Cause, cost of Innsbrook fire still unknown

Gone but certainly not forgotten. The devastating fire at Innsbrook apartments Feb. 2 may be extinguished but its effects — both bad and good - linger on.

Northville Township fire officials continue to investigate the blaze which took place in the late afternoon hours last week. The fire took no lives but left the occupants of 10 apartments homeless and in need of the helping hand that many in this community stepped forward to offer.

Township firelighters arrived on the scene about 3:30 p.m. and had to evacuate dozens of apartments for safety, both from the one building the fire was confined to and from two near it. Residents endured falling temperatures and bone-chilling wind chile as they waited for word on their

High school day revised at last

By STEVE KELLMAN Staff Writer

It's been years in the making, but a restructured Wednesday schedule is now scheduled to take effect next September at Northville High School.

School board members voted unanimously Monday night to accept the administration's recommendation to restructure the high school day for the 1994-1995 school year.

Under the one-year pilot program, Wednesday classes will not start un-til 10:40 a.m., following a 30-minute "lunch" period that begins at 10:05 a.m. Class lengths will be shortened to 30 minutes from their normal 55-minute length, to allow all classes

Before that, faculty members will report to school at 7:15 a.m., meet in a two-hour "curriculum study" session between 7:30-9:30 a.m. and a half-hour "conference" between 9:30-10 a.m.

The rest of the school week remains unchanged.

The intent of the revised Wednesday schedule is to improve teacher rapport and give faculty more time for rapport and give faculty more time for professional development and collaborative planning time, in keeping with the goals of Northville Public Schools' Strategic Plan.

The ultimate goal, according to a letter of understanding drafted by the administration and staff is to "ex-

administration and staff, is to "explore new strategies and delivery systems that will further enhance an environment where teaching and learn-

ing are the highest priority."
This has been a long time coming." noted Superintendent Leonard Rezmierski. "What's critical is that we've agreed, from all points of view, that this is a direction we should take

Rezmierski noted that the restructuring represents a major change in the way the high schrol does business. There's a degree of risk-taking here, on the part of the district, the staff, and most importantly the students," he said. We're venturing into new territory here."

In his memorandum describing the new program, Rezmierski noted that similar programs in North Farmington and Holt "have already resulted in an improved teaching and learning environment." Those improvements included technology integration across the curriculum, interdisciplinary teaching and outcomes-driven curriculum, instruction and assessment, he wrote.

The board was treated to a presentation by representatives of the North Farmington High School, which implemented a similar Wednesday schedule two years ago. Teachers Kathy Chiasson and Gerry Maxwell and School Board Secretary Sue Lightner noted how the program fostered an increased sense of professionalism among the staff, while Parent Advisory Board member Dave Haron explained how local parents were won over to the program by " emphasis on improving the quality of

The assessment increases on their properties will be going up, but not by much. Combine that with the property tax cut that will take place no matter which plan Michigan voters usher in March 15 and there's outright cause to grin.

Officials say the average assessment increase for residential properties in the township will be about 1.5 percent this year, down from 7.8 percent in 1993. That figure, officials stress, is an overall estimate. It's not applicable to individual homes, where assessment increases or de-

Reasons for the drop-off are expected to be detailed in data township assessor John McLenaghan has put together. He has done a neighborhood-by-neighborhood sales study of the township to determine assessment figures. The figures are under review now. Assessment notices should be mailed to homeow-

ners in about two weeks. And none too soon. The township's board of review, which hears assessment appeals, meets March 8. Homeowners must be notified of their asthat, McLenaghan said.

Richards may be out as manager

By RANDY COBLE

The times, could they be a changin at Northville Township

Some are saying it's a distinct possibility.

A joint press release is expected to be issued tomorrow, Feb. 11, concerning the status of Manager Bill Richards. Observers expect it to announce that Richards will leave his position.

Richards on Jan. 25 requested a medical leave of absence for 30-90 days. He presented Supervisor Karen Baja with a note from his doctor that said the manager was suffering from hypertension and angina and that the leave was medically necessary. Richards has been off work

Township officials sent Richards paperwork for his doctor to fill out to satisfy the legal requirements of

insurance disability. The forms have not yet been returned, Baja said Tuesday.

The press release, she said, will explain the situation further. Attorneys for the township and Richards were still going over the matter, Baja said, adding that she "cannot legally discuss the matter before then (Friday)."

Others familiar with the situation, however, indicated that the release would announce the end of Richards' tenure which dates back to only last year. They say the manager and township officials have reached an agreement on when and under what circumstances the termination will take place.

Those facts, like the reasons for Richards' possible departure, are the subject of much speculation privately but practically none publicly.

Richards was hired as township manager in June of 1993.

County accepts city assessment figures

By STEVE KELLMAN Staff Writer

It took a while, but Northville City Finance Director Mark Christiansen said Monday that the Wayne County Equalization Board has verbally agreed to his analysis of residential assessment increases.

While the equalization board had proposed an overall 11.74-percent increase in residential assessments earlier this year. Christiansen countered with a 5.9-percent figure. The figure was based on a stratified sales ratio analysis he performed on individual home and condominium sales in the city's 14 neighborhoods.

The equalization board initially disputed his findings, Christiansen said, but has since agreed to abide by

The agreement means that residential assessments in the Wayne County portion of Northville should rise an average of 5.9 percent, though the changes will vary widely between neighborhoods due to varying sales

The increase in home sale prices in Cabbagetown, for instance, were so high last year that the neighborhood will see an average assessment increase of about 16 percent. Slumping condominium sales in St. Lawrence Estates and at Buchner Hill Condominiums, on the other hand, will lead to 4-percent and 3-percent decreases respectively.

At the condominium complex on East Street, Christiansen added, some units had sold for a little over half of their estimated value so assessments there will drop significantly.

Christiansen blamed the discre-

pancy between the county figures and his own on incomplete sales data at the county. He noted his own study had been based on home sales that had been either ignored or missed by the county, and noted that he keeps close track of sales in the area in order to maintain accurate records. "Ive got sales data from the Detroit

News that still hasn't come through the county records yet," he said. In Oakland County, residential as-

Genitti's hosts political hopefuls

By RANDY COBLE

All you political junkies out there had better circle Feb. 27 in red on your calendars.

Genitti's Hole-In-The-Wall restaurant in downtown Northville will play host to a good old-fashioned political party that Sunday. It's a chance for folks to come out and meet the people who want to be our governor, Senator, Congressional representative and district court judge.

The format is strictly informal. Candidates won't give speeches but are looking forward to discussing the issues and answering your questions over Genitti's tasty appetizers (supplied free) or a drink from the cash

Expected to attend are gubernatorial candidates Howard Wolpe, Lynn Johndahl and Debbie Stabenow, U.S. Senate candidate Lana Pollack and Bryan Amann, running for a U.S. House seat. All the hopefuls are Democrats.

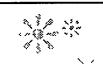

At least two candidates for the 35th District Court Judgeship on the ballot this November will attend: Tom

Thornton Creek gets green light

By STEVE KELLMAN

With any luck, pupils and teachers will be roaming the halls of Thornton Creek Elementary next school year following action taken by the school board.

The Northville Board of Education voted unanimously Monday night to open the 20-classroom Thornton Creek and keep its other four elementaries open, following the recommendation of a Future Facilities Use Committee made up primarily of residents. Attendance boundaries for all five schools will be established over the next month.

The vote came despite criticism from one district resident, Steve Lloyd, who questioned why the committee's elementary school recommendation was based on high population estimates while middle and high school recommendations from the same committee had been based on most likely population estimates.

Committee Member Barb Bennett explained that her committee used high estimates for the elementary projections due to their own estimates of larger-than-expected growth in the district's population. The committee assembled an 86-page report in January full of po-

dations for optimal building capacity.

The committee had recommended that all five elementaries be opened in the 1994-1995 school year, to cope with projected student enrollemnt increases. They found that even if the smallest elementary, Moraine, was closed next year, it would have to be reopened within one or two years to keep school populations at their optimal levels.

The committee considered optimal levels those which would allow average class sizes of 26.5 students, which has been the school district's average grade 1-5 class size over the past 12 years.

The latest estimate of the cost to open Thornton Creek is \$702,647, and the estimated cost savings of closing Moraine next year was \$316,180.

The funds are available without adversely impacting other prog- years," she said. rams," Bolitho said.

Bolitho also noted that, if anything, the estimated cost to open Thornton Creek could be too high since fewer students may need bus service than the district has estimated. Bolitho and Business and Finance Director John Street had re-

pulation and enrollment projections, configured the financial projections facility use analyses and recommen- following input from Bennett at a fi. said. nance subcommittee meeting last week.

Board members were relieved to hear from Superintendent Leonard Rezmierski that the district could carry over some \$700,000 in fund surplus from last year's budget and add another \$415,000 in fund equity, even with the added cost of operating Thornton Creek.

"I find myself comfortable with the committee's recommendations because, in part, the money's not coming from another program," said Trustee Joan Wadsworth.

Board Vice President Jean Hansen also agreed with the committee's findings, and noted that the board had an unwritten rule for judging whether to close a school. "If you're going to close a school, you'd better be able to keep it closed for five

Hansen noted that closing an elementary school for a shorter period could result in students being moved to a different elementary, then back to the original elementary when it reopens, before moving again to the middle school.

"It's just very, very disruptive," she

The next major issue for the board to decide is attendance boundaries for the five elementaries. The board has scheduled a Feb. 24 facility subcommittee meeting to present boundary recommendations, and a March 7 facility subcommittee hearing on new boundaries which would allow the board to set final boundaries at its March 14 meeting.

The Feb. 24 and March 7 meetings will be held between 7-9 p.m. in the third-floor conference room at the Main Street School.

Board Secretary Glenna Davis asked Bolitho to design a straightforward boundary recommendation for the board to consider.

'We don't want a smorgasbord, we want to get on with running the district," she said.

The school came up with several different potential attendance boundaries last year, before the decision was made to keep Thornton Creek closed for a year to save

Chamber hosts meetings for new merchant group

By STEVE KELLMAN Staff Writer

The Northville Chamber of Commerce is overseeing the formation of a new downtown business organization to help promote the business

The purpose of the new group is to get Northville on the map and keep it on the map," said Chamber Executive Director Laurie Marrs.

The chamber already has hosted two Central Business District meetings and is planning a third one for 6 p.m. Wednesday, March 2, at the chamber building at 195 S. Main St. At the last meeting Feb. 2, attendees signed up for several committees to brainstorm marketing ideas for the Christmas shopping season, Victorian Festival, Friday night concerts and other downtown events, including plans for a new Halloween

their ideas at the March 2 meeting.
"It's rather exciting." Marrs said.

"We're trying to get more people involved, because the more people you have on these committees, the more chants themselves rather than the ideas you have."

Chamber Vice-President Ann Willis noted that one of the chamber's goals is to work more closely with downtown business owners and operators. The idea is that, rather than individual business owners trying to advertise and promote their businesses and promote Northville at the same time, if everybody pooled our resources we could do a better job all the way around," she said.

The chamber's original aim was to prepare a calendar of downtown events for merchants, to let merchants decide how to allocate their publicity efforts for the coming year. But chamber members found that a

lot more was at stake than advertis-Committee members will present ing dollars, and heard a lot of good promotional ideas from the merchants themselves

Once it's up and running, the new group will be driven by the merchamber, according to Willis. They're the ones that have the expertise," she said.

The chamber also plans to publish a newsletter to keep merchants upto-date on the group's progress and on changes at city and township hall that could affect them. Willis added that another aim of

Law would impose new standards

By TIM RICHARD Editor

A lawyer would need five years of experience before becoming a judge under a constitutional amendment before the state Senate.

"You wouldn't be able to step out of law school and buy your way onto the bench," said the sponsor, Sen. Virgil Smith, D-Detroit.

That's happened in my area," said Smith, citing judges in Oakland and Wayne counties but refusing to name names.

Currently, the Michigan Consti-

tution says, "Justices and judges of courts of record must be persons who are licensed to practice law in this state," but does not set an experience requirement.

Smith's resolution sets an experience requirement of "at least five years." If adopted, the amendment would not apply to present judges. It would apply to Supreme Court justices and judges of the Court of Appeals, circuit court, court of claims, probate court, recorder's court and district court.

Smith's resolution received 5-to-0 support in the Senate Judiciary Commimttee and was sent to the Senate floor without further comment.

Both the Senate and House would have to give the measure a two-thirds vote to put it on the bal. lot. Final decision would be up to the voters in November.

If approved, the constitutional amendment would apply not only to candidates for judge but for gubernatorial appointments to the bench. Gubernatorial appointees, however, always have been persons with more than five years experience.

Police investigate parent's assault complaint

gated an alleged case of assault last week. The mother of a 5-year-old boy said that a 32-year-old neighbor had grabbed and pushed her son.

The woman, a 28-year-old Northridge apartments resident, told police that on Jan. 24 her son was playing with her neighbor's son and another boy, the latter two getting into a scuffle at one point. Her son was a bystander during the fight, she said. The woman told her son and the other boy to go home and told the neighbor's son she would tell his father what happened when he got home.

The 32-year-old arrived home later, she said, then came outside and saw her son playing. He pushed the boy and grabbed him by the shoulder, the woman said, and asked what happened. After the boy told him, the woman said, the man pushed him again and told him to go home. When she called him and asked what happened, she said, the man denied everything and hung up.

The man told the officer who spoke to him in person that he didn't want to discuss the situation. The officer informed the man of the laws concerning assault. As he began to leave, the officer said that the man said that nothing had happened. The officer advised him to avoid the woman and her son if the situation couldn't be worked out.

OUIL: Township police arrested a Northville City resident on Feb. 4 for operating a vehicle while under the influence of liquor (OUIL).

The reporting officer was traveling southbound on Hines Drive at about 2 a.m. when he saw the 36-year-old male driving in the opposite direction. The man's 1980 Jeep Cherokee was riding on the shoulder of the road, the officer said. He turned and followed the vehicle as it proceeded to Seven Mile Road.

The Cherokee drove left of the center line several times, the officer said, between Sheldon and Clement. At one point, the vehicle went completely left of the center line and then

WARRANT ARREST: City police arrested a 34-year-old Northville man on an outstanding warrant Feb.

The man was arrested at 3:15 a.m. at Dunlap and Wing when a police officer noticed him walking west along the street. The officer knew of the warrant for the man's arrest, a criminal bench warrant for failing to appear in court on a driving while intoxicated charge from Northville Township.

The man was taken into custody and turned over to township police.

OUIL: Township police arrested a 21-year-old St. Clair Shores woman for operating a vehicle while under the influence of liquor (OUIL) and for an unlawful blood alcohol level (UBAL) on Feb. 1.

The reporting officer was stopped at the corner of Seven Mile and Beck when at about 2:15 a.m. he saw the woman, driving a 1988 Ford Escort, approach the blinking red light at the intersection. The Escort was following a vehicle southbound on Beck. the officer said, which stopped at the light and then turned right onto westbound Seven Mile.

The Escort followed without stopping, the officer said, and he began to follow. The officer said he observed the car cross the center line once and paced it at 65-70 miles per hour west of Ridge Road. He stopped the vehicle just east of Napier.

The driver said she was following a friend home and that she had drunk two beers at Getzie's Pub after work. She failed field sobriety tests, was arrested and taken to township police headquarters. Testing there showed her blood alcohol level to be between .11 and .13 percent, over the legal

SUSPENDED LICENSE ARREST: A 26-year-old Southfield man was arrested for driving on a suspended license just after midnight Feb. 5 after city police stopped him for a moving violation. The man's license had been suspended for failing to comply with a court judgment from Bloomfield Hills. He was released after posting a \$100 bond.

PICKUP TRUCK COVER LIFTED: A black tonneau cover was reported stolen off a pickup truck parked on Spring Court. The custom-made cover with frame and a vinyl insert pad for the truck bed were valued at \$270. They were taken sometime between 1 a.m. and 7:30 a.m. Feb. 4.

THREAT COMPLAINT AT HIGH SCHOOL: The mother of a 15-yearold girl attending Northville High School filed a complaint against another 15-year-old girl who reportedly threatened her daughter in school the morning of Feb. 4. The suspect reportedly swore at the girl and threatened her over her possession of letters written by the suspect. A second 15-year-old girl was added to the list of suspects later since she reportedly verbally abused the woman's daughter.

OUIL: Township police arrested A 32-year-old Livonia resident for operating a vehicle while under the influence of liquor (OUIL) on Feb. 5.

The reporting officer said that he clocked the woman's 1989 Pontiac Grand Prix doing 62 mph eastbound on Seven Mile at about 2:30 a.m. The officer, westbound on Seven Mile, turned around and followed the vehicle. He said he observed the Grand

vehicle and that the driver had slurred speech and eyes with a red, glassy appearance.

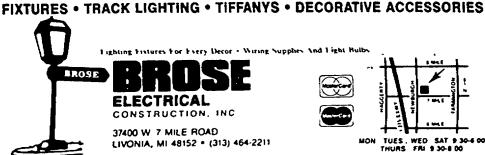

She had had three drinks at Wooly Bully's, the woman said, and was on her way home. She failed field sobriety tests, was arrested and taken to police headquarters. The officer said that neither of the woman's passengers, a 30-year-old Sterling Heights woman and a 32-year-old Detroit man, could drive her car home because of their level of intoxication.

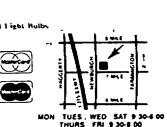

They were given a ride to headquarters and arranged for transporation home. The woman was given further tests which showed her to have a blood alcohol level of .13 percent, over the legal limit.

Citizens with information about the above incidents are urged to call Northville City Police at 349-1234 or Northville Township Police at 349-9400.

Preschool program wins two-year lease at church

By STEVE KELLMAN Staff Writer

The Northville Cooperative Preschool just won a new lease on life, having been approved for another two years of residence at its current home at First United Presbyterian Church.

The preschool program has relo-cated numerous times since it opened its doors in 1951, and was located at Cooke School until the building was reopened as a middle school in 1990, forcing the program's relocation. Before that, the program had been located at Moraine School, Northville Public Schools' Main Street building and the current Senior Citizen Center on Cady Street.

"We've been all over the place in the last 43 years," said Cooperative President Betsy Roos, "We've even been in the First Presbyterian Church before.

Cooperative organizers feared that they would have to move again last year after church elders warned them in April that they might not be able to renew its lease, which was due to expire that June 15. The church's growing Sunday School program was conflicting with the cooperative.

Church elders eventually agreed

to a one-year extension and the administered program in which pacoperative began storing some of its equipment in members homes, but in the classrooms and sit on the

Land in township at center of legal questions

By RANDY COBLE

Some say it's a tale worthy of Hollywood, involving big money, big names and big power. Others maintain it's all smoke and mirrors, a collection of politicial cheap shots. Either way, land in Northville Township is at the center of it.

Wayne County owns 900-odd acres in the south-central portion of the township. The parcel has become the subject of questions about prominent area developers, the owner of the Detroit Pistons and President Bill Clinton's nominee for U.S. Attorney in Detroit.

The land is roughly bounded by

Six and Five Mile to the north and south and Beck and Sheldon Roads

In September of that year, the county's Economic Development Corporation (EDC) agreed to sublease 101 acres of the parcel to the Northville Elderly Development Co. The private firm had plans for elderly care facilities, senior housing and some market-rate apartments. The plans didn't materialize, and in 1989 the EDC voted to end the lease.

Detroit Pistons owner Bill Davidson also owns OIS, and has plans for loper led — Huntington Falls Limited Partnership — would buy the 926 acres for \$31.75 million. The group a \$100 million high-tech flat-panel computer manufacturing facility on the property. He has an option to buy 75 more acres there which he has not yet exercised.

County Commissioner Thad McCotter, whose district includes the Northville community, has requested opinions from the county's attorneys on the legality of the OIS sale and on DeMattia's heading the EDC in 1989 when the lease was ended.

McCotter, who expects the opinions soon, said he wanted to ensure that there were no illegal or improper actions connected with the OIS or potential DeMattia deals.

"As long as the process was followed. I think it's OK. I won't vote for anything that involves an illegality." he said, referring to a possible De-Mattia deal, 'but right now all we have are allegations but no evidence. If they (DeMattia's group) are the best developer and stuck to the rules, I'll vote for them."

Thrown into the mix is a lawsuit which Elderly Development filed in March 1993 against the county for terminating the sublease. The firm's attorney, Ken Clarkson, said that his clients waited four years to file because they didn't think legal action would be effective before then. He

added that Elderly Development wants to be given the chance to develop the property according to their original plans.

The suit is now in Wayne County Circuit Court awaiting a trial date, which Deputy County Corporate Counsel Ellen Lundquist said should be chosen next month.

And if all that weren't enough, Saul Green, Clinton's nominee for U.S. Attorney in Michigan's Eastern District, is being investigated in connection with the township land deals. Green had been cruising toward an easy confirmation for chief federal law enforcement officer in the district when allegations arose concerning the sale to OIS and the lawsuit.

Green, then Corporate Counsel for the county, hired the Detroit firm of Barris, Scott, Denn & Driker to represent the county in the Elderly Development suit. He said he chose them because they had litigation and real estate experience and knew the township parcel, having brokered the OIS sale for the county.

Some, however, have raised questions about that decision. Green involved. hired Barris-Scott at the same time that the selection committee was considering him as the recommended nominee for Clinton. Chairing the committee was Leon Cohan, who left Detroit Edison last spring and joined Barris-Scott in

Cohan and Green both steadfastly maintain that nothing illegal or im-proper took place. Both said that Cohan did not participate in the committee's selection process.

To top it off, Commissioner Susan Hubbard, D-Dearborn, last month secretly tape-recorded a highranking county employee who said that Green ignored her advice that

the OIS deal was illegal. Assistant Corporate Counsel Patricia Lriving-Cwiek said on the tape that she felt the county couldn't sell the land to OIS for below-market value because the property wasn't going to be used for a public purpose. he added that Green had ignored her opinion and had hired Barris-Scott to broker the deal because none of the county's 20 attorneys would handle the transaction.

Green has denied any illegal or imroper actions on this issue as well. Federal officials are investigating the charges as part of Green's confirmation process. Critics of the affair point out that they are required to investigate regardless of the evidence

McNamara maintains that the whole thing is an attempt by his rivals, Hubbard and County Sheriff Bob Ficano, to smear him by taking potshots at his former employee.

Green has not withdrawn his nomination and a Senate vote is expected in the coming weeks.

Valentine's Day Guide a listing of line dining and entertainment

Nifty Norman's: For 20 years Nifty Norman's has consistently provided the Lakes area with outstanding service and fantastic meals in a casual atmosphere. Nifty's will be celebrating Valentine's Day all weekend long with a complimentary long stem rose for your Valentine. Mel Rencher playing romantic tunes at our plano bar, and special dinners and awesome desserts to put your Valentine in the mood.

Located less than 10 minutes from 12 Oaks on S. Commerce, just north of Pontiac Trail. For reservations call 624-6662.

Salutations: Salutations is Northville's newest and most unique card shop. In addition to the Sunrise, Gordon Fraszer and Suzy's Zoo lines, a boutique of Mary Engelbriet cards and gifts is constantly growing. The owner, Lorie Wyant is adding a bridal shower and wedding section featuring the Beverly Clark collection. Customers can also order wedding, shower and graduation invitations, announcements and social stationery. Paper party goods, gifts, wrap, UPS shipping, gift wrapping and balloon decorating for all occasions are included in Salutations' offerings.

Located at 147 E. Main Street in downtown Northville, 349-3537. Open Monday through Saturday 10 a.m. to 5:30 p.m.

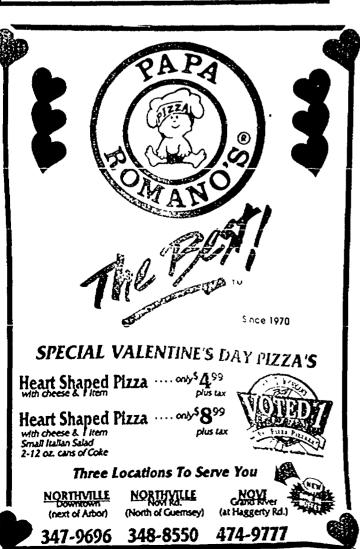

Dinser's: Stop by Dinser's Greenhouse and full service flower shop for your Valentine's Day gifts. For more than 80 years. Dinser's has taken pride in what we've grown. We guarantee top quality and 100 percent satisfaction. Come in for your Valentine's Day Roses for the incredible price of \$45/dozen. (Roses are boxed with Baby's Breath and bow.) You'll find that these are the freshest top quality Michigan grown roses—guaranteed! Quantities are limited, so first ordered, first served.

Dinser's offers a great tip for proper care in handling your roses: When you get your roses home, immerse the tips in lukewarm water while cutting the tips with a sharp knife. Using a sharp knife (no sissors please) in lukewarm water ensures that the tips will not be pinched and the roses will "sip" water versus air. Roses are anxious to drink immediately after cutting but sipping air causes the roses to droop. You need to recut the tips of your roses every three days using the same method. Dinser's will also supply you with a floral preservative package to help them last longer.

Dinser's flower shop specializes in gitts, deocrations, silks, and fresh flower arrangements for parties, weddings, funerals, churches, and businesses. Retail and commercial accounts welcome. We wire flowers worldwide

Mill Race Matters

The Northville Historical Society this week adds J.M. Miller to its list of sustaining members. Most memberships for the 1994 year are now in, but if you've forgotten to renew there is still time to do so. Contact the office at 348-1845 for a membership form.

Spring arrives shortly and with it a burst of new activity at Mill Race Village. One of the first signs of the coming of spring is jurying for Tivoli Fair, the Historial Society's major fund-raiser. If you might be interested in helping with this year's jurying contact Sally at 348-1845 for additional details. The show this fall will be the 25th annual Twoli Fair. Currently this activity raises two-thirds of the money used by the Historical Society to maintain and operate Mill Race Village. Without the funding the village would very likely become a financial burden upon the community. Quality arts and crafts from throughout the region are shown for two days. Usually double the number of entrants apply for admission into the show which makes jurying an important necessity. New thoughts and views are always an asset to the decision making process. If you would be able to help with one morning of jurying please

In this week's column a series on Northville's earliest settlers will begin. Before the onset of European ancestry settlers, the area was lightly populated by Native Americans. The primary tribe in this area was the Potowatomi. The earliest arrivals from New York knew of Indian meetings in the vicinity of dowtown Plymouth. An earlier "lost tribe" was located on the banks of today's Walled Lake. Remnants from visits in this area have been found along the banks of the Rouge River. It is likely that the Indians followed the river down from Walled Lake into the Plymouth area.

Most of the first "settlers" to arrive in our community came from New York where their families had lived for only one or two generations following the American move west. Generally their ancestry was English, but a few had Scottish or German backgrounds. By the time they arrived in the mid 1820s Michigan had been established as a territory and was working toward statehood. Generally all Native Americans had been moved further west.

In what is today Northville the first land grants were recorded in 1824 by Gardener Simmons, Erastus Hussey, and Ephraim Francis. The Francis and Simmons families became prominent in Livonia and Northville. In 1825 many others joined that early group in staking claims on land. During 1824 and 1825 individuals traveled to the area to select property then returned home to gather families and belongings for the long trip to the new territory.

Among the first to arrive and begin to develop homes and farms were Abraham Markham, David Phillips, Gideon Benton, Daniel Cady, Joseph Yerkes, William Yerkes, Rufus Thayer, William Bartow, Richard Boughton, Hiram Fuller, Henry Whipple, Salmon Kingsley, Harvey Bradley, William Randall, and Samuel Sterling. Others obtained property rights and may have arrived as well, but their trail is less visible. In weeks to come more detail about some of the first settlers and their families.

Changes in the works at high school

By STEVE KELLMAN

Plenty of changes are in store for Northville High School's curriculum next year, according to Principal Tom Johnson.

Students' choice of classes will expand and the school week itself will change under a list of 14 curriculum changes that are either in the works or already implemented. Johnson updated the school

board Monday night on his progress in implementing the list. The changes had been approved by the board last March.

Several of the changes, which were reviewed Oct. 7, have been implemented while others are on hold pending further research or board

One of the major changes to the high school curriculum will be the addition of advanced placement courses in all curricular areas including art and music. In the foreign language department, Johnson noted, AP classes will be offered in Spanish, French and German. School officials had originally considered offering AP courses in Spanish only, Johnson said.

The other AP courses will include calculus, psychology, physics, English literature, vocal music and studio

granting of a .5 Physical Education credit for participation in the school marching band or an organized sport, granting of credit from college and university courses that a stu-dent earns while enrolled at Northville, and implementation of a community service requirement.

Johnson noted that the school is still tabulating results of community, staff and student surveys on the physical education credit and a proposal for weighted grades for honors and advanced placement courses. The survey results should be reported to the board by the last meeting in May, he said.

Some of the state (school quality) Other potential changes are the mandates have overshadowed or certainly upstaged some of the things we've suggested," Johnson added. He mentioned allowing students to earn high school credit the summer after their eighth grade as one example.

Early dismissal and late arrival priviledges have already been eliminated, as have prerequisites listed in the high school curriculum and the policy of withholding credit from suspended students.

Board members acted on at least one other recommendation Monday night, as they approved a restructuring of the school day designed to "provide time for the study and implementation of school restructuring."

Restructured day gives staff planning time

Continued from Page 1

change, but the idea that they were improving the schools helped," Ha-ron said. "It's an exciting program. and we're still excited about it, and I

can't see it ever going back."

Most impressive to the board was student Renee Chou, who serves as president of the North Farmington student council and editor of the student newspaper. Chou said she had noticed a change for the better among teachers' attitudes and added that students were much more energetic by the end of the school week than they had been before.

The student body is revitalized in the middle of the week," she said.

"You can see it in their faces." Under Northville's plan, all faculty members will meet Wednesday mornings in professional development study groups overseen by a steering committee made up of between 4-7 high school teachers.

A \$55,000 budget has been allo- said. cated to the program to cover the cost of training sessions for the steering committee, clerk typists, conferences for staff members and other costs.

Dolly McMaster, assistant superintendent for instructional services, noted that traditional schools had been based on a factory model and a line-worker mentality where faculty members simply did their jobs without being given the chance to improve on the assembly-line approach to education.

"I think we are recognizing that we're out of the factory age," she said.
The overall structure of the organization doesn't support innovation . . . We have to develop a very different way that faculty in that organization plan and interact."

McMaster admitted that the restructuring plan had been in the works for a long time. There's been errors of omission, errors of whatever, but let's move forward," she

Roy Danley, the district's director of personnel, said the restructuring has been a hot topic among the administration and staff. This was one issue that was discussed at length by both parties," he said. A joint committee eventually agreed Jan. 26 to

the letter of understanding. Secretary Glenna Davis noted that her son Adam was in the fifth grade when the subject was first raised, and is now a senior in the high school. While Adam will not see the

benefits of the new schedule, she said, other students will.

"It took a lot of time, but I think we're at the right place now," she

The 20-odd audience members, including parents and teachers who had sat on committees that considered restructuring the school day in the past, burst into applause following the board's 6-0 vote to pass the restructuring plan. Board President Robert McMahon was absent.

Michigan voters to decide convict appeal process

By TIM RICHARD

Michigan voters will decide in November whether to stop automatic appeals by convicts who have pleaded guilty to crimes.

If voters say yes, it would cut the state Court of Appeals' workload by about 25 percent.

"You still could ask leave (permission) to appeal," said Rep. Michael it will save any costs." Nye. Republican co-chair of the House Judiciary Committee.

The House Tuesday gave 75 to 25 approval to the resolution, which last year had won Senate approval. A twothirds vote of both chambers was necessary to place the issue on the

"I don't think we ought to mess with the constitution," argued Rep. David Gubow, D-Huntington Woods, one of the dissenters. "All we're doing is shifting the caseload from the

Court of Appeals to the circuit (trial) courts. It's a shell game. I don't think it will save any costs."

"All we're doing is shifting the caseload from the

Rep. Daviod Gubow

Rep. Maxine Berman, D-Southfield, also was opposed. Those who plead guilty are doing so under advice of an attorney to plead to a lesser crime," she said.

But Rep. Alan Cropsey, R-DeWitt, favored passage, saying the Court of Appeals would be alerted to grant permission to appeal where the sentencing judge had departed from sentencing guidelines.

The Michigan Constitution (Art I, sec. 20) grants "an appeal as a matter by an accused who pleads gulty or nolo contendere (no contest) shall be by leave of the court" of appeals.

Spot checks by this newspaper revealed that on many days the Court of Appeals issues 15 opinions; 14 are in cases where a prison inmate has pleaded guilty; 13 convictions are upheld; and the 14th is remanded (sent back) to the circuit court for resentencing because the judge has sentenced too harshly without adequate explanation. Very rarely

has a convict pleading guilty had his In a 1990 decision in favor of Scott

Milbourn, the state Supreme Court remanded the case where the trial judge sentence exceeded guidelines established by the high court.

Proponents say the sentencing guidelines provide an automatic red flag for the Court of Appeals to grant leave to appeal. They say an automatic right of appeal is unnecessary.

Prosecutors support the amend-ment because of the expense they incur in writing 35-page reply briefs to convicts' appals.

Each appeal is heard by a panel of

three judges, each paid about \$110,000 a year.

Michigan has 24 judges on the Court of Appeals. The court says it has work for more than twice that many judges, and that Michigan has the most overworked appellate court

Jail bill held up in house

By TIM RICHARD Staff Writer

A bill to increase jail terms and fines for city ordinance violators is in big trouble in a House of Representatives committee.

The bill, by Rep. Agnes Dobronski. D-Dearborn, would increase maximum allowable jail terms from 90 days to one year and fines from \$500

*Stiffer sentences, early on, would deter some people," said Dobronski, citing support from the District Judges Association and Michigan Municipal League.

But members of the House Judiciary Committee balked at filling up jails with relatively minor offenders. They set the bill aside Tuesday after an hour's discussion.

The fails at one point were so filled that they couldn't accept more - for example, drunk drivers," said Rep. James McNutt, R-Midland.

"Has anyone done a fiscal analysis?" asked Rep. David Gubow, D-Huntington Woods. No one had.

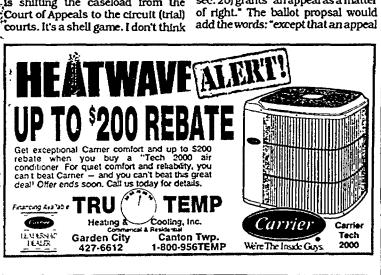

Gubow said it's generally a good idea to deal with offenses at the district court level, the lowest trial court in the state.

Ordinance cases are generally vio-lations of housing, building, zoning and weed control codes. Many in-volve junk cars and noise. Cities, villages and townships write their own ordinances, but state law limits the punishment. Dobronski's bill would amend the Home Rule Cities Act.

Committee members hinted they may go along with raising the fine limit but opposed increasing jail terms. The monetary value of \$500 has been outgrown, but 90 days in jail is still 90 days, said Rep. David Galloway, R-White Lake. Why not go up on the monetary value but keep the 90 days? Oakland County goesn't have space to put 'em."

Video pirates face stiffer sentences

Video "pirates" would face fines of \$25,000 and a year in jail under a bill making its way through the Michigan Legislature.

But people who copy videtapes for their own personal use would be unaffected by the bill, strongly supported by the 4,000-member Video Software Dealers Association.

*Our cost for a feature film is \$65 per cassette," Flint dealer Jeffrey Pedersen told the House Judiciary Committee in Lansing Tuesday. "If a pirate captures 1,000 cassettes over six months, it costs me \$65,000. But it costs them just \$2 a tape.

We want to go after the larger operators," Pedersen said.

The bill, sponsored by Sen. John Kelly, D-Grosse Points, passed the Senate 35-0 last year. Tuesday it was reported out of the House Judiciary Committee on a 14-0 vote and sent to the House floor.

Pedersen said a group of dishonest dealers often pays one dealer a fee.

He sets up 10 VCR copiers to copy a feature film that retails for \$65. The dishonest dealers rent or sell the copies at cut rates.

VSD members say the pirates cheat movie makers, professionals, manufacturers and legitimate dealers of profits, sales and rental fees.

Federal copyright laws prohibit such piracy, but the VSD says federal investigators put a low priority on local-level pirates and are asking for state legislation. "Forty-two states have such laws," Pedersen said.

In Michigan in 1992, the Motion Picture Association of America investigated some 89 video rental and sales outlets on complaints of dealing in bootleg tapes. The association says customers also are being cheated because bootleg tapes are of lower quality.

"How do you know something is a pirated tape?" asked Rep. David Galloway, R-White Lake.

Pedersen said an electronic device can detect the difference between a manufactured tape and one that has been illegally copied.

Local quake relief effort draws emotional response By MICHELLE HARRISON the \$10,000 goal set at the beginning

Some of the faxes and letters Eva Pieper has been receiving from earthquake victims in California are heartbreaking to say the least.

"I am numb with fear and grief." wrote one mother whose daughter was buried in the January earthquake which ripped apart southern California.

Pieper, resident manager for Northridge Meadows Apartments in Northville Township, is heading up a relief fund for victims who lived in the Northridge Meadows Apartment in Northridge, Calif. The epicenter of the earthquake occurred in Northridge and crumbled the apartment complex which bears the same name as the Northville Township apartment building.

Two benefits have been scheduled this weekend to help raise money for the victims. Pieper hopes to exceed of the fund drive.

On Friday, a benefit to which the likes of Aretha Franklin, Bob Seger's Silver Bullet Band and Detroit Red Wing players have been invited, will take place from 8 p.m. to 2 a.m. at Legends, 415 E. Congress in Detroit.

Autographed Detroit Tiger helmets will be raffled off as will two fifth-row seats to a Wings game complete with limo ride and dinner at Pegasus Restaurant compliments of ACS Limo. The Wings package will be awarded to the highest bidder in an open auction.

Detroit Mayor Dennis Archer and Gov. John Engler have also been issued invitations to the event.

The fund-raising takes place Friday and Saturday at Tremors, lo-cated at Six Mile and I-275 in Livonia.

A happy hour from 4 to 8 p.m. will offer a free buffet. Michael Fox of 96.3 will disc jockey from 8 p.m. to 2 a.m. Friday night while Julie Foster of

93.1 will spin tunes on Saturday

Again, organizers are hopeful Red Wing players will attend. Northville City Council member Paul Folino and Mayor Chris Johnson are scheduled to appear.

Autographed Detroit Tiger hel-mets, Ted Nugent's autographed book Bloodtrails - The Truth About Bow Hunting and an autographed arrow from the Motor City Mad Man will be among items to be auctioned off as well as a \$50 gift certificate to the Genopolis Grill, a famous restaurant at 12 Mile and Middlebelt roads.

Radio personalities and models will also be "auctioned" off for dates. Pieper said.

The cost to get into Legends is \$5 and the cover charge for Tremors is \$3 each night (\$1 during happy hour). Pieper said 100 percent of the door proceeds will benefit the earthquake fund.

Jobseekers raise jobless rates

Workers hunting for jobs caused the unadjusted December jobless rates to climb in 11 of Michigan's 12 major labor markets, according to estimates prepared by the Michigan Employment Security Commission

"Many of these jobseekers were looking for holiday employment while others, who are optimistic about the state and local economies, were after permanent jobs," MESC Director F. Robert Edwards said.

Job growth could not keep pace with the increase in the number of workers entering the job market. As a result, unemployment climbed.

Among the labor markets, the Detroit metropolitan area was the only one without a rate increase in December. The area's unemployment rate remained unchanged from

"Callbacks at local auto plants prevented an increase in the Detroit area's December unemployment rate," Edward said.

The Upper Peninsula had the highest unemployment rate in December as well as the greatest month-to-month change. The 15 county region's jobless rate rose by a full percentage point last month to 9.9 percent, due largely to seasonal

Employment losses occurred in construction, mining, food and kindred products, health services and education.

"By the time we were on the scene, it was in the attic. I could see it puffing out of the eaves," Balok said. "We don't know how long it was going before we got there — we assume it was a considerable time."

Despite that, firefighters contained the blaze to the one building. allowing those living in the ones next door to return to their apartments the same evening. They found relatively little damage from water or smoke. Residents of the fire building. however, were not as lucky.

The blaze has left 10 occupied apartments uninhabitable, Balok said. It completely destroyed four of them, along with the belongings of those living there. Firefighters saved some or all of the belongings in another six apartments. An unoccupied apartment and a laundry room were also destroyed.

Displaced residents didn't go without a hot meal, clothing or a place to sleep, however. Red Cross and Salvation Army officials made sure of that. They and a collection of concerned residents from all over the Northville community have worked to help get them back on their feet.

Despite the devastation, no one died or was even seriously injured in the blaze. Four township firefighters sought medical attention for minor injuries, Balok said: one for soot in his eye, one for smoke inhalation, another who injured an ankle and one who twisted a knee. All four were treated and are doing fine, he said.

Also doing well were the half a dozen cats rescued from the burning building. Balok added, as well as a couple of hamsters still in their

Innsbrook residents took it upon themselves to organize a relief effort for their neighbors. They found ready helpers in other Northville residents and area businesses. Innsbrook's clubhouse is now filled to overflowing with donated goods and clothes, relief organizers say.

the effort has been a big help. There was one woman looking for her stuff (in the building wreckage)," resident Nancy Garlow said, "and when I told her that there was stuff

'She said, 'I can't believe you all would do this for us.' Hey. I would hope someone would do it for me.'

Garlow and other residents posted flyers, made phone calls and got results. Donations of clothes, food, kitchen supplies, furniture, children's toys, diapers, dishes, pots, pans, baby formula - even televisions — are still coming in.

Marriage encounter scheduled for Novi

Following a highly successful mar-riage encounter weekend in the Saginaw area last October, a weekend has been scheduled in Novi Feb. 11-13.

More and more couples are discovering that they can develop a more intimate and satisfying relationship if they are willing to work at it. A Lutheran marriage encounter weekend provides an opportunity to achieve this goal by learning a communication skill which can deepen and enrich their marriage and strengthen family life.

A marriage encounter weekend gives a couple the priceless gift of time away from the daily tensions and distractions of life, a unique opportunity in which they can concentrate totally on each other and the relationship they share. Couples will not share their private lives with anyone during the weekend, but are encouraged through the sharing of the four couples presenting the weekend to work toward a greater understanding of each other and their marriage in the privacy of their own room.

Weekends are open to married couples of all ages and faiths, but since weekends tend to fill quickly, couples are encouraged to register early to insure having a place.

City business owner lends helping hand

Talk about going above and beyond the call of duty and you're talking about Tom Goulas.

Goulas, owner of the MainCentre Grille in downtown Northville, wants to help those who lost their homes and possessions on Feb. 2 in the fire at Innsbrook apartments - and he's not doing things by halves.

As of yesterday, the restaurateur is donating 20 percent of all proceeds the Grille takes in through this Wednesday, Feb. 16, to a special in-nsbrook relief fund. Monies raised will go to buy anything and everything for those whose apartments and belongings were destroyed in the

On top of that, Goulas has invited those folks to come by The Grille for dinner — on him.

"I love to help people," Goulas said. This is a two-way street. I take money from the community in my restaurant and I want to give money back to the community too."

Why the extra effort? Lessons learned from the school of hard knocks. Goulas explained.

When he arrived in America from his native Greece in 1972, he said, he sought the American Dream.

"I never had a house or a car," he said. "I know what that's like. I worked so hard to build what I have and now I like to give back and help other people."

Goulas is hoping folks right here in the community will give his plan a big response.

We need Northville people first to step up," he said. "That's what I'd like to see: local people helping the situa-

Innsbrook residents return to their home to face fire's toll

Coming back and seeing the place you call home reduced to ashes was a difficult experience for the three women who shared one of the apartments.

Kim Begley, 25, Penny McInnes, 25, and Karen Klein, 26, were roomates at 18655 Apartment No. 2 at Innsbrook. On the day following the fire, they returned to it, now blackened by flames and smoke and covered with water, frozen in the 14 degrees below zero weather.

Wearing borrowed fire helmets for safety, they were escorted up the stairs of the burned-out building to see what was left of their apartment, now open to the sky because the flames took the roof.

Begley said she was determined to

remain positive and upbeat.

"I'm just glad this happened during the day," she said, echoing the thoughts of many. "If it was at night it "Oh my God, the mugs m would have been a lot worse.

Begley had renters' insurance, unlike others who lost their possessions in the blaze. Insurance can't replace feelings, however, and Begley was glad she found a special watch that somehow survived the scorching heat unscathed.

Rooting through the wreckage, the women came across personal objects, some burned, some just wet and frozen.

Klein quietly surveyed the scene. gathering her things as tears ran down her cheeks.

"I found the ring," she yelled to her roomates. The ring was her grandmother's and great-grandmother's before that and made it through the

RECORD **OPINION**

Our Opinion

Relief efforts speak highly of community

The spectacular fire at the Innsbrook apartments in Northville Township Feb. 2 jolted the lives of dozens of residents who lost essential property and personal belongings to the lapping flames. The blaze, which apparently started in a furnace room, spread quickly through an older building in the complex, consuming drywall, furniture and irreplaceable objects of sentiment.

Fortunately—almost miraculously no one was hurt.

The only thing that matched the destruction of the tremendous fire was the full-scale response to the situation by an alert and generous community intent on meeting the challenge of the disaster.

Truly, the effort to minimize the problems caused by the fire was an inspired one. Firefighters from three departments - the township, the city and nearby Livonia - converged on the scene and brought the blaze under control within roughly an hour. Red Cross and Salvation Army volunteers also answered the call, offering food and shelter to victims and members of public safety crews. Township Supervisor Karen Baja, too, went above and beyond and could be seen cradling the house pets that had been rescued from the inferno.

Once the smoke from the catastrophe had cleared, more concerted relief efforts went into full swing. Donors have contributed clothing, food, kitchen supplies, furniture, diapers and even television sets to the victims. And more help is on

Meijer's and Target's have gotten into the spirit of giving as have local merchants, including Canterbury Cleaners about who they are.

and the South Lyon Resale Shop. Main-Centre Grille owner Tom Goulas is offering dinner to displaced residents and is turning over to relief programs 20 percent of the receipts his restaurant collects through next Wednesday.

Donations of useful goods and cash are still needed. Call 349-8410 if you wish to help.

A companion effort to help the victims of earthquake-stricken southern California is also under way locally. Residents and employees of the township's Northridge Meadows Apartments, moved by the devastation at an apartment complex of the same name in Northridge, Calif., have initiated a fundraising campaign with a \$10,000 goal.

Two benefits have been scheduled this weekend to help raise money for earthquake survivors. On Friday, entertainment heavyweights Aretha Franklin, Bob Seger's Silver Bullet Band and Detroit Red Wings players have been invited to an event at Legends, 415 E. Congress in Detroit. The benefit begins at 8 p.m. and runs until 2 a.m.

Other fund-raisers are set for Friday and Saturday at Tremors, located at Six Mile and I-275 in Livonia. Local radio personalities Michael J. Fox and Julie Foster will serve as DJs. Northville City Council Member Paul Folino and Mayor Chris Johnson are scheduled to appear.

These are outstanding efforts, undertaking by a community with a great capacity for compassion. If the way people act when the chips are down is an indication of the amount of heart they have, local residents have reason to feel good

Our beloved cable TV guides

Snider

I've finally figured out how readers of The Northville Record used to think of our old Monday edition they regarded it as a mailing envelope for the Cable/TV Weekly.

When company brass made the decision to discontinue the Monday edition last November, they told us there might be some fallout from readers who didn't want to lose the booklet that came tucked inside of it. That was like telling people living along the Mississippi River to expect some standing water to settle in their yards.

As soon as people heard the Monday was on the chopping block, the phone lines lit up from callers wanting to know how they were supposed to plan their lives without the television listings that are included in the guide.

Then, shortly after the paper became extinct, we asked people for suggestions on what they would like to see retained from the Monday issue. The Weekly was far and away the most talked-about feature.

Their feelings about it? Don't take away our channel book! Company honchos, never ones to miss a subtle cue, put on their damage control caps and quickly fashioned a compromise. From that time on, copies of the impossibly popular guides would be available, free of charge, here at the office on Main Street. Guides for the Novi channels could be obtained here as well, with an extra stack or two being placed closer to home in the library on Ten Mile.

It wasn't an ideal solution but it was better than nothing, and a lot easier than trying to make excuses to scores of un-

happy readers.

The plan has come up against some glitches but has worked well enough on the whole. Several people show up here on Fridays to pick up their guides and most seem grateful to get something of value for nothing. Many pick up copies

for friends or family members. But we still get an occasional caller or letter writer asking if we could slip the cable guide into the Thursday edition so it would get delivered to their doors along with their indispensi-

ble hometown newspaper. I'm told, unfortunately, that this is not possible.

*I'd like to able to do something that sounds simple, but I can't," says Rick Wagoner, the manager of our printing plant in Howell. "It's not our product line anymore."

Rick says that, since the cancelation of the Monday paper, the cable guide is now printed principally for our sister publications, the Observer/Eccentric newspapers. As a result, the guides have become, in effect, a commercial account, and must be produced according to the client's needs. As it happens, the publication schedule requires workers to go to press with The Northville Record before giving the cable guide its turn on those noisy, thumping machines. This makes it impossible to merge the guide with the paper and ship the two products out as a single unit.

They tell me there's no other way to do it, and knowing this company's commitment to customer service, I believe it.

I hope readers can accept this explanation of our little dilemma. As I said, the solution we've chosen to deal with it isn't perfect, but apparently it's the best anyone can do.

At least it'll help bring a few more people into the down-

I knew I'd find a silver lining if I looked hard enough. Lee Snider is editor of The Northville Record.

Mitchell/Moments

Duck — duck — Geese!

Ducks and geese gather at the Ford Plant in Northville.

Sometimes you can't forget

I swear sometimes I have the best job in the world because of all the neat people I get to meet.

That feeling was reinforced last week when I interviewed Tony and Virginia Notarainni, a Northville Township couple who have been married for nearly 55 years.

Virginia commented on my job, stating that although the job must be fun, it must also get pretty stressful at times.

Harrison Bryan Mitchell, our photographer who was preparing to take the Notarainni's picture, answered ves, because in our profession you're supposed to have an element of toughness to you.

You try to forget some of the things you see, but you don't," he said.

His comment got me thinking back to the days when I was just beginning my career as a journalist. I had been working for the newspaper in my hometown for about a year when an automobile accident claimed the lives of six teen-agers. The accident is still regarded as one of the most tragic in Genesee County.

Sometimes what you see isn't as bad as the stories you hear. Although I'll always be able to picture the twisted wreckage of what used to be a Nova in my mind, I shiver when I recall some of the accounts I heard of the accident that week. My editor and I went through a lot of tissue that week as we listened to mourning family members.

A few years later, after some seasoning and several editorships under my belt, my emotions got the best of me again when I read the police reports following an accident which

claimed the life of a young woman. Only out of high school for about a year, the girl was driving home one morning from work after finishing up a double shift. She misjudged a curve on a freeway exit ramp and, in

her exhaustion, lost control of her car.

She was thrown from her car as it entered a ditch. Although I wasn't at the accident scene, I re-lived the entire incident through diagrams and pictures attached to the police report, which to this day still haunt me.

Once again, I found the need for a hanky as I sat in the lunch room of the police station copying the report.

I've learned a lot from many different people who are good in the business: "When it comes to criticism, be like a duck with water and let it roll off your back;" be friendly but don't be friends with your sources;" "if you can't be objective when it comes to covering a story, don't cover it," etc. But never have I been advised to be heartless.

I know sometimes we appear that way because we've got a iob to do when it comes to tragedy. Some tragedies don't affect you while the memories of others are hard to shake.

And sometimes it doesn't even take a tragedy to make a re-

porter choke back the tears. Like when I covered the Pet-A-Pet program at Old Village

School recently. Heck, it was just another feature story, I thought, so I felt a little sappy when I started getting tearyeved. I had interviewed everyone I needed to and thought I would just sit back and observe the volunteers and their cats , and dogs in action, interacting with the handicapped students at Old Village.

The cutest little girl with blonde hair and the loudest laugh I've ever heard was having the time of her life. As she sat in her wheelchair, she collapsed in a fit of giggles when a buildog licked her face.

My attention turned to a little boy sitting quietly next to her. He couldn't talk and I was having a hard time gauging his reaction to the pets.

I looked around the room and saw all these precious children, with various stages of disabilities, and cursed the cruel fate they had been dealt. It just wasn't fair.

That's when I noticed the instructors and paraprofessionals interacting with the children. What a gift they had in communicating with these kids. These people deserve all the praise in the world as do the children and their parents.

I slipped out of the room quietly, unnoticed, as tears filled my eyes. I guess even after eight years in the profession, I still need to carry a package of tissues.

Critical letter was unfair to Baja

It was very upsetting reading an editorial in the Feb. 3 Northville Record titled "Supervisor is problem" by Dean H. Lenheiser. It's nice that everybody has an opinion, but it's a shame that articles are allowed to

her being "Queen." I've worked for den on everything negative. Karen for approximately 14 months and have never heard her wanting to be called a queen. The part about her quitting any day with nobody missing her was way out of line.

I don't know you, but you must have quite an imagination to assume such a thought.

I would like to meet you to tell you about someone you know very ittle about.

You talked about your big adventure consisting of a three-hour meeting, once a month.

I truly believe that if you could keep up the Karen pace for one full day, you might understand that you can't make everybody happy all of the time. Remember, the only way you can make a mistake is to be doing something.

Karen was voted into her position by the voters. Note: I said voted. The new Township manager position was not a position which was voted or even requested by the taxpayers.

This position was chosen to be requested by the Board only, with no approval from the taxpayers. The Board did not even ask for input from the employees. Most employees of this Township function as a team, who consist of selfstarting, highly-motivated individuals who handle the daily operations of the Township, without requiring managing, asking only 100 percent backing, which for the most part, employees have received from Karen.

I don't for the life of me understand why Karen, with so much going for her would allow herself to be treated with weekly articles of insults, being addressed her way only. Except for the fact that she was voted into that position to do a job to the best of her ability and because a majority of the public believed in her and wanted a change.

I guess change is hard to except by a few people out there in the comfort zone. The other day, a man who lives in the Township came up to me with a big smirk on his face and said, "So how do you like working for a bunch of whining women?" My answer back with a smirk on my face, "Great!"

As I continued to explain my answer, his smirk changed to a cold stare. It's a pleasure knowing that you are given enough authority to Thank you for hearing this emdo your job with total support and ployee's opinion. Hopefully, the skating and figure skating. Since

> I wish the people not certain about Karen could see how everything she is behind is for the better of the community. This Feb. 3 article touched briefly on BFI composting and how when it came up, Karen hit the gavel. Why continue a three-hour meeting to just have composting tabled for another meeting? If you have ever been to BFI's Six Mile and Napier site, you would see that BFI has property in Salem and Northville Township and you don't have to be a rocket scientist to know that composting is here for 1994. So why not have it on Northville Township's side. That way, the Township would have control as to how it is run, appearance, odor control and also money from the sale of composting. Then with the site on Northville's side, possibly the Township could use the Salem flat site for soccer fields, etc. If Salem gets the site, and the way the Board meetings are going they will, we all lose. The site is located closer to more Township residents, in a direct line with Blue Heron, Hickory Creek and Crestwood homes. No control at all. This is my opinion and if you have attended any BFI meetings, you would know that it appears to be hers.

Let's stop fighting and name calling and get back to business.

The article said nobody would miss Karen. Well I, for one, would truly miss her and I really believe that I would not be alone. Some may read this and say to themselves, "What a suck up," but I'm not, only a very opinionated employee who sometimes talks too much. I don't wish to bring any problems to myself or the two departments for which I'm employed, but I've just not seen many positive articles about Karen or the Township.

I've never in the past 30 years told a boss that I've enjoyed working for them. Until now. I'll start by saying it's a pleasure working for someone as knowledgeable in so many ways as yourself, with a memory that's unbelievable.

Karen, don't change. Stay aggressive and opinionated (somebody has to). Never forget you were voted into your position by a majority of this community because they believed in you.

Children need ice arena

To the editor:

Recently, quite a bit has been spoken and written about the proposed Seven Mile ice rink; and there should be quite a bit spoken and written about such an important issue. However, an integral part of any such dialogue must be the needs and best interests of our children. My home and business are located in Northville because of the quality of life here — not just the quality of life as measured by an adult's yard stick, but by the quality of life as measured by a child's as well - and what better way to increase everyone's quality of life in our community than by offering a healthy recreational alternative like ice skating, figure skating, and hockey to our youngsters and voungsters-at-heart? Some might say we need other healthy recreational alternatives for children not interested in ice sports, and they are right! We need a variety of healthy recreational alternatives for our children, but let us not ignore the need for and benefits of this type of year-round fun and exercise. Remember, our children are our future, and this has a special meaning for my childless peers because: Your children are our future, too. Take good care of them.

James W. Kochanski

Rink would be great for sports

To the editor:

I am writing with hope that there will be an ice arena for Northville and the organization of a hockey league. People and kids in Northville that play hockey need a rink to play on. Let us play! There are high percentages of kids in Northville that have to go to different cities to play ice hockey.

I have played hockey in Livonia for five years. The Livonia Hockey Association is no longer letting non-residents in that have not played in the league before unless there are openings, which only happen at upper division levels. If Northville were to build an ice rink I hope it would not make nonresidents go to another city to play

If Northville were to build a rink e would have a high school team that could go the state finals. Maybe Novi could have a team too. With a rink we could also have open

street and floor hockey we should build a rink. There is every other kind of sport here like soccer, football, baseball and swimming. There should be the sport of hockey

Most all NHL hockey players have had a rink in the city where they grew up. Wouldn't it be great to have NHL hockey players from Northville! There is one NHL hockey player that was born in Northville but he had to go to another city to play. What this city needs is a rink to make Northville an even better place to live in!

If a rink were to be built everyone that likes or wants to skate can. There are some kids that have never skated before and would not have to drive for 20 minutes to get to a rink to open skate. So let's support the idea to build an ice rink in Northville. We need it bad and it won't cost the taxpayers any

Special interests want millages

To the editor:

Powerful interest groups are seeking to undermine tax reforms included in Proposal A. Labor unions, tobacco companies, realtors, and the Michigan Education Association are supporting the statutory back-up plan because they are planning to lobby to change the tax reforms within the near future. Incredibly no matter which plan is approved monolithic pressure groups will still be able to try to change some of the tax reforms.

Both Proposal A and the statutory back-up plan rely on legislation agreed upon in the deal cut late at night just before Christmas. Staff members continue to write the final language on the details of the agreement supposedly finalized into a constitutional amendment.

The legal language on the ballot includes one provision which will activate legislation that would raise additional school revenues through taxation including partial restoration of property tax. This could be interpreted to mean some wealthy districts could have most of their miliage restored within the near future. In fact a recent MEA newsletter mentions 41 wealthy districts could have their millage held harmless if they have financing above \$6,500 per student.

What this projects is that the voter must check with the local superintendent to determine what millages may be restored if they live in a wealthy district. However, this could happen no matter which plan is approved. Tar and feather your state representatives if this scenario takes place within the near future.

Larry D. VanderMolen Political Science Professor

State was jobs training grounds needed. And the political system had long since concluded that job training was one of those stagnant governmental backwaters of no use and no possible interest.

> Out of this chaos emerged a series of innovations that put Michigan on the job training map, later featured in the best-selling book Reinventing Government by David Osborne.

> Instead of a myriad of offices and conflicting forms, create one common office for all programs - an approach now called one-stop shopping." Instead of confusion, provide people with a "Michigan Opportunity Card," like a credit card, which provided skills information and helped people figure out if they were eligible for help. Instead of unemployment compensation being a form of publicly acceptable welfare, think of the system as the gateway to training and re-employment.

> President Clinton's thinkers in this area -Labor Secretary Robert Reich and Doug Ross. assistant secretary for employment and training - will no doubt be rolling out the administration's thinking at next month's summit. It's nice to realize that much of that thinking was initiated and tested right here in Michigan.

Homestead forms are vital to ensure tax cut

By STEVE KELLMAN Staff Writer

Northville residents anxious to take full advantage of the property tax relief promised by the recent round of school finance reform must do one thing.

Send in their homestead exemption forms.

As part of the recently-passed package of school reform bills, Michigan homeowners are now required to file special exemption forms in order to receive the full reduction in property tax millage available. Homesteads are primary residences owned by their occupants, not second homes, mobile homes or rental

properties.

page exemption forms to residential property owners, and homeowners should have received them in the mail this week.

Northville City homeowners are receiving forms with their property tax identification numbers included on the attached mailing label, so they do not have to fill out the separate box which says "This is your property tax identification number."

Finance Director Mark Christiansen noted Tuesday that his office already had been swamped with calls from homeowners concerned about the apparent ommission, and with other questions about the forms.

Township residents should receive their forms directly from the state, and extra copies are available Local assessing departments and the state recently mailed out the onenot have the property tax identification number included on them. homeowners can find the number on their old tax bills or obtain them from township hall.

The key provision that homeowners must be aware of is the March 1 deadline for filing the exemption request. While state legislators may vote to extend the deadline within the next week or two, the March 1 date is final for now.

There's absolutely no provision in the law for anybody who files after March 1," Christiansen said. "If you don't have it in by March 1, you don't have a right to the exemption."

State Rep. Jerry Vorva (R-Plymouth) said Tuesday that colleague Deborah Whyman (R-Canton) plans to introduce legislation to push the filing deadline back to May 1, and he plans to co-sponsor the bill. "I expect it to move right through the Legislature," he said.

Whatever the final deadline, the homestead exemption could mean big bucks to a property owner. According to an analysis prepared by the senate and house fiscal agencies, the estimated 1994-1995 Northville Public School miliage level for homestead properties under the statutory plan is 12.45 mills, while nonhomestead property owners will pay 24.45 mills. If the alternative ballot plan passes March 15, the millage level would be 6.63 mills on homesteads and 24 mills on nonhomestead properties.

Regardless of whether there is a vote or not, there will be a difference in miliage rates, "Christiansen noted. "The vote will just magnify the difference."

Christiansen noted that in Oakland County alone, the Oakland County Equalization Department has estimated that if one-third of the homeowners forget to file their homestead exemptions, their properties would generate between \$78 million and \$120 million in additional tax re-

venue, depending on the results of the March 15 vote to increase the

state sales tax. He noted that the state just drafted the homestead exemption form, and other required forms have yet to be drafted. "When someone sells they're supposed to file a form ending the homestead exemption, although the state hasn't come up with that form yet," he said. "Then the new owner has to refile."

Christiansen noted that the ballot plan also has an impact on local assessing departments, since its passage would limit assessment increases to the lesser of 5 percent or the inflation rate until a property is transferred.

"That's a long-range concern be-cause it ends the concept of equity," he said. "It really ends the need for assessors.

He noted that the assessment cap could result in a home or business that has long been occupied by the same owner having a much lower assessment than a neighboring building that was just recently purchased. even if the buildings are the same.

Officials reach pact on city's figures

Continued from Page 1

sessment increases will average about 3 percent, the figure originally proposed by the Oakland County Equalization Department. Christiansen noted that county equalizers in Oakland perform their own limited stratified sales ratio analysis, separating single-family home sales from condominium sales to obtain more accurate overall figures.

"When they send me their numbers, I'm always within half a point.

Vorva bills convicts for services

Convicted felons would have to reimburse the state forensic laboratory \$150 for helping convict them under a bill making its way through the Michigan Legislature.

"Let's place the burden of the criminal justice system on those who create the cost, said the bill's sponsor, Rep. Jerry Vorva, R-Plymouth.

When there's a need for forensic science to come in — either the State Police labor or a large city's - and when it's used in a conviction, the gulty person will pay a fee. It's important to send a message to the criminal element," Vorva told the Senate Judiciary Committee Tuesday.

That panel voted 5-0 to send the House-passed bill to the Senate floor for action, though not without some cycbrow raising.

Forensic test' means a drug analysis, toxicology analysis, exami-court's budget. Why are you asking

marks or questioned documents, according to a Senate staff analysis. It would not cover blood alcohol tests.

Do you have any idea what number of cases (indigents) are represented by assigned counsel? asked

Sen. Virgil Smith, D-Detroit. Vorva, a former police officer, estimated 25 to 30 percent of convicts would be able to pay the forensic lab

Sen. Dan DeGrow, R-Port Huron, who does defense work, estimated 90 percent would be unable to pay. "You might be able to afford \$150 (lab fee) if not \$5,000 (for an attorney)," De-Grow added.

Janet Welch of the Supreme Court Administrator's Office also estimated 90 percent of convicts are indigent and unable to pay.
Welch asked that the court system

be allocated 15 percent of any fees collected.

That annoyed Smith. "We pay the nation of latent prints, micro-chemistry, serology, firearms, tool in the state."

If enacted, it would be Vorva's first bill to become law. It would take effect 90 days after the Legislature adjourns (about April 1, 1995) and would "sunset" two years later.

Vorva's bill would require a judge to charge the convict \$150 in addi-

tion to any fine or prison term. Capt. Richard Lowthian, director of the State Police forensic science division, said his lab performs forensic work on 50,000 criminal cases a year. It also investigated 472 crime scenes and made 1,375 court appearances.

Lowthian said a graduate student at Central Michigan University surveyed 415 criminal justice professionals (sheriffs, prosecutors and police chiefs in the 39 largest cities) and found that 62 percent wanted forensic manpower and funding increased; 55 percent think it's inadequate.

Simply put, the need for Michigan's crimnial justice system for forensic services has out-distanced my division's ability to deliver," Lowthian

*Our division budget for fiscal '93 provides \$10.5 million for 163 fulltime employees in laboratory operations . . . The division is in dire need of funding for equipment."

The Senate analysis said that if fees were collected in 25 percent of cases, \$650,000 in revenue could be generated.

Lowthian said Vorva's bill "means augmenting or supplementing our current funding and will permit us to secure the personnel and equipment we so desperately need.

Although Nettle and Glenn Porter have only been married for a little over a year, together they have over 99 years of matrimonial experience under their belts.

SECOND TIME A

By MICHELLE HARRISON Staff Writer

Glen and Nettie Porter claim

they've been married for 99 years. Although the couple celebrated their one-year wedding anniver-sary Aug. 21 last year, if you add Nettie's 50-year marriage to her late husband and Glenn's 48-year marriage to his late wife to their one year of marriage, you get a

total of 99 years of married life. Glenn and Nettle met at the Northville Senior Center in early 1992 playing cards. A resident of Canton, Glenn started going to the senior center in January

"I didn't notice him until

March," Nettle admitted. Nettie was playing cards at Cooke Middle School with other seniors when she signed up to go to a barbershop quartet perfor-mance. She asked the senior citizen's director if he could provide her with a ride to the concert from her Kings Mill home when Glenn

overheard her. "He said he would be driving by there and would pick me up," Net-tie said. From then on we've hardly been apart."

The Porters had wanted to get married by the captain of the ship they planned to board for an Alaskan cruise. "That's only on TV," Nettie said.

when she was informed that captains of ships don't really perform marriage ceremonies.

With the wrench thrown into their plans, the couple called a minister and set the ceremony for

the same week. I called my daughter and asked her what she was doing on

Friday," Nettie laughed. Nettie's daughter. Lois Hollis, stood up for her at the wedding while Glenn's daughter, Marilyn Briegle, did so for her father. "She knew I had gotten my ring.

but she was quite shocked." Nettie said about her daughter's reaction. That evening my daughter from St. Louis called and asked if she could stay with me because she was coming up for a wedding on Saturday. I told her, 'good, you can come to one on Friday, too."

The guest list grew as more re-latives and friends learned of the wedding plans.

In the year that they've been married, the Porters boast that they haven't had one argument. "At our age we don't have enough time." Nettle said.

*And these people who get engaged for four or five years - we didn't have time for that either," Glen chuckled. I only got about another 22 years to live in order to get to 100.

Nettie had lived on her own for about four years. Her first hus-band died of a massive heart attack two weeks after he and Nettie celebrated their 50th wedding

anniversary. Glenn h for almost three years although his first wife had suffered from a

stroke 10 years prior to that. To some potential suitors, though. Nettie may have proven to be a hard catch as she always said

she wouldn't get married again. "I enjoyed being by myself," she

But that changed when Glenn entered her life.

We got along so good that as far as I'm concerned anybody (get-ting along so well) should get mar-ried, she said. You don't realize how lonesome you are until then."

Parents told to be on watch for child safety

By DOROTHY NASH Special Writer

Child molestation can happen anywhere - even in your neighborhood - according to Barbara Flis, who is Health and Safety Chairman for Northville PTA and a member of the Board of Managers for the Michigan PTA.

With more children in Northville having to walk to and from school because of busing cutbacks, the danger for personal safety is greater.

But there is something that you. as a concerned citizen, can do about it. Subscribe to the state-authorized program, called Community Child

You display a sign in a front window, announcing your membership to anyone stalking the neighborhood and also to a child who is concerned.

In either case you contact the police and make a report.

As for the child who rings your bell, you don't let him into your house but talk at the door. Then call the parents

and the police.
Subscribing to the Community Child Watch program is easy. You fill out an application to assure you have not been involved in any assaultive or child-related activity. Then you attend a one-hour training session on how to be observant, what to look for, and what to do when you see something suspicious.

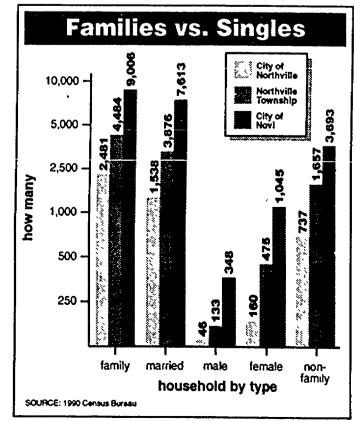

Your sign in the window is numbered, so the police will know your location when you call.

And you don't have to be home all of the time. Go about your usual business. But seeing the sign, according to Barbara Flis, will deter a suspicious person.

We want to keep our children safe," said Flis, who started in PTA at Amerman School in 1986 when the older of her daughters entered kindergarten.

If you are not already a volunteer in Community Child Watch, call Northville Township Police Officer Matt Mayes at 349-9400 about be-

Crafter's night new for Northville Newcomers

For the Northville Newcomers there is at least one activity a day during most of this month. The group also has plans in place for a couples' trip to the Michigan Star Clipper, March 4, and a Jacobson's fashion show, March 10.

One of the month's highlights is a craft night, scheduled from 7 to 9:30 p.m. Monday, Feb. 28, at the Northville Methodist Church, Eight Mile and Tast roads. Participants will bring home a completed paper twist Easter

Other February events include: Couples Pinochle - Feb. 11 Winetasting — Feb. 11 Couples Euchre — Feb. 12 Bowling — Feb. 14, 28 Bunko — Feb. 15, 24 Quilting — Feb. 15 Moms 'n' Tots - Feb. 15, 23 Children's Outings - Feb. 17 Ladies Euchre - Feb. 17 Couples Dining Out - Feb. 19 Couples Light Gourmet - Feb. 19 Ladies Duplicate Bridge - Feb. 23

Information about the Northville Newcomers is available from Lisa Kozerski, 380-9355.

Annual reunion set

If you're planning on attending the annual Northville reunion in Florida, you'll have to make your own reservations.

A buffet luncheon will be served at the Holiday Inn, 6525 U.S. 27 North in Sebring, Fla., on Feb. 18. Social hour begins at 11 a.m. and lunch will be served at noon. The cost is \$12.50 per person.

For those who still live in Northville or the surrounding area, consider this an open invitation to join the group.

To make advance luncheon reservations (a must), additions to the mailing list or for further information, call (813) 482-2865 or (407) 334-3715. Last year, 73 "Northvillites" and friends attended the reunion.

Student teachers

Marsha LaGrow, Jenniser Isenberg and Lori Bernardo are student teaching at Amerman Elementary for the winter semester.

Members of the Northville Mother's Club Goals Committee include, left to right, Cheryl Wairo, Cheryl Spinazze, Jackie Payne, Denise Johnson, Linda Handyside, Debi Lopez, Meg Coponen and Kathy Arenz.

Lisa and Scott Schaal

Weddings

Lisa Marie Oberhofer and Scott Schaal were married Aug. 14 at Shrine Chapel of Our Lady of Orchard Lake. Father John Budde from Holy Family Church of Novi officiated at the double wedding, which included the marriage of the bride's brother, John Curtis Oberhofer of Rochester Hills, to Sandra Ann Westoby of Reese, Mich.

The bride is the daughter of Mr. and Mrs. Raymond A. Oberhofer II of Rochester Hills. The groom is the son of Mr. and Mrs. Thomas J. Schaal of Northville.

The maid of honor was Tamara Wilkowski. The bridesmaids were Cathy Oberhofer, Sandra Schaal, Kimbereley Greene and Anna Talariol. The flower girl was Kelly Donner.

The best man was Jay Golden. The ushers were Scott Kerry, Chris Crysler, Kevin O'Neill and Mark Blasiola.

A reception for 300 guests followed at the Links at Pinewood. Among the guests attending were individuals from Germany, California, Florida, Texas, New York and New Jersey. The couple then left for a wedding

trip to Bermuda. The bride is a graduate of Roches-

ter Adams and attended Oakland University. She is general manager of Max & Erma's of Rochester Hills.

The groom is a high school graduate of American School Foundation of Monterrey, Mexico. He is also a graduate of Lawrence Technological University. He works for Diversey

The couple will reside in Farmington Hills.

Elizabeth and Alan Brown

Elizabeth Clark Clancy and Alan Brown, the entrepreneurial business partners who established Elizabeth's Bridal Manor on Main Street in Northville have become a bridal couple themselves.

The romantic atmosphere of the salon no doubt influenced the happy pair, who were married over the Labor Day weekend, on Saturday, Sept.

The Rev. Gene Sorenson of Unity Church in Livonia officiated at the Candlelight Ceremony before a gathering of 30 family members and close friends.

The wedding and dinner reception took place at MacKinnon's Restaurant in Northville.

The bride was given away in mar-riage by dear family friend and former Michigan resident, Mickey M. Walker, who presented the beaming bride and groom with an antique sterling silver flower basket, which held the bride's bouquet and graced the bridal table as a centerpiece.

The groom was escorted by his stepmother, Helen Brown, of Brooklyn, Mich.

The radiant bride wore a short dress of ivory silk with an overlay of imported Venice lace sprinkled with Swiss crystals and pearls. The jewel neckline, sleeves, and hem were all scalloped.

A matching Mary, Queen of Scot's hat was accented by a pouf of Rus-

sian netting and tulle. A bouquet of Bridal Roses, Ivory,

Baby's Breath with cascading ivory satin ribbons was carried by the bride.

Jane Clark of Northville and sister of the bride, was Maid of Honor, and wore an Erte-inspired tea-length gown of blush champagne satin and charmeuse.

Judith Gage of Jackson, Mich., the groom's only sibling, was Matron of Honor in a saphire silk and wool suit.

The attendants each carried a single long-stemmed bridal rose. Arnie Stubbe provided a mellow background of organ music.

A tuxedoed Tom Mackinnon chaussered the newlyweds in his vintage Mercedes Benz to the Afterglow Champagne and hors d'oeuvres at the couples home in Northville. A Victorian wedding cake decor-

ated with Australian icing and bedecked with fresh flowers was served as dessert.

Valentine's Day not just a holiday for lovers, in single mom's opinion

By MICHELLE HARRISON

Does the thought of Valentine's Day break your heart because Cupid hasn't bothered to shoot you with his arrow in quite awhile?

Don't let Feb. 14 get you down in the dumps just because you're playing the single game, says Diane Wise, a single mom who's been divorced for two years.

"Valentine's Day and Sweetest Day don't really matter to me," Wise said. "When holidays like these come up, my daughter fills that big void."
Wise and her 5-year-old daughter

Emma will spend this Valentine's Day, like every other holiday geared toward loving, together.

The two plan to bake cupcakes and make out Valentine's cards to send to relatives and classmates.

"The worse part of a second marriage is combining two households," Nettie said. It's a good thing Nettie has a bunch of grandchildren who needed furniture. Other items were taken to the couple's cottage up

"Ive met a lot of single women who when they go out think they're going to meet their husband that night," she said. "You can tell when you meet Glenn said the only drawback he could see about his married life was that he can't find anything now that Nettle is keeping house. But the companionship overrules

any disadvantage.

Sometimes we sit working a "I've met guys like that. It scares me to death." puzzle or watching TV and don't say anything for an hour and a half," Glenn said.

"But you know they're there," Nettie finished. So often we're thinking the same

thing." Glenn added. As far as giving advice to young couples preparing for matrimony. whom Glenn labeled a "different breed of cats," the Porters did have some advice.

"Forget about fights," Nettle said. Life is too short.

*She does her thing and I do my thing," Glenn said.

Glenn enjoys playing the organ while Nettie crochets and cares for her 300 to 400 flowers in the summer time. Both love to travel and have trips to New Orleans, St. Louis and Sault Ste. Marie on their itinerary as well as a possible excursion to Hawaii.

The Porters also play pinochle twice a week at the senior center and like to visit with friends.

The cold you feel right now is how thousands of families feel 24 hours a day.

This year, thousands of men, women and children will be cold due to a financial hardship. For them, the thought of snow only brings doubt and fear. Whether they are physically or mentally disabled, unexpectedly unemployed or the working poor, these people will endure the chill of winter without the protection of a warm home. That is until The Heat And Warmth (THAW) Fund

THAW is a non-profit organization which helps struggling families in 11 Southeastern Michigan counties keep their heat on. It is the last resort for families who have exhausted all other possible resources. Since 1986 THAW has assisted over 11,000 families, more than half with children. Yet, THAW is not considered a handout, but a helping hand, for less than 10% of the recipients are repeat cases.

Once again, Detroit Edison is supporting THAW's efforts. Every dollar you donate will be matched by Detroit Edison and will go directly to those in need. So, as the nights grow longer, please remember the families who grow colder.

Gabrielle Anwar stars as Martl in Warner Bros.' remake of 'Invasion of the Body Snatchers'

The Body Snatchers — they're back

New Warner Bros.' release updates 1956 science fiction classic, 'Invasion of the Body Snatchers'

Once-normal people, with the full range of human emotions and behavior, have become silent, blank-eyed automatons. Those who have not changed are consumed with fear and paranoia, frantically denying the behavior of their loved ones. And, eventually, denying their own lives. Sound familiar?

It should. Inspired by the provoca-tive 1956 science fiction classic, "In-vasion of the Body Snatchers," Warner Bros. is presenting an updated version entitled "Body Snatchers."

The new version follows the fate of a group of people on an Army base who discover that something is taking possession of the minds, bodies and emotions of the people they once

knew and loved. The film is directed by Abel Ferrara, who directed the controversial "King of New York" and "The Bad

Lieutenant. Ferrara has assembled a cast of well-knwon stars and rising screen personalities for the contemporary thriller. Gabrielle Anwar stars as Marti Malone, a sensitive, rebellious teenager still mourning the death of her mother and feeling the effects of

isolation on the remote Army base. Meg Tilly plays Carol Malone, the sensuous wife and compassionate mother and step-mother whose warmth turns to ice; Terry Kinney is the idealistic scientist Steve Malone. troubled by the tension in his family and his frustration with the military brass, and Forest Whitaker is Major Collins, the military doctor who notices frightening changes in his patients which leads to his ultimate act

Advancements in special effects enhance latest version of 'Body Snatchers'

The suspenseful heart of "Body Snatchers" depends on the credibility of the transformation from human to alien.

In "Body Snatchers," that transformation is much more graphic than in the original, reflecting the advances made over the years in special make-up effects.

To create those effects, the filmmakers turned to Tom Burman, who had worked on the 1978 version of Invasion of the Body Snatchers."

Since the mid-1960s, Burman has been one of the industry's top-ranked special make-up artists, known for his work on such diverse films as "Planet of the Ape Horse," "Close Encounters of the Third Kind" and 'Dead Again.'

Burman said "Body Snatchers" was an especially exciting project. "We had to create a new kind of nature," he said, referring to the lengthy convesations between himself and director Abel Ferrara that would result in showing the "life process" of the aliens from embryo to death. Thanks to advances in the art form, Burman

and his staff were capable of surpassing their work in the 1978 Invasion of the Body Snatchers." *In the newest version, we've shown the actual birthing of a pod, as though viewing a pulsating embryo in its translucent womb," said

Burman. "It's a very eerle effect." The special make-up effects team was also able to show the aliens in several stages of metamorphosis as they took over human life as well

as their effect on their human "hosts." Beneath the make-up, however, the explosive special effects designed by Phil Cory and the sophisticated military hardware, the deeper meaning of an alien take over of human beings gave rise to intense, often personal, interpretations among filmmakers and cast members

Steve Malone, saw a parallel between the emotionless aliens and the numbness of drug abuse in their generation.

Terry Kinney, who is cast as father/scientist

For Gabrielle Anwar, whose teenage character is on the brink of self-discovery, the film is about finding and keeping one's identity when it is easy to be swayed by others. Forest Whitaker, who plays the pivotal role of

a humanistic doctor, believed "in the end, it's better to feel something, even pain, than not feel at all." And, after trying to articulate the meaning of it all, the ever-practical Meg Tilley concluded that "Body Snatchers" is just "a great popcorn movie."

All these viewpoints contributed to what associate producer Kimberly Brent felt may be the core of the film: "If we don't know who we are, or what we stand for, we might as well vacate our bodies and hand them over to someone else."

never be interested in making a science-fiction thriller," he said. "But the truth is that I always loved Martian movies. I used to dress up as a Martian when I was a kid and terrify the neighbors."

Now poised to terrify filmgoes with "Body Snatchers," Ferrara has his own interpretation of the underlying theme of the film. For the kids in this film, it's about finding a sense of identity, of their own individuality, that's missing in their lives, he said. "It takes a cause to rally around, and ideals to believe in, to make them aware of their humannity and to fight

Tankers splash Canton 54-39 as pool records fall

Northville High cleared its biggest hurdle in claiming a Western Division crown Thursday by beating Plymouth Canton 54-39 at home.

The Chiefs were minus serveral of their best swimmers. Mustang coach Mark Heiden said it had a definite affect on the meet.

They were a different team than I expected to see," he said. "I'm sure it would've been closer with their full complement of swimmers."

Northville must win two more Western Division dual meets, against Livonia Franklin and Walled Lake, to take the title. The Mustangs are going for a fifth straight division championship.
First and third place finishes in the

200-yard IM got Northville off to a fast start Thursday.

Jason Fisher, Jeff Sieving, Dave Wesley and Jason Lennig won the race in 1:42.86. Matt Basse, Joel Elsesser, Chris Anderson and Chris Bond were third in 1:54.7.

in the 200-yard freestyle, Dave Wesley set a new Northville High pool record with a time of 1:45.01.

We were going for a lot of records this week," said Heiden.

Sieving was second in the 200 IM in 2:08.98 and Joel Elsesser was third in the event with a time of 2:13.83. Lennig finished second in the 50 freestyle in 23.66 while Peter

Anthony was third in 24 seconds. Diver Mike Malloure set his personal best with a total of 276.65 points. Anderson was third with

in the 100 freestyle, Lennig was second in 54.12. Wesley broke his own pool record in the 500 freestyle with a time of 4:45.74 and took first

"It's a great swim for this time of the year," said Heiden.

The team of Anderson, Lennig, Anthony and Joel Elsesser were second in the 200 freestyle relay in 1:36.08. Fisher placed first in the 100-yard breaststroke in 55.79 while Sleving won the 100 breaststroke in 1:03.63.

Northville closed the meet with a first and third in the 400-yard freestyle relay. Wesley, Fisher, Sieving and Joel Elsesser were first in 3:24.23 while James Elsesser, James Malloure, Bond and Matt

Basse were third in 3:52.73. Heiden said it was his team's best

meet of the year.
"It's the fastest meet we've had," he said. "We were really geared up for them. We always have our toughest competition from Canton. TRI MEET

The Mustangs won both ends of a tri-meet Feb. 1 defeating Novi 65-30 and Livonia Churchill 66-29.
Heiden said his team was very fo-

cused in beating Churchill because of the division race. He said the meet was also beneficial in that he was able to use many different swimmers. "We got to see a lot of people."

Heiden said. The three schools competed against each other at the same time with each school occupying two lanes. Dual meet scores were drawn

from the results. Northville's performances were good enough to win many of the events both ways.

Wesley, Elsser, Sieving and Lennig won the 200 medley relay in 1:46.5. Bond, Justin Schlanser, Anthony and Anderson were third in 1:58.89. Fisher and Matt Basse took first

Mustangs win three at Berkley tourney

By SCOTT DANIEL Sports Editor

Northville High concluded a busy week of wrestling Friday by winning two of three dual matches at the Berkley Quad.

The Mustangs took victories over Walled Lake Central and Berkley while falling to Rochester Adams. Coach Bob Boshoven said he had some tired young men after wrestling six dual matches in three days.

We were a little worn out by the end of the week," he said.

Northville won five of those six matches - not bad for a team missing two regulars all week. Eric Lynch and John Matthews, who wrestle at 160 and 189 pounds respectively, were out of action with injuries.

The Mustangs managed to win the Western Division title despite the in-Juries by sweeping Livonia Churchill and Livonia Franklin Thursday. Northville will square off against Lakes Division champ Livonia Stevenson on the road today (6:30 p.m.) in a WLAA crossover meet.

"If we're healthy we lineup well with them," said Boshoven. "We hope to be 100 percent by (today)."

Northville fought hard in game two. The score was tied at four early on, but the Warriors chipped away and finally won 15-11.

"I really give them credit for what they accomplished," said Murray. The coach was proud of her team for making the finals.

"I was really pleased," Murray

Northville came out of pool play seeded second to Ann Arbor Huron. The Mustangs went 5-1 in the round-

robin portion of the tournament. The most interesting victory of the

five came against Farmington Hills In a long day of volleyball, emotion Harrison. After falling to the Hawks just a few days prior to the tournament, the Mustangs came back and whipped Harrison.

Murray said she was able to match her lineup against Farmington Hills better the second time around. Specifically, Renee Olin countered the Hawks best hitter with superior

blocking.

Northville got good serving as well from Jill Holloway. She tallied nine points in game one, which her team won 15-11.

The Mustangs continued to stay red hot in the early part of game two and took a 10-1 lead. But Harrison fought back and earned a 15-13 win. Northville took the higher seed be-cause it had more total points in the two games.

With the second seed, the Mustangs drew a bye in the first round of championship play. Northville went directly to the semi-finals and beat North Farmington by id scores.

Lauren Poole was the story of both games. She served for 11 points in each game. Murray said Poole has a floating serve that is hard to return.

Kate Woodrich played well in game one with five kills. Holloway and Krista Howe each had two in game

Cagers rip Harrison 54-44

By SCOTT DANIEL Sports Editor

Offense is fun, but defense wins basketball games.

The Detroit Pistons proved that point by claiming back-to-back NBA championships a few years ago. Friday night, Northville High took a page out of the old Bad Boys' book in beating Farmington Hills Harrison 54-44 on the road.

Tied at 40 going into the fourth quarter, the Mustangs held Harrison to Just four points. According to coach Larry Taylor, Northville used a tough zone defense to shut down the

"We went to a match-up zone," he said. "It allowed us to match up better with their outside shooters. When they overloaded one side (of the court) we overloaded too."

Taylor explained that a regular zone often leaves players unguarded when a team places three or four players on one side of the court. Using the match-up eliminated that problem and let the Mustangs extend their defense out away from the

At any rate, Taylor said Northville will have to continue to play strong desensively to stay in the WLAA race. We're trying to get them to play better defense," he said.

sion. Northville is 9-4 overall. It looked as though the Mustangs would fall further behind in the league race early on Friday.

Northville came out very sluggish and Farmington Hills built a 10-2 lead after three minutes. Unhappy with what he was seeing. Taylor pulled the entire starting lineup.

We were not playing with much enthusiasm," he said. In came Jeff Zwiesler, Chuck Apli-

gian, Anthony DeBenedet, George Lemmon and Scott Anderson. The group responded well and pulled Northville to within one, 17-16, at the end of the quarter.

These guys came in and did a great job, Taylor said. They added a lot of spark."

DeBenedet scored six points in the first frame to help Northville fight back. That group played into the second quarter before yielding to the

starters. Playing more motivated basketball, Northville took a 24-23 lead into halftime. John Buser scored eight points in the half.

The pace picked up in the third quarter. DeBenedet tied the game at 40 in the final seconds of the period. Northville dominated the fourth, forcing the Hawks into bad shots and

not allowing many second chances. The Mustangs took care of business on the other end. "We got the shots we needed." Tay-

lor said, "and the kids made them." The Mustangs held Farmington Hills big man Cal Pruitt to just two points in the game. Taylor said controling him was a key factor in the

victory. "We didn't want to let him get going," he commented. "He's a sparkplug kind of guy.

Buser finished with 12 points. De-Benedet added 11 and John Farrar

FITNESS CHALLENGE: Northville resident Randy Step, avid runner and owner of Running Fit athletic shoe retail store in Novi, is sharing his New Year's resolution and fitness challenge. While looking at a Northville map, Randy got the idea of trying to run or walk every street on the map before the first day of summer. The idea of marking off each street completed seemed like a fun way to stay motivated during the cold

days of winter and the gray days

of spring.
After sharing his idea with a few fellow fitness buffs they liked it and decided to join him. Already, 35 people have signed up for the Northville Challenge. All runners and walkers are invited to join in the challenge. Sign up at Running Fit or call (810)347-4949 for more information. You will receive a map, a few rules and maybe meet some new friends.

Senior transit offers help

Weather-wise, it's been a rough winter with all the snow, ice and freezing temperatures. Seems like the perfect time to stay indoors in front of a roaring fire with hot chocolate and a good book. It's a great idea, but not very practical since there's still doctor's appointments, shopping trips or the need for some socializing. Thank goodness for the Novi Senior Transiti Novi Seniors can forget about braving those icy roads and leave the driving to us.

Novi residents are eligible to ride the senior van to the Novi Senior Center without charge. Friendly van drivers will pick you up at your front door and bring you over to the Senior Center for lunch, a card game, bingo, arts and crasts or just about any activity that's going on Monday through Friday. Donations are gladly accepted and advance reservations are necessary. Call 347-0414 between 9 a.m. and 2 p.m., just 48 hours prior to needing a ride.

In 1988, Special Recreation Coordinator Kathy Crawford saw a need for the operation of a senior citizens transportation program. The senior

"Novi's senior citizen population grew at a very rapid rate and one of their major needs has always been assisted transportation," said Kathy Crawford. We applied for a grant and received a 25 passenger van with a population has grown by leaps and wheelchair lift in 1989 from Indepen-

dence for Life, a non-profit Michigan corporation. I can't begin to tell you how many people this van has helped. Just ask our Novi Seniors."

"If it wasn't for the Van, I couldn't come to the Senior Center every day," said Frances Verardi. "I don't drive and I rely on the van to take me shopping, to the bank or a doctor's appointment and to the center everyday for lunch and socializing with my friends. I say Thank God for the van.

day to play cards and have lunch. I also use the van to go on day trips sponsored by the center. It's so convenient and it gives me a chance to be with my friends," said Ed Kody.

that smoking is responsible for one out of every six deaths in the United States. Smoking deaths include cancer, coronary heart disease, strokes and pulmonary disease. Lung cancer now kills more people than

any other cancer, including that of the breast and prostate.

Smoking is an addiction driven by nicotine and psychological dependency. Any effective plan to stop smoking must attack both of these issues in order to be effective. It is possible to overcome the body's need for nicotine. The most successful method is a gradual one. Here are a few suggestions to help overcome the physical addiction to nicotine:

Cold turkey: This abrupt halt almost always brings on withdrawl symptoms that most find intolerable and drives them back to cigarettes. This is not a very successful technique, but some

people are able to tough it out. Use nicotine gum: The name is mis-

leading; the gum should not be chewed, but placed between the check and gum. Temporarily giving the body nicotine via gum prevents withdrawl while the

smoker learns to change his or her behavior. Studies show that a successful trial of the gum needs to be at least six weeks to three months long. Some people may need as long as a year. You need a doctor's prescription for the nicotine gum and proper instructions on its use.

Decrease cigarette consumption: Have your own tapering program. The taper must be slow enough to prevent withdrawal, one of the big reasons to go back to smoking. If you smoke 20 cigarettes a day, then reduce your consumption to 19 a day the next week. However, it is important to remember to couple this with behavioral changes.

The cornerstone of behavior modification involves replacing the smoking with some other activity that is both healthy and entertaining. If you replace it with something you do not like, you will not reinforce the nonsmoking behavior. Here are some ideas to help change your

Chew sugar-free gum. Smoking is something that is done with the mouth. Replacing this with a different oral activity may be successful.

Eat a piece of fruit or vegetable. Same concept as above. However, try to keep the food healthy and avoid sweets

Sing a song or read a book. Really, anything you find entertaining that avoids smoking and isn't harmful to your health is acceptable. Be creative.

Some other tricks to help your motivation are:

method, keep a log. Keeping an active record is a good motivational technique.

Try to delay the first cigarette or piece of gum in the morning. This conditions your body to become more tolerant of the withdrawal side effects. But go slow, don't make yourself unusually miserable. Keep a record to see how late you can push back that first dose of nicotine.

At least at first, try to avoid social situations that involve smoking. If everyone around you is smoking, a new nonsmoker may feel pressured to smoke. After you become more confident in your nonsmoking will power, you can better confront the temptation.

 Involve your spouse or significant other. A team effort can provide much support and satisfaction. Try to get them

Talk to your doctor. He or she would be overjoyed to help you kick the habit. Your doctor may have some other creative ideas.

Smoking is a hard habit to break. It's not easy, but it can be done. The rewards are a longer and healthier life. You'll feel great and enjoy a better life without the burden of an addiction. You can do it! If you don't succeed this time, try again, and never stop trying. You have everything to gain and nothing to lose.

Increased cholesterol causes problems

Picture a flexible rubber pipe that is hooked up to a water source that regulates flow and pressure. You now begin to

run water through it that contains many different elements. including tiny red particles. This process continues month after month, year after year. Per-

iodically, the flow and pressure may increase or decrease.

One day you decide to turn off the water and gaze into the pipe. You note that the insides have a crusty reddish tint, and that the opening for water to flow through has narrowed considerably.

You now examine the deposits inside the pipe and, in fact, find that they are nothing more than the caked red particles that have been circulating in the pipe for years. Although it seems clear what has happened, you are perplexed by what caused the apparent settling of the particles on the inside of the pipe.

A bystander appears and attempts to help you resolve the question. After weighing the in-

formation that you have provided him, he suggests that the circulating red particles in the water really had little to do with the narrowing of the pipe.

■ Increased cholesterol levels are found among countries where the typical diet is high in saturated fats and cholesterol. People who live in Finland and Australia have even higher average blood cholesterol levels (and heart attacks) than Americans do. Accordingly, they also consume more dietary fat and cholesterol.

Increased rates of heart disease are found among countries with elevated cholesterol levels. Heart disease is several times more prevalent in the United States, Finland and Australia than it is in Japan and China, where average cholesterol levels are much lower. But Asians who move to America end up increasing their cholesterol levels and heart disease rate.

Persons with inborn errors of cholesterol metabolism often develop heart disease at an early age. There are many medical reports of children, teenagers and young adults who have died from heart attacks. Almost without exception, these individuals had blood cholesterol levels in excess of 400. Many had cholesterol levels greater than 600. ■ Related high cholesterol diseases are associated with heart disease in laboratory animals. Scien-

tists have known for nearly a century that rabbits raised on milk and eggs develop fatty deposits inside their coronary arteries. ■ Atherosclerotic deposits are loaded with cholesterol. Autopsy and pathology reports have shown

unequivocally that it is the low-density lipoprotein

(LDL) cholesterol form that actually deposits in blood vessels. Ultimately, these same blood vessels become clogged by the formation of hardened plaques. In contrast, many health experts believe that high-density lipoprotein (HDL) cholesterol actually helps to clear the blood vessel—the human "Drano," so to speak.

In conclusion, it appears that many factors may contribute to the development of heart disease, including heredity, cigarette smoking, high blood pressure, obesity and sedentary living.

But a basic fact underlies all of the attention focused on cholesterol: These "risk factors," in and of themselves, do not seem to accelerate the atherosclerotic process unless the cholesterol level is elevated (above 150). Accordingly, some scientists have even gone so far as to suggest that cholesterol is not just a "primary" risk factor for heart disease it is the only risk factor.

Perhaps Dr. Thomas Chalmers of Harvard's School of Public Health summed it up best when he said, *People who eat high-fat, high-cholesterol diets all of their lives suffer high rates of heart disease. It's as simple as that. A moderate change in diet may not bring instant results, but at worst it's harmless, and it just might save your live."

Creative home financing

By James M. Woodard Copley News Service

Creative home financing products are making it easier to purchase a home in 1994. And seller financing is re-surfacing as a viable way to buy a home with

minimal cash down payment.

The traditional 30-year fixedrate mortgage loan is still the preferred type of home financing. according to recent surveys. Fixedrate loans now account for 91 percent of mortgages acquired by Fannie Mae (Federal National Mortgage Association), the nation's largest buyer of existing home mortgage loans.

But a record number of consumers are selecting a shorter term loan — 10., 15. or 20-year mortgages, according to a Fannie Mae report. And many are choosing a "two-step" mortgage loan.

"Two-step" loans have a fixedrate for a specified number of years (usually three to 10). At that point, the interest rate is adjusted in line with prevailing rates at that time, then remain fixed for the remainder of the 30-year term.

Other popular loans have a fixed rate for a period, then revert to an adjustable rate mortgage.

The two-step mortgages are easier.

increasingly popular with first-time home buyers because it assures a continuing low interest rate for a number of years, and offers a lower rate than would be possible with a straight 30-year fixed-rate loan. Thus, their monthly payments are lower, helping them to afford and qualify for the loan.

Those first-time buyers are also re-discovering an old and effective method of purchasing a home with minimal down payment. The home seller simply carries back a por-tion—usually 10 percent—of the purchase price.

Typically, a home buyer obtains a mortgage secured by a first trust deed or mortgage on the property for 80 percent of the purchase price. The seller carries back 10 percent with a note secured by a second trust deed or mortgage. And the buyer comes up with 10 percent down payment.

In this case, the buyer has 90 percent financing without the added cost of buying "private mort-gage insurance," required by most lenders for any single mortgage loan that is more than 80 percent of the home's purchase price. By saving this cost, the buyer's payments are lower and qualifying is

Buying a home in the Detroit area soon will be as affordable as renting an apartment and as convenient as picking out a new car and arranging its financing in a dealer's showroom.

Homes - ranging in price from about \$75,000 to a little more than \$100,000, depending on the model and cost of the lot - will be displayed year-round, seven days a week, inside a showroom the size of a football field at Keating's Home Town in Farmington Hills. The showroom is located between Nine and Ten Mile roads at Industrial Park Drive, a block south of the Ten Mile-Grand River exit of M-102 just south of I-696.

Involved with the largescale, new venture are more than 40 organizations, including such national companies as Frigidaire, Carrier and Honeywell, along with Detroit Edison, Lawrence Technological University and

ceilings to colonials and cape cods, from a 1,200-square-foot, barrier-free ranch home to a 1,232-square-foot cedar-sided, four-bedroom vacation home.

Buyers will be able to choose the neighborhoods in which they want to have their new homes built from a computerized inventory of about 1,000 Detroit-area home sites in virtually every community in southeastern Michigan, as well as another 400 vacation home sites in northwestern Michigan, including river and lake front parcels.

The large segment of the public that has been priced out of the \$100,000 and up new home market — typically, households with incomes between \$25,000 and \$40,000 -- will be able to buy homes offered by Keating's with down payments from \$2,000 to \$3,500. That's 3 to 5 percent down, with monthly mortgage payments starting at about

Company founder Howard T. Cover crops protect and enrich your soil

By C.Z. Guest Copley News Service

Green-thumb gardeners treasure their garden soil and constantly try to replenish and protect it. The easiest way to enrich the soil in your flower and vegetable patch is to plant a cover crop known as *green manure." It protects the soil from erosion and temperature extremes.

It is planted to cover the soil through the winter but is often used between crops during the summer as well. When the cover crop is finally tilled into the soil in the spring, it becomes a green manure. adding nutrients and soil-

building organic matter. Green manures and cover crops have long been used on a large scale by farmers and can, of course, be adapted to home gardens, too, where they work their magic during the garden's off-season.

For winter cover, plant cover crops in late summer or fall as soon as possible after harvesting. Although most cover crops need warm soil to germinate, winter rye will germinate and grow in cool temperatures, making it the best choice for winter cover in Northern states. It becomes

GARDENING

dormant with winter cold, but greens up again in spring.

Where winters are milder, there are more choices for fallplanted cover crops. Southern gardeners can plant buckwheat, clover and rape seed, which, in the North, are best suited as spring or summer cover crops.

The most popular cover crops and green manures are members of the legume family. a very large group that includes clovers, alfalfa, beans, peas and even some trees.

These crops are the perfect natural fertilizers for plants to thrive and grow vigorously.

Legumes are loaded with nitrogen, and when they decompose, much of the nitrogen ends up in the soil-of course, to the benefit of the next crop.

Whenever your garden is idle, you should plan to have a cover crop growing. In most areas in the United States, that is late fall through early spring, though in some Southern growing areas, it may mean exactly the reverse.

Keating's Home Town is the brainchild of Howard Keating, a third-generation Detroit-area home developer who spent six years developing the new concept. He said he chose to display modular homes rather than conventional site-built homes because his research found that the controlled environment and quality checkpoints of building modular homes in a factory could produce homes of higher quality at less cost than site-built homes, using the same or better quality materials.

Lawrence Technological University is working with Keating's Home Town to establish within the architectural school a center for education and research into the design and manufacturing of modular housing for the 21st century. More than 600 Lawrence Tech students are taking newly created courses this year on modular housing design and construction. New home designs developed by students and faculty will be produced by Keating's Home Town for sale at its showrooms.

The Farmington Hills showroom is planned as the first of 70 Keating's Home Town showrooms to be opened nationwide over the next five years, Keating said. The company plans to open seven more showrooms by the end of 1994.

growing your cover crop during the hot, dry summer. Many of the most useful cover crops are winter annuals, and the trick is to establish them early enough in the growing season so that their roots develop before winter but not so early that they'll flower prematurely in the fall. Planting dates for winter annuals will vary by climate.

Not to be confused, grasses are not legumes, but as cover crops they have some distinct pluses. They usually germinate and grow swiftly, establishing an effective ground cover faster than most legumes. And their fibrous root systems are

For example, cereal rye grass can be planted later in the fall than other cover crops and is hardy in the coldest temperatures found throughout the continen-

Oats sown in fall in most areas will winter-kill, protecting your garden (like a blanket) under a layer of dead grass until you're ready to plant in early spring. In many instances, a mixture of grasses and legumes makes a great cover.

Of course, other types of plants can be used, too.

Buckwheat is another favorite cover crop. However, it's not so cold-hardy, so it can't be used as a winter cover in most of the United States. But it's an excellent weed destroyer and produces lots of juicy organic matter in a short time.

Several brassicas like oilseed radish and canola cover crop is best for your garden.

Espresso bar comes to area in Cafe Bravo

By SCOTT DANIEL Staff Writer

The sounds of classical music drift lazily around as a businessperson pours over the New York Times, reading perhaps at a slower pace than

Off in the corner is a pair of chess wizards honing their skills against each other. In yet another nook is a group of parents conversing about the rigors of child-raising.

These are scenes common to one of Northville's newest and best meeting places, Cafe Bravo. Nestled in the corner of Main Centre's fine list of shops, the establishment offers patrons expresso-based drinks in a friendly, relaxing atmosphere.

'Quality drinks," says co-owner and Northville resident Dolores Berman, "with quality service."

Case Bravo opened its doors to the community in December of 1992. Since then, customers have been coming from as far away as Detroit, Milford and Brighton to sample the Very Vanilla latte and Almond Joy

Beth Ledray, Berman's daughter, and husband Tom got the idea for opening the coffee house a few summers ago. After attending a Northville Clock Concert the couple decided to go for a cup of coffee.

"But there was no coffee place to goto," said Ledray.

Just a few months later. Cafe Bravo was born.

Long hours and hard work have helped build the business into a success. Employing more than a halfdozen Baristas (expresso makers). Bravo serves Northville seven days a

According to Ledray, the business is doing quite well.

"It's progressively increasing," she said. People are catching on to cappuccino."

Only within the last few years have expresso bars caught on in Michigan. Ledray said the trend began out west, in Seattle, and has slowly made its way eastward. College towns, such as Ann Arbor

and East Lansing, typically feature them. But finding an expresso shop in the suburbs, let alone a good one, is a difficult task.

Fortunately, Cafe Bravo fills both of these needs.

Baristas receive a month's worth of training before serving the public. While that may sound excessive, it isn't. The coffee house has a multitude of hot and cold drinks in its lineup to learn.

Using the top-of-the-line Expresso Java Supreme bean as the base, Cafe Bravo specializes in lattes, mochas and cappuccinos. Fresh brewed coffees of every variety, hot tea, hot chocolate, Italian sodas and the caramello are some of the other drinks at

the Northville shop.

Among the lattes, which includes expresso and steamed milk, Very

Frozen yougurt is a year-around favorite of customers. Vanillia, chocolate as well as specialty flavors such as creamy carmel, mocha walnut and chocolate mint are all available.

The coffee shop also buys european-style pastries from around the metropolitan area for patrons. Scones, torts, bagels and mullins are daily staples at Bravo.

How parents can reduce tax bills

Need some relief from the high costs of raising children? If so, you can turn to Uncle Sam.

According to the Michigan Association of Certified Public Accountants, you may be entitled to tax exemptions and deductions that can directly reduce the costs associated with raising your children. Smart tax planning can also help you to save for your child's future while minimizing the tax bite on your income.

CLAIM DEPENDENCY

Even if you have a December baby, you may claim an exemption of \$2,350 on your 1993 tax return. You are entitled to one exemption for each child who qualifies as a dependent. Generally, a child qualifies as a dependent if he or she is under age 19 at the end of the year or is a fulltime student under age 24. Other tax rules also apply, so be sure to check with your CPA.

Note that the dependency exemption is phased out for married individuals filing jointly with adjusted gross incomes (AGIs) exceeding \$162,700; for married individuals filing separately with AGIs above \$81,350; for single filers with AGIs above \$108,450; and for heads of household with AGIs above \$135,600.

MEDICAL EXPENSES

You may also get some tax relief from the high costs of your children's medical expenses. Qualified medical expenses, including those of your spouse (if you file jointly) and qualified dependents, are deductible to the extent that they exceed 7.5 perent of your adjusted gross income. Any medical expenses over this amount child is age 14 or over, any interest the money

Money Managment

CHILD-CARE CREDIT

If you must hire child-care help or send your children to a day-care facility so you and your spouse can work, you may be entitled to a tax credit that can directly reduce your tax bill. To qualify for a full credit, your AGI must be \$10,000 or less. The credit is then equal to 30 percent of certain employment-related childcare expenses. The maximum amount of employment-related expenses that can be considered for the credit is \$2,400 for one qualifying child and \$4,800 for two or more children. The amount of the credit decreases by 1 percent for each \$2,000 or part of \$2,000, of your adjusted gross income in excess of \$10,000, but not below 20 percent. Thus, for taxpayers with AG!s over \$28,000, the applicable percentage is 20 percent.

GIFT TAX EXCLUSION

When it comes to building your child's savings account, you may be able to use some taxadvantaged strategies. For example, you can give up to \$10,000 a year (\$20,000 a year if both parents make a gift) to each of your children without paying any gift tax. The benefit: you remove the gift amount, as well as any income the gift may earn, from your taxable estate. If your are fully deductible in the year they are paid. earns will be taxed at the child's lower rate.

GIVE ASSETS

Another way to reduce your taxes while increasing your child's financial resources is to give assets to the child and let the child sell them. If you sold the assets yourself, you could face a long-term capital gains tax of 28 percent. However, if the child sells the assets, the gain will be taxed at the child's rate if the child is age 14 or older at the end of the taxable year. For the 1993 taxyear, children are in the 15 percent tax bracket until their income exceeds \$22,100.

BEWARE KIDDIE TAX

Under the kiddle tax, if your child is under age 14, the first \$600 of unearned income is tax ecempt; the next \$600 is taxed at 15 percent; earnings above \$1,200 are taxed at the parents' highest marginal tax rate. For the 1993 tax year, this means that the income could be taxed at a rate as high as 39.6 percent.

To prevent your child from incurring high taxes on investment earnings, you can limit the annual taxable income in the account while the child is under age 14. One way to do this, according to CPAs, is by investing in tax-free or tax-deferred vehicles, such as U.S. Savings

Survey change will affect number

"Michigan's monthly unemploy-ment rate could increase by an aver-the national increase average sixage of six-tenths of a percentage point because of changes made to the way the state and national unemployment rates are calculated and the state follows the national average," F. Robert Edwards, director of the Michigan Employment Security Commission, said last month.

Edwards made the comment at briefings for the legislative staff and users of labor force estimates conducted in Lansing and Detroit to explain the newly redesigned "current population survey.

Although we don't have any test numbers for Michigan, I expect that our unemployment rate will parallel the national increase and could vary from month to month by as much as one-tenth to a full percentage point,"

the national increase average sixtenths of a percent.

"The expected increase does not necessarily mean, however, that more people are unemployed," he said. But it does mean that we have a new way of counting them."

The "current population survey" is a monthly survey of some 60,000 households nationwide, including about 2,600 in Michigan, to determine the national and Michigan unemployment rates. The revisions to the survey are its first major change since 1967.

The changes effect virtually every aspect of the survey and are intended to improve the quality of work force estimates derived from the current population survey," Edwards said. gan and labor market areas within

tional unemployment rate is expected to increase by an average of a half a percentage point, due to the new survey's method of counting women in the workforce. The other onetenth of a point gain is due to census adjustments.

The new survey will be used to determine the U.S. and Michigan unemployment rates, beginning with the January 1994 estimates to be released in early February.

*Since the (survey) has significantly changed, we will not be able to make comparisons between data generated by the new survey and the old survey, Edwards warned. This will affect data for the country, Michi-

According to early tests of the redesigned survey, the monthly naforce estimates generated for 1994 and beyond will not be comparable to estimate from earlier years because of the changes to the (survey)."

The federal Bureau of Labor Statistics uses the survey data to calculate monthly unemployment rates and other labor force data for the nation and its 11 largest states, including Michigan. The survey is conducted by the Census Bureau.

The changes to the survey include making the questions easier to understand, refining some of the definitions used by the survey and automating the data collection through the use of laptop computers.

Bureau of Labor Statistics has been working on the redesigned survey since 1986.

Home starts post 6% gain for '93

Single family home permits issued in 1993 for southeastern Michigan increased six percent over 1992 and are expected to increase 10 percent in 1994, according to Robert R. Jones, president of Builders Association of Southeastern Michigan for 1994, and of Robert R. Jones

Associates. Total single family permits issued for 1993 were 11,819 in Wayne, Oakland, Macomb, Washtenaw, Monroe, St. Clair and Livingston counties, compared with 11.176 for 1992.

Low interest rates were the key factor in the number of new permits issued in 1993," said Jones.

Southeastern Michigan is a very stable market in terms of housing prices and number of permits issued on a year-to-year basis, explained Jones. Over the past six years, the number of permits issued has stayed within a narrow range from a low of 10,292 (1991) to a high of 12,401 (1989).

*Furthermore, the stability of prices in our region means we remain an affordable and active market. Hot areas for building activity in 1993 were Canton, Macomb, Shelby and Orion townships, Novi and Troy." added Jones.

The average square feet of a new single family home being built in the midwest increased from 1,540 in 1971 to 2,020 in 1992 according to the U.S. Bureau of Census. Homes with two-car garages or more went up from 53 percent in 1971 to 85 percent in 1992 and air conditioning is now found in 77 percent of new homes in 1992 versus 25 percent in 1971. Baths numbering 2% or more are now in 49 percent of new homes in 1992 versus 16 percent in 1971.

Builders remain concerned about the volatility in lumber prices and supply. "Housing is critical to the economy's well being and builders can't deliver housing without an ample supply of lumber," said Jones.

The lumber used in an average home costs \$3,000 more today than it did in 1992."

Residential construction stimulates the economy directly by generating jobs, wages and tax revenues and indirectly as the demand for goods and services created by the

construction of new homes 'ripples' through the economy.

The association and its members are ready and willing to work with Dennis Archer and his staff on development and building in the city of Detroit," said Jones.

ONE MILLION PEOPLE

"GET WET" AT THE YNGA...

The Livonia Family YMCA is celebrating its 25th year in the Livonia community. The growth of programs over the years has been phenomenal. One of the strongest and most popular programs is Aquatics.

In the past 25 years over 1,000,000 individuals both young and old have been taught swimming and life saving through the Y Aquatic Department programs. The YMCA has two pools at the Stark Road Facility and leases the Shelden Pool outdoor facility from the City of Livonia. In addition to the instructional programs and the Blue Racer Swim Team, the Y has Open Swim, Family and Lap Swim times. Over one million people have used the YMCA swimming pools.

During the early years of the Livonia YMCA, before the current building was completed, the Y's Aquatic programs were taken to the community through a backyard swim program. During the summer of 1966 there were 12 locations for the backyard swim program. By the summer of 1967, the backyard swim program had grown to 26 sites. This "backyard swim" program operated through the 1980s and had up to 60 backyard pool locations.

In March, 1967 when the building was completed, the Aquatics department quickly became the foundation of the programs offered to the community. The first year's programming involved approximately 1,000 individuals in formal swim lessons. Over the years, the number participating in swimming lessons grew dramatically. By the late 1970s the Y was teaching over 6,000 individuals to swim each year. In 1994, the pool remains one of the strongest programs at the Livonia YMCA. In addition to formal swim lessons, other Aquatic programs include swim team, water exercise, recreational and lap swimming.

In 1980, the Livonia YMCA and the Livonia Public Schools developed the "Operation Water Safe Program" for 4th Graders. The purpose of this program was to introduce each 4th grade student to water safety. The program content included instruction in swimming skills, drownproofing, non-Swimming Lifesaving skills, and mouth to mouth resuscitation. Over 14,000 4th graders took part in this safety program. One student wrote the following experience in his school journal:

YEARS

1969-1994

"I like the Y (Operation Swim) because I learned mouth to mouth resuscitation in case somebody needed it. And I learned how to ride in a canoe with a life jacket in case I ever rode in one. And I learned how to use life jackets and how to save somebody from drowning by pulling them in with a rope. The first day we left about 1:30 and we came back about 3:25. The last day we saw a movie. It was sure nice going to the Y..."

In addition to programs with the Livonia Public Schools, the YMCA works with the area parochial and private schools to provide aquatic classes for their students. The Livonia YMCA has also provided aquatic services to the physically and mentally challenged through cooperative programming with many agencies such as the Livonia Public Schools, Garden City Schools, American Retarded Assoc., Easter Seals, Arthritis Foundation, Scleroderma, M.S. – Multiple Sclerosis, Northwest Skill Center, Ardmore and Group Homes.

In 1993 the Livonia Y Aquatic Program added an outdoor pool to its program when they leased Shelden Pool from the City of Livonia. This outdoor site helps the Y meet the aquatic needs of southern Livonia and provides an outdoor alternative for members. Regular swim lessons as well as recreational swimming are conducted at the Shelden Pool. We estimate that in excess of 20,000 individuals used the facility in its first season.

The Livonia YMCA is proud to be an Aquatic leader in the community.

GYMNASTIC

PRE-SCHOOL GYM & SPORT

TOT GYM

This class is fun for the child up to 3 years old. Parents are involved in this class that uses games and activities to work on large muscle groups and hand-eye coordination. Let your child explore up, down and around on mats and obstacle courses. Work with them to build confidence and enjoy themselves.

ADVANCED TOT GYM

A parent-child class for the older pre-schooler and parent to develop movement skills and coordination.

TINY TUMBLERS

Get your little ones involved! This class is especially designed for three and four year olds. Creative games using the parachute and balls, imagination practice with animals and sounds, refining tumbling work on the mats and balance beam introduction are all part of this class. Get your kids off to a great start with Tiny Tumblers.

PARACHUTE & MOVEMENT (NEW)

A class for ages 3-5 designed to increase coordination and strength through the use of the parachute and related activities.

GYM FUNTIME

A supervised time for parents & children to use the gym equipment for free play and activity.

PRE-SCHOOL GYMNASTICS

Don't stop with Tiny Tumblers! Keep your children growing and learning with our Pre-School Gym program. We'll progress to more work on the mats and beams to other gymnastics apparatus such as the uneven bars and rings. Motor skills, and fine tuning of coordination and balance will help your child be more successful in everyday tasks and concentration. Plus – they'll have fun!

PRE-SCHOOL GYMNASTICS ADVANCED

Has your child progressed from Pre-School Gym, but is not quite ready for beginner gymnastics? We have the perfect class for them! This class gives your child a little extra time to master skills taught in the Pre-School Program, but also begins to introduce them to the discipline and new skills they will be learning in beginner gym. Also gives your child extra time to socially acclimate to a class structure.

PRE-SCHOOL BASKETBALL

A great class for the future star. The basics of dribbling, passing & shooting will be emphasized.

PRE-SCHOOL BALLET (Ages 3-6)

An exciting introduction for your child into the world of ballet. Learning the basic steps and discipline of ballet encourages your child's interest, along with providing fun.

SPORTS SAMPLER

This is a great class for the pre-school child to be introduced to a variety of sports: T-ball, basketball, hockey and soccer!

PRE-SCHOOL SOCCER

A fun class to instruct the little ones in the basics of dribbling, passing, scoring.

SCHOOL-AGE GYMNASTICS

All Classes Follow USGF Protocol and Are Taught by Certified Instructors

Proper Attire needed for Gymnastics. A leotard for girls, shorts and T-shirt tucked in for boys; bare feet or ballet shoes. Please no tights.

BEGINNER GYMNASTICS

No experience necessary! Now is your chance to get involved in this sport. Conditioning and exposure to all competitive apparatus (beam, uneven bars, tumbling skills). You'll learn safety principles of gymnastics and how to do some basic tricks on the bars and beam. Check it out!

LEVEL I & II INTERMEDIATE GYMNASTICS

Have you passed the skills of Beginner Gymnastics? Are you ready for the next level? Progress in your program by taking Level I & II. Learn more tricks on the apparatus, become better conditioned, improve your technique and start preparing yourself to be a member of the team!

LEVEL III & IV ADVANCED GYMNASTICS

Fine tune all of your gymnastics skills at this level. The next step is the team!

TWISTERS GYMNASTICS TEAM

You've made it! Competitive gymnastics for the experienced/advanced female gymnast. Must try out or be recommended by one of our coaching staff. BOOSTER CLUB for parents. Home and away meets with other Ys during the season!

YOUTH SPORT & FITNESS CLASSES

BASKETBALL CLASS-DRIBBLERS

This coed class is a great way to get introduced to the game of basketball. Learn the basics of ball handling, defense, shooting, strategy and playing the game! Non-competitive, skill building class.

SHOOTERS BASKETBALL CLASS

A class for the older youth to concentrate on shooting techniques, defensive improvement, setting picks and more.

FLOOR HOCKEY

A fast-paced, exciting game. Everyone is playing! Learn the game by practicing stick handling, shooting and defense. Play real games during class. Skill building and progressive.

YOUTH VOLLEYBALL

An instructional class geared toward youth wanting to learn the game of volleyball. Rules & skills are emphasized.

TEEN WEIGHT TRAINING

A great class offered to kids 14-17 years. Proper techniques of weight training will be emphasized with free weights and Pyramid and Nautilus equipment in the Wellness Center. Basic principles and personal training programs will be devised. A great way to get in shape! Class meets according to instructor/participant schedule. Instructor will call.

See Page II for Days and Times.

Classes Start Monday, February 28

YOUTH TENNIS CLASSES

TENNIS FOR TOTS - These classes are designed to introduce the 4-7 year old to the basics of tennis. Drills and fun games have been developed to improve a child's balance, muscle control, hand/eye coordination and their tennis skills. The YMCA will provide racquets for tots who do not have their

TOTS I -

Introduction to the court and racquet. Stationary forehands

are emphasized at this level. TOTS II -

At this level the child is introduced to hitting the ball on the

move. The backhand is presented at this level.

TOTS III -SUPER TOTS -

We will further develop the forehand and backhand strokes.

The basic strokes of tennis are developed to prepare them

for the Junior Beginner programs.

PRE JUNIOR - Must have completed through Super Tots and/or have PRO'S PERMISSION. Ages 6-7 years.

JUNIOR BEGINNER - The Livonia Family YMCA conducts a series of three class sessions for beginning junior players, ages 8 through 14 years of age who have had little or no tennis experience. We wish to teach the fundamentals in a relaxed, yet challenging atmosphere. At the completion of the series of classes each student will have been taught to:

- Hit a forehand, backhand and serve.
- Understand the court terminology.
- Know how to keep score.
- Handle themselves with proper court etiquette.

JR. BEGINNER I - Beginners who have had no formal lessons should begin at this level. Work on grip, stance and strokes. Complete coverage of rules and scoring.

JR. BEGINNER II - We further develop skills attained in Beginner I. Footwork, consistency and placement of shots will be emphasized.

JR. BEGINNER III - Continued development of forehand, backhand and serve. Introduction to the volley.

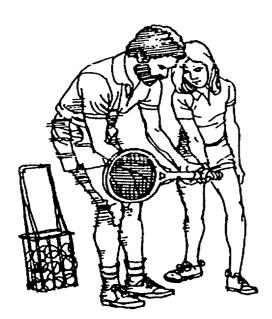

JUNIOR INTERMEDIATE - These levels are designed for the child who has completed the Junior Beginner series. This level is a prerequisite to advance to the Junior Excellence program. At the completion of the Junior Intermediate classes, each student will have been taught:

- Good stroke execution with forehand, backhand, serve.
- Ability to place the ball and rally consistently.
- Introduction to the overhead.
- An understanding of singles and doubles strategy.

JR. INTERMEDIATE -

The basic fundamentals are reviewed and refined with concentration on consistency and control.

JR. EXCELLENCE PREP - Work on control, placement and strategy. Many game situation drills are used. Singles and doubles strategies of the game are emphasized.

JUNIOR EXCELLENCE

JUNIOR EXCELLENCE - The Junior Excellence program is tailored for the young adult, who is serious about their tennis game. Completion of the Junior Intermediate program or its equivalent is a must. Junior Excellence is for the player who desires to play at the high school level or beyond. An optional six week, 1-1/2 hour, weekend competitive league is available for those interested. Program objectives of the Excellence Program include:

- · Ability to hit ground strokes consistently with depth.
- Improve footwork.
- Development of a spin serve.
- Strenuous conditioning program, with emphasis on quickness, speed, and improved flexibility.
- Stroke production drills that give you confidence in your

JR. EXCELLENCE I/II - For students who have completed Junior Intermediate lessons. Players work with others of the same ability, but are encouraged to develop and advance through a no nonsense approach to serious training.

ADVANCED JR. EXCELLENCE - For the player who has completed Jr. Excellence I and II.

SUPER JR. EXCELLENCE - For the player who has completed Advanced Exceilence.

INCREDIBLE I JR. EXCELLENCE - Pro's permission is required. Tournament and High School players.

INCREDIBLE II JR. EXCELLENCE - Pro's permission is required. High powered workout for the most advanced High School tennis player. This level includes coordinating stroke production consistency with physical and mental conditioning.

ADULT TENNIS CLASSES

ADULT BEGINNER - This series of three levels is for the person who is just beginning to play or simply needs a refresher course. Forehand, backhand and serve are the fundamentals that are stressed.

ADULT BEGINNER I -

For players new to the game who have had no formal instruction.

ADULT BEGINNER II - This level will further develop skills attained in Beginner I. Emphasis on proper stroke technique, footwork consistency, and ball placement. Introduction of the volley.

ADULT BEGINNER III - Emphasis on consistency and placement, along with singles and double positioning.

ADULT ADVANCED - Designed for the intermediate or advanced player. A high powered workout that will sharpen your game. Game situation drills and plenty of movement are features of this series of lessons.

INTERMEDIATE FOREHAND, BACKHAND, SERVE (FBS) - Work on control and placement of shots, plus movement and positioning.

INTERMEDIATE VOLLEY, LOB, OVERHEAD (VLOH) - Emphasis on the net game and development of game strategy.

PRO SPECIAL -

Classes arranged according to level. Smaller class size for the serious player. Class is designed to develop the total game. Drill point play situations and a great workout will be emphasized to help you maximize your potential.

FOUR ON ONE -

Four people and the Pro.

TENNIS MAGAZINE TIPS - Instruction, drill and point play utilizing instructional tips taken directly form Tennis Magazine.

DOUBLES STRATEGIES & TECHNIQUE - This class combines strategies with techniques specific to doubles, to improve your league play.

Invest in Youth '94

February 1-28, 1994 · Goal: \$62,500

An "Invest in Youth" contribution is an excellent way to reach out into the community to share the YMCA with people who have needs greater than our own. It's a good way to positively touch another life. Through membership, program scholarships and subsidized special Y programs, contributing dollars allow more people to benefit from the best the YMCA has to offer.

Need Easy, Low-Cost Financing to Build a New Home?

Let Our Family Help Your Family Build Your Dream Home!

We have the best Construction

Finance Program in

Michigan and we have the know-how to make it work for you!

During February 1994, we're proud to present seminars on the N.A. Mans Building Centers' Construction

Finance Program. We'll answer all your questions and put you on the right track to building a great new home! You'll learn everything you need to know and more to make your

new home project a success, including...

- ✓ How to take advantage of our simple, no-hassle application process.
- ✓ How to minimize the costs of construction financing.
- ✓ How to put more value and comfort into your home for fewer dollars.
- ✔ How to get substantial discounts on top-quality lumber and other building supplies.
- How to choose the right site and the right contractors.
- How to make the most of the dollars and time you invest in your new home.

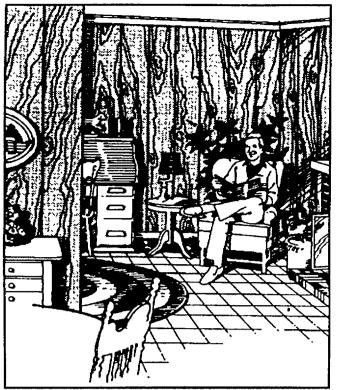

ATTEND ANY OF THESE FREE EVENING SEMINARS:

> Tuesday, February 15 - Canton Do-it Center Thursday, February 17 - Trenton Monday, February 21 - New Boston Wednesday, February 23 - Monroe (All start at 7:00 pm)
