementary Principal to be so honored.)

Letter from Michigan Department of Education, indicating the District's tentative allocation for ESEA, Title I, fiscal year 1968-69 (as determined by the Superintendent of Public Instruction) is \$12,919.00.

Letter from City of Northville relative to Taft Road paving and resulting School District assessment. It was indicated that Thompson-Brown Company and the Northville Public Schools are requested to sign agreements prior to a public hearing to confirm the Special Assessment Roll (July 1, 1968), to pay on the basis of 100 percent per front foot. The City Council has decided to assess all other property owners on the basis of 75 percent per front foot.

Considerable discussion followed reading of the preceding communication from City Manager Ollendorff, It was noted that a final cost estimate by the City, based on completed engineering, exceeds by approximately 14 percent the preliminary estimate of last December. Based on the complete estimate, the School District's share was quoted as increased from \$7800 to \$8754, with the possibility of an even higher figure following bids and/or completion of the inb.

Official Minutes of the Northville Board of Education Primary concern of the Board was commitment to a 100 percent openend assessment for paving of Taft Road. The Board expressed willingness to accept an adjustment in the original amount committed, in order to meet additional cost factors estimated or anticipated by the City for the paving of Taft Road, but continues to reserve the right to limit the amount beyond which the Board would give further consideration prior to acceptance of final billing.

Three citizens in attendance requested Board rejection of 100 percent assessment to the School District for its share in the cost of paving Taft Road, thus tacitly supporting dissatisfaction of adjoining private property owners regarding a 75 percent assessment to be levied against their property, and perhaps influencing City Council action as regards assessments in the future. President Cook, along with

Members Martin and Deibert, responded that Taft Road will be paved eventually in any case, and acceptance by the School District of its portion of the assessment would mean spreading the cost among all taxpayers of the District rather than a few private property owners on Taft Road. Superintendent Spear further pointed out that he had been informed of Thompson-Brown's (the major property owner involved in the assessment) willingness to accept their 100 percent assessment without a cost ceiling. (Estimated at approximately \$66,543.31.)

In response to Board inquiry, Superintendent Spear indicated the City expects bids to be back approximately two weeks (July 15) following the July 1, 1968 Hearing, with construction as soon thereafter as bids can be awarded.

Motion No. 68-258 by Mr. Orphan, supported by Dr. Robinson, that the Board of Education agree to pay 100 percent of the School District's portion of a Special Assessment for paving of Taft Road in an amount not to exceed \$9000.00, with any additional cost subject to review following completion of paving and final billing. Motion carried.

Motion No. 68-259 by Mr. Froelich, supported by Mr. Martin, that the resolution recognizing the services rendered to the School District by Past Board Member James Kipfer be adopted. Motion carried. (Appendix I to these Minutes)

In considering recommended Board Policy 2210.1, Mr. Froelich, Chairman of Board Subcommittee on Administrative Affairs, indicated approval with exception and recommendation that Section F, Paragraphs 3a-d, 5, 6, 7, and 8a-e be established as a separate Board Policy 2210.2.

Motion No. 68-260 by Mr. Froelich, supported by Mr. Martin, that Board Policy 2210.1 governing Principals, Salaries, Contracts and Conditions of Employment, and Board Policy 2210.2, governing Principals' Salary Schedule, be adopted as recommended. Motion carried. (Appendix II to these Minutes)

Motion No. 68-261 by Mr. Martin, supported by Mr. Froelich, that contracts for Miss Karen Hanna and Mr. David Johnson be approved for the 1968-69 school year. Motion carried.

Motion No. 68-262 by Mr. Diebert, supported by Mr. Froelich, that a contract for the School Psychologist be tabled until after the July 29, 1968 Special Election. Ayes: Mr. Deibert, Mr. Orphan; Nays: Mr. Froelich, Mr. Martin, Dr. Robinson, Mr. Cook; Motion defeated.

Motion No. 68-263 by Mr. Froelich, supported by Dr. Robinson, that the contract and salary for Dr. Carolyn Pratt, School Psychologist, be approved for the 1968-69 school year as recommended by the Superintendent. Ayes: Mr. Froelich, Mr. Martin, Dr. Robinson, Mr. Cook; Nays: Mr. Deibert, Mr. Orphan; Motion carried.

Motion No. 68-264 by Mr. Froelich, supported by Mr. Martin that contracts for the following administrative personnel be approved in accord with Board Policy 2210.1 and Board Policy 2210.2 as adopted on June 24, 1968: Mr. Frederick Holdsworth, High School Principal; Mr. David Longridge, Assistant High School Principal; Mr. John Horwath, Junior High School Principal; Mr. Richard Norton, Asst. Junior High School Principal; Mr. William Craft, Elementary Principal; Mr. Milton Jacobi, Elementary Principal; Mr. Donald Van Ingen, Elementary Principal; Motion carried.

Motion No. 68-265 by Mr. Froelich, supported by Mr. Martin, that two-year contracts be awarded to Mr. Earl Busard as District Business Manager, and Miss Florence Panattoni as District Curriculum Coordinator, in accord with provisions as established in their contracts. Motion carried.

# Northville Township Board Minutes

Minutes of July 2, 1968 Meeting called to order by Supervisor Stromberg at 8:05 P.M.

Present: Supervisor Stromberg; Clerk Hammond; Treasurer Lawrence; Trustees: Armstrong, Baldwin; Consultants: Attorney Ashton, Engineer Mosher; Visitors: Press, Sliger; Absent: Trustee Tellam

Minutes of meetings of June 4 and 18, 1968 were approved and filed.

Treasurer's report for June was accepted and filed.

Bills Payable and Office Receipts for June were reviewed. Baldwin moved that all current bills be paid, seconded by Armstrong. Ayes: All. Motion carried.

Building Department report was approved as presented.

Baldwin moved that the Planning Commission and Appeal Board minutes be accepted and placed on file, seconded by Armstrong. Ayes: All Motion carried.

CORRESPONDENCE

1. Baldwin moved that the letter read by Mrs. Hammond, from the Wayne County Board of Supervisors, in reference to Proposition No. 1 on the upcoming ballot be accepted and filed, seconded by Hammond, Ayes: All. Motion carried.

OLD BUSINESS

- 1. Open Housing (Entitled Open Occupancy, Ordinance No. 24) Mrs. Hammond commented that if this ordinance were passed tonight, it would immediately become Township law without going to the vote of the people. Ashton agreed, saying that the people would need to petition and request an election if they did not agree with the Board's decision. Baldwin moved that Ordinance No. 24 be enacted as submitted by Ashton, supported by Armstrong. Ayes. All. Motion carried.
- 2. Fish Hatchery Committee: Supervisor Stromberg announced that he had appointed H. O. Evans, of the Recreation Commission and B. Baldwin of the Township Board to represent the Township on a joint committee with appointees from the City of Northville and the School Board to study the disposition and use of the Fish Hatchery Property. Mr. Ollendorff is to call a meeting soon.
- 3. A. Jahn Landfill: Attorney Ashton has drawn up pleadings for

circuit court against Mr. Jahn as he has not complied with the Township Board's request that he cease filling and restore his land to its original level.

4. The First Aid Kit and the polaroid camera have been purchased for the use of the Township Police. Bids were taken and the purchase made in accordance. The items are now in

Fringe benefits: Lawrence moved to pass the fringe benefit plan, but without Blue Cross-Blue Shield, supported by Armstrong, Ayes: Armstrong, Lawrence; Nays: Baldwin, Hammond: Supervisor Stromberg voted NAY to defeat the motion.

Baldwin moved that the full package of fringe benefits as presented, plus Blue Cross-Blue Shield be accepted and that the Township pay the full coverage for a single person or 50 percent for family coverage for employees not covered under another contract, supported by Hammond. Ayes: Baldwin, Hammond; Nays: Armstrong, Lawrence; Supervisor Stromberg voted AYE to carry the motion.

6. State Hospital Water Line: The contract is to be signed and in our hands by July 16, 1968 according to Mr. Hodges of the Mental Health Department.

7. Water Main Bonds: Ashton read his letter of June 26, 1968 in which he recommended to the Board that it pass a resolution requesting priority processing of our application from the Municipal Finance Commission. This resolution pertaining to the Water Main Bonds for Special Assessment District No. 3 should then be sent immediately. Armstrong so moved, supported by Lawrence. Ayes: Ail. Motion carried.

8. Smokler Easement Agreement: Ashton explained that a dedication of property to the Township must be accepted and recorded, and he presented a document to cover the easements on the Smokler Kings Mill property. The Clerk and the Supervisor must execute the document. Baldwin moved to accept the dedication of the easement as indicated in the submission by Mr. Ashton, with the Clerk and Supervisor to execute same, supported by Lawrence, Ayes: All. Motion carried. Ashton is to advise the Smokler Co. that this action has been taken.

9. Building and Electrical

Inspector Mr. Salow was present and was asked to speak to the Board regarding the manner of his salary payment, and the amount. Mr. Stromberg first reviewed the salary discussion that has taken place over the past several months. He read a list of wages paid to Mr. Salow for the past ten years. Mr. Salow asked for a raise as all Township employees and officials except the building inspectors had received one in April of this year. Baldwin reiterated his stand that the Township needs a full time building department (not on a fee basis) as building activity in the area has been increasing so rapidly. Mr. Salow indicated that a set salary in lieu of his present fee basis arrangement would not be acceptable to him.

Baldwin moved that the salary for the building inspector be set at \$8000.00 and the electrical inspector at \$3000.00, with \$50.00 per month car allowance, totalling \$11,600 per year, this wage arrangement to become effective on September 1, 1968. Seconded by Armstrong. Ayes: Armstrong, Baldwin; Nays: Hammond, Lawrence; Tie vote broken by Supervisor Stromberg who voted AYE. Motion carried.

**NEW BUSINESS** 

1. Water and Sewer Commissioner: Supervisor Stromberg announced that R. N. Brown had submitted his resignation from the Water and Sewer Commission, effective immediately. He is moving out of the area. The Supervisor felt that the Board should try to appoint a commissioner from a section of the Township which is not well represented on any of the boards or commissions. Baldwin moved to table the appointment until the next meeting. Seconded by Lawrence. Ayes: All. Motion carried.

2. Filing Cabinet: Baldwin moved to purchase a four drawer legal size filing cabinet for the Treasurer's office, matching present equipment in color and quality, seconded by Armstrong. Ayes: All. Motion carried.

3. 1948 Law Book: Baldwin moved to purchase the 1948 edition to complete the series of compiled laws owned by the Township, seconded by Lawrence. Ayes: All. Motion carried. 4. Election: The Clerk reminded

the Board that the Primary Election is to be on Tuesday, August 6, 1968.

Therefore the monthly Board meeting will fall on Wednesday, August 7, 1968.

5. District No. 35 appointments: Stromberg named Armstrong and Lawrence as his appointees to the Five-Community Committee which will meet to discuss wages for a new district judgeship. Since Armstrong will be on vacation for the first meeting, Baldwin was asked to substitute.

6. Retainer-Plbg. and Htg. Inspector: Mr. Sterner has asked the Board for a monthly retainer to augment his wages which are paid on a fee basis. Baldwin moved to table the request until the next meeting when the Clerk could have a list prepared showing the wages received during the past two years by the heating and plumbing inspector. Seconded by Lawrence. Ayes: All. Motion carried.

7. Subdivision Regulations: Baldwin moved to table action on this matter until the next meeting so as to allow time for study of the printed act which had just been presented to the Board by the Planning Commission. Second by Lawrence, Ayes: All. Motion carried.

8. Thompson-Brown Preliminary, Plat Subdivision No. 3: Baldwin moved that tentative approval be granted to the preliminary plat of Northville Commons No. 3, seconded by Lawrence, Ayes: All. Motion carried.

9. Hand Rails: A bid was submitted by Huff Welding Co. for \$205.00 for iron railings for the Township Hall, from the porch to the sidewalk on both sides and from the sidwalk to the street down the middle of the steps. Armstrong moved that the Township purchase and install these railings, seconded by Baldwin, Aves: All. Motion carried.

10. Stromberg explained that Norton is a private road and needs grading. He asked the Twp. to pay once to have it graded, hoping that the homeowners would bring the road up to standard and have the County take it over. Baldwin felt that it was not the business of the Twp. to maintain private roads and moved that no action be taken seconded by Armstrong. Ayes: All. Motion carried.

Meeting adjourned at 11:50 P.M.

Respectfully submitted, E. W. Hammond, Clerk

# **Northville Board of Education**

Continued from Page 4-B

Motion No. 68-266 by Mr. Orphan, supported by Mr. Martin, that an appropriate resolution be adopted for Mrs. Isabelle Spooner in recognition of her many years of devoted service to the Northville Public Schools School District. Motion carried. (Appendix III to these Minutes)

Resignations received since June 11, 1968 were noted for the following: Miss Nancy Krupp (verbal acceptance of contract for 1968-69 retracted); Mrs. Donna Hill; Mrs. Isabelle Spooner; Miss Sarah Baldwin.

A brief discussion of a recommended Board Policy pertaining to the District swimming pool (1330.1) pointed to the desirability of this document's revision into sections as related to general Board Policy and specific Administrative Rules and Regulations.

Motion No. 68-267 by Mr. Froelich, supported by Mr. Martin, that Board Policy 1330.1 governing the Administration, Use and Operation of the District Swimming Pool be referred back to the Superintendent for clarification as to Board Policy and Administrative Directive. Motion carried.

Motion No. 68-268 by Dr. Robinson, supported by Mr. Martin, that forty-one (41) maintenance, custodial, cafeteria and mechanical positions be authorized for the school year 1968-69 and that a budget allocation not to exceed \$180,835.00 be approved. Motion carried.

In accord with Superintendent Spear's earlier request regarding agenda items 11 and 12, President Cook declared these items stricken from the agenda and asked that a motion be introducted relative to establishment of the first Board meeting for the fiscal year 1968-69.

Motion No. 68-269 by Mr. Martin, supported by Mr. Froelich, that the first official meeting of the Board of Education of the Northville Public Schools School District for the fiscal

year 1968-69 be established for the date of July 8, 1968, at 7:30 P.M. in the Board of Education Offices, 405 West Main Street, Northville, Michigan. Motion carried.

Motion No. 68-270 by Mr. Froelich, supported by Mr. Martin, that the bid for supplying gasoline for the period July 1, 1968 thru June 30, 1969 be awarded to Sinclair Refining Company at the firm rate of 13.4 cents per gallon, Motion carried.

Superintendent Spear called attention to comments June 17, 1968 Board Meeting, not intended for publication, which were reported in a local newspaper. In this connection, a memorandum clarifying the legality of inspection of public records was provided for Board members and Mr. Hoffman of the Northville Record. (Appendix IV to these Minutes)

Superintendent Spear referred to a second matter of community concern that as a Third Class District, the Board is in a position to levy two mills, which is untrue and appears to have been confused with the fact that a Third Class District may borrow up to two percent of its State Equalized Valuation for construction purposes without a vote of the people, with loan being paid through the debt retirement fund. Northville's bonded indebtedness already exceeds two percent of its SEV, thus such a possibility is out of the question.

Mr. Cook in his closing remarks as President of the Board of Education for 1967-68, called it a "good Board." He expressed gratification for Board accomplishments while he was President, indicating confidence that the Board is on the road to running the School System as it should be run in many areas. Mr. Cook extended thanks for the support and cooperation offered him during the past year.

There being no further business, the meeting adjourned at 9:35 P.M.

O. J. Robinson, M.D. Secretary

#### Henry Sladek Marvin Stempien

Confidence in county government has been shaken by "rotten" county jail conditions, inadequate drainage systems and sub-normal facilities for housing problem children, charges Henry R. Sladek, candidate for Wayne County Supervisor.

Everyone still remembers the county sheriff's resignation while under fire. Rotten conditions at the county jail have been well publicized on TV.

"More recently hundreds of families' homes were severely damaged and other homes and lives were threatened because of poorly and inadequately planned county sewer and drainage problem children. And the list goes on.1

It is just these sort of problems Sladek pledges to attack if elected. Furthermore, he contends much of the lost confidence in county government can be restored by keeping the people appraised of the progress towards these ends.

Among other areas that Sladek promises to address himself to if elected include a carefully prepared budget, identification and establishment of priority areas and long range goals, and closer relationships between departments within the county and between county, municipal and state governments.

Concerning the budget of the new board of supervisors, Sladek says "careful judgment should be exercised to apply available monies in the proper amounts taking into account the pre-determined order of priorities."

Approving expenditures exceeding projected income is unsound, he contends, and "increasing taxes is out of the question."

### Gary Frink

Since he announced his candidacy for United States Representative in April, Gary R. Frink of Pontiac has been asking 19th District voters to join the "Frink-In." The 35-year-old attorney, a

Democrat, has used the catchy term to characterize his campaign: a positive, personal involvement in the vital questions of America's future. Backers of Frink have "borrowed"

the term as title for an all-day family event in honor of Frink and his wife, Sherry, at Walled Lake Amusement Park Saturday. Chairman of the event, Owen

Oakland University, said, "We planned the 'Frink-In' as a true family event: "Through arrangement with the Walled Lake Amusement Park, we had exclusive use of all facilities for the

Porterfield of Pontiac, a senior at

day-including the rides and amusements, picnic and recreation Music for dancing was by a Walled

Lake group, the Imaginery Cranberry, two hit songs, Freedom" and "Think" (unofficial theme song of the Frink campaign.)

#### Thieves Steal Harnesses, Bags

Harnesses and bags valued at \$850 were taken from a building at Northville Downs July 9, it was reported to police Wednesday.

Ronald L. Waukowicz, trainer for Langford Farms of Chatham, Ontario, owner of the property, told police entry could have been gained through a large door on the end of the building. No one remains in the building at night, he said, and the theft apparently took place between 1 a.m. and 7 a.m.

With the August primary election just around the corner, Northville's city attorney boosted his candidacy for State Representative of the 35th district this week by emphasizing his work as a former legislature.

In a release to The Record, his campaign headquarters made a point of showing that Marvin Stempien, a Democrat, is known around Lansing "as the man who has had more proposals become law than any other member of the 73rd Legislature.

The list of 26 bills ranges from education to mental health to traffic safety.

Typical of these are: -More interest-free scholarship loans available to Livonia and

Northville college students. -Bill permitting a city bond issue to pass with a simple majority vote, a measure that had much to do with the establishment of Whispering Willows Golf Course in Livonia.

-Protection for citizens from financial loss caused by un-insured motorists through the Motor Vehicle Accident Claims Fund that he drafted. Concerning education, Stempien

said in part:

"Fiscal responsibility in education demands not only increased financial aid to meet over-increasing costs but also revisions of Michigan's ancient formula for distribution of such monies."

#### Jerome Dupont

Jerome Dupont, a Democratic candidate for the U.S. House of Representatives from Michigan's Second Congressional District, charges that the leadership of the Democratic Party has fallen victim to a style of politics which threatens to destroy the

"The Democratic Party has since 1965 succumbed to a 'consensus' philosophy of American politics. The disarray with which the party now faces the 1968 election is a direct result

The last Democratic Congressman from the Second District of Michigan, Weston E. Vivian, is both a practitioner and a victim of this style of politics.

"Since shortly after the Democratic landslide victory of 1964, President Johnson and most Democratic office holders have been unwilling-because of a deep fear of voter backlash- to provide the leadership and write the legislation necessary to solve the domestic problems of this country."

### Readers Speak Hits Tab For Charter

To the Editor:

As reported in your last weeks edition of your paper, that the Novi village council appropriated \$500 plus \$22.50 for expenses incurred by Novi's charter commission.

It has always been my contention from a legal point of view that taxpayers money can not be used for any political endeavor-

If the \$22.50 that was spent to purchase model city charters from the Michigan Municipal League, there should not have been a need for \$500 expenses, because on the final analysis, Commission members will only copy one of these charters for the citizens to vote on.

If this money (\$500 plus \$22.50) is not returned to the village, the council could be guilty of misfeasance and malfeasance of office, and face possible ouster proceedings.

It's an American dream. The little white cottage with the white picket fence, a marriage made in heaven, a man and woman living happily ever after despite some troubles, children who are innocently happy – all's right with the world.

Some would say the American dream is dead. It's not. Conditions might change. It might be a different age. But even in the ghetto, there is a dream of contentment, of a world devoid of snarled's

In the beginning, the British movie "Poor Cow" holds out the same promise. Happiness is attainable despite the fact that an 18-year-old girl had a baby out of wedlock, and that her husband is insensitive and cruel to the point of slapping her around.

As if to make good on a promise, the husband is carted off to jail after a robbery falls through. The girl, Joannie, is set free once more to search for the dream, to pursue the symbol of happiness the white cottage with the white picket fence. Or in British circles, the little thatch-roofed house.

But life gets in the way.

Played superbly by Carol White, Joannie travels from one man to another, somewhat like Don Quixote in quest of something. Traveling with her on her shoreless voyage is her infant son, chubby and small and too young to know what's going on. Joannie has been called the female Alfie because of her

apparent amoral attitude. That's questionable. But the girl, despite her circumstances and her own compulsive behavior, has an indomitable spirit that carries her and her small son along. To some she will prove thoroughly despicable. Others who

attempt to understand will suspend judgment and wonder what it's all about. Some will be coldly indifferent. Whatever posture is taken, it will be fully understandable.

For Director Kenneth Loach presents Joannie with brutal detachment. There is no sympathetic involvement, for the story line and any spell it might have is broken by abrupt scene transitions and printed comments on the action which appear on the screen.

In this respect, the movie is not unlike "Tom Jones," with sardonic comments cutting across the action to throw water incongrously over it. Or a scene change or music jerking us away from sentimentality, happiness or heavy lust.

"Poor Cow" might be called "A happening." The movie is there, Joannie is there, the action is there, there is no elucidation, only cold experience for us to see and digest, to form our own opinions without letting emotion clutter the view.

"The Electors shall meet in their respective states, and vote by ballot for President and Vice President, one of whom, at least, shall not be an inhabitant of the same state with themselves; they shall name in their ballots the person voted for as President, and in distinct ballots the person voted for as Vice President...."

This section of the United States Constitution (an amendment ratified in 1804), which comes under attack about every four years by lawmakers. politicians and citizens, is once again being challenged as "out-moded and un-American."

Of most concern in this Presidential year is the growing possibility that the choice of the President through the Electoral College process may not represent a clear majority, hence leaving the choice up to the House of Representatives.

That citizens do not directly vote for the President seems to be of little less concern today than it was nearly 100 years ago when the then editor of The Record, Samuel H. Little, slammed this election process as faulty.

His editorial comment followed the death of Horace Greeley, who had just lost the Presidential election to U.S. Grant.

"How easy it is, under the present condition of things," he wrote, "for the presidential electors to defeat the wishes of the people by electing a candidate receiving a popular minority of votes,

and even to vote for a man of whom, perhaps, the public has never heard!"

To illustrate this point, he noted that "of all the Greeley electors chosen (some 84), only three voted for Horace Greeley. The balance of the votes were distributed among U.S. Grant, Thomas A. Hendricks of Indiana, B. Gratz Brown of Missouri, David Davis of New York, James Black of Pennsylvania, and Charles Jenkins of Georgia.....

"What an undoubtedly large majority of the people of the United States want is to vote directly

for the candidate of their choice." To that end, Little proposed that there "be a Direct Vote for President and for vice president; that the votes be counted separately for each of

by JACK W. HOFFMAN

the candidates at the same time and in the same manner as votes for the electors are counted now; that the certified number of votes be computed, and the candidate having the highest number of votes to be declared elected....."

His 100-year-old proposal, which has been dusted off and offered anew periodically over the years, appears to be gaining ground in 1968. But It's a pretty safe bet that my high school textbook - a 20-year-old document - is still closer to the truth when it said, "and one is bound to conclude that, although the way in which we choose our chief executive could undoubtedly be improved in a number of respects, the outlook for reform... is , not promising."

# Convicts Volunteer for Drug Testing Program

LANSING-PRISONERS at the State Prison of Southern Michigan in Jackson are helping relieve human misery and prolong life through a volunteer drug testing program. Since 1964, when two pharmaceutical companies built testing facilities at the prison, about 20,000 inmates have participated in the studies.

Without the program, it would take many more years before some of today's "wonder drugs" would be ready for general use, prison officials (say. Prisoners are attracted to the program by pay, a break in their otherwise colorless daily routines, a new sense of helping mankind, and

recently, credit towards earning parole.

Drugs used in the tests have already been administered to animals and sometimes to a few humans, but the project at Jackson provides necessary mass testing. Policies and programs are governed by a committee made up of staff members from Michigan medical schools and doctors in private practice. The state Health and Corrections departments also participate in decisions on general policies.

Although the two drug companies cooperate on some matters, such as screening prisoners, they work separately on testing effects of

compounds. Pay varies according to the type and extent of medication being

Sophisticated equipment is used to study curative benefits of different drugs, the most effective dosage, and possible side-effects. Tests' are on normal subjects since results would not be as reliable if tested on patients who were emotionally unstable.

NEW PROGRAMS aimed at cutting welfare costs are sought as Michigan heads towards a \$500 million welfare package for 1969-70. Operations of the state's Social Services Department for 1968-69 are already pegged at \$437.7 million. This year

\$360.8 million was spent for welfare assistance.

With passage of the 1968-69 appropriation, the Legislature issued a stern warning to welfare officials not to seek additional funds. Since the federal government predicts that 500,000 families will be added to national welfare rolls within the next two years, Michigan welfare executives are caught in a bind.

"It seems the industrial north pays more and more to finance the program and has less and less to say about it," charges department director R. Bernard Houston. The number of new welfare recipients in Michigan could be considerable, putting new stress on the

state's already strained resources.

A test case in Massachusetts is now pending on the question of residency requirements for indigents before they can receive welfare aid. If the courts lift the residency qualifications, it could encourage an influx of indigents to Michigan from poorer states and make a shambles of the state budget.

A WORK INCENTIVE program for families on Aid to Dependent Children would provide on-the-job training and regular employment for some. This program was operated as a pilot project in Michigan last year and showed signs of being productive.

The purpose of the program is to get as many ADC recipients as possible back into the job mainstream and reduce the state rolls which now stand

at 48,200. This is a cooperative venture between social services, the State Labor Department and federal government.

Grants and supplemental payments are issued to those in the program to guarantee equal amounts received while

on welfare rolls.

AVERAGE PAYMENT to welfare recipient, in Michigan is currently \$185 per month. The federal government pays half of the cost up to \$175 monthly, and the state must pick up all of the payment above that figure. Paying 100 percent of all costs over \$175 makes it extremely difficult for the state to cover cost-of-living boosts, Houston said.

A percentage of the 1968-69 appropriation will be used to provide more assistance to counties for foster care programs.

# \* Canada's Liberal Party Landslide Seen As Boost for Nationalism

WELLESLEY HILLS, Massachusetts—For the first time since 1962, the governing party in Canada has a clear-cut majority as a result of last month's smashing victory of the Liberal Party under the leadership of the energetic Pierre Elliott Trudeau.

This is a heartening development, for in Canada as elsewhere solidarity is vital to stability. Canada is the second-largest nation in the world in terms of square miles of land and water, topped only by the Soviet Union. Yet, for all her feverish postwar population growth, our neighbor to the north still has scarcely more than 20 million people.

Ranking first in world production of asbestos, nickel and zinc; second in output of gold, gypsum, molybdenum, and uranium; and third in cadmium, cobalt, platinum, and titanium, Canada's plenitude of natural resources augurs well for her future economic progress.

PRIME MINISTER Trudeau's victory—which included heavy support in the political hotbed of Quebec Province where dissatisfaction with Canada's federal government has been widespread and articulate—suggests a new era of peace and progress. The cause of separatism, espoused by French-speaking Canadians, has received a setback and Canadian nationalism has been accorded a boost.

Hopefully, this means that Canada is overcoming some of its more serious growing pains and moving into a period of vastly improved relations between the two cultures—English and French—of which it is composed.

We have a stake in a strong Canada because we are such close neighbors. The unfortified border of conterminous United States and Canada extends for 3,987 miles from the Atlantic to the Pacific. In addition, there is a 1,538-mile border between Alaska and Canada. We also have a stake in a strong Canada because she is

by far our best customer. In 1966-latest year for which complete statistics are available-our exports to Canada totaled \$7,135,860,000, while our imports amounted to but \$6,027,722,000.

The dollar value of our total trade with Canada is the equivalent of about 25 percent of Canadian gross national product, but is only about 1½ percent of our own gross national product. Yet there are thousands of American businesses which prosper as a result of trade with Canada. An uncomfortably large number of these would find their net earnings very seriously impaired if that trade were to be importantly curtailed for whatever reason.

heavily dependent on her world trade. Her trade imbalance with the U.S. is roughly \$1 billion annually,—a deficit she must overcome through her commerce with other nations. As Canada grows, the needs of her burgeoning population may make her more dependent on the U.S. in some respects. But as she grows, whe will also develop new economic strength that should provide even larger markets for our goods within her borders. Meanwhile, her ties with the British Commonwealth seem likely to ease.

Some observers foresee an eventual merger of Canada and the United States. But the two countries have grown up in separate ways,-the one achieving its freedom and independence by evolution and the other by revolution. Physical merger-if it ever should come-is a long, long way into the future. But closer economic ties are inevitable, and perhaps in this century we shall see the establishment of a North American Common Market. more practical, more viable, and more prosperous by far than the European Common Market of today. In any event, the further development of American-Canadian friendship is going to be vital to the prosperity of both nations and to the peace of the world

### **Drowning**, Suicide

# Two Tragic Deaths Occur in Novi

Two tragic deaths, not connected with each other, occurred last week Wednesday so quickly that Novi police had not returned to the post from the first before they were called to the scene of the second.

The first was the drowning of William Wickline, 1313 East Lake Drive, Novi, whose body was found in Walled Lake, 4 mile north of Novi Road and a fourth of a mile east of that point, according to Police Chief Lee BeGole.

The chief said David Byrd, 1865 Charms Road, Wixom and Linda Miles, 212 Pontiac Trail, Walled Lake, were sailing on the lake when they noticed an overturned row boat. Closer scrutiny revealed a body nearby, under the water in an upright position.

Officer Ronald Arbour said that he and Corporal Gordon Nelson discovered the body of the 72-year-old man was entangled in fishing line.

"His eyeglasses were still in place," Arbour said, "He was in seven to eight feet of water." State Police, who were called into the case, said Wickline was apparently the only one in the boat when it capsized. Coroner Dr. Arnold Kellogg of Wixom noted that there was a cut on the drowned man's right temple.

Mrs. Wickline said her husband had gone fishing alone, police reported, but that in her distress she was unable to recall the time. The body was discovered at 4:30 p.m. Wednesday.

Daily Weaver of Novi took Nelson and Arbour in his power boat to the

location of the drowning. Wickline had been using a 12-foot aluminum boat without an engine, Arbour said, and it was drifting when it was found by Byrd and Miss Miles.

As the officers were returning from Walled Lake they received a call at 6:48 p.m. to 39474 Burton Drive where the body of a widow, Mrs. Charles Vincent, was found in her den. State Police, after they were later called to aid in the investigation. pronounced the death a suicide.

When Novi officers entered the Vincent house, they found it in good order, the radio playing on the kitchen table, and the body of the woman lying in the den, with powder burns on her stomach Arbour said. There was a rifle standing in the bathroom across the hall, he added, and the telephone near the dead woman lay off the hook. The house was open, the gun case glass broken, and glass from it found several feet away in the back

Northville's Municipal Judge Philip Ogilvie, a candidate for the district judgeship, will appear on the ballot without his current title as a result of Judge Templin's decision.

A candidate for District Judge in District 46 of Oakland County, Allan H. Tushman, who is not currently a judge, was the complainant in an order to show cause brought against the Oakland County Election Commission and Clarence Reid, also a candidate,

who is now municipal judge for Southfield. The complaint, filed July 11, asked that incumbent judges be withheld from designating their present judicial capacity on the ballot.

Judge Templin Friday heard the case and granted an injunction adjoining the election commission from putting the words "Municipal Judge".
