Mill pond at risk?

DEQ to investigate possible contamination of spring well

By CHRIS C. DAVIS Staff Writer

A highly-technical 500-page consultant's report to the Department of Environmental Quality indicated PCBs are in the ground near the Mill Pond and toxic solvents may be closing in on the city's springwell.

Now. DEQ geologist Steve Hoin says that it's up to the state to determine the best long-term solution to the problem.

*Basically, what's come out of this is that we do the investigation and find out what risks are involved in various cleanup projects we can undertake," said Hoin. We're now in that feasibility portion of

The DEQ determined the cause of the seepage — primarily by-products from hydraulic oils — was leaks from lagoons

"The critical question for the southern end of the site is whether the chemicals have reached the springwell."

Steve Hoin Department of Environmental Quality

shut down in the mid-1970s. Booms and filters have been used to gather up some of the spillage, but authorities were concerned some of the product may have slipped into the soil near the lagoons and were seeking other methods to clean up

One of the areas which isn't presently believed to have been impacted but could be in the future was the Northville springused from the now-closed Ely Fuel, which well, located at the corner of Northville

Road and Center Street. Many Northville residents can be seen each day filling jugs with water from the well.

Hoin said analysis of the groundwater supply and flow suggested vinyl chloride was on the move toward the springwell. Based on the topography of the land and aquifer structure, Hoin said there was no evidence to suggest the potentially toxic chemical had arrived at the well as of yet, but did appear to be heading in that direction.

"The critical question for the southern end of the site is whether the chemicals have reached the springwell." Hoin said. That's one of the things we want to tackle

in the near future." The water which babbles out of the well, contrary to local custom, is pulled

Developer agrees to fund park improvements

It took a series of mild pushes followed by one giant shove, but Northville Township officials convinced a Pennsylvania based developer to foot the bill for improvements to a 28-acre park on Six Mile Road.

Six Mile, almost directly across the road from the site of the forthcoming Northville High School. The park land has already been purchased by the township and is in the process of being paid for.

The improvements to the land are being provided by Toll Brothers, the development company building on the 900-acre piece of former Wayne County property. Several hundred homes and a golf course will be developed as part of the deal.

Toll Brothers media representatives would not furnish any information regarding the park, saying corporate policy did not allow for any media comment to be made until deals were

■ Voters will decide the fate of the township's two millage proposals on Aug. 3. The Record has some recommendations regarding the The park will be located on the south side of millage questions on p. 16A.

The park, trustee Marv Gans said, will include four finished baseball diamonds complete with a sprinkler system, soccer fields, a playscape, picnic area, restrooms, concession

area and spaces for 220 parking spots. Trustee Mary Gans said the township talked Toll Brothers into donating the park as part of the land agreement.

We were working with the developer and just kept bugging them about it." Gans said. "I final-

Township farmer keeps historic lifestyle alive

By WENSDY WHITE Staff Writer

At the turn of the century, Northville Township was a farming community where residents would rise with the sun to work the fields before breakfast.

Children would resume work after school until suppertime.

On the weekends, families would head to market in downtown Northville where they would sell their harvests, buy supplies and catch up on town gossip.

That's where they would learn who was sick, who was doing what, how other people's crops were faring," said Shari Peters, director of the Northville Township Community Foundation. "The scuttlebutt was in town on Saturday and then church on Sunday. It was a very hard life."

The seasonal routine of farmers is detailed in "Northville Township ... From the Beginning," a new book Peters edited to celebrate the township's centennial this year.

But to paint an even more vivid picture of farming life, the foundation plans to develop a living farm.

"Mill Race depicts life in the city. What we would like to do now is depict life in the late 1800's to the early 1900's, and basically it was all farming at that time." Peters

Plans for "Heritage Farms" call for farmhouses, silos, barns, windmills and other structures to be moved onto a donated 20-acre parcel of land yet to be secured. Retired farmers still residing in the township will lend authenticity by describing how they dealt with pests and maximized land through crop rotation at that time.

In the years it will take for the project to be completed, however, one of Northville Township's last farmers will continue to work his

Six days a week, Milan George rises at dawn to begin a 12 hour shift of planting, tending and reaping his crops along Six Mile Road west of Beck.

Even with Sundays reserved for rest and services at Salem Bible Church, his workweek usually spans 70 hours.

Although development continues to grow around him. George still has a country perspective.

"I just like farming. I like machinery and I like farming. I get along good with the boss, George said. It's a way of life. It's com-

Northville Township farmer Milan George pauses while harvesting hay last Thursday on his Six Mile Road land.

pletely different. A person from the city wouldn't understand that."

George, 69, moved to Northville Township from Detroit with his parents and sister in 1936.

His father used his World War II bonus to purchase 14-and-a-half

dwindles. George's land continues to increase in worth.

In fact, land George recently sold across Six Mile Road would enable him to retire, if he were so inclined.

Instead he'll continue to farm it and tend the 50 head of cattle that will graze there until a private company begins mining the site for gravel next

"It's getting built up around here." George said. "It's just not going to be reasonable to farm on this side of the road."

DPW staff Jim Gallogly, Al Zielinski and Steve Heidt pause in front of the rapid response traffic safety trailer. The unit joined the city's fleet last month.

Trailer cleans up traffic tie-ups without a hitch

Utility pole knocked down? Get into a fenderbender? Beginning this week, the city of Northville's public works department will have an easier time getting vehicular traffic around the tie-up

That's because the DPW has created a rapid response traffic control unit, comprised of a custombuilt trailer for transport and placement of temporary traffic control devices. The trailer has a secondary role of providing the means for placement and removal of barricades used in many special events in the city.

The trailer is connected by hitch to a truck which wheels around town. Up until now, individual signs and barricades needed to be loaded into city work vehicles and

significant amount of manpower and use of city vehicles to com-

Gallogly said the new trailer can be taken to the scene of a problem and unhitched, leaving the truck free to move on to another area, if

"It's really making the best use of our supplies," Gallogly said. "When emergencies occurred in the past, public works employees have had to search through the available equipment to find the appropriate barricade and signage. This gives us everything we need all at one spot."

The trailer was once used for hauling landscaping items around town, but DPW worker Steve Heidt was able to weld and repaint the trailer to make

carted to the scene. It required a it usable for carting around traffic control items. The conversion took about a week to complete.

Large-size wooden barricades hang on the outside of the trailer. while orange barrels and directionments on the inside.

Gallogly said the trailer is not only functional, but it's also a cost-saver. Gallogly said he got the idea for creating such a trailer after leafing through a trade maga-

We were actually planning on selling the old landscaping trailer as part of our garage sale," Gallogly said. 'We're getting more use out of it this way.

The trailer has been used a few times since joining the DPW fleet

the Northville Township Foundation, the group responsible for honoring Northville Township's 100th anniversary. The celebration was a part the cord of this tion wraps up at the end of this

"We wanted to put an additional flair to the regular home tour we do," said Foundation chairperson Shari Peters. "Normally, we invite people to go through the various homes around town and that's fine, but this time we got the help of decorators who can give people going through the homes ideas for their decorating and make things just a bit easier."

Gardenview of Northville, Heide's and Friendly Persuasions

of Plymouth. The Flower Pot of Canton, Parmenter & Bloom and Dinser's of Novi will provide decorations in the homes.

Among the homes which will be featured on the tour:

• The Atchinson bed and breakfast, a Victorian two-story in the city of Northville, described as a spacious example of older Northylle's classic architecture:

• The Blay home, a three-bed-

room ranch completed in 1995 Since its completion, the home has already undergone an expansion which includes an indoor swimming pool, a billiards table and guest quarters;

• The Czanko residence, a contemporary two-story detached condominium. Neutral colors and an all-around openness of the home which many describe as having a year-round summerlike appearance:

• The Hartsock home, featuring 5.000 square feet of living space

and 10 rooms. The home is located in Northville Township;

• The Marrs home, a 3,500square foot New England colonial. whose main feature is an outdoor pond and garden;

• The Osborn home, a southern-style, 3,500-square foot prop-erty featured in Architectural Digest. A tree in the foyer of the home hangs year-round and will be decorated for the season;
"We're hoping for a good turnout," Peters said.

Tickets for the Home Tour are \$10 in advance at \$12 at the door. They may be purchased at the Northville Township Civic Center, Northville Chamber of Commerce, Northville Township Finance building, and at participating florists. The tour is sponsored by Republic Bank.

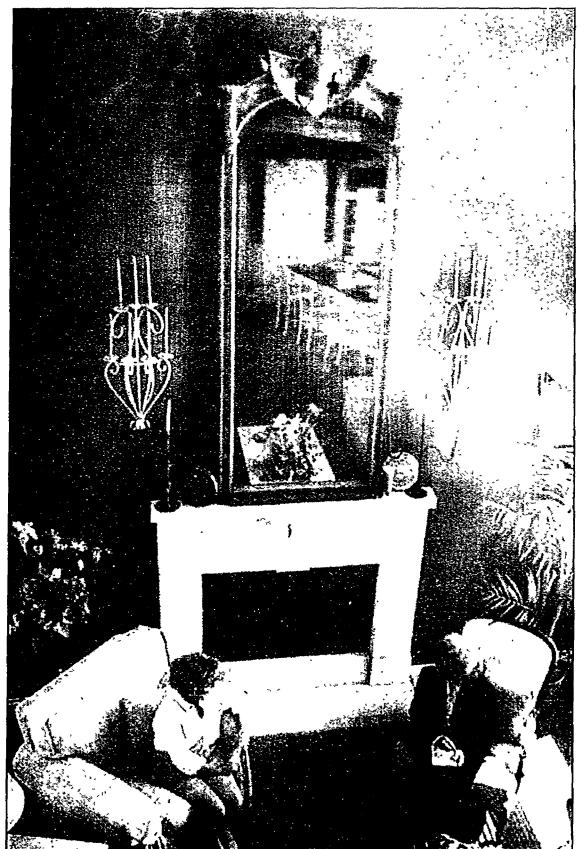

For more information, call the Township Foundation at (248) 374-0200. The tour runs from 10 a.m. to 4 p m.

LoriGoerge Jermont, left, and Gardenviews owner Louis Mascolo will be decorating this, the interior of the Marr's for the Million Dollar Home Tour.

Senate candidates Prop B an emotional issue for voters

By TIM RICHARD Staff Writer

The ballot language is blunt: "suicide." Merian's Friends, the group that collected a quartermillion signatures to put it on the ballot, doesn't use the word "suicide.`

It prefers "physician aid in dying" and "terminally ill patients right to end unbearable pain or suffering."

On Nov. 3 the argument will come to a head when voters decide for or against Proposal B, an amendment to the Public Health Code that would legalize and regulate a physician-prescribed lethal dose so a patient could end his own life.

Prop B would overturn an act Bloomfield pathologist who has

gan Legislature that took effect

Sept. making physicianassisted suicide a five-year felony. It is the second effort by the Legislature to halt the controversial ministrations of

has convicted Kevorkian. **EXCESS RED TAPE?** Prop B is long (40 pages, at least 10,000 words) and

complex. It involves an attending physician, a consulting physician, a pharmacist, a large Oversight Committee appointed by the governor, a residency rule, a list of options the patient

end their lives. So far, no jury

waiting period. Isn't Kevorkian's way simpler and less bureaucratic?

Reps give nod to developer impact fees

If you ask local residents of a fast growing city if they approve of requiring a developer to pay impact fees, odds are most will be all for the idea.

Nineteen months ago, so was State Rep. Nancy Cassis, R-Novi when as a newcomer in Lansing she introduced a bill that would give local governments the ability to assess the fees for infrastructure improvement. Since then, the bill's languished in the House's Local Government Committee and Cassis doesn't 100 percent support the concept any more.

We're seeing more of what Novi has been successful with, bringing developers to the table. I see negoti-

ating action going on and the need for impact fees, for legislation. doesn't seem as urgent any more." Cassis said.

Her opponent in this fall's election. Democrat Kristy Demas of South Lyon, contends that impact fees can work, as long as business is not sti-

At present, communities in Michigan cannot levy impact fees, which would most typically be used for roads, no matter how huge a development moves to town.

Demas, who takes the stand that it's necessary to review the use of impact fees on "a case by case basis," said she favors legislation that would enable the levies.

"I think we need to encourage

On Pontiae Trail

Entertainment on

growth by not having particular attractive for the developer to come individuals who do bring business to a community," Demas said.

Yet at the same time I think if a community is getting hit up by a business coming and there's a big increase in traffic, to solve it, it's necessary to tax them."

The argument in favor of impact fees. Cassis explained, is that new developments pay for themselves and don't shift the burden onto "older" taxpayers.

The downside is it maybe less

into an area where they may be impact fees," she added.

Cassis said she now feels that negotiating with developers to get voluntary contributions may be a better approach.

I know growing communities are always searching for ways to see that the roads will be improved and that they will be done by development interests rather than the burden passed on to the taxpayers," she said.

Candidates divided on concept of assisted suicide

By JAN JEFFRES Staff Writer

Proposal B, a ballot question that would permit assisted suicide. leaves the candidates for the 38th District State House of Representatives pretty much on the same side of the fence, but with totally opposed philosophies.

Kristy Demas, the Democrat challenger, favors assisted suicide in principle, but has reservations about Proposal B

GOP incumbent Nancy Cassis. R-Novi, is strongly against the idea of hastening death, no matter how a ballot question is phrased.

On Nov. 4, voters will be asked whether or not mentally competent Michigan adults, or their out-ofstate relatives, with six months or less to live can seek a physician's help in ending their lives. Two doctors would have to certify the patient is within six months of death and a psychiatrist would

evaluate the suicide candidate's mental health.

I guess I would support an individual who said they wish to choose when they want to end their lives," Demas, a South Lyon resident, said.

There has to be very tight controls as to what assistance in suicide is gwen.

Demas added Proposal B may not be the solution. "I generally support an individu-

explained. It has to be carefully legislated

so you don't run the risk of people taking this into their own hands."

Cassis voted in favor of a state law making assisted suicide a felony and categorizes Proposal B as "flawed." She questions the provision that would not allow assisted suicide to be listed on the death certificate.

"It raises the question of creating

another level of bureaucracy and al's right to choose," she the issue of lying to the public about what was the cause of death. The record keeping might be problematical, as to how to look up what really happened," she said.

She suggested that Proposal B. if passed, could encourage doctor shopping" as patients looked for a physician who would give them the lethal dose of medication. She also said that legalized assisted suicide trol.

could lead to a rash of lawsuits, if some family members fear another family member pressured a relative into assisted suicide.

Cassis said she also feared that doctors would be hesitant to prescribe powerful pain medications, for fear that the patient would use the drugs to commit suicide. If that were the case, she explained, a patient who didn't want to commit suicide might not have his or her pain level brought under con-

opponents for state rep Roads seen as major issue b

By JAN JEFFRES Staff Writer

To get to Twelve Oaks Mall and avoid the traffic jams, State Rep. Nancy Cassis, R-Novi, takes the back door via Beck Road to Donelson Drive.

Her opponent in this year's election, Democrat Kristy Demas of South Lyon, is tired of potholes eating her tires.

Both see roads as the major issue for the 38th District, which includes Novi. Novi Township, a portion of Northville, South Lyon, Milford, Lyon Township. Wixom and Walled Lake.

One of the problems in my area, especially where I live, South Lyon, we get a great deal of new development and it doesn't seem that the infrastructure has kept up with it." Demas said.

She questions how road money is distributed statewide and said

111

that more work appears to be done on highways outstate than in the Metro Detroit area, which sends the most taxes to Lansing.

The heard the people would be in favor of spending a little more money initially, using more expensive materials that will last longer rather than just doing the cheap fix that will only last a year." Demas added.

We need to redistribute money for the roads. We need to make certain the funding goes towards

Right now, the state hopes to hit the accelerator on a plan to "rationalize" Michigan's roads by placing under state control heavily-travelled corridors such as Grand River, Twelve Mile Road, Pontiac Trail and Milford Road.

At present, 9,600 miles of road are under the state's authority. about 8 percent of the state's road. Gov. Engler is proposing that the state add another 9,000 miles.

They could be taken care of on a corridor-wide basis in timely. more efficient fashion. This is highly controversial. For our district, there are definite pros and probably some cons." Cassis said.

Some communities are hesitant to give up local furisdiction of issues such as road widening, traffic control and speed limits. In addition, some local officials are skeptical about the state taking over maintenance, including snow plowing.

What is going to have to happen is that the local officials and the county officials and MDOT representatives meet and start talking about this. It won't happen unless local and county officials are on board," Cassis said, adding that she hopes to facilitate such sessions.

One concern about the state's road

Plymouth Independence Village is committed to

caring for you

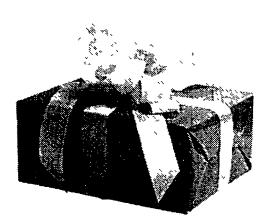

rationalization plan is that residents may not have the clout with state engineers that they have with their local elected officials. "I think they (residents) would work together with their elected officials and newspaper, that's how they would have their voice heard." Cassis

In the hopper in Lansing is a reform of how the distribution formula for road money, as ruled by Act 51 of 1951. Cassis said she believes any new distribution should offer a bigger share to high-growth communities.

The state representative, who was elected in November 1996, ranks as one of her top achievements in Lansing her work with a coalition of local government leaders and property owners to get the I/96 Beck Road and Wixom Road interchanges, a \$40 million project, on an accelerated timetable.

Demas questions how much of the current flurry of road construction is scheduled to coincide with the November election.

"I'm concerned the Republicans and Gov. Engler have made a last ditch effort before the election to put orange cones out to do road construction. I want to see that we make use of the federal money and it's not diverted," Demas said.

OIS bucks federal demands

By CHRIS C. DAVIS Staff Writer

Northville Township's Optical Imaging Systems, Inc. and the federal government were poised for a stare-down last week, as OIS announced it would not be heading back to work, regardless of an order from Washington to do so.

According to a Detroit Free Press article which appeared last week. federal authorities were prepared to move ahead with handing out fail time and fines to officials at OIS and Auburn Hills-based Guardian Industries if contractual obligations remained unfulfilled.

Federal authorities claimed they would have the power to do so under the authority of the Selec-

tive Service Act, which allows the needed in the F-15 fighter jet, M1 government to mandate private production of goods considered ital to the country's defense.

Rex Tapp, chief executive officer of OIS, could not be reached for

The manufacturer of liquid crystal displays in military aircraft began shutdown procedures Sept. 19 after a falling-out with Guardian, its largest business partner. The U.S. Commerce Department, however, ordered the company to develop a plan outlining how it intended to fulfill the remainder of its contractual obligations with the Department of Defense.

The two federal agencies insisted OIS was the only qualified manufacturer of the flat-panel screens Abrams tank and Apache heli-

OIS submitted its plan to the Commerce Department, but federal officials have since been tight-lipped about its contents, saying the response was under review and would likely stay that way for quite some time.

OIS telephone calls were being handled by a electronic switching system Thursday. A message indicated the change was made as a result of the shutdown. More than 200 employees were laid off from the work stoppage.

Shares of OIS stock bottomed out at slightly more than a penny Sept. 21. Stock has since risen to around 15 cents a share last Fri-

Police News

Baby's R Us employees fired after fist fight over product

Employees at the newly-opened Baby's R Us store were both terminated last week after the two got into a physical confrontation and death threats were exchanged.

The incident happened at around 12:45 p.m. Oct. 11. Township police reports said a 24-yearold store employee was assisting a customer, who was looking for a glider. Unable to find one on the sales floor, the employee then went to the storage area to find one, but could not. He told the customer no gliders could be found.

Moments later, a 36-year-old employee came to the area and volunteered to look for a glider in the stock room. He found one and brought it to the customer. The 24-year-old then told the 36-yearold that the customer needed a specific kind of glider, and that the one being searched for was supposedly being held. The 36-yearold took the glider back to the stock room, and was followed by the 24-year-old.

Once inside the room, the 24year-old reportedly struck the 36year-old in the face and began kicking him once he fell to the floor. As the fight was being broken up, the 36-year-old reportedly told his assailant. Sooner or later, you're going to have to leave here. and then I'm going to kill you."

Both employees were called back to the store for a consultation with store management, and were later terminated.

An investigation is pending.

SODA POT: Police on patrol in the early morning hours of Oct. 12 observed a vehicle traveling westbound on Six Mile Road near Northville Road. A headlight wasn't operating on the vehicle. Police initlated a traffic stop and spoke with the 20-year-old South Lyon driver and 19-year-old Novi passenger.

While talking to the Novi man, police noticed rolling papers on the car floor. Police asked the passenger if he'd been smoking marijuana when the driver interrupted and said he had been earlier in the

A search of the car revealed a

from a plastic soft drink bottle.

The two were arrested at the scene.

...AND THE KITCHEN SINK: Almost \$1,600 in bathroom and kitchen sinks and fixtures were reportedly stolen from a recentlybuilt home owned by a 50-year-old Willow Ridge Drive woman.

The incident was reported to police Oct. 17.

EMBEZZLEMENT: Meijer store detectives apprehended a 21-yearold female employee Oct. 16 who reportedly embezzled nearly \$200 in cash from the store during a two-week period.

Reports said the woman was able to generate phony bottle return slips and coupons to extract the money. About \$30 was recovered by the store. Court dates are pending.

MISSING PRESCRIPTIONS: Prescription drugs being held at Winchester Elementary School for distribution to students were reportedly taken from a filing cabinet in the school's office sometime around Oct. 15.

School administrators said the drugs were taken, but bottles were left behind at the scene. Reports said the office was left unlocked on the day the heist.

A police investigation is under-

CITY POLICE REPORTS

ALPHABET SOUP: A man who had previously told police he was an alcoholic and had attended numerous alcohol rehabilitation programs was arrested for driving drunk around 6:30 p.m. on Octo-

Police recognized the man from conversations at the Northville Downs and followed his red pickup truck down Eight Mile Road. Police observed the 49-year-old weaving back and forth and cross-

mg into the shoulder of the road.
When he was pulled over, the

license at home and could not produce his vehicle registration. His speech was slurred, he was unsteady during a heel-to-toe sobriety task and could not correctly recite the alphabet.

Subsequent tests revealed that his blood alcohol level rose from .14 to .25. He was arrested and charged with a misdemeanor.

IGNORING THE SIGNS: Police began pursuit at Novi Road and Eight Mile but despite flashing lights and wailing sirens the 41year-old didn't pull over until he reached his downtown Northville apartment around 11 p.m. Octo-

That was after wrongfully turning on red and almost striking a curb in the process, speeding at 45 miles an hour on Center Street. almost stopping for a flashing yellow light at Dunlap Street and passing another motorist who'd pulled over in response.

The driver then stopped to access his MainCentre parking lot with a key card and parked before police could approach his car.

When police asked why he hadn't pulled over, the man offered no answer.

Although he said he'd had two drinks that evening, portable breathalyzer tests revealed blood alcohol levels of .18 and .16.

He was charged with speeding and arrested for driving drunk.

STOLEN BIKE: A Mongoose Menace valued at \$250 was snatched from the bike rack at Cooke Middle School sometime between 7:45 a.m. and 6:30 p.m. on October 14.

The 22-inch single-speed boy's bike is silver, with red lettering and rear chrome pegs.

FOUND CAMERA: A Northville resident recovered a camera from Eight Mile Road near Taft and turned it into police around 11:30 a.m. on October 17.

Police will release the camera pending an accurate description from its rightful owner.

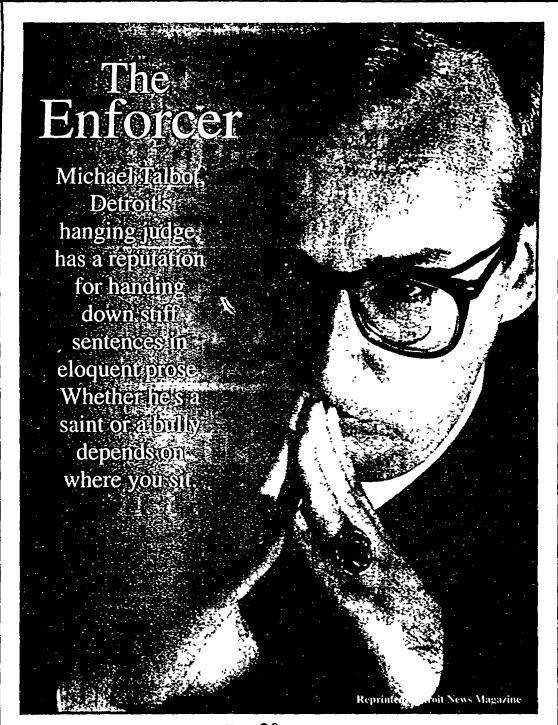

HEEL PAIN

Heel spurs, have their name for good reason. The bone growth that forms on the bottom or back of the heel often has the sharp, pointed appearance of a spur, and like that boot attachment worn by horseback riders, it can inflict ● serious pain. In mild cases the discomfort of heel spurs may • be eased with warm soaks, rest, prescription orthotics • • (shoe inserts), injections, strappings, or oral medication. If • Laser Surgery House Cails, Arthritis, Leg Cramps the growth has reached the stage where such measures are ineffective surgery may be necessary. Fortunately, improved techniques have made such procedures less traumatic and recovery quicker. Using a trny lighted tool call an "Endoscope" a podiatnst can both examine the deformity and treat it through the smallest of incisions. This heel spur
 surgery can be performed in our office.

If you are the victim of heel spurs you don't have to let • loot pain slow you down. The relief you are seeking is available. Our facility is fully equipped and our staff particularly skilled in helping with all kinds of foot conditions including bunions, coms, calluses, nail problems, warts, heel pain, sports injures, harmertoes, diabetic feet, and applied problems. For an appointment for foot care for each tits. ankle problems. For an appointment for foot care for adults
 and children please call FOOT HEALTH CENTERS for Total Foot and Ankle Care. We specialized in all types of foot surgery including laser surgery.

P.S. One of the advantages of endoscopic surgery is the . minimal amount of postoperative scarring, which can be a source of pain and irritation.

Smooth move

Group aims to ease transition to new high school

By WENSDY WHITE Staff Writer

Moving is always a lot of work, and when you're talking about moving an entire high school, the task can be monumental.

To prepare for the transition from the school on the hill to the new Northville High School under construction on Six Mile Road between Beck and Sheldon, a committee of concerned parents and school officials has begun to meet.

We're going to keep this whole thing positive," said Northville High School principal Dr. Tom Johnson.

The first meeting of the Transition Committee was held at the high school Oct. 15.

We had a number of great ideas that came out of this meeting

committee is going to go a long way in making the next two years tive one," John-

Kroger plans still debated

By JAN JEFFRES Staff Writer

A rezoning application for the northwest corner of Eight Mile and Beck roads never made it to the Novi City Council's agenda on Monday night.

But that didn't stop four of seven council members from airing their views about the issue, which has been one of the most controversial in Novi - and Northville Township - for the past few

Council Member Bob Schmid introduced the topic, but others jumped on the bandwagon, leading Mayor Kathleen McLallen to issue a general call for comment.

Does anyone else want to make a political statement about shopping on the west side of Novi. McLallen asked

You guys always want to get out early, but you can't pass up a political statement.

She suggested that the city council discuss any upcoming changes in Novis Master Plan in an upcoming joint meeting with the planning commission The planning commission adopts the

Last week, developer Stuart Frankel withdrew his application to change the zoning of the J & J

Zayti Trucking Company property from large-lot residential to the community business category. much to the relief of a coalition of area homeowners

Residents locked in resistance to the Frankel proposal remain concerned that the planning commission's Master Plan Committee, now working on a rewrite of the master plan, may agree with Frankel that the west side's growing population will have a need for food consumption that could best be met at an Eight Mile/Beck Road Kroger.

Schmid said he favored centralized commercial zoning in Novi and would not have approved the

"I'm absolutely opposed to it. I don't think it's a good idea." he

The only ones I'm aware of that would like to see shopping in the western side of Novi are the developers. Westside residents can do their

marketing at grocery stores in neighboring cities, he added. Someday a grocery store may be needed in west Novi, Council Member Craig DeRoche said, but it

should be located where the citizens want it to be.

<u>Harvest Sale</u>

wrong type of development placed in the wrong area. I personally told the developer my vote would be negative on this." DeRoche added.
There's no need to alter the mas-

ter plan to accommodate west side commercial in that area. Council Member Laura Lorenzo contends.

I think we are here to serve the citizens and if the citizens don't want to be served in a way a developer wants them to be, so be it." Lorenzo said.

The last to speak out on the issue, Council Member Kathy Mutch said she'd "try to be as apolitical as possible," noting that she had not "made a commitment one way or the other regarding any development.

However, she suggested that restricting Novi's grocery shopping opportunities to the eastside of the city put a traffic burden on homeowners in that end of the town.

"Even though the city decided to centralize the shopping district. I'd like to think that the planning commission and city council at that time did not intend for Ten Mile and Meadowbrook Road to be the center for that type of service for the city south of the expressway," Mutch said.

I don't think we should ignore the costs on the rest of the com-In this particular one, it's the munity.

Obituaries

ADELBERT G. SCHMITZ

Adelbert G. Schmitz of Northville died Oct. 12 at Oakwood Hospital. Dearborn at the age of 72. He was born May 12, 1926, in Livonia.

Mr. Schmitz retired in 1983 after 30 years of service at the Livonia Transmission Plant. Ford Motor Co. He moved to Northville 47 years ago, and was a member of the American Legion and Northville Eagles Arie No. 2504.

Mr. Schmitz is survived by his wife, Olive of Northville; sons, Gerald of Minneapolis, Minn., and Bruce of Northville; daughters. Virginia Moon of New Hudson. Teresa Jordan of Milford, and Nancy Zwalesky of Northville; brother, Tom (Joyce) of Plymouth: 11 grandchildren and six great grandchildren.

A memorial service was held on Wednesday, Oct. 14 at the Schrader-Howell Funeral Home, with the Rev. Jim Kean officiating.

ROBERT P. GOUDREAU

Robert Paul Goudreau of Pontiac died Oct. 17 at the age of 40. He was born Sept. 26, 1958, in St. Ignace, Mich., to Wilbur and Kathleen (Crouch) Goudreau.

Mr. Goudreau lived in the northern Oakland County area for most of his life. He was instrumental in the success of Kamar Office Products, the family-owned business, and enjoyed snowmobiling, golf and boating.

In addition to his parents. Wilbur and Kathleen Goudreau of Northville, he is survived by sisters, Carol Lynne of Pearland. Texas, Roxanne (Jeffrey) Fesko of Maumee, Ohio, and Angela of Waterford: he was an uncle to Amanda, Christian and Cassie: and he will be greatly missed by Kamar employees.

Services were held on Thursday. Oct. 22 at Casterline Funeral Home Inc. with Dr. William Stur-

Rural Hill Cemetery.

FRANCES L. REED

Frances L. Reed, 80, died Oct. 12 at her residence in Northville. She was born Aug. 6, 1918, in South Lyon to Alvie and Winifred (Burden) Barrett.

Mrs. Reed moved to Northville in the 1940s. She was a homemaker and a nurse's aide, and belonged to Our Lady of Victory Church in Northville.

She is survived by sons. Stephen of Clinton Township. Donald of Ypsilanti, Walter of Texas, and Phillip of Northville; daughter, Patricia McGee of California: 13 grandchildren and three great grandchildren.

Mrs. Reed was preceded in death by her husband, Donald, in April 1990; and her brothers and sisters.

Services were conducted on Saturday, Oct. 17 at Our Lady of Victory Church with the Rev. Ernest Porcari officiating. Interment was in Oakland Hills Memorial Gar-

Arrangements were made by Casterline Funeral Home Inc. of Northville.

HELEN SIDOR

Helen Sidor of Northville Township died Oct. 17 at Angela Hospice in Livonia. She was 93. Mrs. Sidor was born June 20, 1905, in Glen Campbell, Pa., to Casper and Agnes Zrebski.

She is survived by daughter, Virginia Farkas of Northville; sons. Frank of Citrus Springs, Fla., and Edward of Beverly Hills, Fla.; three sisters and two brothers; six grandchildren and three great grandchildren.

Mrs. Sidor was preceded in death by her husband, John, in 1972, whom she married in 1922.

geon officiating. Interment was in Her husband died just a few days before their 50th anniversary.

A funeral Mass was celebrated on Tuesday, Oct. 20 at Our Lady of Victory Church. Interment followed at Mount Olivet Cemetery.

Arrangements were made by Northrop-Sassaman Funeral

Memorials to the Angela Hospice of Livonia would be appreciated.

VIOLET E. WYGENT

Violet Elizabeth Wygent, 92, died Oct. 16 at Abbey Living Center in Warren. Mrs. Wygent was born July 26, 1906, in Detroit to Charles and Carrie (Morrish)

Mrs. Wygent was employed as a typist for various businesses.

She was preceded in death by her husband, Clifford, who passed away many years ago.

A private service was held at Parkview Memorial Cemetery in Livonia.

Arrangements were made by Northrop-Sassaman Funeral Home of Northville.

DAVID C. ANTUNA

David Charles Antuna, 42, died Sept. 22 at his residence in Novi. He was born May 21, 1956.

He is survived by his wife. Carol; children, Courtney and Chris: parents, Iris and Daniel Antuna: brothers, Richard (Marjory). Steven (Teri) and John: sisters. Amy (Gary) Wuerfel and Jenny (Kevin) Travers: 11 nieces and nephews and one great nephew.

Services were held on Friday. Sept. 25 at O'Brien Chapel/Sullivan Funeral Home in Novi.

Memorial contributions to Kamp for Kids, 4133 W. Michigan Ave.. Jackson, MI 49202 would be appreciated.

Record editorial contained errors, Woodside claims

By CHRIS C. DAVIS Staff Writer

Northville Township supervisor Karen Woodside denied suggestions made in a Record editional that the decision to carry on with a lawsuit against the Northville School District was frivolous

Woodside made her comments i.ear the beginning of the township board's Oct 15 meeting Woodside, who along with her duties as supervisor serves as a prosecutor in the appellate section of the Wayne County prosecutor's office, said the oath taken by her and other attorneys would not ethically permit her to pursue any non-worthwhile case

The supervisor went further, saying there were "several inaccuracies" in the piece and that the dissemination of such information was detrimental to her integrity as a supervisor and as an attorney.

Woodside did not specify which statements she believed to be inac-

She also said the experience of township trustee Bill Selinsky in the legal profession affirmed the ethical conduct needed to be maintained by

The Record editorial indicated the

newspaper staff had become aware of private talks between township trustees and school board members aimed at bringing an end to the lawsuit. The suit was filed by the township after the school district refused to comply with zoning requests made by the township at the work site of the new Northville High School on Six Mile Road.

The editorial also suggested Woodside was standing in the way of having the lawsuit dropped by way of manipulating the schedule of

After expressing her disagreement with the content of the piece. Woodside indicated clerk Sue Hillebrand also had taken exception with statements in the editorial. When given the opportunity to speak, Hillebrand said she preferred not to comment on the matter.

Traditionally, editorials represent the majority opinion of the editorial board of a newspaper, while columns are personal viewpoints expressed by the individual writers.

Guest editorials written by Selinsky and schools superintendent Leonard Rezmierski have been published by the Record since the lawsuit was filed.

Northville students ready for 'Make a Difference' Day

By WENSDY WHITE Staff Writer

During the past two weeks, Northville students have brought enough toys to school to fill 50 bags, but they still want more.

The games, puzzles and stuffed animals are for the benefit of children far from the borders of Northville and are being collected by the Northville High Rotary Interact club, to be shipped to needy children in Honduras.

In the past, Rotary Interact members have asked high school and elementary schools to donate books for a school in Ghana, Africa and school supplies and backpacks for students in Hon-

For the upcoming toy drive, they've extended the collection to the whole community.

"I think we'll make it more successful having more people do it."

"Do we have some obligation to help others? Obviously, the answer is yes."

Leonard Rezmierski

Northville Schools superintendent

said Lisa Milnes, president of the

Milnes said the group is proposing that locals focus on the drive for Make a Difference Day, America's largest organized holiday for helping others.

This year, the event falls on Saturday, October 24.

Milnes will join fellow Interact officers Adrienne Manarina. Megan Golani and Shalene Jha to collect clean toys in good condition that day.

In conjunction with adult Rotar-

ians, the toys will be shipped to the mountainous South American country depending on need.

Other toys will be sent to Ghana, Africa, and to the First Step program in Detroit.

Northville Public Schools Superintendent Leonard Rezmierski urged people to help the students in their charitable efforts.

"It's a way of showing that this kind of activity is appropriate. Our students, with adult leadership, are recognizing there are wider needs than our own," Rezmierski said. "Do we have some obligation to help others? Obviously, the answer is yes."

Drop-off sites will be located at the Downtown Gazebo on Main Street, the Northville Township Police Station, 41600 Six Mile Road, and Cooke Middle School, 21200 Taft Road, between 9 a.m. and 4 p.m.

OTO TO TO TO ල්ලේල්ල්ල් ද ംഗി ഒര

Forrmer Novi Police chief Lee BeGole recalled several instances during his years in Novi when strange events, both explainable and unexplainable, occurred. Those memories will be narrated on "Scary Tales," a local access cable show appearing for Novi subscribers. The show airs Monday, Wednesday and Friday at 8:30 p.m. and 12:15 a.m., Tuesday and Thursday at 7:45 p.m. and 11:30 p.m., and Saturday and Sunday at 2:15 p.m., 7:45 p.m. and 11:30 p.m.

Officials change graduation

Continued from 1

"It seems to be by and large overwhelmingly supported," said Northville Schools Superintendent Leonard Rezmierski. "It clearly doesn't put the on us the last day."

The new plan will give the Senior All Night Party Committee more time to plan and prepare without disrupting school on the last Friday.

In the past, a large portion of the high school was inaccessible to staff and students because of

decorating the last day. In addition, there will be less Honors Assemblies scheduled on the Friday of graduation.

The new plan will also allow more time for out-of-town family members to arrive for commencements.

board to approve the plan at their next meeting, set for 7:30 on Oct. 27 at Northville High

"Wouldn't it be better to try something that doesn't change the tradition drastically but makes it much more comfortable?* Rezmierski said.

A recommendation looming in the future threatens to have

conflict for the Underclassmen more impact on Northville High's graduation tradition, however.

> Johnson said officials will recommend that the first graduating class of the new Northville High hold their commencement ceremonies at an off-site, indoor location like Compuware Arena in Plymouth.

The new school is under construction on Six Mile Road between Beck and Sheldon

According to the construction time line, the class of 2001 will be the first to graduate from the new building.

Former police chief recalls scares in Northville, Novi

By CHRIS C. DAVIS Staff Writer

It seems everyone loves a good scare around this time of year, and perhaps no one has more of them to share than former Novi police chief

Now employed in Green Oak Township, the man for whom Novi's police headquarters is named spent many a dark and stormy night patrolling the streets of Novi and Northville and encountered a few incidents which stuck out in his mind.

A few of those can be seen on local access cable television, on "Scary Tales," a show airing now in Novi.

BeGole is an admitted skeptic where ghosts are concerned (he's heard more than his share of UFO sightings in Novi), but said that he'd observed a number of incidents through his career which, at the very least, gave a good scare.

BeGole shared a few of the spookier moments he'd encountered in the Novi and Northville communities

THE FUNERAL PROCESSION

In the mid-1950s, BeGole recalled taking a late-night phone call from the Northville Police Department, where it was reported a funeral procession had been spotted leaving Yerkes Cemetery heading west on Eight Mile Road.

Of course, to add drama and tension to the story, the report was made on a foggy, cold evening in the final days of October. At the time, Eight Mile Road near Northville was a twolane road, a far cry from the divided highway it is today.

We went out there to look around

and didn't see anything at all." BeGole said. "No sign of anything which looked like a funeral whatsoever."

That wasn't the last BeGole would hear about the matter, however. A few days later, Novi residents telephoned BeGole to tell him they had spotted the same thing. BeGole said he didn't tell the caller about the complaint fielded earlier in the week.

"We didn't want to tell someone they were just imagining something." BeGole said. "That would have made them feel silly.

Wanting to bring some element of closure to the story. BeGole said he and an assistant drove out near the cemetery in an unmarked car and staked the area out.

A few single cars cruised the dark highway, but BeGole said nothing out of the ordinary could be seen

slight illumination to the cemetery. At that moment, BeGole said he observed some movement in the graveyard. As the car moved closer, he could make out what appeared to be an actual funeral procession, with people carrying a casket through the cemetery grounds.

BeGole said he was startled, but climbed out of the patrol car and made his way to the cemetery. After a cursory scan, he realized it wasn't an apparition he was seeing.

It was a few clever members of Northville High School's senior class giving people in Novi and Northville a good scare, complete with a cardboard coffin painted gray. Most of the thriller-movie wannabes scattered at the site of the police.

However, not all is forgotten.

Some of the perpetrators are still around today and are doing well in the community," BeGole laughed. "That was one of those incidents we were able to explain away."

THE CHURCH BELL

The intersection of Grand River Avenue and Novi Road is a far cry from what it used to be. When BeGole was on assignment, the area was largely residential and dotted with

A Methodist Church was located in the area, as well. BeGole said he was working in the police hall one evening around midnight when he heard the clang of the bell. Concerned, he said he made his way up Novi Road to see what the commotion was all about.

He saw no activity on the outside of the church, but upon looking inside the church, he observed a small figure in a brown cloak, about five feet tall, walking up the center aisle.

I didn't know what I was looking at, so I wanted to find out what was happening." BeGole said.

He then contacted the Novi Township supervisor, who told BeGole the figure was a person named Maria, who had moved from Detroit and spent Saturday evenings cleaning the church in preparation for Sunday services.

One of her idiosyncrasies was a habit of wiping down the rope connected to the bell tower.

BeGole said many Saturday midnights passed when the sound of the bell filled the night air. Years later, the chiming stopped and a few days after that, neighbors informed BeGole Maria had died. Her body was found inside her house.

Authorities came into her house - A car coming from the west-gave and found stacks of newspapers sev-

eral feet high throughout the home. In the middle of one of the stacks: nearly \$10,000 in cash which Maria had apparently been hoarding.

One year after Maria's death. BeGole said he heard the sound of the bell coming from the church again. He inspected the church and found everything to be alright.

The next day, however, a prominent local was reported to have died. A few months after that, the bell was heard again, only this time, a Novi police officer was reported dead the next

The trend continued periodically until the bell was moved to the church's new home on Meadowbrook.

BeGole recalled awakening a bright June morning in his Novi home to the sound of someone shuffling around downstairs, followed by footsteps padding their way up the staircase.

It wasn't anything particularly out of the ordinary, since BeGole said his family had a key to his home and sometimes stopped by en route to

BeGole said his staircase was constructed with a landing about halfway up. The plodding sound stopped at

"At that point, I didn't know what was going on." BeGole said. "That wasn't the sort of thing (family members) usually did.

BeGole said he stepped out of his bedroom and gazed at the staircase. only to find a giant black bird on the

landing, staring at him. This came as a surprise because the front door to the house had been closed, making entry for a bird something rather difficult.

BeGole turned and retreated back to his bedroom. He called the police department and asked the officer on duty to come over to his house, though he didn't specify why.

Hearing the patrol car pull up in the driveway a few minutes later, BeGole exited his bedroom and looked back at the landing.

The bird was gone without a trace. The officer who responded to the call, BeGole said, asked what it was BeGole wanted, as everything appeared normal. A search of the house turned up nothing - including the bird.

The front door had also been closed when the officer arrived.

I never did figure out how that darned bird got in there," BeGole

Developers to make park improvements

Continued from 1

ly told them, 'Look, quit horsing around and just build us the

Gans said the details on the park's layout are still being worked out with Toll Brothers, but that the essence of the arrangement was complete.

"(Toll Brothers) to plunk down a building and that will be the end of it," Gans said. They're going to develop something we want and believe will be beneficial to the community."

The park would be built in step with the progression of construction for the remainder of the development, Gans said. For instance. earth moving on the park site

would be taking place simultaneously with earth moving in the residential portion.

While leveling-out of land is hoped to begin for the development's golf course yet this fall, Gans said he expected soil to begin being tilled on the new park next spring.

All told, the resent about a \$1 million savings to the township, Gans said.

Not only will the township be given improvements to open space parkland, but Gans said Toll Brothers also offered to construct a footpath through a separate 20 acres of woodland property purchased by the township.

a natural state," Gans said. Gans also said other park deals

are attempting to be worked out. We're working diligently to continue to acquire park land without passing on an expense to the residents," Gans said. However, on one particular acquisition attempt, Gans said "a snag" has been has delaved encountered which moving forward with the acquisi-

OPINION

Township millage: are we going to plan for future?

hould Northville Township residents approve two millage proposals one which posals, one which will provide an operating base for services like Parks and Recreation. Northville Youth Assistance, and Senior Citizens Center and the other to allow for the acquisition and development of park land?

Those are the two questions voters will be answering at the polls Aug. 3. and we have to admit these are tough philosophical questions to answer

There is no mistaking the fact that we are stingy in our remarks when it comes to the increase of taxes, and we are always skeptical when a governmental body asks its taxpayers for an increase in funding. We also believe in promoting issues that will have a positive impact on our community, issues that will assure quality in the future of Northville.

It is important to note that if both requests are approved the additional cost to homeowners per year is \$66 50 for a home with the assessed value of \$100,000, \$133 for a home with the assessed value of \$200,000: and \$266 for a home with the assessed value of \$400,000. The requests represent an increase in the tax base by .93 mills.

With that said we have but one final duty to readers in regards to this millage request - that is to communicate this newspaper's recommendation

On the question of approval for the renewal of four operating mills plus an additional .58 mill for Parks and Recreation. Northville Youth Assistance, and Senior Cuizen Center we recommend a YES vote, with qualifications.

Although the township is not required by law to separate the additional .58 mill from the millage renewal, we do not approve of the bundling of requests.

We do believe it is paramount that voters approve the 4.0 mill renewal to keep the current level of services consistent, but to do so means voters must also approve the .58 mill. which will be assessed over eight years,

We would have preferred that question be separate to allow voters to decide whether those shared services should receive additional fund-

It should be pointed out that this request really only represents a .18 mill increase over the current .40 mill funding level, and we strongly urge township officials to use the .18 mill increase to fund programs and not for salary and benefits.

To be sure, Parks and Recreation, NYA, and Senior Center are all fine. deserving programs that provide lage questions Aug. 3.

several benefits to our community. They improve the quality of life for all of us and are worthy of your yes

On the question of approval for a .75 mill increase, to be assessed over four years, for the acquisition and development of park land, we recommend a YES vote.

Despite its straight-forward language this request is difficult to put into perspective. As it stands today, close to half of the township's 36 square miles is developed. Of the undeveloped area approximately 87 percent of the land is held in the hands of developers. The end result is there remains about 4 miles of land the township can purchase for active and passive recreational use.

So the question really becomes do we want to act now in funding park land acquisition and development. or do we bank on the generosity of developers to include park land and green space in their developments? It is our belief that the township is at a crossroads, regarding this issue, and the window of opportunity is shrinking with the construction of each new home.

We have reported that township officials have several land deals in the works that could net the township about 90 acres of land at little or no cost to taxpayers. Those deals aren't quite set in stone and we are told that negotiations are continu-

With that said, we believe it is prudent to utilize funding now to ensure that land is set aside for the future. before it is bulldozed over by rapid development.

In regards to the additional one mill that can be assessed by the board, we're not entirely comfortable with it looming in the background. We do understand that as the township continues to grow there may be a need to assess the mill to construct a new fire station or lease/purchase a new ladder truck, but we would strongly urge officials to exhaust other creative means before deciding to assess new taxes.

Finally it is no secret that we have been at odds with township officials over a variety of issues this past year. Those differences remain and will continue to be debated long after this election is over. We cannot with clear conscience, however, allow those differences to cloud our judgment and opinion - especially when the future of our community is at

We believe that in the long run, the requests being put before you will result in a better and brighter future for Northville. That is why we encourage a YES vote on both mil-

We encourage support of Prop. B

ew ballot proposals strike to the heart of deeply held emotional and religious feelings as Proposal B on the Nov. 3 ballot.

Passage would legalize a physician's prescribing a lethal dose of medication for a terminally ill patient who wanted to commit suicide.

While complex and imperfect, Proposal B is better than either of the two alternatives: Dr. Jack Kevorkian's unregulated, flamboyant, one-man ministrations and the new law that took effect Sept. 1 making physician-assisted suicide a five-year felony. We suggest a "yes" vote on Proposal B.

Kevorkian, a retired West Bloomfield pathologist, has been at the scene of more than 100 assisted suicides. There are serious questions about whether some were terminally ill, whether they couldn't have been further treated and whether Dr. Kevorkian followed his own procedures to avoid abuse. But despite an earlier state law that expired and various common law prosecutions, prosecutors in three counties have been unable to persuade any jury to convict Kevorkian, who has publicly scoffed at the law and the authorities.

Proposal B offers a long list of safeguards - some might say too long and complex.

It offers a number of safeguards to protect patients. Two physicians would have to certify the patient is within six months of death, and a psychiatrist would have to certify the patient isn't mentally ill. Waiting periods are required, and patients would have to be given a list of alternatives to suicide, such as hospice. Proposal B would prohibit someone from setting up a clinic for the sole purpose of administering assisted suicides, in effect putting Kevorkian himself out of

A number of physicians object to a provision in Proposal B that would require doctors who conscientiously object to assisted suicide to refer a patient to a willing physician. Such a CO MD could face a \$10,000 fine and 90 days in jail. It's probably unconstitutional, but who knows what the judges would do with sincere religious beliefs?

Outlawing physician-assisted suicide - the route preferred by politicians who chant "stiff new penalties, tough new laws" - is unlikely to work. Juries have been unwilling to convict somebody like Kevorkian. Moreover, our demographics are changing. The fastest growing segment in the population is over 85, just the kinds of people most likely to be facing the severe prospect of terminal illness with no prospect of release. So defeating Proposal B won't make the problem go away.

If you disapprove of physician-assisted suicide for yourself or your family, don't do it. Discourage others: support hospice. If you're a physician, refer your patient to another doctor.

But if you vote "no." don't expect the problem to disappear with the last trace of summer.

Prop. A deserves your endorsement

Proposal A is a routine wording change to the Michigan Constitution that voters should laws changing "handicapped" to "disabled." approve with no qualms.

It would amend a section of Art. VIII (education) sec. 8 (guaranteeing education and services for the physically and mentally handicapped). It would change the word "handicapped" to "dis-

That would bring the state constitution into line with the federal Americans with Disabilities Act of

Proposal A needed a two-thirds vote in each chamber of the Legislature to go on the ballot. It got 37-0 support in the Senate and 99-0 support in the House. As a constitutional amendment, Proposal A must be approved by voters.

It is common sense and good legal practice to phrase state and federal laws in the same words. when possible. We urge a "yes" vote on Proposal A.

We encourage support for Knollenberg

his is one editorial endorsement Congressman questioned about the sex scandal. Knollenberg has Joe Knollenberg probably doesn't want. We have criticisms of his performance ... a number of them. And they're harsh.

A) Knollenberg, the incumbent Republican running for reelection to the 11 District Congressional seat which includes Novi and Northville, has been much less responsive to inquiries during this campaign than in the past.

Yes, he has responded to some degree, but its sporadic. Gone this year are the personal visits to news offices that he's made in past years. Yes, his staff is taking care of matters on his behalf. And yes, it probably is because he is busy in Washing-

Knollenberg ton doing important things, like trying to pass a bud-

But if he is less responsive to newspapers covering his reelection efforts, we can only wonder how responsive he will be to individual con-

B) Why is Congress, including Knollenberg, still working on a budget? Because they've spent far too much time on the Clinton-Lewinski sex scandal.

C) Knollenberg is one of the worst in Congress about dragging out that matter. Every time he's been reelection to the 11th District.

urged continuation of the various reviews and investigations.

Perhaps he believes it is an important issue. Maybe he just has a political agenda. But those of us who live and work outside "the Beltway" realize it has clearly gone on too long and that it is time for Congress and the federal government get back to the job of running the country.

Congress has other questions to answer - like whether it is appropriate for the government to have a \$45 million law enforcement agency. Ken Starr and his minions, with no limits and no deadlines to investigate a population of one ... even if that one does happen to be the president.

Nonetheless, Knollenberg is still the more qualified of the candidates running for the office this time around. He's in a position of power in the Republican party. He can and does make things happen in Washington for his district.

For the most part, he has represented his district well, and he is philosophically in tune with the conservative views of the majority of his constituents.

As we said, our criticisms are harsh. And we believe Knollenberg has some soul searching to do.

But he's still clearly the best choice. His rival, Democrat Travis Reed, may soon be a contender, but he is not yet ready for the office.

All said and done, we pick JOE KNOLLENBERG for

State universities are agents of change tuition means that kids can no longer work the weat the world the properties of the properties of

in the 20th century, they are apt to conclude that the signature mark of our society was to have created and supported seriously excellent public universities.

Think on it.

Before the rise of our great public universities - the University of Michigan, Michigan State and Wayne State universities are all good examples here in Michigan - higher education in America was provided largely by private colleges, mostly on the East Coast, which served a tiny elite, mostly WASP and overwhelmingly male. In the middle of the 19th century, maybe 4 percent of the total population ever got to college.

Late in the century, public universities started on a course of opening the doors to higher education to all kinds of people not previously let in. U-M was one of the leaders, first accepting female students in 1870.

in the 1920s and '30s, public universities started admitting all kinds of able students previously scorned by the privates. Klds from rural America, especially the Midwest. Jewish kids, at that time subject to quota by lvy League universities. Kids from working families who were prepared to work their way through college. Minority kids, seeking validation that skin color was no bar to educational achievement.

in the years following World War II, countless returning veterans received, in effect, college tuition vouchers as a result of the GI Bill. Public universities admitted hundreds of thousands of veterans, perhaps the most successful affirmative action program in the history of our nation.

Today, two out of every three high school

Power

graduates get some kind of post-high school education. Nearly 40 percent of those who leave high school now graduate from a college or university.

This vast transfer of intellectual capital from a tiny elite to nearly a majority of our entire population has made America truly the land of opportunity and is very probably the underlying source of America's astonishing economic performance during the past decade.

And it was the public universities of this country that that led this remarkable opening up of the system by stepping up to their moral obligation to provide access to all qualified Americans.

The case of U-M is particularly instructive. The University of Michigan has for years been captive to the creative tension between its moral obligation as a public university to provide college access to the widest possible spectrum of our population and its undoubted quality as among the finest universities in America.

This has led to all kinds of complex trade-

On the one hand, well aware that high

tuition as low as possible and to provide as much financial aid to every student as possible. For example, it is U-M's policy that for any undergraduate student who is a Michigan resident and in good academic standing but with demonstrated financial need, the university will provide a way — grants. scholarships, loans, jobs, whatever - to get that student through school.

On the other hand, the university rightly avoids the simplistic stunt of tying tuition increases to the rate of inflation. For a university whose greatest attribute is the outstanding quality of its faculty, arbitrarily reducing its ability to pay to attract and retain professors is to risk that quality that makes U-M great.

Instead, U-M has chosen to find other ways to maximize income, so as to keep tuition increases as low as possible. Last year, for example, the university ended a capital fund drive that raised \$1.4 billion. the largest ever in history by a public university. Part of the money from that drive will endow professorships that will assist in recruiting world-class faculty.

Maintaining quality and at the same time cherishing the moral dimension entailed by its public nature is the hardest challenge at U·M. It's not easy. But it's essential.

Do we have to wonder about Granholm?

You have to wonder about that Jennifer

Granholm, of course, is Geoffrey Fieger's running mate for attorney general on the Democratic ticket. Currently, she makes her living as Wayne County corporation counsel, which is how I first heard of her - or from

In August of 1995, the Michigan Supreme Court ruled against Wayne County in a taxpayers' appeal. The taxpayers group, called TACT, argued that a real estate transfer tax had been imposed unconstitutionially by the county board in 1981. TACT, an east-side suburban group, said there had been no voter approval, a violation of the 1978 Headlee amendment to the state constitu-

Wayne County got the suit dismissed in circuit court. The Court of Appeals upheld the dismissal. TACT went to the Supreme Court and won. The high court, in a 6-0 decision, said:

*For the foregoing reasons, we reverse the judgment of the court of Appeals and hold that the Headlee Amendment claim of this taxpayer accrued at the time he paid the tax in question. We remand the case to the circuit court for further proceedings consistent

with this opinion. In short, Wayne County lost. It had argued that the statute of limitations began running when the tax hike was passed. The Supreme Court said no, it began running when the tax was imposed — that is, when one David Pochmara sold his house and was required to pay the tax. So the suit was alive.

Granholm wrote a letter to my boss com- jurisprudence, is in the permanent law Ext. 1881.

plaining about my story and saying, "We in no way view this decision as a loss." Well, I'm not a Harvard Law School grad as

Granholm is. But in Professor Gerald O. Dykstra's business law class in the University of Michigan Graduate School of Business Administration, they taught us how to read the bottom line in Supreme Court opinions, and it sure looked to me like Wayne County lost.

Now, it's no disgrace to lose a case. And Granholm wasn't even admitted to the bar when Wayne County passed the tax. But it looks bad when you lose and "in no way view this decision as a loss.

Granholm also complained that "no one in my office was contacted by Mr. Richard egarding our interpretation of the decision."

First, Granholm wasn't the attorney of record. Look in 450 Mich. 119, which means volume 450 of Michigan Supreme Court reports, as I did last week, and you'll see on page 120 that the firm of Miller, Cansield,

books as counsel of record.

Apparently, Granholm did what other corporation counsels do - farmed the appellate work out to a private firm. Public employee unions will want to keep this in mind if Granholm runs for governor in four years.

Second, I admit to rarely contacting the losing lawyer in a Supreme Court decision. The Supreme Court has the last word. Besides, 90 percent of the time the losers don't return your call, 9 percent of the time they give you hot air, and one percent of the time they tell the truth.

For example, I have been waiting since 1989 for a return call from a Bloomfield Hills lawyer who lost a Freedom of Information Act appeal on behalf of the Pontiac police. It seems Pontiac police denied the FOIA request of a prison inmate on the grounds the case was "still under investigation." Pontiac's defense was absurd, the court said so. and the attorney was probably embarrassed that he had to handle it.

The Supreme Court sent TACT's case back to Wayne Circuit Judge John Kirwan, who promptly certified a class action case and ruled against the county. The tax hike was voided, the county was enjoined from future collections, and the county had to pay back a bunch of money.

I was in Kirwan's courtroom. Granholm

You have to wonder about that Jennifer Granholm.

We are committed to keeping taxes low

The Northville Record continues to demand a promise from the Northville Township board of trustees that we will not levy the general mill that is allowed under Michigan law without a vote of the people. (See millage history since 1992.) We cannot honestly make such bald promises for an eight-year period of time. None of us are clairvoyant; however, the board has always been committed to keeping township taxes as low as possible. Unforeseen circumstances arise, such as the courthouse fire, revenue sharing law changes, downturn in economy, etc. Township leaders are elected to exhibit vision as the Record noted.

We continually look for alternatives to millages through innovative financing, obtaining grants and requesting voluntary contributions from developers which include:

 A \$39,000 Drug Abuse Resistance Education (DARE) grant - our second year for this which pays for a police officer and a DARE program:

 A commitment by developers Toll Brothers / Biltmore to develop the Six Mile Park on the south side of Six Mile between Sheldon and Beck Roads. This is 28 acres acquired through the Wayne County PUD agreement. Grading. seeding, building four baseball fields, three soc cer flelds, paving a parking lot, and construction a playscape and picnic are are part of the plan. Toll will hire a conservationist to plan paths for the Climax Forest park and preserve, located on Sheldon Road behind the old soccer and baseball fields. Township residents will enjoy in perpetuity the magnificent and rare Climax forest planted by Michigan State University. This is an incredibly diverse stand of trees not normally indigenous to southeastern Michigan;

· Paving Six Mile Road between Beck and Sheldon roads in the spring of 1999 as part of the Wayne County Partnership '98 program. Developers voluntarily agreed to pay the township's 20 percent share of this \$41.5 million project:

· Paving Six Mile between Beck and Ridge roads. Another developer offered to pay the township's share if Wayne County included it

in the program; • Investigation of a community center, like The Summit in Canton. Having no landfill revenues and working with the city of Northville. we are exploring ways of doing this using pri-

Woodside

· Applying for a state of Michigan grant to acquire 20 acres of parkland contiguous to Beck Road Community Park. The Township

would pay 51 percent of the costs and the state, 49 percent. In addition, the Six Mile Road bike path grant was awarded with the state paying \$233,695 of the total project cost of \$391,350. Developers and builders are picking up part of the township's share; Using grant money toward Northville Senior Center renovation, and;

· Purchasing the former Comerica bank for \$450,000 - less than the cost of many new homes in the township - on land contiguous to township property on Six Mile and Winchester. The sinance building offers a drive-thru to provide optimum services and meet adminis-

trative space needs for many years to come. Recognizing that existing residents cannot subsidize the total cost of required needs all at once. we must prioritize. We need a fire station, and the county's PUD donated land for the station.

We must now look at financing the structure. Interest rates are at their lowest since 1967. A special assessment district requiring the new development to pay fire costs was explored, but the window of opportunity and other problems prevented the SAD from becoming a reality.

Our board is vigilant in looking to recover costs and seek revenues to ease the burden on all of us. Northville Township was once a bedroom community. Recently, we have attempted to diversify the tax base trying to encourage research and development, limited perimeter commercial and some industrial uses, no

longer giving tax abatements. Plymouth Township has a diverse tax base including Ford Motor Company and is able to generate \$1.5 million per mill. We generate approximately \$700,000 per mill but have been constrained by one-third of our land being owned by state, county and municipal agencies, limiting our taxing ability.

Two critical township ballot questions will be determined on Nov. 3:

• Should we continue our partnership with the city of Northville in providing recreation, senior services and youth assistance at the current level of service?

The current 0.40 millage expires Dec. 31. and 0.58 mills is required to continue all three services for the next eight years.

· Should we purchase and improve parklands and pathways?

Three-quarters of 1 mill over four years is needed for this. Of the 17 square miles of township land, only six and a half are still undeveloped, and less than two square miles have not been purchased. By the year 2000, it will be too late. The only way to control land is to own it. We receive calls asking us to stop the development. We cannot. Property owners have a Constitutional right to develop their property. yet we have strong ordinances in place to carefully manage growth and encourage open

Together with the city of Northville, we operate one austere program to provide all three of the joint services, avoiding the expense of duplicate administration and costs. Both the city of Northville and the Northville school board have passed resolutions in support of this millage. One statutory mill was budgeted to keep all options open under state law, with a budget amendment being made in November after the election.

We need to continue to provide cost-effective services for our money. We will continue to keep taxes as low as possible and offer maximum services at minimum cost. With 3,000 new homes coming in during the next 10 to 15 years, the board will ensure that Northville Township moves into the 21st century on a sound financial basis.

Karen Woodside is supervisor of Northville Township.

Letters to the Editor

Vote 'Yes' for township park land acquisition and development

I am a junior at Northville High School. Until I received my driver's license, my main form of transportation was my bike and rollerblades. Biking and skating are a lot of fun and great exercise.

Even with a car, I enjoy biking into town. Unfortunately, it is dangerous because there are not many bike paths, only the street and pedestrian sidewalks.

That is why the Parks and Pathways Acquisition and Development plan to put paths throughout Northville is a great idea. They would link public and private facilities and provide safe travel for pedestrians Unfortunately, I cannot vote yet but I would encourage everyone to vote yes on the Parks and Pathways millage vote on Nov. 3.

Scott Taylor, Grade 11 Northville High School

Our recreation programs are superb, worthy of vote

Northville residents support excellent services including the school system, law enforcement, and library. On Nov. 3, residents can vote for continued funding for Northville's superb recreation programs.

These low cost and highly used services allow families with young children the opportunity to meet each other and form friendships that are the building blocks of our community.

Regardless of whether we participate, we all benefit because these programs bring families together and unite us all.

Bruce Tabashneck

Youth Assistance is deserving of a yes vote

We strongly support the Northville Youth Assistance program in our community. We have seen it make a difference in the lives of children. In teaching our children how to become productive citizens, we are building a strong community.

We are also saving citizen tax dollars which go to our court system, police services, jails and cost citizens many dollars in personal property losses

One can point to communities which have not cared to give adequate support to their youth and seen the erosion of neighborhoods, schools and the increase in crime in those communities.

When a child needs help, a program needs to be in place to provide that help, support and friendship. Northville Youth Assistance has proven to be just such a program. Ask those in our schools, law enforcement, our courts, why they refer troubled children to this organization for assistance.
We believe it is also worth the support of the com-

munity. Please take the opportunity to support Northville Youth Assistance through a yes vote on

Tom and Joanne Dewey

NYA has positive effect on Northville's youth

To the editor:

As a school social worker and taxpayer of Northville Township, I wanted to express my support of Northville Youth Assistance program and urge voters to say yes on Nov. 3.

I have seen first hand the positive effect of the mentoring program, and sincerely hope that these children will continue to receive support which in turn strengthens individual families and our community in general. There are so many lives that this program touches, but I am especially thinking of the single parent family.

It must be so very difficult to handle not only the financial needs of a family all by oneself but also the social and emotional. NYA helps out these single parent households. Children are given the one-to-one contact that is necessary for health development, and professional counseling is available for other areas of

It just seems logical that our tax dollars are better spent in a "preventative" type of program than later on in a more costly manner with youths that may need more extensive help. I have seen the joy in a child's eyes when he talks about his mentor, and I have witnessed change occur within families. I sincerely urge you to vote yes on Nov. 3.

Sharon Kavanaugh

Here are some positive comments on millage

To the editor:

This letter is in response to a lot of the negative letters to the editor regarding the upcoming millage proposal for senior citizens, youth assistance and recre-

My letter is a positive commentary about the existing programs, especially the current senior citizens

The senior citizens center is located at 215 W. Cady St. Northville Youth Assistance and the Northville Civic Concern also shares office/activity space within the senior citizens center. I don't believe this commumity realizes the programs and services that are currently offered to our residents through the senior center.

Presently they service 500-plus senior citizen on an average weekly basis. Some of the services or programs available are: Telecare (daily contact to homebound elderly residents), monthly newsletter (1,000 published), card playing, meals on wheels and hot lunch program, blood pressure screening, legal aide, drop-in-volleyball, transportation to grocery stores and monthly mall shopping, income tax preparation. information and referral service, Focus: Hope distribution, exercise programs, Tai Chi classes, recreational classes, volunteer opportunities, socialization, dinner get-togethers, monthly potlucks, tours of museums and local theater performances, local and extended trips, Detroit Symphony Orchestra Coffee Concerts, health screenings and flu shots, current events, "Children of Aging Parents" seminars, plus much, much more.

These programs allow the seniors of our community to remain active and help fulfill their daily lives. They also allow them to remain in their own homes

Thirty-five percent of the senior citizen center's \$130,000 budget comes from city and township con-inbutions, while the other 65 percent is contributed by grants and participants (senior citizens) and fund

So there really is no free ride for senior citizens in this program. Presently, the senior center service's approximately 70 percent township residents and 30 percent city residents.

Another point to be made is in regards to salaries at the center. After more than 13 years of dedicated full-time service to this community, the coordinator's position just broke the \$30,000-a-year mark. So there are no overpaid governmental employees here. In fact, all of our shared service employees are grossly underpaid compared to other communities'

We are fortunate to have them serving us.

Civic Concern supports the Northville Senior Citizens programs. Northville Youth Assistance and Northville Parks and Recreation. Our youth are the future and our elderly are the mentors. Please support the renewal and increase of this millage by voting yes on Nov. 3.

Marlene Kunz, Director Northville Civic Concern

Chamber of Commerce supports millage

At our most recent meeting held on Oct. 9, the Northville Chamber of Commerce Board of Directors voted to support the two upcoming Northville Township millage proposals. The first millage is a renewal for Northville Youth Assistance, Parks and Recreation Department, and the seniors program. The second millage is a one time four year millage for Park and Pathway Acquisition and Development.

As stated, the Northville Chamber of Commerce Board of Directors supports both proposals and hopes the community will join us in our support.

Todd Knickerbocker, President Northville Chamber Board of Directors

School board encourages millage approval

The Northville Board of Education would like to express its support for the Shared Services ballot proposal. The school district has and will continue to work closely with those services affected by this proposal: Northville Youth Assistance, the Recreation Department, and the Senior Citizens Center. We believe that these organizations provide invaluable services to the citizens of Northville and enhance the quality of life in our community. We support passage of a millage that will assure their continuation.

Tom Gudritz, President Northville Board of Education

Programs enhance quality of life

I also wholeheartedly support the upcoming Northville Township millage request for Shared Services. The Shared Services programs for recreation, Northville Youth Assistance and seniors are well run assets of our community. They help make our township the desirable place to live that it is.

The recreational programs nurture the physical development and teamwork skills of youngsters and provide an opportunity for adult recreation as well.

The well respected Northville Youth Assistance program not only helps students with special temporary needs but also provides an opportunity for members of the community to volunteer to help in addressing those needs at no cost to the community.

Programs for senior citizens provide substantial benefit to our seniors at a very modest cost.

Such programs help make our community what it is and are a standard feature of many of our neighboring communities.

I would like to see my community maintain its good reputation as a desirable place to live. I encourage other residents to vote yes on the Northville Township Shared Services millage proposal on Nov.

Ronald L. Bodine

Community soccer teams need new fields

To the editor:

I am writing to advise community residents that soccer teams do not need to be forced to practice in the Downs infield. Northville has plenty of open space for sports and recreation, I know because I've used most of it for years.

We have a groomed little practice area on Northville Road in Hines Park, just north of King's Mill. We have the fish hatchery park on Seven Mile Road. We also have a fine little area which is perfect for sport practices right on Seven Mile Road near Northville Downs. I'm referring to the space just west of St. Lawrence Estates on the south side. There is one small problem though, nobody cares enough to mow down the grass and weeds as of recent years. Not only does this force sports teams to seek land borrowing deals, but it also looks terrible.

Parks and recreation are perhaps the greatest attributes we have here, let's clean up and use all of the wonderful space we have, not attempt to pay more taxes to acquire more space that we cannot use. That's how communities end up with prison-side parks. (now there's a fine idea).

High school music boosters thank supporters

The Northville High School Music Boosters would like to thank the entire Northville community for another enormously successful can and bottle drive fundraiser.

Thanks to the army of Northville High School music students, parents and teachers who braved the cold and drizzly weather to collect and sort thousands of returnables. Special recognition goes to Jim Brennan who again directed the fundraiser and to the Six Mile-Haggerty Farmer Jack's and assistant store manager Carla Wilkins who provided outstanding facilities and hospitality for the event.

Are officials greed with taxdollars?

To the editor:

Greedy: wanting excessively to nave or acquire; desiring more than one needs or deserves;

In 1994, the board of trustees decided to ask the voters of this community for a *dedicated millage" to support the shared services: Recreation, seniors, and Youth Assistance.

One of the primary reasons for this request was that we were very uncertain about the future of the revenue sharing that we receive from the state of Michigan (due to some legislation that was under consideration), and we did not feel that the fund balance was adequate enough to make payroll for essential staff or any length of time let alone to support enhancements for the community.

The majority of the board of trustees made a promise to the community that except in the event of an extreme emergency we would not levy the one mill for general operation that we were allowed under state of Michigan

law if the dedicated .40 mill were

to pass.
1998 is a totally different scenario. The fund balance currently stands at \$2.8 million and is expected to grow at a rate of 13 percent. The general fund will also realize a savings in excess of \$170 thousand per year now that the public safety millage has passed.

Their new millage will generate sufficient revenues to support the operations of the most critical departments within the township now and for the foreseeable

The current administration is requesting an additional .18 mill for a total of .58 mills to fund the shared services and has refused to make any concession regarding the 1.0 mil.

I would like to state for the record that I am not opposed to these essential enhancements for our community. My contention is that the board of trustees has sufficient monies to fund the operations of these programs without any additional increase in my taxes.

Gini Britton

There are parks around us

Before you vote on the issue of acquiring more land for township parks, visit Maybury State Park. See what your tax dollars are already

The park must be within a few miles of your home. For \$20 a year (annual pass), you can use its facilities 365 days per year.

Čarol M. Romanik

Other contributors included Hiller's Market, The Northville Record, Pepsi, BFI, and the Northville

Mary Nelson, Cynthia Allen Co-Presidents Northville High School Music Boosters

Thank you all for your wonderful support.

Sakwa development $not\ appropriate$

To the editor:

I thought it would have been painfully clear to all of you that a lot of those of us who live around the Six Mile and Haggerty intersection do not want any more development at that corner.

I personally went to a lot of trouble to make sure Sakwa developments did not get a rubber stamp to change our development plan the last time they wanted to commercially develop the property next and around McDonalds at the southwest corner of

It would seem however, that it's a forgone conclusion that the commission has no intent on sticking to any kind of plan that limits growth after seeing that they are allowing Sakwa developments to come before them again to develop this same property. This meeting is scheduled for Nov. 5 at 7 p.m. at Ward Church, Room 106 and 108, I urge everyone to attend. According to your plan dated Jan. 15, the 1996

average daily traffic count on Haggerty between Five and Six Mile roads was 20,000 per day and on Six Mile west of Haggerty it was 18,500 per day. Now, I'm pretty sure that this count was made before the akwa development, which was part of the Ward Church property, was operational. I'd like to request the Planning Commission perform another such traffic study now that the first Sakwa development is up

I especially feel very strong about this issue when e've already heard from our public safety director that Wayne County has no plans on doing anything to improve Six Mile Road for the next five, if not, ten years. What does the commission expect to happen to the traffic patterns at this intersection, improve?

We in our subdivision have already paid money for a bike path we've been waiting nine some odd years for which, I'd like our money back or, at least the interest which we would have made from it. In light of this, I don't believe the county has our best and timely traffic interests in mind.

I don't want to see Six Mile widened as I'm sure that the moment it is, the floodgates for development will be fully opened and it's enough of a hair raising event to try getting out of our subdivision as it is.

I would like to urge the commission to leave the property at this intersection alone and if developers want to build single family homes there, so be it, but please don't allow them to do anything which will adversely affect an already aggravated traffic situa-

Proposal B: Can we live with this?

Voters need to read the entire 12 pages of fine print that a yes vote on Proposal B would legalize. The brief summary that citizens will read in the voting booth does not explain the full reality of this law. Left out of public sight are the consequences of many loopholes that won't become obvious until the law is put into practice. I don't have the power to change the minds of voters who have already decided where they stand on Proposal B, however, I urge undecided voters to educate themselves before making a mistake. As yourself "Can Michigan live with this?"

Mary Lapetz

Craig Ebel Is 'diversity' getting out of control?

To the editor:

Fifty years ago very little instruction that might help prospective teachers in the classroom was offered in college education courses. Usually, the students sat in circles and "visited" for an hour or two.

I do remember the big question posed by more than one of the education profs: Who will accomplish more in the classroom, the teacher who knows a lot about the subject matter but knows nothing about how to teach, or the teacher who knows nothing about the subject but is very effective in classroom instruction? Every education pretender in my day would insist that the teacher who possessed considerable teaching skills would accomplish greater learning even if he didn't know anything about the subject. I knew we were in trouble and any learning

we teachers needed to be effective would be learned in the classroom on the job.

Some of the courses education majors are required to take to qualify to be classroom teachers include social diversity, embracing diversity, diversity and change, classism, racism, sexism, lesbian/gay/bisexual oppression, and oppression of the disabled. These and other beauties are taught to prepare the seniors for teaching in the classroom.

Neil Goodbred

Our community has plenty to offer other than schools

Our family has been part of the Northville community for 18 years and have enjoyed watching our growth and progression to become one of the most pleasant places to live in the western Detroit suburbs. However, we have not had any family members in the Northville public schools for over three years.

With that in mind, I would like to address the lady who claimed to be a resident complaining to The Record about a month ago. This lady was telling us that Edenderry residents should silence their opinions about the proposed high school and sports areas adjacent to their neighborhood. She went on to indicate that those who would purchase a \$600,000 home must be egomaniaes. She is very practical and lives in a modest \$100,000 condo. The complaint went on to tell us that the only reason she and anyone else would pay the exuberant taxes we have for our region to live here is based only on the superior school system. (Guess what? We're still here and we don't utilize the school system any longer.) Wake up and smell the party going on all around you. Northville has much more to offer than our fine

Students salute high school German teachers

Recently, 17 Northville High School students returned home from the German Department's European trip. In 14 days we visited England, Germany and Austria, with Germany as our main focus. We spent most of our time in Munich and Berlin, but also visited several smaller cities in Germany. It was interesting to actually see some of the sights that we so often see on film and in photographs as a part of our German curriculum.

In Munich and Berlin, many of the German citizens were eager to speak English but in the smaller towns. we had the opportunity to apply our German skills. We all felt a sense of accomplishment conversing in

German and being understood.

Our German teachers at Northville High School have spent countless hours preparing us for this trip. The planning time was obvious as the two weeks went by without any problems. Their time and effort is sincerely appreciated by their students. We really appreciate you Frau Judith Kammeraad and Frau

Public policy is being sold to highest bidder

Several weeks ago the House passed the Shays (R)/Meehan (D) Bill that would correct some of the shortcomings of our present campaign financing laws. An overwhelming majority of Democrats were joined by a handful of Republicans to pass the bill.

In the Senate, the Republican Majority Leader maneuvered the rules of the Senate in such a way that the McCain (R)/Feingold (D) Bill was not able to get a fair hearing.

Tom Teepen (Cox News Service), writes "While the

nation voyeuristically drools over the Clinton-Lewinsky scandal. Senate Republicans finally sidetracked the campaign financing reform bill. They used the noisy release of the Starr report to cover the crime. Columnist Molly Ivans (Forth Worth Star-Telegram), writes that the financing of elections has

become "legalized bribery, that corporate, and labor unions' money purchases our political sys-Robert Reno (Newsday) reported that the Center for Public Integrity has released an exhaustive study of congressional fund raising patterns. It's called "The

Buying of Congress" and concludes that "Congress increasingly is in danger of becoming an auction house where public policies are sold to the highest

On the northern end of the site. Hoin said free product was discovered on the ground and appeared to be hitching a ride on the underground water flows. Much like gasoline on a puddle, oil products also float on water when the matenals are subterranean.

A small amount of those products have reached Ford Pond, despite a barrier placed at the point where the PCBs appear to enter the water.

"It's not uncommon for hydraulic oils of this type to have PCBs." Hoin said. "PCBs were used as fire retardants in older petroleum products, but they aren't anymore."

Regardless of which cleanup effort is employed at the Ely Fuel site. Hoin said the response from the DEQ "would be substantial."

We're going to look for some innovative method of getting this taken care of," Hoin said. "We want to do something beyond the run-of-the-mill solution we've done in the past."

Some of the suggestions have included heating the ground to help dissipate the product or digging up the contaminated soil. Exactly which option or options are ultimately pursued remains to be seen, according to Hoin.

The report was largely filled with statistics and data compiled spanning several years of analysis and study. In the end, a few key discoveries were made and recommendations provided, including:

· Narrowing down the main areas of contamination to a north and south plume, and suggesting two additional monitoring wells should be set up in each location to further study the flow;

· Advising the taking of six soil

Northville's city well, a long-time landmark may be threatened by PCB contaminants spreading underground.

to determine if contaminant releases contain PCBs.

• Learning the capture trench set up to trap the chemicals from leaking into the Mill Pond wasn't doing the job as well as it should. The pad used in the skimmer, however, was deemed to be too thin to absorb the density of the material and may be saturated with product.

Hoin stated the suggestions outborings throughout the overall site lined in the report may not be exe-take some time."

cuted, as the consulting firm responsible for compiling the information tended to have "very conservative approaches" to gathering

"Just because it's in the recommendations portion doesn't mean we're going to do this." Hoin said. We may just go straight to a remedy, but that in and of itself could

Northville Chamber names Frellick Citizen of the Year

Continued from 1

brought the National Amateur Baseball Federation Junior Division World Series to Northville for the last 16 years.

Through America's favonte pastime, Frellick, 66, has done more than taught hundreds of youths how to field a grounder or swing a bat.

"He teaches people the important things about life that baseball teaches; honesty, sportsmanship, competition, the ability to fail and succeed," Jerome said. "Winning was important but it was never the most important to Bob."

After playing the sport in school, Frellick's started coaching when his eldest son Steve became interested in the game at age nine.

The Frellick family had recently moved to Northville, and soon found there were few opportunities for children to play baseball in town.

For a year, Frellick drove his son to play in Novi, until he took a swing at starting Northville Junior Basebali in 1973.

Northville's participation in the oldest and second largest youth

league in America has since grown to include 1.400 players between 4 and 18 years old.

In addition to working in management at Ford Motor Company, Frellick served as a national director of the NABF for more than 20 years, acting as president in 1991-92 and honored as NABF's Man of the Year in 1986.

For the last 16 years, he has brought top players from the United States and Canada to Northylle for the World Series.

As the host, Northville's junior baseball team automatically qualifies to compete in the tournament, giving locals a chance to face off against some of the best ball players in the country.

Twice, the Northville Broncos have placed in the top three.

Next year, Frellick plans to retire to Asheville, North Carolina, but Frellick said he plans to return to Northville for the World Series each July, and will continue to serve on the NABF's board of directors.

But for all his dedication, Frellick said receiving the award was humbling. He didn't devote hours of life to the sport for recognition, but as a way to spend time with his family and make an impact on other kids, he said.

Frellick's children Steve, 33, Lynn, 30, Bryan, 27, and Dean, 23, have played ball, coached and acted as umpires under his mentorship.

His wife Charlene has also been involved in organizing and scoring games, earning the NABF's Woman of the Year honor in 1994.

In North Carolina, Frellick said he will continue to promote the sport as he helps his son Dean open a baseball complex.

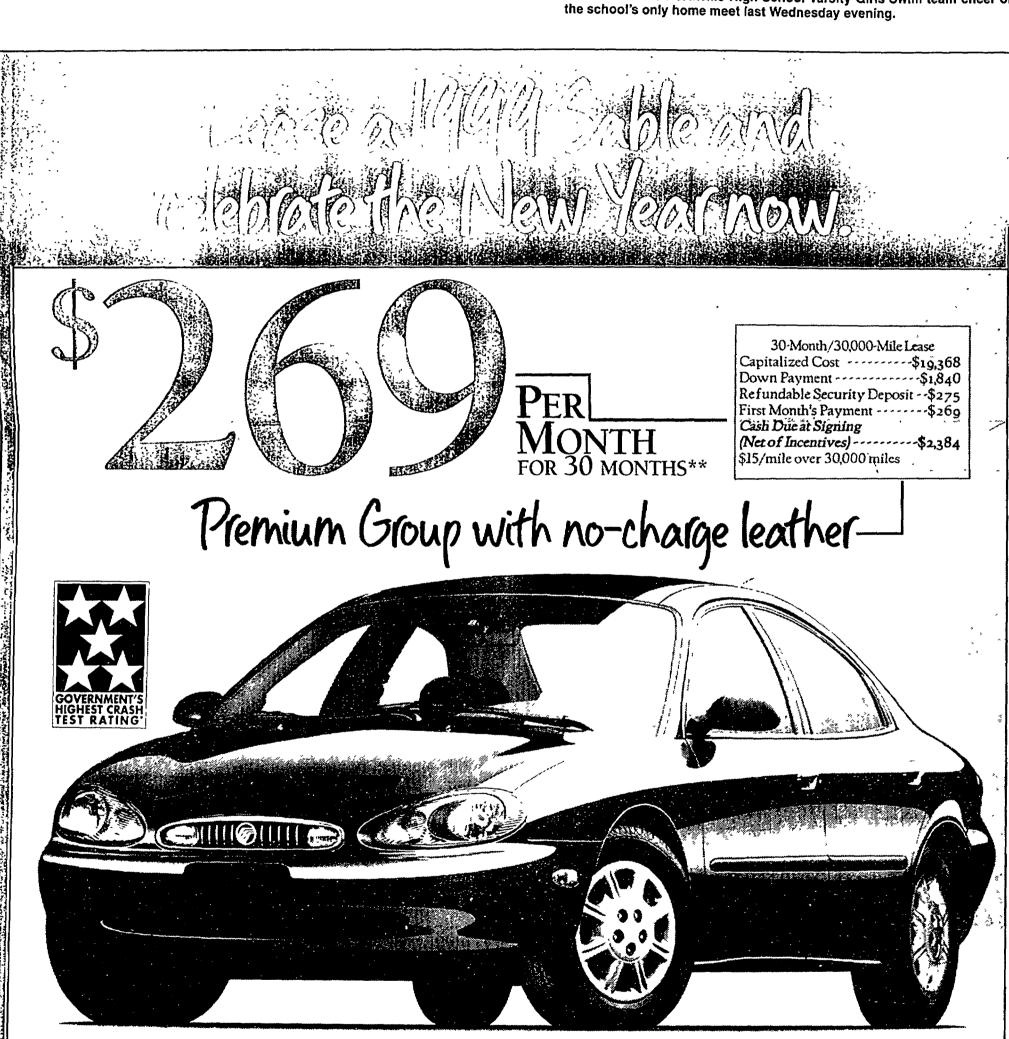

"The field's a classroom and I think most coaches would agree with that. I've always used it as a tool to teach kids what to expect in life and how to react to different situations," Frelick said. "Whether your on the field or in business you're going to have winning and losing situations and you're going to have to deal with them."

Seniors live it up with trips across the land

By CAROL DIPPLE

ou've probably seen them on the highway and wondered where they're off to or returning from. They're lined up outside restaurants,

malls and theaters.
It's the tour bus. These popular trips through area senior centers fill up fast. Kathy Crawford, director at the Novi Senior Center, scheduled 29 extended and 46 day trips in 1997.

There's usually a bus coming or going pretty much all the time," she said. "You could go on a trip from now until doomsday and not see everything.

Anybody is welcome to take advantage of Novi's travel program, it is not just for eniors, except the Mackinac Island which is for those 55 and older.

*Every age imaginable is traveling these day." Crawford said. "It is a painless way

Crawford's philosophy on the travel program has changed since she first started the senior program in Novi 16 years ago. Now instead of getting a few trips completely booked and having everyone go together, she offers a variety of destinations at a range of prices to attract a wider audience of travelers.

Travel is an important component to a senior program," she said. "I just keep offering as many different opportunities for people as possible."

Traveling with a group has advantages.

The Detroit River day trips are popular in the summer and fall and include a narrated cruise along the river with a stop for dinner at various restaurants.

The group can get better prices, offer doorto-door services, arrange connections and take care of luggage. On theater trips, they can include behind-the-scenes tours which would not be available to individual

A Detroit Symphony Orchestra day trip. for example, is a good bargain.

"Tickets alone are \$29." said Karl Peters. coordinator for Northville Parks and Recreation Senior Center. "We can take the senior bus and with the ticket it's only \$26.50 because we get the group dis-

Volunteer

Barbara Whell will be volunteering with Light Up a Life.

Whell is lending a hand at benefit

By CAROL DIPPLE Feature Editor

One can find Barbara Whell pitching in where ever needed at Angela Hospice in Livonia, including the upcoming "Light Up a Life"

"It seems like it starts when the last one ends." Whell said of preparations for the upcoming benefit which raised \$90,000 last year.

Whell has attended several meetings throughout the year and has been busy getting ads for the program book.

But, Whell said, anything that comes up. all of us try to do it." Angela Hospice's 11th annual

Light Up a Life fund raiser is scheduled for Sunday, Nov. 8, at Jacobson's in Laurel Park Place in Livonia.

"I feel so pleased to be part of something like that," Whell said.

The evening's festivities include a performance by Karen Newman, the "Star-Spangled Singer" of the Detroit Red Wings; WXYZ's Cheryl Chodun, Carolyn Clifford, Mary Conway, Mike Holfield, and Joanne Purtan: WDIV's Paul Gross and Lila Lazarus; and WYUR radio's Jimmy Launce.

"I've done all the things I thought I would be doing and a few more."

Volunteer

-Barbara WheI

A raffle, live and silent auctions, hospice care just prior to his death fine cuisine, raftle prizes including a trip for two to Las Vegas, a \$500 Jacobson's gift certificate and a Princess Di Beanie Baby are also highlights of the benefit which runs from 6:30 to 9 p.m.

Tickets are \$40. Special \$75 tickets are also available for a VIP champagne reception beginning at 5:30 p.m.

Whell's involvement with Angela Hospice began about five years

"Some people concentrate on one area," said Whell. "I'm still trying

to find mine. Whell is helping facilitate train-

ing classes, the same one she attended herself five years ago. *Like so many of the volunteers that go through the training, you get acquainted with it through per-

sonal experience," said Whell,

whose husband Gerald had home

m 1992. "Once you get involved with

something like that you want to give something back," said Whell who is retired from Michigan National Bank where she had worked for 16 years.

Whell also helps with grief support which has four sessions a month.

"The groups seem to get bigger and bigger all the time," she said. A couple of months ago Angela Hospice began a weekly high tea

for patients, families and guests. You can really get frilly when you do high tea, said Whell, but we make it casual. It gets them, for a little while, away from the reason

they are there." Whell is also on the speakers bureau for Angela Hospice and gives talks about hospice care to organizations, clubs, etc.

"It's funny because I always had a problem standing in front of groups speaking," said Whell. When I'm talking about hospice. you turn me on and you can't get me to stop.

Whell will also visit with patients and talk to their families.

My theory is I walk in the door and whatever needs to be done, filing, dishes, whatever, I'd do it," she said. "I've done all the things I thought I would be doing and a few

Whell, who moved to Northville in 1995, has a son Michael who lives with his wife Laurie in Livonia. Her eldest son, Chris, who was always healthy and a racquetball fanatic, died suddenly 14 years ago of a rare form of spinal

meningitis at the age of 23. "That was quite a blow," she said. "He wasn't sickly."

For more information about volunteering at Angela Hospice, call the Volunteer Manager. Donna

Kolodsick, at (734) 953-6049. Tickets for Light Up a Life may be purchased by calling (734) 464-7810 or in person at the Angela Hospice Care Center, 14100 Newburgh Road in Livonia.

Parks and Rec looking to New Year's celebration

Carol **Dipple**

Even though Halloween is only a week away, it's not too soon to think about where to celebrate the

The Northville Parks and Recreation Department will again be co-sponsoring the second annual family New Year's Eve event called "Northville Nite" which will be held at the Northville High School from 5 to 9 p m.

Over 400 people attended last year's event.

Tickets for this family event go on sale Nov. 1 at the Recreation Department and are \$10 for adults and \$8 for children under age 12.

There will be magicians, clowns. carnival games, live music, slot cars and mimature golf. This year's featured performers include Michael Jacobson's World of Magic who presents a family-type show using Vegas-style grand illusions and audience participation. Also performing will be Northville's own rock group "Baked Potato" as well as "Stronghold" who will play oldies but goodies.

There are many sponsorship opportunities for civic groups. businesses, and individuals to participate in. Current sponsors include Northville Youth/Family Forum, Northville Youth Assistance, and Oak Pointe

Owen, The Singles Coach, on Oct. 24 from 8:30 a m to 5:30 p.m The
cost \$49. For more information or to register, call (248) 349-0911.

Former CEO addresses Woman's Club

By CAROL DIPPLE Feature Editor

The guest speaker speaker at the Northville Woman's Club 106th opening luncheon was Northville resident and former DTE Energy Company chairman and CEO John E. Lobbia.

Lobbia began his talk on "The Power of Choice" by explaining electricity.

"Imagine a product that is so fundamental to our health and our well being yet so few of us know what it is." Lobbia said.

Detroit Edison conducted a survey of many of their customers a few years ago and discovered that 60 percent indicated that they thought electricity came from drilling in the ground, according to Lobbia. Electricity is manufactured in large power plants using a variety of fossil fuels.

Although it was developed with state and federal regulations, it is now being deregulated.

"The biggest pressure comes because of competition between states for economic development," he said. The push to deregulate started in California.

"A large part of it was because California's energy crisis had gone through the roof as a combination of their environmental regulations and their state regulations and they were loosing a lot of businesses and when you loose businesses you eventually loose people because they go where businesses

Deregulation provides consumers the opportunity to choose their electric supplier.

"It is simple enough in concept, but it won't be simple and it's not going to be easily understood," Lobbia said.

When a customer chooses an electricity supplier, the electricity is delivered over existing lines into the home.

One part of Detroit Edison, the part that builds and maintains all the lines in the area will remain a regulated company and will be required to provide equal access to any sellers of power, according to Lobbia.

"So whoever you buy from will have access to those lines and bring it to your home," he said. "I guess it's a lot like choosing a long distance provider and and using the existing lines that are there and having that come to your house."

In just six years. California now has 300 licensed electricity sellers, according to Lobbia.

Photo by JOHN HEIDER

Northville Woman's Club President Lonna Lemmon welcomes former Detroit Edison executive John Lobbia to their 106th opening meeting at the Meadowbrook Country Club.

"If you think you get a lot of telemarketing calls from 15 telephone suppliers, wait until you see 300 electricity sellers," he said.

Of the 10 million customers in California, in the first couple of months only 100,000 small homeowners chose to switch, according to Lobbia.

"It seems the customers are being very cautious about switching until much more is known," he said. "I urge all of you to be cautious unless you're very adventurous. Taking a little time to let this play out probably makes sense."

The reason customers switch electricity suppliers is to save money. New suppliers are going to be very inventive.

"You'll be able to buy things such as environmentally-sensitive electricity, called green power, advertised as being made from non- or minimally-polluting fuels," he said. "Electricity travels where physics tell it to travel, not where you sign it up for, it follows the path of least resistance, so you may buy it but I'm not sure it's coming to your house that way."

Another new thing is "aggregators." companies or organizations, churches, chambers of commerce, subdivisions, communities, affinity groups, that would group together hundreds or thousands of small customers, homeowners, and act as the buying agent, according to Lobbia.

"You can see you have a lot of opportunity to pick a potential aggregator," he said. "There are actually people out now signing up people in Michigan."

Aggregators will use the leverage of greater size and expertise to get a better price.

"I urge you not to sign away your rights to a future choice to quickly." he said. "Be sure you know who that aggregator is, if it is somebody you're associated with and feel very comfortable about that's fine. If you don't, you'll have plenty of time to exercise that choice. I don't think you really have to do it immediately."

We're also liable to see change over time in the way electricity is priced and used, according to lobbia Electricity cannot be stored, instead, a power plant some where increases production the instant it is wanted

"It doesn't come out of an inventory," Lobbia said. "It is in real time and it is at the speed of light because that is the speed at which electricity travels."

This type of service has always been taken for granted in the past.

"One of the changes we'll see, is when we want that premium kind of service, instant service, anytime we want it when we flip that switch, we'll start to pay a premium for it." he said.

A deregulated market will make the electric systems in the country even better, according to Lobbia.

"I really do believe that after some shake-out period, three or four years, a new system will bring many options to customers and it will be a better system," he said.

Lobbia and his wife Bobbie have been residents of Northville since 1975. Their three children are now all married and live within three miles of them.

State-of-the-heart is St. Mary Hospital's unique combination of modern medical technology and the attentive personal care you've come to expect from us.

Our Miracle of Life Maternity Center's labor, delivery, recovery, and postpartum rooms, or LDRPs, are fully equipped to help you have a safe delivery. Afterward, the room changes to a homelike bedroom. You rest and recover in the same comfortable, cozy room. And our LDRPs are private, so your loved ones can even stay overnight.

Miracle of Life education programs help you prepare for your infant's needs. And, of course, 24-hour neonatology coverage is available for your peace of mind. At St. Mary Hospital, you'll get what you need most to prepare you for life with your new baby — care and rest.

Halloween Happenings

Throughout October Halloween Happenings will appear weekly to inform readers of activities in and around town.

HALLOWEEN FESTIVAL: The Novi Police Officer's Association is sponsoring a "Halloween Festival" at the Novi Civic Center on Saturday, Oct. 24, from 11 a.m. to

The cost is \$3 per child ages 12 and under. There will be free pumpkins for decorating for those in costume while pumpkins last. Carnival games are 25 cents per game. There will be face painting and a candy scramble, as well as candy and refreshments for all.

The Novi Civic Center is located at 45175 W. Ten Mile Road in Novi. For details, call (248) 347-0400

HALLOWEEN PARTY: A safe alternative to trick or treating is being offered at the 14th annual Halloween for Kids Party at Western High School on Saturday. Oct. 31, from 6 to 8:30 p.m. The party is free to all Walled Lake School residents and is open to all preschool through fifth graders. Children must be accompanied by an adult.

Costume parades start in the cafeteria at 6:30 p.m. for preschoolers and every 15 minutes thereafter for each ascending grade level. If you are unable to attend at your grade level's slot, you can join in with another grade level. On the other side of the cafeteria refreshments will be served.

In the gym, middle school and high school student volunteers will help with the 50 games that will be set up. There will be candy prizes for all. Volunteers are still needed.

Sponsors of the party include the Walled Lake Schools, Commerce Township and Walled Lake Parks and Recreation, Walled Lake PTSAs and PTSA Council, the Village of Wolverine Lake, the City of Wixom, Lakes Area Youth Assistance and the Fraternal Order of Police 128.

Walled Lake Western High School is located at 600 Beck Road between Pontiac Trail and Maple. Due to construction please use the north side doors only.

To volunteer or for more information, call Theresa Morris at (810) 624-8454.

PUMPKIN PATCH PARTY: Children ages three to nine are invited to enjoy decorating pumpkins and various fall activities at a Pumpkin Patch Party on Saturday, Oct. 24, at Christ Our Savior Lutheran Church, 46001 Warren Road just west of Canton Center Road in Canton, from 10 a.m. to

Children in costumes are eligible for prizes. No occult themes, please. Parents must accompany children.

To register, call (734) 522-6830.

COSTUME BALL: LaBOOM teen nightclub will host a Halloween Costume Ball on Saturday, Oct.

Doors open at 8 p.m. Teens ages 15 to 19 are welcome.

A DJ will be playing music all evening. There will be a costume contest for best, scariest, etc., and a mummy wrap contest. Prizes include a waterbed and cash, and the first 50 people with a costume will receive tickets to the Terror Town haunted house.

LaBOOM is located at 1172 N. Pontiae Trail in Walled Lake.

For details, call the hotline at (248) 926-1000.

COUNTRY DANCE: The Novi Parks and Recreation Department and Jean Rowe of Steppin' Time will sponsor a Halloween Country Dance on Saturday, Oct. 31, from 7 to 11:30 p.m. at the Novi Civic Center, 45175 West Ten Mile Road in Novi.

Singles and couples are welcome to either come in costume or as you are. There will be a lesson at 7:30 p.m.

Admission is \$8, \$7 for seniors 55 and over, and \$7 for Novi resi-

dents. Non-alcoholic beverages and munches will be available for sale.

No beverage carry-ins allowed. For details, call (248) 348-9116.

If you have a Halloween event which you would like to see listed here, call Carol Dipple at 349-1700.

Seniors trips vary from one day jaunts to two-week tours

Continued from 1

to everyone," she said.

Before choosing a company, she interviews them to determine how sensitive they are to an older population. She is also selective about the hotels.

"A lot of people when they retire like to see something," said Crawford. "Regardless of a person's income, they will save their money for that one trip they've always thought about.

Some people think she's real lucky to go on all these tours but Crawford said it's hard work

"It's like taking a bowling ban-

quet everywhere you go," she said. You can't just drop into places."

Interest in destinations changes with the seasons. While some people want to see holiday lights others want to get out of the cold weather.

"Each community has its own personality as to what it likes to do," Crawford said.

Theater trips have been real popular in the Novi area and Crawford books trips to Toronto, the Fox Theatre and Detroit Symphony Orchestra.

"Windsor is pretty fascinating to people. They like to make a quick

trip over there," she said. But for the majority of people

who travel with Novi's senior center, day trips to casinos are more popular than extended trips to Las Vegas, according to Crawford.

Bus trips have changed over the vears and Crawford said people need to keep an open mind about

*Once we get people on one of our trips, we got them hooked." she said.

"It is a little different than going on your own." she said. "It is as much like your own personal vacation as we can make it but we may not be able to stop at garage sales on the way."

On some of the bigger trips Crawford offers departure meetings with speakers on packing or luggage, and videos.

Northville offered about 75 day and extended trips with their own bus and with travel companies from New England to Hawaii as well as closer to home last year.

according to Peters. The Northville Senior Center usually travels with the group from Plymouth, including frequent trips to a Windsor casino for \$20 which includes a roll of quarters and a meal ticket.

That is a popular trip. It is inexpensive." Peters said. "A lot go just to get away for the afternoon. A lot like to gamble too.

The Gem Theatre fills up early.

according to Peters.

Even before they moved it, it was our most popular trip," he

Participation in Northville trips is usually by seniors, but if a nonsenior goes, they are usually a child, grandchild or friend. although there is no age or residency requirement.

Peters is offering a lot more cultural trips to the Detroit Opera House, The Fisher Theatre and The

We try to encourage people to sign up early," said Peters who has occasionally, upon canceling a trip because of limited reservations. received numerous phone calls from interested seniors.

Peters is open to suggestions from seniors for ideas.

World events sometimes sparks an interest in trips, according to

When something happens in the world, people tend to want to go there, like for instance Peggy's Cove in Nova Scotia," he said.

To reach the Novi Senior Center. call (248) 347-0400. The Northville Senior Center, located at 215 W. Cady Street, can be reached at (248) 349-4140.

Children to present classic fairy tale

Novi Theatre's little people players will perform the classic tale of Sleeping Beauty on Oct. 23 and 24 at 7:30 p m. and on Oct. 25 at 3 p.m. at the Novi Civic Center

This comical adaptation written and directed by Mary Kay Davis includes the whimsical witch. Evilina, a group of frogs trying to break into show business, three "stooge-like" kitchen aides, a nerd queen and her son, Prince Rupert. who has been selected to wed Princess Beauty on her 16th birth-

The play begins with the Royal Court's celebration of the birth of Princess Beauty, Evilina, who was left off the guest list because there are not enough silver plates, crashes the party commenting happiness is a curse when it blinds you to the feelings of others." She then casts a spell on Beauty to prick her finger on a spinning wheel on her 16th birthday and die. However, the rainbow witches are able to alter the spell by making Princess Beauty and her entire court sleep for 100 years only to be awakened by a kiss from a true love.

The Novi Theatres, which is in its eighth season, consists of three performing groups. Performance Plus. Children's Annex and little people players. The founder and artistic director, Linda Wickert, has developed this program as an educational theatre where the backstage production is run by trained Performance Plus actors. All aspects of theatre from acting and stage managing to lighting and running sound are woven into this hands-on experience. The goals of the program are not only to pro-

Jazz series begins at Hilton

The Hilton in Novi kicks off a and congas. new jazz series of concerts on Friday, Oct. 30, at 8:30 p.m. with national jazz saxophonist Kim

Waters currently has nine CDs. with his latest. Love's Melody at No. 1 on the Jazz Chart Billboard.

"Love's Melody" is a collection of compositions that showcases Waters' trademark saxophone voice in a variety of settings such as the ballad "Easygoing" where the sax is accompanied by acoustic guitar

Waters, who composed the selections on his eight previous CDs, has included an interpretation of Maria Muldaur's "Midnight at the Oasis" on his newest CD.

The maryland-born arus been performing most of his life. Born into a musical family, he picked up his first instrument, the violin, at the age of eight. Shortly afterwards he switched to saxophone, and at the age of 13 he began playing in a band with his

brothers James and Eric and his friend, pianist Cyrus Chestnut, who went on to be a well-respected artist in his own right.

Waters has performed with a Bugnon, Isaac Hayes, Phyllis Hyman. Teddy Riley and Guy and the newcomer vocal group 4 P.M.

The Hilton Novi is located at 21111 Haggerty Road in Novi.

For details or to make a reservation, call (248) 349-4000

RECORD MOVIES

Born to Run

Track legend Steve Prefontaine is remembered in 'Without Limits'

fontaine race, who knew him, who competed against him, called him Pre as a sign of respect.

He revolutionized his sport with his competitive ferocity and rock star's ability to ignite the crowd. During his lifetime, he was

undefeated at his distance and held all seven American records between 2,000 and 10,000 meters. He ran one of the more memo-

rable races at the Munich Olympics and was strongly favored to win at the Montreal Games in 1976, but never got the chance. In 1975 Steve Prefontaine was

killed in a car accident. He was 24 and had just been recognized as the most popular track athlete in the world.

Blunt, cocky and charismatic, his incessant willingness to push himself to the ultimate limit earned him the enduring respect and affection of runner and sports enthusiasts around the world.

Academy Award-winning filmmaker Robert Towne directs Billy Crudup and Donald Sutherland in "Without Limits," a film about the late Oregon running legend Steve Prefontaine and his coach, Bill Bowerman.

Bowerman helped create a generation of world-class runners at the University of Oregon and went on to coach at the Olympics.

An enigmatic, commanding man, revered by his team and respected the world over for his training accomplishments, he became Pre's close friend and

The film is written by Towne and Kenny Moore, one of Pre's closest friends and a world-class runner and critically lauded writer for "Sports Illustrated" and other pub-

The production obtained Bill

Bowerman's full cooperation in making the movie, and Bowerman, who designed and built the first Nike shoe, advised the filmmakers on the details of the running subculture and of Presontaine's life.

"I had heard about Billy's stage work, which had already earned him a lot of attention," says Towne of his casting of Billy Crudup. "I had arranged to meet him at my hotel. Looking around the crowded lobby. I spotted Billy sitting in a high-backed chair against the wall, watching me. He gave me a look and I knew he was Pre. It was one of the most instantaneous moments in my life."

The part of Bill Bowerman required another actor with a larger-than-life presence, because Bowerman's own history is a mem-

'(Sutherland) is not immediately Bill Bowerman, who intimidated us with how unreadable he was...One never knew until the last second what was going to happen," said Moore.

What Sutherland has done," explained Towne, "is to take the Bowerman essence and run it through the Sutherland machin-

Says Towne, "We wanted to cap-ture the familiarity of athletes who have run against one another so often that they can actually tell who's near them by the sound of the way they breathe. Or having the single footstep, the quickness of it, so that you get to know principal opponents.

"As a front-runner, Pre always had one ear cocked, so sound is particularly important because he couldn't s ee who was behind him. We wanted to take advantage of that, so we used sound as character. Each footstep connected to a runner would be distinct."

Steve Prefontaine (Billy Crudup) acknowledges the cheers of the crowd in "Without Limits," also starring Donald Sutherland.

RECORD **SPORTS**

Kerry Woolfall (shown above) won her first match, but fell to the No. 1 seed from Okemos.

Serves up

By JASON SCHMITT

In tennis, more so than any other undividual-team sport, the player may be vulnerable to the tournament draw.

And that was the case for Northville last Friday and Saturday at the state finals in Midland. The Mustangs, who finished fourth a year ago, found themsches in 10th place with nine points at the end of the two-day tournament held at the Midland Community Tennis Center. Okemos won the Division II state title with 25 points. easily outdistancing Grand Rapids Forest Hills Northern (18) and East Lansing (17). Birmingham Marian and Seaholm (15) were fourth. Portage Northern (14) sixth, Grand Rapids Forest Hills Central (12) seventh and Holly and Kalamazoo Loy Norrix (11)

Northville received just three seeds. Marta Walasek at fourth singles, Kara Anderson-Julie Glock at first doubles and Christina Chase and Nicole Lindholm at third doubles.

Walasek and Anderson-Glock made it all the way to the semifinals before

The first doubles team received a bye in the first round before defeating Portage Northern in the second round 6-1. 6-2. In the quarterfinals, Anderson-Glock defeated Megen Bensinger and Anne Campbell of Midland 6-4. 6-0.

The duo then lost a tough match to the co-second seeded team from Manan 6-7 (3), 5-7.

The match was played indoors because of the rain that morning," coach Uta Filkin said. Neither team was used to playing indoors, and it was a tight match. They came to the net a little more than we did and were a touch steadier than us."

Walasek, the third seed, ran across some bumps in her road to the semilinals. The freshman received a bye and 'crushed her Taylor Kennedy opponent 6-0. 6-1 in the second round. Holly's Danielle Duke frustrated Walasek in the first set of their quarterfinal match. but she came back to earn a 5-7, 6-0. 6-1 win and a trip to Saturday's semis.

There she ran into a more experienced and higher skilled opponent from Portage Northern and lost 6-7 (4). 1-6. Portage Northern went on to win the state championship.

Marta had lost to the girl (Ashlev Smith) in the Holly tourney," Filkin said. She kind of panicked and was visibly upset with herself. She just hasn't had as much match experience as the rest of the team, but next year she should be stronger.

Chase and Lindholm earned the second seed, but failed to live up to it. The duo received a bye in the first round and then lost to Becky Hillegonds and Stacey Carter of Forest Hills Northern 6-1. 6-7 (3), 6-7 (5) in the second. The loss left the team without a point. The unseeded Northern tandem went on to lose in the finals.

At second doubles, Angela Trapnell and Kristin Potchynok had the same fate. They had a bye and then lost to Forest Hills Northern 2-6, 4-6 in the second round as well. That opponent lost in the semifinals.

At first and second singles, Kerry Woolfall and Jessie Mills had the toughest draws of any Northville flight. Woolfall defeated Taylor Kennedy's Jessie Cline 7-5, 6-1 in the first round, but ran into the number one seed in the second. Okemos' Dora Vastag was too much for Woolfall in a 6-0, 6-2 win. Vastag had little trouble in winning the state title.

Mills received a bye in the first round and beat Jade Harris of Dearborn 6-3. 7-5 in the second round. Karli Schneider of Okemos came calling in the quarterfinals, and took Mills out of the tournament 6-1, 6-0.

At third singles, Lauren West received a bye, but drew the fourth seed from Seaholm in the second round. West lost the match 6-3, 6-0 to Sarah Moreas, the eventual state run-

Last year Northville received more favorable draws and finished with 17 points, good for fourth place.

This year we kind of self destructed." Filkin said. "Last year we were lucky. This year we weren't.

"People look at division II and think division I is better, but that's not necessanly true.

For Anderson, Glock, Chase and Potchynok, the tournament was the seniors last at Northville.

STATE TENNIS **CHAMPIONSHIP**

1S) Kerry Woolfall-Beat Taylor Kennedy and lost to Okemos in second round.

2S) Jessie Mills-Had a bye then beat Dearborn. Lost to Okemos in quarters.

3S) Lauren West-Had a bye. then lost to Seaholm in the second round.

4S) Marta Walasek-Had a bye then beat Taylor Kennedy and Holly before losing to Portage Northern in semis.

1D) Kara Anderson/Julie Glock-Had a bye then beat Portage Northern and Midland. Lost to Marian in

2D) Angela Trapnell/Kristin Potchýnok-Had a bye then lost to Forest Hills Northern in second round.

3D) Christina Chase/Nicole Lindholm Had a bye then lost to Forest Hills Northern in second round.

Mustangs drop pair of WLAA games, but top Novi

By JASON SCHMITT

Northville salvaged what could have been a disastrous week with a 51-49 win over Novi last Saturday in girls basketball action.

After falling in consecutive conference matchups with Salem and Harrison, the Mustangs held off a second-half rally by Novi and improved to 8-5 overall this season.

Northville built a 25-20 halftime lead only to see the Wildeats tie the game after three quarters. The team overcame 16 points and three 3-pointers by Novi's Jessica Gilbert.

"When we got into foul trouble, we went to a 2-3 zone," Northville coach Pete Wright said. "That's when Gilbert had some good looks at the basket

With Janel and Meredith Hasse hampered with

foul trouble throughout the entire game, point guard Mustangs couldn't overcome their 30 turnovers and Rocks and lost its first conference game of the year. Emily Carbott stepped it up and led the team with 17 points and six assists. She hit 3 of 5 three point- Harrison's full-court trap and aggressive defense game. Junior forward Tiffany Grubaugh led the ers and also had three steals.

They pressed her full court, but she got through it and either delivered the pass or scored for us. Wright said. "She looked really good shooting the

Kate Hammond had 10 points and pulled down six boards with extended playing time. Meredith Hasse had a team-high 11 rebounds and six blocked shots. She also did a nice job defending Novi's top scorer Kelly Bendernagel. The Novi junior had a season-low

HARRISON 41, N'VILLE 37

Despite rallying to make it a game at the half, the Hasse, the Mustangs gradually lost ground on the

forced the turnovers, and made scoring difficult for Northville.

The biggest problem was that we were chasing them down all the way," Wright said. "We never got back to where we were ahead.

Janel Hasse had a team-high 11 points and sister Meredith had seven rebounds. The team only managed to get off 29 shots in the game.

I think a little bit of our inexperience showed up in this game," the coach said.

SALEM 50, N'VILLE 38

Despite 19 points and six boards from Janel

team with 29 points and hit 9 of 10 from the free throw line.

'She's probably the best player in our league, but she hadn't been playing all that well the last two weeks," Wright said. "She can post you up or go out and shoot the three. She was the difference in the game.

Carbott added eight points for Northville.

The Mustangs (5-2, 8-5) dropped to fourth overall in the conference after the losses. Harrison, Salem and Canton all have one loss.

Northville faced North Farmington on the road Tuesday (after The Northville Records' deadline) and face Churchill away tonight.

Seniors night draws a crowd

By JASON SCHMITT Sports Editor

A standing-room only crowd packed Northville High School last Thursday and saw the Mustangs top Walled Lake 60-42 in a closer swim meet than the score would indicate.

The final score looks big, but when you look at the individual races, it was a lot closer," coach Bill Dicks said. "Our girls showed a lot of character that night. When it came down to the last lap of a race, they didn't give in."

The 50 freestyle was one of those races. Junior Stephanie Sabo won the race in a time of 25.84 seconds, just ahead of her Walled Lake opponent (.25.89). Kathryn Ohlgren was third (:26.30). In the 500 freestyle, Monica Black finished first in

5:46 and teammate Ali Stewart was runnerup in 5 54.42. Walled Lake took third in 5:54.73. The story was the same in the 100 freestyle. Sabo won the race in :56.16, edging out Walled Lake

(56 50). Senior Leah Voytal was third in :59.48, just ahead of Walled Lake's next swimmer (:59.73). Voytal, Deirdre Schwiring, Jessica Hrivnak and

Sabo took first in the 200 medley relay and Heather Rudy, Erica Mohaesi, Erin Schoenheide and Ohlgren

Schwiring also won another event. She was first in the 100 breaststroke and finished second in the individual medley. Mohacsi was second in the breast and Voytal was third in the medley.

Hrivnak also won the 100 butterfly, edging out teammate Lara Lea Roney. Jackie Salliote and Rudy were second and fourth in the 100 backstroke and Black was runnerup in the 200 freestyle.

In the diving competition. Tracey Crawford and Lindsay Dehne were third and fourth.

The 400 freestyle relay team of Hrivnak, Ohlgren, Greenlee and Nurmi were second and Salliote, Michelle Tomes, Black and Michelle Longeway were

Rounding out the team victory was the winning 200 relay team of Sabo, Allison Greenlee, Hrivnak and Ohlgren. Voytal. Tomes. Longeway and Nurmi were third in the same event.

The meet was Northville's only home contest of the year and it was also senior's night. The team began the night by honoring the late Kristen Warnke and ended with Northville's four departing seniors (Megan Golani, Voytal, Brianna Jones and Black) recalling their fondest memories as Mustangs.

"The girls were really up for the meet." the coach said. "They were really excited as members of the football team, the administration and teachers cheered them on. If you got to the meet at starting time, you had to stand.

The Mustangs visited Novi Tuesday (after The Northville Records' deadline) and travel to Harrison tonight to take on the Hawks.

Photo by JOHN HEIDER

Teammates Lara Lea Roney and Megan Golanni display the caps with Kristen Warnke's initials.

Last Thursday the Northville swim team put on a show for the standing-room crowd at Northville High School, defeating the Walled Lake combined team 60-42.

RECORD **SPORTS**

Photo by JOHN HEIDER

Kerry Woolfall (shown above) won her first match, but fell to the No. 1 seed from Okemos.

Serves up

By JASON SCHMITT

In tennis, more so than any other individual-team sport, the player may be vulnerable to the tournament draw.

And that was the case for Northville last Friday and Saturday at the state finals in Midland. The Mustangs, who finished fourth a year ago, found themwhes in 10th place with nine points at the end of the two-day tournament held at the Midland Community Tennis Center. Okemos won the Division II state title with 25 points, easily outdistancing Grand Rapids Forest Hills Northern (18) and East Lansing (17). Birmingham Marian and Scaholm (15) were fourth. Portage Northern (14) sixth, Grand Rapids Forest Hills Central (12) seventh and Holly and Kalamazoo Loy Norrix (11)

Northville received just three seeds, Marta Walasek at fourth singles, Kara Anderson-Julie Glock at first doubles and Christina Chase and Nicole Lindholm at third doubles.

Walasek and Anderson-Glock made it all the way to the semifinals before

The first doubles team received a bye in the first round before defeating Portage Northern in the second round 6-1. 6-2. In the quarterfinals, Anderson-Glock defeated Megen Bensinger and Anne Campbell of Midland 6-4, 6-0.

The duo then lost a tough match to the co-second seeded team from Manan 6-7 (3), 5-7.

The match was played indoors because of the rain that morning," coach Uta Filkin said. "Neither team was used to playing indoors, and it was a tight match. They came to the net a little more than we did and were a touch steadier than us.

Walasek, the third seed, ran across some bumps in her road to the semifinals. The freshman received a bye and crushed her Taylor Kennedy opponent 6-0, 6-1 in the second round. Holly's Danielle Duke frustrated Walasek in the first set of their quarterfinal match, but she came back to earn a 5-7, 6-0. ·1 win and a trip to Saturday's semis.

There she ran into a more experienced and higher skilled opponent from Portage Northern and lost 6-7 (4), 1-6. Portage Northern went on to win the state championship.

"Marta had lost to the girl (Ashley Smith) in the Holly tourney." Filkin said. *She kind of panicked and was visibly upset with herself. She just hasn't had as much match experience as the rest of the team, but next year she should be stronger."

Chase and Lindholm earned the second seed, but failed to live up to it. The duo received a bye in the first round and then lost to Becky Hillegonds and Stacey Carter of Forest Hills Northern 6-1, 6-7 (3), 6-7 (5) in the second. The loss left the team without a point. The unseeded Northern tandem went on to lose in the finals.

At second doubles, Angela Trapnell and Kristin Potchynok had the same fate. They had a bye and then lost to Forest Hills Northern 2-6, 4-6 in the second round as well. That opponent lost in the semifinals.

At first and second singles. Kerry Woolfall and Jessie Mills had the toughest draws of any Northville flight. Woolfall defeated Taylor Kennedy's Jessie Cline 7-5, 6-1 in the first round, but ran into the number one seed in the second. Okemos' Dora Vastag was too much for Woolfall in a 6-0, 6-2 win. Vastag had little trouble in winning the state title.

Mills received a bye in the first round and beat Jade Harns of Dearborn 6-3, 7-5 in the second round. Karli Schneider of Okemos came calling in the quarterfinals, and took Mills out of the tournament 6-1, 6-0.

At third singles, Lauren West received a bye. but drew the fourth seed from Seaholm in the second round. West lost the match 6-3, 6-0 to Sarah Moreas, the eventual state runnerup.

Last year Northville received more favorable draws and finished with 17 points, good for fourth place.

This year we kind of self destructed." Filkin said. "Last year we were lucky. This year we weren't.

*People look at division II and think division I is better, but that's not necessarily true.

For Anderson, Glock, Chase and Potchynok, the tournament was the seniors last at Northville.

STATE TENNIS CHAMPIONSHIP

1S) Kerry Woolfall-Beat Taylor Kennedy and lost to Okemos in second round.

2S) Jessie Mills-Had a bye then beat Dearborn. Lost to Okemos in quarters.

3S) Lauren West-Had a bye, then lost to Seaholm in the second round.

4S) Marta Walasek-Had a bye then beat Taylor Kennedy and Holly before losing to Portage Northern in semis.

1D) Kara Anderson/Julie Glock-Had a bye then beat Portage Northern and Midland. Lost to Marian in semis.

2D) Angela Trapnel/Kristin Potchynok-Had a bye then lost to Forest Hills Northern in second round.

3D) Christina Chase/Nicole ... Lindholm Had a bye then lost to Forest Hills Northern in second round.

Mustangs drop pair of WLAA games, but top Novi

By JASON SCHMITT

Northville salvaged what could have been a disastrous week with a 51-49 win over Novi last Saturday in girls basketball action.

After falling in consecutive conference matchups with Salem and Harrison, the Mustangs held off a second-half rally by Novi and improved to 8-5 overall this season.

Northville built a 25-20 halftime lead only to see the Wildcats tie the game after three quarters. The team overcame 16 points and three 3-pointers by Novi's Jessica Gilbert.

"When we got into foul trouble, we went to a 2-3 zone," Northville coach Pete Wright said. "That's when Gilbert had some good looks at the basket.

With Janel and Meredith Hasse hampered with

Emily Carbott stepped it up and led the team with
17 points and six assists. She hit 3 of 5 three pointHarrison's full-court trap and aggressive defense

Salem had just one loss coming into the game. Junior forward Tiffany Grubaugh led the

ers and also had three steals. They pressed her full court, but she got through it and either delivered the pass or scored for us. Wright said. She looked really good shooting the

Kate Hammond had 10 points and pulled down six boards with extended playing time. Meredith Hasse had a team-high 11 rebounds and six blocked shots She also did a nice job defending Novi's top scorer Kelly Bendernagel. The Novi junior had a season-low

Despite rallying to make it a game at the half, the

forced the turnovers, and made scoring difficult for Northville.

The biggest problem was that we were chasing them down all the way," Wright said. "We never got back to where we were ahead

Janel Hasse had a team-high 11 points and sister Meredith had seven rebounds. The team only managed to get off 29 shots in the game.

I think a little bit of our inexperience showed up in this game," the coach said.

SALEM 50, N'VILLE 38

Despite 19 points and six boards from Janel Hasse, the Mustangs gradually lost ground on the

foul trouble throughout the entire game, point guard Mustangs couldn't overcome their 30 turnovers and Rocks and lost its first conference game of the year.

team with 29 points and hit 9 of 10 from the free throw line.

She's probably the best player in our league, but she hadn't been playing all that well the last two weeks." Wright said. "She can post you up or go out and shoot the three. She was the difference in the game.

Carbott added eight points for Northville.

The Mustangs (5-2, 8-5) dropped to fourth overall in the conference after the losses. Harrison, Salem and Canton all have one loss.

Northville faced North Farmington on the road Tuesday (after The Northville Records' deadline) and face Churchill away tonight.

Seniors night draws a crowd

By JASON SCHMITT Sports Editor

A standing-room only crowd packed Northville High School last Thursday and saw the Mustangs top Walled Lake 60-42 in a closer swim meet than the score would indicate.

The final score looks big, but when you look at the individual races, it was a lot closer," coach Bill Dicks said. "Our girls showed a lot of character that night. When it came down to the last lap of a race, they didn't give in."

The 50 freestyle was one of those races. Junior Stephanie Sabo won the race in a time of 25.84 seconds, just ahead of her Walled Lake opponent (25.89). Kathryn Ohlgren was third (:26.30).

In the 500 freestyle, Monica Black finished first in 5:46 and teammate Ali Stewart was runnerup in 5 54.42. Walled Lake took third in 5:54.73.

The story was the same in the 100 freestyle. Sabo won the race in :56.16, edging out Walled Lake (56 50). Senior Leah Voytal was third in :59.48, just ahead of Walled Lake's next swimmer (:59.73).

Voytal, Deirdre Schwiring, Jessica Hrivnak and Sabo took first in the 200 medley relay and Heather Rudy, Erica Mohaesi, Erin Schoenheide and Ohlgren

Schwiring also won another event. She was first in the 100 breaststroke and finished second in the individual medley. Mohaesi was second in the breast and Voytal was third in the medley.

Hrivnak also won the 100 butterfly, edging out teammate Lara Lea Roney. Jackie Salliote and Rudy were second and fourth in the 100 backstroke and Black was runnerup in the 200 freestyle

In the diving competition. Tracey Crawford and Lindsay Dehne were third and fourth.

The 400 freestyle relay team of Hrivnak, Ohlgren, Greenlee and Nurmi were second and Salliote. Michelle Tomes, Black and Michelle Longeway were

Rounding out the team victory was the winning 200 relay team of Sabo, Allison Greenlee, Hrivnak and Ohlgren. Voytal. Tomes. Longeway and Nurmi were third in the same event.

The meet was Northville's only home contest of the year and it was also senior's night. The team began the night by honoring the late Kristen Warnke and ended with Northville's four departing seniors (Megan Golani, Voytal, Brianna Jones and Black) recalling their fondest memories as Mustangs.

"The girls were really up for the meet." the coach said. "They were really excited as members of the football team, the administration and teachers cheered them on. If you got to the meet at starting time, you had to stand.

The Mustangs visited Novi Tuesday (after The Northville Records' deadline) and travel to Harrison tonight to take on the Hawks.

Photo by JOHN HEIDER

Teammates Lara Lea Roney and Megan Golanni display the caps with Kristen Warnke's initials.

Last Thursday the Northville swim team put on a show for the standing-room crowd at Northville High School, defeating the Walled Lake combined team 60-42.

Quarterback Eric Cooley (right) takes off for a 35-yard touchdown run during the first quarter Friday.

Comeback stalled

By JASON SCHMITT Sports Editor

For the second-straight week. Northville's football team had a chance to win the game on

us final play of the game.
But unfortunately for the Mustangs, Walled Lake Western wasn't going to be the victim this time. Trailing 26-21 with just over two minutes to play and on the Warrior 11-yard line, receiver Aaron Redden was called for offensive pass interference in the end zone on third down. Mustang coach Darrel Schumacher said the call was questionable and could have gone either way. Quarterback Enc Cooley couldn't connect with his receiver on the next play and Northville turned the ball over on downs.

"I really can't say much about the call, but it was a judgment call by the officials." Schumacher said. "I felt it was defensive pass interference. The call could have gone either

As for the game, the Mustangs fell behind early and came back from 13 points down to take a 21-20 lead with :24 left in the third quarter. Northville capitalized on a Western fumble on the kickoff and Cooley hit receiver Ben Keetle for a 19-yard touchdown. The score helped cap off a successful quarter in which Western turned the ball over twice and ran just three offensive plays.

"It was a knock 'em down dog fight all night long," Northville's coach said. "But our offense did an excellent job moving the ball. We controlled the football and limited them to very few long drives.

But one of those very few long drives came at the beginning of the fourth quarter. Western drove the ball down the field and scored on its 11th play of the drive, a three-yard plunge by running back Dave Johnson. The score gave the Warriors a 26-21 lead and inevitably the

"If everything had gone right, it would have turned out all right, but because everything went wrong, we lost the game," a disappointed

Schumacher said. You feel good about how your kids handled the situation, but the scoreboard has got to read the other way around." Western opened the scoring on an eight-yard run by Johnson with 5:27 left in the first.

The Mustangs answered right back with a seven-play 80-yard drive, capped off by a 35yard option keeper by Cooley for the touchdown. Dan Rohrhoff added the extra point to tie the game at 7-7.

Western quarterback Eric Sage scored the team's second touchdown on a 53-yard run and another score with 1:43 left in the half gave the Warriors a 20-7 halftime lead.

Northville closed the gap to 20-13 on a Cooley to Keetle nine-yard connection with

2:27 left in the third. Cooley passed for 238 yards and a pair of touchdowns. Keetle caught 13 passes for 205 yards and was on the receiving end of both scores. Marshall Knapp had three catches for 33 yards.

Cooley led the ground attack with 21 carries for 116 yards and a touchdown. Brandon Langston had 30 yards on 14 carries. Northville outgained Western 443-367 in total

"If we could have just cut down on the big plays, we'd have won the game." Schumacher

The loss drops Northville to 3-4 overall and 2-3 in the Western Lakes Activities Association. This week the Mustangs will host Farmington for a cross-over contest. The Falcons sport a 3-4 record against a tough schedule.

They are a hot and cold team," Schumacher said. Defensively they're always solid and I'm looking for a tough game."

Harriers third at invite 3 Mustangs honored

overall record and 3-2 mark in the Western Division helped land three members of the soccer team on post season all-

conference teams. Sophomore midfielder Tim Kelleher was one of just three players to make the all Western Lakes' team at his position. He joined Stevenson's Sergio Mainella and Churchill's Mark Sicilia as first teamers.

Senior Luke Lestwich earned all-division honors for his defensive play this season. He joined fellow seniors Robert Barnes and Doug Koontz of Canton and Ken Kozlow of Churchill on the second team.

Junior Brandon Bethel was one of five players to earn alldivision honors at the forward

osition.

Division behind He, along with Salem's Churchill (3-1-1).

Northville's successful 9-7-1 Guiseppe lanni and Scott Duhl, Glenn's John Sterling and Central's Jason Southard, were among those selected.

Nick Skotanis. Chisholm, Erik Anderson and Dustin Kubas earned honorable mention honors for Northville.

Stevenson, currently ranked No. 1 in the state, led the way with three all conference selections and three all-division picks. Canton and Salem had five selections each and Churchill had four.

Stevenson finished 5-0 in the Lakes Division and won the conference tournament last week. Canton was 5-0 in the Western Division and handed the Spartans its only loss earlier this season. Northville (3-2) was third in the Western Livonia

Senior captain Jim Morrison tackles a course.

By JASON SCHMITT Sports Editor With its best runner hitting his stride at the right time of the season, the entire

followed suit with some impressive runs in the last few meets. Northville finished third of 15 teams at the Gabriel Richard Invitational at Buhr Park in Ann Arbor this past weekend. The

Mustangs (92 points) finished behind

Northville boys' cross country team has

North Farmington (60) and Grand Rapids Catholic Central (85) in the division II Kevin Arbuckle won the race in 16 minutes, 33 seconds. His time was :09 better

than his time here last year. Brian Bilyk was second on the team and 11th overall in 17:28. Ben Flood finished 22nd overall in a time of 18:28 and Jim Morrison (27th in 18:48) and Phil Santer (31st in 18:48) rounded out the top five for Northville. Brian Wilson (19:03) and Matt Glogowski (19:15) also ran in the varsity race.

In the junior varsity section of the race. Nick Moroz finished second overall in 19:14 and Tim Whelan and John Lazur were 18th and 20th.

STANGS FINISH THIRD

Northville fell to Churchill in a tri meet with Harrison Oct. 14 and finished third overall in the Western Division. The Mustangs beat Harrison 15-50, but lost to Churchill 22-37.

"They had two kids to everyone of ours," Northville coach Ed Gabrys said. It was good-quality running, but they just had too much for us.

Four of Northville's top five runners turned in personal-best times in the race. Arbuckle tied a career best and won the race in 16:28. Bilyk was fifth overall with a then personal-best time of 17:29. Flood (eighth in 18:02) and Morrison (12th in 18:47) both had personal bests. Santer finished 11th in 18:42 to complete

the scoring for the Mustangs. Northville will compete at the Western Lakes Activities Association meet tomorrow at Kensington Metropark. It will then take a week off before competing in the regional meet Oct. 31.

The staff at the Northville Record and

Novi News will be putting their football knowledge, or lack thereof, out there for all to laugh at Each week there will also be one guest trying to outpick the

McDONALD FORD **SALUTES NORTHVILLE** ATHLETES OF THE

Ben Keetle - Senior

The senior wideout caught a career-high 13 passes for 205 yards in Northville's near upset of Western last Friday night.

He caught touchdown passes of 9 and 19 yards and had several key grabs in Northville's last drive, which was thwarted by a penalty in the end zone.

For the season he has 39 catches for 549 yards.

Marta Walasek - Freshman Julie Glock - Senior Kara Anderson- Senior

Freshman Marta Walasek (left) qualified for the state semifinals at fourth singles while teammates Julie Glock (center) and Kara Anderson reached the semis at first doubles. Both flights helped Northville to a 10thplace finish in division

Runners lock up Western division

By JASON SCHMITT Sports Editor

Having already won its first Western Division championship outright Oct. 14, the Northville girls' cross country team kept its momentum going with a division II championship at the Gabriel Richard Invitational last Saturday.

The Mustangs tallied 55 points. easily outdistancing second-place Grand Rapids Catholic Central (117). Durand had 127 points for third and Milan (134), Clawson (164) and Livonia Ladywood (180) were next in line. There were 14 teams in division II.

Last year we took second to Grand Rapids Catholic Central and we figured we had a shot at the title this season," Northville coach Chris Cronin said. "We knew we'd run up front and we did. This team continues to meet all the challenges set before it."

Alyson Flohr led the way with a third-place finish in 20 minutes. one second. She was followed by Christin Kolarchick (4th in 21:04). Hillary McCrumb (15th in 21:41). Amanda Sprader (16th in 21:44) and Karen Loeffler (17th in 21:56) completed the scoring for the

At a conference triangular meet last Wednesday, Northville looked to complete a perfect division record against Churchill and Harrison. The team did it by defeating both teams.

Flohr won the race in a Cass Benton personal-best time of 19:58. It was the third straight race in which Flohr had broken 20

Alyson Flohr (center) led Northville to the Richard championship.

Churchill would take the next two spots, but the Mustangs had the next four finishers to get the win. Kolarchick was fourth in 21:27 and McCrumb was fifth in 21:38. Teammates Amanda Sprader (21:48) and Allison Loeffler (21:51) were sixth and seventh overall.

"Allison Loeffler was fantastic." Cronin said. "Her effort was the best by a Northville freshman

since I've been coaching the

Northville will compete at the conference meet tomorrow and will have a week off until it competes at the regional Oct. 31.

*Our greatest challenge is to get healthy and sharpen for the remaining races," the coach said We feel we can have a big impact at the Western Lakes conference meet tomorrow if we have another quality week of training.

Northville wins last four games

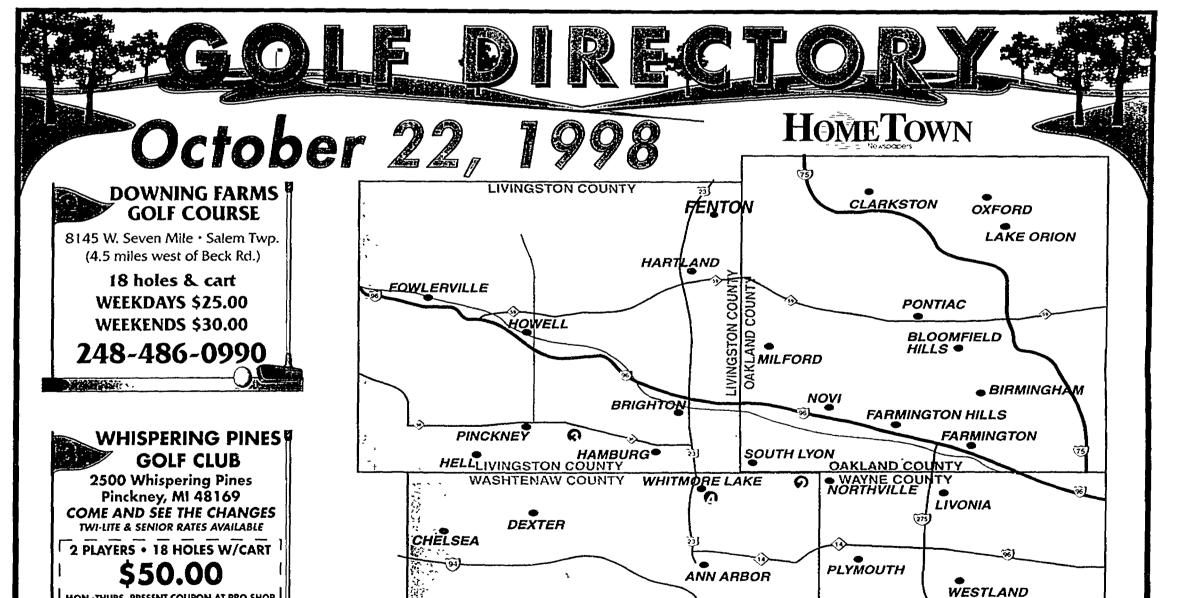

Northville concluded its regular season with fourstraight wins, including victories over South Lyon and Farmington last week.

In the 2-1 win over the Falcons in a cross-over game, Tim Kelleher scored the winning goal with 1:23 left in the game. Steve Chisholm assisted on the game

Brandon Bethel got the team on the board first as he took a pass from Kelleher and scored to give Northville a 1-0 lead. Farmington tied the game up with a little more than 10 minutes left in the game before the Mustangs got the game winner.

Sophomore Jon McClory picked up the wins in net for Northville (9-7-1). T

he team will travel to Franklin tonight in the district semifinals. The winner of that game will play, in all likelihood, top-ranked Stevenson in the finals Saturday.

Health Column

Does exercise reduce the risk of getting breast cancer?

October is Breast Cancer Awareness month and while the list of benefits of regular exercise is a lengthy and growing one, ranging from lowered blood pressure to reduced risk of diabetes, breast cancer prevention has been rarely found on it .. until now.

Does exercising reduce your risk of getting breast cancer? One of the biggest investigations ever done on the topic suggests that the answer is ves.

Researchers in Norway traced the health of more than 25.000 women over a nine year period. They found women who exercised at least four hours a week had a 37 percent lower breast-cancer risk, compared to women who did not exercise at all (New England Journal of Medicine, May 1, 1997.)

Anne McTiernan MD, Ph.D., of the Fred Hutchison Cancer Research Center in Seattle has completed studies suggesting exercise has some association with reducing risk of breast cancer, not dependent on exercise intensity

We're not sure how much exercise women need to do, but we do know that women who are overweight have an increased risk of

Chris Klebba

breast cancer. Literature suggests there are three strategies available to lower risk of breast cancer: inhibiting estrogen levels, inducing reversible menopause at a young age and now physical activity. Animal, experimental and epidemiological evidence indicates that physical activity, because of its influence on hormones, may be an attractive, non-invasive option to decrease your risk." (Douglas Kalman MS, RD and Laura J, Villani MS.)

The bottom line — this is another reason to

add to your "why to" list. You know the other list ... no time, too busy, I will start after the New Year ...

In other words, get and stay more active. So many of the components of a healthy, full quality of life depend on it.

Do you need to start exercising six days a week and eat salad for the rest of your life? No. Even if you tried, you probably would not stay consistent.

Take some small but positive steps starting tomorrow. Walk up the stairs instead of taking the elevator or escalator at the mail or at work. Use the copier down the hall. Instead of playing on the computer with your kids after that late dinner, take a walk or play some

Exercise now and odds are for so many reasons, you will not regret it later.

This column was written by Chris Klebba, Owner and Operator of the Water Wheel Health Club and a Certified Personal Fitness Instructor. For more information. call (248) 449

Health Notes

BREAST HEALTH CLINIC

St. Mary Hospital in Livonia will hold a breast health clinic from 9 to 4 p m on Saturday, Oct 24 in the Manan Women's Center.

A physician will perform a complete breast examination and provide instructions on how to perform a breast self-examination for a \$21 fee. If indicated, a mammogram will be done for an additional fee. (This cost may be covered by insurance.] Registration is required by Oct. 14. For more information or to register, please call (734) 655-1100 or toll free at 1-800 494-1615

Breast Cancer Awareness

St. Mary Hospital is presenting a free lecture on Breast Cancer Awareness" by Susan Ford Bales, daughter of former President Gerald Ford and Betty Ford Bales, national spokesperson for National Breast Cancer Awareness Month, will be discussing the effects of breast cancer on both patient and family, and emphasizing the importance of early detection and proper treatment. The lecture will be held in the St. Mary Hospital auditorium on Wednesday, Oct. 28. from 7-9 p m

To register for the free lecture, please call the Marian Women's Center at (734) 655-1100 or toll free at 1-800 494-1615. Seating is limited.

CIRCUIT TRAINING

For more information and to register, call (248) 477-6100.

E-Z YOGA

This six-week class enhances flexibility. strengthens muscles, improves breathing and promotes relaxation. Day and evening classes are available, at a \$35-45 fee. For more information and to register, call the Botsford Center for Health Improvement-TRACC, Novi. (248) 473-

FETAL ALCOHOL SYNDROME

The Oakland County Health Division's Health Education Unit and Office of Substance Abuse is co-sponsoring a training for health care workers entitled Reducing the Risk for Fetal Alcohol Syndrome: A Community Approach." The program is designed to provide an educational and skill building experience for those who are concerned about preventing the devastating effects of alcohol on the unborn baby.

Reducing the Risk of Fetal Alcohol Syndrome will be held Wednesday, May 13, from 9 a.m. to 3.30 p.m. at Glen Oaks Country Club. 30500 W. Thirteen Mile Road, Farmington Hills.

To register or for information, call Kathleen Altman, Oakland County Health Division, (248) 424-7125.

AEROBIC WEIGHT TRAINING This consists of a one-hour workout with an

emphasis on both cardiovascular fitness and muscle strengthening. It meets for seven weeks Mondays and Wednesdays from 5 to 6 p.m. There is a \$50 fee. Preregistration is required.

For more information or to register, call the Botsford Center for Health Improvement-TRACC. 39750 Grand River, at (248) 473-5600.

BREAST CANCER

Providence Medical Center-Providence Park in Novi is hosting a support group for women with

The group meets the second Saturday of each month at 10 a.m. Anyone who has experienced breast disease is welcome. This is an informal discussion for participants to share resources and provide emotional support.

For more information contact Norma at (313) 162-3788 or Cheryl at (810) 363-3866.

NUTRITION FOR TWO: BABY AND YOU

Get your baby off to a healthy start. Register early in pregnancy. Classes offered monthly. \$10 fee and registration required. Botsford's Health Development Network, 39750 Grand River Ave., Novi. For more information and to register, call (248) 477-6100.

Want to stop smoking once and for all? Tried other programs and still can't quit? Here's the program for you. And you're in control - you set the "quit date" and we'll provide you with the support you need to overcome the physical, psychological and emotional withdrawal issues. Learn about stress management and how to successfully start a healthier, smoke-free life. This individual counseling program features a one-hour private consultation with a smoking cessation counselor, workbook cassette tapes and five follow-up phone calls. There is a \$75 fee and registration is required. For more information and to register, call Botsford Hospital at (248) 477-6100.

REAL ESTATE CREATIVE LIVING

Formula for success

By Gene Gary COPLEY NEWS SERVICE

Q. I hope this question is of general interest to your readers so I can get an answer. I have a fiberglass molded shower which is taking on a brownish, yellowish look. The flooring is stained more than the walls and has a sizable crack, which is darkened with stains. I have tried everything to clean this shower with numerous commercial cleaners including bleach, but nothing seems to work. Can you help me?

A. Questions regarding the cleaning and restoration of fiberglass surfaces flood my mailbox. Due to this interest, let me try to cover the subject more thoroughly in this column.

For general cleanup and stain removal, try removing as much of the discoloration as possible with this formula: Mix 2 tablespoons of turpentine (not paint thinner) into 1/4 cup of regular table salt. Pour the mixture onto the surface and scrub vigorously with a nylon brishing the surface and scrub vigorously when a roll mith a tle brush. Wipe any excess cleaner off with a paper towel. Make sure you have plenty of ventilation in the room and wear rubber gloves.

Any rags or paper toweling that absorb the mixture should be air dried and disposed of in plastic bags to avoid a fire hazard. Another method of cleaning stained fiberglass is to use automatic dishwasher detergent or a water conditioner such as Calgon. Fill the tub or shower with approximately an inch of water. Then sprinkle an even layer of the granules over the surface and let them sink to the bottom. Next day, drain and use the paste that's left in the bottom to scrub away dirt and

For walls, make a paste by mixing the granules with a small amount of water and apply the thick substance to the surface. Let this set overnight prior to rinsing with clear water. Another method of cleaning fiberglass is use oven cleaner. Test first in an inconspicuous area to assure that the surface will not be marred. Spray the surface and let set for several hours prior to rinsing. Several applications of either the dishwasher paste or oven clean spray may be necessary before the fiberglass color is restored. There are also non-abrasive commercial cleaners on the market that contain EDTA (ethylene diamine tetra-acetate). which are effective fiberglass cleaners, such as

Marine stores carry a range of products for use on fiberglass boats that can be used on your fiberglass tubs and showers just as effectively. Some of these should be used with a buffer for best results. Even after the staining has been removed, your fiberglass surfaces may remain dull and scratched. A three-step process can restore the shine. Buffing it with a polishing compound will polish out small

Applying a seal coat will fill small scratches, making the surface smoother. And finally, rubbing wax onto the sealed surface with a buffing pad will add shine and luster. In cases of severe scratches, you may have to start by using 600-grit wet/dry sandpaper, wetting with water and a few drops of hand dishwashing liquid as a lubricant. Do this prior to the initial buffing. Surface cracks and gouges (vs. scratches) are more difficult. Check your local home center for fiberglass repair kits which come in various shades and include gel and a hardener to fill deep gouges. Follow manufacturer directions carefully.

If unavailable in your area, order a Match 'N Patch kit from Surface Specialists Systems Inc., 5168 Country Club Drive, High Ridge, MO 63049; phone: (314) 376-4468.

Large structural cracks which go through the fiberglass panel require the attention of a professional. Check auto body shops or marine/boat repair for assistance in locating someone. To avoid scratches and surface problems in the future, never use abrasive cleansers or strong chemical solutions on your fiberglass fixtures. Use bathrooms cleaners like 409. Fantastik or Comet's Bathroom Cleaner (without bleach). For occasional deep cleaning. make a paste of baking soda, apply to the surface and leave overnight prior to rinsing with clear water.

Q. I can't stand the harsh, unflattering light in my bathroom, which comes from a fluorescent fixture over the mirror. I have been told that it would be best to change out the fixture. converting it to incandescent lighting. Would this be the best fix for this problem?

A. Before you invest in a new fixture, try improving the fluorescent lighting with a new light bulb. Most light fixtures are outfitted with cool-white bulbs at the time of purchase. However, there are bulbs that are colorized to give off a warm light that is less harsh and more flattering to skin tones.

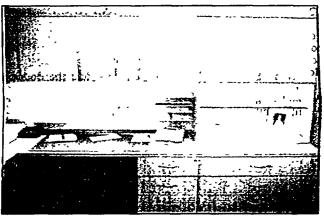

They are more expensive than the standard cool-white bulbs, but considerably less of an investment than a new fixture would be. It would also save you the trouble of a new fixture installation. Home centers carry some variety in fluorescent tubes, but a light bulb store will offer you a better selection and provide some good advice for your situation.

Send e-mail to copleysd(at)copleynews.com or write to Here's How. Copley News Service, P.O. Box 120190, San Diego, CA 92112-0190. Only questions of general interest can be answered in the column.

Northville designer John Kaloustian recently won the Best of NeoCon Gold Award for his Visions line of office furniture. Kaloustian prefers clean, uncluttered lines in office furniture that is attractive as well as functional.

Photos by JOHN HEIDER

comfortable adjustable affordable efficient sleek ismeless... design

Northville's John Kaloustian combines form and function in his award-winning designs

By ANNETTE JAWORSKI SPECIAL WRITER

In the ideal world of designer John Kaloustian, a work environment would be sleek and efficient. The furniture would be attractive as well as functional.

"It's real important that furniture provides comfort and adjustability, and of course, it has to have an attractive appearance," said the Northville designer. "That's the goal, as well as then be affordable.

Kaloustian prefers clean, uncluttered lines which expand the lifetime of the furniture.

"It's meant to have a timeless quality. Responsible design means lasting design," he said.

Good design for the office is also becoming more necessary as work areas shrink and space is

He thinks of practical details. like "wire management." a fancy word for where you put all the cords for the ever-growing num-ber of electronic gadgets on today's work surfaces including computers. Some wires tuck away into a drawer like an ash tray in a car. Hollow legs in the furniture provide another space to conceal electrical cords or phone and computer cables. Some pedestal tables even can conceal a computer.

"Everyone wants to have a work area that's well organized and supported. Hopefully their furniture keeps them organized while adding some warmth to the environment," he said.

Although not a household word, the Northville resident's work is well recognized in the field of industrial design.

Continued from page 1

His most recent award in 1998 was the Best of NeoCon Gold Award for his Visions Line of office furniture. The yearly event is held at Merchandise Mart in Chicago and judged by a panel of architects and designers. In 1994, his Verona Lounge received a Silver Award at the

Designing an entire line of office furniture was a significant accomplishment for the designer.

*Normally designers do smaller products, or one small product in a large line. To do a large line is really rewarding," he said.

The Visions line is geared towards the upscale high end of the office furniture category for executives.

*Executives and attorneys want furniture to make a statement that they've arrived." he said.

Crabtree and Evelyn recently selected the Visions line for their corporate offices in Boston. Kaloustian also uses it in his personal office. The desk top is made of sleek anigre wood. Graceful curves sculpt the edges of the surface. Chrome and glass accents such as trophy cases make the furniture display cases far from ordinary.

F The line also features work surfaces that pivot out. And it's available in a variety of finishes, including maple and cherry.

An independent designer for 18 years. Kaloustian's former clients include Bernhardt Furniture, the Harter Group, Steelcase, Inc., American Seating, Haworth and Pentax Cam-"eras, to name a few.

For several companies. Kaloustian was involved with the design of seating. He participated in such projects as the seating design in

O'Hare terminal. Chairs and seating continue to be a vital part of his designs, although the designer's scope isn't limited to furniture. He's created products for bicycles and cameras as

While designing. Kaloustian likes a hands-on approach. He sometimes bypasses the drafting stage, and heads straight to his nearby shop to build a working model.

High school drafting teacher, Arthur Anderson, from Stevenson High School in Livonia inspired the designer and made him aware of the field of industrial design. He also credits Jim Belanger of Belanger's in Northville for being a mentor and a good friend during his early career. Belanger hired him to do drafting and engineering during his summers home

Kaloustian attended the respected Center for Creative Studies in Detroit, graduating in 1979. Later he joined the staff, teaching there for 10 years. Although he is temporarily taking a break from teaching due to the demands of his design work load, he plans to return.

One way the Northville resident gets inspired is through his travels. Not only does he enjoy traveling as recreation, but it also enriches his outlook on design and architecture.

His favorite locations are Italy and southern France, although his travels also include China, Asia, Australia and Japan for starters. Kaloustian's wife Mary Jane enjoys being his

travel partner as well as contributing valuable input on his designs. "Although she's not in design, she has a discriminating eye." John said. "I use her as my sounding board."

The Kaloustians share their Northville home with their 15-month-old son Harry and two

Yorkshire Terriers named Puegot and Bentley.

Looking for a place to call home? Well you've come to the right place! **CREATIVE LIVING!**

DON'T LIGHT THAT FIRE WITHOUT A PERMIT!

You must have a burning permit for any open burning • Permits can be obtained from DNP and US Forest Service Offices in North Michigan and the Upper Peninsula, and from your local Fire Department in Southern Michigan • Burn permit regulations vary from location to location. Contact your local burn permit issuing agency for the egulations in your area. Burn permits will only be issued for one day at a time wheneverthe fire danger is low-cool, wet, calm days

CÓPLEY NEWS SERVICE

Q. Enclosed is a picture of my antique desk that I believe is called a Davenport desk. It stands about 46 inches high and 22 inches wide. The drawers open from the side and each can be locked. The hinged writing surface is sloped and can be opened to reveal a storage area. We replaced the blotter, but all the porcelain castors are

My husband found it when working and brought it home. We have used it for several years and would like to learn more about it.

A. Davenport desks were first seen in England in the early 1800s. Yours has the characteristics of the Victorian Eastlake period of furniture. The writing surface was originally covered with leather or baize. It is believed the source of the name was from an English captain by the name of Davenport who ordered one made.

The value of your desk would probably be about \$2,000 to \$3,000.

Q. This mark is on a set of dishes that I bought at auction about 20 years ago. The dishes are decorated with orange roses, trimmed in gold and all are in excellent condition.

What are they worth?

A. American Limoges China Co. in Sebring. Ohio, used the mark you provided in the 1940s. Frederick and

Frank Sebring founded the company in 1900. American Limoges was the first to have tunnel kilns rather than beehive kilns. They also claimed to be the first to use decals and to have resident designers and graduate ceramic engineers.

ANTIQUES

Originally, the factory was called the Limoges China Co. In the mid-1940s, the Limoges Co. in France took exception with the name and threatened to sue the Ohio firm. Litigation was not an option, so they changed the name to American Limoges China Co.

Each place setting would probably be worth about \$20 to \$35.

g. We have a banjo clock with a reverse painted scene that was made by Aaron Willard in the early 1800s. It keeps perfect time and is in very good condition.

I have been trying to establish its value for insurance purposes with very little success. I would appreciate any help you may have.

A. American clockmaker Aaron Willard made clocks from around 1760 to 1830. Aaron and his brothers Simon, Benjamin and Ephraim all made clocks in Massachusetts. In 1802, Simon patented the banjo clock design. Aaron and Simon were the best known of the four.

Your early 1800s clock would probably be worth about \$2,500 to \$3,500.

Q. We have a Howdy Doody marionette complete with the original box. He is made of wood and is 15 inches tall. Howdy is in near perfect condition.

What is he worth? A. Howdy Doody was

the TV creation of Chad Grothkopf in 1947. The TV popularity of Howdy. Buffalo Bob and Clarabell, along with a num-

ber of other colorful characters inspired a comic strip that first appeared in 1950. Collectors don't "Dilly-Dally" over Howdy

Doody marionette prices in the \$175 to

Q. For the last 55 years I have had a pottery vase. I would like to know if it's worth anything. It is mottled gray and rose and decorated with Grecian female figures. The height is 17 inches. On the bottom of the vase are the words "urley-Winter - Crooksville - O." Although I'm not sure, the first letter could be a "G."

A. The first letter is a B and the name of the pottery is Burley & Winter. William Newton Burley and Wilson Winter founded it in Crooksville, Ohio, in 1872.

Your early 1900s vase would probably be worth about \$150 to \$225.

Address your questions to Anne McCollam, P.O. Box 490, Notre Dame, IN 46556. For a personal response, include picture(s), a detailed description, a stamped, self-addressed envelope and \$10 per item (one item at a time).

Look for license when picking builder

remodeler, the Michigan Department of Consumer & Industry Services has information available to

Friends and neighbors are good references about contractors, as are people at home improvement centers, builders' shows, or open houses. The Yellow Pages also lists licensed builders as do homebuilder associations affiliated with the National Association of Home All contractors offering to do

work totaling more than \$500 in labor and materials must be licensed by the CIS. It helps if the contractor has a permanent business location and telephone number. Local banks and suppliers can be checked for the credit reputation of a contractor.

"Calls can be made to 1-900-555-8374 weekdays for license verifications," said Jean Boven of the Enforcement Division of CIS.

It's important, once several contractors have been chosen, to get estimates from different contractors in order to compare prices. But price shouldn't be the only consideration as a low price can be based on inferior materials. Total price, terms of payment, the kinds of materials used, and the expect-ed time it'll take to complete the

In choosing a home builder or job should also be included in an estimate. The consumer should also be wary of discounts because they can be left over materials.

Finally, in selecting a contractor, an important distinction is whether the contractor is operating within a corporation or as an indi-

Look at the individuals listed as qualifying officers in a corporation," Boven said. You can talk to somebody at Compliance and Mediation at \$1.50 per minute, by calling 517-241-9267 weekdays to determine if there's been any disciplinary action or if any issues are still pending."

SPEAK

"This was the most positive purchase experience l've ever had at any dealership. I will gladly refer my family and friends to Hines Park!!"

Jan Shimshock

"I would like to thank you and your staff for the professional, courteous, and friendly manner with which my automotive problems were handled and solved. You and your staff are a credit not only to the Hines Park Dealership, but on a larger scale, to Ford Motor Company as well. Abraham Ben-Zeev

*24 month closed end non maintenance lease to qualified customer. Add 6% use tax for total monthly payment. ALL PAYMENTS INCLUDE DESTINATION CHARGES. Payments based on 12,000 miles per year. (15c excess miles). All manufacturer's incentives are figured in lease payments and assigned to dealer. Lessee has option to purchase at lease end for price determined at lease inception. Lessee is not obligated to purchase at lease end. Lessee is responsible for excess wear and tear. Refundable security deposit (payment rounded up to next \$25). First payment, \$2,000 customer down payment, 6% use tax, luxury tax (if applicable), title, and license fees due at inception. Payments x lease term equal total payments. **Ill prices include destination charges. All manufacturer's incentives assigned to dealer. Tax, title & license additional. ***Special low financing rates available for purchases in lieu of rebates, Some models qualify for interest rate & rebate, (advertised price plus rebate equals your price). As low as 0.9% Ford Credit APR financing. Finance rate varies depending on creditworthiness of customer as determined by Ford Credit. Some customers will NOT qualify. Residency restrictions apply. See dealer for details. NOTE: All purchase and lease rates, rebates and incentives are authorized by Ford Motor Company, and subject to change without notice.

ALL PRICES INCLUDE DESTINATION AND DELIVERY

Two powerful words that kids are saying to their teachers, their schools, their parents Surprisingly too many kids think school is too easy. They need and want

Need convincing?

to be challenged

 74% of kids say schools should pass them to the next grade only when they we learned what's expected of them

curious and motivated when challenged in school Now it's our challenge to challenge them. To educate them with rgorous academic standards and high expectations. To give them

Weire talking about your kids. Or grandkids, Or kids you know

the skills and knowledge they'll need to succeed in school, the

To make that future a bright one we need to schools to challenge our kids. And support schools in that

effort. It's easy to start. Just call for our free booklet. It's fred with information on how you can help raise academic achievement. And raise the hopes of every kid who wants to succeed

Little details add up to dreamy dresses, like this silk satin gown, which features a fitted bodice with basque front and back, and silk gardenias accenting the waist.

Perfect wedding gown is all in the details

By Sharon Mosley COPLEY NEWS SERVICE

Getting married? Why settle for just another bridal gown when you can have that special dress you've always fantasized about? Just close your eyes and imagine yourself walking down the aisle in the gown of your dreams. Your wedding gown can be as memorable as the day itself. It may be in all those dreamy little details.

"As in ready-to-wear, it is the fine details that are becoming important," says Rani, the designer for St. Pucchi's Bridalwear. Intricate beading and embroidery are distinct touches that set her gowns apart. At St. Pucchi, the traditional bridal gown colors of white and ivory are interpreted in Thai silk, tulle, silk organza and peau de soie, enhanced with delicate touches of color, such as silver and gold floral appliques and beading.

One of St. Pucchi's most stunning dresses sparkles with Swarovski rhinestones scattered throughout the hand-embroidered sleeveless bodice. Mocha and pale-pink floral motifs accent the dropped basque waist adorned with colorful jewel buttons down the center.

At Alfred Angelo, the little details also add up to dreamy dresses. Silk shantung gowns are trimmed with hand-beaded corded satin embroidery;

seamed princess-style dresses drape in soft crepe.

"The princess looks, A-lines and empire style are the most popular silhouettes now," says Cindy Freeburn, spokeswoman for Alfred Angelo Designs. "The more and more is better look has faded," she adds. "Now it's the small details that add up to more style."

The intricate detailing of romantic silhouettes is brought to new life for brides by two of fashion's top design teams - Mark Badgley and James Mischka in their new collection of white and ivory evening gowns called Badgley Mischka Bride ... definitely not your traditional wedding kind of dress.

But many fashion designers are bringing their own special style to the wedding world.

Carolina Herrera's bridal collection this season features many options in fabrics from traditional satin to silk shantung and new flowing chiffon. From A-line and princess silhouettes to flattering drop-waist and empire silhouettes, Herrera offers silhouettes in grand and billowing gowns to sleek and sophisticated designs.

Other bridal designers offer their own little touches: crystal straps on a satin slip dress from Manolo for Original Bride; a silk crepe halter sheath by Mika Inatome has its own choker collar

Continued on 3

Romantic-inspired gowns making a comeback

Continued from 2

accented with pearls and Swarovski crystals; Vera Wang's simple satin slip dress with spaghetti straps is not so simple with a border of encrusted gold embroidery and beading.

At Eleny Couture, dresses feature handbeaded crisscross and lace corseted bodices with silk organza draped overlays. The corseted look makes a "dangerous liaison" at Guzzo Couture Bridal as

Indeed romantic-inspired gowns are making a comeback: details of hand-rolled roses bloom on princess cuts from Lisa Fernandez; exquisite hand-tied silk roses are laced with threads of gold bullion on a couture gown by Patricia Moran Exclusively at Razooks; a long floor-sweeping chiffon scarf gives a sleeveless silk crepe dress by Peter Langher instant romance.

And one of the best "Age of Innocence" looks that's not quite so innocent - Tatiana of Boston has - inspired by Princess Diana herself - a strapless sheath in Alencon lace with satin coat, mink collar and cuff all in white. Perfect for a princess on a cool spring evening.

With all the extra details taking center stage on your wedding gown, it's important to choose a shape that's not too overpowering. Whether it's a princess-style ball gown swathed in a cloud of tulle or a strapless georgette sheath, the trend in bridal gown silhouettes is more streamlined this spring and summer. Slinky, long and lean is still the

"It's simplicity with just the right

amount of glamour," says Rani.

And if you would like to color your wedding world with color, then Watters & Watters may have a dress for you. Think pale sky blue, buttery yellow or celery green. Pale silvers and gold are also lighting up wedding day gowns.

However, before you set your sights on a shimmery sheath, you might want to try a few of these form-fitting dresses on at your favorite bridal salon.

To wear a simple sheath or a fitted gown, you must have a slighter figure." says Rant, who adds, "a full skirt is universally flattering."

And while the bridal gown is indeed the star attraction of your wedding ensemble. the accessories are other details not to be

The first place to start is at the top: headpieces are meant to be seen, and the perfect place to add your own personal touch to a gown.

Veils are very traditional, from very formal cathedral styles to classic lace mantillas. But there is a wealth of news when it comes to "jewelry for the hair."

Here are a few ideas to consider: mini tiaras, gold hairpieces with flowers that match the flowers in your bridal bouquet. or a vintage look with antique jewelry (a great way to pass on a piece of your wedding day). There are many beguiling hats frothy with netting, chiffon and flowers. Other elegant options include barrettes of pearls, velvet headbands and garlands of fresh flowers.

Wedding jewelry is always important. Often a gift from the groom or a family heirloom, the jewelry you wear on this day should be special. Pearls are a classic, but crystal stones are a shining accent for this year's bridal repertoires. Watch for nontraditional looks like dainty flowers, leaves, lattice work and chunky collars to show up on necklaces and bracelets.

Gloves are also making a big comeback. Designer Carolina Amato's sophisticated collection of wedding gloves includes silk

charmeuse versions in elbow lengths with a single rose at the wrist to see-through crocheted short gloves. Alfred Angelo has recently developed a new line of gloves that match its bridal wear.

Consult your bridal specialist for a wide variety of gloves suitable for your

Shoes may be a real understatement to the whole bridal ensemble, but if your feet are uncomfortable on your wedding day, it's not a good thing. Many upscale bridal shops carry high-quality footwear that is as pretty to wear as it feels good. Look for names like Vanessa Noel, Peter Fox and Vera Wang. Now there are even "Garden Party" shoes for brides to wear at spring and summer outdoor weddings.

The most popular bridal shoe silhouettes this spring are square toes and thicker heels - a reflection of fashion trends in footwear. But sexy mules, elegant pumps and strappy sandals in sophisticated silk and satin are also stepping down the aisle complete with matching handbags and clutches. You never know when you'll need a little lipstick . . or extra cash ... if you have any lett!

Many couples marrying for the second time are honeymooning with their children, turning the time away into a family vacation.

All in the family

Honeymoon with kids can be fun, relaxing vacation

By Deborah Wheeler

COPLEY NEWS SERVICE

Many couples today are including their children in their weddings. Whether one of the partners already has a child from a previous marriage, or the couple is combining families from previous marriages, it is increasingly common to include children in wedding plans. Some couples are even including the children in the honeymoon travel plans.

A "honeymoon" is traditionally defined as vacation time spent together by a newly married couple. However, this does not mean the definition can't be expanded to mean a vacation time spent together as a newly created family. As more and more blended families are created, parents and children must come together to form a new family union. Rethinking the honeymoon definitions may re-emphasize the importance of the new family bond being created.

Today, there are dozens of viable options for honeymooning with the kids. Most large resorts feature family-style entertainment that will suit all ages and interests. One all-inclusive resort in Jamaica, the

Franklyn D. Resort, even offers a special package specifically designed for honeymooning with the kids.

They realize that romance is just as important the second time around, so they provide a "Girl Friday" to help watch over the little ones, supervise activities, cook, clean or just pick up wet swimsuits. This allows the couple to enjoy time alone and still have quality family time. They even offer a wedding option for getting married at the resort, including champagne, flowers, wedding cake, family get-together cocktail party, minister and wedding license.

Some hotels like Holiday Inn also emphasize family-friendly accommodations. At Holiday Inn, kids 19 years and under always stay free in the room. Some Holiday Inns include a kids-eat-free policy. as well. In some areas there are even "Kid-Suites" just for the smaller set. These specially designed suites include a bedroom just for the children, separate from the master bedroom, with double beds and bunk beds. The kids' room also includes a VCR, television and video games. The larger hotels also include swimming pools, playgrounds and game rooms for entertainment.

Honeymooning families might want to consider a family-oriented cruise like Disney's Big Red Boat or Holland America Line's Alaska Cruises. Both offer activities day and night for different age groups and families. There are separate supervised activities for children, teens and adults.

For example, there are fun games for the little ones, a nightclub for teens only, and dining, dancing and gambling for the adults. Holland America Line even offers age-appropriate shore excursions just for kids.

An Amtrak train trip to a favorite destination is also a good option due to their special on-board kid-friendly amenities. They offer comfortable family accommodations, playrooms, books, games and children's menus. As a bonus, this is a no-drivingrequired travel, so everyone gets to relax.

All of these travel options are excellent ideas for honeymooning with the kids since they feature activities for everyone in the family.

In addition to the fun family activities, many family honeymoon destinations also offer child care for the younger ones so the new couple can spend some time alone, too. Such vacations allow for a relaxed, carefree time with the children and adult entertainment as well.

As an incentive to honeymoon with the kids, consider the total cost of the vacation. A honeymooning couple may find there is often only a minimal increase above what the original cost would be for the couple traveling alone (considering the lower rates for children in the same room or when children stay and eat free)

Honey mooning with the children may not appeal to everyone, but for those new couples with limited time or money, including the children makes sense. This may be a prime opportunity, one new families might not otherwise get, to take a major vacation together. Who knows, they might even get to know each other better in the process!

Including the children in the wedding plans will definitely make them feel important and a real part of the new union being created. Including the children in the honcymoon will also help establish special memories for the whole family to reflect upon as they embark on a new life together.

The Place Chase

Plan wedding locales to suit budget, personal style

By Caron Golden COPLEY NEWS SERVICE

It's not only the place where you take your vows, it's where you host the celebration of a lifetime. Where will you and your guests be when the two of you stand together and promise to love, honor and cherish?

At a park or in a museum gallery? In a church or synagogue or on a hill overlooking the beach? In a historic mansion or country club reception hall?

PLANNING THE DREAM

Before you decide where to hold the wedding, you have a number of questions to resolve.

What is your budget? Are you going to have a large wedding with all the trimmings or a small group to share in the celebration? Many people who have less money to spend than they'd like prefer to have all their family and friends and keep the cost of the reception down through inventive ways holding it off-season like during winter months, having it at home or at a park and having a less fancy meal or just appetizers or dessert. Others who want to splurge on a formal sit-down dinner but have to watch their wallet host fewer people.

What kind of look or motif do you want? Is this a Cinderella type of wedding or are you more casual? Do you want photos that incorporate fall foliage or the rush of waves on a beach? If you're in the military, do you want a setting, ceremony and reception that reflect that commitment?

What is your time frame? According to Modern Bride, so many weddings are held on the weekend that the most popular reception locations are booked far in advance. Spring, summer and fall weddings may need to be planned two years out. Winter dates are usually more flexible - and if you can be married on a weeknight, you'll need less advance time (and may even be able to get a discount on top of it).

Continued on 7

Taking your vows amid a beautiful surrounding expresses your personal style and creates a lasting impression of your special day.

Checklist helpful in managing location details

Continued from 6

Can the caterer accommodate the location or are there prohibitive restrictions?

Will the ceremony be held there as well or at a different place? If a different place, how close will it be and will transportation be an issue for out-of-town guests?

Will it be impacted by the weather? Usually the question is rain, but other extremes can be just as problematic.

One of my best friends planned a hotel garden ceremony outdoors in Southern California. The setting was beautiful, but the Labor Day weekend ceremony turned out to be during a record-breaking heat wave and no accommodations had been planned to provide shade. Ten years later we're still talking about it.

Will you be having the wedding in the city where you live, where your family lives (if different) or somewhere else?

FINDING A SITE

There was once a time when the choices were obvious. You were married at either your church or synagogue and had the reception at a nearby hotel. You could marry and have the reception at your parents' home. You could have the whole event at your parents' country club, at a hotel or a reception hall. Or you could elope.

Now there are so many options it can make your head spin. But ask yourself, "What weddings have I been to that I thought were what I'd like." "What kind of day (or evening) do I want to remember?"

Once the two of you have resolved these questions and the ones above, start your research and shop around to find people who will work with you to create the celebration you want.

THE OUT OF THE ORDINARY

You may think you have a good feel for what's available, but here are some ideas that you might want to investigate. Some of these are suggestions from Bride's magazine that are admittedly off the beaten path:

- A cruise: Cruise lines like Celebrity
 Cruises will organize a wedding ceremony and reception from ports such as
 Fort Lauderdale, New York, Los Angeles, Bermuda, Cozumel, Mexico; and
 Vancouver, British Columbia.
- A historic mansion.
- Grand Canyon National Park and its Shrine of Ages auditorium.
- Opryland Hotel in Nashville, Tenn.
- A presidential library.
- A European castle.
- A houseboat or riverboat.
- Disneyland or Disney World.
- Your college alma mater.

YOUR LOCATION CHECKLIST

Once you've made the decision and settled on a site, Modern Bride suggests a number of details to check off. These include:

- Date availability and discount days to consider.
- · Rental fee and what it includes.
- Time allowed to decorate the space for the day of the wedding.
- Whether there will be other receptions held that day.
- Number of guests the space will accommodate comfortably.
- Terms of liability insurance.
- · Ratio of staff to guests.
- Overtime charges.
- Postponement/cancellation policy.
- · Gratuities and taxes.
- · Escalation clause.
- · Availability of valet parking.
- Coat check accommodations.
- · Clean restroom facilities.
- · Room for changing.
- Disabled access.
- Availability of a nursery or baby sitter.

Make sure that you bring up everything that you want addressed and that the answers you get are put in writing.

By Charlene Baldridge COPLEY NEWS SERVICE

An old proverb, further promulgated by Chaucer and Shakespeare, states: "Love is blind."

Well, not any longer.

With increasing frequency, altar-bound couples of all ages are availing themselves of documents and agreements formerly used only by the rich.

Prenuptial agreements frequently are made to protect the Donald Trumps of the world from (usually younger) women who are "non-moneyed," or cash-disadvantaged.

Prenuptial agreements are indeed useful for older divorced partners, male and female, entertainers and financiers, with millions of dollars in assets and possibly astronomical potential earnings, who are eager to protect themselves and their heirs in case of divorce. With the divorce rate hovering near 50 percent, one can hardly blame them.

Back in the days when marriage was a contract between the state and the couple who married, and one's rights and obligations in marriage were determined by prevailing mores that assigned roles by gender, we used to sigh and chuckle over the innocence of young, altar-bound lovers. We knew that they, too, would be tested by life and felt a peculiar mixture of envy and pity. Premarital contracts were virtually unheard of, and, if heard of, were viewed with alarm and disdain. This marriage obviously wasn't expected to last!

A young woman of the day frequently entered marriage directly from her parents' home. If she were the one with potential wealth by inheritance, her parents usually forbade the marriage or forced the groom to sign some kind of premarital agreement.

Couples of the '90s are eminently wiser than we were. They tend to marry later, having received an education and/or established themselves in their careers. Despite the blindness imposed by love, they seem more aware that there are many matters to be agreed upon prior to the ceremony.

Foderaro writes of one 30-something couple whom she calls typical of the changing prenuptial breed: "The wife was an accountant, the husband a graphics designer. It was the first marriage for both, and neither was independently wealthy. But the wife, a principal in her firm, wanted to protect her interest in the business, while the husband wished to safeguard his earnings made before the marriage."

Joan F. Kessler, a partner in the Milwaukee law firm Foley & Larder, agrees that prenuptial agreements aren't just for the rich and famous.

"At the ceremony, you promise to 'love, honor and cherish," she says. "At the bank, you promise to use everything you and your spouse own to pay back money you borrow. This may not be the type of devotion you had in mind, so some type of premarital contract may be appropriate."

Although she agrees that negotiating a prenuptial agreement can sometimes squeeze the romance out of a passionate

relationship, Kessler believes couples should consider such agreements in a number of circumstances. Among these are the following: One person owns or plans to start a business and wants to protect at least some assets from business creditors; a major inheritance is expected from one side of the family; when there are children from a prior marriage; when a couple's individual relationships to money widely vary.

Kessler outlines some of the more common areas to be addressed as follows:

Management of assets accumulated prior to marriage; handling of expenses during marriage; management of real estate and other property; division of assets in the event of a divorce; benefactors and what they will receive in the event of death.

"More than one wedding has been called off due to character traits discovered in the course of negotiating the terms of a premarital agreement," says Kessler, who says that couples who manage the process provide

Continued on 9

Putting issues in writing helps clarify personal needs

Continued from 8

themselves a modicum of certainty regarding some aspects of their married life.

Many frown upon prenuptial agreements as destroyers of romance or as advance planning for divorce. One such is Jacqueline Rickard of Port Townsend, Wash.

"When my fiance and I decided that we wanted a prenuptial agreement, we couldn't find any resources to support us," she said in an interview on Amazon.com. "We wanted a prenuptial agreement to protect our marriage, not tear it asunder. So we created our own contracting communication process and successfully completed an agreement that reflected our love and trust."

Jacqueline and her husband, Bob Rickard, were on their honeymoon when it dawned on them that their experience could help others. Jacqueline, who had

done a little writing in earlier careers, set about writing the excellent guide titled "Complete Premarital Contracting: Loving Communication for Today's Couples" (M. Evans & Co.).

"Contracting works for anyone who is interested in clarifying subjects not yet discussed, issues not yet resolved," Jacqueline writes in her book. "Preparing a marriage covenant, whether in the form of a legal contract or a private statement just for the two of you, motivates lovers to learn about one another. expand their trust or, perhaps, discover before they marry that their partnership has unsolvable problems."

That could certainly lower the divorce rate. It is possible, says Jacqueline, to deal forthrightly with the distinctive factors that make your partnership special and still remain in love.

Jacqueline's book offers lovers two types of premarital contracts, public legal contracts and private intimate contracts, and clarifies which type is best for individual situations. Sample documents are included. The book is laced with humor and is an invaluable resource for any marriage.

No matter what kind of contract you choose, information and direction are available from attorneys, accountants and counselors.

"The final goal," Jacqueline says, "is to use these experts to help you achieve your goals, not to have them tell you what you want."

According to the consumer guidebook "Weddings for Dummies," some people also use prenuptial agreements for setting guidelines for merging families, having children and managing those once genderdetermined household duties.

"Such delineations may seem like overkill," the guidebook states in the "Marital Minutiae" section, "but some couples find that putting issues in writing helps them communicate their own needs and desires before they become unresolvable problems ... be flexible and certain that every negotiation reflects your love for each other.'

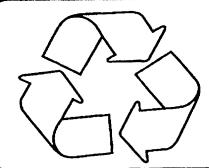

If you decide a "prenup" is for you, set the wheels in motion early. Jacqueline's book includes a time line of six months' duration. Then you may enjoy the prewedding festivities with no more than the

Perhaps a prenuptial agreement is not for you; however, a discussion of such issues certainly would remove some of the scales from your bliss-filled eyes and make you better prepared for the realities of married life.

orthville Manor Banquet Jacility. Making the transition from the single life to a lifelong partner can be made more smoothly when couples prepare for marriage with counseling.

Premarital counseling can be helpful

By Charlene Baldridge COPLEY NEWS SERVICE

Some kind of premarital counseling is received by everyone. Unsought, it comes in many forms, mostly well-intended. Some is proffered by sisters, maiden aunts, mothers, fathers and best men.

Premarital counseling is a prerequisite to marriage in some religious denominations. Sometimes it is administered by priests who are not allowed to marry and emphasizes the spiritual bond between husband and wife, the sacred obligations of this bond and the sacramental nature of marriage. Such counseling may be part of the package offered by other clergy. Often, the altar-bound are receptive, but frequently the counseling sessions are nothing more than something to be checked off the premarital to-do list.

To their credit, still other couples, especially children of divorced and multidivorced parents, earnestly seek premarital counseling in the hope of breaking the cycle.

Concerned about the American divorce rate, currently holding at somewhere around 50 percent, government officials in some states hope to legislate required premarital counseling and to extend their states' waiting periods for marriage licenses.

Does premarital counseling do any good? There doesn't seem to be any data, pro or con, to substantiate a case.

Dr. Howard Rankin, a clinical psychologist and adjunct professor in the School of Public Health, University of South Carolina, makes a strong plea for premarital counseling in his new book titled "10 Steps to a Great Relationship" (Step Wise Publications).

"What's the argument for premarital counseling?" he asked rhetorically in an interview. "We know about the precept of romance (he terms it the Novel Erotic Attachment, NEA, a trick to perpetuate the species), and we know that is really a separate and distinct phase from the business of marriage. Romance is great, wonderful, and it's important to get people together. It is not a sound basis for marriage, actually."

Try telling that to the love-struck couple in your office, Dr. Rankin. When people are infatuated they are not going to learn anything anyway or listen to anyone's admonitions or advice, right?

"To some extent that's true," he said.
"The NEA is an illusory state and thus not the best time to make long-term commitments, but that is precisely what we do. This kind of love is a sort of delusional state from which most couples emerge typically within six months."

Rankin believes that premarital counseling allows couples to make their eventual transition to reality in a more informed manner than they would otherwise.

"Marriage is a contractual arrangement that requires love to make it work," he says.

Marriage preparation allows the couple to discuss their expectations, obligations and responsibilities within the relationship, and their aspirations. This is a discussion that might otherwise not take place.

"People don't discuss the really important issues in terms of their commitment," he says. "They assume that magically they are going to convince their partners of their point of view or that somehow their partner is going to change."

Rankin believe that rather than a judgment whether the couple is a good match or a predictor of whether they will make it, premarital counseling should be more about giving them tools and expectations.

"This is what marriage is about," he says, "Here are some things that will be useful for you to discuss. And here are some tools. Doing this has some value."

Marital counseling or marriage preparation is nothing new, Barbara Dafoe Whitehead points out in her 1997 book titled "The Divorce Culture" (Alfred A. Knopf). As early as the 1920s, Ernest R. Groves created the first college-level "family life" courses and later established the first marriage-preparation courses

"Groves was one of the pioneers of professional marriage counseling, and the author of a number of practical marriage books," Whitehead writes. "Influenced by the teachings of Freud, he sought to combine traditional morality with the new insights into human psychology and behavior, and thereby to develop a more scientific approach to marriage and marital problems."

There is no doubt that aside from parenting and death, the life experience we Americans seem least prepared for is marriage. Many, including Whitehead and Rankin, believe this is due to our market mentality.

"If our marketing culture has deified the convenient and the instant it is because we want it that way," writes Rankin in his book. "We want to put out less and less effort. We do not want to have to exercise self-discipline. We have a strong urge to abandon impulse control, one of the core skills of love."

Madison Avenue is not totally to blame, writes Rankin. "Because most people don't know what love really is, it is no surprise

Continued on 11

Issues, grievances best discussed as they occur

Continued from 10

to find that many are not very good at it. Worse still, being products of the Instant and Disposable Society, they do not know that they are not good at it."

So, how do we get good at love? At preserving our marriages?

One of the greatest bits of advice my daughter received prior to her marriage was from the couple's pastor, who advised her and her prospective husband not to "knapsack"; that is, do not wrap and store grievances, which later can be pulled out, say during an argument, and used as ammunition. This advice has stood their 16-year marriage in good stead many times. Issues and grievances are discussed as they occur.

"Relationship satisfaction is determined less by how compatible or incompatible partners are, and more so by how that couple handles their incompatibilities," says James Koval, Ph.D., MFCC, of the Child Development and Family Studies Department of California State University, Long Beach.

Successful management of conflict actually assists in helping a relationship grow and avoid stagnancy, and it also can be a very positive rewarding experience for couples. Managing conflict is a skill, and just like any other skill, it can be learned, applied and practiced.

"First, couples must learn to expect and know how to effectively manage conflict in their relationship," said Koval.

"Second, couples must be diligent to continue to build into their relationship opportunities to build on the positive. My clinical experience has found that not too many couples talk about what they appreciate in their relationship, nor how things are likely to change after marriage."

Studies have found premarital counseling that offers conflict skills training to be effective in diminishing the divorce rate, according to Koval.

"If we are to prevent divorce and build strong marriages, we must accept that challenge at the front end of the conveyor belt," he says, "during the premarital period."

According to Michael McManus, president of Marriage Savers, a national movement to lower the divorce rate, clergy in more than 75 U.S. cities have signed Community Marriage Policies.

McManus, author of the syndicated "Ethics and Religion" column, claims that his organization's premarital inventory can predict, with approximately 80 percent accuracy, a couple's likelihood to divorce.

According to a spokesman, the Marriage Savers strategy involves requiring four months of marriage preparation; insisting that engaged couples take the premarital inventory; providing mentoring couples

who lead at least four premarital sessions for engaged couples; strengthening existing marriages by encouraging all married couples to attend a Marriage Encounter, Family Life Weekend or similar experience; creating a marriage ministry of couples whose marriages once nearly failed to help other couples now in trouble to heal their relationships; and beginning a stepfamily support group that can reduce the divorce rate for second or third marriages with children from a previous marriage.

LEGISLATING PREMARITAL COUNSELING

"I am definitely pro-education for couples," said Dr. Karen Blaisure, an assistant professor of counselor education and counseling psychology at Western Michigan University. "I tend not to be pro-legislation."

Blaisure was a member of Michigan state Rep. Jessie Dalman's divorce reform task force, convened in the summer of 1995.

Blaisure also worked with Dalman's aide, Linda Kokas, on language for the proposed bill, which would end unilateral, no-fault divorces when children are involved; mandate pre-marriage and pre-divorce counseling; and require a 60-day marriage license waiting period for those who do not attend marriage education classes.

"In my experience as a family therapist." said Dr. Robert Butterworth of Contemporary Psychology Associates in Los Angeles, "if premarital counseling is imposed or required it is a waste of time. Both parties are there because they have to be. They will just go through the motions without motivation to see or work on conflicts."

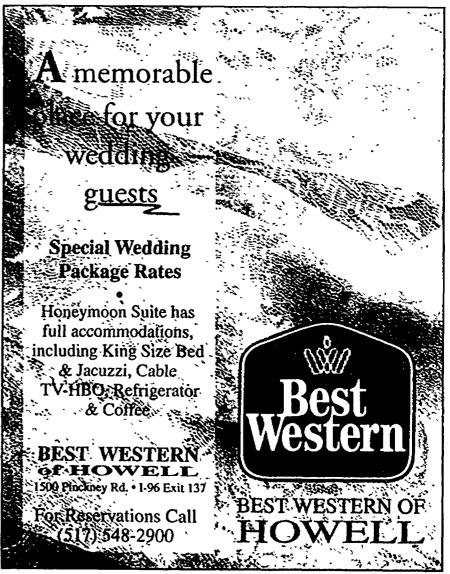

If you are seeking premarital education, you may find courses that last anywhere from a few hours to several days and vary greatly in cost and quality. There is one near you, if you but search.

Check with clergy and licensed counselors; inquire about Prepare, the marital inventory created by University of Minnesota researcher David Olson; and if you're in Colorado, the University of Denver runs PREP the Prevention and Relationship Enhancement Program - created by researchers Scott Stanley and Howard Markman, who coauthored (with Susan Blumberg) a book titled "Fighting for Your Marriage."

Does premarital counseling work?
University of Washington psychologist
Neil Jacobson says, "The jury is still out. It
all depends on the quality of the counseling."

Other suggested reading includes "Why Marriages Succeed and Fail" by John Gottman, and "Divorce Busting" by Michelle Weiner-Davis. And there is also "Marriage for Dummies," which most of us, indeed are.

For the "time of your life", be sure to attend Genitti's Dinner Theater, for the "beginning of a lifetime", let us help you plan:

DRILL BIT GUIDE

Steels:

Alloy: A general compound for occasional or light use.

High Speed Steel (HSS):
A harder compound for a wide variety of uses in woods and soft metals.

Cobalt High Speed Steel:
A percentage of cobalt is added to increase longevity when drilling soft and hard metals.

Coatings: Black Oxide: A coating of black oxide increases heat resistance and provides better chip flow.

<u>Titanium-Nitride</u>: A thin coating of utanium-nitride reduces heat significantly better than black oxide.

CIRCULAR SAW BLADE GUIDE

General Purpose These blades do the bulk of work such as cut-off, ripping

and framing.

Carbide-tipped Welded tips on these blades last up to 50 times longer than regular blades allowing heavy duty use.

Abrasive Cut-Off

These blades fit a wide number of tools. Masonry blades cut concrete, brick, cinder block, cement and patio blocks. Metal blades cut steel, stainless, iron, sheet metal, bronze, copper and aluminum.

5/8"	15/16"
3/4"	1-1/8"
7/8 "	1-5/16"
1"	1-1/2"

Common grade for general purpose fastening. Measure from the underside of head to tip of bolt.

For fastening directly into wood surfaces. Use with lag shields for masonry applications. Measure from the underside of the head to the tip of screw.

HEX NUTS:

For general purpose applications. Most commonly used nut.

祖宗等

WING NUTS:

For quick assembly and disassembly by hand.

SPEED NUTS:

For quick application of fasteners on oversized holes.

LOCK NUTS:

Use where vibration may cause loosening.

CAP NUTS:

For protection and appearance.

Use where a smaller outer diameter is required.

FENDER: General use.

Use where a larger outer diameter is required.

Use to prevent nut or fastener from loosening.

Provides superior lock on fasteners that vibrate.

INT. TOOTH: Use to prevent fastener from loosening. Teeth bite into surface for superior holding power.

FINISH: Use with flat and oval head screws. Where countersinking is not practical.

Dark silver, low shine. Greatest rust protection. Non-magnetic.

ALUMINUM: Dull to bright silver coloring. Lightweight. Will not rust. Non-magnetic.

GALVANIZED:

Hot dipped dull gray coating. Increased rust resistance, Magnetic. SOLID BRASS:

Dull to bright yellow coloring. Will not rust. Non-magnetic.

BRASS PLATED:

Dull to bright yellow coloring. Excellent rust protection. Magnetic.

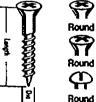

All Crown Bolt^a fasteners are sold by the piece or in boxed quantities (25-100 pieces) so you can buy as little or as much as you need depending on the job specifications of the project you're working on.

And, Crown Bolt fasteners come in thousands of sizes and types to perfectly match your needs.

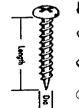

WWW.SCHELLS

Round F Round For directly fastening into wood surfaces. Smooth tapered shank to prevent wood pulling and splitting. Measure from the outer perimeter or flat underside of the head to the tip of the screw.

Hardened steel construction, Self tapping design with fully threaded shank to join sheetmetal and draw together. Measure from the outer perimeter or flat underside of the head to the tip of the screw.

MACHINESCRE

Round

Use with nuts or apply directly into a threaded receptacle. Measure from the outer perimeter or flat underside of the head to the tip of the screw.

The New Family Club in Novi Membership Information

248-735-8850

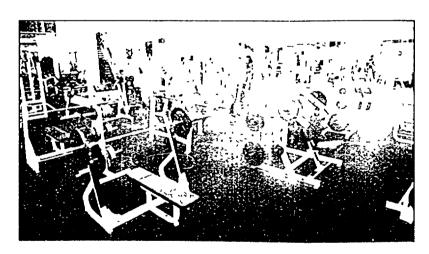

The Sports Club offers three different types of memberships: Fitness, Tennis, and Summer Swim Club. Fitness members receive a 30% discount when joining the Summer Swim Club and Tennis members receive a 15% Summer Swim Club discount.

FITNESS

fitness members have full access to the fitness center and the group exercise and aerobics classes may reserve tennis courts and may also enroll in the Club's tennis swimming, gymnastics, dance and martial arts programs at discounted rates.

The Sports Club of Novi brings you the most complete fitness center and programs available

FITNESS CENTER

Cardiovascular -- Complete with abundant treadmills, stairmasters, crosstrainers recumbent bikes stationary bikes and rowers, this multifaceted cardio center will nelp you keep your titness program on track

Weight Training - Our weight training center features two extensive Life Litness circuits

specific function equipment from Hammer Strength and a 1,200 square foot free weight area. The Sports Club offers personal training for members who want to develop a closely supervised and individualized approach to fitness.

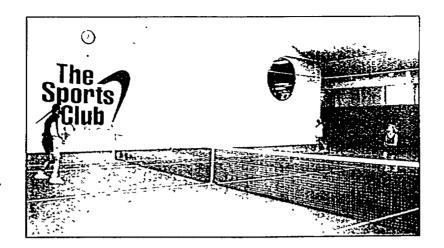

GROUP EXERCISE AND AEROBICS CLASSES

The Sports Club's certified aerobics instructors offer a schedule of classes designed to accommodate all levels of fitness and to provide the variety our members demand. Classes include: low impact, high impact, step, Spinning, basic for beginners, cross training, flexible strength, body conditioning, voga and water aerobics. Each week we offer 35 to 50 hours of classes.

Our 2,000 square foot aerobics studio has a specially-designed floating wood floor to ease knee, hip, ankle and back strain, and a top quality sound system.

TENNIS

Tennis members may reserve courts and enroll in the Club's tennis, swimming, gymnastics, dance and martial arts programs at discounted rates. Tennis members do not nave the right to use the titness center or attend group exercise and aerobics classes.

The Sports Club offers the area's finest tennis instruction and programming for juniors and adults at its world-class facility. We have eight permanent indoor courts and four outdoor courts that are covered with an air structure during the cold weather months. All courts feature state-of-the-art lighting.

Adult Instruction -- We have a top flight staff of teaching professionals. You can choose from the following lesson options: private lessons; semi-private lessons, clinics, clinic practices; strategy clinics; and organized practices.

Adult Competition — The Sports Club provides competitive match opportunities regardless et vour level of tennis ability. Players can choose from Weekend Travel Teams, USTX. Teams, or any number of daytime and evening leagues. Women can also take part in the Daytime Suburban (doubles) Teams which compete against other area clubs.

In addition to our vast programming options, tennis members benefit from club amenities such as clean locker rooms, access to our quality kids' center and a convenient snack bar

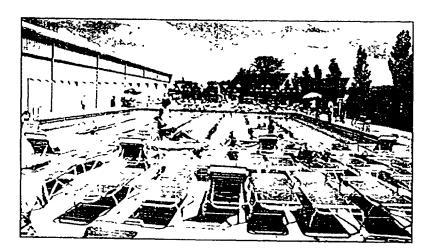

Junior Instruction and Competition -Starting with the youngest Inv. Iot
through to the most experienced
national-caliber junior player, The
Sports Club offers after-school and
weekend classes for all skill levels.
Our tennis program also offers
numerous opportunities for match play
for junior competitors.

SUMMER SWIM CLUB

The Sports Club's Summer Swim Club is a must for your family. Our summer swim

complex includes an eight-lane pool, a training pool which slopes from 18 inches to three feet, a fun-filled water park, locker rooms, a convenient snack bar and patio.

The Sports Club also ofters summertime swim programming through swim lessons and our own Club swim team.

What's Ho	t in the Kitchen?	12

Cover photo by Gene Meadows.

Homeowners are now able to shop for kitchen and bath cabinetry and accessories from a nationally regarded distributor once solely dedicated to supplying on a wholesale basis LW Kitchen Distributors, spear headed by Jim Lathorne, president, and Dan House, sales manager, is a recognized leader in the kitchen design industry. Established by Lathorne's lather, Quentin, and partner John

Whittaker in 1947, LW Kitchens was founded as LW Tile Company, a distributor of specialty building materials. Shortly after, this partner ship dissolved and Quentin Eathorne assumed full control, quickly turning

EW Tile Company into a prosperous distributor of Formica plas he lammate during the

post war era.

In the 1980s, Im Lathorne took over as president, at a time when changes in the industry meant changes in the direction of the company. EW Tile became LW Kitchen Distributors and the company switched from being a laminate supplier to large scale distribution of kitchen and bath cabinetiv

Today, LW Kitchen Distributors handles the wholesale distribufrom of an extensive of cabinet variety products for their new construction, remodel ing and institutional chentele Now LW is ready to cater to its newest market, the end users of then products—the home OWNER

"We've discovered there are approxi mately 100 buildinpermits pulled per month by this type of customer in the eight county metropolitan area," says Dan House We're a consumer friendly organization with a trade history and want to encourage owners builders to specify our products?

To enable home owners to view the lat est, most umovative kitchen and bath items on the market, LW has

opened a new showroom in Sterling Heights to complement their original showroom in Wixon. Both locations are open to the public and offer Juli kitchen and bathroom vignettes in a friendly atmosphere. The Wixom showroom, FW Kitchen Distributors headquarters, has a 25 000 square tool warehouse and is the main distribution center. The Sterling Heights location dedicates an impressive 5,000 square teet to the showroom. We offer the same products at both, but use very different displays and concepts," House says, "I consider Wixom the boutque showroom and Sterling Heights the

studio show toom

Working with such well known manufacturers as Aristokraft (the second Engest cabinet manufacturer in the nation) and Decora Cabinetix, I W is able to accommodate customers at any price range "We'd like to dispel the mixth that we only offer the least or most expensive products on the market, says House. "We have a wide range of products to lit all customers and all hudgets from the low end to the verv elaborate.

With a half-century of trade expertise, customers receive personal ized service from highly educated professionals, "We pride ourselves on having one of the best design staffs for a distributor in the nation." House says "On our staff of 16, we have five certified kitchen designers, six degreed interior designers, two people who went to architectural school and several people who are beensed builders themselves."

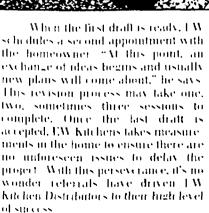

Starting with an introductory meeting, all customers receive LW's dedicated altention to their project, whether small or grand, From the basis of this interview, which includes

Continued on pg 6

PARID WILLWAL DESIGN BY EW KITCHENS PHOTO RY GENE HEADOWS

reviewing blueprints, discussing ideas and completing a "needs and wants" survey, an EW team will create the inc tial proposal, "A senior designer will oversee the project working hand in hand with a second designer." House says. After the proposal is drafted, a technical staff member will critique the mittal design, looking for inconsistencies or ways to improve it, "Our internal systems were implemented to be interdependent with one another," House says A call this check and balance our NASA Triple Redundancy ***

Amazingly, the time spent on these stages can quickly total 5 to 15 hours before the chent even sees the first draft At LW Kitchens, more hours spent on a project isn't necessardy related to cost, but instead relative to the time it takes to meet the customer's needs, "Some of our most challenzinz projects are in the smallest kitchens." House says. If we do the small ones right, people will trust us with the biz ones loo

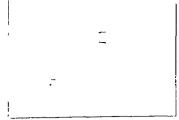

Finally, in an industry that often attracts short term opportunists. consumers now have access to a

professional distribution company with an established history, "Our pervading philosophy is that the kitchen distribution industry is a people oriented one whose customers deserve top quality products and service at competitive prices." House says

LW Kitchen Distributors is an active member in several national and local associations including the Builders Industry Association of Southeastern Michigan, National Kitchen and Bath Association, Home Builders Association of Bashtenau County, Home Builders Asso ciation of Energylon County, National Association of the Remodeling Industry. the National Association of Home Builders and the Novi Chamber of Commerce 📕

YOUR PARTNER IN BUILDING YOUR Dreams.

Trieplaces hold a special place in our hearts and home. Faintly and friends gather around them. Cats curl up in their warm glow. They make a great backdrop for a candleht dinner.

Manulacturers have designed many convenient and highly efficient fireplaces that can be added to virtually any room. These gas fireplaces burn with realistic logs and controlled flames. Some even operate by remote Many models are up to 99 percent efficient. They're also very easy to install in both new and existing homes.

For example, direct vent fireplaces are immediately vented outside eliminating the need for a climiney. They also utilize air from the outdoors rather than "stealing" the warm an from inside for even more convenient installation, homeowners can look to the ventless fireplace – the perfect answer for a small or awkward location. These safe products require no ventilation at all and can be placed almost anywhere, including an interior wall. They are available with several different maintel options providing a polished effect.

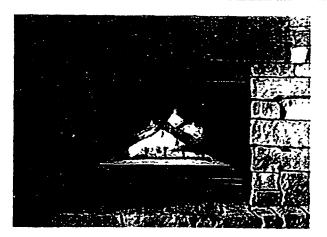

With all the options available today, no homeowner should be defined the experience of gathering around a fireplace on a cool multithis fall.

CARLSON GLASS

A custom made mirror adds drama and beauty to your home and turns an ordinary fireplace into a work of art. This fireplace mirror was designed by Carlson Glass for Lisabeth Builder's show home. Homeowners, designers and builders can visit their showroom. Michigan's largest—in Brighton—The 6,000 square foot facility has over 40 imirror selections on display and idea books to spark your creativity.

For more information call Carlson Glass in Brighton at (810) 227-9606

Interior Avenues arom the Michigan Design Center Luxury Ritchens & Baths

hot bath with cascades of bubbles in a small tub, surrounded by sky blue and white faux-marble tile and a shag rug to match. A hot pie brimming with apples atop marigold-yellow laminated countertops with far too few brown paneled cabinets to match, and pears and vegetables on the wallpaper. Those were the kitchens and baths of our past, Functional, Simple.

Today, we want luxury! Jets in a tub that will fit two adults comfortably. A kitchen where everything has its own space and where you can focus your entertaining. Unique. Grand. Understated maybe, but not simple.

In a world of hurry and stress, we want our homes to be places of respite. The kitchen of today is one of ease, accommodation and social gathering instead of labor- intensive seclusion. No longer is the kitchen a self-contained room; it is an open and visible part of the entire living area that lies in, or even defines, the design of the whole house. Whether you are building your dream house, or updating your current domain, maximizing space while heightening style and function are keys to a great kitchen.

For years, Europeans have held the leading edge in unique and functional kitchen design while American kitchens in the '70s and '80s were, quite frankly, boring, Today, American manufacturers have taken note of their market share decline and are producing kitchens that utilize a wider variety of materials, colors, and styles, reminiscent of a more artistic era.

Gary Fried, owner of the Madison Design Group at the Michigan Design Center, comments on the possibilities

of customizing today's kitchens. "The difference between something good and something great is in the detail," he says. "The customization comes by using a creative mix of interesting but compatible materials. Various grains and finishes of wood cabinetry and trim, natural stone floors, and mosaic tile backsplashes bring art and beauty into what otherwise can be a cold and sterile environment."

> ldeas for ease of access and luxury also originate from the industrial strength kitchens found in restaurants. Convenient built-in accessories, miles of stainless steel, oversized faucets and refrigerators are elassic restaurant fare being implemented into today's home kitchens.

> The trend in bath and powder rooms has followed the same route as kitchens in both contemporary and tradi-

tional homes. Art and nature are

becoming the backdrops for tile design and flooring. Large mirrors and tubs add an element of scremty and indulgence to an intimate space.

Sarah May, owner of several tile showrooms, sees natural products as the trend in tile for bathrooms. "Stones, mosaics, hand-painted and hand-molded products, ceramic tiles with an 'antiqued' look, and decorative relief moldings have a softer, more elegant feel and help to relieve stress," she says.

Large tubs and mirrors are important in today's bathrooms, as well as recessed lighting and abundant

storage. Showers built for two with several shower heads and faucets are also becoming more common.

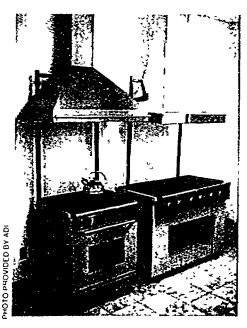

Michigan Design Center is a regional marketplace for interior design professionals, architects and builders

What's so in the Kitchen?

hat's hot in the kitchen? Stoves, ovens, microwaves, dish washers, fancets. They all produce heat, don't they? Manufactur ers are always looking for new and improved products to make life easier in the kitchen. Let's see what's new in the "hottest" appliance categories

Professional ranges have been in homes for years. "Viking actually developed this market over 15 years ago," says Mark W. James of Appliance Distributors LLC in Livonia, Bowever, the original Viking Products didn't offer the important features sought after by today's homeowners. This opened the door for competitors like Dacor to bring wonderful innovations such as self-cleaning ovens, sealed gas hurners and pure convection overs, to the 1908 Kitcher

The features and benefits in professional ranges far exceed those of their traditional counterparts. In fact, they're designed to imitate the work horses found in restaurants. For example, residential professional ranges typically offer 15,000 BTUs per burner. the same as in restaurants. Compare this to the average range that offers 9,000 to 12,000 BTUs. Here are some additional benefits available in many professional models.

Some manufacturers offer professional ranges with sealed burners to keep spills from the interior components and to allow for easy clean up

Convec tion ovens spread heat evenly through the oven cavity for more uniform cooking. They are great for cooking turkeys, cookies and loods that lend to burn in one spot but remain uncooked in others. They're always the hest option when you're cooking on several racks at once,

Manufacturers like Dacor have also designed the pure convection oven "Regular convection ovens have a bake element on the floor and a broder above," says James "In pure convection, you not only have one on the floor and above, but also one located around the fan in the rear of the oven cell.' This allows cooks to hake 100 cookies at a time on six racks evenly

Everyone loves the taste of food barbecued on an outdoor grill, but what do you do in

> winter? Get an oven that cooks food with the same smoky flavor as an outdoor grill. Dacor has an exclusive product that offers a 20,000 B4U gas infrared ceramic brother inside a pure convection. electric self-cleaning oven "You can broil steaks and fautas just like at a restaurant," James says

> With all their power, professional ranges can get very hot, especially fround the door Dacor, for uistance, now uses high density msulation that keeps oven doors from rising more than four degrees above room temperature when the appliance is in cooking. broiling or cleaning mode

> Professional ranges are clearly the leaders for producing speciac ular restaurant dishes at home. They range in price from \$2,500 to \$10,000 obviously not for every one. "If you're buying for the look,

there are much better value brands on the market such as Live Star which ofter the profes Sional look and quality of their commercial counterparts, with out all the bells and whistles. James says, "If you'll be enter taining or cooking a lot, a profes sional hrand such as Dacor is the better choice."

If you do select a professional range, you'll need to accessorize it with the proper range hood.

Hoods, available in several sleek and traditional designs, can add splendor to any kitchen. Lake the ranges they accommodate, the hoods can be purchased in stainless steel, copper, brass, vibrant colors, even wood (with metal liners). In order to capture the additional heat, grease and gases created by the professional range, the hood should overlap the range by three nuclies on each side

According to the Association of Home Appliances, more than 87 million kitchens in the United States have inicrowave ovens. Microwaves are available in countertop, over the range and built in models. Some models produce oven-like results (browning, baking and roasting) in a manner of minutes. Microwaves also offer touch pad convenience, recipe memory and overhead stove lighting

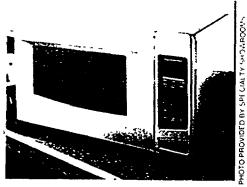

PHOTO PROVIDED BY GREAT AT'S RICAN KITCHENS

"The
real hot buzz word
is the stainless steel
interior." James says.
In the past, dishwash
ers were designed
with porcelain interi
ors. Unfortunately,
porcelain is expensive and potentially

hazardons to the environment when manufactured. Makers turned to plastic interiors, the most common shell used in dishwashers today, It has disadvanlages however, including its tendency to absorb olders and stain easily. Now stainless steel is the latest material gaining popularity on the market. It cleans up beautifully, is very durable and does not stain or smell. A good grade of stainless steel will not rust and also provides an additional insulator to absorb sound. Homeowners want a quiet per formance. White many companies offer "silent" products, consumers should do their homework. Look at how the product is huilt. The motors in the dishwasher should

Drawing Draway 1010 Chi

be mounted independent by from the tank, Rubber hoses help maintain a quiet system, as does added installation.

To avoid paying more for features you won't use in a dishwasher, review your family's needs for additional cycles on the system. A cheaper model doesn't necessarily mean you're skimping on quality.

"High-necked lancets are popular." says left Moss from Advanced OPlumbing. "You can put pots and paus in the sink without having to shove the

spout out of the way."
Faucets with pull out spouls are hot sellers too. Spouls with dual sprays, normal stream and "wide vegetable" stream. The "wide-vegetable" stream has a higher pressure for scrubbing veggies and helping in clean up, "Stainless steel and satin nickel are the most popular finishes since they match the stainless steel sinks," Moss says. A

Imagine a time 45 years ago when many of the products you take for granted weren't available. Only the richest homes had dishwashers and garbage disposals. The cost put them out of reach for most homeowners. Newly invented microwaves were far too bulky and expensive for the average homeowner. No one had ever heard of a self-cleaning oven.

Still, in the 1950s, the happy homemaker could get by with a good stove, cool refrigerator and an assortment of the latest appliances on the market.

Electric ranges were favored by most housewives. They were heavy, well-built, and quite wide – often up to 45 inches. This allowed for more workspace as well as convenient double or extra large ovens.

Crosely, Westinghouse, Frigidaire, General Electric and Whirlpool were popular refrigerator manufacturers. They offered frost-free models with plenty of storage space and a modest freezer on top. (Separate chest freezers were usually located in the basement or garage.) They came in white, were fashionably rounded at the top and designed rather thick to accommodate the newest feature, shelving units in the door frame.

In many '30s households, the kitchen was used as the dining room, gathering place and laundry room. Bendix and Westinghouse were the leaders in automatic washers. These machines were heavy and had to be bolted to the floor. If left unbolted, an unbalanced load could rattle the shelves and uproof the floor.

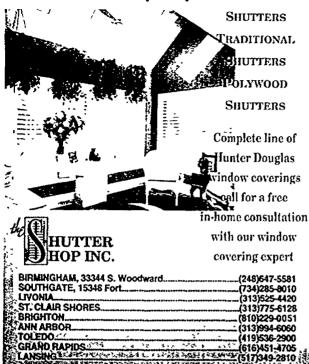

No homemaker could get by without a toaster, mixer, blender, coffee percolator, and the hot new invention of Tupperware. TV dinners were the latest eraze, making dinners quick and easy for the fast-paced, post-war lifestyle.

The homemakers of the '50s managed quite well with what they had, although to us it may seem they did without the "necessities." Fifly years from now, there will probably be magazine articles written about how archaic our kitchens were.

When you join the Livonia YMCA, you are actually joining the entire YMCA of Metropolitan Detroit. Our philosophy of Join One, Join All permits you access to 18 YMCA facilities located throughout the Metropolitan Detroit area. Each YMCA facility is different, but all of them welcome you.

The Livonia Family YMCA offers you and your family a wide variety of fitness and recreational opportunities. The facility includes a 25 yard swimming pool, pre-school wading pool, two gymnasiums, 5 indoor tennis courts, five outdoor tennis courts, two general locker rooms, two adult fitness center locker rooms with whirlpool and sauna, and a 100 station Wellness Center with weight machines as well as free weights.

Fitness Membership

Category	*Monthly Fee	Description	Joiner's Fee
Adult Family	\$47 \$60	18 and up Parents and children under 22	\$100 \$100

General Membership

| Monday - Friday | 5 30 a m - 11.00 p m | Saturday | 7 00 a m - 6 00 μ ta | Sunday | 7 00 a m - 9 00 μ m |

Effective September 20 1998

The following holidays the YMCA will be open 8 00 a m - noon

- Thanksgiving, November 28
- Christmas Eve
- New Years Eve.
- New Years Day
- · Closed Christmas Day

If for any reason you are not completely satisfied with any aspect of your YMCA membership or class, we will stand behin tour services and gledly refund the remaining partion of our fee

If you would like to participate in one of our programs and require special accommodations because of a disability, please contact the Livonia YMCA, and we will do whatever we can to make the appropriate arrangements.

Members may obtain guest passes for their guests at the courtesy counter. Members may host a maximum of two guests at one time. Guest identification is required. <u>Guests are limited to one visit per year.</u>

The YMCA is a family organization. Members are required to wear appropriate clothing: gsm shoes with non-marking soles shorts and a shirt or a leotard, in the Wellness Center, fitness classes, etc., and a swimsuit in the pool. Members must wear either a swimsuit, towel, leotard, or shorts and a shirt in the sauna and steam room. In the swimming pool, infants in diapers are required to wear cloth diapers, and longer than shoulder length hair must be tied back or a bathing cap worn.

The YMCA offers affordable programs and services designed to benefit people of all incomes and backgrounds. Fees are based on the actual cost to provide each program. The YMCA uses contributed funds from the Partners Campaign to ensure that those unable to pay the stated fees are able to participate. If fees are a concern, please inquire at the courtesy counter for a scholarship application form. All records are kept confidential and the form is simple to complete.

Playcare (Nursery) available Free to members. See back cover for more information.

Brenda Durling recently joined the Livonia YMCA staff in January. Brenda is responsible for the implementation and administration of membership growth, strategies and retention. Questions or concerns regarding your membership fees and policies can be directed to Brenda.

LIVONIA FAMILY YMCA

Sponsored by

Friday, November 20, 1998 BURTON MANOR

Sit Down Dinner, Silent and Live Auction, Raffle

Entertainment: Steve King & The Dittilies

This annual event raises money for the youth of our community.

Join us for an evening of auction fun and excitement.

Call Robin Grace at (734) 261-2161, ext. 3312 for further information.

\$40.00 per person

Auctioneer: Bob Turnage, Walker Auctions

At the bottom of each glass rests a clear, cut stone.

Is it the diamond, or just an imitation?!?

One champagne glass this evening will contain an authentic .5 carat diamond.

This offer is limited to only 200 glasses of champagne. \$20 per glass

The Wellness Center is a 7000 square foot roots within the Lixma YMCA. It contains approximately 1000 pieces of high grains fitness equipment, which will allow year to eccern lish a complete and safe whole body workout. Whether you are retrieved in general fitness or competitive to dy-building you will fail equipment in our Wellness Center to suit your raceas on the lip you to achieve your personal fitness goals. There is taken as staff person available in the Wellness Center to provide assistance and answer any questions you may have for additional exercise opportunities, the Wellness Center also includes a lateness Studio, with a wide variety of group exercise classes select ulted throughout the day. Check out the "group exercise" section in this brochure for more details!

Fitness Assessment

Your membership at the Lavonia Family YMCA row richeles an annual fitness evaluation with a certified exercise specialist. You will receive a comprehensive fitness assessment, including your level of aerobic fitness, body composition, strength, flexibility and upper body strength. These can be scheduled by centacting Carol Watkins at (734) 261-2161, ext. 3302.

Equipment Orientation

There are many pieces of equipment in the Welliness Center Because we want your workouts to be sate and effective we offer each and every member a thorough orientation to the room. Your orientation will last approximately 1-1/2 hours, and at the end, you will have a personalized exercise program, customized to your goals. These are scheduled with the fittess staff working in the Wellness Center.

Personal Training

If you need a little extra help getting started, a little ss spacialist will work with you to design a customized exercise program to help you achieve your fitness goals. Please contact Jenn Kennedy or Mark Papineau at (734) 261-2161 to schedule.

Open Soccer Registration for Spring 1999 Begins January 4, 1999

Through the youth sports aren't the Lavonia Family YMCA is exposing its participants to Character Devilopment. The four tore areas of character development are Caring Respect. Responsibility, and Honesty. It is our hope that in addition to a parent volunteer coach for each team, we can recruit a parent Character Development Coordinator for each team. The YMCA will train the coordinators in exercises that teach the children the four core areas of character development. Exercises will melade ream cucles and group projects

At the YMCA, we care about the development of a child as a person as well as an athlete. Our sports leagues will always emphasize fun over winning. We welcome participants of all abilities and guarantee every child will play at least 50% of every game

Due to Thanksgwing, Thursday classes marked with an asterisk (*) run for 6 weeks.

The Livonia Family YMCA conducts a series of three class sessions for beganning junior players, ages 8 through 14

years of age who have had little or no tennis experience, we wish to teach the fundamentals in a relaxed, yet chal-

lenging atmosphere. At the completion of the series of classes each student will have been taught to

- · Hit a forehand, backhand and serve-
- · Understand the court terminol ev-
- · know how to keep score.
- · Hardle themselves with proper court ebquette

Beginners who have had no formal lessons should begin at this level. Work on grip, stance, and strokes. Complete coverage of rules and scoring.

FREE HOUGHTON-HIGGINS LAKE HIDE-AWAY WEEKEND

Have you ever seen the commercial that pertrays a crowded expression and then quickly pains to a car and a driver that has had enough of the congestion and then exits to follow the non-beaten path? As a result this driver finds peace harmony, and happiness, flod hen a taken the less traveled road, he might never have known this screenity.

Life, like the countereral condeceme aparte mind ment we let it. The nine to tive rat race is only be trable at I worthwhile it we lear to take it easy. Many have heard the expression. Take time out to smell the roses. Howard I may president of Two I ases Building did just that ever 20 years ago. After yield oming in the Higgins and Heaghton I also area, Howard I also yield in I become in the dibble community of yieldion indirection and returnment homes in one of Northern Michigan's Lest kept secrets. Researance County

lust 2.1.2 hours from the Detroit orea. Houghten Like the largest infand like in the state, has been one of Neithern Michigan's has stoppular recreational areas. Higgins Like, just to it miles to the neith, is rated the sixth in of be natual lake in the well-like National Geographic Teras little as \$37,990 von a majorch ise the vocation of returnment home of your dreams. This is not a shell but a quality built we a round realist to live in home on a 10000 squalet.

DREAMS DO COME TRUE

Chalets from only \$44,990

You might isk how this is possible. Two Likes Building builds in excess of 60 homes per year and is able to passion along their vehicle discounts to their customers. Since 1977. Two Likes Building Corp. has built more than 1 000 homes in Rose minor county. Most of their controllors have been apput of the Two Likes Building organisation since its inception and they do make besome of the tracst criftsmen in Northern Michigan.

The marketing approach at Two I skes Bulding is low key. Their formula for stocess is a quality home, low prices and a kin whode able sales start. Every weekend, Two I skes Bulding mystes 8-15 interested parties op in 4th and offers a compliment are given that its Viewing of homes in various stages of construction, are chieflights and available land sites a key I contine the II ward in an in-

There is a mach to do noths are you will never the effect and myestment. It effects sking both downhill and er as country, under eouse watersking as who stalled housing that they may be some of the most be a until myestigm in beyone effects for rentals.

As you are driving in the nearyon will teel as the with nature. There are deer close by ishick squarels and wild tarkers. Crestal eleatereeks seem to be every allere and the smell of tarkers emplore by retreshing.

It is time to exit from the nine to two whirlwind. This Friday take a drive north to a litestyle into dible to all. Roseonimon County, where the living is easy and the litestyle says HOME. For more into mattern call. Two Lakes Building at their Southfield. Thee
