THURSDAY, NOVEMBER 2, 1989 - NORTHVILLE, MICHIGAN

FIFTY CENTS

Northville voters head to the polls Tuesday

Northville City voters will go to the polls next Tuesday, Nov. 7 to pick from three candidates for two seats on the City Council.

Running for reelection is current council member Jerome Mittman. G. Dewey Gardner, a former council member and second-time candidate Kevin Hartshorne round out the ballot

In addition, city residents will vote for the second time on a community park millage proposal. Voters will decide whether a .7992 mill proposal to fund the creation of a community park should be passed. This millage is set for two years, and will raise \$725,000 for the creation of soccer and ball diamonds among other things. Township and city officials are looking at the possibility of developing the park on the Haller donation site at Sheldon Road near Six Mile, if the land is obtained by the township.

Township and city residents share recreational service programs and their funding. Township residents approved the special, two year, dedicated park millage, during the November 1988 election. City voters defeated the pro-

Township and city voters both will decide the fate of two rather controversial state school funding proposals Proposition A and Proposition B are on the ballot. If both

proposals are passed, the one that garners the most votes will be implemented.

Both township and city polls open at 7 a.m. and close at 8 p.m. City voters in Precinct 1 vote at the City Council Chambers at City Hall on Main Street. Precinct 2 voters cast ballots at Amerman School at the corner of Eight Mile and Center streets.

Township residents vote at five polling places. Those in Precincts 1 and 3 vote at Moraine School on Eight Mile Road, east of Beck Road. Precincts 2, 8 and 9 vote at Silver Springs Elementary School off of Eight Mile Road and Silver Springs Drive. Precincts 4 and 7 vote at Meads Mill Middle School, off of Six Mile Road. Precinct 5 votes at Kings Mill Club House, on Northville Road south of Seven Mile Road. Precincts 6 and 10 vote at Winchester Elementary School, south of Six Mile Road on Winchester

For more information contact Northville City Hall at 349-1300 or Northville Township Hall at 348-5800.

More coverage of the election can be found in stories elsewhere on page one. Proposal A and B coverage can be found on 6A. The final question by the candidates for city council is covered on page 7A.

Council questions budget

By STEPHEN KELLMAN

Northville's recreation commission has come under fire from members of the city council for its proposed budget for 1990. The proposed \$528,875 budget represents a 14.7 percent increase over this year's budget of \$461,225

Council members were concerned that the budget included an increase of over 31 percent in the city's share for the senior services program, and an overall increase of almost 11 percent in the city's share of the budget.

"There isn't a bottomless pit of funding," said council member Jerry Mittman. "If it's almost a 'business as usual' type of budget, we'd be looking for an inflationary rate increase

He added, "I think we should set some targets there of what's acceptable. It just seems that that's going up too much in one year."
As City Manager Steven Walters

pointed out, some of the increase in the city and township shares of the budget may be due to the fact that many of the other revenue sources have remained constant, and some have actually decreased. Because of that, the raise in expenditures has an even greater impact on the city and township shares

"It's a problem beyond just the expenditure growth," he said.

Recreation Director John Anderson attributed the budget's growth to several factors, including a raise in the senior coordinator's salary and increased participation in senior citizens programs. Of senior coordinator Karl Peters, Anderson said "he's been underpaid for years." Peters is at the upper end of the scale for educational achievement and the lower end for salary compared to surrounding communities, Anderson

Officials were also concerned about a proposed \$25,000 fund for general park development, particularly with the possible passage of the .7992 park millage by city voters. Said Mayor Chris Johnson, "I'm not sure that \$25,000 out of this particular budget is a good idea.'

Council member Paul Folino warned that the \$25,000 general park development fund may be necessary if the city park millage is not approved by voters. "If it doesn't pass," he said of the millage, "then this (\$25,000 fund) is something we should

be considering."

But the \$25,000 fund is in addition to an excess \$66,432 from last year's budget, and \$7,000 from this year's general park development fund, part of which went to the resurfacing of tennis courts at Fish Hatchery Park. Anderson has since said that the excess from last year would likely be used for future park development.

Happy haunting

There was more fun than scaring going on during the Northville Recreation Department's annual pre-school Halloween party this week. Above,

Joshua Mikeseil, 3, dances the Hokey-Pokey (which was renamed an appropriate Halloweenname), while Karlek Johnson looks on.

Officials debate millage

By STEPHEN KELLMAN

John Anderson, director of the Northville Community Recreation Department, and Jeff Hampton, spokesperson for Citizens for a Better Northville were recently invited to the Northville Record office to explain their views on the proposed park millage on the Nov. 7 city ballot. The proposal, passed last year by the township and rejected by the city, would increase the millage by .7992 this year and less next year, depending on the growth of assessments.

The miliage would raise about \$732,000 over two years for construction of community park facilities, including several lighted ball diamonds and soccer fields. A resident with a house valued at \$100,000, the state equalized value of which would be \$50,000, would pay an extra \$39.96 in property taxes starting this

RECORD: Mr. Anderson, what makes passage of the millage by city voters more likely this year than

ANDERSON: One of the big things

that has been thrown in our lap, and for the better, is the possibility of a change to a more central site, at Six Mile and Sheldon. But I think the main thing is that more people are now aware of our lack of park land. We have Lapham Field which we're using for soccer — that will be lost. We have the uncertain future of the Ford Plant and Ford Field, and as I read in the paper, they're still talking about selling off the Training Center land. I think over the last year people are seeing that we don't really have a good grasp on some of the fields we're using.

HAMPTON: Some of the facts that John spoke of might work against passage of the millage because we're now finding that it is possible to find, either through corporations donating money because of wetlands or because of well-heeled local residents, that the donations from the private sector are out there. We've seen in the last year this manna from heaven coming out of the sky. All of a sudden we're starting to get private money coming out of nowhere

RECORD: Mr. Hampton, how

would such a private development be funded?

HAMPTON: The first thing that we need to realize is that the market should determine the price of the services rendered. When we had somebody from "Softball City" come up, they said it costs anywhere from \$700 to \$1,000 to run a team for a season. That is the true cost when you figure in taxes, payment on the lands, the whole bit.

What we're saying is - that is the cost that anybody who plays baseball should incur. The taxpayers of Northville and the people who aren't playing these particular activities should not be asked to subsidize them.

Now I'll give you a perfect example. I play baseball, and it cost us \$400 between registration fees and umpire fees to play. Somewhere, somehow, the city, the township and Wayne county, subsidized a group of 15, 35-year-old men to the tune of anywhere from \$200 to \$400 to play baseball. Somewhere that money

Ten applicants seek treasurer job

By MIKE TYREE

At least ten candidates have tossed their hats in the ring to replace Richard Henningsen as Northville Township Treasurer, according to Supervisor Georgina Goss.

Six women and four men are seeking the part-time, \$9,000 a year post which opened when Henningsen accepted the township manager posi-

Goss said Martha Nield, Betty Lennox, Joyce Murdock, Lorraine Andary, William Butterfield, Donald Williams, Linda Comer, Erwin Tonch, Carol Megdan, and Mark Vaughn have complied with an Oct. 31 deadline by sending resumes to the township office All are Northville residents, and Goss said she was pleased with the response to the

"It's wonderful to see so much interest in the position," she said. "The candidates seem to be well qualified.

"With this list, the person with the best qualifications will be picked,"

Goss said the township Board of Trustees will hold public interviews for the prospective treasurers at 7 p.m. Nov. 6. The applicants will be asked a number of questions pertaining to local government, and their remarks will be weighed before a decision is reached and a selection is announced at a Nov. 8 special

'We'll be asking them why they are interested in the position, we'll be discussing some of the major issues Board of Trustees," Goss said.

Goss said Williams, who already sits on the board, will go through the interview process but will not question the other applicants She said a

decision has been rendered by the township attorney stating that Williams cannot be prevented from voting for himself for the treasurer's

According to Goss, the ideal candidate for the position would have experience with accounting and cash receivables, have a strong sense of community involvement, and possess the ability to interact well with the public.

The new treasurer might have to accept a salary lower than Henningsen received, as well.

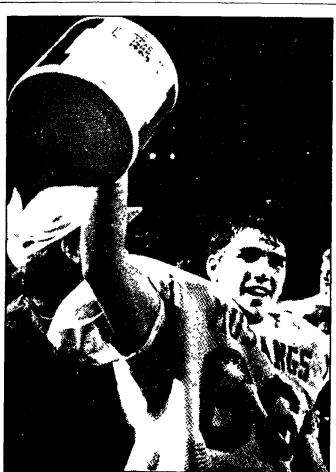

Goss said a recommendation has been introduced to the township's fiscal year 1990 budget to reduce the treasurer's salary from \$9,000 to \$5,000. The new figure represents a 44 per cent decrease from the previous year. The board was to discuss the salary change at the Nov 2 meeting, after the Record went to press

The salary change was proposed by a finance committee which helped prepare the 1990 budget. Goss said the change would allow more funds to be used by support staff, and that the treasurer would be handling less duties than before. The treasurer will retain state mandated duties, she ad-

Candidates for the position include: Martha Nield, a graduate of the University of Michigan majoring in mathematics. She has served as a cashier clerk for Washtenaw County Friend of the Court, and as assistant controller with Kaufman and Broad

Betty Lennox, a graduate of the that will be facing the township in the next few years, and how they see the worked as an engineering aid, a treasurer's position in relation to the chemistry lab instructor, clerk and supervisor for the Township of Northville, and finance director and controller for the City of Northville.

NEWS BRIEFS

GOODTIME PLAYERS - The Goodtime Players, a live performing troupe from Ann Arbor, will be at the Northville Community Center on Friday, Nov. 3, at 7 p.m., to present, "The Frog Prince". This musical comedy is a version of the classic tale of a spoiled princess who changes her ways because of frog (who, of course, is actually a prince). Tickets are \$3, available at the door or on sale now at the Northville Community Center, 303 W. Main

CHAMBER MUSIC SLATED — A chamber-music program of double reed and piano will be presented by the Friends of the Nor-

thville Public Library at 7:45 p.m. Monday, Nov. 6.

The program will take place in the library to celebrate its 100th anniversary and will be performed by Northville residents and members of the Detroit Symphony Orchestra: Robert Williams on bassoon and Treva Womble on oboe and English horn. They will be accompanied by Pauline Martin.

The concert is free, but registration is required in order to reserve space and assist in planning the reception which will follow the program. To register, call 349-3020.

EVENING STORYTIME REGISTRATION — A special evening Preschool Storytime will be held at the Northville Public Library at 7 p.m. Monday, Nov. 6.

This special program will be geared to children ages $3\frac{1}{2}$ to 5years who are not able to attend regular daytime sessions. Registration is underway.

CHAMBER OF COMMERCE UPDATE - The Northville Community Chamber of Commerce Board of Directors recently appointed officers for the coming year. John Sassamon was elected president; Don Mroz, vice president; Greg Spinazze, secretary; and Jacquie Fincher, treasurer.

The chamber board will be working on goal setting for the coming year at a special meeting Nov. 17. Chamber members and others in the community are urged to contact the chamber office (349-7640) or individual board members to provide input for the planning process.

HIGH SCHOOL PLAY - Northville High School will be presenting the play "Fame" November 16-19 at the high school auditorium. Veteran performers Susan Bickner, Carl Brown, Melissa Petro, and Julie Norback head a large cast which will portray students attending the New York School of Performing Arts.

Tickets for the event will go on sale Monday, Nov. 6 before school and after school until 3 p.m. at the box office. Tickets are \$4.50 for adults and \$4 for students and senior citizens. The cost of the Sunday, Nov. 19 matinee is \$3.50.

GRIEF WORKSHOP - Northville's Council of PTA's is presenting a special workshop, "Grief; Learning Through Loss Looking for the Teachable Moment", tonight, Nov. 2 at 7:30 p.m. at the high school auditorium. Most children will, at one time, face the loss of a grandparent, parent, sibling, or significant other. This program is designed to help parents understand a child's response to loss and the grieving process.

Facilitators are Richard Cryderman, Chaplain of William Beaumont Hospital and Linda L. Moon a grief specialist. There will be coffee and cookies after the program.

Library celebrates 100th birthday

By BRENDA DOOLEY

It's entirely appropriate to sing a rousing chorus of "Happy Birthday" when visiting the Northville Public

Consider the fact that the library is celebrating its centennial and the tune becomes more significant.

The Northville community welcomed its first library in late 1889 Before its birth, the YMCA reading room loaned books to young men in the community. However, the reading room closed its doors in January 1889 and residents put their heads together to find a replacement.

Responding to a story in the Northville Record, residents attended a meeting on Oct 4, 1889 to discuss the possibility of forming a library. Mary E. Lapham was named chairperson of the committee.

According to historical documents, the constitution and by-laws of the Ladies' Library Association were adopted and the association in-corporated in November 1889. Lapham donated 250 volumes, constituting the library's first book col-

The library opened to young men of the community in January 1890. It was located at 168 E. Main St., in the tiny white wooden building now known as New School Church in historic Mill Race Village.

At that time, books were borrowed on a subscription basis of \$1 per year. Jennie Babbit was hired as the first paid librarian. The library was open three afternoons each week

It's come a long way. Today — 100 years later — the library is open 5-6 days per week and circulates 113,000 items annually. Services and collections are shared with 60 neighboring communities of the Wayne Oakland Library Federation.

To commemorate the library's 100th birthday, the staff has planned a host of events Nov. 6-18.

The celebration starts Nov. 6, with a special evening story time for preschoolers beginning at 7 p.m. Pre-registration is required by calling the library at 349-3020. Later, at 7:45 p.m., the library hosts a concert by Northville residents Treva Womble and Robert Williams, members of the Detroit Symphony Orchestra. Refreshments will follow. Staff members request that residents call ahead if they're planning to attend.

During the week of Nov. 6-11, the

library will give away coupons offering \$1 off any video rental, good only

In celebration of the centennial and Children's Book Week the library will

offer one week of free reading from its rental collection — consisting of best-sellers — during the week of

Nov. 13-18. The celebration continues on Nov. 15 at 7 p.m., when the Red Rug Pup-

pet Theater presents "Frilly Frog and the Mystery of the Missing Library Book' at the library. Pre-registration is not required. When reflecting upon the library's centennial, Northville Library Direc-

tor Patricia Orr asks the community to keep in mind: "That it's a time to look ahead as well as a time to

remember and celebrate.

"We're on the verge of tremendous growth and expansion . . . without increased community support for a new building and services, we can't provide the things people want. We don't have the room to increase our

Man allegedly attacked by a bottle-wielding driver

he was stopped at a red light at the intersection of Northville Road and Six Mile at 4:30 p.m. Oct. 23, a subject in · a red Pontiac Firebird pulled up next to him and began swearing at him. The driver of the Firebird then reportedly got out of the vehicle and came toward the van with a quartsized beer bottle in his hand.

The complainant said the bottlewielding man challenged him to get out of the vehicle, but the complainant pulled his van forward as traffic began to move. The driver of the van said the man then struck the van's passenger window on the driver's side with either his fist or the bottle. shattering the window. The man then jumped in the Firebird and made a U-turn before the van driver could read the license plate number. Damage to the van was estimated at \$300. Police said they had no suspects

JEWELRY STOLEN - A fake diamond ring and seven strings of white pearls were reported stolen by city police Tuesday, Oct. 17, between 1 p.m. and 6 p.m., from the United Imports / Hanes Gifts outlet at the MAGS building on West Main Street The 8 millimeter Cubic Zirconium ring was valued at \$90. The store owner did not discover the theft until a jewelry show in Ohio on Oct. 28

SLASHER ATTACKS SIDEWALLS - City police reported that three vehicles parked at Allen Terrace in the visitor's parking lot had their tires slashed, apparently by a knife, between 2 p.m. on Sunday, Oct. 29 and 9 a.m. the following morning. One vehicle, a pickup truck, had both left tires slashed at an estimated cost of \$100 and a profane word written on the windshield with soap. Another vehicle had both right tires slashed at an estimated cost of \$200, while a third had the sidewall of the left front tire cut at an estimated cost

NO MORE PHONING HOME -Ablack mobile telephone and brown wallet were stolen from a pickup truck on Elmsmere Drive between 6:30 p.m. on Thursday, Oct. 26 and 9 a.m. the following day, according to city police. The black Audiovox CMT-450 handset, valued at \$100, was stolen. The rest of the telephone, including the mobile receiving unit, was recovered at the scene. The vehicle's owner was unsure whether the pickup was locked at the time

RADIO ALERT - A vehicle parked in a driveway on Grasmere Road was entered sometime between 11 p.m on Thursday, Oct. 26 and 8:30 a.m. the following day, according to city police reports. The unknown burglar or burglars, in an apparent attempt to steal the vehicle's radio, removed several knobs and screws from the unit. The owner was uncertain whether the vehicle was locked

'VETTE DAMAGED IN THEFT ATTEMPT — Township police responded to a call of an attempted car theft from the owner of a 1990 Corvette at 2 p.m. Oct. 29. Police said the complainant told them someone opened his locked vehicle and broke the steering column trying to steal the car Police had no suspects and the damage was estimated at \$250.

HOSPITAL WALKAWAY - A walkaway from the Northville State Hospital was reported to township

police dispatch Oct. 27 at 1:34 p.m. The walkaway was described to police by hospital staff as "a drug addict, not dangerous." No word was available on whether the walkaway was retrieved.

FORE! — A vehicle parked in the lot of the Oasis Golf Course, 39500 Five Mile Road, sustained damage from a hit and run driver between 5:45 p.m. and 6:30 p.m. Oct. 29, according to township police reports.

JOYRIDE DAMAGES FAMILY CAR — A teenager took his family's car for a ride Oct. 24 at 10:15 p.m. and wound up inflicting an estimated \$250 damage to the vehicle, according to township police records. The car was returned at a later time in what police called a "family mat-

MISSING PERSON BACK HOME Police responded to a missing person call at 12:15 a.m. Oct. 29. According to the township police log, the call was a result of a family problem, and the missing 17 year old girl has since returned home.

MELJER LARCENY UPDATE -Meijer Stores, 20401 Haggerty, reported a pair of larcenies to township police last week, which resulted in suspects being arrested and charged Oct. 25 at 12:55 p.m., and Oct. 28 at 11:01 a.m.

WALKAWAY NABBED - A walkaway from the Plymouth State Home, 15480 Sheldon was retrieved by township police at 4:10 p.m. Oct.

resident reported that her mailbox was struck and damaged to the tune of \$100 around 1:30 p.m. Oct. 27. A witness believed the offending car to be a Buick Regal.

JUNK MAIL - A Bloomcrest Road

 ${\bf OUIL\ CHANGE-Township\ police}$ arrested and charged a motorist with operating under the influence at 2:15 a.m. Oct. 28 on Seven Mile near Max-

PEOPLE WITH GLASS HOUSES SHOULDN'T THROW EGGS - A private residence on Robinwood received damage around 9 p.m. Oct. thrown through a six-foot by threefoot storm window. Damage to the window was estimated at \$200, and police report no physical evidence was found at the scene. Township police are scrambling for clues in the

AUTO LARCENY - A 1988 Pontiac was broken into and a car phone stolen as it sat overnight at Meadowbrook Country Club, 40941 Eight Mile Oct. 29, according to township police. The complainant said the phone was estimated at \$900, and damage to the shattered driver's side window was estimated at \$100.

FOUND PROPERTY - City police were notified of a man's black bicycle on West Main St. at 10:30 p.m. on Oct. 24. Anyone wishing to claim the bicycle is asked to call the Northville City police at 349-1234 with a more detailed description.

Northville citizens with information about the above incidents are urged to call city police at 349-1234 or township police at 349-9400.

Detroit officials say water expansion could begin in spring

By BRUCE WEINTRAUB

Northern expansion of the City of Detroit water system could begin as early as next spring, according to officials from the Detroit Water and Sewerage Department (DWSD).
"We'd hope to start the project by

next spring, but it depends on actions made by the approving agencies," said Fred Janeczko, DWSD General Superintendent of Engineering.

"We've tried to get the project started a number of times, but it keeps getting delayed," he said, noting agencies needed to approve the project include the Oakland County Road Commission, the Michigan Department of Public Health and communities abutting the water main.

Janeczko said the City of Northville is not one of the communities that needs to approve the water

THE LONE TREE

ombining the journalistic approaches of Friendly Fire and In Cold Blood, an awardwinning journalist focuses on the pivotal 1985 triple murder/ suicide in Lone Tree, Iowa. as a means of exploring the

social, political, economic, and

human roots of the American

farming crisis.

TRAGEDY By Bruce Brown

Novi Director of Public Works Director Bruce Jerome said the major expansion work centers on the installation of a 72-inch water main that will run west from 1-75 at Adams Road to the intersection of Fourteen Mile and Franklin Road.

"This expansion will improve the water supply for Novi and surrounding communities," he said. "It gives us better water supply and greater pressure.

Jerome said a 36-inch or 42-inch water line currently services the area. "The larger water main will allow for a greater volume of water to be put through the main.'

Janeczko said installation of the 72inch main will also bring water from Lake Huron to southwest Oakland County, northwest Wayne County and northwest Detroit. The area is currently serviced by the Detroit

He noted the quality of water will

be the same since the water is treated. "The only difference will be the pressure will increase and there will be a larger quantity available."

Northville Department of Public Works Director Ted Mapes said the water main expansion will "help our cause since we will have more water pressure at peak times.'

"In the summertime, a larger water main will definitely relieve many of our pressure problems," he

Unlike Novi, which Jerome said may experience a development moratorium within the next few years if the water main expansion does not occur. Mapes said Northville would not experience a

negative impact in development since the city is primarily developed.

'If we have another dry summer like last year it (delayed expansion) could have a big bearing on Northville," Mapes said, also noting the quality of water would not change.

Delays in the expansion could be ossible, Janeczko said and he added it primarily depends on the speed and location of development.

'We've had this (expansion) project on the books for a number years," he said. "This project's been planned since the 1960s. Now we're at a point where we need the facilities fairly soon.'

Janeczko said the internal expan-

sion will cost approximately \$35 three construction seasons to commillion to complete. He said exactly the same project would have cost 'We've submitted revised plans to

roughly \$9 million in the 1960s. Hoping to start the bidding process for the project by Jan. 1, 1990, Janeczko said it will take at least two or

plete the expansion.

the Oakland County Road Commission and we hope to have the project done within two to three years," he

Genitti's has proposed a trolley purchase, like the one pictured above, used during the Victorian

City explores possibility of a downtown trolley

By STEPHEN KELLMAN

Northville may soon have a trolley of its very own, if local residents John and Toni Genitti have their way. The owners of Genitti's Hole-inthe Wall Restaurant on Main Street have proposed purchasing a trolley and donating it to the city

The trolley, on the frame of a 1981 Dodge motorhome, is currently in service in Put-in-Bay, Ohio.

The Genittis have been looking for such a vehicle for some time, according to a letter they sent to the city council last month, to provide transportation for local events and charters. "We have been discussing the possibility of donating the trolley to the city of Northville," Genitti wrote, "with the merchant's association or myself in charge of maintaining and leasing the vehicle."

In a memo to the council, City Manager Steven Walters wrote "This seems to be an excellent opportunity to acquire the type of vehicle for the downtown which is being used more and more on a rental basis.

Toni Genitti proposed the purchase at a recent city council meeting. The trolley is similar to one rented from a firm in Dearborn for use at the Victorian Festival in September, she said That vehicle cost the merchant's association \$800 to rent for two days Similar vehicles were rented for use in the city at least eight times last year, she added.

Council members agreed that such a trolley could provide for several needs in town. Mayor Chris Johnson suggested using it as transportation from parking lots into the center of town. "It could be one way to get our employees to park in the far lots," he

"I would expect to use it a lot," Toni agreed. "I would like it to be a money maker. It's too expensive a vehicle to keep sitting.'

Walters added that the city had a interest in assuring that such a vehicle was properly maintained. "Because of the nature of it," Walters said, "it will be perceived as public transportation. It will have a city image whether or not the city is involved in it."

He suggested the possibility of city insurance, housing and maintenance of the vehicle. Council members authorized the city administration to figure the cost of insuring and maintaining such a vehicle. "There are a lot of details that have to be worked out," said council member Carolann

Nov. 7, 1989

Voters to decide fate of two school finance proposals

on the Nov. 7 state ballot, but the big battle is over Proposal A - a halfcent increase in Michigan's 4 percent sales tax.

Proposal A is close in the polls, with 47 percent favoring it and 50 per-

cent opposed. It is endorsed by Gov. James Blanchard and the business-labor establishment that served on the Harden Commission. That group has been able to raise advertising money for a \$3 million campaign. Half of it is coming from the Michigan Education Association.

Proposal B is more extensive in its impact — a 2 cents increase in the sales tax with school operating property tax cuts averaging 37 percent for homes and farms, 22 percent for businesses

But Proposal B trails badly in the polls - 40 percent in favor and 56 percent opposed. Moreover, although the League of Women Voters and many outstate school boards support it, they have yet to raise any big money to change voters' minds

Chief opponents of both are the Michigan State Chamber of Commerce, which commissioned the polls, and Taxpavers United, the group organized in 1977 by Richard H. Headlee, whose name is on the 1978 tax limitation amendment.

The Republican Party is split down the middle. Half the 20 GOP state senators favor B. The other half - including John Engler, the probable 1990 gubernatorial nominee — oppose both.

Proposal B would do more to help schools, particularly those near the \$2,500 per pupil bottom of the scale, according to a staff analysis prepared for the House Democratic leadership.

Many outstate Republicans concur. They point out that many districts are near the absolute 50-mill property tax limit contained in the state constitution, and others are only one millage election away from it.

"New priorities, not new taxes" is the slogan of both the state chamber and Engler, the Senate majority

budget going to education over the last two decades. Engler once talked of promoting a constitutional amendment to ratchet upward the proportion of the budget going to schools but shelved the idea.

Proposal A wouldn't cut property taxes, but it would pump something like \$390 million a year of new money into public K-12 schools. Part of the money would go into such "quality" programs as the governor's achievement initiatives (GAIN) and funding of annual reports. The bulk would go into whatever state aid formula is devised by lawmakers.

Many suburban lawmakers from prosperous districts say Proposal A flunks the cost-benefit analysis. Oakland County residents would pay \$4 in new sales taxes for every \$1 their districts might get back, say opponents of A. They estimate that similar suburbs western Wayne and Livingston would get a similar stingy

The portion of Proposal A that gets

They argue that the Legislature has reduced the portion of the state dedication of the new revenue and existing taxes to a new, constitutionally-protected school aid

> These include a penny of the present 4 cents sales tax, interest on the lottery funds, and portions of the use, industrial facilities, commercial facilities and tech park taxes.

Moreover, state Department of Education programs would be cap-ped at 5 percent of the total so that the new money couldn't go to Lansing and stay there.

The background: In fiscal 1979-80. school aid was \$945 million a year, but the the bottom of the recession in 1983, it had dipped to \$360 million. Today it's on an upward curve of \$600 million - up 80 percent since the recession, but still below the peak of

Proposal B would reduce operating property taxes by a gross of \$1.3 billion, minus \$200 million in lost "circuit breaker" rebates. Those rebates are paid to families whose property taxes exceed 3.5 percent of

household income.

The most controversial portion of Proposal B, however, is tax base sharing. Some 14 mills of property taxes on business, and nine mills from farms and homes, would be collected in a statewide pot.

To farm districts, that is elemental fairness - helping kids regardless of which side of a political boundary they live on. To suburbs which recruited high-tech plants and malls and now live with the congestion, Proposal B smacks of radical, sharethe-wealth "Marxism."

If, as widely predicted, both proposals fail, many school districts will be in trouble, either immediately or in a couple of years.

So in the meantime, two educationoriented senators - John Schwarz, R-Battle Creek, and Jack Faxon, D-Farmington Hills - are preparing a bill to reduce the number of K-12 school districts from some 560 to about 250.

First targets for consolidation would be districts with fewer than 2,000 pupils.

Funding proposals draw mixed reaction

Here is the wording Michigan voters will see on the Nov. 7 ballot for two school finance proposals, followed by lists of supporters:

PROPOSAL A

"A proposal to increase the sales / use tax from 4 cents to 4.5 cents per dollar and constitutionally dedicate funds for local schools.

'The proposed constitutional amendment would:

"1) Constitutionally dedicate to schools: a) half-cent increase in sales / use tax; b) current statutory revenue sources, including lottery profits and some cigarette / liquor taxes: c) increased share of existing sales / use tax (51 percent to 68 percent) to substantially replace annual school appropriation.

"2) Distribute dedicated funds to school districts as provided by law. "3) Activate increased statutory

penalty to deny 100 percent of state funds to schools not adopting core curriculum and improvement plans. "Should this proposal be adopted?'

PROPOSAL B

"A proposal to increase the sales / use tax from 4 cents to 6 cents per dollar, reduce school property taxes, set permanent school operating millages not subject to voter renewal, and constitutionally dedicate funds for local schools.

"The proposed constitutional amendment would:

"1) Constitutionally dedicate to schools: a) 2 cents increase in sales / use tax; b) current statutory revenue sources, including lottery profits and some cigarette/liquor taxes; c) increased share of existing sales/use tax (51 percent to 75 percent) to substantially replace annual school appropriation.

"2) Reduce property taxes in most school districts. Replace school taxes

with permanent statewide millage (9 mills on residential / farm; 14 mills on businesses) plus non-voted local millage not subject to voter rollback. Limit voter-approved increases to 4

"3) Set per-pupil funding guarantees subject to change by law requiring two-thirds vote.

(4) Activate increased statutory penalty to deny all non-guaranteed state funds to schools not adopting core curriculum and improvement

"Should this proposal be adopted?"

SUPPORTING A: Gov. James Blanchard, Michigan Education Association, Michigan Manufacturers Association, General Motors Corp., Ford Motor Co., Chrysler Corp., Upjohn Co., many large retailers, most major unions.

SUPPORTING B: Michigan League of Women Voters; 10 Republican state senators, but none from Oakland or Wayne counties; 23 state representatives; Michigan Association of Realtors; Michigan Municipal League; New Detroit Inc.; Michigan Association of School Boards; Michigan Association of Secondary School Principals; Northern Michigan Schools Association; Michigan In-formula Caucus; Michigan Association of Intermediate School Administrators; Boards United for Fair Funding for

OPPOSED TO BOTH: The Northville School Board voted last week not to support either proposal; Senate Majority Leader John Engler, R-Mount Pleasant; Michigan State Chamber of Commerce; Taxpayers United (umbrella organization of Richard Headlee, includes many smaller groups); Citizens Unfairly

Health Care. . .

Ballot proposals impact local voters

What could the ballot proposals — A and B — mean to Northville

According to information compiled from a 1990-91 projected districtby-district simulation of the two school finance proposals as prepared by the House Fiscal Agency, Michigan House of Representatives, the following millage and relief. funding changes would occur depending on the voting outcome:

Currently in Northville the school operating millage is at 33 mills. If Proposal A were to pass there would be no reduction in mills. The current per pupil funding in Northville stands at \$4,795, If Proposal A were to pass, in 1990-91 the per pupil funding in Northville would rise to \$5,315.

Under Proposal B, Northville's current 33 mills would go down by 28 percent to 24 mills. The per pupil spending would rise for the 1990-91

Under Proposal A there would be

a half-cent sales and use tax. There would be no property tax relief. The exact distribution formula for the additional money would be decided by the state legislature.

Under Proposal B, although Northville's overall millage rate would decrease, many residents may not feel a direct change in property tax

The decrease in property taxes could be offset by the two cent rise in sales and use tax, and the possibility of further millage increases. Proposal B would do away with the Headlee Tax Limitation Amendment and would allow individual districts the ability to pass up to 4 mill increases to subsidize the state plan.

Whether Northville property owners would realize a net decrease depends on the rate of assessment increases in addition to the effects of the loss of the property tax deduction from the federal income

1989 Northville City Council Election

The, Candidates' **VIEWS**

Do you favor passage of the park millage? Does the city need more active and/or passive recreation land, and if so, how would you provide it?

Mayor Chris Johnson is running unopposed for re-election. Three candidates are vying for two four-year terms on the Northville City Council. The election is Tuesday, Nov. 7

Christopher Johnson - mayor

Yes The recent donation of land to the township provides the community with a unique opportunity to develop fields in a central location to all of our residents The costs to develop this property should be less expensive than the Beck Road site.

The development of fields and parks is not within the

cost scale that can be accomplished only upon donation. The projected loss of many of our local fields will put several programs in jeopardy soon Years spent in developing the community's soccer program will be hurt in waiting. In addition, providing these programs to our youth gives constructive alternatives to our children

Private recreation will only permit those with funds to be active. In the long run, recreation must not only be for those with money

G. Dewey Gardner - council

l am in favor of park millage for capital improvements. The recreation programs are selfsupporting through their participation but additional funds are necessary for development of grounds and equipment.

The proposed park millage is to be levied for a specified time and for a definite purpose and not to be used as

operational funds. We have unimproved land and the prospects of more that can be used if the funds are available

Passive recreation land is a good interim but not a good investment for future needs.

This is part three in a series of three questions presented to each candidate for city office by The Northville Record. Each candidate's prepared reponse is printed above. The other questions will appear in future issues of The Record.

Kevin Hartshorne - council

As additional recreational facilities are built to accomodate growth I think we are going to reach the point, if we haven't already, where no significant benefit will accrue to residents of the city worth the increased financial burdens. One point I would like to emphasize is the sheer difference in size between the city and township and how that im-

pacts the joint agreements between the two municipalities. If the city split from the township would the city need a new library? If the city had its own recreation department would new ball diamonds and soccer fields be necessary? Some very interesting questions have developed for the city with the events surrounding the land at Six Mile and Sheldon. Yes there is plenty of land for soccer fields, ball diamonds and a public library but we must carefully weigh these benefits against our needs.

Could the difference in millage rates be partly explained by city taxpayers paying too much of the township's

One approach would be to sell the land on Beck to help offset the proposed construction at Six and Sheldon. But first I think we have to reassess the entire joint operating agreement to determine at what point to place a cap on the liabilities encumbered on city residents to pay for the future growth of the township.

Therefore I do not think it would be wise to pass a millage vote for development at the prison site at this

Jerome Mittman - council

Most of the land currently used for Northville Community (city and township) recreation programs is 'loaned'' on a temporary basis Very few of the fields are owned by the city or township and under their complete control for longterm usage. At present the community is faced with possible loss of two major parcels on "loan" for soccer

and baseball programs (Lapham Field and Training Center) This would have a devastating effect on both programs and on the Recreation Department's ability to serve a growing community.

A 38-acre parcel of land on Beck Road, owned by the

township and intended for recreation use, remains undeveloped due to lack of funds. In adition, a new opportunity exists with the donation of the 72-acre parcel at Six Mile and Sheldon to the township. Passage of the millage will enable development of recreation fields at one of these locations and help assure the continued viability of our outdoor recreation programs.

I recommend passage of the millage. Recreation is a community program and requires support of both city and township residents to be successful and costeffective. While concerned about the added tax burden, I believe recreation land development is essential and that restricting the funds to development only (not ongoing operations), and for a limit of two years, as reflected in the millage proposal, are adequate safeguards.

While no major recreation land developments are: practical within the city, the neighborhood park system should be reviewed to assure that the needs of the residents are being served. This is to be considered in the master plan study.

TIPS FROM TUCHKLAPER Novi Dental Center 4 A. Allen Tuchklaper D.D.S.

CHEEKBITING

Without a doubt many of us have had the experience of unconsciously biting the inner side of our cheek. If you are tense, or have generalized anxiety, this may manifest itself when you are sleeping, or even when you are awake. One of the ways you may express tension is by clenching or grinding your teeth. This is called bruxing. Many people do it at night when they sleep. This may include biting your cheek or lip unconsciously. Normally, it will heal in a few days if you don't keep chewing

on that area. If you have a continuing problém, your dentist can check the relationship of your bite to see if there are any irregularities on the teeth

surfaces that are contributing to your bruxing habit. If there are, they can easily be eliminated.

He may also find a sharp cusp, or an incorrect relationship of teeth in the cheek area. Again, he can correct this easily. Lastly, he may suggest you wear a Hawley-type night guard appliance, or a bite guard to help break the habit and permit him to check your bite even more precisely.

Waste Systems

Equalized Residential Collection

A "New" Idea For Controlling Your Residential Trash Costs

Designed for: Senior Citizens, Singles, Low Volume Generators

HOW IT WORKS

- You the customer purchase trash bags directly from BFI. They are available in designated quantities
- This would be the only charge involved in your residential trash removal service
- Customer's using this system put their trash in BFI bags, and place them at the curb. The bags are marked with the BEI logo for easy recognition BFI residential service drivers collects

all BFI trash bags as they travel

- throughout your neighborhood on your scheduled collection day When you begin to run low on bags
- just give BFI a call! Our Customer Service Representative will handle your order, and they will be delivered directly to your door

THE BENEFIT TO YOU

- Collection service for as little as \$4.00. per month
- People with small volumes of trash pay for the volumes they generate only
- Those with larger volumes will not be limited in number of bags they set out BH will pick up every BH bag at the
- You control the cost of your residential trash service

Hampton, Anderson debate merits of park millage

Continued from Page 1

came from the public coffers. So I'm personally indebted to the taxpayers of Northville for allowing a bunch of old men to get out there and play softball. Now the only reason we're playing here is because it's offered. Two years ago we played in Canton's Softball City. The cost was more expensive, but I was willing to bear it because I wanted to play.

RECORD: Would that go for youth leagues as well, where it would be a pay-for-play situation?

HAMPTON: I thoroughly agree with that, and it gets back to very fundamental principles. Parents have to make very hard decisions about what their kids do. We tend to subsidize baseball and soccer because to a certain extent all kids do that so it's a very large specialinterest group. But parents don't get piano lessons, skating lessons, or bockey lessons, those are not subsidized by the taxpayers. Why? Because they're a smaller interest group and they don't have the clout that the soccer players and baseball

I think parents will make that hard decision, how much they want their kids to play baseball. If they think it's worth it, then they'll pay the extra \$40 a summer.

RECORD: What about parents who ccn't afford the extra fees?

HAMPTON: In Northville? In Northville we have without question probably one of the three or four most affluent zip codes in Michigan. If that were not available, the Starting Gate sponsors my baseball team and my volleyball team. It's a very simple fact to have some of these people help

ANDERSON: Well, we have talked with Canton Softball Center and they were not interested in developing something like the Beck Road park. Quite frankly, it didn't look like they'd be able to make any money on it. When you're talking about the costs at Canton Softball, you're also factoring in some profit. We don't do that because that is not our job to make profit. Our job is to provide service. The Canton Softball Center doesn't really get into youth baseball. The market is adult softball.

RECORD: Mr. Anderson, where is this need for additional fields coming

ANDERSON: The population in Northville is growing. I think we'll have 500 more students this year over last year, and we're getting the influx of youngsters and essentially looking at cutting back on the number of

JEFF HAMPTON

children's recreation should get the

emphasis. At a privately-run lit field.

they cycle about 1,000 players a week

through a ball diamond down there.

Now, granted, those are one and a

half hour turns, they're seven days a

week. But very conservatively, a lit

baseball diamond can accomodate

probably somewhere between 650 to

700 kids a week if managed the way

that a private field is. Given that, we

think that if there was any problem

with capacity with the existing fields,

the first thing that should go would be

the adult programs. As I said, until

just this year we were playing in Can-

If there truly is a need, if the

market says we need more fields,

then they will be built. I think the

reason that you don't have private

developers coming in is that they

can't run a team for \$200, \$250. A lot

of the overhead of maintaining a soft-

ball program is picked up by the tax-

for the kids to play, and that's what we're trying to do with the community park.

The flyer that was handed out at the last election made a point that the State Park was 1,000 acres, and the Wayne County parklands were a certain amount of acres, and I think that confused some of the voters into thinking that we didn't need land. We have to reiterate that the focus of the state park is as a state park.

The flyer from the last election was also saying that we didn't need to duplicate some of these facilities, when in fact we are using the facilities that are in the Wayne County park system for our leagues. That is the field that Mr. Hampton played on. We are using school fields, we are using the things that we have, and we're still short.

RECORD: Mr. Hampton, has there been a change in your position since your group first opposed the need for any additional recreation fields last

HAMPTON: No, not really. I think we just brought up some other areas fields. We have to have some place of interest. We think that, first of all,

Not only that, we're talking about property that is not producing revenue for the tax base. That \$800 down there in Canton is producing revenue for the city of Canton. We're talking about having 72 acres here taken off the tax rolls. What is the cost to the city to have all of these properties taken off the tax rolls? It's considerable.

ANDERSON: Just a clarification, when you're talking about three or four games a night, you're talking about adult softball. Kid's games do take longer, some of them up to two and a half hours, and when you have a lit ball diamond you're probably talking about two baseball games per

RECORD: Mr. Anderson, what happens to the Beck Road site if the

Sheldon site is developed? ANDERSON: That will still re-

SINCE 1948

main community property. We have not sat still over the past seveal years since we've had that property. We have explored options of getting the thing funded, and the time comes when you finally have to get something going. We've written several grants and been unsuccessful there. With the state's scoring system we don't score well enough to get a grant at the state level for the development of it. We've advertised in trade journals for contractors that do this type of thing, and also some places where people invest money when they know about a project, and we didn't get any response to those inquiries and advertisements. But in answer to your question we will keep the thing and we will try other

RECORD: Mr. Anderson, do you see a conflict in the fact that the millage was originally intended for development of the Beck Road site?

ANDERSON: At the time that the effort was made in the last millage

election, that was the only large,

AT AN ASTONISHING

END-OF-SEASON

CLEARANCE

KITCHEN & BATH CABINETS

undeveloped parcel that the community owned. Now, with the donation of the Haller site, we have two large, undeveloped parcels.

RECORD: Mr. Hampton, do you think the city needs a recreation department at all?

HAMPTON: No. We realize, Citizens for a Better Northville, that it's there. If it is going to be there, we don't think they should be competing with the private sector. The only way that you can prevent them from competing is to charge fees that are equivalent to what you see out in the private sector.

I think you've asked a very fundamental question. What is the proper function of government? The proper function of government is to protect its citizens, to adjudicate differences between those citizens, and provide the services for those citizens that they cannot provide for themselves. Citizens provide their own piano lessons, skating lessons, dancing lessons.

It's really a question of fundamental philosophy. We're laissez-faire capitalists, I believe is what you'd call us, and we believe in the real fun-damental principles that the nation was founded upon that you pay for what you get and you get for what you pay.

RECORD: Do you feel your organization represents the majority of the citizens in Northville?

HAMPTON: From the results of the last election. I would say that we do represent the majority. Northville is one of the most heavily taxed municipalities in Wayne County and in Michigan when you come right down to it. A lot of the people are asking "Why, what do we get for that?" I think we're pretty well in tune, that this is an affluent community and people realize that they should pay for what they get.

ANDERSON: If I can allude to Jeff's last flyer during the election, there was one statement that said that higher taxes mean lower property values. Then at the bottom it said that Wayne County taxpayers pay the most taxes. It seems to be saying two different things.
Going back to the other question of

whether a Recreation Department is needed, I think we do provide a lot of services that the general community does need and does use, and I don't see us much in competition with the private sector, at least in the things that we're talking about with the community park, soccer and baseball. I'm not aware of any private places that run youth sports. That generally seems to be a function

Bollin said the development of a composting and solid waste strategy must fall within guidelines imposed by Wayne County and the Michigan won't have to start separating recyclable items from other household trash just yet, but the first Department of Natural Resources. She said the county has supported terms of the application, which will be reviewed by state committees before it can be recommended to the state legislature.

Recycling plan wins favor

By MIKE TYREE

Northville Township residents

steps toward an area management

The township Board of Trustees voted 6-1 Oct. 12 to accept the Western Townships Utilities Authori-ty (WTUA) Solid Wastes Alter-

natives Strategy.

The vote represented a show of

support for an application made by

WTUA to the state's Quality of Life Bond Program for \$800,000. If receiv-

ed, the funding would be combined with \$242,000 already awarded WTUA to structure a recycling and

composting program.

Of the \$800,000, \$500,000 is

designated for the recycling pro-

gram, \$50,000 is for resource

recovery education (public rela-

tions), and \$250,000 is to be used for market development research and

WTUA is an organization consisting of Plymouth, Northville, and

Canton Townships which was created

to acquire and operate a sewage and

disposal system, a solid waste

management system, and/or a water

By supporting the application, the

WTUA Executive Director Ann Bollin presented the plan to the board, and said seeking alternatives to landfill operations are vital to the future of the member communities. "The impact this will have is

tremendous," she said. "We're runn-

ing out of landfill space and we need

to implement plans to handle com-

post and all residential waste.'

WTUA member communities agreed to several stipulations, including a

demonstration.

supply system.

quirements.

plan for garbage have been taken.

She said the legislature will most likely review the recycling and composting plan in Feb. 1991.

Although the application proposal passed easily, several members of the board expressed reservations about the plan.

"I've got a problem with this," said trustee Thomas Handyside. "This is the first time we've heard anything about this in great detail."

'It bothers me, it's not specific,' added trustee James Nowka.

Both board members supported the plan after Bollin's assurances that the township would retain the right to drop out of the program before actual implementation takes effect.

Trustee Richard Allen cast the lone nay vote for the recycling plan.

Other board members pushed for the WTUA plan. Supervisor Georgina Goss said a plan for composting and recycling was vital to the communitv. and Richard Henningsen, attending his last meeting as township treasurer, also spoke in the plan's

required 25 per cent matching fund, a "We've got to start somewhere," he said. "There may some failures six year advancement of the pro-(initially) . . . but it will be beneficial gram, cost overrun coverage, and other, unstated minimum grant re-

in the future.'

The proposed composting project, which has already received bond money, would establish the collection, hauling, composting, and redistribution of grass clippings, leaves, wood, brush, and other materials defined by the plan. The collected materials would be delivered to a site in Canton through a contract with Canton Waste Recycling.

The solid waste plan, according to Bollin, would investigate and eventually implement a strategy to process the solid waste into an anticorrosive rock salt substitute.

She said the application and public relations plan would need "aggressive management," and said she would be back before the township board within the next two months. "We'll be making budget presenta-

tions and asking for match money and operational costs to cover administrative costs," she said. She would not estimate what those costs would be, but she agreed Northville Township's share of the expense would be well under six figures.

"We're very fortunate to have received the composting monies the first time around," she said. "We're enhancing what we originally were going to do.

Bollin admitted that getting the state to release funds wasn't always the most difficult part of initiating a

recycling plan. 'Selling the program, that's where the action is," she said.

NOTICE TO THE RESIDENTS OF THE CHARTER TOWNSHIP OF NORTHVILLE

Township rejects site plan requests

By MIKE TYREE

The Northville Township Planning Commission met for its regular October meeting Halloween night, and at least two groups seeking preliminary approval for development plans walked away feeling less than treated.

The commission unanimously rejected a request by Bonnie Brook Builders of Livonia to qualify a 12.5 acre site on the southwest corner of Seven Mile Road and Francis Avenue as a cluster option for proposed family development.

The planners also rejected a preliminary site plan which sought to convert a residence at 43777 Six Mile Road to a house of worship for the St. James American Catholic Church.

James Krupa, architect for the Bonnie Brook Builders group, asked the planning commission to consider the Seven Mile site a cluster option because of the percentage of wetlands and woodlands area which is located on the property. Krupka stated that the area contained poor soil conditions, was in a natural floodplain, and had natural assets (in reference to the wetlands and woodlands).

Section 14.5 of the Township Zoning Ordinance does allow developers to petition for the cluster option, which would allow them to build condominiums and/or attached structures if development hardships do exist. In the case of the Bonnie Brook group, however, the commission decided no such hardship had been proven.

When asked by Commission Chairman Charles De Land why the group should be able to build a cluster development in an area zoned for single family residences, Krupa said he wanted to be able to build homes that reflected the "natural characteristics" of the surrounding

"It should only enhance Northville Township and the adjacent property," he added.

The commissioners apparently did not see things the same way.

Pointing out that nearby homes sit on an average of one acre apiece, Commissioner John Leinonen asked Krupa about the potential impact to those residences.

'How do you assess the degree of harmony (between the existing homes and the proposed development)?" he asked.

Krupa restated his belief that the new development would tie in nicely with area homes, but the commissioners disagreed.

We've been reviewing larger lot sizes to keep houses further apart," said Commissioner Pat Wright. "This is a contrast (to that idea)."

Approximately 40 members in the audience applauded when the commission denied the cluster option.

The commission was even less receptive to the proposed church preliminary site plan on Six Mile Road. De Land called the site plan 'inappropriate, insufficient for meaningful review," and the planners rejected the proposal after hearing only from their review agents.

Parking changes due for structure

By STEPHEN KELLMAN

City residents to the south should appreciate the latest change to the MainCenter parking structure bet-

ween Center and Wing streets.
Rich and Associates of Southfield, developers of the deck, have proposed shortening the structure and moving its south wall north by 24 feet, creating a 34-foot barrier between it and the neighboring property line.

The structure incorporates three and a half floors of covered parking, a floor of roof parking, and a walkway over Cady Street to the mixed-use MainCentre complex.

The purpose of the move is to allow the southern entrance to the remainder of the MAGS parking lot to remain outside the strucure, allowing vehicles of any size to enter and exit the lot by that exit. The previous proposal had the drive running through the end of the parking structure, preventing vehicles except

passenger cars from entering the lot

The new proposal would cut the number of parking spaces in the entire lot from 692 to 656, still above the number required by the MainCentre development and the proposed Longs development on the north side of Main Street.

City Manager Steven Walters presented the new proposal at recent meetings of both the City Council and Downtown Development Authority, and received support for the idea. DDA members also asked if the structure could be moved up to 15 feet west, to lessen its visual impact on Center Street. The proposal currently includes 15 feet for landscaping on both the east and west side, and the DDA preferred having up to 30 feet of landscaping on Center Street instead. The west side of the lot overlooks the remainder of the MAGS parking lot.

District adds buses

By MIKE TYREE

Northville Public Schools will soon add six new buses to their transporta-

At the Oct. 23 Board of Education meeting, Assistant Superintendent Dr. Burton Knighton announced the awarding of a bid for two 72-passenger diesel engine buses to Hoekstra Truck Equipment Co. at a cost of \$54,482 each.

Hoekstra Truck is the only company in the general geographic area that handles the type of short turning radius bus desired by the school

Contracts for the other buses were awarded to low bidder Bielfield Ford. Bielfield will supply the school district with three 66-passenger diesels and one 54-passenger orthopedic diesel with Wayne bodies.

Prices for the buses purchased from Bielfield were \$46,933 each for the 66-passenger buses, and \$48,706 for the 54-passenger vehicle.

The other bidders for the latter two buses were Motor City Ford and Jack Demmer Ford.

Knighton said the new vehicles would be paid for with funds gained through the recent bond issuance approved by school district voters in October.

Knighton said the district presently lists 34 buses among its fleet. Of that number, 25 are listed in good running condition, two are in fair condition, one is in poor condition, and six of the buses are considered junk, fit only for parts transference use.

is your family worth forty bucks?

We think so, But most people don't know what we know. Your furnace may be slowly killing you and your family. Monoxide gas is tasteless and oderless and deadly.

If you haven't considered checking it out, you're not worth a dime.

Serving the Metro Area Since 1938

Old Phoenix Mill listed as state historic building

The Michigan Historical Commission has listed the old Phoenix Mill site — now a Wayne County public works building — in the State Register of Historic Sites.

The Phoenix Mill, on Northville Road near Five Mile, is a two-story building with one story exposed at the main entrance grade, and the full two stories above grade at the rear of the structure. The building has a flat roof and is rectangular in plan, with the long sides divided into six equal bays of large windows, and the short sides regulated by two bays. The form, choice of building materials, lack of ornament and organization of the facades, give the building a pronounced industrial appearance.

Phoenix Mill, the third of Henry Ford's village industries, was built in 1922 and opened on Nov. 6 of that year. The village industries represented a new concept in large-scale industrial production, and reflected the rapidly changing nature of the American economy and society in the early 20th century.

Concerned with the mass migration of rural people from farms to large industrial cities for economic survival, Henry Ford viewed the village industries as a means of reconciling traditional rural life with modern industry. Ford's proposal called for small manufactories located in villages near streams that could be utilized as cheap power sources, and scattered throughout the countryside.

In this way, he hoped to give rural people the opportunity to remain on the family farm while being employed at the nearest village industry. In Wayne County, many of the village industry plants were constructed with the cooperation of the Wayne County Road Commission under the Public Works Administration and Federal Emergency Relief Administration programs.

The commission aided in the improvement of the hydraulics of existing mill races, and the construction of new roads and dams to be used to power the mill generators. In return, the Ford Motor Company donated the areas surrounding newly created small lakes and ponds to the county for use as recreation facilities.

Phoenix Mill was used primarily for the production of small electrical devices including voltage regulators and generator cutouts for autos, and was unique in that it primarily employed women. Between 50 and 100 women were employed at the facility, each making five dollars a day with two scheduled rest periods. By comparison, Ford employed men at a wage of six dollars per day with no rest periods.

In 1942 the plant began production of parts for tank and gun carriers and the labor force employed at the Phoenix Mill peaked at two hundred. In 1947 the mill was permanently closed, as Ford Motor Company began to phase out the village industries. The plant was deeded to the Wayne County Road Commission to be incorporated into the Middle Rouge Parkway.

The State Register was established by Act 10 of the Public Acts of 1955 to recognize historic sites in Michigan. This designation also enables the purchase and display of an official state identification marker noting the name of the site and the year of its listing. Sites with unusual historical significance may, upon application to the commission, also be deemed eligible for an informational

Students aware

Club explores environmental issues

By MIKE TYREE

Last Thursday's final bell sent the bulk of Northville High School's student population streaming home, or to the practice field, or to other endeavors close to the heart of the average teenager. But nearly 100 students stayed behind and wedged themselves into a room to plot strategy for the balance of the school

The students weren't discussing homecoming, or next week's dance, or any one of the seemingly endless fundraising ventures normally associated with high school-aged kids. The students met to talk about the environment, about human and animal rights, and about recycling.

The organizational meeting of Students Aware of the World (SAW) attracted the dedicated, concerned, and just plain curious among the Northville student body.

SAW founder and President Jason Baker said he formed the group because he wanted to get involved with issues affecting the world today. And he wanted to get the word out that people can and should change their attitude toward today's headlines.

"It's all about awareness," he said. "We hope to inform the community and students about environmental issues and work to make some

positive changes."
Baker said SAW will receive input from such organizations as Greenpeace, Amnesty International, and People for Ethical Treatment of Animals, and will focus much of its energy on recycling programs around the Northville area. Baker said the impetus for the group came from frustrations he had with current

"Things like the revolution in China and the Exxon oil spill infuriated me," he said. "I thought, why not get involved and get others in the school organized so that we can address some of these problems. At least one of the issues we will be looking at touches someone here. Mr. Redmond (NHS assistant principal) said we could go ahead, and now we've got at least 100 people interested in the group."

Redmond said the new group was sanctioned by the school, and he said he was interested to see how the students handled topics which many would deem controversial.

"I see the group fitting in very well from an educational standpoint," he said. "It's a new club, and it has the

resources and energy of a new club. "It might have a lot of value as an educational tool," he added. Whether this interest is maintained

will show at the second meeting."

Baker said the group would be

looking into collecting recycleable items for shipment to a collection center in Livonia. He said that even though SAW was a school organization, the district itself may be asked

some difficult questions. Does our school use the heavy pollutant type of Styrofoam?" he asked. "If so, we want to get it out of here. Is it possible for us to use recycleable paper? These are some

of the things we will be asking.
"The main thing is to get things
done," he said. "We're concerned
about China, the (Amazon) rain forests, animal treatment and the en-

Like many initial get-togethers, the SAW meeting suffered from disorganization. But raw enthusiasm ruled the event, as students chimed in with questions and comments ranging from the sale of ivory to the use of animals in test laboratories. Baker said he sensed real dedication from his peers.

"If we get a lot of people involved, we can make a difference," he said.
Students Aware of the World will

hold its next meeting after school Nov. 16, at which time officers will be elected, groups formed, and agendas set. And it's a sure bet that the majority of the conversation at the meeting won't center on what someone's friend wore to the dance last

Many vie for treasurer post

DONALD B. SEVERANCE

Longtime Northville resident Donald B. Severance, 80, died Oct. 25 at St. Mary Hospital in Livonia. Mr. Severance was born Nov. 17, 1908 in Swartz Creek to Chester C. and Bessie M (Bone) Severance.

He is survived by his wife Hazel; son David B. Severance of Ann Arbor, daughter Mary Severance Stern of Northville; sister Helen J. Henderson of Grand Rapids; two grandchildren and one great grandchild.

Mr. Severance came to Northville in 1946 He was admitted to the Michigan State Bar in 1929 at the age of 21 after an apprenticeship to Fred T. Miles, and after summer courses at Detroit College of Law. He was court reporter for Wayne Circuit Judge Arthur Webster, U.S. District Judge Frank A. Picard and U.S. District Judge Talbot Smith. He established a full legal practice upon retirement from court reporting in 1968.

Mr. Severance was a member of the Northville Rotary Club; a former president of the Northville Optimist Club; a member of the Veterans of Foreign Wars Northville Unit; and Past Commander of American Legion Post 147-

He was president of the Michigan Court Reporters Association from 1955-56. He was a member of the Northville School Board. He was a commissioned Naval officer during World War II. He was second in command of a base in Brazil.

Mr. Severance's secretary Maureen M. Settles noted that his country, town, family and friends meant everything to him. "I believe Mr. Severance was a rare individual," she said. "He was truly a gentleman.'

Members of the Northville Rotary Club spoke of his deep affection for Northville and the service organization. "He had done the club bulletin for as long as I have known," current Rotary President John Sassaman said. "He definitely will be missed. I

don't ever remember him missing a (Rotary) lunch. If you didn't see Don there, you may have had the wrong day. He worked on all the Rotary projects and never asked

for anything back," Sassaman said. Phil Ogilvie, an attorney and 40 year acquaintance, noted that Mr.

Severance never could remain retired. "He retired from court reporting and opened up a practice in Northville. He retired again in 1977-78 and that didn't last too long. He got too many calls from his old clients . . . so he went back to work. He was a good Rotarian. On any project we had we could always count on him.'

Lee Holland, another longtime Northville friend and business associate said the fact that his "clients wouldn't let him retire was really a testimonial to him." Holland said "he formed a very close bond with his clients. I knew him many, many years and he never had a bad thing to say about anyone."

Funeral services for Mr. Severance were held Saturday, Oct. 28 at the Casterline Funeral Home in Northville. Rev. Eric S. Hammar of the First United Methodist Church in Northville officiated. Interment was at Rural Hill Cemetery in Northville. Veterans of both the V.F.W. and American Legion were pallbearers.

The family would appreciate memorials be made to the Arthritis Foundation.

Cady Corridor reviewed

By STEPHEN KELLMAN

Northville City's Downtown Development Authority (DDA) is still searching for direction in the development of Cady Corridor.

At their Tuesday morning meeting the DDA reviewed several development proposals for the area, including ones by Ayres, Lewis, Norris and May of Ann Arbor and Trammell Crow of Novi.

The five-story, 540-foot long Trammell Crow development would stretch the length of Cady Street from Center to Church Street. A sinaller one-story retail building would be located on the northeast side of the block, between Main and Cady streets. The main structure would include two levels of underground parking, a floor of retail space at the Main Street level, and two floors of offices above the retail.

According to a summary of the latest four alternatives compiled by city consultant Don Wortman, the Trammell Crow design would provide 512,675 square feet of retail and 60,000 square feet of office space. Wortman is a planner with Ayres, Lewis, Norris and May, the company that submitted the other three alternatives. The Trammell Crow design would also provide 322 parking spaces, not enough to meet the needs of the retail and office space created.

Benefits of the Trammel Crow design cited by DDA members included the fact that the design provides for a large public plaza, and vehicular access to the plaza and retail area. Drawbacks included the fact that the development would and the project would require relocating the existing retail outlets on the site

The latest Ayres, Lewis, Norris and May design would, Wortman wrote, combine the existing retail outiets on the east side of the lot with an additional 23,850 square feet of retail and 10,000 square feet of office space. The concept grew out of previous DDA comments that the city may not be easily able to acquire the existing retail outlets on the site,

including the Domino's Pizza outlet. "One of the advantages is that it would allow a phase-type program," Wortman said of the concept. "We've got to think in terms of five or ten years." The concept would allow the city to further develop the site in several years, if able to acquire the land and funding.

Wortman was also commended for compiling a list of suggested policies for the project, including:

 Allowing no "net loss" of parking for the Cady Street area.

 Orienting shops along Cady Street to Main Street.

 Promoting a strong pedestrian linkage between Cady Street and Main Street. Promoting close in, Main Street

level parking in the vicinity of Mary Alexander Court. Widening and enhancing the Town Square and use the Town

Square as a means to draw people from Main Street to the Cady area.

 Considering the hillside slopes along Cady Corridor for maximum parking and traffic flow.

• Providing a mix of parking, retail

and office for new development in the Cady Street area.

Mayor Chris Johnson suggested that the word "residential" be added to the last point, and the market be allowed to determine the exact type of development in the area. The main point, he said, was that a mix of development was needed in the area to provide a strong tax base.

Johnson also mentioned the need for a project that did not require much financial support from the city. The parking doesn't really pay for itself, so the project must support the parking," he said. Wortman agreed, saying, "What (Trammell Crow) were saying was, 'we'll worry about the parking later'."

The DDA also agreed on the need to come to a conclusion on the exact nature of the proposed project. Said member William Sliger, "I do feel we have to agree on what we really want to do." He pointed out that the Trammell Crow plan would move the focus of the development to Mary Alexander Court. "To do that," he said, 'we've really turned our backs on Cady Street, we've left it a dead alley.'

trying to define the scope of this project," Wortman agreed He is a state of the st "We all share some difficulty in Wortman agreed. He added that the DDA had originally considered the entire area south to Seven Mile Road as part of the Cady Corridor study, but eventually confined the area to its present boundaries.

"We're trying to enhance the economic viability of the downtown while preserving the small-town atmosphere," he said.

bituaries

LAWRENCE A. FRITZ

Lawrence A. Fritz, 72, died Oct. 16

ın Yucaipa, Fla. He was born Jan. 14, 1917 in Northville, Mich., the son of Ambrose , and Lillian Fritz. He was a Northville resident for 42 years.

Fritz of Yucaipa, Calif.; three daughters, Hazel Coleman and Phyllis Breece both of Anaheim. Calif., and Dorothy Miller of Baraga, Mich.; eight grandchildren and five great-grandchildren; four sisters, Theda Lyke of South Lyon, Mildred Honsinger of Central Lake, Mich., and Lillian Ash of Plymouth; three brothers, Harold Fritz and Leonard Fritz of Northville and Josephine * Childes and Linwood Fritz of Florida. Funeral Services were held Oct. 20 t in Yucaipa, Fla.

HAZEL B. MELLEN

Funeral services for Mrs. Hazel Mellen, 85, of Novi were held recently in Thayer-Rock Funeral Home in Farmington with burial at Rural Hill Cemetery in Northville. Officiating was the Rev. Charles R. Jacobs.

With M-CARE, the sky is not the limit.

There's a serious accident. Time is crucial. A helicopter is dispatched to speed the victim to the University of Michigan Burn Center...a service you, hopefully, will never have to call on. But it's there if you need it, and much, much more through M-CARE.

M-CARE is the only HMO that links all the resources of the U of M Medical Center to the personal care of your family doctor and your nearby hospital. M-CARE covers you for office visits, checkups, hospitalization even emergency helicopter transport.

Of course, with the M-CARE network of hospitals in cities like Royal Oak, Dearborn and Rochester, you don't always have to go to the U of M Medical Center. But isn't it good to know it's there whenever you need it? To find out more, ask your employer. Or call M-CARE at 747-8700.

The only HMO backed by the U of M Medical Center.

2 cent increase in sales/use tax

b Current statutory revenue sources, including lottery profits and some agarette liquor taxes,
c. Increased sharo of existing seles/use tax (51% to 75%) to substantially replace annual school appropriation
2. Reduce property taxes in most school districts. Replace school taxas with permanent statewide millage (9 mills on residential/farm, 14 mills on businesses) plus non-voted local millage not subject to voter rollback. Limit voter-approved increases to

 Set per-pupil funding guarantees subject to change by law requiring 2/3 vote
 Activate increases statutory penalty to deny all non-guaranteed state funds to schools not adopting core curriculum and im LD THIS PROPOSAL BE ADOPTED?

THE REGULAR CITY ELECTION is for the purpose of electing a mayor and three members of City Council and for voting on the following two proposals to amend the Charter of the City of Novi.

CHARTER AMENDMENT PROPOSITION 1

Shall Section 9.1 of the Novi Charter be amended so as to raise the limit on annual, general ad valorem property tax levy for es tablishing and maintaining parks and recreation purpose from one-half tenth of one percent (1/2 mill) to one-tenth of one percent (1

CHARTER AMENDMENT 1 EXPLANATION

The current Charter provides that the annual, general ad valorem property tax levy for establishing and maintaining parks and recreation purposes shall not exceed one-half tenth of one percent (1/2 mill). The proposed Charter amendment will raise that limit to

347 0460

CHARTER AMENDMENT PROPOSITION 2 Shall Section 12 1 of the Novi Charter be amended so as to provide that the City Council shall establish by Ordinance those sales or purchases which must be approved by the City Council, and those sales or purchases which shall require the solicitation of

CHARTER AMENDMENT PROPOSITION 2 EXPLANATION The current Charter states that City Council must approve sales or purchases in excess of \$1,500,00 and that the City Council must approve sales or purchases in excess of \$1,500 00 and that the City Council must approve sales or purchases in excess of \$1,500 00 and that the City Council must approve sales or purchases in excess of \$3,000 00 based upon formal sealed bids. The proposed Charter amendment will require such monetary limitations to be established by Ordinance of the City Council

Absent Voter Ballots are available at the Clerk's Office

THE POLLS of said election will be open at 7 00 o'clock AM and will remain open until 8 00 o'clock PM of said day of Election

Stakes raised over Center Street parking

By STEPHEN KELLMAN

City officials have upped the ante in their ongoing conflict with the Northville Driving Club, over the use of the club's Center Street parking lot. At their Oct. 16 meeting, council members agreed to close the lot to parking until landscaping at the site was brought into compliance with a previously-approved site plan.

On Oct. 17, City Manager Steven Walters sent a letter to Marshall Davis, vice president of the club, outlining the conditions that the city would agree to for temporary parking approval to be issued to the club The conditions, which were reached at the Oct. 16 council meeting, included a project completion date on or before Nov 15 of this year, a cash bond of \$8,000 (the estimated amount required to perform the work) posted with the city until the work is completed, and an agreement with the city as to how the property will be maintained during the track's off-

As of Monday, city officials had not received a response to their letter. The Center Street lot was used for parking on Saturday, Oct. 21 and Monday, Oct 23, and were subse-

quently cited for violating a city ordinance. Walters was uncertain whether the citation would be enforced and the club actually taken to court "It could be recommended for dismissal by the city attorney," he said, "if in the meantime they come to some agreement with the city and further violate the ordinance" A court date to hear the citation has not yet been set

The Driving Club, owners of the Northville Downs property, has been involved in a silent battle with the citv for years over use of the lot opposite the main Downs parking lot.

In a recent letter to the council, Driving Club vice president Marshall Davis mentioned their ownership of a lot on Cady Street, suggesting to several of the council members that the city's use of that lot may be terminated if city officials do not allow parking at the Center Street lot. The Driving Club is currently renting the lot to the city on a 30-day cancellation

After apologizing for the delay in correcting the situation at the Center Street site, and promising that work on the landscaping would be begun by Nov 15, Davis wrote, "As you are aware in October of 1988, we granted

"They haven't been good neighbors. What's going to get them to change now?"

> - Jerry Mittman **City Council Member**

the city a temporary lease on lots 176 and 177 on Katie (sic) Street to assist in temporary parking problems that the city has It certainly is to the mutual benefit of both the City of Northville and Northville Driving Club to cooperate and continue to maintain a relationship that will be harmonious.

"Is that called blackmail," asked council member Jerry Mittman at the Oct. 16 meeting. "It's awfully close," said Mayor Chris Johnson. 'But I think in the long run it's a trade we have to make." "Based on the experience of the

past," Mittman said, "I say no cars should be parked on the lot until the plantings are completed. They haven't been good neighbors What's

going to get them to change now? The club was originally granted a variance allowing them to use the lot as a parking lot, under the condition that they maintained the landscaping on the site

Since then the landscaping has deteriorated according to city officials Trees have been knocked over and at least one is currently on its side Despite repeated requests from city officials, the damage has not been corrected

Walters sent Driving Club president Linwood Snow a letter on Oct. 10 warning him that because of his lack of response to previous letters, the city would "treat cars parked on the vacant lot as illegally parked vehicles subject to ticketing.

Walters received the above-quoted response from club vice president Marshall Davis on Oct 16.

Clean-up begins in public schools

By MIKE TYREE

Two Northville public schools are undergoing repairs to contain asbestos, but school district officials say there is no cause for alarm.

Burdo Environmental Inc., has been contracted by the Northville Public School District to begin an asbestos abatement program in Northville High School and Main Street School. The two schools were identified as needing a total of 65 feet of re-encapsulation of mechanical piping located primarily in the basements, tunnels, and mechanical rooms of the buildings.

According to Assistant Superintendent Dr. Burton Knighton, the school district has no major asbestos problem and there is no need for asbestos removal at this time. He said the cancer-causing agent commonly found in fireproofing and electrical insulation "presents no danger whatsoever" when encapsulated and not air born.

The abatement program brings the school district into compliance with Environmental Protection Agency (EPA) guidlelines, Knighton said, and Northville's plan has been accepted by the Michigan Bureau of Environmental and Occupational Health.

Knighton noted that only 25 per cent of the compliance plans presented to the state have been ac-

cepted at this time. Burdo Environmental Inc.'s bid of \$37,800 was accepted over two other bidders to handle the encapsulation work. In addition to the actual work, the sites must be monitored by a licensed asbestos consultant, and the air in the buildings tested throughout the entire encapsulation process.

Two firms, P.T.M. Consulting, Inc., and Kemrod Environmental Services Inc., have been contracted to provide monitoring services at a

total cost of just over \$16,000.

The work on the tunnels and other affected areas was to begin Oct. 24 and be completed no later than Nov. 22. In addition, the work will be performed between 3 p.m. and 11 p.m., when most of the employees and student body are not in the buildings.

Budget increase angers council

Continued from Page 1

At the city council meeting, Johnson agreed with other council members that the recreation commission should better control the growth of the budget. He did say that the proposed salary hike for the senior coordinator made sense. "Any other increases should be highlighted," he said, "and we should see the rationale for that, before the city council could approve the budget.'

For the recreation portion of the budget, the city's share has increased by 85 percent over last year to \$68,645, while the township's share has increased 9.4 percent to \$109,655. The combined shares represent less than one third of the total recreation revenues, with much of the other revenue represented by activity fees and community center rental fees.

For the senior services program, the city contribution has risen 31.5 percent to \$9,962, while the township portion has risen 32.6 percent to

A large percentage of the community benefits from those funds, Anderson said. He estimated that 8,000 residents participate in the recreation program, and said over 500 take part in the senior citizen program alone.

On the average, the township pays 62 percent of the combined community share while the city pays the other 38 percent. The percentage is based on an agreement between the city and township, said Anderson, that has remained unchanged for at least five years.

Anderson said he would submit a revised budget to the city council at their Nov. 6 meeting.

Our Opinions

Park millage still makes sense the second time around

One of the biggest issues facing Norlle city voters is one that they have seen more and more children are joining youth

\$100,000, that would be \$39.96 each year, for only two years.

Without the township, the city could afford only two years. thyrlle city voters is one that they have seen before -a .7992 mill proposal to fund a com-

Last November we urged voters to give the park millage a yes vote and it bears repeating. We recommend a YES vote on the park millage proposal in the Nov. 7 election.

Northville needs more park land. The Recreation Department has been making do with borrowed soccer and softball fields on land that does not belong to them. That land is fast disappearing. The Wayne County Training School soccer fields will soon be sold.

soccer leagues each season.

It is time for Northville to make use of the land that it does own or soon will. The former Community Park site, on Beck Road, is land that Northville owns but has not had the money to develop as a park. The Haller gift, which may soon create 72 acres of prime parkland, would also need development money to make it usable.

The park millage currently before city voters would raise a set \$732,000 dedicated for parkland development. On a house valued at

Residents can feel confident in voting for this millage for two reasons. The need for parkland is real. And the safeguards on this dedicated millage are also there. The millage will only last for two years. The money can only be used to create a community park. And only \$732,000 will be raised. If property assessments go up — the millage rate on the park millage will decrease.

Township voters have already approved the millage. Shared park and library services are a necessity for the Northville community.

very little in the way of recreational services. Together the two systems can give all residents the most recreational services and the best library services their combined populations can afford. Without each other, the communities would have smaller and secondary services.

Senior citizens activities, youth sports, and adult sports make Northville a better community in which to live. We urge all city residents to help continue the recreational programs in Northville that are fast overgrowing the space available. A yes vote on the recreation millage will do that.

Record endorses Mittman, Gardner

Northville city voters must also decide from among the three candidates vying for two seats on the city council.

We endorse JEROME MITTMAN and G. DEWEY GARDNER for the two openings.

Jerry Mittman, the only incumbent running for reelection, has proven himself to be an intelligent and well-spoken addition to the council in his first full term in office.

Mittman served briefly as an appointed council member before his election in 1987. At that time he came on board immediately as an active and outspoken member of the council. One of Mittman's attributes is his ability to explore all of the alternatives available in a situation. His clear-sighted look at all angles of a particular problem can often add perspective to a hot issue, while offering real options for other council members to discuss.

Mittman voices his opiwith the majority or as the lone dissenter. The voice of the minority viewpoint is an important one among elected officials and Mittman often provides residents and other council members, with a members, with a members with a member with a membe minority perspective compromise - two key elements in a strong council.

Mittman has experience

before moving up to city council. He is detail oriented and covers budgetary matters line-by-line, an extreme-ly important attribute.

We recommend G. Dewey Gardner for election to the second city council opening, as Gardner brings a sense of history and community involvement to the

Gardner served for 10 years on the council, acting as mayor pro-tem from 1981-1987. He has served on the Northville Beautification Commission, Historic District Commission, Downtown Development Authority, Economic Development Corporation and 35th District Court Advisory Board. He is a director of the Northville Community Chamber of Commerce and a member of the Northville Retail Merchants Associa-

Gardner is a proponent of a tight city budget and a close nions clearly and brings up watch on how and why city points that often would go finances are spent. He is both unspoken. He votes his conscience on issues, whether a resident and merchant in the city and his ties to the the city and his ties to the community are strong.

continuity as the city plans which furthers discussion and and move toward further development.

Gardner wants to main-

JEROME MITTMAN

overdevelopment and excessive growth of the downtown area. He maintains that concise development of the existing downtown will see the city into the future.

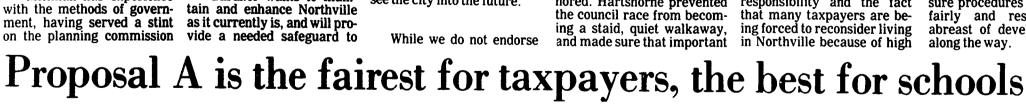

Kevin Hartshorne for either of the council seats currently open, his candidacy for council has raised important questions that should not be ignored. Hartshorne prevented G. DEWEY GARDNER

forums.

Hartshorne spoke eloquently on the need for fiscal responsibility and the fact

Record/CAREY STEVENS issues were raised in public tax bills. While the sidewalk

issue may have given rise to one aspect of Hartshorne's campaign, it also focused attention on the need to make sure procedures are followed fairly and residents kept abreast of developments all

Proposal A on the Nov. 7 ballot will not itself solve the terrible problems in Michigan's K-12 schools. But in fixing some of the financing problems that have affected our schools for years it sets the stage for the wholesale restructuring that must come.

For this reason, we urge a YES vote.

Essentially, Proposal A would raise the state sales tax by a half-cent, to 4.5 percent, and pump the resulting \$390 million per year into K-12 schools.

This would reduce the need for future property tax increases by increasing the sales tax. This makes sense, as taxing property is a poor way of equalizing the burden of taxes, as the retired person

on a fixed income who owns a nice house knows all too well.

For taxpayers, this very well could reduce the need for future millage increases.

The plan also would create a constitutionally protected fund devoted to school financing, secure from raids by the Department of Education bureaucracy. It also would siphon a quarter of the this fund.

All of this will smooth out the funding basis for our schools, which have ridden a roller coaster from pre-recession 1980 high (\$845 million in state aid) to midrecession 1983 low (\$360 million) to current semirecovery (\$600 million). Predictability of funding is an important precondition for sensible, business-like management of our schools.

It is certainly true that Proposal A itself will do little to improve school quality. A package of legislation, now bottled up in the state Senate, is supposedly going to address quality.

We shall see.

More importantly, by

old 4 percent sales tax off into clearing up the financing problems that have plagued our schools for years, Proposal A lays the groundwork for the real task: reforming our schools so our children are actually taught something and made ready to face the competitive world of the next century.

> Here is how Proposal A can improve the situation:

- All of the new tax revenue is dedicated to a constitutionally protected school
- Not only are lottery proceeds earmarked constitutionally for schools, but Proposal A dedicates even the in- to siphon off any big portion terest of \$7 million-plus that of the new money because its the lottery fund earns to share is capped at 5 percent.
 - Higher education voters reject Proposal B.

retirement costs are moved out of the school aid fund, making another \$7 million-\$10 million available for the K-12

- Twenty-five percent of the existing 4 percent sales tax is dedicated to the protected school fund.
- Portions of the existing use, industrial facilities, commercial facilities and tech park facilities taxes are dedicated to the protected school fund.

• The state Department of Education would be unable

We also recommend that

In this election, voterswill be able to vote on both proposals. If both proposals pass, the one garnering the most yes votes will win.

Proposal B would raise. sales and use tax to 6 percent. It would redistribute the industrial tax base by collecting it statewide. It would be. patently unfair to com-munities that have made sacrifices to attract industry' and put up with the inconvenience that malls and hightech plants bring.

The complex Proposal B: would result in two tiers of: property tax rates, one for business, one for homes. Proposal B would violate Michigan's principles of uniform tax rates and local control.

Readers Speak

Rec director responds to millage foe

I feel I must respond to the Letter to the Editor from Jeff Hampton of Citizens for a Better Northville. The group has some good suggestions, but is evidently unaware that several of their suggestions are already in practice, or have been attempted, or have been studied and found to be currently unworkable.

One of the purposes of the Northville Community Recreation Department is to promote and enhance recreational programs for residents of the Northville communitv. The funding of the vast majority of the programs is provided by participant fees. On that point we agree.

The suggestion to "seek reciprocal agreements with recreation departments from Novi, Plymouth, and Livonia" is currently in operation in some programs, although not to the extent suggested. In various programs where sufficient registration cannot support a program of a particular segment of the population (whether by age group, talent group, gender group, or interest group) in a community, joint programming is the alternative. Examples of current joint programming include girls basketball, boys baseball, girls softball, boys and girls soccer and cross country skiing. Some senior citizens services are also provided by this

Generally, non-resident fees are charged by most recreation departments to give preference to residents, and to give most programs a local flavor. I believe Northville residents would be upset if, with some of our limited recreational facilities, they were precluded from our local programs because of a lot of non-residents

The suggestion to "negotiate for use of other fields for use when needed" is currently being done In addition to gym and field use at all of the Northville Public Schools, we currently program the fields from the Wayne County Parks System, the Wayne County Child Development Center on Sheldon Road, Ford Field from Ford Motor Company, Lapham Field from the Lapham family, and the soccer field from Fairlane West Assembly Church. The Tanger School field is used by Plymouth Recreation. It is a Plymouth district

This suggestion was used in the previous millage election and I believe it wrongly gives the impression that there are sufficient fields and/or we are not using our local resources. Nothing is farther from the truth. We need to develop some permanent areas; ones that we can depend on to remain as park

The final suggestion offered by Citizens for a Better Northville is to "seek a developer for a SOFTBALL CITY type of facility on the Beck Road property". I believe several points are being missed:

1. The Community park will be primarily used by youth for soccer,

baseball and softball, with some adult softball. The examples referenced by Mr. Hampton are adult softball complexes with bar/restaurant facilities. There are no "private enterprise" outdoor fields for youth in southeastern Michigan.

2. The figures listed on field usage are for adult softball. A lit field generally accomodates four adult softball games, but only two baseball games because baseball games take

3. The Community Park being considered by the voters in the Nov. 7 Ci-ty election will be located at Sheldon Road and Six Mile, if the property is obtained by Northville Township.

4. There is currently a \$1.50 surcharge on all programs to obtain some park development funds. This generates \$7-8,000 per year. At this rate full funding of a park would be very difficult. It would be feasible as grant match if we were lucky enough to obtain one.

Reference to a project in Saline neglected to state that the project was begun by a company building a recreation center for its employees and that the company donated one million dollars.

It should be noted that the Northville Community Recreation Commission has long sought alternative funding solutions prior to the millage defeat last November. They feel the need in the community to provide

If Citizens for a Better Northville know of any donor interested in developing our property, we will certainly discuss it. As private development begins to emerge on the fields we are temporarily using, we must provide to replace them. The Northville community cannot afford to be waiting by the side of the road for the streetcar.

John Anderson, Director Northville Community Recreation

Yes to millage

To the Editor:

There is a concerted effort by six or so area citizens to defeat the Nov. 7 millage vote that would provide the funds to build the facilities necessary to meet the recreation needs of our community. I stress, our, as I am a resident of the City of Northville, while the leader of "Citizens for a Better Northville", Mr. Hampton, is actually a resident of Northville Township.

As our recreation department is a combined effort with the operating funds coming both from the city and the township, the millage must pass in both communities. Because last year's vote failed in the city, the needs of both communities were put on hold until a second election could be held this year.

Voters of Northville, please review the facts when you go to the polls Nov. 7 and reflect on how recreation facilities can enhance our community. Northville Township has already passed the millage, and, because of larger population, will provide twothirds of the funds required to develop the land gift at Six Mile and Sheldon. The new proposal would increase the millage for a home assessed at \$50,000 approximately \$40 annually. Do not be misled by untruths! The millage is for two years only. I believe 77 cents per week for two years is a bargain. I hope you do also. Please vote YES for the Northville Park Millage on Nov. 7.

William H. Braund

Misguided letter

A recent letter to the Editor of the Northville Record challenges the thoroughness and resourcefulness of the Northville Community Recreation program. I feel this is unfortunate and misguided.

The single sites owned and developed by our community program are the Fish Hatchery Park and Henningsen Field. These are wholly inadequate for the size and needs of the community. As a result, it is in a constant scramble to gain or replace borrowed field space.

The use of joint programs with adjacent communities is nothing new, and most of the ideas presented have been used for years.

Focused reference in the letter was made to the Canton Softball center. Commercial facilities like the Canton Softball Center and Softball City are not designed for direct community benefit, but as businesses. They are privately owned, corporate sponsored centers designed to cater to adults (21 and over) who prefer tournament and league softball only. They are huge complexes complete with restaurant and bar. It would be difficult to find a site of needed size for such a development in Northville and I am not certain this suitably befits a community recreation pro-

Northville has a good recreation program. The basic parts have been developed and maintained by an outstanding group of volunteers. The mission of our community recreation program is to reach out to the needs of all age groups.

To maintain the high quality of our recreation program and to prepare for the nuture, Northville must develop a number of its own facilities. Both the City and the Township have benefitted from the economy of a mutually supported recreation program, yet have not developed adequate physical sites for the needs of this program. The opportunity to acquire such sites has not been available before. However, this opportunity does exist now, at

park development from those who have carefully considered this issue. I urge veryone to vote YES for park development.

Jim Nowka

Medicare bills

To the Editor:

Subject: Michigan House Bill No. 4949, Mandatory Medicare Assign-

Subject bill is important for the control of Medicare rates and overcharging that can (and does) exist by doctors who seem to think that there is "no limit". Representative Michael Bennani, Chairman of Public Health, is the sponsor and will hold hearings on Nov. 12 at 11 a.m. in Lansing. I'm going and others should try to attend. It will be most interesting to hear why doctors will disagree when Medicare provides 45 percent of their \$132,000/year (average) income. People on Medicare "Beware" and ask your doctor if he accepts Medicare Assignment or you will/or may get a sur-prise billing.

Richard Schwaller

Dog days

To the Editor: DOG OWNERS HAVE MERCY!

Now, you probably think that we all should know that your dog is really very friendly and wouldn't hurt anyone. Or, perhaps, that anyone who is afraid of an unknown dog has got a problem. That is not true in either case. We have, instead, a healthy respect for a loud animal straining at the leash or circling our

As a frequent walker in the neighborhood, I can guarantee the heart-stopping feelings at the sight of an animal running toward me at full run and full "voice". It's invariably followed by the owner cooing to dog "Come back here!" and to me "Oh, he won't hurt you". That doesn't undo the damage that has been done.

Please keep your dog in your house or in the back yard on a leash. I will be happy to greet them under those circumstances

STEP course studies role of emotions

This is another in a continuing series of columns by Northville Youth Assistance Director Mary Ellen King.

The Systematic Training for Effective Parenting (STEP) course encourages people of all ages to take responsibility for their emotions and behavior. We have the capacity to experience and create emotions such as joy, sorrow, love and anger. But for many persons emotions are a mystery because they have been trained to cope with life intellectually, not emotionally. However, understanding our feelings and emotions is the key to the meaning of much of our behavior.

Our emotions are not beyond our control. They are the interlocked relationship between our thoughts and behavior. Our thoughts are always accompanied by emotions, even if they are not expressed. We create emotions which are in line with our lifestyle and help us move towards our goals. So, we are not victims of our emotions as we would like to believe. We create our emotions.

Emotions are created for a purpose to get specific results. A teen learns in early childhood that there are sure ways to get certain types of responses from their parents. If for example, a teen cries when they do not get their own way they may have learned that tears invite their parents to back off. Fits of anger and other displays of hostility can be used to frighten and gain control of others. When parents back off from teens who use this technique the teen quickly learns that such behavior results in power and control. Other teens learn that if they are shy, nervous or act deficient,

fewer demands are placed on them The above examples are characteristic of

discouraged teens. Discouraged teens sometimes arrive at the conviction that they are not well equipped to adequately cope with the challenges of life. Such individuals often find ways to retreat from life. And, in the process of doubting their ability, they do not develop and nurture courage to take on new challenges.

As parents we need to help our teens understand and accept their emotions. They need to understand that emotions are the tools which assist us in coping with life; that emotions are the fuel that energize our actions and help us to take a stand and to act with force and conviction.

If your teen is having difficulty understanding his or her feelings and emotions call NYA at 344-1618 and we can help.

Future of regional recycling uncertain

Regional trash recycling won't begin, at least for now.

The Conference of Western Wayne declined to submit an application for state "quality of life" grants by the recent deadline - essentially ending any chance for regional recycling in

A CWW spokesman said the organization and its 17 member cities and townships remain interested in the concept, but postponed their application because there wasn't time to develop a uniform disposal code.

"There's just so much to do that we decided to hold off, at least for this year," CWW director Daniel Gilmartin said. "We have to determine whether communities could order or whether they'd have to alter their charter or ordinance to do so.'

Expected adoption of a county waste disposal plan also helped scuttle CWW efforts. "We didn't want to adopt something that we might have to change under the master plan," Gilmartin said.

The county plan is expected to be

adopted next year. The CWW represents Garden City. Livonia, Plymouth and Westland, as well as Canton. Plymouth and Redford townships, among other com-

Three of its members, Canton, Plymouth and Northville townships, are moving ahead with a recycling plan of their own.

The three, members of the Western Townships Utility Association, have applied for \$500,000 in quality of life grant money to build a recycling

The townships are working with Wayne Disposal Canton Inc. to secure the grant, association spokeswoman Ann Bollin said.

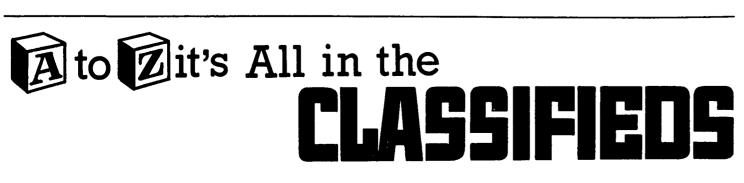

The communities seek to build a recycling center to handle glass,

paper and cardboard.
Though the WTUA was rejected in its initial application, Bollin said township officials were confident the new application would be approved.

"We've already lined up markets for recycled goods," Bollin said. Waste Disposal, she added, has promised landfill space would continue to be open for items that couldn't be recycled.

The townships' program could help spur regional recycling, said Bollin a former CWW director.

"This is something they could build on," she said.

DAY IN NOVEMBER WITH ANY PURCHASE OF \$15.00 or more AT ANY BAVARIAN VILLAGE SKI SHOPS THIS WEEK WHILE SUPPLIES LAST.

Smart planning now will save tax dollars later

your worries this time of year. But if you haven't already taken steps to reduce your tax bill next April, you are running out of time. Every day you postpone tax planning can cost you plenty in overlooked tax op-

To find out if you are doing all you can to trim your taxes, the Michigan Association of CPAs suggests that you review these tax tips

Minimize the Medicare surtax: If you're eligible for Medicare, your tax load will be heavier this year. For each \$150 of federal income tax liability, you will owe an additional \$22.50 Luckily, the surtax has an annual cap. In 1989, the maximum surtax is \$800 if single and \$1,600 if married and both spouses are eligible for

To buffer the impact of the surtax. try to offset taxable income by bolstering such itemized deductions as charitable contributions or miscellaneous business expenses. CPAs also suggest that you shelter

ings into tax-free investments such as municipal bonds issued in your state.

Contribute to a 401(K): In 1989, you can contribute up to \$7,627 to a 401(K) plan. Whatever amount you deposit automatically reduces your gross income. What's more, by lowering your gross income, a 401(k) may also enable you to deduct a larger portion of your medical and miscellaneous expenses. If employer doesn't offer a 401(K), find out if you can still deduct your contributions to an Individual Retirement Account (IRA). Interest on both types of accounts grows taxdeferred

Make interest less taxing: Another way to earn tax-deferred or even taxfree interest is by choosing the right type of investment. For example, if you buy tax-exempt municipal bonds issued in your state, the interest will be free from federal, state and local income taxes. Other tax-advantaged investments include U.S. EE Savings Bonds and treasuries

Shift income and save: Save taxes

and build college funds for your children by transferring assets into their names. Any interest and dividends earned by a child age 14 or older are taxed at the child's rate, currently 15 percent. For children under age 14, the first \$500 is taxed at the lower rate. However, any unearned income in excess of \$1,000 is taxed at the parent's highest marginal

Put your children to work: Support your family and trim your tax bill by hiring your children as employees in a business you own. Any income your children earn will be taxed at their lower rate. What makes this option so attractive is that you can also deduct the salary you pay them. Just be sure that your children actually perform necessary services and that the salaries they receive are comparable to what you pay other employees. Also, you must pay any applicable employment taxes, including Social Security taxes, for any child over age

Reduce consumer loans: Credit

can deduct only 20 percent of the interest charged on personal loans, credit card accounts or unpaid tax bills. In 1990, the deduction will drop to 10 percent; the following year, it will disappear completely.

To eliminate your consumer debt, consider liquidating some of your investments. You can then borrow funds to finance other investments Keep in mind that interest on investment loans is fully deductible up to the amount of your net investment. In 1989, you can also deduct up to 20 percent or \$2,000 of the interest in excess of your net investment income. Alternately, you can use the proceeds of a home equity loan to pay off your personal debt. Remember. you can still deduct interest on home equity loans of up to \$100,000.

Make your age work for you: Your age may be the key to unlocking the profits in your home. If you are at least age 55 and meet certain ownership and use requirements, you can

selling your principal home. Note that this exclusion-of-gain provision is available only once in a lifetime per person or couple So, if you plan to marry and you have not yet claimed the exclusion, find out whether your prospective spouse has. Otherwise, you may end up carelessly forfeiting this valuable tax break.

Offset rental income: If you expect your rental property to generate taxable income, you may want to accelerate or increase some of your allowable operating expenses, such as repairs, advertising costs, fire and liability insurance and even maid service. Keep in mind that taxpayers with an adjusted gross income (AGI) of \$100,000 or less can still deduct up to \$25,000 in passive losses, including those associated with a rental property that they actively manage. For owners with AGIs over \$100,000, the \$25,000 active rental loss allowance is reduced by 50 cents for every dollar of income. Once an owner's AGI exceeds \$150,000, the allowance is totally phased out

Donate to charity: If you itemize, charitable contributions remain deductible. And there's a bonus if you donate appreciated property - you can deduct the full value of the asset and avoid paying tax on its appreciation at the same time (But be warned, such gifts may make you vulnerable to the Alternative Minimum Tax.)

In addition to gifts of property, you can deduct expenses associated with volunteer activities, including transportation costs.

Check your withholding: Make sure you are withholding enough tax from your paychecks. This year, if you fail to set aside at least as much tax as you owed in 1988, or at least 90 percent of your 1989 tax liability, you will be hit with a 10 to 12 percent penalty on the underpayment. If your withholding is way off the mark, CPAs advise you to update your W-4 right away. You can obtain a copy of Form W-4 from either your CPA, your company's payroll office, or the

Business Briefs

JOE EMERICK

TERRI ANDERSON MILLER of Novi has been awarded the professional insurance designation Chartered Property Casualty Underwriter (CPCU). The American Institute awards the designation nationwide to those who complete a 10-course program and meet rigorous academic, ethics, and experience requirements.

Miller graduated cum laude from Central Michigan University and is employed as a product development analyst at Citizens Insurance Company of America in Howell.

The designation was formally conferred at national ceremonies in Anaheim, California. The conferment was held in conjunction with the annual meeting and seminars of The Society of Chartered Property and Casualty Underwriters.

The American Institute for Property and Liability Underwriters is a non-profit education organization founded in 1942 to establish a program of professional education and certification for those employed in the property and liability insurance industry.

JOE EMERICK has joined the Bruce Roy Realty "team" located at 150 North Center Street in Northville.

A graduate of the Middleton Real Estate School, Emerick brings years of management and computer experience to the firm. He previously was involved on project management teams at several nuclear sites across the eastern and midwestern states.

Emerick resides in Carleton with his wife, Susan; son, Mark, and daughter, Kimberly.

MARY E. FRANKFURTH of D.E. McNabb Co. recently was selected by Milliken & Company as "one of the best of the best" in the carpet industry. She was among a group of 25 Milliken Place Dealers chosen from the Central United States to attend the second session of Summer Summit I at the Milliken Design Center in LaGrange, Ga.

The three-day event was designed to increase dealers' knowledge of new merchandising efforts and to enhance their already successful status as Milliken Place Dealers.

Frankfurth was selected from her area because of her achievements and performance in customer service, her installation facilities and the quality of products offered in her store.

Frankfurth has been in the floor covering business for four years at McNabb. She began in retail sales and now serves as sales and office manager.

SHIRLEY ROBERTSON has become the broker/owner of a Remerica Executive Realtors office in the Pine Ridge Center at Ten Mile and Novi Road. The announcement was made by Remerica of

Robertson was also recently appointed as exclusive broker for her market area by RE/Search Networks, Inc., a nationwide executive recruiting and corporate relocation network.

Remerica is a new real estate franchise network founded by James Courtney who brought Century 21 to Michigan in 1974 and later sold several offices to Coldwell Banker. Courtney said he plans to have 2,000 offices by the year 2000.

Robertson previously managed a Century 21 franchise office and has consistently been a multi-million dollar producer. Remerica Executive Realtors is a full service residential brokerage and has a full service mobile home division.

Robertson said her new office will giver her an opportunity to implement now where she feels the marketplace will be in the '90s. "As owner I'm concentrating an emphasis on relocation services. This is particularly important to me given my location in one of the most rapidly developing areas of Michigan," she said. "I find myself

LEONA AND JOHN BERGMAN of Novi were honored for their achievements as Shaklee Sales Leaders at the 1989 Leadership Convention at the Scottsdale Princess, a unique luxury 450 acre resort in Arizona. Travel, accommodations, food and entertainment were provided by Shaklee Corporation as one of the benefits for top sales

New products introduced at the convention include Performance, a fluid-replacement sports drink developed for the pilot of the Daedalus Project, world record holder for human powered flight; Formula I, a nutritional supplement with six vitamins and four minerals which are all key immunoactive nutrients to help in supporting a healthy immune function; and Natural Impressions, a new line of complete skin care products which guarantees healthier looking skin in just three days. In addition, new extensions to Shaklee's BestWater Purification System were featured.

Home sales challenging record level

With eight months of activity reported, Metro MLS, the state's largest multiple listing service, sees this year challenging 1978 as a record year for residential sales in the Detroit metro market.

Metro MLS, which covers a 1,600 square mile territory including Northwest Detroit and major portions of Wayne, Oakland and Livingston counties, had sales of 13,342 single family homes and condominiums through August.

'This is just 139 fewer than recorded by our organization, then known as United Northwestern Realty Association, at this juncture in 1978," said Eric J Hunt, Metro MLS presi-

UNRA members ended the year selling 18,480 units, so we'll have to average more than 1,285 a month through the rest of the year to top them. So far, our monthly average has been 1,667, so chances look good for setting a new record, if interest rates don't jump and the economy

stays firm. He said that after weakening a bit in late spring, housing sales have re-bounded with Metro MLS reporting a 14.2 percent gain in August over a

year ago. Noting that the average price being paid for local area homes today, \$93,787, is more than double the \$42,482, of 1978, he said average incomes have risen at about the same rate and most homes today may be better values because they offer more amenities.

"Moving into the housing market has never been easy for most people, but a look at the appreciated values of properties today show their value as an investment as well as shelter,"

"Back in 1978, Detroit was still the best home sales market for our members. Through August that year, they had sold 2,963 with the average price in the best-selling neighborhood (Greenfield to the city limits beween Six and Eight Mile) at \$22,473. This year, they sold 1,216 with the average price in the most popular neighborhood (Six Mile to the city limits between Schoolcraft and Greenfield) at \$37,195.

They're going out of their way for you.

It's your Navy.

What's wrong with this picture?

Television can't give you anything

It can't give you an apples to zucchini rundown of everything that's on sale at your favorite supermarket, and you can't get a fistful of coupons either from your television set.

When you need that kind of information, there's one place to look in Livingston County . . .

The Monday Green Sheet.

It's on your doorstep every week with dozens of coupons and hundreds of sale prices jumping out at you.

Be looking for it Monday s . . . and start clipping and saving.

Delivered to over 49,600 homes in Livingston County and the South Lyon and Milford areas

Photo by JANET L COX

Young couples join ranks of homeowners

By Thomas M. Varcie

When colonial settlers came to America in the 1600s and 1700s, they didn't have the choice of renting an apartment or building a house They simply built homes out of logs and

But today the situation has changed. Today the perception is young newlywed couples often live in apartments while their parents dwell in a

A myth persists that young newlywed couples are shut out of the house-buying market In Chicago, III., for example, first-time buyers purchased 45 percent of the homes in the first quarter of 1989, according to Monte Helme, vice president of public information for Century 21

Real Estate Corp. in Irvine, Calif. The demographic profile of the first-time home-buyer is changing, he explained.

'Spot surveys of our brokers indicate the average first-time buyer is a few years older, buying a smaller house or purchasing a condominium instead of a single-family home. The first-time buyer may also be purchasing farther out and in less expensive neighborhoods," Helme said.

The number of first-time buyers has remained stable for the last five years, despite an increase in the average price per home in the U.S. A starter home in January 1985 cost approximately \$63,000 while today the same home is roughly \$77,800, according to the National Association of

Interest rates during those same years fluctuated between 9 3 and 12.4

percent
"There seems to be a general

perception that rising prices and interest rates have squeezed the firsttime buyer out of the real estate market. We see no correlation between interest rates, home prices and the activity level of first-time buyers during the last five years," Helme explained.

While the price of a house is a maor consideration for young newlyweds who choose to buy, other factors play a role as well, according to Lois Carano, an agent at Noling Real Estate Inc., 201 S. Lafayette, in the City of South Lyon.

Young couples should investigate features of the house they are interested in buying, Carano said. She advises young couples to understand

their financial limitations. "I suggest they get an affordable home or a fixer-up home — one that might need a little work. That way you'll still get a good home but not

pay an arm and a leg," Carano said. She also suggested couples should not be overwhelmed or overexcited by decorations in houses for sale.

"It's always good to look at the steak and not the sizzle. Many young couples are so dazzled by the decorating in a home and want to buy it But they must remember many of those items and decorations belong to the current owner and will go along in the move," she explained

Before hunting for houses, Carano suggested couples visit a real estate agent, who will work within the couple's financial constraints to find an affordable home for them.

"They should see an agent right away The agent can help a couple with the area they are looking in. The agent can also help with information about particular homes and the area they are in." Carano said

Before purchasing the home, the couple must undergo a credit check by a credit investigation bureau In addition, they must apply for a mor-

"Applying for the mortgage is the most important thing So get that out of the way first. In the credit check, they look at past payments - on credit cards or car payments - and see if you've made them on time. These checks are very thorough,' Carano said

David and Peggy Ingle, a newlywed couple who are in the process of moving to their first home in Lyon Township, recently underwent the mortgage-application process and

credit checks 'We found it real difficult to get a mortgage. The process was very complex, but since then we learned a said David Ingle, 30, who has

been married to Peggy, 27, for one and one-half years.

"We looked at about 100 houses before getting this one," which is a brand new home. "What it really came down to was we wanted a new house and our own personality in it," David said

The Ingles received guidance from Noling Real Estate, which they said was a good move

"The agent taught us a tremendous amount about the area. I would recommend all couples to find an agent when they search for a home,' David continued.

From apartment living in Westland to the new home in Lyon Township, the Ingles are prepared for the increased bill payments and hidden costs. They need a clothes washer and dryer and a refrigerator, but they have their new home

Home features easy entry

By James McAlexander

One of the most appealing parts of the Clemson is in its entry. A wide tiled front hall is the crossroads of this contemporary split-level home.

Front and garage doors both open into the main entry, so that owners who normally drive directly into the garage don't have to slip in a remote back door to their house.

Straight ahead of the front door is the family room, with wood stove and access to the large rear deck. Being so close to the entry, the family room

functions as an informal parlor. Along the way is a half-bath. Kids playing outside can dash in for a "pit stop" without charging through the entire house.

Four steps up from the entry is the living/dining/kitchen level, while the main staircase descends in one straight flight to the floor of the vaulted living room just above the entry hall. Two bedrooms and a master suite occupy the top floor, along with the main bath.

The master suite contains its own private bath, as well as a double vanity and walk-in closet.

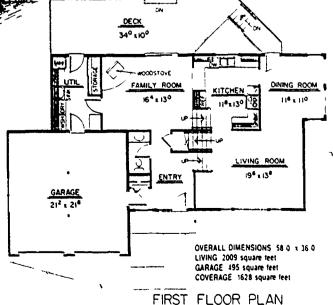

Separation of public and private areas of the Clemson means that the cooks can bustle in the kitchen anytime without disturbing people

above. The U-shaped kitchen has ample counter space, and serves easily into both the family room and formal dining room.

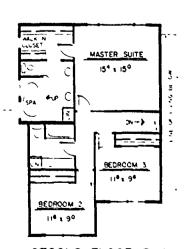

One wall has a see-through to the family room, so that a person at the counter can keep an eye on kids or company below.

The family room and dining room also communicate via an outside deck and steps. Hosting large summer parties is easy with the wide choice of outdoor serving areas.

For a study plan of the Clemson (288-06), send \$5 to Landmark Designs, P.O. Box 2307 CN, Eugene, OR 97402. (Be sure to specify plan name and number when ordering.)

CLEMSON

SECOND FLOOR PLAN

Blending new look with rustic feel

By Rose Bennett Gilbert

Q: We are thinking of adding a master bedroom/bath wing to our house, an early 20th century farmhouse.

The idea is to blend the new addition into the old architecturally, but we are ready for a few luxuries after all these years, especially in the bath. Help us in modernizing without spoiling our rustic ambience—K.S.

A: Easier done than said, thanks to an ample selection of reproductions-everythings from claw-footed bathtubs to pedestal sinks and wall-mounted water

If it's the retro look you're after, you can have it by mail even All around the United States in these nostalgic times, mail-order houses have sprung up, specializing in vintage-looking hardware that is upto-the-minute in function for the bath.

'In fact, you don't have to go all the way back down Memory Lane to recreate a replica of yester-year's "necessary room." There are a number of ways to evoke the attitude without lavish devotion to detail.

Take the bath we show here. Its clean lines and simple design let it be either contemporary or country, despite the warm cedar walls (think how the Finns use wood everywhere in their modern interiors).

What tips the scale between contemporary and country? The accessories: a colorful poster, basket of dried flowers, small print wall covering and border on one wall.

By the way, this entire house is made of logs, designed and produced by Lincoln Logs Ltd of Chestertown, N.Y. When they look this good, it's enough to take the "humble" out of saying "log cabin."

Q: I have been shopping for lamps and have seen a lot I never-dreamedof in styles, materials and even bulbs: incandescent, fluorescent, halogen. I barely knew what the salesperson was talking about.

One lamp really impressed me: It stands about five feet tall, is made of antiqued metal and throws its light on the ceiling like a trumpet.

My questions: What is this kind of lamp called, and how is it used, since all the light goes up?—Dark Ages

A: Almost anyone who hasn't been lamp-shopping recently has missed some of the most interesting developments in home fashions.

Indeed, even the light bulbs have come a long way since T.A. Edison. Net only do they last longer and come in different shapes, they also give different color light, which can have a delightful-or distastrous-effect on the overall color in the room, and on the ambience it creates.

Never buy a lamp until you have seen it lit in the store. Opt for fullspectrum color fluorescents (avoid cool white-it's ghoulish).

And do consider the kind of trumpet-shaped standing lamp you mentioned. It's called a torchere and it's a classic that has been with us in concept, at least, since Roman times. The plug-in variety was an art moderne favorite that is back and very today.

Yes, torcheres are dramatic, but they also can be highly practical ways to give overall illumination to a room.

I've used a tochere in my son's bedroom, for example, where there was no center-ceiling light fixture. The torchere lit up the entire ceiling, and beneath its overall glow, regular table lamps provided specific lighting—over the desk, the bed, the

Q: My (bookish) cousin tells me that Edith Wharton wrote her first book about interior design, or all things.

Dame Edith is a favorite author of mine, but I've never heard this before. If it's true, what is it called and why did she write it?-E.W.

A: If you're a true Edith Wharton groupie, you're already aware that

Cedar wood walls warm a master bath that could be either country, as here, or contemporary, depending on the accessories

houses and interior decoration figure large in her later books, such as "The House of Mirth.'

So you shouldn't be surprised to learn that, yes, her first published work was called "The Decoration of Houses" Since she wrote it with a young Boston architect named Ogden Codman Jr, and it became an important best seller almost as soon as it

was published (in 1897).

Wharton went on to fame in higher literary circles, but the advice she and Codman, who is just beginning to enjoy popular revival, gave had enormous influence to taste then, and

The books' insistence on clean simplified, classic decoration has influenced at least three successive

generations of professional designers and home decorators alike

P.S It's still in print Does your cousin know that, too?

Rose Bennett Gilbert is the author of five books on interior design, associate editor of Country Decorating and a contributing writer to other publications in the field.

Dresser made in France

Q: The attached mark is on the bottom of each piece of my antique dresser set. It consists of tray, pin dish, hair receiver, hatpin holder and powder bowl. It is decorated with white violets on a blue background.

Please identify the maker and tell me when these were made and how much the set is worth.

A: Your porcelain dresser set was made by the A. Laternier Co. in Limoges, France, about 1900.

It would probably sell for about \$225 to \$250 in good condition.

Q: I have a silver holder with two glass jars and silver lids. The handle sticks up about 4 inches higher than the jars. It is marked "Meriden Silver Plate Co."

Can you tell me anything about this antique?

A: You have a double pickle castor; in addition to what you describe there should be a pickle fork and/or tongs.

This was made in Meriden, Conn., in the late 19th century. Complete with fork and/or tongs it would be worth \$225 to \$235 in good condition.

Q: Among my father's things I found several pieces of plastic about 8 to 10 inches long and 1 inch wide. They are imprinted with the names of various brands of beer like "Budweiser," "Pabst," "Schlitz,"

Do you know what these are and if they have any value as collectibles?

A: These are foam scrapers that were used in saloons to scrape the excess foam off a glass of beer.

They are collectible as Breweriana; the ones you listed sell in the \$25 to \$35 range. Less famous brands bring about \$10 to \$15.

Q: Please tell me something about my blue-and-white Wedgewood plaque. It measures 9 by 4 inches and features two women in flowing robes with several cherubs. It is marked "Germany."

A: You have a jasperware plaque similar to English Wedgewood, but which was made in another company in Germany. It was probably made around 1900 and would sell for about

Some new twists to your tailgating party

By Charles Britton

There is something about fall that

says it's time to have a picnic. Maybe it's the way the days grow shorter, reminding us that if we are ever going to put that one last project together, we had better do it while the weather remains reliable

Or maybe it's the fact that football season is upon us, offering us the possibility of sitting on hard stadium seats, shouting ourselves hoarseand indulging in that most hilarious

Of course, nothing stops you from cooking everything in advance in the classic style.

party or picnic par excellence, the recipes for which come from the collection food stylist Suzanne Kimball. No more soggy sandwiches and

Menu One

- □Bell Pepper-Sweet Onion Relish
- □Caponata

□Potato Salad with Green Beans

Paillards of chicken-flattened boneless breasts-are delicious with the Bell Pepper-Sweet Onion Relish and require very short cooking time. Ideally, they would be done on the spot on a portable grill. But they are equally good prepared in advance and served cold.

The Caponata can be made as early as two or three days before an outing. An array of fresh fruit and classic lemon pound cake complete

with Rosemary

8 to 12 boneless, skinless chicken breast halves

- 1 teaspoon salt 12 teaspoon freshly ground black pep-

of all picnics, the tailgate party. Compared to the standard picnic, staying close to the car offers a lot of advantages. We don't have to cart the food very far, so we can indulge in more elaborate dishes than the standard sandwiches. Nowadays you can get portable grills, hibachis and even tailgate-size gas-fueled cookers.

We have two menus for a tailgate store-bought salad

☐ Grilled Chicken Paillards

□Lemon Pound Cake

Menn Two

☐ Marinated Pork Loin

and Olives

The second menu calls for a marinated pork tenderloin that can be oven cooked and carried along to serve at room temperature or grilled on the spot; either way, it's hearty and delicious.

Grilled Chicken Paillards

- 1 clove garlic, crushed

Football season parties, whether held at the stadium or in the family room, are perfect for entertaining guests

2 tablespopon lemon juice ½ cup olive oil

I teaspoon fresh rosemary, finely minced, or 1/2 tablespoon dried

Yields 8 servings.

Place boneless breasts, 1 at a time. between sheets of plastic and pound with a mallet or rolling pin until quite

Combine remaining ingredients in unbreakable container with tight lid that is large enough to hold all chicken. Spread or toss marinade over paillards, coating both sides. Refrigerate until picnic time. To cook, place on grill over hot coals, turning after 2 minutes. Check for doneness after another 2 minutes. Do not overcook.

Alternatively, cook paillards for same amount of time under hot broiler in your kitchen. Let them cool before wrapping for trip. Keep on ice.

Bell Pepper Sweet

1/2 teaspoon salt

2 red bell peppers, seeded and diced 1 large sweet onion, chopped 1/2 teaspoon freshly ground black pep-

6 tablespoons minced cilantro

Yields 8 servings. Peel or score cucumber with fork. Cut in half lengthwise, cutting off and discarding ends. With teaspoon, scoop out seeds and slice thinly. Sprinkle with salt. Put in plate or soup bowl and cover with equal-size plate weighted down with something heavy (like bricks or the blender) while chopping peppers and onion Press liquid from cucumbers and combine all ingredients. Chill

Caponata

3 medium eggplants pared, cut into

1/2-inch dice 1/4 cup coarse salt

½ cup olive oil

3 medium onions, sliced 3 cloves garlıc, minced

4 stalks celery

½ cup tomato sauce 1/2 cup capers

12 green olives, pitted and chopped 2 tablespoons pine nuts

1/3 cup wine vinegar 3 tablespoons sugar

Daily 12 6 Sat & Sun 11 6 Closed Thursday

229-6776

1/2 teaspoon freshly ground black pep-

Yields 8 servings Combine eggplant and salt in mix-

ing bowl. Let stand, stirring occasionally, for 30 minutes Transfer to colander and rinse thoroughly under cold running water Squeeze eggplant dry with hands and drain on paper towels Set aside.

Heat oil in heavy skillet and saute onions, garlic and celery. Cook for 5 minutes and add tomato sauce. Simmer, covered, over low heat for 10 minutes. Add remaining ingredients and eggplant Continue to simmer until eggplant is very tender. Correct seasonings Chill. Serve cold or at room temperature

Lemon Pound Cake

2 cups flour 1 teaspoon baking powder

1 stick butter or ½ cup vegetable oil 1 cup sugar

½ cup mılk

1 tablespoon lemon juice 1 tablespoon grated lemon zest

(yellow part of peel) Confectioners' sugar (optional)

Yields 8 servings.

Preheat oven to 350 F. Combine flour, baking powder and salt. Set

In large bowl, cream butter and sugar Add eggs 1 at a time, beating after each addition. Fold in flour mixture, milk, lemon juice and zest, mixing only enough to combine well. Pour into oiled and floured bread pan and bake until done-approximately 1 hour Unmold and dust top with confectioners' sugar if desired

This recipe appeared in "Cook's Magazine" several years ago

Marinated Pork Loin 1 boneless center-cut pork loin, 3 to

 $3\frac{1}{2}$ pounds, tied 6 cloves garlic

2 cups tawny pork

12 cup dark brown sugar

2 cup soy sauce $2\,table spoons\,dry\,mustard$

1 teaspoon hot chili oil or pinch cayenne

MOH

Brokers Welcome

Yields 8 servings With sharp knife or skewer, poke holed all over roast at 2-inch inter-

Crush garlic and combine with rest if ingredients Pour over pork and allow to marinate 1 to 2 days, refrigerated, turning occasionally.

To oven cook: Preheat oven to 425 F Drain pork and reserve marinade. Put in small roasting pan and roast at 425 F for 20 minutes, turning several times to brown all sides. Reduce temperature to 375 F and roast 30 minutes longer until done. (Internal temperature at thickest part should be 160 to 170 F.)

Make sauce by placing reserved marinade in heavy saucepan and simmering until reduced to about 34 cup. Strain and cool. If cooking meat at picnic, make sauce ahead from some of marinade and bring along in plastic container.

To grill: Build indirect fire in grill with dome cover. Pile coals about 4 deep around edges but not directly under where meat will be placed. If desired, when coals are red-hot, place 4 cups soaked and drained hickory chips on fire. Put meat on, cover grill and cook until thickest part of roast regisdters 160 to 170 F. about 45 minutes to 1 hour.

Potato Salad with Green Beans and Olives 3 pounds new potatoes, sliced or cub-

1 pound green beans, cut diagonally into 1-inch lengths

34 cup olive oil

1/3 cup dry white wine 2 tablespoons wine vinegar

1 teaspoon Dijon-style mustard 1 teaspoon salt 1/2 teaspoon freshly ground black pep-

1 small onion, finely chopped 3 tablespoons minced fresh thyme or summer savory

12 cup oil-cured black olives

Yields 8 servings. Boil potatoes in salted water until

If you don't keep his name alive, who will?

An invitation to place the name of a member of your family who immigrated to America in the only national museum created to honor them.

Whether your ancestors first set foot on American soil at Ellis Island, or entered through another gateway, here is a unique opportunity to show your gratitude. And to present your family with a gift that will be meaningful for generations to come. When you make a \$100 contribution to restore Ellis Island. the name you designate will be permanently placed on the American Immigrant Wall of Honor. You can choose the name of an ancestor or just your own family name. And you'll receive an Official Certificate of Registration. To register additional names, list each name and country of origin on a separate sheet. Please send your contribution today.

By acting now you assure that the Ellis Island Immigration Museum will be a place to honor your own heritage, as well as a monument to the great American traditions of freedom, hope and opportunity.

Keep the Dream Alive

HOMBS

They aren't just for Abe Lincoln

By Buddy Moorehouse

Think of a log home and you probably envision a rustic little cabin on a hill somewhere No electricity, a table made out of tree branches, a pot-bellied stove in the middle of the room and several banged-up skillets on the wall Something like that.

The 1989 version of a log home varies a little from that stereotype, though Most of them have electricity now, as well as luxurious fireplaces and such amenities as hot tubs and Jacuzzis. Heck, some of them even have

Yes, some 120 years after Abe Lincoln made the log

home an American icon, they're still as popular as ever.
"I think a lot of people have always dreamed of living in a log home," said Bill Glass, owner of Colonial Log Homes in Webberville "They can see themselves looking down from the loft at a roaring fire in the fireplace. It's really a romantic kind of thing for some people.

True, the esthetic value of log homes is probably what draws most people to them in the first place. Upon closer examination, though, you'll find that they can be a

downright efficient place in which to live.

Glass, whose company builds log homes throughout the area (he's built 15 in Livingston County alone), said they can save you big bucks in heating and air conditioning

"They did a two-year test a couple years ago in Canada, where they tested five houses for energy efficiency," Glass said "One of them was a log home. They found out the log home was 46 percent more efficient in terms of keeping the cold out in the winter and the hot out in the summer.

Glass said he built a log home for a man in Milford, and the man said his energy bills dropped dramatically. "It was a 1,600-square-foot home, and he was only paying about \$600 a year for hearting and air conditioning,

Yes, some 120 years after Abe Lincoln made the log home an American icon, they're still as popular as ever.

Why are log homes so energy-efficient? Glass said it's because the cedar wood used is an excellent insulator. "Cedar really keeps the cold out, and the way the logs fit together also helps," he said.

Glass' company uses cedar, he says, because it's far superior to pine, the other popular wood used in log homes. "Cedar is frost-free, it won't rot or mildew like pine will and it keeps insects out," he said.

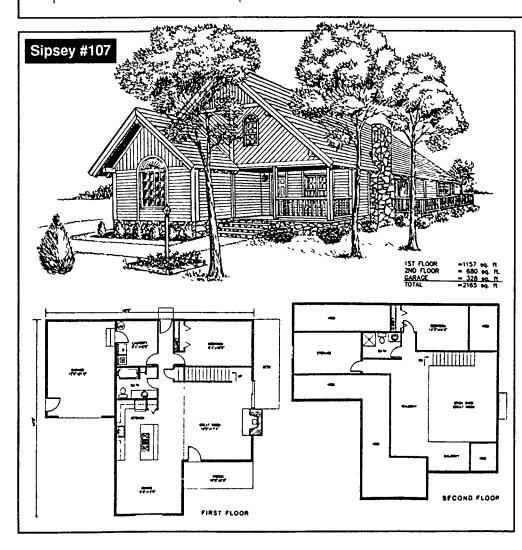

If you're interested in a log home, you have two options—build it yourself from a kit or have the professionals do it. Glass sells several kits, for homes undr 1,000 square feet to some measuring 2,000 square feet or more.
The kits range in price from \$18,000 to \$35,000, depen-

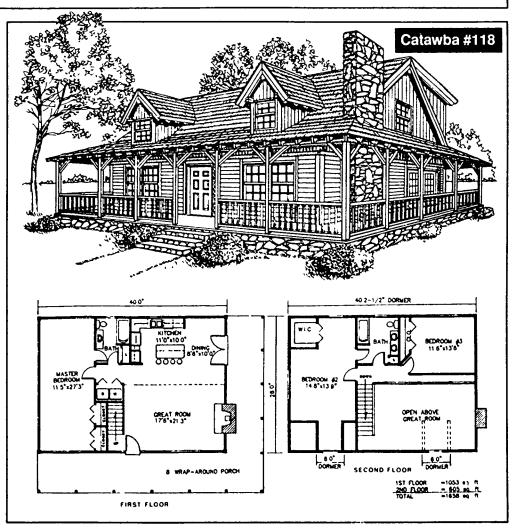

ding on the size

If you want the home built for you, the starting price is around \$85,000 for a 1,600-square-foot log home. That only includes the house, well and septic system; the land on which it'll sit is extra

Most log homeowners opt for the "D-log", a D-shaped log which is rounded on the outside (giving it a real "log cabin" look) and flat on the inside. "That way, they can

hang pictures or whatever inside the house," Glass said. He also said that single-family homes aren't the only buildings being made out of logs these days. "We're also seeing some condos made out of logs and even some churches," he said. "This type of building is very popular for a lot of reasons

Frommer to speak in Northville Town Hall lecture

By BRENDA DOOLEY

Learn everything you've ever wanted to know about travel but were afraid to ask.

Travel expert Arthur Frommer is guest speaker on Thursday, Nov. 9 at Northville Town Hall's second lecture series of the 1989-90

Frommer will visit the Plymouth Radisson (formerly the Plymouth Hilton) at 11 a.m. Luncheon will follow for season ticketholders, served at the hotel at about noon.

In 1957 Frommer wrote "Europe on \$5 a Day" to help travelers find inexpensive lodging and food. Updated every year since it was first published, the book is now in its 29th edition and titled "Europe on \$25 a Day.'

Although times have changed the book still stresses the economical side of travel. Frommer's principle is "The less you spend, the more you enjoy your travel.'

During his lecture, Frommer will share his experiences with the Town Hall audience and answer questions following lunch.

Historian David Eisenhower kicked off the Northville Town Hall series on Oct. 12.

Christmas Walk planned

Residents will have a chance to take in the sights and sounds of the holiday season during Northville's annual "Christmas Walk," planned for two weekends in November.

The event takes place in historic Mill Race Village. Once the site of a grist mill, the village homes, school, church, blacksmith shop, country store and gazebo will be trimmed for a Victorian holiday.

"Christmas Walk" will be held Nov. 18, 19, 24, 25 and 26. Hours are 11 a.m. to 4 p.m. Friday and Saturday and noon to 4 p.m. Sunday. Adult donation is \$5, each accompanied child \$3 and families (two adults and children) \$15.

The admission price includes entry into a raffle. Proceeds from the event will benefit restoration of the Cady Inn, which will be open for viewing.

A variety of crafts will be available for sale including ornaments, baskets, candles, weaving and toys. Artisans will also demonstrate

For more information about the event call the Northville Historical Society at 348-1845 Monday, Wednesday and Friday from 9

Mill Race Village is on Griswold Street, just north of Main Street in

Historical Society hosts preview

The Board of Directors of the Northville Historical Society will again host a preview of the Annual Mill Race Village Victorian Christmas Walk for members only (and their guests) on Friday, Nov. 17 from 7 to 9 p.m.

Members will have a chance to experience the charm of the village by candlelight.

Tickets are \$5 per person. Admission includes light refreshments and a chance in the "Santa Raffle."

Cady Inn also will be open for viewing.

Members interested in attending should mail a check for the number of tickets requested to: Northville Historical Society, P.O. Box 71, Northville, MI 48167.

Book sale planned Saturday

Just in time to stock up for winter reading . .

Friends of the Northville Library will conduct a used book sale this Saturday (Nov. 4) in the council chambers of the municipal building It's the group's last used book sale of the year.

Doors will open at 9 a.m. for members of the Friends and at 10 a.m. for the public. The sale runs until 4 p.m.

All hardbound books, with the exception of some choice collectibles, will sell for 50 cents. Paperbacks of any size cost 25 cents each or five for \$1. Children's books are priced at 5 cents to 25 cents.

Proceeds from the sale will be used be used to give a major gift to the library.

Woman's Club meets Friday

Fond of our feathered friends?

As the last of the migatory birds begin their annual trip south and the food supply diminishes for stay-at-home feathered friends, bird lovers begin to think in terms of ways to entice these hardier

Dr. Grover Niergarth will assure the members and guests of the Northville Woman's Club at their meeting tomorrow (Friday, Nov. 3) that attracting birds can be easy and rewarding when they are

easiest to see because trees are bare and snow enhances their colors. Niergarth also will talk about bird houses and bird baths. In addi-

ARTHUR FROMMER

tion he will discuss what plants and shrubs are helpful in attracting birds, as well as which varieties to plant for bird food. Slides will accompany his presentation.

This is Niergarth's 25th year on the faculty at Schoolcraft College,

where he teaches zoology, anatomy and physiology.

As a change of pace, the club will meet at Mill Race Village at 1:30 p.m. A tea will follow the meeting.

Couple entertains at brunch

Mike and Betty Allen of Northville invited friends and local politicians to their home for a Sunday brunch on Oct. 29.

Their special guest was Clark Durant, whois a potential candidate against U.S. Senator Carl Levin for a Senate seat. The brunch gave guests a chance to meet and talk with Durant.

Northville hosts dessert theater

Residents looking for an evening of theater and sweets are invited to a special performance.

The Goodtime Players will present the "Frog Prince" at the Northville Community Center this Friday (Nov. 3) at 7 p.m.

Dessert and beverages will be served prior to the start of the performance. Residents are encouraged to attend the live performance. The show is recommended for children in second grade and older. Children must be accompanied by an adult.

Tickets are available at the Northville Recreation Department, 303 W. Main St., or at the door.

Sponsors sought for Girls State

Local organizations and businesses are being asked this month to participate in the sponsorship of the 50th session of the American Legion Auxiliary Girls State.

Noting that Northville has been fortunate to have exceptional support for the program in grass roots government, local auxiliary sponsors are hoping for a record representation at the 1990 program.

The program is open to all girls at Northville High School in their junior year who make application through their class sponsor. Selection of delegates is made by counselors and teachers.

The 1990 session will be held on the campus of Central Michigan University June 9 through June 17, 1990.

A punch and cookie reception will follow. Residents planning to attend the concert are asked to call the library in advance. Preschool children also are invited to an evening story hour on

Organizations and businesses sponsoring junior girls pay \$180 for the sponsorship. Those interested in becoming sponsors are asked to

make checks payable to American Legion Auxiliary Girls State and

mail them to local Girls State chairperson Jean Day, 20359 Woodhill,

Since the program has a quota which fills quickly, she asks that all checks be sent as soon as possible. She or co-chairperson Nan Oliver

Library celebration planned

In honor of its 100th birthday, Northville Public Library is plann-

Residents are encouraged to join in the celebration Nov. 6-20.

Scheduled events include a concert on Nov. 6 by Robert Williams and

Treva Womble, Northville residents and members of the Detroit

Symphony Orchestra. The concert begins at 7:45 p.m. at the library.

Nov. 6, beginning at 7 p.m. Joanne Dewey, children's librarian, will

lead the story hour. Pre-registration is required. Call the library at

Mothers' Club plans annual sale

ing a host of special programs.

It's never to early to plan for winter recreation. Northville Mothers' Club will host its annual ski and skate sale on Saturday, Nov. 11 from 9 a.m. to 2 p.m.

In preparation of the sale, residents are encouraged to bring their used sports equipment to Meads Mill Middle School on Friday, Nov. 10 between 4 and 8 p.m.

A 15 percent commission will be kept by Northville Mothers' Club to benefit Northville school children.

Coordinators of the event are Debbie Lopez and Phyllis Heckemever.

Homecoming king

Gregory Abraham of Northville, left, recently was named Central Michigan University's Homecoming King. Homecoming queen, right, was Kristin Connors of Tecumseh. During half-time ceremonies, Abraham and Connors greeted a crowd of more than 19,000 fans attending the Oct. 21 football game, when CMU played Youngstown State University. Abraham is the son of John and Barbara Abraham of Northville. He is a senior at CMU, where he is studying finance and economics. He expects to graduate in December.

Director Swanborg is listening

Nancy Swanborg, a recognized pastoral minister and new director of he Women's Resource Center at Schoolcraft College, foresees no immediate change in policy.

"My intention is to spend the first year listening to people who have been here. One needs time to understand history," Swanborg said of the center, founded in 1974 to assist women in transition

During a recent interview in the orderly office she now occupies, wearing a Hawaiian lei from an early-morning Fried Cakes and Friends affair with other college personnel, Swanborg, 44, spoke of the "transition" and "reaffirmation" affecting the lives of women.

She has been touched by both. A practicing Catholic, Swanborg was a wife, mother, and licensed medical technologist when she "transitioned" careers in 1984 and marital status in 1986, earning a graduate degree in pastoral ministry from Detroit's Marygrove College and divorcing her

husband of nearly 20 years.

Each of the 8,000 or so women seeking services last school year from the Women's Resource Center were also in transition of one sort or another, seeking emotional, educational or vocational support, she said

"Anybody who walks in this door, any person questioning life, is a sur-

"Some may just want to talk about options. Some have never worked before and now need a job and new skills. Some know what they want but don't know how to go about getting it Others have financial limitations widows, divorcees, women caring for elderly parents — and want to know about available resources," Swanborg said

The Women's Center, jointly financed by Schoolcraft College and state grants (\$164,000 in 1988-89), is nationally recognized for a host of innovative programs, including counseling, referral, support groups,

forums, courses and workshops aimed at women in the midst of making decisions and setting goals.

"The trick is listening to their story and working with their goals, facilitating their growth, at their pace," Swanborg added.

As director, she oversees a staff of five paid employees and 54 volunteers who last school year donated 4,000 hours of service. The job also includes "coordinating" future goals. During the upcoming year, Swanborg said, she will assess existing programs and the needs of the community.

"In recognition of services, leader-ship and the promotion of women," reads a brass plaque in Swanborg's office It is the Susan B. Anthony Award bestowed earlier this year by the Women's Commission at the University of Michigan-Dearborn, where she directed the Gabriel Richard Center for Catholic Campus

She held a similar position at Henry Ford Community College and, after completing studies at Marygrove, served as campus minister at Macomb Community Col-

Swanborg switched careers after recognizing some of my best skills are working one on one

"I felt a personal need to be move involved with people than medical technology afforded," she said.

The divorce came about after she realized "choices made in good faith at 21 may not reconcile with how one experiences life at 40. You either remain or make a change.'

At the time, both "transitions" seemed to be "energy drainers." In retrospect, however, both have proven to be "energizing" periods of 'reaffirmation.'

Swanborg lives in Dearborn with daughter Kirsten, 21, a college senior, and son, Eric, 17, a high

Couples announce births

Kathryn Peltier and Dr Richard Ambrose of Rogers Street in Northville announce the birth of a son, EVAN ALEXANDER AMBROSE.

Baby Evan was born Oct. 6 at the University of Michigan Medical Center - Women's Hospital in Ann Arbor. He weighed 8 pounds, 8 ounces. He is the couple's first child.

High school plans events

Activities at Northville High School are in full swing with the music department already preparing for the holiday season. The Concert Choir, Northville Singers and The Figurines recorded a Christmas album which will go on sale December 1. The music will be of-fered for \$10 in either cassette or album form. Congratulations also go to eleven students from the Concert Choir who were selected from auditions for the Regional Honors Choir.

Fall sports will be nearing completion with state finals for Cross Country and Girls Swimming. Congratulations to the Girls Tennis team who qualified for State Finals from our region. The coaches for winter sports have been chosen and tryouts will be announced soon for all boys basketball, swimming, wrestling, gym-nastics and girls volleyball. Jason Sherman qualified for state finals in golf at Michigan State University. Congratulations!

'Fame' is the fall play to be

presented at 8 p.m. on Nov. 16, 17, 18 and 19 in the auditorium. Veteran performers Susan Bickner, Carl Brown, Melissa Petro and Julie Norback lead a large supporting cast in this rendition of the joys and strug-gles of four years at N.Y. City School of Performing Arts. Tickets go on sale Nov. 6 before and after school until 3 p.m. and cost \$3.50 for everyone.

Parents of seniors take note - the initial planning meeting for the 1990 Senior Party will be Wednesday, Nov. 8 at 7:30 p.m. in the cafeteria. Committees will be formed and the theme decided. If unable to attend or need more information call Dianne McCulloch 349-8618 or Carol Pappas

Senior class officers and their sponsor held a luncheon to thank the Woman's National Farm and Garden Association, Northville Branch, for their beautification project on the

senior courtyard. Several fundraisers are this

month. Freshmen have a Christmas card sale starting November 1; SADD has a flower sale on Nov. 6 and the National Honor Society canned food drive is from Nov. 10-17 with all

proceeds going toward a charity.

Northville Mother's Club Ski and Skate Sale is Saturday Nov. 11 from 9-2 at Mead's Mill. Bring all equipment to Meads Mill on Friday, Nov. 10, between 4 and 8 p.m. A 15 percent

The first marking period ends Friday, Nov. 3, with report cards being distributed on Nov. 13.

commission goes to Mother's Club to

benefit Northville Schools.

Parent Advisory Meeting is Nov. 29 at 9 a.m. in the school library. This meeting is for direct dialogue between parents and Mr. Bolitho, school principal. It is an informative exchange of ideas, concerns and updates of happenings at the school and I highly recommend it to any high school parent.

Glenda Jones

Single Place hosts workshop

Single Place presents "Starting Over Single," a divorce recovery workshop, Nov. 9 through Dec. 21, except Thanksgiving Day...

Sessions are held on Thursdays from 7:30 to 9:30 p.m. at the First Presbyterian Church of Northville, 200 E. Main St., one block east of Sheldon between Seven and Eight Mile roads.

Cost is \$22, which includes a book. speakers, notebook, refreshments and child care.

Registration is required. Interested participants are encouraged to complete a registration form and send it with a check to the First Presbyterian Church of Northville. Registration also may be done by phone. Call the church office at 349-

0911 for more information.

Following is a list of dates and

topics included in the series:

• Thursday, Nov. 9 — "Stages of Grief" by Dick Todd, a clinical psychologist and United Methodist minister. He will explore the stages of grief that many people go through during a divorce.
• Thursday, Nov. 16 — "Network-

ing" by Lawrence Chamberlain, senior pastor of First Presbyterian Church of Northville. He will examine the psychological dynamics of loneliness as it impacts our lives. He will also share creative approaches of dealing with loneliness.

• Thursday, Nov. 30 — "Legal Aspects of Divorce: How to Keep the Scales of Justice From Tilting" by Dave Jerome, a Northville attorney. He will discuss how the legal process works and the legal implications that

• Thursday, Dec. 7 - "Helping Children Through Divorce" by Robert Geake, a licensed psychologist specializing in children and former director of the Plymouth Home for Children. He will describe the six stages a child goes through during a divorce and the approaches

adults can use to help them cope.

• Thursday, Dec. 14 — "The Passage of Divorce," a panel discussion. Members of a panel will discuss surviving and growing through the crisis of divorce.

• Thursday, Dec. 21 - "Friendship and Dating" by Betty Byrd, an instructor at Oakland Community College and a workshop leader for Single Place. She will discuss the ways divorce changes relationships with married friends, neighbors and

Experts offer tips on feeding birds

By ANN E. WILLIS

As the last of the Canada geese honk overhead, thoughts of bird lovers turn naturally to feeding feathered friends through the long cold months ahead.

Bird feeding and bird watching have become fascinating hobbies for many homeowners in Northville and Novi. On summer mornings many people awoke to the sounds of birds foraging for food outside of open windows. Bird feeders are pleasant additions to backyards in the summer. enticing birds to roost and nest within easy watching distance from kitchen windows and picnic tables.

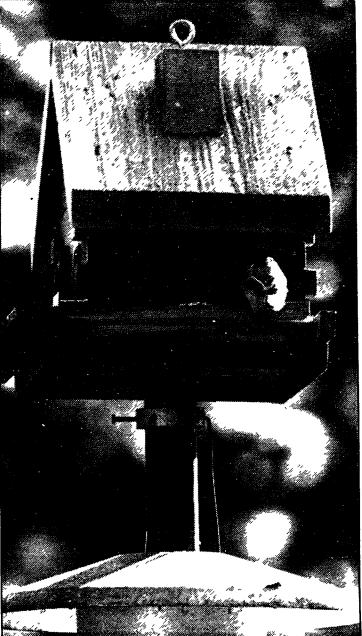

Bird watchers who set up feeders and maintain them throughout the winter discover that the hardy birds that remain in Michigan during the cold months provide just as much enjoyment as those that invade during the summer.

Chuck Percy of Novi Feed and Supply, Inc., on Grand River in Novi, notes that the most preferred food by birds seems to be sunflowers. "All of the birds seem to eat it." Percy suggests adding suet to the birds' diets in the winter as well.

His recommendation based on actual sales, seems to follow the advice of the experts. George H. Harrison's book "The Backyard Bird Watcher" and Alan Pistorius' book "The Country Journal Book of Birding and Bird Attraction," both note that in commercial bird feed mixes most of the seed goes to waste.

"A typical commercial mix contains, in order of decreasing amounts, red millet, white millet, milo, sunflower and wheat," Pistorius wrote. "Feeding a typical variety of middle-latitude eastern birds (mourning dove, downy and red-bellied woodpeckers, mockingbird, Carolina chickadee, tufted titmouse, white-breasted nuthatch, bluejay, starling, common grackle, red-winged blackbird, cardinal, evening grosbeak and several other found that five kinds of seed constituted more than 80 percent of all seed taken. In decreasing order of preference, they were sunflower, peanut hearts, cracked corn, white millet and canary seed.'

Harrison agreed. "It is obvious that sunflower seeds are the best allaround food for attracting the greatest number of desirable birds. It is a preferred fare among car-

Record/CHRIS BOYD

ches, the grosbeaks, titmice, the

A hungry chickadee eats from a local bird feeder

nuthatches and crossbills," he noted. Both experts hold a caged bird seed staple, Niger seed, to be one of the best bird seeds around. Niger is dinals, blue jays, chickadees, the fin-popular with finches, pine siskin and

common redpoll.

For winter feeding suet is a good substitute for the insects birds can no longer find. Suet, which is just pure fat, provides calories and is a staple for woodpeckers, chickadees, nuthat-

One of the increasingly more popular methods of feeding birds during the approaching holiday times, is to drape a Christmas tree with stale bread, peanuts, suet, pop-corn, marshmallows, doughnuts, chunks of fruit and cranberries. The food can be draped on boughs or hung

put out in special wire suet holders,

in mesh bags or Percy said he sells

some that have a string within the

suet that can be attached to a tree as

on string and wrapped on the tree. Conventional wisdom holds that bird feeding should be maintained throughout the winter as the birds come to rely on the food source and will starve if it is stopped. The experts tend to disagree in this area. Harrison quotes the assistant director of the Cornell Laboratory of Ornithology, Sam Weeks, who said that birds are equipped to make it without man, but that consistent feeding makes for better overall bird wat-

Pistorius urges people to consistently feed throughout the winter and right through the spring, unless there are abundant sources

Goodtime Players perform in Northville

Treat the family to a dessert theater.

The Goodtime Players children's theater group will perform "The Frog Prince" at the Northville beverages will be served prior to the performance.

The program is recommended for adults and children in second grade and older. Children must be accompanied by an adult.

Cost is \$3 per person. Tickets will be available at

PUPPET PROGRAM - Northville Library presents the Red Rug Puppet Theater in the "Frilly Frog and the Mystery of the Missing Library

Book" on Wednesday, Nov. 15 at 7 p.m. Puppeteer Beth Katz will provide the entertainment. She is scriptwriter, director, costumer, stagehand and all of the actors and actresses of the Red Rug Puppet Theater.

Pre-registration is not required.

The puppet show is one of the several featured events planned in celebration of Northville Public Library's 100th birthday.

ARTS SERIES — Northville Arts Commission presents a lecture series called "Your Favorite

Artists," featuring art historian Michael Farrell. He will share insights on various famous artists, accompanied by slide shows

The series began Oct. 26 with a presentation on Van Gogh and concludes on April 12, 1990 with a presentation on Andrew Wyeth.

City Hall. Following is a list of scheduled presen-

Gaugin, Dec. 7; Raphael, Jan. 18, 1990; Goya, Feb. 8, 1990; John Singer Sargent, March 8, 1990; and Andrew Wyeth, April 12, 1990.

Farrell is professor of art history at the University of Windsor, adjunct curator at the Detroit Institute of Arts and instructor at the Art House of Detroit. Season tickets are available for all six lectures for \$30. Individual tickets are \$6 each and

available at the door on the evening of the lecture. Tickets are available at Grandma Betty's, Edwards Caterer, Bookstall on the Main, Traditions easons. For more information call

FILM SERIES - Novi Arts and Culture Committee welcomes in the fall season by hosting a family film series saluting the dog

The series is held on the second Friday of every month through May 11, 1990. All films will be shown in the 136-seat council chambers at the Novi Civic Center.

Following is a schedule of films: "The Magic of Lassie" on Nov. 10; "Digby, the World's Biggest Dog" on Dec. 8; "The Courage of Kavic" on Jan. "Big Red" on Feb. 9; "Pluto" cartoons on March 9; "Where the Red Fern Grows" on April

13; and "The Incredible Journey" on May 11. Series tickets for all eight shows are \$10 adults, \$5 children. Individual tickets are \$1.50 at the door for adults, 75 cents for children.

"In Town" lists upcoming events in Northville and Novi. To have events listed write to "In Town," Northville Record, 104 W. Main, Northville, MI 48167.

All lectures will begin at 7:30 p.m. at Northville

year, will include 260 artists and craftspeople from 27 states who work in a variety of media - paintings. jewelry, sculpture, glass and more. Artwork will be available at prices ranging from \$5 to \$1,000 and may be purchased with cash, check or credit

Admission is \$3. Children under 10 are admitted free with an adult. Chamber music will be played throughout the fair. Sitting areas and food will be available. Hours are 10 a.m. to 8 p.m. Saturday and 11 a.m. to 6 p.m. Sunday.

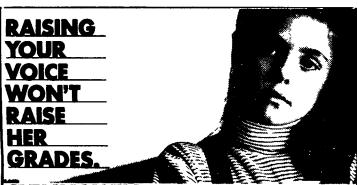

THEATER - Meadow Brook Theater presents "The Boys Next Door," the recent off-Broadway hit by Tom Griffin. The play opens on Nov. 2 and runs through Nov. 26.

Showtimes are at 8 p.m. Tickets are \$14-\$23. For tickets and

KENSINGTON - Two nature events will be held at the Nature Center of Kensington Metropark near Milford and Brighton.

Sylvan Learning Centers are a group of private neighborhood educational centers designed to help your child do better in school, offering everything from remedial reading and math to enhanced study skills and enrichment programs. We test in order to pinpoint the specific areas in which your child needs help. And we attack the problem with an individually designed program. Positive motivation, friendly encouragement, an experience of success right from the start, and individualized attention make all the difference. In fact, we guarantee it*. Your child's reading or math skills will improve by at least one full grade level in just 36 instruction hours or we will provide up to 12 additional hours at no further cost

*Measurement will be based on a nationally recognized achieve ment test for improvement in either reading comprehensive or vocabulary) or math (computation or application

Entertainment

Thursday, November 2, 1989

The Northuille Record

Craving sun and fun scenes made popular by TV shows such as the "Love Boat," a growing number of families and single adults are booking cruises as their vacation getaways.

Before gleefully jumping on the bandwagon, travelers should be cautioned that taking a cruise involves substantial advance plann-

Sandy Yono, manager of Glynn Travel in Novi, advises cruisegoers to book their dream excursions at least six months in advance. And there's a good reason for doing so. By making plans early, travelers are able to take advantage of discounts offered by the cruise lines

It's interesting to note that local travelers currently are making reservations at least 10 months in advance. For instance, cruise lines are already filled for February, a time when most school students

get a break from school.
"Cruising is very popular,"
Yono noted. "A lot of families are choosing a cruise for their vaca-

Why is "cruising" becoming a family-oriented type of travel? Yono offered several suggestions, including the fact that entertainment and meals are included in a cruise package, relieving families from deciding which recreation site or restaurant to visit — a task that can add tension to any family

Also, children can't go anywhere on a cruise ship so there's less risk of having them wander off and get lost. Most importantly, cruises of-fer value. Quite often the price of a cruise is equal to or cheaper than a week's stay at a resort.

During the months of October and November cruise lines provide the cheapest rates. However, these

months fall into hurricane season, a fact travelers definitely should keep in mind.

Every season of the year is at-tracting travelers including sum-mer, when families often take their yearly vacations, Yono said.

According to AAA Travel Agency listings, prices for cruises range from \$603 to \$4,975, depending on the length of the cruise, the itinerary and the specific cruise line selected.

Most packages include all onboard meals and entertainment. Costs normally not covered by the cruise line include beverages alcohol and soft drinks - and onshore excursions like scuba diving, golf outings or nightclub shows.

Some cruise lines are offering pre- and post-cruise packages that include two-day hotel stays in cities of departure. The extra two days give travelers a chance to relax before boarding the ship as well as following the cruise trip. Which cruise line is best?

There's no easy answer. "All cruise lines have their par-ticular strengths," Yono said. The ultimate choice depends on

the traveler's age and what type of activities a traveler is seeking. For middle-age travelers and families, Yono recommends the Carnival Cruise Line

Others include American Hawaii Cruises, Commodore Cruise Line, Costa Cruises, Holland America Line, Norwegian Cruise Line, Ocean/Pearl Cruises, Princess Cruise Line, Regency Cruises, Royal Caribbean Cruise Lines, Royal Cruise Line, Royal Viking Line and Sun Line Cruises.

Before making the decision on any cruise line or travel package, it's a good idea to call a local travel agent for pointers and further

Pizzeria Uno:

Chicago-style deep dish pizza

dining out STEVE KELLMAN

One of the most welcome additions to dining establishments in West Bloomfield must be Pizzeria Uno, the Chicago legend with dozens of restaurants throughout the country, and several overseas.

The West Bloomfield branch, located among the strip malls and fast-food chains on Orchard Lake Road, provides a welcome relief to diners seeking something more than your average piz-

As with all Pizzeria Unos, the restaurant is best known for its Chicago-style deep-dish pizza. A note on the menu warns patrons to be careful when they order because "each Uno pizza has about twice the food content as the pizza you are probably accustomed to." The warning comes to mind if you order an individual pizza. Though you may be initially disappointed by the deceptively small size of the pizza, the thick pies are

Our waiter during a recent visit to the Uno was a young, long-haired man with more personality than most maitre d's, and all of the staff were friendly and accomodating. Like all Unos, the walls are decorated with humorous signs with tongue-in-cheek messages like "In case of fire — please pay promptly" and "Gentlemen are kindly requested to keep their shoes on and their hats off." The walls are tiled in black and white, and lined with antique signs advertising such long-forgotten products as Uptown soda, Skol suntan lotion and Unguentine

for home first aid. The food, as in several other Unos that we've sampled over the years, is exceptional. The nachos were somewhat short on cheese, but ade-

Left to right, Dounia Dentia, Karen Semaan and Lisa Hama of Bloomfield prepare to order at Pizzeria Uno's on Orchard Lake Road in West Bloomfield.

quate considering we were in an Italian restaurant The garlic bread, sliced thin, smothered in garlic butter and toasted a goldenbrown, was very tasty The house specialty, "Chicago's original deep dish pizza," was

Ten different styles are offered, from "Prima Pepperoni" with extra cheese to several vegetarian pies with ingredients like spinach and broccoli. You can also construct your own from a list of a dozen ingredients.

Several of the pizzas, including the "Pizza Bianco" served with sausage, do not contain tomato sauce. Surprisingly, the lack of tomato goes almost unnoticed, and allows one to enjoy the other ingredients more.

A selection of salads, soups and sandwiches is also offered

The menu also offers a limited selection of desserts. The "Chicago Cheesecake" topped with strawberries was rich and creamy, though we're still wondering what sets it apart from ordinary cheesecake A sinfully-sweet chocolate cheesecake, on a chocolate chip cookie crust, is also offered. Those with a diet-be-damned mentality can even order it with fudge.

The restaurant has an extensive bar as well. The evening we were there, Uno had the English ale "Watney's" on tap, a welcome adition to the meal The draft and bottled beers are continually updated to offer a wide selection, and a short, inexpensive wine list is offered as well.

Uno was born, as legend has it, when a gentleman named lke Sewell opened the first Pizzeria Uno in Chicago on the corner of Wabash and Ohio in 1943. The restaurant was so successful that Sewell soon opened another, Pizeria Due, on an opposite street corner. The rest, as they say, was history.

Pizzeria Uno, 6745 Orchard Lake Road, West Bloomfield. 737-7242. Open Monday through Friday at 11 a.m., Saturday and Sunday at noon. Open Sunday through Thursday until midnight, Friday and Saturday until 2 a.m. Liquor license MasterCard and Visa

Mustangs stun Novi to retain 'Baseline Jug'

Huzjak engineers game-winning drive

By NEIL GEOGHEGAN

After just two years, the annual gridiron battle for the 'Baseline Jug' has turned into a nightmare for highly successful Novi, and a seasonending boost for struggling Noi-

In a replay of the stunning upset of 1988, the Mustangs did it again last Friday (Oct. 27), staging a late-game scoring drive to complete a comefrom-behind 10-7 victory, on the road, against the four-time Kensington Valley Conference champions.

The game-winning score - a 10yard toss from Ryan Huzjak to Steve Bastian with 2:50 left on the clock salvaged a 3-6 campaign for Northville. For Novi (7-2 overall), the defeat most certainly knocked the Wildcats out of the MHSAA Class A playoffs — which would have been the team's third straight appearance.

Novi has an impressive 17-4 record the last two years, but are 0-2 against the Mustangs. In that same span, Northville has a 7-11 mark, but is perfect against the cross-town rivals.

"It brought back a lot of the same feelings of a year ago," Mustang Coach Darrell Schumacher said. "It sure is a nice way to wrap up a season. On paper, Novi is bigger, stronger, and they have a much better record than we do. But our kids had their minds set on making this the best game they've played all year and they certainly did it."

Unlike a year ago, the Wildcats' season is now over, which makes the defeat even more hard to swallow. In '88, the 'Cats quickly put the Northville loss behind them and won a pair of games in the playoffs before bowing out to Traverse City — the eventual state champs — in the semifinals.

"We have nothing to look forward to, so this is a very difficult (loss) to take," Novi Coach John Osborne said. "Last year, we continued to play, so it wasn't that bad. Now, we have the whole year to think about

"It is crushing in every way possible."

The game started with a Novi interception and touchdown in the first few minutes. On the second play from scrimage, Huzjak's pass in the flats was picked off by Jason Wladischkin, and his return gave the Four plays later, Wladischkin scored from a yard out on a dive over the left tackle. The score was lightning quick, and many thought it was the start of a loosided game.

"I really liked the way we were moving the ball, but soon after that, things got turned around and we lost our momentum," Osborne recalled. "It seemed like we were playing on our heels the rest of the way.

For the remainder of the first half, neither team had much success offensively, but the big surprise was the way the Mustangs were able to shut down the potent Novi running at-

"We were really fired up early in the game and (Novi) was running misdirection plays and catching us going the wrong way," Schumacher said. "But once we got control of our emotions, we shut them down."

Northville did threaten once before the half, but a key penalty set up a fourth and 17 at the 27, and Huzjak's pass to Bill Kelley in the end zone was knocked down by Bryan Jacobs. Kevin Delaney intercepted a Wildcat pass as time ran out to provide the Mustangs with even more momen-

"We had bad field position the whole first half, but that interception at the end really helped the kids," Schumacher said. "It gave us something positive to carry through to the second half."

The third quarter opened with three fumbles in the first five plays. On Novi's second play from scrimmage, tailback Craig Berry coughed up the ball and Kevin Gill recovered for Northville. After the Mustangs moved inside the 15, Neil White turned it back over into the waiting arms of defensive end Bob Ahrens. But amazingly, on the next play, Wladischkin lost the handle and this time Jeff Todd pounced on the loose ball at the 20.

Northville moved down to the five but on third down, cornerback Mike Gowans nailed Noel Korowin for minus-five on an option right, and that set up a 25-yard field goal by Korowin, which cut the lead to 7-3.

"We knew we were two scores away and we knew we wanted to come away with points, Schumacher said.

Neither team threatened the rest of the quarter, but early in the fourth, the Mustangs put together the winning march that will probably be referred to as The Drive for many

years to come. Northville took possession at its own 21 and proceeded to convert against the area's stinglest defense. On a third and nine, Huzjak hit Steve Bastian for 10. Several plays later, on third and 10, Huzjak found Kelley in the right flats and he rambled 24

A big celebration erupted following Northville's big win over Novi, and Assistant Coach John Briningstool joined in

yards down to the Novi 13.

After a holding penalty set up a third and eight at the 10, Bastian beat Wladischkin to the back left corner of the end zone and Huzjak rifled a strike to him for the winning points. Korowin's extra point made it 10-7 with 2:50 remaining.

"It was a classic, beautiful drive," Schumacher said. "You could see Huzjak gaining poise and confidence as he went along. It was his best game of the year.

The Wildcats had two more possessions but failed to get a first down. Matt Smith stopped Berry for a loss on a screen pass and then Jacobs dropped a 20-plus pass from Chris Weldon on a third and 11 situation. Novi got the ball back with less than a half-minute remaining, but had no time outs, and failed to move the ball.

"The key was that we didn't move the ball." Osborne said "We left our defense on the field too much. I believe we only had two first downs n the second half."

When the game ended, Northville fans poured onto the field in mass celebration and Schumacher had the contents of the water cooler dumped on his head by delirious players. The Baseline Jug' will remain in the trophy case at Northville High School for at least another year.

"It was a touching show of community unity — the fans were really behind us," Schumacher said. "It was very exciting. Novi will probably play it down, but we are extremely happy to keep 'The Jug' for another

Northville had an impressive 190-90 advantage in total offensive yardage. Huzjak was 10-for-16 through the air for 97 yards, and his main target was Bastian, who caught three passes for 40 The Mustangs held Berry, who had been averaging 92 yards rushing per outing, to just nine yards in nine "The key was that our defense

played the way we thought they would all season," Schumacher said. "I think we held down a pretty good offensive team. I'm very proud of our

Massive tackle Rob Spradlin had another outstanding game for the Mustangs. He wrapped up his prep career with five solo tackles, an assist and two sacks. Todd added five solos, three assists and a sack.

"I felt we were ready and I don't think there was a letdown," Osborne admitted "We've come to realize (Northville's) ing — because they play in such a tough league — and that they always play well against us. They executed the plays — especially in that last drive - and we didn't

Novi hopes dashed by Northville

By NEIL GEOGHEGAN

Novi had all the pressures and the additional incentives that come when an MHSAA Playoff berth is in the balance. Northville, on the other hand, was playing for nothing but pride and bragging rights.

A lot was riding on last Friday's intra-community clash on the football field at Novi. The bottom line is that the Mustangs knocked the Wildcats out of the 16-team Class A playoff field with a 10-7 upset and at the same time retained possession of the 'Baseline Jug' for the second straight year

Everyone on the Novi side knew their chances for a third consecutive appearance in the post-season tourney were predicated on a win over Northville, as well as some help in a few other key games. The 'Cats got the needed outside help but failed in their own task.

"Our expectations were very high because we did so well in the playoffs last year," Novi Coach John Osborne said. "We were very much looking forward to doing it again, but we didn't hold up our end of the bargain against Northville.'

According to information gathered by the Novi News, the Wildcats would have indeed been the fourth qualifier for the state playoffs out of Region II if the defeat to the Mustangs had been turned around. Novi needed Plymouth Salem to beat Plymouth Canton and the Rocks obliged. Novi needed Walled Lake Western to beat Walled Lake Central in order to get the needed bonus points, and the Warriors came through 13-0.

"It looks like we would have had a very good chance if we'd have won,"
Osborne said. "It's easy to think
about what might have happened
after a loss like this."

Ironically, fellow Kensington Valley Conference opponent Brighton, made the Region II field with an 8-1 record. Their only loss was a 20-0 shellacking at Novi.

For Northville, it was another season-ending lift that helps everyone forget about a somewhat disappointing season. For two years, the Mustangs have knocked off the favored Wildcats with their best outing of the season, only to find that the games have run out.

'It's too bad this is our last game. Northville Coach Darrel Schumacher said. "Right now, we have a lot of momentum and a lot of confidence

Continued on 11

Canton, Franklin shutdown cagers

By NEIL GEOGHEGAN

"It was a long week for Northville girls' basketball."

That was the response from coach Ed Kritch following a pair of lopsided defeats to WLAA Western Division opponents last week. The team's quest to reach 10 victories, and thus avoid a losing season, will have to wait at least another week.

"That 10th win looks further off than it did a week ago," Kritch said.
"It's a challenge to turn around."

On Oct. 26, Livonia Franklin jumped out to a 14-point lead after one quarter, held Northville to less than eight points in each of the four quarters, and cruised to an easy 42-23 triumph. In the first meeting between the two teams, the Patriots won

by 10 in a hard-fought battle.
"(Franklin) is a very good team, no question," Kritch said. "We weren't in the game at all. It's the first time I can ever remember, in seven years of coaching, where we did not attempt a single free throw. And I'm not blaming the officials we were very tentative and we weren't taking the ball to the basket.

"It was probably our least effective game, offensively." in the first 12 minutes of play, the Mustangs' entire offensive production was three, three-pointers. The deficit was 20-6 after one quarter and 31-13 at the break.

"We gave up on our offense, but I don't think it was intentional," Kritch said. "Franklin pressured us and we weren't confident enough to attack it - we were backing down to

it. The game was over after the first eight minutes."

Northville played much better defensively in the second half, allowing the Pats just 12 total points, but the offense continued to struggle. Kate Holstein led the Mustangs with six points, Kara McNail added five rebounds and Karen Pump chipped in with four steals. Dawn Warner led all scorers with 17 for Franklin.

"I have no complaints about our effort, especially in the second half," Kritch said. "We never gave up, but if you can't score, you can't win against a team that has a 14-2 record.

PLYMOUTH CANTON 61, NOR-THVILLE 20: This lopsided loss on Oct. 24 was similar to the one at Franklin. The Mustangs fell behind 20-4 after the first quarter, and never really got untracked against the powerful Chiefs.

"We got hammered," Kritch said. "It showed us just how far away we are from the elite in our league. I think Canton and Franklin are the two best teams in our league. We have a lot of work and improvement to do if we ever want to get up to their

Canton scored 20 points in the first quarter - which ended up being Northville's total for four quarters. The Mustangs did settle down and play much better in the second period, and

did so with a very young line-up.
"It was over early, but we played a good second quarter," Kritch pointed out. "If there was a highlight, it was that we were competitive with two sophomores and three juniors on the

Record/CHRIS BOYD

A Canton player rips a rebound away from Northville's Karen Cavanaugh (left)

floor.' The third quarter, however, was a total disaster as the Chiefs outscored Northville 14-0. It was the second

time this season Canton has shut-out the Mustangs in a quarter. The lead grew to 39-11 before Kritch emptied his bench midway through the third quarter. Pump scored six of her eight points in the

seconds to lead Northville. McNeil

hauled down six rebounds but Holstein had a season-low two points. Stacy Thompson and Susan Ferko paced the Chiefs with 20 and 15 points respectively.

The Mustangs (9-7 overall, 4-5 in the WLAA) will open the WLAA Playoffs tonight (Nov. 2) at home against a team to be determined probably Plymouth Salem.

Mustang harriers save best for last

The Northville girls cross country squad saved its best performance of the season for the end.

At the 19-team MHSAA Regional competition on Oct. 28 at Marshbank Metropark, the Mustangs placed eighth, and did so with a solid team performance. Individually, Northville had just one runner place in the top 30 (barely).

"I was pleased we were able to get into the top-half of the field and that we were able to beat all but four of the top teams in our league. I'd say it was our best day of the season as a

The Mustangs performed much better at Marshbank than they did three days earlier at the WLAA Meet. Teams like Plymouth Salem and Westland John Glenn, who placed ahead of Northville in the Conference Meet, found themselves behind the Mustangs after the Regional.

"I thought we ran much better," Dunwoodie said. "A good indication is that we ended up ahead of Salem and Glenn. There really isn't any reason why, we just had a good day.'

Marcie Dart led Northville with a 22:05 effort, good for 30th place out of about 130 runners. She was followed by Rozann Staknis in 41st place (22:42), Cheryl Mittman in 57th (23:27), Kamal Bagga in 58th (23:28), Angie Nelson in 60th (23:30), Lisa Hojnacki in 75th (24:14) and Rachel Davis in 100th (25:34)

WLAA MEET: The times weren't as good on Oct. 25, even though the meet was held at Cass Benton Park Northville's home course. The

"I was pleased ... we were able to beat all but four of the top teams in our league. I'd say it was our best day of the season as a team."

 Nick Dunwoodie Mustang Cross Country Coach

Mustangs placed seventh in the 12 team field with 162 points — 118 off the pace set by Farmington.

"It was a pretty hot day, but we still had a couple personal bests," Dunwoodie said. "There were a couple teams - like Plymouth Salem and John Glenn — that I thought we should have been able to beat.

Staknis was the first Northville runner to cross the finish line. Her time of 22:47 was good for 24th place overall The rest of the Mustang finishers included Dart in 27th place (22:56), Bagga in 37th (23:13), Nelson in 39th (23:21) and Mittman in 45th

"We had our top five runners finishing almost within a minute of each other, and that's the closest we've been all year," Dunwoodie

Coon selected All-Division; now prepares for State Meet

Northville sophomore Steve Coon had the best week of his young cross country career when he grabbed All-Division honors on Oct. 25 and then qualified for the MHSAA State Meet three days later.

The results weren't as impressive for the Mustang team as a whole, however. Northville placed 10th in the 12-team Western Lakes League Meet at Cass Benton Park and came back to finish 11th in the 17-team Regional Meet on Oct. 28 at Marshbank Metropark.

"Steve had a great week," Mustang Coach Ed Gabrys said.

The highlight had to be Coon's fourth-place finish as an individual at the 120-person Regional competition. Coon finished in a time of 16:53 after moving up through the field for most of the race. A half-mile in the race, Coon was in 19th place, but he had moved up seven spots by the time he reached the mile mark. In the last 200

the Goodyear

Credit Card

yards, he outkicked one last competitor to move from fifth to fourth.

"We thought, heading in, that Steve would be about 17th," Gabrys said. "His time was the fifth best we've ever had at Marshbank. The last runner to do that well was (All-Stater) John Frisbie. It was a very credible time. For a sophomore, it was an excellent effort."

As a top 20 finisher, Coon will represent Northville in the state meet, scheduled for Nov. 4 at the Flint IMA Brookwood Golf Course. The rest of the Mustang finishers included Karl Goerky in 37th place (18:06), Jon Meek in 54th (18:33), Mike Connery in 82nd (19:24) and Jamie Groves in 90th (19:44). All four efforts represent personal-best times at Marshbank.

"Some days you just don't have it, so it was nice to be able to end the season on a nice note," Gabrys said. "I'd say it is our best team effort of

WLAA MEET: On Oct. 25, the Mustangs scored 230 points and placed 10th in the Western Lakes Meet at Cass Benton.

"We were only 16 points out of eighth, so it wasn't that bad," Gabrys said. "We thought we could have done a little better.'

Coon was again the team leader with a 17:17 — good for 11th place overall and a personal best mark at Cass Benton. The run was seven seconds off his best-ever but was enough to warrant All-Western Division honors. Coon was followed by Meek in 36th place (18:28), Goerky in 52nd (19:08), Groves in 63rd (19:41) and Jason Hoose in 68th (20:02).

'We were close to teams like Livonia Franklin and Livonia Churchill and Farmington," Gabrys said.
"A better team effort would have placed us higher.'

Chargers top kickers in tourney

The Northville soccer squad was he home team, but that advantage wasn't quite enough to propel the Mustangs past number-one ranked Livonia Churchill. The Chargers (15-0-1) held on to knock Northville out of the MHSAA post-season playoffs with a 3-1 triumph on Oct.

The clash was the semifinal game in District Five of the tournament. Churchill led 2-1 at halftime on goals by Brady Ericson and Mike Gentile but increased the margin to 3-1 when Eric Shamberger added a second half tally. Paul Kaliszewski and Phil Tedino registered assists on the last two goals.

Northville Coach Dave Yezback was unavailable for comment.

The Mustangs ended the 1989 season with a lackluster 7-11 overall mark (5-7 in the WLAA).

The Novi-Northville Colts football teams celebrated Homecoming on Oct. 21 against the Plymouth-Canton Lions at the Northville High School

In addition to the games, the Homecoming Queen — Jane Fowkes and her court were honored. The court included Martha Lokey, Aldora Bristol, Kathy Thome, Stella Bryant, Teri VanPoperlin and Bonnie Kane.

Here is a look at how all three teams fared:

VARSITY: The Colts' varsity gave the once-defeated Plymouth-Canton Lions all they could handle on Oct. 21, but ended up dropping a 20-14 Homecoming decision. The locals scored first on a Brian Jackson sixvard run, but on the ensuing kick-off, the Lions broke a few tackles and scored a quick T.D. to tie the score. The Lions took their first lead of the game in the fourth quarter off a fake punt. With less than six minutes remaining, Colts' quarterback Jeff Betzler rambled 62-yards on a draw to tie the score once again, but the Lions added the winning score minutes later on a trick-play. The never-say-die Colts moved the ball inside the Lion 20 before time ran out. The defensive standouts included John Wilds, Brian Kelley, Mark Fantino and Ron Mazzola.

JUNIOR VARSITY: The Plymouth Lions became the fifth victim for the Colts' J.V. team this season, falling to the home team 21-6. For the game, the Colts blocked three punts and executed a variety of trick-plays, including double-reverses. The first score of the game was set up when Justin Cataldo, Neil Lockey, Zack

Colts' receiver Mike Bush reaches for a pass

Francis and Paul Hladin broke through the Lion line and blocked the first punt. Brett Imsland then scored a touchdown two plays later and the Colts led 8-0 at the half. The lead increased in the third quarter when Brandon Spence returned a punt 60yards for a T.D. The Colts final score followed an 80-yard drive and culminated with Todd Zayti taking it into the end zone. Zayti ended up with 168 yards rushing on the day and much of the credit should go to lineman like Matt Jendrachkoski, Scott Elsworth, Andy Kurest, Jim Imsland, Chad Darling and Matt Beer. The Lions scored a late touchdown, but it wasn't enough.

FRESHMAN: The Colts' freshman squad rolled to a 20-6 homecoming victory over the Plymouth-Canton Lions. The victory was keyed by a defense - led by Tom Brown, Pat Powers and Marc Hosman — that held the Lions in check all day. Offensively, Nick Biagini scored first for the Colts from a yard out in the second quarter. A few minutes later, Scott Vigh ran back a punt for a touchdown to give the locals a 13-0 halftime advantage. The final T.D. came early in the second half on a scoring pass from Biagini to Vigh. The Lions added a touchdown late in the game against the second-team defense to round out the scoring.

Cold, wet weather couldn't dampen the Homecoming fun for Steve Brown

Netters take 15th at Class A tourney

By NEIL GEOGHEGAN

Carrying the banner of the Western Lakes League, the Northville tennis squad placed 15th at the 25-team MHSAA Class A State Meet on Oct. 21 in Midland.

As the only WLAA member to qualify, the Mustangs scored five points in the tournament held at the Midland Tennis Center -26 points

behind first-place Ann Arbor Huron.
"I thought it was great," Northville Coach Uta Filkin said. "The teams that placed higher than we did all have at least one high-ranking individual player. We are more of a team-oriented program because we don't have any high-ranked players. I thought it was incredible for us to just qualify for the state meet and the actual results - 15th in the state -

were icing on the cake.' The Mustangs had just one semifinalists, but did score points in two of the three doubles flights. The No. 3 doubles team of Merilynn Millgard and Julie Howard made it to the final four with a crucial win over a team from Grand Blanc, but bowed 6, 3-6, in the semifinal round.

"Our No. 3 team has done a great b all year," Filkin said. "We job all year," Filkin said. "We always talk about the fact that no matter where you play in the line-up No. 1 singles or No. 3 doubles — a win counts as much as any other

Another pleasant surprise came at No. 1 singles, where Karen Vogt ad-

vanced to the quarterfinals before falling to the third seed. Vogt's most impressive victory came in the se-cond round against a player from highly-respected Grosse Pointe South (6-3, 6-3). Vogt was knocked out by Marga Neubauer of Rochester Adams -1-6, 0-6 - and she went on to the finals.

"It was a surprise that Karen was able to beat a player from Grosse Pointe South because they are always tough," Filkin said. "That was a nice win for her.

All other singles players for Northville lost in the first round.

At No. 2 doubles, the team of Tricia Tumminia and Rebecca Bellamy won a match against a team from Grand Blanc, and thus another point for Northville, but they were knocked out in the next round by a squad from Muskegon Mona Shores who were seeded fourth. The score in the match

At No. 1 doubles, Neysa Colizzi and Kavitha Sriraman had a 12-hour wait for their first match to get underway, and they promptly fell to a team from Grandville 0-6, 5-7.

"Overall, the girl well as can be expected as a team," Filkin said. "It was rainy and snowy, so they had to move all the games inside. Some were played in Midland and others were in Bay City.

The conditions were certainly less than ideal, but the girls were happy to see how they compare to some outstate players they hadn't seen

Mustangs of the Week

RYAN HUZJAK

It was a total team effort, but Northville's 10-7 football upset over Novi only became a reality when Mustang quarterback Ryan Huzjak guided his team down the field for a 79-yard scoring drive against the area's stinglest defenses For the outstanding effort, we think this sophomore signal-caller is an obvious 'Mustang of the Week' recipient. Trailing 7-3, Northville moved down the field and scored the game-winner on a 10-yard pass from Huzjak to Steve Bastian. But during the drive, Huzjak had a key roll in converting three third and long situations, including a third and eight for the T.D. For the day, he was 10-for-16 through the air for 97 yards. "You could see Huzjak gaining poise and confidence as he went along," Northville Coach Darrel Schumacher said "It was his best game of the vear.'

STEVE COON

Sophomore runner Steve Coon had what his coach called 'A great week,' and that's good enough for us. 'Mustang of the Week' honors are heading his way. Coon grabbed All WLAA Western Division honors on Oct 25 at the Conference Meet by placing 11th overall in a time of 17:17 He followed it up three days later by placing fourth overall in a huge field at the MHSAA Regional at Marshbank Metropark, and thus earning a spot in the State Meet this weekend. Coon was 19th at the half-mile mark but moved up through the crowd. His time was a career-best 16:53. "We thought, heading in, that Steve would be about 17th," Northville Coach Ed Gabrys said. "Hi time was the fifth best we've ever had a Marshbank. For a sophomore, it was an excellent effort."

Mustangs knock Novi out of playoffs

Continued from 7

and we would like to keep playing."

This Novi-Northville battle actually says a lot about both programs especially considering the events of the last two years. As Mustang rooters are quick to point out, the KVC isn't nearly as strong as the Western Lakes League, so the discrepancy between the two teams isn't as great as the records seem to indicate.

However, Schumacher is first to point out that his team needs to head into every game with the same emotion they seem to save for Novi. Northville dropped a 23-7 decision to a Livonia Franklin team that was 1-5 at the time and added a 35-8 loss to Plymouth Salem in the two games preceeding the big win.

'The kids were saying 'we have to play like this every game' after we beat Novi," Schumacher said. "It's

GAS DRYER

\$169

99

something we need to work on."

COLLIDING BODIES: On several dozen occasions during the game, Novi's Bob Ahrens and Northville's Rob Spradlin met head-to-head. Such battles in the trenches don't normally draw attention, but this was dif-

ferent. The reason: both players are among the biggest and strongest lineman in the state. At 6-foot-5, 265 pounds, Spradlin lined up opposite Ahrens (6-4, 250) when the Wildcats had the ball. Spradlin is a defense tackle and Ahrens is a two-way

"When those two guys hit, the

whole field seemed to tilt one way," Schumacher laughed, "Those are two very strong individuals meeting head-to-head.

The general consensus is that the two battled to a draw, although Spradlin did manage five solo tackles and a pair of sacks. Both are expected to move on and play college

QUOTE-UNQUOTE:

• Dennis Colligan, Northville Athletic Director: "If I was Darrel (Schumacher), I'd take "The Jug" into the locker room and make all the guys kiss it."

· Randy Thompson, Novi center: "The coaches didn't tell us whether

Brighton won or not, and I'm glad they didn't. It provides us with more motivation."

 Bret Keir, former Novi football great: "It's just another Novi-Northville battle. as usual. These games are never easy.

· Ed Kritch, Northville Basketball "Heading into the game, I thought there was a potential for a 40-0 blowout. It was amazing what happened."

• Randy Perrin, Novi Trainer: "After the loss to Fenton, Coach Osborne told the players 'now that our playoff chances are over, let's dedicate ourselves to winning another KVC title and getting 'The

Raking fall leaves: sport or chore?

By MIKE TYREE

The premature taste of winter local residents experienced a couple of weeks ago did more than send shoppers scrambling for cold weather gear. The snow and cold also sent cascades of leaves fluttering on to Northville's well-manicured lawns. and served to jumpstart a ritual which has roots stretching back for generations

The task of raking leaves is endured by many but enjoyed by few. Still, history has recorded a number of instances in which man actually used the raking and collection of leaves as a fall sport, in the era before football was invented. Even today, many Americans engage in a score of activities based upon leaf raking

The advancement of leaf games should be discussed to underscore the tradition and pleasure of such events.

According to the hard to find reference book "Leaves and Their Relationship To Man's Athleticism," crude games involving leaves originated in the pre-Papazoan Era (around 627 AD) in the northeast portion of the western hemisphere, or what eventually would become the **New England states**

Details are sketchy, but it appears that tribes of natives would often gather to compete in games of skill during the fall season and each tribe would designate a member to dash about a wooded area dragging a sharp stick for about 45 minutes. The person who returned to the starting point with the most leaves in tow would be declared the winner, and would receive a turkey, or some ap-

Unfortunately, most of the events ended in a scoreless tie, because running around dragging a stick for 45 minutes didn't accomplish much in the way of picking up leaves.

A variation of this game was introduced to the white man upon the colonization of the United States' east

Record/CHRIS BOYD

Northville resident Fred Kerr blows away the leaves in the gutter

in translating the native's language, the settlers mistakenly dragged turkeys, apples, and canoes around wooded areas, attempting to capture leaves for a promised payoff of sticks. Though well-accepted among early settlers, the enthusiasm for the game waned as sporting technologies

With the discovery that human hands could collect bunches of leaves when the fingers are spread, leaf

gathering emerged from its so-called dark ages period to finally resemble the sport it is today. In the 1800's, mid-westerners delighted in a family-against-family competition in which a member would be dragged behind a horse in a wooded area, fingers extended, grabbing and shoving handfuls of leaves into their flannel shirts all the while After 45 minutes of battle, the collected leaves would be counted and the win-

In the 1900's, the advent of the assembly line forever changed the face of leaf gathering. Obsessed with the phrase "cover your tracks," failed inventor and certified paranoid William Clay Lyon Rakes began to tinker with a track-covering device. The crude tool used two metal teeth strapped to a four-foot wooden stick and was to be dragged behind a walking person. Lyon discovered that more teeth were needed to do a sufficient track-covering job, and that leaves were the perfect material to cover said tracks

ner would help the losers build a

Lyon's invention swept the nation. His "rakes" were mass-produced, and social-climbing Americans everywhere spent the better portion of their weekends covering their tracks for fun and self-betterment.

Rakes' empire crumbled a year later, however, after a scandal involving the U.S. Defense Department's procurement division was unearthed. Angry citizens sought to undo Rakes' perceived damage by cleansing their yards of mounds of leaves collected during the previous

Various means of disposing of the leaves were implemented, including the use of acids (deemed too harsh on lawns), cattle (they would eat the leaves but also made the lawn unsightly), and bounties paid by the government. But none of the new methods worked as well as Rakes' multi-toothed contraption. Soon families gathered on weekends and swept away leaves as a matter of duty, and towns enacted ordinances to promote the activities.

Today, leaves are raked and bagged, or blown into neighboring yards rather matter-of-factly. It's part of our changing world, one assumes, that a task so enjoyed just a few years before should dissolve into a chore. Perhaps we should step back and remember what we see as work was really our ancestors' favorite

Free health testing offered for seniors

Free health testing for persons over 60 years of age is being offered at the Northville Senior Center on Nov. 17. The health tests include: vision, glaucoma, cataract testing, hearing test, respiration check, breast exam, complete blood count, blood pressure check, oral exam, TB skin test and

The Senior Center is located at 21200 Taft Road and the event is sponsored by Beyer Hospital. Call 467-4638 for an appointment.

CHILDREN AND CHOLESTEROL: The Mare Health Center will presen 'Children and Cholesterol' on Thursday, Nov. 16. The program will be presented at Schoolcraft College (Room LA-200 of the Liberal Arts Building) from 7-8:30 p.m.

The program will be led by Dr. Susan Laurent, a pediatrician at the M-Care Health Center in Northville. Call 344-1777 to pre-register; a \$2 fee is payable at the door.

Participants will learn about risk factors for developing coronary heart disease and what to do to help prevent it in children. Acceptable cholesterol levels in children will be discussed, along with what steps should be taken to reduce cholesterol levels in children.

BLOOD PRESSURE SERIES: Learning how to control your blood pressure is the subject of a series of five classes titled 'Low Down on High Blood Pressure' and offered at St Mary Hospital in Livonia.

Classes will be held every Tuesday from 7-9 p.m. beginning Nov. 7 and running through Dec. 5. A course fee of \$30 is required. Register by calling 464-4800 (extension 2297) by Oct. 31.

FITNESS OVER 50: Twelve Oaks Mall offers a free exercise program titled "Fitness Over 50" in the Lord & Taylor Court every Tuesday and Thursday from 9-10 a.m.

Designed and field-tested for 12 years at the University of Michigan, "Fitness Over 50" is a safe, carefully guided, low impact aerobic exer-

Fitness Notes

cise program set to music. It is particularly aimed at older persons and others who can benefit from increased energy, endurance and muscle tone.

open to all interested per regardless of their age and current activity level. For more information call the Twelve Oaks Management Office at 348-9438.

BLOOD PRESSURE CLASS: Learning how to control your blood pressure is the subject of 'Low Down on High Blood Pressure,' a series of five classes offered at St. Mary Hospital in Livonia.

Classes are held Tuesdays from Nov. 7 through Dec. 5, from 7-9 p.m. A course fee of \$30 is required. Register by calling 464-4800, ext. 2297, by

CHOLESTEROL CLASSES: Learn to lower your cholesterol. The Oakland County Health Division is offering cholesterol education class at its Southfield office and at Troy High School. The Southfield class will meet Oct. 25, Nov. 1 and Nov. 8 from 7-9 p.m., and the Troy class will meet Nov. 2, 9 and 16 from 6:30-8:30 p.m. The cost is \$6.

For more information, call 858-5306.

CPR CLASSES: Botsford General Hospital in Farmington Hills is offering adult CPR classes and infant/child CPR classes.

The adult program is offered the first Thursday of every month in the Administration and Education Center from 7-10 p.m. Pre-registration is re-

The infant/child program is offered the first Monday of every month in the Administration and Education Center from 7-10 p.m. Pre-registration is also required.

Fee is \$5 for each class. Call 471-8090 for more in-

A cardiopulmonary resuscitation (CPR) class is also offered by Schoolcraft College on Tuesdays and Thursdays from 6-10 p.m.
An American Red Cross CPR certification card

is issued upon successful completion of the course. Cost is \$18. For more information call 591-6400, extension 410.

FREE HEALTH SPEAKERS: Catherine McAuley Health Center is offering health care professionals to speak to clubs, community groups and schools interested in learning more about health care and other medical issues through McAuley's Speaker's Bureau.

"Speakers are provided free of charge to keep audiences up to date on the latest in medicine, technology and the rapidly changing business of health care," said Liz Peterson, director of community relations.

Just some of the topics the speakers can address include: "Eating Economically and Nutritionally," "Superwoman Syndrome," "AIDS," "Stress," "Heart Disease: Treatment and Prevention," "Alzheimer's" and "Characteristics of Chemical Dependency."

Speakers are available for groups of 15 to 200 and will adjust their presentations to the needs and time requirements of organizations.

For more information, call community relations

OPEN SWIMMING: Open swimming at the Northville High School pool has resumed. The fee is \$1 per person and is payable at the door.

The fall open swimming schedule through Nov. 15 is as follows: Monday from 7:15-8:15 p.m., Wednesday from 7:15-8:30 p.m., and Saturday from 1:30-3 p.m. An adult lap swim is also slated for Wednesday from 8:30-9:30 p.m.

Fitness Tips

Take charge of lifestyle for a healthy body

By SYLVA DVORAK, MS

Scientists are continually learning more about what we can do to live longer and healthier lives.

However, to a great extent our health is a result of the way we live. The everyday choices we make determine the quality of our lives.

We make the decisions - conscious or unconscious — about the kinds of food we eat, whether to exercise, smoke, drink an excess amount of alcohol, and how we manage stress in

our lives. Yet how many of us take time to periodically look within ourselves to see how well we are choosing to live

Perhaps by taking the time to do this, we would take control over the parts of our lives that would improve the quality and longevity of our lives.

A healthy lifestyle is made up of many components. Here are some for you to consider.

Do you smoke?

Smoking is the larest single preventable cause of illness and premature death.

Do you enjoy your job? This plays a major role in life

satisfaction Do you drink alcohol in modera-

Over 50 percent of all traffic deaths are alcohol related. There are 17 million alcoholics in the United

Do you know your blood pressure?
A blood pressure of 140/90 or greater is considered hypertension. More than one reading is necessary to determine if you have high blood

Do you use seatbelts at all times? Seatbelts can reduce the risk of fatality and injury by as much as 50 percent.

Do you have good sleeping habits? Waking up feeling refreshed in the morning is a good indicator.

Do you know your cholesterol

timal.

breakfast.

to solving problems such as weight loss and depression. The answer has to come from within. You are responsible for the quality of your life, so take charge of your lifestyle for a healthy body, mind and spirit.

ly you are living a healthy lifestyle.

Remember. There is no "magic"

Do you have good eating habits?

SAFE FLO SOLDER

 To repair; Copper pipe, refrigeration systems and other piping.

1 LB. 875

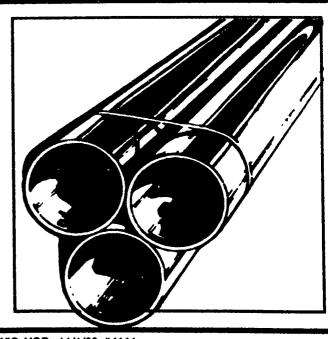

SELECT THE CORRECT PIPE...

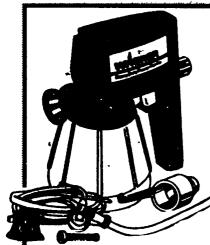

When selecting pipe to supply water to your home or a new addition to it, there are several important factors to consider:

- How many outlets are going to be served.
- The distance between outlets.
- How often they will be used at the same time.
- The number of turns the pipe must make.

As each of these increase, water pressure is adversely effected. In addition, if the pipe is too small it will not only deliver inadequate flow but be noisy as well because the water will be forced through the pipes too quickly.

WINTER'S COMING...

CUT THIS OUT & TAPE IT AROUND YOUR FINGER.

BUILDERS SQUARE WANTS TO REMIND ME WINTER'S ON ITS WAY!

It won't keep you warm, but it will serve as a reminder of the projects ahead.

REMEMBER ALL THE THINGS YOU WERE GOING TO DO LAST WINTER?

- Late last season you were going to build a firewood bin right off the back porch. But, before you knew it, the days warmed up, baseball season began and the grill and lawnmower "parked" themselves there.
- As you put away holiday decorations in that hall closet last year, you had a great idea for closet shelving. The new year came along with 100 other projects and that idea was forgotten. After you dig beneath beach balls and vacation luggage to uncover the decorations this year, take a break to come down and let us show you how to solve your storage problems once and for all.

NEED SOME TAPE?

We've got what you need for those big "winterizing" projects around your home... and for the little ones, too! You'll find tape, batteries, light bulbs and extension cords. Come 'n see.

No matter how big your project, our products and advice will help you wrap it around your little finger!

Limited quantities. Sorry, no rainchecks. At least one of each item available in the store at the beginning of the sale. Not responsible for typographical errors.

GET IT RIGHT EVERY TIME!

The size of a storm window is determined by a few simple calculations. Here's the correct way to measure:

Determine the width, then the height. Deduct one eighth inch from each for clearance. Round to the nearest one eighth inch.

These calculations will give you the correct size regardless of whether you are installing outside or inside the window frame.

GET SMART... BE SAFE!

Fire extinguishers are coded with letters indicating their use:

- A. paper, trash, wood
- B. liquids, grease
- C. electrical equipment

Carefully located extinguishers greatly enhance the safety of your home.

Remember to pick up fresh batteries for your smoke detectors!
